Executive Budget
2009-2011 Biennium
Governor Jim Gibbons

Office of the Governor

JIM GIBBONS
GOVERNOR

January 15, 2009

The Honorable Members of the Senate and Assembly
Seventy-Fifth Legislative Session
Legislative Building
401 South Carson Street
Carson City, NV 89701

Honorable Members of the Seventy-Fifth Legislative Session:

Transmitted herewith is the 2009-2011 Executive Budget for the State of Nevada.

The budget I present to you today reflects a balanced solution despite unprecedented economic challenges.

As we are all aware, our state's revenue streams have come in significantly lower than what was expected and appropriated at the conclusion of the Seventy-Fourth Legislative Session. The interim period has required two special sessions and spending reductions of \$1.5 billion. The budget for the next biennium reflects the stark reality of significantly decreased revenue expectations, as indicated by the projections of the Economic Forum in December of 2008.

This budget anticipates general fund revenues of \$5.7 billion over the biennium. The unadjusted base budget for the upcoming biennium, including caseload growth, payback of the line of credit authorized in December of 2008, restoration of interim contingency funds and inflation and fringe adjustments amounts to \$8 billion. In other words, we are facing a general fund budget deficit of \$2.3 billion.

Regardless of these daunting amounts, the budget I transmit to you today remains balanced and continues to provide essential government services. This budget continues to provide critical healthcare funding for our most vulnerable citizens, including those on Medicaid and Medicare, our mentally challenged children and adults, our troubled and low-income children and families, and our elderly and disabled. The budget also funds anticipated caseload growth in Medicaid – a formidable yet necessary expenditure in these difficult times.

The Honorable Members of the Senate and Assembly
January 15, 2009
Page 2

This budget also includes funding for core public education in Nevada. Although sacrifices have been made in some deserving programs, this budget should not impact classroom size, textbooks and other critical educational tools. I have also proposed the continuation of funding for full day kindergarten in at-risk schools.

Public safety has always been a core responsibility of the state government and remains so in this budget. Although certain spending reductions have been proposed, I have limited spending reductions in the Department of Corrections and the Department of Public Safety to ensure that the safety of our citizens is not compromised. To that end, I have restored funds for the Division of Parole and Probation, so that needed officers can be hired and trained to supervise prior offenders.

Reflecting the decreased revenue projections for the state general fund, the budget also proposes several important and necessary spending reductions. The Spending and Government Efficiency (SAGE) Commission made several recommendations by which the state can realize significant savings. For example, this budget incorporates SAGE Commission recommendations on changes to the benefits and retirement system in Nevada. Those changes are necessary to protect both the short-term and long-term fiscal viability of our state.

I have also proposed a temporary pay reduction for state employees, along with a suspension of merit increases and longevity pay. Although we would all like to ensure that our hard-working state employees do not take home less pay for the same amount of work, we simply cannot afford current payroll levels. And with a state unemployment rate of 8% and climbing, I do not believe that large-scale layoffs are the appropriate solution to our payroll problems. With payroll representing well over half of all state expenditures, we simply cannot close the budget deficit without taking some action to reduce our payroll expenses.

Unfortunately, payroll reductions alone will not resolve the budget deficit. This budget also proposes varying levels of spending reductions in the operating budgets of state agencies, a reallocation of some property tax funds from Washoe and Clark County to the general fund, a change to the way the gaming tax is collected on credit, and a reduction in anticipated costs of both the 2009 and 2011 Legislative Sessions.

Additionally, I have built into the budget anticipated revenues from the federal government, particularly an expected increase in the Federal Medical Assistance Percentage. This budget also proposes the consolidation of several state agencies, the closure of others, and a redirection of room tax revenue currently earmarked for the Commission on Tourism into the general fund. Also proposed is a reduction in general funds for the Nevada System of Higher Education. During the upcoming session, we will all need to revisit how higher education is funded in this state and come up with a workable solution. However, it is important to note that this budget still proposes to spend 13.7% of our general funds for the biennium on higher education, higher than the national average of 11.2%.

The Honorable Members of the Senate and Assembly

Page 3

In accordance with the wishes of the voters, this budget also anticipates an increase in the room tax in both Washoe and Clark County.

These steps, while difficult, will allow us to enact a balanced budget while preserving core government services the people of the Nevada deserve and expect. Nobody can doubt that the upcoming session will have its challenges. However, the session is an opportunity to work together and do what is right for the people of our great state. I look forward to the discussion, debate and resolution of the budget for the upcoming biennium. My administration stands ready to assist you in any way necessary to ensure Nevada's future success.

Sincerely,

The Executive Budget

This budget document has a three-part format with revenue and expenditure detail for each of the components of Base, Maintenance, and Enhancements. Comparison information is provided for the past actual year, the current year's work program, and each fiscal year of the upcoming biennium. Agencies' requests and the Governor's recommendations are shown for the upcoming biennium. This section contains brief explanations of certain areas of the budget and brief definitions of common terms employed in the budget.

The General Fund

The state General Fund receives all revenues and accounts for all expenditures not otherwise provided by law to be accounted for in any other fund. The *Executive Budget* for each fiscal year of a biennium must provide for a General Fund reserve of not less than 5% nor more than 10% of the total of all proposed appropriations from the General Fund for the operation of all departments, institutions, and agencies of State Government and authorized expenditures from the General Fund for the regulation of gaming for that fiscal year.

The General Fund balance forecast in the *Executive Budget* for July 1, 2010 is \$55,123,023 higher than required. The July 1, 2011 balance is \$32,011,381 above the requirement.

The Fund to Stabilize the Operation of State Government

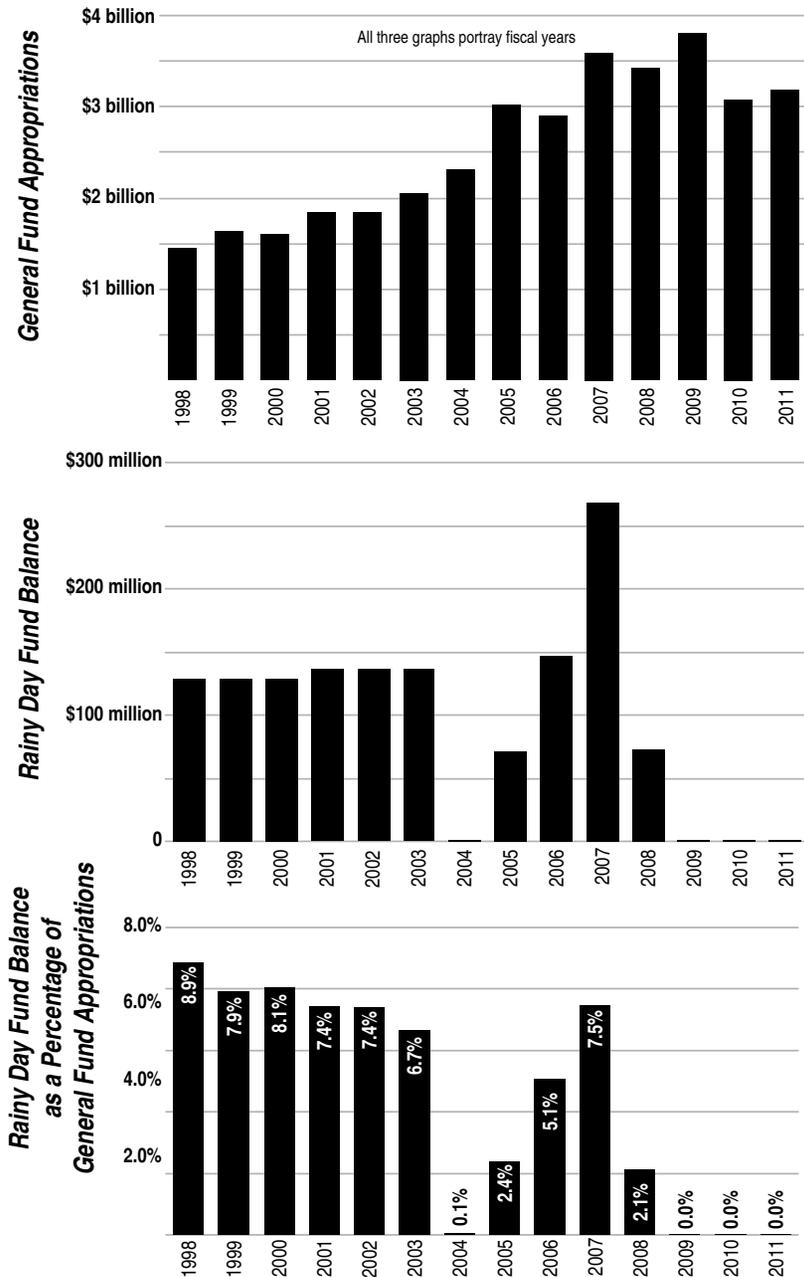

Created by the 1991 Legislature, the rainy day fund, also known as the Fund to Stabilize the Operation of State Government, exists to cover revenue shortfalls or provide a reserve in the event of a fiscal emergency (NRS 353.288).

A direct appropriation to the Fund may be made. In addition, at the close of each fiscal year, the State Controller deposits to the Fund two-fifths of the unrestricted General Fund balance which remains after subtracting an amount equal to 10% of ongoing appropriations.

Money from the Fund may be appropriated only if total General Fund revenue for the biennium falls short of the anticipated amount by 5% or more, or if the Legislature and the Governor declare that a fiscal emergency exists.

The entire balance of the fund was withdrawn during the 2007-2009 biennium to help cover revenue shortfalls. Continued poor economic conditions will likely preclude any significant contributions to the fund during the 2009-2011 biennium.

2009 - 2011 Executive Budget General Fund Revenue Summary

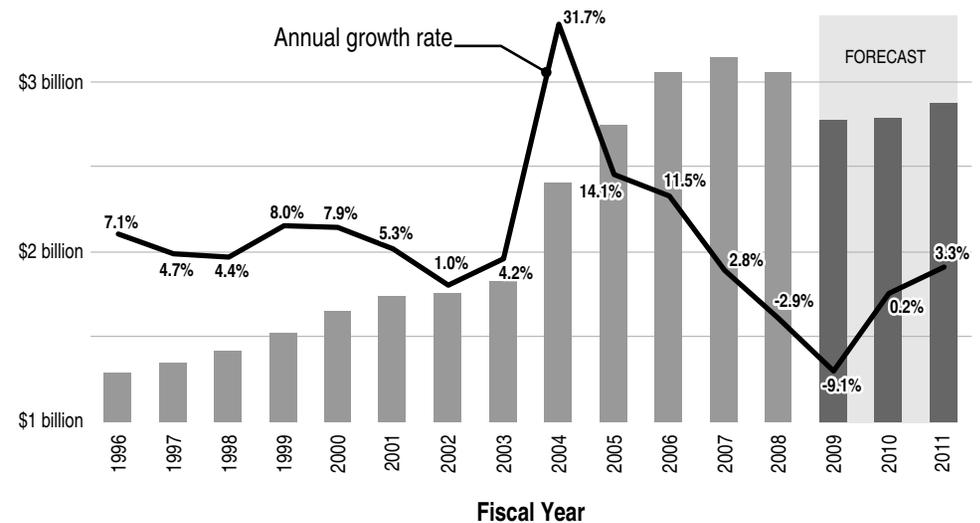

The Economic Forum is a group of private economic and financial experts appointed by the Legislature and the Governor to set General Fund revenue forecasts that are binding on the Governor's *Executive Budget* and on the Legislatively approved budget. On December 1, 2008, the Forum set the revenue projections used by the Governor to construct the 2009-2011 biennium budget. Their forecast predicts that Nevada economic conditions will not improve substantially until the middle of fiscal year 2009-10.

- General Fund revenue fell 2.9 percent in fiscal year 2007-08, the first year-over-year decline recorded since the Nevada Legislative Appropriations Report began publication in 1977. Moreover, according to data from the U.S. Department of Commerce Bureau of Economic Analysis (BEA) and Census, Nevada state revenue collections have not experienced year-over-year declines since BEA records began in fiscal year 1946-47. Indeed, fiscal year 2007-08 General Fund revenue collections were \$251.0 million below the May 2007 Economic Forum forecast used to approve its budget. The unprecedented downturn in General Fund revenues in the 2007-2009 biennium was covered by use of various one-time funding, such as the state's rainy day fund and some cuts to state agency budgets.
- On December 1, 2008, the Economic Forum revised its forecast for fiscal year 2008-09 General Fund revenues, predicting they would tumble 9.1 percent in fiscal year 2008-09 compared with fiscal year 2007-08. The revised forecast for fiscal year 2008-09 is \$753.4 million below the original projection made in May 2007. The Economic Forum is forecasting that fiscal year 2009-10 General Fund revenues will remain at fiscal year 2008-09 levels, and that the General Fund will increase at an annual rate of only 3.3 percent in fiscal year 2010-11.
- Sales and use tax collections, which make up nearly one-third of General Fund revenues, were down 3.4 percent in fiscal year 2007-08 and are forecast to fall an additional 8.6 percent in fiscal year 2008-09. In fiscal year 2009-10, the Economic Forum forecasts sales and use tax collections will be essentially the same as in fiscal year 2008-09, increasing a mere 0.5 percent. In fiscal year 2010-11, the forecast is for 3.0 percent growth, well below the 8.3 percent average annual increase observed over the past two and a half decades.
- Total gaming tax collections, the second largest source of General Fund revenues, fell 6.4 percent in fiscal year 2007-08, the largest decline since 1955 and only the second time during that period that this source of revenue has posted a year-over-year fall. Gaming tax collections are forecast to plummet 12.2 percent in fiscal year 2008-09 before resuming modest year-over-year increases of 3.3 percent and 3.9 percent in fiscal year 2009-10 and 2010-11, respectively.

Expenditure Limitation

The limit on total proposed expenditures provided by NRS 353.213 was added to the budgeting process in 1979. It caps General Fund spending per Nevadan at the 1975-1977 biennium level, adjusted for inflation. The budget submitted by the Governor cannot exceed the amount appropriated for the 1975-1977 biennial budget multiplied by the percent change in population from July 1974 and the percent change in the Consumer Price Index (CPI) from the same month. Construction expenditures are exempt from this limit, as are deposits to the Rainy Day Fund and paydown of the unfunded liability for retirees' health insurance.

Since 1974, the state's population has grown nearly 359 percent and the CPI has increased more than 345 percent. Starting with the base 1976-1977 biennium budget of slightly less than \$390 million, calculating the increase for population and CPI places the spending cap for the 2009-2011 biennium at \$7.949 billion, more than \$2 billion higher than available revenue. This *Executive Budget* does not hit the spending cap.

Appropriations by Decision Unit
Comparison of the 2007-2009 and 2009-2011 Executive Budgets

The Executive Budget is divided into three main components: Base, Maintenance, and Enhancements. Base is the amount spent during the previous biennium after a number of adjustments. Maintenance takes into account increases in costs and in the number of people served by existing state programs. Enhancements are anything else not in Base or Maintenance: any new programs or parts of programs, expansions of existing programs, or changes in what the state does.

Supplemental Appropriations

A supplemental appropriation provides additional funding to meet unanticipated expenses resulting from a current or previous fiscal year shortfall.

PROGRAM DESCRIPTION

The mission of the Nevada State Office of Energy (NSOE) within the Governors Office is to implement the Governor's energy policy, so our citizens can have a reliable, affordable, clean and balanced energy supply. Developing our renewable energy resources, improving the energy infrastructure, and encouraging energy conservation and efficiency will enhance the energy security, stimulate economic development, and create high paying jobs for Nevada. AG - HIGH TECH CRIME

PROGRAM DESCRIPTION

The High Tech Crime Board was established to: (1) create a statewide collaboration of law enforcement agencies to assist in the arrest and successful prosecution of individuals engaged in computer-related crimes, (2) to present training opportunities to law enforcement, prosecutors, and the courts, and (3) to promote the safe and ethical use of computers and the Internet through public education and outreach. We are recommending that this budget account be remerged with the AG Administrative Account due to the cross over of activity and support of primarily the investigative staff.

BASE

This request continues funding for eight positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

AG - SPECIAL FUND

101-1031

PROGRAM DESCRIPTION

The Attorney General Special Litigation Fund was established to pay expenses directly related to investigation, preparation, prosecution, and defense of suits unknown at the time of budget preparation. Certain expenses are reimbursable by other state or county agencies. The Nuclear Waste Litigation category covers any costs of litigation against the United States. The General Fund supports the general litigation category and the state portion of Nuclear Waste litigation. Statutory Authority: NRS Chapter 228.

The Litigation Division, directed by the Solicitor General, is responsible for managing all of the litigation in the Office of the Attorney General. The nature of litigation is such that the number, complexity, and cost of cases cannot be predicted. The Solicitor General monitors all litigation and discovery costs. This account pays for the depositions, independent medical examinations, expert testimony, and witness testimony required for a proper defense in many of these cases.

The Construction Law Counsel represents the Nevada State Public Works Board (SPWB). The Construction Law Counsel maintains a part-time office at the SPWB offices and works closely with the SPWB to negotiate and administer contracts, develop regulations, policies and procedures and coordinate with local government and state agencies. The Construction Law Counsel also works closely with staff to provide early intervention on potential disputes to promote early resolution where appropriate to avoid costly litigation.

PROGRAM DESCRIPTION

The Uniform Criminal Extradition Act (UCEA) requires Governors of each state to return any person charged in another state with treason, a felony, or any other crime who has fled from justice and is subsequently apprehended be returned to the State in which the crime was committed. The Interstate Agreement on Detainers (IAD) provides that inmates wanted by the demanding state who are imprisoned in another state penal institution may be temporarily transferred to the demanding state to stand trial on criminal charges. The Extradition Coordinator, who also serves as Nevada's Agreement Administrator, is responsible for ensuring the ends of justice are promoted by effectuating the return and/or temporary transfer of fugitives who have taken asylum in this State to the requesting states; effectuating the return and/or temporary transfer to Nevada of fugitives who have taken asylum in other states within the statutorily prescribed methods, procedures and time limits; recover the monetary costs to which the State is entitled by virtue of this undertaking; and provide high quality continuing legal education on all aspects of extradition and detainer laws. Statutory Authority: NRS Chapters 178 and 179.

AG - VICTIMS OF DOMESTIC VIOLENCE

101-1042

PROGRAM DESCRIPTION

The Victims of Domestic Violence budget encompasses programs relating to domestic violence, sexual assault, stalking, batterer treatment and the Office of Ombudsman for Domestic Violence. The Domestic Violence Ombudsman, in conjunction with the Batterer's Certification Committee, is responsible for standardizing and overseeing the treatment of domestic violence offenders as well as assisting in the statewide coordination of domestic violence services and training.

The purpose of the Office of Ombudsman is to prepare reports relating to victims of domestic violence, provide necessary assistance to victims and provide education to the public related to domestic violence including the prevention, available assistance to victims and available treatment for persons who commit domestic violence. The Ombudsman is responsible for providing direct victim advocacy services and referrals as necessary; education to the public regarding domestic violence, including prevention, available assistance for victims and available treatment for perpetrators. The Ombudsman also administers the account for district court assessments collected as a result of domestic violence convictions. The district court assessment monies can be utilized to assist in training law enforcement, prosecutors, the judiciary, and the general public in the area of domestic violence. District court assessments also support the Committee on Domestic Violence activities and have been partially used in previous years to support the Ombudsman position itself.

The purpose of the Batterer's Certification Committee is to adopt regulations to evaluate, certify, and monitor programs that treat persons who commit domestic violence and to review and evaluate existing domestic violence training programs provided to peace officers and make recommendations to the Commission on Peace Officers' Standard and Training. Statutory Authority: NRS 228.440 and 228.470.

AG - VIOLENCE AGAINST WOMEN GRANTS

101-1040

PROGRAM DESCRIPTION

The Violence Against Women Grants account was created to allow for the simplification of accounting for violence against women grants.

In state fiscal year 2008, the Office of the Attorney General received two grants originating out of the Office on Violence Against Women. The STOP Violence Against Women Formula Grant (STOP Revenue General Ledger 3580) is awarded to the state annually and is calculated on a population-based formula. The state's award is then passed down to governmental and non-profit agencies for projects that fall within the federal purpose areas and state priority areas. This award supports law enforcement and prosecution projects, victim services programs, and courts programs addressing domestic, sexual, or dating violence and/or stalking.

The second award is a discretionary, competitive grant. The Grants to Encourage Arrest Policies Program (GEAP - Revenue General Ledger 3581) was first awarded to the office in 1997. Since that time, Office of the Attorney General has received four supplemental, continuation and new awards under that program for qualifying projects that is administered with the help of other agencies and contractors.

MUNICIPAL BOND BANK REVENUE

745-1086

PROGRAM DESCRIPTION

The Municipal Bond Bank, administered by the State Treasurer, was created by the 1981 Legislature for support of certain municipal projects through a bond bank. The Bond Bank allows the state to sell its General Obligation bonds to provide funds to purchase local bonds. The state's higher bond rating saves local entities substantial amounts of interest payments. NRS 350A.150 authorizes the State Board of Examiners, at the request of the State Treasurer, to issue up to \$1.8 billion.

BASE

This request continues the funding for principal and interest payments for existing obligations.

SUPREME COURT

101-1494

PROGRAM DESCRIPTION

The Supreme Court is the highest court of record in Nevada's court system. Pursuant to section 4 of Article 6 of the Nevada Constitution, the Supreme Court has appellate jurisdiction in all civil cases arising in district court and on questions of law alone in all criminal cases in which the offense charged is within the original jurisdiction of the district courts. Additionally, the Supreme Court establishes rules for its own government, and provides leadership and administrative direction to the Nevada judiciary and to the State Bar of Nevada. The Supreme Court consists of five departments: the Justices' chambers, the Office of the Clerk of the Court, central legal staff, the Law Library, and the Administrative Office of the Courts. Its courtrooms, chambers and offices are located in Carson City and Las Vegas. Its budget funds the expenditures of Justices' chambers, the Office of the Clerk of the Court, central legal staff, and settlement conferences, primarily through administrative assessments collected pursuant to NRS 176.059, and through a general fund appropriation.

SENIOR JUSTICE & SENIOR JUDGE PROGRAM

101-1496

PROGRAM DESCRIPTION

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars and to act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" for being recalled and assigned temporary duty. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs of funding full-time judicial positions and from having to provide additional courtroom facilities and staff. It is funded primarily through a general fund appropriation.

PROGRAM DESCRIPTION

Specialty Courts are judicial problem-solving processes designed to address the root causes that contribute to criminal involvement. This includes, without limitation, Specialty Courts established pursuant to NRS 176A.250 or 453.58. A Specialty Court Funding Committee comprised of justices and general and limited jurisdiction judges authorizes the distribution of funds to Specialty Courts. JUDICIAL SELECTION

101-1498

PROGRAM DESCRIPTION

Article 6, Section 20, of the Nevada Constitution created the Commission on Judicial Selection. The commission's role is to select three nominees for any Supreme Court justice or district court judge vacancy that might occur before the expiration of any term of office. The commission's workload depends on the number of mid-term vacancies that occur during the biennium and the number of applicants per vacancy. This budget account funds the costs associated with the commission and the judicial selection process through a general fund appropriation. See NRS 1.380 through 1.410.

PERFORMANCE INDICATORS		PROJECTED FY 2008	ACTUAL FY 2008	PROJECTED FY 2009	PROJECTED FY 2010	PROJECTED FY 2011
1.	Number of judicial vacancies filled through the judicial selection process	3	0	3	2	2
2.	Number of applicants reviewed and interviewed by the Commission on Judicial Selection	25	0	25	16	16

BASE

Authority must be re-established in an enhancement each biennium based on the number of judicial selection processes required.

UNIFORM SYSTEM OF JUDICIAL RECORDS

101-1486

PROGRAM DESCRIPTION

The Uniform Systems of Judicial Records (USJR) is responsible for the standardization, advancement, and support of technology in all 79 trial courts throughout the state. USJR staff work directly with local, state and federal criminal justice agencies and courts to provide technological solutions to manage judicial caseloads and records, and to improve and address statistical reporting requirements. Major projects include the Nevada Court System (a centralized case management system that distributes case information to multiple courts via secured wide area networks), the Multi-County Integrated Justice Information System (a secured data exchange system interfacing various criminal justice agencies, such as law enforcement, prosecuting offices, Public Safety, and the courts), and the Statewide Technology Standards (a quest to homogenize the electronic exchange of criminal and civil case information upon all interested stakeholders). This budget account is funded primarily from administrative assessments collected pursuant to NRS 176.059.

JUDICIAL DISCIPLINE

101-1497

PROGRAM DESCRIPTION

The Nevada Commission on Judicial Discipline was created by constitutional amendment on November 2, 1976, and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct or disability of judges. On November 8, 1994, the jurisdiction of the commission was expanded to include censure of Justices of the Peace and Municipal Court Judges. The seven-member commission receives and investigates complaints against judges and was governed by administrative and procedural rules of the Nevada Supreme Court; however, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its rules and the commission has since adopted its own procedural rules to govern its proceedings. ADKT No. 346. The Standing Committee was created in 1998 to resolve ethical disputes arising in the course of campaigns for judicial office, and to provide judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service, or in the elective or appointment process. Statutory Authority: Nevada Constitution - Art. 6, Section 21.

COMMODITY FOOD PROGRAM

PROGRAM DESCRIPTION

Under the direction of the Department of Administration's Purchasing Division, the Food Distribution Program administers the United States Department of Agriculture (USDA) Commodity Food programs under Federal Regulations 7CFR part 247, 249 and 250-253. All food program entitlements and benefits are authorized annually by the United States Congress and are intended to provide aid to the American farmer under a food price support and surplus removal process, along with an objective to reduce hunger and improve the nutritional standards for the recipients of the program. The distribution of USDA commodity food in Nevada is carried out under various programs. The National School Lunch Program, the Child and Adult Care Food Program, and the Summer Food Service Program provide food to eligible agencies under the Child Nutrition Program. The Nutrition Services Incentive Program provides food to eligible Senior Centers that provide meals to the elderly. The Food Distribution Program on Indian Reservations involves the distribution of food to needy households residing on rural Indian reservations. The Emergency Food Assistance Program distributes food to food banks for redistribution to low income households statewide. The Commodity Supplemental Food Program distributes food packages to low income seniors, women, infants and children. The Senior Farmers Market Nutrition Program provides low income seniors with coupons to buy fresh fruits and vegetables from local farmers markets. The Food Distribution Program serves approximately 210 agencies and ten Indian reservations throughout the state. Statutory Authority: NRS 333.

PROGRAM DESCRIPTION

The Buildings and Grounds Division provides physical building and grounds maintenance, housekeeping and security for most state-owned buildings in Carson City, Reno, and Las Vegas. Services are provided by division staff and contracted vendors ranging from general janitorial and maintenance to minor remodeling. The division also provides office space for agencies in state-owned buildings and when not available, locates and negotiates leases in privately owned buildings. Additionally, the division provides management of the state's Central Mail Services and the Marlette Lake Water System, for which separate budgets are maintained. The division also funds the Capitol Police section of the Department of Public Safety which provides building security for the Capitol Complex in Carson City and the Grant Sawyer Building in Las Vegas. B&G - CLEAR CREEK YOUTH CENTER

101-1353

PROGRAM DESCRIPTION

The Clear Creek Youth Center near Carson City was built by the federal government as a Job Corp Center. In 1969, the Federal Government announced the closing of the center, and in 1970 the State of Nevada obtained a five year special use permit to operate the center as a state facility. The special use permit was renewed in July 1980, and one year use permits were obtained for fiscal year 1986 and fiscal year 1987. In February 1988, transfer of the center to state ownership was affected. From 1970 to 2003, various state and public groups utilized the facility. In 2003, the facility was closed to begin capital improvement project CIP 01-M05. As work proceeded, issues were discovered causing the site to be re-evaluated resulting in the determination that additional funds were needed to bring the facility into compliance with current building and fire codes. As a result, the facility was maintained in a state of arrested decay. From February 2003 to June of 2007, different state agencies were considered for use of the facility and several non-profit entities submitted proposals to enter into a long-term lease to maintain, operate, and improve the facility. It was determined that required improvements were cost prohibitive for both non-profits and state entities and the facility was demolished in November 2007. Statutory Authority: NRS 331

BASE

Whereas no major improvements to this property remain, this request continues minimal utility expenditures for maintenance of grounds for fire prevention.

DOIT - COMMUNICATIONS & NETWORK ENGINEERING

721-1386

PROGRAM DESCRIPTION

The Department of Information Technology (DoIT) Data Communications and Network Engineering Unit is one of three budget accounts in the Communications Division. This unit is responsible for all tasks related to developing, operating and maintaining statewide data communications infrastructure. Most of this effort is focused on the Wide Area Network (WAN) termed SilverNet. Also included is maintaining "connectivity with the outside world" such as Internet access for the state, and dedicated purpose circuits (e.g., federal program connections). Staff tasks include installing and troubleshooting data circuits; installing, operating and maintaining routers, wireless bridges, firewalls, event logging and data switches that tie the circuits together; and engineering, analyzing and troubleshooting the complex WAN itself. Staff supports over 8,500 network nodes representing personal computers, non-intelligent workstations, servers, and network devices (routers, firewalls and switches) in more than 150 locations throughout the state. Customers include all Executive Branch agencies, Constitutional Offices, the Judicial Branch, and to a limited extent the Legislative Branch. Statutory Authority: NRS 242.

DOIT - NETWORK TRANSPORT SERVICES

721-1388

PROGRAM DESCRIPTION

The Department of Information Technology (DoIT) Network Transport Services Unit is one of three budget accounts in the Communications Division. This unit, through a combination of microwave, fiber optics, and other wireless technologies, provides transport of communications circuits for federal, state, and local government entities, many of which are responsible for public safety. Network Transport Services also provides large transport circuits for data communications and PBX services to other DoIT Communications Division units such as SilverNet and PBX Telecommunications, thereby indirectly supporting nearly every state agency. Staff tasks include design and development of backbone communication infrastructure; installation, operation and maintenance of microwave and fiber optic communication equipment; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Staff is directly responsible for approximately 2,600 miles of data communication transport equipment with approximately 92,000 circuit miles and operating over 75 communication sites. Network Transport Services communication sites also host other agency communications equipment and antennas on its towers, providing commercial and emergency backup power for their equipment. Statutory Authority: NRS 242.

INCENTIVES FOR LICENSED EDUCATIONAL PERSONNEL

101-2616

PROGRAM DESCRIPTION

NRS 391.166, passed by the 23rd special session of the Nevada State Legislature, requires the Board of Trustees of each school district in Nevada to establish a program of incentive pay for licensed teachers, school psychologists, school librarians, school counselors, and administrators employed at the school level which are designed to attract and retain those employees. The program of incentive pay must specify the type of financial incentives offered and the Interim Finance Committee must approve the recommended incentives. Financial incentives must not be more than \$3,500 per year. This budget also contains the grandfather provisions of the 1/5th retirement credit purchase program (previously NRS 391.165). Personnel participating in the 1/5th purchase program in fiscal year 2007 could elect to continue until they had received five 1/5th credit purchases at which time they would be eligible to participate in the incentive program mentioned above. Statutory Authority NRS Chapter 391.166; AB1 23rd Special Session.

BASE

This request continues funding for the purchase of retirement credit and incentives for licensed education personnel. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Distributive School Account (DSA) provides direct state financial aid to school districts and charter schools for K-12 public education in Nevada. The funding formula, identified by NRS 387.121 as the "Nevada Plan", provides school districts a guaranteed dollar amount of basic state support per student plus additional funds for programs such as special education, the adult high school diploma program and reimbursement of certain student transportation costs. School districts and charter schools receive quarterly apportionments from the DSA on the basis of student enrollment. Each school district is guaranteed a specific amount per student, which is developed through a formula that considers the demographic, economic, and wealth characteristics of the district. Allotments of licensed employees and related costs are determined from tables that recognize the differences in costs between rural and urban school districts as well as small and large districts. Transportation costs are incorporated into the allocation process.

For purposes of calculating basic support, enrollment includes students enrolled in grades 1 to 12, students in ungraded special education classes, and six-tenths of the count of students enrolled in kindergarten and in preschool programs for children with special needs. Additionally, school districts receive support for part-time courses necessary to receive a high school diploma, including programs operated in the Nevada Department of Corrections system by the school districts in Carson City, Clark County, Pershing County, and White Pine County.

Special education is funded on an amount per unit basis as established by each session of the Legislature. School districts and charter schools are partially protected from decreases in enrollment through a one-year hold harmless statutory provision, which guarantees a payment based on the highest enrollment in the current or prior year unless the decrease is greater than 5%, in which case the payment guarantee is based on the highest enrollment in the current or prior two years.

The DSA is funded by a General Fund appropriation, sales taxes on out-of-state sales, income from federal mineral land leases, interest from the Permanent School Fund, and a portion of the state taxes on slot machines. In addition to the state funds received by the school districts through the DSA, the school districts receive the 2.25% local school support sales tax that is part of the DSA guarantee; the abated \$0.75 per \$100 of assessed valuation property/mining tax, one third of which is part of the DSA guarantee; governmental services taxes; franchises taxes; and various other local and federal revenues. Statutory Authority: NRS Chapter 387.

BASE

This request supports the ongoing programs in the Distributive School Account, such as the basic support for public schools, class size reduction, special education, and adult high school diploma programs.

PROGRAM DESCRIPTION

NRS 385.357, passed by the 19th special session of the Nevada State Legislature, requires all public schools in Nevada to develop plans to improve the achievement of students. The plans are to identify problem areas that need to be addressed as well as strategies to be used to help students be successful and help schools meet the Adequate Yearly Progress mandated by the No Child Left Behind Act. Many of the strategies require funding in excess of what is now available to the schools. The funding in the School Remediation Trust Fund supports the improvement plans each public school and each school district have developed.

BASE

This request continues the current program. Full day kindergarten has been adjusted for a 2% movement on scale per year and a 4% cost of living adjustment (COLA) approved by the 2007 Legislature for 2009.

PROGRAM DESCRIPTION

This budget account is designed to facilitate accounting for the Department of Education's employees who are funded by multiple sources. Previously, employees were required to fill out multiple timesheets per cycle after the implementation of the Integrated Financial System (IFS). While there are multiple workarounds for this issue, it was determined that the creation of this account was the most efficient for the Department of Education. Funds are transferred from other budgets to cover the personnel and other related costs.

BASE

This request continues funding for 10.51 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

NDE - EDUCATION SUPPORT SERVICES

PROGRAM DESCRIPTION

This Education Support Services budget funds staff and operating expenditures associated with the shared costs or overhead, allocable to the various programs operated within the Department of Education. The budget account is funded by indirect costs assessments on the administrative expenditures of other Department of Education budget accounts. Two rates are calculated each year and are negotiated with the United States Department of Education. One rate is for the restricted programs that are not permitted to pay certain costs through an indirect cost system (most notably rent) and the other rate is for the other accounts that have no such restrictions. For the purposes of the 2010-2011 biennial budget submission, all budget account indirect costs and the revenue of this budget account have been estimated using the fiscal year 2009 rates. The restricted rate for fiscal year 2009 is 12.7% and the unrestricted rate is 21.3%. Statutory Authority: NRS 385.310 & 385.315

PROGRAM DESCRIPTION

The Proficiency Testing budget account funds several testing programs, mandated by the Legislature and administered by the Department of Education. Funding is included for norm referenced tests (NRTs) in grades 4, 7 and 10, currently the TerraNova III Survey Battery, provided and administered under a contract with CTB McGraw-Hill. The budget also includes necessary resources to oversee the High School Proficiency tests, which students are required to pass before receiving a standard Nevada High School Diploma. This program is currently accomplished through a contract with a national testing company to administer, score, and report the High School Proficiency tests. Funding is also included to support the testing of writing skills of all students in grades 5, 8, 11, & 12 (and adults). Passing this test in grade 11/12 is also a requisite for a High School diploma. Statutory Authority: NRS Chapters 385 and 389

PROGRAM DESCRIPTION

The Coordinated School Health Education Program to Prevent the Spread of HIV/AIDS and other Sexually Transmitted Diseases (STDs) is a federally funded program designed to assist school districts to establish, strengthen, or expand HIV/AIDS and STD prevention education. The program is used to integrate HIV/AIDS prevention education into a coordinated school health education framework for Nevada's middle school and high school students. Funds are used to provide K-12 teacher training, curriculum materials, curriculum development and revisions to include up-to-date information to school districts on the status of the spread of HIV/AIDS and other STDs. It also includes the collection of information on the status of HIV/AIDS education in school districts and monitors health risk behaviors of adolescent youth in grades 6-12 through survey administration of the Centers for Disease Control's Youth Risk Behavior Survey. Local school districts are provided with their own raw data on results for comparison with the Nevada state results and national data sets from Centers for Disease Control. Authority: NRS 389.065 and a Cooperative Agreement with Centers for Disease Control

PROGRAM DESCRIPTION

The Discretionary Grants - Restricted account includes the following federal grants: (1) Homeless Children Project; (2) Robert C. Byrd Scholarship Program; (3) Refugee School Impact Grant; (4) 21st Century Community Learning Centers; (5) Advance Placement Fee Payment; (6) Longitudinal Data System and (7) English Language Acquisition. Programs 1, 2, 3, & 5 are part of the No Child Left Behind (NCLB) legislation of 2001. The programs in this budget are subject to the restricted indirect cost rate approved by the U.S. Department of Education. There is a small General Fund appropriation to this budget account to cover the Byrd Scholarship administrative costs. These funds were previously accounted for in budget account 2699 but were moved to this budget account to more properly align with the aid payments. These grant budgets have been adjusted to the most current projected award information available for fiscal years 2010 and 2011 based on information available for fiscal year 2009 and the knowledge of the program managers regarding the status of the federal funding.

PROGRAM DESCRIPTION

This budget account provides federal funds to assist state and local educational agencies in improving elementary and secondary education in areas such as programs to assist in reducing the drop-out rate; increasing student achievement including emphasis in reading, mathematics and science; and the acquisition of instructional materials, training, and professional development. Four of the programs in the No Child Left Behind (NCLB) federal legislation include Educational Technology Grants; Teacher and Principal Training and Recruiting Grants; and State Assessments and Related Activities. This account includes funding available to the department to administer the programs and the funding to be provided to school districts to implement the objectives of the programs.

PROGRAM DESCRIPTION

The Nevada Student Incentive Grant (NSIG) Program assists states in providing grants to eligible students who attend post-secondary schools and have substantial financial need. To qualify, a student must be enrolled at least half-time in an eligible undergraduate or graduate program in an approved Nevada post-secondary institution. The maximum award is \$5,000. The Nevada Department of Education (NDE) approves each award. Nevada receives an annual Leveraging Educational Assistance Partnership (LEAP) and Special Leveraging Educational Assistance Partnership (SLEAP) formula grant from the US Department of Education based on the state's eligible post-secondary education enrollments relative to the total number of such students in all states. The federal LEAP allotment must be matched by funds appropriated by the state, and this match must represent an increase in the state-appropriated grant and work-study expenditure over the amount spent during an established base year. The state match and administrative funds are provided through General Fund appropriations. Federal funds may only be used for disbursement of grants. Authority: Higher Education Act of 1965, Title IV, Part A

PROGRAM DESCRIPTION

The Department of Education administers occupational education programs that meet the requirements of the Nevada State Plan for Career and Technical Education (CTE). The plan is based on the needs of students within the state and serves as the application for the Federal Carl D. Perkins Vocational and Technical Education Act funds. The primary mission of the federal program is to improve occupational education programs, focusing on the improvement and development of programs meeting the state criteria that defines high-wage, high-skill programs. Revenue received through the Carl D. Perkins Basic Grants to States has funding set-a-sides including 5% or \$250,000, whichever is greater, for state administration; 10% for statewide leadership; and 85% for basic grant aid to school districts and community colleges. Federal funds administration must be matched by state funds. In addition, the maintenance of effort provision requires the state to maintain funding at least at prior year levels. Authority: NRS 388.340(2a), 388.360(3) and the Carl D. Perkins Vocational and Technical Education Act of 1998, as amended.

NDE - CONTINUING EDUCATION

PROGRAM DESCRIPTION

This Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education and English as a Second Language services (ABE/ESL) in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations to carry out the purpose of the act. Nevada continues to experience increasing needs for adult education, especially English literacy for the fastest growing Hispanic and Asian populations in the country. The state has the second highest percentage of 18-24 year olds without high school diplomas or equivalent degrees in the nation. The demand for adult education services escalates as the population increases and workplace expectations demand higher levels of literacy. Authority: P.L. 105-220. Workforce Investment Act, Title II, Adult Education and Family Literacy Act; NRS 387.1233

NDE - NUTRITION EDUCATION PROGRAMS

101-2691

PROGRAM DESCRIPTION

The National School Lunch Act of 1946 and the Child Nutrition Act of 1966 allot federal funds to Nevada for the nutrition programs. The federal allotment for each program sponsor is based on a formula, that may consider meal costs or budgets, the number of individuals served and the income level of those individuals. Sponsors are reimbursed monthly at a unit cost for each meal/milk served. The state funding is used to meet the state maintenance of effort (MOE) and match requirements. The required state match is included in the Distributive School Account, budget account 2610. This budget also provides the funding needed to administer these programs, including processing payments, monitoring services provided by the program sponsors, and providing technical assistance and professional development to the sponsors. Authority: P.L. 79-396; CFDA #'s: 10.550, Food Distribution; 10.553, School Breakfast Program; 10.555, National School Lunch Program; 10.556, Special Milk Program for Children; 10.558, Child and Adult Care Food Program; 10.559, Summer Food Service Program for Children; 10.560, State Administrative Expenses for Child Nutrition.

PROGRAM DESCRIPTION

The Board of Regents is established by the Nevada Constitution and statutorily endowed with the powers to provide direction and governance for all activities of the Nevada System of Higher Education (NSHE). The Board of Regents, in conjunction with the employees of the Chancellor's Office, provides direction and coordination for the various activities of the campuses and units of the NSHE. The Chancellor's Office includes the functional areas of academic affairs, budget and financial planning/programming and legal counsel. The universities provide a wide range of undergraduate and graduate instructional programs, including professional and doctoral work in selected fields; maintain library, studio and laboratory services and resources for research; provide cultural opportunities for students and the general public; and also provide public service and continuing education. The community colleges provide post-secondary educational opportunities that are regionally and financially accessible. This includes teaching occupational skills required by business and industry; upgrading students' skills necessary to compete successfully in college courses; providing community service programs and assistance to students in planning educational goals. The mission of the state college is to meet the needs of students who are interested in bachelor's degrees in much-needed fields such as nursing and education, as well as in other disciplines in the arts and sciences. Course work is fully transferable to both the first tier (universities) and the third tier (community colleges) in the NSHE. Appropriations in all NSHE budget accounts are recommended in conjunction with Board of Regents approved adjustments for non-appropriation sources of revenue, including tuition adjustments. For campus budgets, the non-appropriation funding sources are primarily from student registration fees and non-resident tuition. However, other available sources of revenue include operating capital investment and certain federal funds. Constitutional authority: Article 11, Section 4 and NRS 396.

BASE

This request continues funding for all 34.83 classified, professional and other designated employees and covers associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

NSHE - STATE-FUNDED PERKINS LOAN

101-2993

PROGRAM DESCRIPTION

Historically, this specialty area provided matching funds for the Nevada System of Higher Education (NSHE) to participate in the National Direct Student Loan Program (NDSL) and administer loans granted to undergraduate and graduate students through revolving loan accounts at each campus. Until recently, the federal government eliminated NDSL funding. This program continues the need-based student loan program on a state funded basis and the name change reflects the state specific commitment to students at post-secondary educational institutions.

BASE

The base budget continues funding for costs associated with the program. One-time expenditures have been eliminated and partial year costs have been annualized.

101-2892

PROGRAM DESCRIPTION

The mission of the Department of Cultural Affairs is to enrich the lives of citizens and visitors to the state of Nevada, recognizing the diversity of the state through leadership in cultural and information management, promotion of cultural resources and activities, and education. The department is the repository of our state's ancient and living history; its thoughts, words and ideas. The department includes the Office of the Director; Division of Museums and History; Nevada State Library and Archives; State Historic Preservation Office; and the Nevada Arts Council. Other key components of the department include the Commission for Cultural Affairs, Board of Museums and History, Board of the Nevada Arts Council, Comstock Historic District Commission, State Historical Records Advisory Board, State Records Committee, State Council on Libraries and Literacy, and the Nevada Center for the Book Advisory Board. Base line items were included in the Director's Office budget in the 2005 Legislative Session to support the Governor's Advisory Council on Education related to the Holocaust and the Nevada Humanities - although statutorily the council is not an agency of the department, and the Nevada Humanities is a non-profit organization. Statutory Authority: NRS 378.005.

DCA - NEVADA HUMANITIES

101-2894

PROGRAM DESCRIPTION

Nevada Humanities is a non-profit, nationally-recognized program that works in partnership with local communities to develop and fund humanities activities and educational programs. Established under provisions contained in the federal legislation creating the National Endowment for the Humanities, Nevada Humanities creates an environment conducive to economic development, heritage tourism, and quality education by fostering humanities activities such as lectures, exhibits, publications, book festivals, historic performances, teacher institutes, documentary films, interpreted art presentations, and a humanities grants program. After four consecutive biennia of legislative provision of one-shot funding to support a southern Nevada office, the 2005 Legislature converted the one-shot funding request to an on-going appropriation. State funds for this program are passed through the Department of Cultural Affairs, Nevada Humanities budget, as aid to non-profit organizations. Expenditures are paid directly by the organization's fiscal staff.

DCA - LOST CITY MUSEUM

101-1350

PROGRAM DESCRIPTION

The Lost City Museum in Overton, Nevada located near the Moapa Paiute Indian Reservation, serves the public by studying, preserving, and protecting prehistoric Anasazi Pueblo sites and artifacts found in the Moapa Valley area, and interpreting these collections through exhibits, public programs and publications. The Lost City Museum facility is itself an artifact, a Civilian Conservation Corps reproduction of an adobe pueblo dwelling complex, and is preserved for future generations. An active archaeological program sponsors pottery workshops and other educational programs as well as occasional archeological digs. Interior and exterior exhibits on the grounds attract numerous tourists interested in topics relating to the Anasazi Pueblo complex, other early Native American cultures of southern Nevada, and the later history of the Moapa Valley including Mormon settlement, mining, and railroads. The museum serves regional audiences of Native Americans, youth, students, families, adults, and a wide-reaching network of scholars and researchers interested in Native American cultures. Statutory Authority: NRS 381.

DCA - NEVADA STATE MUSEUM, LAS VEGAS

101-2943

PROGRAM DESCRIPTION

The Nevada State Museum Las Vegas located at Lorenzi Park serves the public through collecting, preserving, and interpreting artifacts, specimens, and historical documents representing southern Nevada, with emphasis on its relationship to the Mojave Desert. Long-term and short-term exhibit galleries feature prehistory, history, and natural history collections of interest to residents and tourists; public library/archives contains premier southern Nevada historical photographs and records for use by regional residents and researchers; and an education program serves schools as well as residents and out-of-state visitors through programs, tours, workshops, and events. The museum is in the process of building a new state-funded facility at the Las Vegas Springs Preserve. The new larger museum, with considerably expanded visitor hours, is scheduled to be completed in February 2009, but is not expected to open until funding for exhibits is received. Statutory Authority: NRS 381.

PROGRAM DESCRIPTION

The Comstock Historic District Commission's mandate is to encourage preservation of the Comstock Historic District, one of the nation's largest and most significant landmarks. It is also one of the most visited historic sites in the state, second to Hoover Dam. The Commission issues construction permits, educates the public, and promotes special programs. The Commission considers requests for Certificates of Appropriateness, which property owners are required by statute to obtain before initiating exterior changes to existing structures or constructing new ones. The Commission gives guidance to federal agencies working within the district and provides public education focused on historic resources. Statutory Authority: NRS 384.

PROGRAM DESCRIPTION

The Nevada State Library is the institutional memory of the state and is responsible for preserving the state's most valuable assets: its heritage, the collective product of its people, resources, business endeavors and government. The Nevada State Library provides governments, agencies, businesses, libraries, and citizens a full range of information services including reference, research materials and support services; library planning and development information; and services designed for citizens with disabilities. The library develops state information policies to ensure equal access to government information is available in all formats. The Nevada Talking Book Services provides direct library services statewide to individuals who qualify due to visual and/or physical impairments. The Nevada State Library houses the State Data Center, which offers census informational materials statewide. The library functions as a federal depository of U.S. Government documents. The library operates the State Publications Distribution Center, which distributes official state government documents to twelve different locations statewide to ensure Nevada citizens have free access to state government publications. Statutory Authority: NRS 378.010 through 378.210.

DCA - ARCHIVES AND RECORDS

PROGRAM DESCRIPTION

The State Archives and Records Management programs administer comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and disposition of records of the Executive Branch of state government. Archives and Records program staff offer technical support to the Nevada Supreme Court, Legislative Counsel Bureau, tribal and local governments, and the Nevada System of Higher Education. The State Archives preserves and makes accessible records that document the history, organization and functions of the Nevada state government; its influence and impact on the lives of its people; and protection of their civil rights. The Records Management program prepares records retention schedules, which enables all state agencies to reduce their records storage holdings and the related costs; and operates the State Records Center, providing high-capacity, low-cost, secure storage for over 48,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. Statutory Authority: NRS 378.230 through 378.320.

PROGRAM DESCRIPTION

The Cooperative Libraries Automated Network (CLAN) is a consortium of all types of libraries and related agencies. The consortium's purpose is to share fundamental library and technological resources including an automated library catalog to organize, publish, and check in and out materials to library users. CLAN develops library and information services that provide all Nevada users access to information through a regional electronic network. Through a mutual agreement, the Department of Cultural Affairs, Directors Office and all four divisions moved their network service requirements from CLAN to the Department of Information Technology in FY2009. CLAN provides advanced library and technological services to forty-six service locations located throughout all seventeen Nevada counties. Statutory Authority: NRS 379.147-379.150 and NRS 277.080-277.180.

PROGRAM DESCRIPTION

The Micrographics and Imaging program provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies. The program also provides on-site surveys, consultation on appropriate media storage, the production of CDs, DVDs, fiche and roll film. The program ensures government documents are preserved in accordance with NRS 378.255 and 378.280 and provides services for scanning, printing, and storage of large format maps and plans onto either microfiche or roll film. The program develops and duplicates film produced by larger state agencies with their own microfilming staff and assists these agencies in selecting equipment that may be needed for their operations.

PROGRAM DESCRIPTION

The Nevada Arts Council is the sole and official agency of this state to receive and disburse any money available to this state by the National Endowment for the Arts. The Nevada Arts Council's mission is to enrich the cultural life of the state through leadership and programs that preserve, support, strengthen and make accessible excellence in the arts for citizens and tourists alike. E665 PROGRAM REDUCTIONS/REDUCTIONS TO SERVICES

This request eliminates two positions consisting of an Administrative Assistant II and a Community Arts Development Associate. A Grants Program Coordinator is reduced to 32 hours per week, consistent with the reduction in grant funding. Administrative expenditures and programming are being reduced by over \$100,000. This includes moving the southern Nevada office from leased space to the Nevada State Museum in Las Vegas, along with reductions to travel, supplies, advertising, design and publications.

Grants in all categories are being reduced by \$430,000. This proposal reduces the General Fund support to zero in most budget categories with the exception of the following: \$8,400 has been retained for the Folklife Education Initiative as it serves our ethnic and minority populations and provides educational services to communities across the state as well as to K-12; \$1,200 has been retained in the Community Arts Development Program as it provides outreach programming to rural communities; \$16,000 has been retained in Arts in Education grants; and \$83,000 has been retained in the Grants Program category to help with the required match of federal funding.

AGRI - GRADE & CERTIFICATION OF AG PRODUCTS

101-4541

PROGRAM DESCRIPTION

The Grade and Certification Account supports the registration, inspection and certification activities for a variety of grower and USDA programs. Seed fields, primarily garlic and alfalfa, are inspected and certified to meet specific standards. Potatoes and onions are inspected and assigned a USDA grade at the shipping point. Passengers, cargo and other material arriving on foreign flights are inspected under a contract with the USDA. Hay and other agricultural products are inspected to enable shipment to foreign countries. The weed-free forage certification program is also in this account. Shell eggs are inspected and graded, according to USDA standards. The Nevada Certified Organic program is also located in this account. Statutory Authority: NRS 587.015 - 123 and NRS 583.

PROGRAM DESCRIPTION

The Agricultural Registration and Enforcement Account supports the registration, inspection sampling and laboratory analysis of antifreezes, fertilizers and pesticide products offered for sale. Under an Environmental Protection Agency (EPA) cooperative enforcement agreement, the program also provides pesticide product inspection at the retail level and monitors the application of pesticides. Also enforced under the agreement are the EPA groundwater protection, worker protection and endangered species protection programs. Another grant is received from the EPA for the certification and training of restricted use pesticide applicators.

Statutory Authority: NRS 586, 588, and 590.

PROGRAM DESCRIPTION

The powers and duties of the weights and measures program are mandated in NRS Chapters 581, 582, and 590. The State Sealer of weights and measures, the department director, is directed to license, test and deem correct, all commercially used weighing and measuring devices. It is also stated that the State Sealer inspect packaged goods to determine whether the stated amounts, sizes, pricing, etc. are correct. In addition, the bureau obtains samples of motor fuels, and delivers them to the petroleum chemists for analysis. If any violations are noted in the device inspections, packaging, scanners, or motor fuel, weights and measures inspectors take regulatory action to obtain compliance. The division also maintains the metrology lab, which houses the state standards for mass, length, and volume. The metrologist certifies the field standards used by weights and measures inspectors and registered service agents. Public weigh masters certify weight information for a fee and require a license as specified by the division. The division inspects their scales and audits their weigh tickets for compliance per NRS Chapter 582. The inspection of the advertising and labeling of motor fuel dispensers, storage tanks, and quality of the fuels are covered in the petroleum act, as cited in NRS Chapter 590.

AGRI - PREDATORY ANIMAL & RODENT CONTROL

101-4600

PROGRAM DESCRIPTION

NRS 567.010-090 authorizes the State Predatory Animal and Rodent Committee (PARC) to cooperate with the United States Department of Agriculture (USDA) for the control of predatory animals, crop-destroying birds and rodents within the State of Nevada. PARC (state) and the USDA (federal) collectively form the Nevada Wildlife Services Program (WS). The Nevada WS program also works cooperatively with the Nevada Department of Wildlife to conduct predation damage management projects to protect Nevada's natural resources such as mule deer, sage grouse, and bighorn sheep.

The mission of the Nevada WS program is to provide leadership in managing problems caused by wildlife. WS recognizes that wildlife is an important public resource greatly valued by the people of Nevada. By its very nature, however, wildlife is a highly dynamic and mobile resource that can damage agricultural and industrial resources, pose risks to human health and safety, and affect other natural resources. The program carries out the state and federal responsibility for helping to solve problems that occur when human activity and wildlife are in conflict with one another.

Statutory Authority: The Animal Damage Control Act of March 2, 1931, as amended (46 Stat. 1486; 7 U.S.C. 426-426b) and the Rural Development, Agriculture, and Related Agencies Appropriation Act, 1988 (P.L. 100-202) authorizes the USDA's Wildlife Services (WS) program to form cooperative programs with state agencies.

PROGRAM DESCRIPTION

A Captive Insurer is an insurance company established and owned by a parent firm in order to insure its loss exposures while reducing premium costs, providing easier access to a reinsurer, and perhaps easing tax burdens. The Captive Insurers budget was established by the 1999 Legislative session. All fees and assessments received by the division pursuant to NRS 694C must be credited to the account. In addition, 25% of the premium tax imposed under NRS 694C.450 must be deposited for the regulation and supervision of captive insurers. At the end of each fiscal year, that portion of the balance in the account that exceeds \$500,000 must be transferred to the state General Fund. Statutory Authority: NRS 694C.

ENHANCEMENT

E225 ELIMINATE DUPLICATE EFFORT

This request unites the Manufactured Housing Division with the Housing Division by eliminating the Manufactured Housing Administrator and an Accountant Technician I position. This merger will establish synergism between the two divisions since they have common statutes and goals and is anticipated to provide for increased public service, funding opportunities, eliminate a duplication of effort and allow employees to be cross-trained to service both industries. Most importantly, this merger will provide more opportunity for first time-home buyers and seniors currently living in manufactured homes.

B&I - MOBILE HOME LOT RENT SUBSIDY

630-3842

PROGRAM DESCRIPTION

The Lot Rent Subsidy Trust Fund assists eligible low-income mobile home owners through financial supplement of their monthly space rent in mobile home parks. The program currently pays 20% of the eligible recipient's base rent up to a maximum of \$100.00. Benefits are paid monthly with an annual re-qualification process. The program currently has a waiting list as the demand for assistance exceeds the funds available. Statutory Authority: NRS 118B.211 Funding: The sole source of revenue for this program is the mobile home trust fund fees that the division collects annually from the manufactured and mobile home communities in Nevada. The fee is set by NRS118B.213 at \$12 per space, per year, excluding lots with park owned homes. The program has existed for 15 years with no fee increases.

PROGRAM DESCRIPTION

The Landlord/Tenant program handles complaints and disputes between the landlord/owner and the tenants who rent space but own their own home. Complaints range from improper eviction notices, violation of park rules and regulations, unequal enforcement of park rules and lease agreements. The program is supported by annual fees paid by the park owners per NRS 118B.185. Fees are collected based on the number of spaces in the park at \$5.00 per space less spaces with park-owned homes.
