The Internal Audit section consists of six Executive Branch Auditors. One of these positions is currently vacant. The Internal Audit sections' staff possesses one or a combination of the following licenses/degrees: Certified Public Accountant, and/or advanced degrees in business, public administration, or closely related field.

Internal Audit Process

At the direction of the Executive Branch Audit Committee, during fiscal year 2010 we conducted audits addressing the following four questions:

- ✓ What is the agency's role?
- ✓ What services must the agency provide?
- ✓ Is the State the proper level of government to provide these services?
- ✓ If State government is the appropriate level of government, is the agency carrying out its duties efficiently and effectively?

We performed follow-ups on our recommendations and the Legislative Auditor's audit recommendations to determine agencies' implementation status.

Risk Assessment

To determine audit priority, we developed a risk assessment using multiple criteria including but not limited to:

- ✓ Source and amount of funding
- ✓ Financial Management reports
- ✓ Post Review reports
- ✓ Legislative Auditor reports
- ✓ Impact on the health and safety of Nevada citizens
- ✓ Organizational and technological issues facing agencies
- ✓ Number of people affected by agency programs

We developed an annual plan by using risk assessment and requests from agencies and Committee members. In accordance with NRS 353A, we consulted with the Director of the Department of Administration and the Legislative Auditor concerning our plan to avoid any potential duplication of effort or disruption to State agencies.

Auditing and Reporting Process

Our audits focused on methods to improve the efficiency and effectiveness of Executive Branch agencies. Throughout our audit process we met with agency management to discuss our progress and findings. At the conclusion of our audit we submitted a draft report to the agency. The head of the agency responded to our recommendations with an implementation schedule. We then presented a final report to the Executive Branch Audit Committee and the agency. The report's contents and discussions regarding the audit remained confidential until presented to the Committee.

Performance Indicators

We improve the efficiency and effectiveness of agencies through solution-based recommendations. We estimate the dollar benefit of our recommendations when possible. However, many of the benefits to the State and its citizens are not quantifiable. For instance, we cannot put a price on the enhanced welfare of the citizenry. Additionally, many times data are not available to estimate the benefit. When sufficient data are available, we document estimates in our audit reports. For example, in fiscal year 2010, we estimate the Division benefited the State and citizens for every dollar spent on the agency as follows:

✓ **The ratio of benefits to each \$1 spent on the Internal Audit section is \$63:\$1.**

The following summarizes Internal Audit's performance measures:

Performance Indicators	FY 2009		FY 2010		FY 2011
