5. Request for a Recommendation of Approval to the Interim Finance Committee for an Allocation Amount from the Contingency Account *(For possible action)*

**A. Department of Corrections – Correctional Programs**

Pursuant to NRS 353.268, the Department requests an allocation of $234,372 in Fiscal Year 2018 and $375,056 in Fiscal Year 2019 for a total of $609,428 from the Interim Finance Committee Contingency Account to fund the addition of one Program Officer 2 position, four Program Officer 1 positions, two temporary contracted support positions and other associated costs. The requested positions are needed to ensure compliance with Senate Bill 268 which was enacted during the 2017 Legislative Session to verify an offender’s full legal name and date of birth before issuing a photo identification card. This action would result in an increase of the agencies authorized positions from 99 full time equivalents to 104 full time equivalents.
B. Department of Education – Distributive School Account

Pursuant to NRS 353.268, the Department requests an allocation of $1,679,139 from the Interim Finance Committee Contingency Account to fund an adjustment to the per pupil funding allocation due to a change in allocation methodology which had a detrimental impact to certain school districts.

C. Department of Education – Special Education Contingency

Pursuant to NRS 353.268, the Department requests an allocation of $208,159 from the Interim Finance Committee Contingency Account to replenish the Special Education Contingency Account.

D. Governor’s Office of Workforce Innovation – Nevada P20 Workforce Reporting

Pursuant to NRS 353.268, the Office requests an allocation of $250,000 from the Interim Finance Committee Contingency Account to support the data partner planning for the Nevada P-20 to Workforce Research Data System.

E. Office of the State Controller

Pursuant to NRS 353.268, the Office requests an allocation of $178,580 from the Interim Finance Committee Contingency Account to fund a Master Service Agreement (MSA) contractor to complete a Business Intelligence project and online checkbook and a MSA contractor to conduct a data review to ensure the safety of sensitive data.

F. Department of Public Safety – Division of Emergency Management

Pursuant to NRS 353.268, the Division requests an allocation of $122,250 from the Interim Finance Committee Contingency Account to cover costs associated with providing security support to Clark County during the upcoming New Year’s Eve activities.

G. Department of Public Safety – Nevada Highway Patrol – Dignitary Protection

Pursuant to NRS 353.268, the Division requests an allocation of $53,578 from the Interim Finance Committee Contingency Account to cover the cost of providing protective services as requested by the U.S. Secret Service to dignitaries visiting Nevada for the remainder of the fiscal year.
6. Approval of Master Lease Agreements (For possible action)

Department of Administration – Division of Enterprise Information Technology Services

The Division seeks approval for the fourth amendment to the existing master lease agreement with International Business Machines. This amendment extends the termination date from June 30, 2021 to November 30, 2021 and increases the maximum amount from $10,259,963.18 to $10,425,914.54 due to the upgrade of load balancer equipment for the mainframe server.

7. Request for Approval to Pay a Stale Claim From the Stale Claims Account (For possible action)

A. Department of Transportation

The Department requests approval to pay $52,373.90 from the Highway Fund, Stale Claims Account, for a 2017 Safe Routes to School Program reimbursement from Carson City Health and Human Services.

B. Department of Education – Other State Education Programs

Pursuant to NRS 353.097, subsection 4, the Department requests approval to pay $98,876.60 from the Stale Claims Account for the Turnaround Schools grant program to Clark County School District.

8. Request for Approval to Change Agency’s Travel Policy (For possible action)

Department of Public Safety – Parole Board – Travel Policy

In accordance with SAM 0204, the Division requests approval to revise the agency’s travel policy to allow for an exemption from the standard 50 miles of the assigned duty station for per diem, lodging and other travel expenses when the State of Nevada is hosting the Association of Paroling Authorities International training conference.
9. Request for Recommendation of Approval to the Interim Finance Committee for a Grant Amount from the Disaster Relief Account
   (For possible action)

   Douglas County - $231,663.79

   Pursuant to NRS 353.2755, The Division of Emergency Management and the Department of Taxation recommend approval of grant funds in the amount of $231,663.79 from the Disaster Relief Account to reimburse Douglas County for costs associated with flash flood events that occurred in July 2015.

10. Approval of Proposed Leases (For possible action)

11. Approval of Proposed Contracts (For possible action)

12. Approval of Proposed Master Service Agreements (For possible action)

13. Approval of Proposed Work Plans

14. Information Item – Clerk of the Board Contracts

   Pursuant to NRS 333.700, the Clerk of the Board may approve all contract transactions for amounts less than $50,000. Per direction from the August 13, 2013 meeting of the Board of Examiners, the Board wished to receive an informational item listing all approvals applicable to the new threshold ($10,000 - $49,999). Attached is a list of all applicable approvals for contracts and amendments approved from September 19, 2017 through October 22, 2017.
15. Information Item - Department Reports

Department of Motor Vehicles - Complete Streets Program

Pursuant to NRS 482.480, subsection 11, the Department of Motor Vehicles reports on voluntary contributions collected for the Complete Streets Program. This report covers the time period of July 1, 2017 through September 30, 2017.

16. Public Comment (No action may be taken upon a matter raised under public comment period unless the matter itself has been specifically included on an agenda as an action item)

AGENDA

1. Call to Order / Roll Call

Governor: Good morning everybody, I will call the Board of Examiners Meeting to order. The Attorney General is participating telephonically. The Secretary of State is present in Las Vegas. Madam Secretary, can you hear us loud and clear?

Secretary of State: Yes, I can Governor.

Governor: Okay, thank you. Before I take public comment, I know that there was a concern about the posting with regard to the Notice and Agenda for this meeting. Inadvertently, the agenda was not posted in this building; however, I have asked the Deputy Attorney General to ensure that we are in compliance with the Open Meeting Law. So, Madam Attorney General, if you would provide your comments please.

Caroline Bateman: Caroline Bateman for the record. That is correct, Mr. Governor. The Open Meeting Law encapsulated in NRS 241 requires posting at three prominent places in addition to either the prominent place of business of the Board or the building at which the meeting will take place. All those requirements have been met and so the meeting can go forward without violating the Open Meeting Law.

Governor: Thank you, Ms. Bateman.

2. Public Comment (No action may be taken upon a matter raised under public comment period unless the matter itself has been specifically include on an agenda as an action item)

Governor: We will proceed with public comment. Is there any member of the public here in Carson City that would like to provide public comment to the Board? I hear and see none. Is there anyone present in Las Vegas that would like to provide public comment?

Secretary of State: I see no one Governor.

Governor: All right, thank you Madam Secretary. Before I proceed with the meeting, I made some comments yesterday at the Board of Transportation meeting which I have the privilege of Chairing with regard to the tragedy in Las Vegas. I know many of you or your employees in your respectful departments were helpful and provided assistance to the victims, their families and friends and their survivors and I personally want to thank you all for what you have done.

Obviously, everybody is still working through this and there is a lot of healing to be done and people are going to need your assistance. Without a doubt, I know that you will be empathetic and compassionate. You will go the extra mile to help these people that have experienced this. I think you can all agree with me that what they are experiencing is unimaginable and even for those of us that were not there, but have seen things like this. It is really important as public servants that we all step up and do whatever it takes to help.
So, I personally want to thank you all for that and to keep everybody that has been affected by this in your thoughts and prayers.

3. **Approval of the September 12, 2017 Minutes** *(For possible action)*

**Governor:** We will move to agenda item number 3, approval of the September 12, 2017 minutes. Have the Members had an opportunity to review the minutes and are there any changes?

**Secretary of State:** No changes Governor, I move for approval of the minutes from September 12, 2017.

**Attorney General:** I second.

**Governor:** The Secretary has moved for approval of the minutes of September 12, 2017. The Attorney General has seconded the motion. That motion passes 3-0.

4. **Request to Purchase State Vehicles** *(For possible action)*

Pursuant to NRS 334.010, no automobile may be purchased by any department, office, bureau, officer or employee of the state without prior written consent of the State Board of Examiners.

**Governor:** We will move on to agenda item number 4, Request to Purchase State Vehicles. Mr. Wells, good morning.

**Clerk:** Good morning Governor and Members of the Board. Item 4 includes five requests totaling 106 vehicles.

The first request is from the Department of Administration, Enterprise IT Services Division, to replace a pickup that has met the age and/or mileage requirements in the State Administrative Manual. This vehicle was included in the agency’s legislatively approved budget.
The second request is from Fleet Services to procure 14 vehicles to provide to agencies under the lease purchase program. The request includes four sedans and 10 SUVs which were included in the agency’s legislatively approved budgets but were not included in Fleet Services Budget so, this item is subject to the approval of a work program at the Interim Finance Committee (IFC) meeting that will occur next week.

The third request is also from Fleet Services to replace 83 agency vehicles under the lease purchase program that have met or will meet the age and/or mileage requirements. They are inclusive of 47 sedans, 4 pickups, 29 SUVs and three vans. These vehicles were included in both the agency’s and Fleet Services’ respective budgets.

The fourth request from Fleet Services to replace five agency vehicles which were totaled in accidents. The request is for three sedans and two SUVs and is subject to approval of two work programs at the IFC Meeting next week.

The last request is from the Department of Conservation and Natural Resources, Forestry Division, to purchase three wildland fire trucks for Douglas, Elko and Nye Counties. This comes from the Wildland Fire Protection Program Account. This request is also subject to an IFC work program that will be approved next week.

There are representatives available to answer any questions Board Members may have.

**Governor:** Thank you Mr. Wells, you have been very thorough. I have no questions. Board Members, any questions from the Secretary or the Attorney General on this agenda item?

**Secretary of State:** Governor, for vehicles that were turned in, does that just go to our General Fund or does that go into the fund for the vehicles replacement?

**Clerk:** Agency owned or Fleet vehicles that are rented out to the agencies then are sold or traded in are put on auction or transferred to another agency for additional duration of use. When they are finally disposed of, that money is used to provide funding to pay for future new vehicles, through Fleet Services.

**Secretary of State:** So, it stays or goes to the General Fund?

**Clerk:** It stays within Fleet Services to purchase vehicles. It does not go back to the General Fund.

**Secretary of State:** Okay, great. Thank you. Just wanted to clarify that. Thank you Governor. If you are ready for a motion, I will make a motion to approve 4.

**Governor:** Thank you Madam Secretary. The Secretary of State has moved to approve the request to purchase state vehicles as presented in agenda item number 4, is there a second?

**Attorney General:** I second.
Governor: The Attorney General has seconded the motion. Are there any questions or discussion on the motion? I hear and see none. That motion passes 3-0.

5. Request to Pay a Cash Settlement (For possible action)

Pursuant to Article 5, Section 21 of the Nevada Constitution, the State Board of Examiners may approve, settle or deny any claim or action against the State, any of its agencies or any of its present or former officers, employees, immune contractors or State Legislators.

A. Department of Transportation (NDOT) – Administration - $749,300

The Department requests settlement approval in the total amount of $1,700,000 to fully resolve an eminent domain action to acquire .44 acres of real property owned by Reich Series LLC, located at 550 S. Martin Luther King Boulevard in Las Vegas. NDOT previously deposited $950,700 with the Court for a right of occupancy. NDOT now requests an additional $749,300 to resolve the action.

B. Department of Transportation (NDOT) – Administration - $700,000

The Department requests settlement approval in the total amount of $2,200,000 to fully resolve an eminent domain action to acquire a total of 1.02 acres of real property owned by Ranch Properties LLC, located at 801, 811, and 821 Desert Lane in Las Vegas. NDOT previously deposited $1,500,000 with the Court for a right of occupancy. NDOT now requests an additional $700,000 to resolve the action.

Governor: We will move on to agenda item number 5 which are two requests to pay cash settlements, through the Nevada Department of Transportation (NDOT). Good morning Director Malfabon and Mr. Gallagher.

Director Malfabon: Good morning Governor and Board Members. NDOT is here to request a settlement for acquisition of property. It looks like it is pronounced Reich, but it is actually pronounced Rich. This was related to Project NEON. We are getting to the final completion of acquisition of properties related to this major project in Las Vegas. It consisted of 0.44 acres. It had a 24-unit studio apartment building on it. We worked very hard to reach a settlement on this. One of the issues that was difficult to deal with was the owner said that there was a lost opportunity to place a cell phone tower on their property. We did not agree with that, but nonetheless, we negotiated what we felt was a reasonable settlement. The initial date of value was July of 2015. We had estimated the property value at $1.16 million. As we got closer to making the determination whether to go to court, we checked with our former Chief Right-of-Way Agent. He felt that the exposure was going to be higher had we gone to court. Even without that issue of the cell tower being addressed.
We continued negotiations and reached a conclusion of a negotiation with this request for additional amount of money, $749,300 for a total amount of $1.7 million for this property. We had previously deposited $950,700 with the Court. We will seek full reimbursement from the Federal Highway Administration for this expense.

**Governor:** Director Malfabon, do you believe that this settlement is in the best interest of the State?

**Director Malfabon:** Yes Governor.

**Governor:** Mr. Gallagher, it is in the best interest of the State but it will also save us attorney fees and save us from exposure to attorney fees if we were not successful in litigation. What would you estimate those attorney fees to be?

**Dennis Gallagher:** For the record, Dennis Gallagher, Counsel for the Department. I would estimate Governor, attorney’s fee costs on both sides because as you know, we are responsible for certain costs and fees for the other side and it would be in the neighborhood of at least $200,000. I’d like to emphasize, this is an all-inclusive settlement, so it is for the property. It is for the alleged lost opportunity with the cell tower. I would just like to point out that the State had moved for summary judgment on that issue. The Trial Court denied it. So, it would be a question of fact for the jury. These cell towers, the lost opportunity, the tower can have more than one cell on it. So, depending on what they might be able to convince the jury of, be it one or eight cells, the value of that would range from just under $200,000 to about $1.8 million. With that unknown out there, I believe the Department decided that this would be an opportune case to settle and move on.

**Governor:** Mr. Gallagher, thank you. Those are some really important facts that further justify the settlement. Thank you. Board Members, are there any questions with regard to agenda item 5A and this Reich Series, LLC?

**Secretary of State:** None Governor.

**Attorney General:** No Governor.

**Governor:** Please proceed with the second one, Director Malfabon.

**Director Malfabon:** Thank you Governor. For the record Rudy Malfabon, Director of NDOT. This is related to an acquisition of property owned by Ranch Properties, LLC. Again, associated with Project NEON in Las Vegas. It was an acquisition of six parcels. They were single-story four-plex apartment buildings on 1.02 acres in total. We had an appraisal back in February of 2015 for $1.5 million which we updated for the statutory data value in December of 2015 to $1.78 million. The landowners said that their property is worth $3 million so we continued negotiations.

As in the case of rental property, we have our methodology for assessing the value of the property based on the income and capitalization rate. The owner disagreed but we eventually agreed to an amount for a settlement of $2.2 million. That is $700,000 of
additional new money, in addition to the $1.5 million previously deposited with the Court. Again, we will seek reimbursement from the Federal Highway Administration for this property acquisition related to a federalized project.

**Governor:** Do you think it is a good result Director Malfabon?

**Director Malfabon:** It definitely is in the best interest of the State. I think that we always run the risk when we go to a jury trial of those additional legal expenses and a jury verdict that might not be as in our favor and Mr. Gallagher can answer any legal questions.

**Governor:** Well, not to mention, I know, certainty. You have got a budget that you have to work with, with regard to property acquisition and when you have outstanding cases and know that there could be larger exposure than what you could settle for; you just need to be able to move forward. I know the project is going well. It is more than half done and on schedule and on budget. So, that is a good thing. Mr. Gallagher, anything you wish to add?

**Dennis Gallagher:** Governor, just for the record, as the Director has indicated, our exposure in this case would have been well over $3 million, so we believe that this settlement is in the best interest of both, the property owner and the taxpayers of the State of Nevada.

**Governor:** Thank you Mr. Gallagher. I am always thinking to myself when you guys come up, you are calling the game and you are doing the color commentary, but it works out really well. You are a good team. Board Members, are there any questions for Mr. Gallagher or Mr. Malfabon with regard to agenda item 5B.

**Secretary of State:** No Governor thank you.

**Attorney General:** No Governor I move to approve.

**Governor:** The Attorney General has moved to approve the request to pay a cash settlement as presented in agenda item 5A and B. Is there a second?

**Secretary of State:** I will second that Governor.

**Governor:** Seconded by the Secretary of State. Are there any questions or discussion on the motion? I hear and see none. That motion passes 3-0. Thank you very much gentlemen.

6. **Authorization to Contract With a Current and/or Former State Employee** *(For possible action)*

   **A. Department of Transportation**

   Pursuant to NRS 333.705, subsection 1, the Department requests authority to contract with a former employee, Steve Bird. The CA Group plans to utilize
Mr. Bird as a roadway engineer in the development of conceptual roadway plans and cost estimates for the Northern Nevada Traffic Study.

B. Department of Health And Human Services - Aging and Disability Services Division – Nevada Early Intervention Services

Pursuant to NRS 333.705, subsection 1, the Division requests authority to contract with a former employee, Robbin Hickman, to support the division’s Nevada Early Intervention Service program to administer physical therapy. Ms. Hickman is anticipated to work approximately 30 hours per week through June 30, 2018.

C. Department of Administration – Purchasing Division

Pursuant to NRS 333.705, subsection 1, the Division requests authority to contract with Adam Luis, a former Correctional Officer, to provide uniformed security guard services through Allied Universal Security Services.

D. Department of Health and Human Services – Division of Health Care Financing and Policy

Pursuant to NRS 333.705, subsection 1, the Division requests authority to contract with Hanqui (Mark) Ma, a graduate student currently employed by the University of Nevada, Reno. This will be a part-time position to conduct interpretation and statistical analysis on Medicaid claims data. This employee is anticipated to work approximately 20 hours per week from October 16, 2017 through April 16, 2018.

E. Department of Health and Human Services – Division of Health Care Financing and Policy

Pursuant to NRS 333.705, subsection 1, the Division requests authority to contract with Mina Mahmoudi, a graduate student currently employed by the University of Nevada, Reno. This will be a part-time position to conduct interpretation and statistical analysis on Medicaid claims data. This employee is anticipated to work approximately 20 hours per week from October 16, 2017 through April 16, 2018.

F. Department of Corrections – Director’s Office

Pursuant to NRS 333.705, subsection 1, the Department requests authority to contract with a former employee, Traci Dori. The Department plans to utilize Ms. Dori to provide needed training in communications, as well as policies and
procedures to ensure the continued success of the program supporting Nevada crime victims.

**Governor:** We will move to agenda item number 6, Authorizations to Contract with a Current and/or Former State Employee, Mr. Wells.

**Clerk:** Thank you Governor. There are six requests to contract with current and/or former employees pursuant to NRS 333.705, subsection 1.

The first request is from the Department of Transportation to allow a contracted vendor to use a former employee on a project that was awarded to the vendor for the Northern Nevada Traffic Study. The former employee retired in July of this year and did not have any influence or authority over the awarding of the contract or management of the contract with the vendor.

The second request is from the Department of Health and Human Services, Division of Aging and Disability Services, to contract with a former UNLV Professor to provide pediatric physical therapy to infants and toddlers with disabilities for the Early Intervention Services Program. The contract would be for approximately 30 hours per week from October 10, 2017 through June 30, 2018 at a rate of $65 per hour.

The third request is from State Purchasing who contracts with Allied Universal Security Services through a Master Services Agreement to provide uniformed security guards to various State agencies. This request is for Allied Universal to use a former employee who left state service in January 2017 to perform these services. Allied Universal also uses these employees on other contracted jobs with non-State of Nevada employers.

The fourth and fifth requests are from the Department of Health and Human Services, Division of Healthcare Financing and Policy to contract with two current University of Nevada, Reno graduate student workers to conduct interpretation and statistical analysis on Medicaid claims data. The contracts would be for approximately 20 hours per week each from October 16, 2017 through April 16, 2018 at rates of $19.57 and $21.30 per hour respectively. They are bringing them in at two different classifications.

The final request is from the Department of Corrections to contract with a former employee to provide training for a new employee. The former employee retired in July and would train her replacement for a period not to exceed 30 days at a rate of $30.17 per hour.

There are representatives available to answer any other questions Board Members may have.

**Governor:** Thank you Mr. Wells. These are pretty straightforward, these are routine like what we have seen before, correct?

**Clerk:** These are all fairly routine requests.
Governor: Thank you Mr. Wells. I do not have questions. Board Members, any questions with regard to agenda item number 6?

Secretary of State: None Governor.

Governor: Okay. If there are no question, the Chair will accept a motion for approval.

Secretary of State: So moved.

Governor: Thank you Madam Secretary. The Secretary of State has moved to approve the authorizations to contract with a current and/or former state employee as presented in agenda item number 6, is there a second?

Attorney General: I second.

Governor: Seconded by the Attorney General. Any questions or discussion on the motion? I hear and see none. That motion passes unanimously.

7. Request to for Approval of an Allocation From the Interim Finance Committee Contingency Account (For possible action)

Department of Public Safety – Emergency Management

Pursuant to NRS 353.268, subsection 1, the Division requests an allocation of $845,510 from the Interim Finance Committee Contingency Account to cover immediate costs associated Emergency Management Assistance Compact activations of the Nevada National Guard in support of recent request for assistance from Texas, Oregon and Puerto Rico.

Governor: We will move to agenda item number 7, Request for Approval of an Allocation from the Interim Finance Committee (IFC) Contingency Account. Mr. Wells.

Clerk: Thank you Governor. Item 7 is a request pursuant to NRS 353.268, for an allocation from the IFC General Fund Contingency Account for the Department of Public Safety, Division of Emergency Management in the amount of $845,510. This is to cover the projected costs of providing Nevada Guard support for hurricanes Harvey in Texas and Maria in Puerto Rico as well as to assist with wildfires in the State of Oregon.

This is subject to approval by the IFC at their meeting next week. The first request for Hurricane Harvey was reduced from the original request based on the number of hours that the aircraft was used. The second request for the Oregon Wildfires, I believe has ended now and there may be a change or revision to that amount at the IFC meeting next week. Then the third request for assistance in Puerto Rico, is I believe, still ongoing.

Governor: Thank you Mr. Wells. Caleb, is that you in Las Vegas?
Caleb Cage: Yes Governor.

Governor: Will you walk us through with a little more specifics as to the nature of these. I am in full support of them. I do not want anyone to get the wrong impression. Also if you could inform us if we are eligible for any type of reimbursement?

Caleb Cage: Yes Governor. Justin Luna, from my office is also available at the desk for discussions regarding any of the financial matters. For the record Caleb Cage, Chief of the Division of Emergency Management. The State of Nevada is a participant in the Emergency Management Assistance Compact (EMAC) which is an interstate compact which I believe all 50 states and the additional territories are a part of it. It allows states to request through the EMAC process resources from the State of Nevada in response to emergencies and disasters in their jurisdictions.

I will note that right now, I believe the State of Nevada has facilitated five EMAC requests on behalf of Clark County in response to the tragic shooting that happened earlier this week. In addition to this, we work through memorandum of understanding agreements with neighboring states to support their needs as well.

With the incredible number of emergencies and disasters that have happened around the country this year, the State of Nevada, through the Division of Emergency Management has facilitated these three EMAC requests. This is a high number for a year to go through the EMAC process but it is nonetheless meeting needs for states that were and are currently recovering from or responding to significant disasters as you will see listed here, Harvey, Wildfires in Oregon and of course, the Hurricane in Puerto Rico as well.

These will—are reimbursable through Federal Emergency Management Agency (FEMA). Justin, make sure I’m correct on that. These are reimbursable through FEMA that is however, this can take several years. This will allow state agencies to close out their budget within our budget cycle and then receive reimbursement in the future. Justin, any corrections to any of that?

Justin Luna: No corrections.

Governor: Do either of you know what the timeframe is in terms of that reimbursement?

Justin Luna: For the record Justin Luna with the Division of Emergency Management. Typically, the EMAC Process allows 45-days for a reimbursement process. However, there is a provision within the EMAC that any extreme circumstances may cause delays. Typically, the process is 45 days to get reimbursement, depending on availability of federal funding and things of that nature.

Governor: Caleb and everyone at Department of Emergency Management, I mean, this has been a year like no other, with regard to the floods, the fires, what has happened in Las Vegas and what has happened with the hurricanes and you all have stepped up every time and done an extraordinary job. I know the amount of hours that people have put in that they will never get paid for, likely, but I truly appreciate your hard work and your
professionalism and everybody on your team that really has done this seamlessly. I mean, we have been timely with all our reimbursement requests. We have been prompt with our resource requests. We have been on the ground and on the ball with regard to all of these. At least in my seven years, I cannot recall this many things happening in this short amount of time.

I just wanted to publicly thank you for your hard work and your commitment, your dedication and everything that you have done.

**Caleb Cage:** Thank you Governor.

**Governor:** All right, Board Members, are there any questions with regard to agenda item number 7?

**Secretary of State:** No questions, but Governor, if I could just make a comment. I want to thank you for your leadership and I want to thank Caleb and his group for the services that they have provided, not only in our state for what we have needed but to go to all of these other states to help them. I think it is really important to understand that other states do send National Guard to help and I do not think everybody knows that. I do not think you always get the credit that you deserve. We have some wonderful people in this state that are willing to go out and do that. So, thank you very much for what you do and thank you Governor.

**Governor:** Thank you Madam Secretary. Nevada has been the beneficiary of a lot of assistance from other states. When the request comes our way, we do not hesitate. We will find a way to make it work and I am biased, but I think we have an amazing National Guard that trains for these things. I know that there were some logistical functions that our Guard performs that were extremely helpful in Texas and Puerto Rico. And so, time is of the essence when people are undergoing the experiences that they are having as a result of these natural disasters. Unfortunately we have gotten very good at what we do because we have had to do it so often. Again, it is just extraordinary.

All right, any other questions or comments with regard to agenda item number 7? I hear and see none. Is there a motion to approve the request for approval of an allocation from the IFC Contingency Account as presented in agenda item number 7?

**Secretary of State:** Move for approval.

**Attorney General:** Move to approve.

**Governor:** The Attorney General has moved for approval. Madam Secretary, may I take you as a second?

**Secretary of State:** Yes, you may sir.

**Governor:** Okay thank you. So, we have a motion and a second for approval of the request. Any questions or comments on the motion?
Caroline Bateman: Governor, if I may just clarify for the record that the motion includes a recommendation to the IFC to approve the full amount of $845,510.

Governor: Of course. So, it says the Division requests an allocation of $845,510 from the IFC Contingency Account to cover immediate costs associated with Emergency Management Assistance Compact activations of the Nevada National Guard, in support of recent requests for assistance from Texas, Oregon and Puerto Rico. Thank you. All right, we have a motion and a second. Are there any other questions? I hear and see none. That motion passes 3-0, thank you very much.

8. Approval of Master Lease Agreements *(For possible action)*

   A. Department of Administration - Division of Enterprise Information Technology Services

   The Division seeks approval for the second amendment to the existing master lease agreement with Dell Financial Services which provides mid-range equipment for state applications not to exceed $4,126,456.63.

   B. Department of Administration - Division of Enterprise Information Technology Services

   The Division seeks approval for the third amendment to the existing master lease agreement with International Business Machines (IBM) which provides mainframe storage equipment, software and services not to exceed $10,259,963.18.

Governor: We will move to agenda item number 8 which is Approval of Master Lease Agreements, Mr. Wells.

Clerk: Thank you Governor. Item 8 includes two requests from the Department of Administration, Enterprise IT Services Division to amend lease agreements.

The first is a Master Lease Agreement with Dell Financial Services for mid-range equipment for state applications. This amendment extends the lease through January 1, 2022 at a cost of $2.9 million due to the replacement and expansion of storage capacity for state data.

The second request would amend the Master Lease Agreement with IBM for mainframe storage equipment, software and services. The amendment would increase the cost by $9.2 million due to the upgrade and replacement of existing storage which includes additional encryption and security for state data.

There are representatives available from the Department to answer any questions Board Members may have.
Governor: I have no questions, thank you Mr. Wells. Board Members, are there any questions on agenda item number 8?

Secretary of State: No Governor.

Governor: If there are no questions, the Chair will accept a motion.

Secretary of State: So moved for approval of Master Lease Agreements, number 8.

Governor: The Secretary of State has moved to approve the Master Lease Agreements presented in agenda item number 8. Is there a second?

Attorney General: I second.

Governor: Attorney General has seconded the motion, any questions or comments on the motion? I hear and see none. That motion passes 3-0.

9. Review and Consideration of a Victims of Crime Appeal (For discussion and possible action)

Department of Administration – Victims of Crime Program

Pursuant to NRS 217.117, Section 3, the Board shall consider an appeal on the record from an Appeals Officer’s decision on an application for compensation and either render a decision within 15 days of the Board meeting or give notice to the applicant that a hearing will be held at the next meeting. The Board may affirm, modify or reverse the decision of the Appeals Officer.

Governor: We will move on to agenda item number 9, Review and Consideration of a Victims of Crime Appeal. Mr. Wells.

Clerk: Thank you Governor. NRS 217 regulates the compensation for certain victims of criminal acts. Victims apply to the program and a determination is made as to whether or not the victim is entitled to compensation from the Victims of Crime Program. A victim whose claims are denied can appeal to a Hearings Officer to have their claims reconsidered. The Victim or the Clerk of the Board of Examiners can appeal the Hearings Officer’s decision to an Appeals Officer. Finally, both the Hearings Officer and Appeals Officer process are under the jurisdiction of the Department of Administration.

Upon the Appeals Officer’s decision, NRS 217.117, subsection 3 allows the applicant or the Clerk of the Board of Examiners to appeal a decision made by the Appeals Officer to the Board of Examiners. The Board of Examiners can render a decision in the case or hold a future hearing on the matter.

The item for consideration today is a review of the record of an Appeals Officer decision for applicant Charmayne D’anna. Ms. D’anna was notified of the meeting today. Within 15
days of today’s hearing, the Board needs to render its decision on the case. The Board can either affirm, modify or reverse the decision of the Appeals Officer or it can decide to hold a hearing on the matter within 30 days in which case it would reconsider the evidence provided by both the applicant and the Program.

I believe there are representatives from the Victims of Crime Program if there are any additional questions.

**Governor:** Thank you very much. Is there anything else that the Victims of Crime entity would like to present or would like us to know?

**Rebecca Salazar:** No, Governor. I think that we’ve provided the complete record. So, unless you would like us to summarize, we do not have anything to add.

**Governor:** Thank you. Has Ms. D’anna communicated at all or indicated that she wanted to participate in this hearing to you?

**Rebecca Salazar:** No, she has not.

**Governor:** Okay. So, you have received no telephone calls or no letters?

**Rebecca Salazar:** No sir.

**Dale Ann Luzzi:** Dale Ann Luzzi for the record. I spoke to Ms. D’anna by phone and informed her of our meeting today. She asked if she needed to be present. I said she did not but we would send her a letter with the Board’s decision.

**Governor:** So, did she indicate that she was not going to participate?

**Dale Ann Luzzi:** Correct.

**Governor:** Okay, thank you. We have all the papers in front of us but I think the seminal point in here is that the request that was made by Ms. D’anna was filed more than two years subsequent to the September 22, 2014 accident. You have to make the claim within that two-year period. Also, at least the way the decision of the Appeals Officer indicates that Ms. D’anna was riding her bike when she hit a car. The driver of the car stopped his vehicle to render aide to Ms. D’anna. Ms. D’anna was found to be at-fault. Therefore, the September 22, 2014 accident is outside the scope of the Victims of Crime Program coverage.

Essentially the conclusion or the order was based on the foregoing findings of fact and conclusions of law, the determination of the Victims of Crime Program dated December 14, 2016 in the subsequent March 24, 2017 decision and order of the Hearing Officer are affirmed.
Board Members, I do not know if you have any questions or comments that you would like to make but my position is I will support an affirmation of the decision of the Appeals Officer. Madam Secretary or Mr. Attorney General, any questions or comments?

Secretary of State: I have no comments Governor.

Attorney General: No Governor, I am in the same place, I move to affirm the Board’s decision.

Governor: The Attorney General has moved to affirm the decision of the Appeals Officer which was filed on August 2, 2017. It is part of our record. Madam Secretary, do you have a second?

Secretary of State: Yes, I do. I second that Governor.

Governor: The Secretary of State has seconded the motion. Any questions or discussion on the motion? I hear and see none. That motion passes 3-0.

10. Approval of Proposed Leases (For possible action)

Governor: We will move on to agenda item number 10 which is Approval of Proposed Leases, Mr. Wells.

Clerk: Thank you Governor. There are six leases in agenda item 10 for approval by the Board this morning. Lease number 2 is retroactive to July 1, 2015. Other than that, no additional information has been requested by any of the members.

Governor: Thank you Mr. Wells. I have no questions on agenda item number 10. Board Members, do you have any questions?

Secretary of State: I have no questions Governor. I move for approval.

Governor: The Secretary of State has moved to approve the leases presented in agenda item number 10, 1-6, is there a second?

Attorney General: I second.

Governor: The Attorney General has seconded the motion. Are there any questions or discussion on the motion? I hear and see none. That motion passes 3-0.

11. Approval of Proposed Contracts (For possible action)

Governor: We will move on to agenda item number 11, Contracts. Mr. Wells.

Secretary of State: Governor, before you go, can I make a disclosure here?
Governor: Yes.

Secretary of State: Thank you. On agenda item 11, contract number 35, I believe that I am independent judgment of a reasonable person in a situation that would be affected, my relationship with Opportunity Village, which is that I am a Board Member of Opportunity Village. Based on the nature of my relationship with Opportunity Village, I am not going to recuse from voting on contract number 35 of the agenda item number 11. I now ask our Deputy Attorney General if that disclosure is satisfactory under NRS Chapter 281(a).

Christine Bateman: Madam Secretary, as to form, your disclosure is appropriate.

Secretary of State: Thank you. Thank you Governor.

Governor: Madam Secretary, you broke up a little bit. Did you say you are or are not going to vote?

Secretary of State: I am going to vote.

Governor: You are going to vote, okay.

Secretary of State: Yes. I just wanted to make sure that everybody knew that I was a Board Member.

Governor: I understand.

Secretary of State: Okay.

Governor: All right, Mr. Wells.

Clerk: Thank you Governor. There are 56 contracts in agenda item number 11 for approval by the Board this morning. Contract number 5 between the Department of Administration, Public Works Division and TSK Architects is subject to the approval of a restricted IFC Contingency Fund request that will be heard at the IFC meeting next week. Members have requested additional information on the following:

Contract 1 between the Governor’s Office of Science, Innovation and Technology and E-Rate Central

Contract 2 between the Office of the Attorney General and the Washoe County Forensic Lab

Contract 5 between the Department of Administration, State Public Works Division and TSK Architects

Contracts 15, 16 and 17 between the Department of Administration, Public Works Division and Hershenow & Klippenstein Architects, Inc.
Contracts 18 and 19 between the Department of Administration, State Public Works Division and Core Construction Services of Nevada and Hershenow & Klippenstein Architects, Inc.

Contract 37 between the Department of Corrections and Corecivic, Inc.

**Governor:** All right, we will begin with contract number 1. Mr. Mitchell, good morning.

**Brian Mitchell:** Good morning Governor. Brian Mitchell, Director of the Office of Science, Innovation and Technology for the record. This contract is a contract between my office and E-Rate Central covering broadband planning, mapping and procurement. My office is responsible for overseeing the State process there. In your 2016 State Strategic Framework, there are three goals related to increasing broadband access in the State.

Particularly, one goal is to increase the percent of schools and libraries that have access to broadband speeds that meet national benchmarks and also, by 2025, connecting all rural hospitals, health clinics and state correctional facilities to a broadband connection sufficient to provide for tele-health services.

In the past, my office has been very active in mapping and determining the needs we have. This contract will help us to go out and solicit the federal funds necessary in order to meet these needs. This contract, in the scope of work that we have negotiated with E-Rate Central, the firm will do community engagement and outreach, a state broadband solutions assessment, a statewide K-12 consulting and management, network architecture and solutions assistance. Finally, a focus on whole community connectivity.

I could not be happier with this contract. We put a solicitation out and got 13 bids back. This was by far the best contract. The Principle and the Project Manager at the firm were previous Senior Managers at Universal Service Administrative Company which manages all federal broadband funding for schools. As such, they have an intimate knowledge of how to procure additional federal funding which will be very important to our State in connecting all of our schools.

**Governor:** Thank you Mr. Mitchell. You have been very thorough. What amount of money will we be seeking in those grants to get this paid for?

**Brian Mitchell:** Brian Mitchell, for the record. The amount of grants depends on the needs of the individual school district. Through our office, in our budget, we have $2 million in matching funds and with those matching funds we will be able to solicit on a one-to-one basis. At minimum, those matching funds will bring in $2 million additional federal funding for broadband but the number could be higher depending on the project.

**Governor:** Just out of curiosity, what is the most challenging school district to bring broadband to?

**Brian Mitchell:** So, I think we have significant challenges in many of our rural school districts. Some aspects of each school district are well connected depending on the
proximity to a major highway such as I-80. However, there are schools, for example, in Gerlach, which is in Washoe County. Most of Washoe County is pretty well connected because it is in the Reno/Sparks area. Gerlach on the other hand is not. That is one of our big projects. There are other schools, for example, in the Elko County School District and in Ruby Valley. That is an area in Southern Elko County that is not very well connected either. Those kinds of projects will be a focus because without the federal funding, it would be very expensive for these school districts to connect their students.

**Governor:** Thank you. Are there any other questions from Board Members on contract number 1?

**Secretary of State:** No Governor.

**Governor:** Thank you Mr. Mitchell. We will move to contract number 2 which is the Attorney General’s Office and the Washoe County Forensic Lab.

**Nick Trutanich:** Good morning Governor Sandoval, Attorney General Laxalt, Secretary of State Cegavske, Nick Trutanich on behalf of the Attorney General’s Office. Present with me today is our CFO, Christian Schonlau and Washoe County Lab Unit Supervisor, Dr. Lisa Smyth-Roam. Christian Schonlau is going to be describing the contract for you.

**Christian Schonlau:** Good morning Board Members, thank you. Christian Schonlau, for the record. The contract before you furthers the Attorney General’s commitment to testing sexual assault kits in the State of Nevada. Since taking office, the Attorney General has prioritized this issue with additional funding and resources for State and local law enforcement agencies to ensure victims of sexual assault obtain justice. Funding from favorable settlements and federal sources has helped the Attorney General to facilitate the testing of decades of backlog sexual assault kits.

As a result, 3,744 of the approximately 8,200 kits have been tested or have been sent to labs and 1,523 of them have been tested to completion. The result has been approximately 200 Combined DNA Index System (CODIS) hits, with 12 prosecutions.

This contract helps to prevent the backlog from growing again. Funding of this contract will allow for the Washoe County Sherriff’s Crime Lab to expand their lab, hire more staff and outsource additional kits not funded through the sources mentioned previously. This contract is partially funded by the appropriation in AB 97. It is further funded through favorable settlements obtained through the Attorney General’s tenure.

We are happy to take any questions.

**Governor:** Thank you. Well done. This is incredibly important and I know we all want to get to zero and get caught up. My kudos to the Attorney General’s Office and to the Attorney General for making this happen. Keep up the good work. I look forward to hearing what the progress is hereafter. Are there any other questions or comments from Board Members? I hear and see none. Thank you very much.
Nick Trutanich: Thank you Governor.

Christian Schonlau: Thank you.

Governor: We will move to contract number 5, Department of Administration and Tate Snyder Kimsey Architects. Essentially, I asked for this to be heard because it involves the UNLV Medical School. I think it shows that there is a lot of positive progress that is going on at the medical school. Not only is their first class attending course work right now, but now we are starting the planning for the building. If you could give us some highlights of what that includes please.

Chris Chimits: Good morning Governor and Members of the Board. My name is Chris Chimits, Deputy Administrator for the State Public Works Division. This first contract that we are bringing before you right now is a design contract with Tate Snyder Kimsey of Henderson, Nevada. It is for the architectural services to design, provide contract documents and construction administration for the new medical school.

The project itself was actually funded in SB 553. We have established the scope of the project, the schedule, the site location in preparation for the IFC meeting on October 19. That is a 220,000 square foot building. It would be nine-stories high and it is located on a 9.2 acre site at 625 Shadow Lane in Las Vegas.

We anticipate a project cost of $236 million. The construction cost would be somewhere around $183 million. It would be approximately $19 million to $20 million worth of furniture, fixtures and equipment that would go into that project. As I mentioned, the total project cost of $236 million. I believe that University of Nevada, Las Vegas (UNLV) will be presenting the financial aspect of this and the fundraising efforts at the IFC meeting and they have included some additional money for financing costs that would total $250 million.

The firm, Tate Snyder Kimsey, was actually selected by UNLV to do the programming on some conceptual design and then the Construction Manager at Risk (CMAR), Whiting Turner, was also selected by UNLV to provide cost input for the project. The State Public Works Division has elected to retain both of those firms for continuity. They have developed a rapport with the medical school at UNLV. We are staying with those firms and negotiated these contracts to our standards.

Governor: Thank you. Moving right along. Congratulations on that. How long does the design process take and assuming the money is raised for construction, when would the earliest time be when they can commence with construction?

Chris Chimits: Towards the end Governor, we are planning on Notice to Proceed at the end of 2019, for a start of construction. December 2019. If everything goes the way we think it will go, then we would finish around May of 2022. The design would start as soon as IFC gives us authorization to proceed. We put the design contract before the Board of Examiners now, ahead of the IFC, but we would not act on this until IFC authorized us to proceed. The reason we did that is the inflation in Southern Nevada right now is about $1
million a month. We are very mindful of that. As soon as IFC approves it, if they approve it, we are going to start that day with the design process and hustle right through it.

**Governor:** Thank you. You have been very thorough, I appreciate it.

**Chris Chimits:** You are welcome.

**Governor:** Board Members, any questions for contract number 5?

**Secretary of State:** No questions Governor.

**Governor:** Thank you very much. All right, we will move on to 15, 16 and 17, kind of a similar presentation, but this has to do with the National Guard Readiness Center in Las Vegas, as well as the improvements to the Stewart Indian School.

**Chris Chimits:** Chris Chimits with the State Public Works Division. On the first contract, this would be the one for the North Las Vegas Readiness Center. This is a new contract to provide architectural engineering services for design development through the Construction Administration. The schematic design was completed in an earlier project, 15 P2. That was a 15 Capital Improvements Project (CIP) that did the schematic design for this project, so this is a carry-on of that.

We are anticipating about a $30 million construction cost for this project. It would construct a 78,000 square foot building, just west of I-15, right across from the Speedway Center, in North Las Vegas. This firm was selected because of their previous involvement creating the schematic design, so there is continuity going forward. It is a 40 acre site. We are anxious to get going on that. Again, the inflation—subject to the same kind of inflation.

**Governor:** These are all CIPs from the 2017 Legislative Session, are you still confident we are going to stay within the amount of money that was allotted? I will take that as a no correct?

**Chris Chimits:** We included 5% inflation in the CIP book and that is based on the best information that we had at that time which was July of 2016. Since then, Las Vegas is currently enjoying about 11.5% inflation, annually. In Northern Nevada, about the same. That is nothing that I am excited about, in terms of managing the project.

What we are doing is we are aiming for 90% on scope and then trying to build additive alternates so that we have a chance and also hustling through the design process. We are looking at CMAR contracts where we get a guaranteed maximum price at 100% contract documents and then we may be asking for a consideration by this Board at a special board meeting so we get approval and move right into construction without waiting the normal timeframe. Not to be presumptuous, that is just dealing with this inflation that we have in front of us.
Governor: Thank you. I personally appreciate your sensitivity to that. Just know, I think I can speak for the other Board Members, if time is of the essence that this Board will cooperate and work with you to get things done.

Chris Chimits: Thank you very, very much.

Governor: All right, one of my favorite places in the State, the Stewart Facility. Let’s talk about those two projects.

Chris Chimits: Okay, this third contract is with Hershenow & Klippenstein Architects of Reno, Nevada. Again, what we are doing here is providing architectural and engineering services to rehabilitate the existing roof of the gym. Before we put a new roof on it, there has got to be some consideration for the structural condition of that building. If you have been out there, you will know there is a significant amount of daylight that you can see through the building. We selected this architect because in 2005, it was a CIP project, O5M46, which rehabilitated eight of the buildings out there at Stewart. The gym is one of the last three that needs help.

In this project, we retained this firm because of their expertise and familiarity with the campus and with that building. What we will do here is, go out there and complete the design and construction and rehabilitate the gym to a place where we can actually use it.

Governor: I have been there and you can see daylight. This will also make the determination that we are not putting a brand-new roof on a building that is not capable of being used thereafter, correct? The building is still sound enough to do the improvements on it?

Chris Chimits: Yes, part of what the design contemplates is strengthening the masonry walls and putting starch in them if you will, so they are stiff and then putting a new structural diaphragm on top that would transfer lateral or sheer loads when loads into the masonry walls effectively so that the building has a functional ability to it. Then, once that is done, then we would put the new roof on, so that it would be architecturally complete.

Governor: All right, Board Members any questions with regards to contracts 15, 16 and 17?

Secretary of State: None here Governor.

Attorney General: No Governor.

Governor: Thank you. That brings us to 18 and 19, did you want to come up, Ms. Albertson? This has to do with the new Northern Nevada Department of Motor Vehicles Building. Please proceed.

Terri Albertson: Go ahead and start.
Chris Chimits: Okay, Chris Chimits with the State Public Works Board. We are very anxious to get started on this project for some of the same reasons I have already explained. It is a 57,000 square foot DMV in South Reno, off of Double Diamond Boulevard. This project was initially started in 2011. We did conceptual and programming work in 2011, CIP with Hershenow & Klippenstein.

The contract that is before you is a CMAR contract with Core Construction who was selected through the formal process, which is delineated in NRS 341. What we do here is pick-up where we left off in 2011 and design this building so that we can take the load off of Galletti Way.

Terri Albertson: Thank you Governor, I am very excited for this opportunity to provide this new facility to the citizens of Reno. We look forward to getting started on this. As a matter of fact, we are going to Las Vegas on Friday to start the discussions on this and look forward to having this completed on time and on budget.

Governor: Thank you, I know there is a lot of anticipation for this project. And, just real quickly, we have always had a great experience with Hershenow & Klippenstein the Architects, but they have got a lot of projects going on, do they have the bandwidth to get all this done?

Chris Chimits: Governor, it looks bad because there are five contracts here before you today with this same architectural firm, but it is not as bad as it looks. We have got 95 projects, this firm got six of those 95 projects and we managed to get five of them on the agenda before you today. They are a good size firm in Reno, one of the largest and they do have significant horsepower to be able to pull each of these projects to completion.

Governor: I was not trying to imply anything pejorative because we see them all the time and they have done a great job. I do not know if it is exclusive but they do all the National Guard work and they have done several public buildings and we have always had a good result. You are right; it just gives the impression because they appeared so many times on this agenda, so I thought I would ask the question. Thank you. Are there any questions from the other Board Members on these, on 18 or 19?

Secretary of State: No Governor.

Attorney General: No Governor, thank you.

Governor: Thank you. That brings us to number 37, correct Mr. Wells?

Governor: Good morning Director Dzurenda, good to see you again. This is a topic that came up during the Legislature and it has come up in our Board of Prison Commission meetings, but this is the contract to provide out of state correctional beds for the Nevada Department of Corrections. Please proceed.

Director Dzurenda: Thank you Governor, thank you Attorney General and thank you Madam Secretary. First I want to go over a little bit of the background, just so we have an
understanding of this. This was originally reviewed and approved through the Governor on the Governor’s Recommended Budget for two reasons.

One is to the concern the Governor had for the staff’s safety and moral and also the inmate’s safety in the facilities with our increase in population, with housing inmates in non-traditional bed spaces. The second was that the Governor’s concern also with increase in the programming space that was being taken away from the excess population and what impact that is going to make on the victims in the community with doing best practice programming to change the behaviors of these offenders. If we lose those spaces where we do the programs, it could have a direct impact on the victims in the community. I thought it was important to say that.

Currently, today’s population is at 13,683 which was at the end of the business yesterday. Our bed space, if you look at available, traditional beds, that we could use, which I call usable beds is 13,361. What that means is we have 322 inmates today that are not being housed in traditional bed areas. Those inmates go into day room areas, program areas that we make appropriate housing for but it takes away program space that we know is going to help get these inmates back into society much better than they came in.

Today I had two executives from Core Civic attend the hearing just in case any of the Board Members had any questions specific for them. The contract that we opened up, nationally, for an RFP was awarded to Core Civic, so I just want to make sure that we knew that we had executives here today.

An important thing I need to mention too is, in 2018, we are going to have 200 beds taken offline because we have Building 8 in the Southern Desert Correctional Center that is due for remodeling and repairs, which will go back online, we are hoping July of 2019. So we are going to lose 200 bed spaces there. Also, we have 80 beds that are going to be reduced in February at the Northern Nevada Correctional Center due to an ADA retrofit of all the housing units there. Those beds are going to be offline for two and half to three years. That is also going to reduce our traditional bed space that we need to keep the inmates off the program areas.

Currently, what I ended up doing too, which I think is important, my Deputy Director of Programs, Kim Thomas and myself, both visited the facility down in Arizona where the inmates will be sent, just to make sure we are good with the programming space, with the housing space, how the grievances work down there, how they would be able to utilize video visiting and making sure that there is communication. It was important for us to see that so I can feel comfortable that they will be receiving the services that we asked for, but also that we are not going to reduce any of the services for these offenders for reentry back into the community when that point comes.

The other important factor with the out-of-state beds is the targeted population that I am looking at. We have already identified them, which we are going to be reviewing for the transfers for the exact date. I am looking at those inmates that are the most disruptive and most dangerous that is based upon their gang activity. Those that are recruiting our population members, those that are extorting, those that are causing disruption and those
that are creating a fear factor in the other population. Because when you look at programs, you cannot have successful programs if you do not have safe and secure environments. These offenders creating these types of environments here make it unsafe and make other inmates fear being extorted or approached by gang leaders or members if they attend programs.

I think it is important if I make a pact with our staff that we are not going to tolerate this. We are not going to tolerate any of this behavior by these inmates. If they want to partake in gang activity, if they want to disrupt the operation of our facilities, they will find themselves going to Arizona where I can create a better environment here in Nevada for those that really do need the help to get back in the community. I think that is important.

The other factor that we are utilizing for those offenders going out of state is those that are non-residents of the state. What we are doing currently with our programs and our initiatives for reentry is we are trying to connect our communities with those offenders that we know are going to benefit from not only the continuation of our programs but for our mental health and medical treatments going into our community. If they are Nevada residents, I need the spaces here in our state to be able to transfer those offenders successfully and continuity of care, going into our community where those non-residents of our state will not benefit from that.

That is really all I have. This is so important to the State and is important in reducing victimization in our community and this is something that is unfortunate that the State has to even look at today. I do believe what we are doing in corrections with reducing segregation, with our treatment of mental health and the way we are releasing offenders into the community will actually benefit down the road by reducing our population eventually. I know that these programs around the country have proven to reduce victimization in the community, which will reduce crime, meaning we will get fewer inmates down the road coming back into our system.

Governor: Thank you Director Dzurenda. I agree with you. How many beds, for lack of a better term, does this get us? How many individuals will this allow Nevada to transfer to Arizona?

Director Dzurenda: James Dzurenda for the record. It is not as simple as a bed for a bed because it is going to actually give us more beds than 200. Since we are targeting those offenders that are the most violent, 90% of those offenders are in some type of a segregation status, which means they are celled by themselves in a two-person bed. So, when I move one of those beds out, we get bed space for two people.

So, if I can close a restrictive housing unit, which is a single-celled unit and double it up, I will actually be getting more appropriate space to be able to put general population inmates. If I move 50 inmates out of a 100 bed unit to Arizona, I can double up that space and get 100 inmates in there, where originally there were only 50. So, it will help us with the population numbers.
Governor: And, you said that we are going to be sending Core Civic our most dangerous inmates and they have to take whatever we send them, correct?

Director Dzurenda: James Dzurenda for the record. That is correct. They have already looked at all of our offenders and they are prepared to take whatever we give them. Personally, I am not going to send any offenders that I know have significant mental health issues because I think it is our responsibility to make sure that we get them connected back into our community safely while they are here. It will keep inmates closer for me to be able to work with Health and Human Services while they are in our state. Same with those inmates with the most severe medical issues, when they go back into our community I have to have that perfect continuity of care and it would be negligent if I moved them out of state.

Governor: Also, you are 100% with regard to those that do get moved, that they will be treated the same as if they were in Nevada?

Director Dzurenda: James Dzurenda for the record. That is correct. The agency and the facility they are going to is American Correctional Association (ACA) accredited which means they are followed by a higher standard monitored by the National ACA to make sure that they are in compliance with their standards. Their treatment, the programs, the grievances, the out of cell time has to be approved and reviewed and audited by the ACA to make sure they are in line to be accredited.

Governor: My last question is, if you have an inmate in Arizona and they become parole eligible, will they be moved back to Nevada for a Parole Hearing, what are the mechanics of that?

Director Dzurenda: James Dzurenda for the record. The parole hearings will be held in Arizona through video and if they are approved for parole, we move them back to the state to have an appropriate parole plan set up, but they will actually be doing their hearings down there if it comes to that.

I am not looking at sending any inmates away that are near the end of their sentences. If they are low security inmates they are more appropriate to leave in our institutions but they will be doing the hearings from Arizona.

Governor: Thank you. That is all I have. Board Members, do any of you have any questions with regard to contract number 37?

Secretary of State: No Governor, I do not.

Attorney General: No, thank you Governor.

Governor: Okay, thank you gentlemen, well done. If there are no other questions with regard to agenda item number 11, the Chair will accept a motion to approve contracts 1-56.
Secretary of State: So moved, Governor.

Attorney General: So moved. I second.

Governor: Attorney General has moved for approval, is there a second?

Secretary of State: I will second.

Governor: The Secretary of State has seconded the motion. Are there any questions or discussion on the motion? I hear and see none. And just for purposes of the record, we will incorporate for reference, your comments with regard to contract number 35 Madam Secretary.

Secretary of State: Thank you.

12. Approval of Proposed Master Service Agreements (For possible action)

Governor: We will move to agenda item number 12, Master Service Agreements, Mr. Wells.

Clerk: Thank you Governor. There are 10 Master Service Agreement (MSA)s in agenda item 12 for approval by the Board this morning. Agreements 1 through 5, 8 and 9 are for $0. These MSA documents establish the terms and conditions between the state and the vendor. Agencies will access those agreements by submitting a work order with a scope of work and price. Each work order will be subject to the BOE thresholds for approval, which is what you will see under agenda item number 13. For the MSAs on this item, Members have requested additional information on contract number 7 between the State and Switch, LTD and contract number 10 with eCivis, Inc.

Governor: All right, we will start with contract number 7 with Switch. This is a 10-year contract for $20 million. If you would give us some background on what it is for.

Dave Haas: Good morning Governor, Members of the Board. For the record Dave Haas Deputy Administrator for the Enterprise IT Services Division of the Department of Administration. Yes, this is a 10-year contract for $20 million. That amount represents both current and projected usage that we would have at Switch. This contract is a MSA for the good of the State which allows not only ourselves, but other state agencies to be able to use the services within Switch. This is exciting because it provides a strategic approach to our technology within the State of Nevada. It allows us to have much more resiliency and redundancy that we have not had in the past. Plus, we will be able to use the communication superhighway that is currently connected between these two facilities. We are working to adjust our network to take advantage of that. We are very excited about that.
The way the contract is set up, it will allow other Nevada municipalities to be able to access the contract from the terms and conditions of the contract. Switch is a tier 4 facility, which means they are certified, a World-Class facility. It gives us greater protection for our data and the processing we are able to do. I would be happy to answer any questions you have.

Governor: Thank you. Very thorough. They are a Nevada company and I like to see us do business with Nevada companies whenever we have the opportunity. Not only are they a Nevada company they have a World-Class facility. It is a win-win for everybody.

Dave Haas: Absolutely.

Governor: All right, thank you. Are there any questions from the other Board Members on Master Service Agreement number 7.

Secretary of State: No Governor.

Governor: Was there anything else you wanted to present?

Dave Haas: No, that is it.

Governor: Thank you very much. We will move to MSA number 10. This has to do with our grants management program.

Connie Lucido: Good morning Governor, Board Members. For the record Connie Lucido, with the Office of Grant Procurement, Coordination and Management. Our office first released this MSA in 2013. It has those vendors expiring this month. In anticipation of that we pushed out a spring and late spring, RFP to continue it, for any interested vendors. This resulted in two potential contracts. One is strategic progress, which is your Item number 6 on the MSA and then this item number 10, for eCivis.

Governor: Essentially, they go out and find grant opportunities for the state?

Connie Lucido: They can. That is one potential function that they could serve. A lot of contracts that have been executed under this MSA involve research and data analysis for special reports, needs assessments. They have done grant consulting for agency strategies and those sorts of things. It provides some operational efficiencies for state agencies in ease of getting access to grant consultants and administrators.

Governor: And this does not have anything to do with the contracts, but how is it going? Are we finding a lot of grant opportunities?

Connie Lucido: We are doing well. We are looking more closely at implementation and agency capacity to implement these opportunities, so that has slowed us down a little bit but we are doing great. We are looking at some outreach opportunities and some other activities.
Governor: There is a comment here that says, statewide contract that may be used by all state agencies and political subdivisions. Is there an awareness amongst the state agencies and the political subdivisions that this resource is available to them?

Connie Lucido: I would hope so but that is something that we continue to talk about when we talk with our agencies.

Governor: I asked that because they do not know what they do not know and if they knew there might be some opportunities out there, I would encourage some type of outreach to do that.

Connie Lucido: Thank you for that suggestion. We actually have an advisory council on federal assistance coming November 2nd, I believe it is and that is something I will remind the Council as well as we have been doing quite a bit of outreach to our locals and trying to create some participation with them. I will definitely remind them of this opportunity.

Governor: Thank you. Keep up the good work.

Connie Lucido: Thank you.

Governor: Madam Secretary, Attorney General, do you have any questions?

Secretary of State: I do not, thank you Governor.

Governor: Thank you very much. If there are no further questions, the Chair will accept a motion to approve the Master Service Agreements 1-10 as presented in agenda item number 12.

Secretary of State: So moved.

Governor: The Secretary of State has moved for approval, is there a second?

Attorney General: I second.

Governor: Seconded by the Attorney General. That motion passes 3-0.

13. Approval of Proposed Work Plan (For possible action)

Governor: We will move on to agenda item number 13, Approval of Proposed Work Plan, Mr. Wells.

Clerk: Thank you Governor. Item 13 represents a new category for approval by the Board this morning. Items that fall under this category are the work orders off of the $0 Master Service Agreements that we discussed in the last item. This particular work order for consideration by the Board this morning is with Gardner, Inc. for the Enterprise Resource Planning project for replacing the State’s HR and Financial Systems. The work order will
provide assistance to that office in getting the contract documents ready. So, the particular work order is for $982,000 and if there are any other questions, either I can answer them or the Project Director is available. No additional information has been requested by any of the members.

**Governor:** I have no questions. Board Members, any questions?

**Secretary of State:** No Governor.

**Governor:** Is there a motion to approve?

**Attorney General:** I move to approve.

**Governor:** The Attorney General has moved to approve the proposed work plan presented in agenda item number 13, is there a second?

**Secretary of State:** I will second that Governor.

**Governor:** Seconded by the Secretary of State. That motion passes 3-0.

14. **Information Item – Clerk of the Board Contracts**

Pursuant to NRS 333.700, the Clerk of the Board may approve all contract transactions for amounts less than $50,000. Per direction from the August 13, 2013 meeting of the Board of Examiners, the Board wished to receive an informational item listing all approvals applicable to the new threshold ($10,000 - $49,999). Attached is a list of all applicable approvals for contracts and amendments approved from August 22, 2017 through September 18, 2017.

**Governor:** We will move on to agenda item number 14, information item, Mr. Wells.

**Clerk:** Thank you Governor. There were 61 contracts under the $50,000 threshold approved by the Clerk between August 22 and September 18, 2017. This item is informational only and we did not receive any requests for additional information from any of the members.

**Governor:** Board Members, are there any questions with regard to agenda item number 14?

**Secretary of State:** No Governor.

**Attorney General:** No Governor, thanks.

**Governor:** I have none as well. Thank you.

15. **Information Item – Department Reports**
A. Governor’s Finance Office – Budget Division

Governor: We will move to agenda item 15, Department Reports, Mr. Wells.

Clerk: Thank you Governor. Agenda item 15 is an informational report on the available balances in the various contingency accounts that are managed either by the Board of Examiners or the Interim Finance Committee as of September 11, 2017. These accounts are intended to cover contingencies for the 2017 – 2019 biennium. I did want to provide a little comment. You usually ask about the comfort level with the balances. I did a little bit of history because we’ve had a significant number of requests for the IFC Contingency Account. The last three biennia, the 2011 – 2013 interim, in the first year we used about $2.4 million out of a just under $12 million account balance. In 2013 – 2015, we used $6.8 million in the first year of the biennium on an account balance of $15.2. In the 2015 – 2017 biennium, we used a little over $100,000 out of a $12.9 million request.

So, the 2017 – 2019 biennium started with $16.1 million. We have requests in our office at this particular juncture for a little over $6.6 million for the first quarter and that excludes what we know for the Division of Forestry will come forward with requests for the firefighting season. That’s what—we’ve only got a partial request in there at this point. It’s one that we certainly have our eyes on in this interim.

Governor: Thank you Mr. Wells. Board Members, any questions with regard to agenda item number 15?

Secretary of State: None Governor.

16. Public Comment (No action may be taken upon a matter raised under public comment period unless the matter itself has been specifically include on an agenda as an action item)
Governor: We will move on to agenda item 16, Public Comment. Is there any member of the public in Carson City that would like to provide public comment to the Board? I hear and see none. Is there any member of the public present in Las Vegas that would like to provide public comment to the Board?

Secretary of State: There is nobody here Governor.

Governor: Thank you Madam Secretary.

17. Adjournment  *(For possible action)*

Governor: We will move to agenda item 17. Is there a motion to adjourn?

Secretary of State: Move to adjourn.

Attorney General: I second.

Governor: The Secretary has moved to adjourn. The Attorney General has seconded the motion. This meeting is adjourned, thank you ladies and gentlemen.

Secretary of State: Thank you.

Subject: BOARD OF EXAMINERS ACTION ITEM

The following describes an action item submitted for placement on the agenda of the next Board of Examiners' meeting.

COLORADO RIVER COMMISSION

Agenda Item Write-up:

Pursuant to NRS 334.010, the Colorado River Commission requests approval to purchase two new replacement vehicles in fiscal year 2018 in an amount not to exceed $90,820.

Additional Information:

The agency seeks approval to purchase two new replacement vehicles in accordance with the 2018 legislatively approved budget (BA 4490, E714 and BA 4501, E714). One of the vehicles was insufficiently budgeted for and as a result there is a significant cost increase included in this request; a memo of explanation has been provided by the agency. The vehicles will be used to accomplish the activities and mission of the agency, and both sufficient funding and budget authority exist.

Statutory Authority:
BOE approval required pursuant to NRS 334.010.

REVIEWED:

ACTION ITEM:
MEMORANDUM

TO: Colleen Murphy, Executive Branch Officer II
FROM: Douglas N. Beatty, Division Chief, Finance and Administration
DATE: September 19, 2017

SUBJECT: For Informational Purpose: Vehicle Cost Difference

The Colorado River Commission of Nevada (CRCNV) owns, operates, and maintains a high-voltage transmission and distribution system to provide electrical services for its water pumping and industrial power customers. These customers include, among others, the Southern Nevada Water Authority (SNWA), the Clark County Water Reclamation District (CCWRD) and the Basic Substation Project. The CRCNV also is responsible for the operation and maintenance of six additional substations owned by the SNWA and three owned by the CCWRD. The operation and maintenance of the transmission system is done by the staff of the CRCNV’s Power Delivery Group (PDG). The PDG staff are technically assigned one of the electric substations for their duty station, but they actually spend most of their working days in their assigned utility vehicles. These vehicles are generally modified heavy duty trucks or large sport utility vehicles. The PDG is requesting the replacement of one vehicle in this current fiscal year which was included in the approved budget.

However, the replacement vehicle budgeted under E714 was estimated to cost $39,577 based on the valuation provided in the NEBS drop-down system. The actual quote for the replacement vehicle is $68,104. The difference of $28,527 is due primarily to the V8
diesel engine and other options ($12,069), in addition to special equipment ($16,458) added to accommodate the electric power utility function of the vehicle. These costs were not anticipated during budget preparations.

The additional costs, both for the options and modifications to the budgeted vehicle are currently available in the reserves of the CRCNV. Reserve levels will be reviewed and adjusted to the necessary operating levels through monthly power billings as the year progresses. As of today, reserve levels appear adequate for System operations and no additional billings should be necessary as a result of this increase.

COLORADO RIVER COMMISSION
OF NEVADA

MEMORANDUM

Date: September 18, 2017
To: Doug Beatty, Division Chief, Finance and Administration
From: Bob Reese, Assistant Director, Engineering and Operations

SUBJECT: Vehicle Replacement Request

The Power Delivery Group (PDG) is requesting the replacement of 2004 Ford F-350. This vehicle replacement is included in the budget. The vehicle is thirteen years old and has an odometer reading of 140,700.

Our operational requirements include reliable transportation as any unscheduled outages must be addressed within 30 minutes of automated notifications with response to the fault location. It is our belief that the current vehicle no longer meets our reliability standards due to the level of maintenance necessary to keep it on the road.

PDG has also found that utility trucks with specialized locked compartments are better suited for the needs of the operation because of tools, extremely heavy, expensive and often awkward equipment that is transported and used daily. They protect the State's assets and provide better safety for our crew members. With that in mind, PDG is requesting a diesel F-350, 1 ton with 164" wheelbase with special equipment/modifications/attachments.

Please let me know if I can provide and further information.

RE: Motor Pool Car for the Division of Welfare and Supportive Services’s (DWSS) Child Support Enforcement Program (CSEP)

Dear Mr. Burgess,

On March 27, 2017, the CSEP was notified by Douglas County’s Cessation of Child Support Enforcement Program Services that they would not elect to participate any further in providing Child Support Enforcement Program services. Unfortunately, the notification letter was not submitted in sufficient time to adjust DWSS’s budget submission for the 2017 Legislative Session; therefore, an IFC work program (C39148) was submitted and approved at the June IFC.

As requested by Fleet Services staff, I am attaching the work program and the IFC agenda to confirm the work program was approved at the June 20, 2017 IFC; the work program is item 49 on page 9 of section E of the agenda. It is my understanding this documentation is required as back up for Fleet Services’ December IFC work program.

Please do not hesitate to contact me if there are any questions, or if anything further is needed.

Thank you for your assistance,

RE: Claim Number:  
Date of Loss: July 20, 2017  
Our Insured:  
Policy Number:  

To Whom It May Concern:

We have carefully considered the facts of this accident. Based on our investigation, we do not believe our insured was legally liable for your damages.

Upon completion of our investigation, State Farm has determined that there is not sufficient evidence to support one version of the loss over the other version. The facts of this accident are disputed and there were no independent eye witnesses. Therefore, we don't believe our insured can be considered solely liable for this accident, and decline to make voluntary payment.

In the absence of legal liability, we would not be justified in making settlement. Therefore, we must deny payment of this claim.

Sincerely,

Claim Specialist

Hi Lyn,

I have verified that this vehicle is a total loss. The reimbursement amount will be $1,597.50 less the salvage and deductible.

The State of Nevada’s Property Insurance Policy effective 7/1/17-7/1/18 has changed the valuation method for Contractor’s Equipment/Vehicles claims as follows: Units older than 5 years are valued at Actual Cash Value (ACV), units 5 years or newer are valued at Replacement Cost Value. Total Loss Replacement procedures do apply as outlined in S.A.M. 0504.

Thank you,

MEMORANDUM

TO: Natasha Kephart, Budget Analyst III
   DPS Director’s Office

FROM: Dawn Nenzel, Account Tech 1

SUBJECT: Approval to purchase Vehicles

DATE: October 4, 2017

The 2017 Legislature approved the State Fire Marshal Division (Budget Account 3816, decision unit E716) to purchase two replacement vehicles: one replacement investigation vehicle and one replacement training. The agency is requesting to purchase both vehicles at this time for a quoted amount of $72,197.50: the training replacement vehicle is quoted with a price of $40,819.25 and will be stationed in Carson City; the investigation replacement vehicle is quoted at a price of $31,378.25 and will be stationed in Elko.

Attached are the forms and backup documentation required by the Board of Examiners for requesting approval to purchase a state vehicle pursuant to NRS 334.010. Both vehicles are being purchased within the approved budgeted amount of $79,500 and meet the vehicle replacement criteria established in SAM.

Hello Jim,

Please see the following information on why a replacement vehicle is needed. This was provided during the budget build process.

Rational:
The State Fire Marshal Division provides training in compliance to the Nevada Revised Statute (NRS) 477.047, Hazardous materials: Establishment of mobile training team to train volunteer firefighters to respond to incidents. To accomplish this the Division’s Training and Certification Bureau utilizes six hazardous material mobile training props (please see attached document). The mobile props are located in Carson City and are towed to Nevada Fire agencies such as West Wendover, Elko, Panaca, Caliente, Ely, and Tonopah. These training props have been used at different training location at the same time which requires more than one tow vehicle.

These mobile props weigh up to 9,000 pounds and are very problematic when towed with the 2005 Ford F-350. When towing props with this vehicle, there isn’t sufficient power to travel Nevada mountain passes. The 2005 Ford F-350 is a gas fueled truck that is 12 years old and the fuel consumption is at 8 to 10 miles per gallons. It is believed that the purchase of a new truck would be a benefit to the Division as it will be a diesel powered vehicle with new technology for improved power and fuel consumption.

Subject: BOARD OF EXAMINERS ACTION ITEM

DEPARTMENT OF CORRECTIONS – CORRECTIONAL PROGRAMS

Agenda Item Write-up:

Pursuant to NRS 353.268, the Department requests an allocation of $234,372 in Fiscal Year 2018 and $375,056 in Fiscal Year 2019 for a total of $609,428 from the Interim Finance Committee Contingency Account to fund the addition of one Program Officer 2 position, four Program Officer 1 positions, two temporary contracted support positions and other associated costs. The requested positions are needed to ensure compliance with Senate Bill 268 which was enacted during the 2017 Legislative Session to verify an offender's full legal name and date of birth before issuing a photo identification card. This action would result in an increase of the agencies authorized positions from 99 full time equivalents to 104 full time equivalents.

Additional Information:

During the 2017 Session, the Legislature amended Nevada Revised Statute (NRS) 209.511 subsection 1 by requiring the Department of Correction, as part of the inmate pre-release process, to verify an offender’s full legal name and age before issuing a photo identification card. The legal name and date of birth of the individual will be verified by ordering legal and certified copies of the offender’s birth certificate, social security card and additional certification documents as required by the Nevada Department of Motor Vehicles.

NDOC does not have the staff to accomplish the additional workload resulting from SB 268 without additional resources. Currently the NDOC issues the identification cards for inmates using the name and date of birth found on the offender’s judgment of conviction without verifying if the name and date of birth are the full legal name of the offender.
NDOC did submit a fiscal note related to BDR 16-546 indicating an additional eleven Correctional Caseworkers would be needed, however the Agency stated the fiscal impact could not be determined and further review would be needed to determine the appropriate staffing levels.

To comply with SB 268 requiring the Department of Correction, as part of the inmate pre-release process, to verify an offender’s full legal name and date of birth before issuing a photo identification card which was enacted during the 2017 Legislative Session the agency is requesting $234,372 in fiscal year 2018 and $375,056 in fiscal year 2019 for a total of $609,428 from the Interim Finance Contingency Account.

Relates to IFC work program # C41512 FY18 and C42035 FY19.

Subject: IFC Contingency Funds Request Supporting Senate Bill 268

The Department of Corrections is requesting approval from the Board of Examiners to request funds in the amount of $234,372 from the Interim Finance Committee Contingency Account to fund five new permanent positions and two temporary contracted positions in State Fiscal Year (SFY) 2018 to support enhancement of Senate Bill (SB) 268 from the 79th legislative session. The Department has submitted Work Program C41512 pursuant to this request.

During the 2017 Session, the Legislature amended Nevada Revised Statute (NRS) 209.511.1 paragraph (f) of subsection 1. The legal name and date of birth of the individual will be verified by NDOC researching and ordering legal and certified copies of the offender’s birth certificate, social security card and additional certification documents as required by the Nevada Department of Motor Vehicles.

The NDOC does not have the staff to accomplish the additional workload resulting from SB 268 without additional resources. Currently the NDOC issues identification cards for inmates using the name and date of birth found on the offender’s judgement of conviction without verifying if the name and date of birth are legally associated with the offender.

The NDOC did submit a solicited Fiscal Note related to BRR 16-546 indicating an additional eleven Correctional Caseworkers would be needed, but the fiscal impact could not be determined at that time as further study would be needed to determine the appropriate staffing amount.

Based on the current enacted revised NRS and completed NDOC research, the NDOC is requesting funding to be used to fund the following permanent and contracted positions during SFY 2019;

Overview of Request: Request for position(s) and additional funding to comply with Senate Bill (SB) 268.1 (f) and Section 2 of Senate Bill (SB) 268, as approved by the Governor prohibiting the Director of the Nevada Department of Corrections to provide Identification Cards (IDs) for inmates released from NDOC institutions unless their true identity can be verified. This revision to SB 268 becomes effective October 1, 2017 and NDOC was not authorized any positions or funding to perform the additional workload created by the revisions to this statute. However, NDOC did provide a fiscal note in the narrative as to what was needed.

The revision to this statute changed the language from permissive, in that the NDOC could provide assistance to an inmate, who voluntarily requested a birth certificate, to support the Governor’s Statewide Re-Entry Strategic Plan goals which work to support the inmate in obtaining the documentation to obtain identification and/or a driver’s license. NDOC must now verify the inmate’s true identity prior to authorizing any identification upon release. The NDOC must bear the burden of investigating the inmate’s true identity, and applying for verification of the identification prior to the inmate release. Those inmates being released to the community after October 1, 2017, whose true identity cannot be verified through a birth certification or other documentation such as a passport, will have their NDOC inmate identification card confiscated, if the NDOC is not supported with additional resources. This makes the inmate in questionable status upon exit, as he/she would not be in compliance with law enforcement requirements that the individual be able to produce picture identification, and could subject the individual to a technical parole violation.

Inmates may, in many cases, not want their true identity known because they are aware that they have outstanding warrants for crimes committed in other states. Some do not want their true identity known because of back child support that is owed or restitution that has been ordered by the courts in other cases. Women offenders may have arrest histories that include aliases or maiden names, but some may have used married names. This also does not consider name changes to or from their maiden name. This creates additional time and burden to process documentation for women offenders.
The only program that attempts to verify an inmate’s true identity is Re-Entry. Re-Entry services approximately 750 inmates per year or about 80 inmates per month. The NDOC does not have the staff to accomplish the additional workload, for all staff and not just limited to the reentry program, without additional resources. If the funding for these positions is not approved, NDOC has only one of two alternatives: 1) NDOC may release inmates without an identification card; or 2) incur overtime to accomplish the task of verifying an inmate’s true identity. The challenge of releasing an offender without an identification card is the necessity for the offender to have some identification to access resources from medical care, to employment.

Unfortunately, NDOC is not able to contract for these services because the work required to conduct an exhaustive analysis of an inmate’s true identity will require the use of the National Crime Institution Center (NCIC) to check for additional arrest or criminal information under aliases, married and maiden names as well as contacting other law enforcement agencies, probation departments and foreign consulates for information regarding an inmate's identity. It will also require staff to write disciplinary documentation for inmates that refuse direct orders to comply with the request to obtain birth certificates or documentation to verify their true identity.

**Comparison of Legislation:** Prior to the revised legislative language, the previous legislation did not require the NDOC to verify the offender’s true identity and was therefore treated as permissive and it required NDOC to provide IDs per NRS 209.511 as follows:

(f) Shall provide the offender with a photo identification card issued by the Department and information and reasonable assistance relating to acquiring a valid driver’s license or identification card to enable the offender to obtain employment, if the offender:

(1) Requests such information and assistance; and

(2) Is eligible to acquire a valid driver’s license or identification card from the Department of Motor Vehicles;

In view of the fact that the prior legislative language was permissive, inmates chose whether they wanted to obtain a birth certificate. If they chose to pursue obtaining a birth certificate they completed the request, completed a brass slip and mailed the request out. This legislation supports the Governor’s Re-Entry Strategic Plan which focuses on re-entry upon the inmate’s entrance into the NDOC, and this request for funding would satisfy that mandate.

The mandate in SB 268 is as follows:

2. The Director shall not provide an offender with a photo identification card pursuant to paragraph (f) of subsection 1 unless the Director has verified the full legal name and age of the offender by obtaining an original or certified copy of the documents required by the
Department of Motor Vehicles pursuant to NRS 483.290 or 483.860, as applicable, furnished as proof of the full legal name and age of an applicant for a driver’s license or identification card.

The new legislation (SB 268) places a greater burden on the NDOC to ensure compliance with the Governor’s and Legislative re-entry efforts and, therefore, increases the workload and costs associated with providing validated Identification as outlined in this request.

**Current Caseloads:** The exception to this permissive approach is the NDOC’s Re-Entry Program which processes approximately 750 inmates annually. Re-Entry staff attempts to obtain a certified copy of the inmate’s birth certificate prior to the inmate being released into the community which means that about 750 of the approximately 6,000 inmates released have their true identity verified. Current Re-Entry program staff calculated that it takes two (2) or more hours per inmate to process and complete the entire process, and in difficult cases, it may take as much as six (6) hours. The process includes: information provided by the inmate has to be verified against the information in NOTIS, the inmate bank slip withdrawal (brass slip) form to pay for the birth certificate has to be completed and submitted, the request for the birth certificate has to be mailed, and once the birth certificate is received it has to be entered in NOTIS and copies have to be made for the inmate and the inmate file. Therefore, the request for FTEs is based on the two (2) hours that is required to complete the entire process for the
approximately 6,000 inmates that will be released this next fiscal year and the approximate number of inmates that will processed through intake this next year.

At the present time, the NDOC’s automated inmate information system NOTIS, is programmed to have one name and the aliases. It is anticipated that once the process of verifying an inmate’s true name, that NOTIS will have to be re-programmed to indicate that name on the Judgment of Conviction (JOC), the true name and the aliases. It is recommended that the true name not be entered in the case notes because it will not alert staff in Parole and Probation that the inmate was committed to the NDOC under an alias.

Program Officers, being requested, will have to alert staff in Intake, through NOTIS that the “Identification Card” that was used by the NDOC will have to confiscated, if the true identity cannot be verified. Program Officers will also have to alert Intake staff that the “Identification Card” used by the NDOC during the inmate’s incarceration will have to be confiscated and a new card will have to be issued with the inmate’s verified identity. It is also anticipated that the workload for disciplinary infractions and grievances will increase once this process is instituted because the current Administrative Regulation is being revised to include sanctions for those inmates that do not cooperate with staff’s efforts to obtain information for requests for birth certificates.

Inmates will also be advised that they will not be assigned to paying jobs because the NDOC cannot verify their true identity and validate the social security number for tax purposes. Once this occurs, the NDOC is mandated to notify the Social Security Administration that there may be fraud involved regarding the inappropriate use of a social security number. Inmates will also be advised that they may not able to enter a re-entry program which seeks to verify their true identity, their social security number, obtain a birth certificate and obtain health clearance requirements for entering the workforce. They will also be advised that NDOC will not assign them to pre-apprenticeship programs unless the NDOC can verify their true identity.

All of the above will certainly create grievances and may increase disruptive behavior on the part of inmates who will not be able to enroll in programs, thereby generating disciplinary documentation and workload for officers, hearing lieutenants and caseworkers holding classification hearings and entering information in NOTIS. In view of all of the above, it is anticipated that workload will increase across different units, including Intake, Classification, Inmate Discipline, Inmate Grievances, NOTIS entries and MIS. However, NDOC believes they will be able to absorb these additional costs.

**Safety and Security:** The NDOC must continue to issue inmate identification cards while the inmates are in NDOC’s custody, simply to ensure a safe and orderly operation within the institution. This does not mean that the NDOC can, at the present time, ensure that each inmate in its custody has been thoroughly vetted as to their true identity to ensure that outstanding warrants, holds or detainers under an alias have been addressed. Therefore, each time that an inmate is being considered for minimum custody in a camp, outside work crew or transitional housing, a calculated risk is being incurred by the staff classifying the inmate as
minimum custody. This risk is also incurred by staff when classifying an inmate to a custody level within the institution, because without verifying the true identity of an inmate, an inmate may be classified without critical arrest, conviction or mental health information that could change an inmate's classification and/or housing status. This is especially true in Nevada where NDOC houses many inmates that are non-Nevada residents.

At the present time, NDOC conducts a good faith effort to ensure that there are no outstanding warrants or holds, but this search is based on the name provided by the courts on the Judgment of Conviction (JOC). Without additional resources, the NDOC may be unable to honor warrants, holds, or detainers, prior to an inmate's release from custody, as the identification may differ from the request. As a note, the name the offender is arrested under is currently being used to process the offender through the court system, without verifying the identity and/or changing the identity on the documents. Inmates being released to the community without any identification will become a serious problem for Parole and Probation, local law enforcement, Immigration and Customs Enforcement, Department of Motor Vehicles, Veteran's Administration, social services agencies, community service providers, Medicaid, DHHS (services for the mentally ill) DETR, Social Security Administration (social security cards) and employers who cannot identify the inmate's identity. All of these issues impact the Governor's Re-Entry Strategic Plan initiative to reduce recidivism.

**Justification for Request:** It has been reported to the NDOC that Probation and Parole has had tremendous workload issues and that they are also inadequately staffed to perform all of their required duties. As a result, the NDOC has been receiving inmates without Parole/Probation Officer Reports (POR) or the PORs are received after the inmate has already been processed through Intake. The NDOC relies on the POR, fingerprints and NCIC to establish the inmate's identity. However, the NDOC does not have a system or process in place that requires the NDOC to verify the inmate's true identity.

*As stated, NDOC releases an average of about 6,000 inmates per fiscal year. It is expected that this number will stay constant for the next biennium because 80% of NDOC's population is anticipated to expire or be paroled based.*

An additional challenge is the implementation of this bill as of October 1, 2017, for which NDOC is working to develop an implementation plan that is satisfactory to the Secretary of State and the Board of Prison Commissioners. The process of obtaining birth certificates may be a lengthy process depending on whether or not the inmate is cooperative and where the inmate was born. For example, inmates born in foreign countries or inmates that claim to be American citizens under one name but are actually foreign born under a different name. Additionally, some inmates are already over-due for parole or have extremely short release dates when they are received at NDOC's intake facilities due to pre-sentence and post-sentence credits that are applied by the courts when sentenced.

Currently, the NDOC does not attempt to verify each offender's true identity as the offender is being processed into the NDOC at Intake or when the inmate is being released from NDOC to
the community. The NDOC does not request a birth certificate, passport or other documentation that could verify an inmate’s true identity. Instead the NDOC accepts the identification submitted by the Court on the JOC that committed the inmate to the NDOC as the inmate’s true identity, even though the NCIC Report (arrest history) may list aliases that the inmate had during prior arrests and/or incarcerations.

Therefore, there is no additional workload to the normal Intake process due to the fact that the NDOC interpreted the verification of identification as a simple comparison of the inmate’s name against the commitment documents. At the present time, intake staff fingerprint and photograph the inmate and list the identify marks such as scars and tattoos. This will no longer be the case, as a much more work intensive process has to begin at Intake because inmates arrive at NDOC with sentences that range from long sentences to those that are already overdue for release when they arrive due to pre-sentence and post-sentence credits.

The Intake and release process will have to change dramatically because it will be incumbent upon the Director to issue identification cards upon the inmate’s release, only if the inmate’s true identity can be verified. The process for verification can no longer be voluntary and NDOC staff will have to try to get the inmate to request a birth certificate at intake. NDOC staff will have to compare the information in the NCIC arrest report against the information in the Probation Report and the commitment documents. If there are inconsistencies in names due to aliases, birth dates, height, weight, color of eyes, hair scars or tattoos, staff may have to request an additional NCIC report.

The FTEs requested are the minimum needed to accomplish the mandates of this legislation. The workload is just 106 per month, with subsequent years, the caseload adjusting to just over 80 per month. The difference in the caseload data is the expectation that in subsequent years, there would be repeat offenders. The request is to ensure identification processes are followed for those inmates not specifically assigned to a Re-Entry program. Applying the most conservative estimate of two hours per inmate to verify their true identity the NDOC will need five (FTE) program staff, and two (2) contracted staff for a period of one-year, to address the backlog. These five positions would be distributed to the facilities that do not have Intake units to begin the process of verifying the current population at each of those facilities. Of the five permanent Program Positions, the PO II and two PO I positions would be assigned to HDSP because it is the largest intake center with close to 3,700 inmates. One PO I would be assigned to NNCC which has the highest number of releases in northern Nevada; and one (1) assigned to FMCC, NDOC’s only female facility. Each facility would service the camps assigned to their facility. Duties would include working with inmates upon intake as well as validating and collecting documents throughout the year, to ensure the documents are updated in the inmate’s files, and updating the Nevada Offender Tracking Information System (NOTIS). Additionally, two contract staff would be requested for a period not to exceed 12-months, to alleviate the backlog for offenders who are exiting the system. This will work to capture the inmates that are already processed through intake, and will be exiting the system. The contract staff would be hired through Temporary Employment Master Service Agreement (MSA).
Summary of Funding Required: The NDOC is requesting funding for a total of five (5) FTE’s; and two (2) temporary positions for the first year. This is a total of seven positions. The program positions would be assigned to the Statewide Re-Entry Coordinator.

The Program Officer II – Grade 33 Supervisory position to perform administrative work in planning, coordinating and prioritizing which inmate’s identifications required relevant to their projected release dates. The position will be responsible for the supervision of the PO I positions, in a working supervisor position. The PO II would also interview inmates that were more problematic, completing request forms or assisting inmates in gathering and compiling the comprehensive information needed to be in compliance with SB 268. They would be entering and auditing NOTIS entries; reviewing NCIC documentation; and this may include but not limited to submitting applications for or other identification as required in compliance with the Department of Motor Vehicle.

The Program Officer I – The PO I positions and temporary positions would actively engage and interview inmates, completing request forms; gathering and compiling the comprehensive information needed to be in compliance with SB 268. They would be entering correct information in NOTIS to ensure identification of inmates was compared against existing information; validate information and process updated identification information; including submitting applications for birth certificates, social security cards, or other identification as required in compliance with the Department of Motor Vehicle.

Cost of Birth Certificates: NDOC estimates that roughly 65%, or 3,250 inmates released annually will need to obtain a certified birth certificate to obtain a legal identification for employment and services. The cost of birth certificates is estimated to be $80,437.50 for FY18 (starting October 2017); and $107,250.00 for FY19. These funds can be covered by the Inmate Welfare Account. The validated birth certificates would allow NDOC to comply with the statute and provide ID cards with the validated information. The cost of the identification card is $3.00 per inmate. The annual cost is anticipated to be $7,313 for FY 18 and $9,750 for FY19.

Senate Bill No. 268-Committee on Judiciary

CHAPTER.........

AN ACT relating to corrections; requiring the Director of the Department of Corrections to verify the full legal name and age of an offender who is to be released by obtaining certain documents before providing a photo identification card to the offender; authorizing a sheriff, chief of police or town marshal, upon request, to provide certain information and assistance to a person who is to be released from a jail or detention facility; revising provisions governing the allowance of credits to a prisoner of a local detention facility who successfully completes a program of education, a program of vocational education and training, a program of treatment for alcohol or drug abuse or another approved program; revising the documents which may be furnished to the Department of Motor Vehicles as proof of the full legal name and age of the offender to apply for a driver’s license or identification card; providing for the waiver of certain fees relating to driver’s licenses and identification cards for certain persons who are released from a jail or detention facility; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:
Existing law requires the Director of the Department of Corrections to provide to an offender upon the offender’s release from prison and if the offender requests it: (1) a photo identification card containing the name, the date of birth and a color picture of the offender; and (2) information and reasonable assistance relating to acquiring a valid driver’s license or identification card to enable the offender to obtain employment if the offender is eligible to acquire a driver’s license or identification card from the Department of Motor Vehicles. (NRS 209.511) Section 1 of this bill requires the Director to verify the full legal name and age of the offender by obtaining certain documents to prove the name and age of the offender before providing the photo identification card. Section 2 of this bill authorizes the sheriff of a county, the chief of police of a city or a town marshal, if requested, to provide a prisoner with certain information and assistance upon the person’s release from the county, city or town jail or detention facility because of the expiration of the person’s sentence or term of detention.

Existing law requires the deduction of 5 days from a prisoner’s term of imprisonment in a county or municipal detention facility if the prisoner earns a general educational development certificate or an equivalent document for successfully completing an educational program for adults that is conducted jointly by the local detention facility and the school district in which the facility is located. (NRS 211.330) Section 3 of this bill provides that, under certain circumstances, a prisoner of a county, city or town jail or detention facility must be allowed a deduction of not more than 5 days from his or her term of imprisonment for: (1) earning a general educational development certificate or an equivalent document for successfully completing an educational program for adults; or (2) successfully
completing a program of vocational education and training or another approved program.

Existing law authorizes the deduction of no more than 5 days from a prisoner's term of imprisonment in a county or municipal detention facility if the prisoner is awarded a certificate for successfully completing a program of treatment for the abuse of alcohol or drugs which is conducted jointly by the local detention facility and a person who holds a license or certificate as an alcohol and drug abuse counselor or counselor intern. (NRS 211.340) Section 4 of this bill provides that, under certain circumstances, a prisoner of a county, city or town jail or detention facility must be allowed a deduction of 5 days from his or her term of imprisonment for receiving a certificate for successfully completing a program of treatment for the abuse of alcohol or drugs.

Sections 3 and 4 also provide that if the prisoner completes the applicable program with meritorious or exceptional achievement, the prisoner may be allowed up to an additional 5 days of credit.

Existing law provides for the waiver of: (1) certain fees for furnishing a duplicate driver's license for a person who was released from prison within the 90 days immediately preceding the person's application for the driver's license or identification card; and (2) the cost of producing a photograph for a driver's license or identification card. (NRS 483.417, 483.825) Sections 6 and 7 of this bill authorize the waiver of the fees for a person who was released from a county, city or town jail or a detention facility within the immediately preceding 90 days.

EXPLANATION—Matter in bolded italics is new; matter in brackets [omitted material] is material to be omitted.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

Section 1. NRS 209.511 is hereby amended to read as follows:

209.511 1. [When] Except as otherwise provided in subsection 2, when an offender is released from prison by expiration of his or her term of sentence, by pardon or by parole, the Director:

(a) May furnish the offender with a sum of money not to exceed $100, the amount to be based upon the offender's economic need as determined by the Director;

(b) Shall give the offender notice of the provisions of chapter 179C of NRS and NRS 202.357 and 202.360;

(c) Shall require the offender to sign an acknowledgment of the notice required in paragraph (b);

(d) Shall give the offender notice of the provisions of NRS 179.245 and the provisions of NRS 213.090, 213.155 or 213.157, as applicable;

(e) Shall provide the offender with information relating to obtaining employment, including, without limitation, any programs which may provide bonding for an offender entering the workplace

79th Session (2017)
and any organizations which may provide employment or bonding assistance to such a person;

(f) Shall provide the offender with a photo identification card issued by the Department and information and reasonable assistance relating to acquiring a valid driver’s license or identification card to enable the offender to obtain employment, if the offender:

(1) Requests a photo identification card; or

(2) Requests such information and assistance and is eligible to acquire a valid driver’s license or identification card from the Department of Motor Vehicles;

(g) May provide the offender with clothing suitable for reentering society;

(h) May provide the offender with the cost of transportation to his or her place of residence anywhere within the continental United States, or to the place of his or her conviction;

(i) May, but is not required to, release the offender to a facility for transitional living for released offenders that is licensed pursuant to chapter 449 of NRS; and

(j) Shall require the offender to submit to at least one test for exposure to the human immunodeficiency virus.

2. The Director shall not provide an offender with a photo identification card pursuant to paragraph (f) of subsection 1 unless the Director has verified the full legal name and age of the offender by obtaining an original or certified copy of the documents required by the Department of Motor Vehicles pursuant to NRS 483.290 or 483.860, as applicable, furnished as proof of the full legal name and age of an applicant for a driver’s license or identification card.

3. The costs authorized in paragraphs (a), (f), (g), (h) and (j) of subsection 1 must be paid out of the appropriate account within the State General Fund for the use of the Department as other claims against the State are paid to the extent that the costs have not been paid in accordance with subsection 5 of NRS 209.221 and NRS 209.246.

3. As used in this section:

(a) “Facility for transitional living for released offenders” has the meaning ascribed to it in NRS 449.0055.

(b) “Photo identification card” means a document which includes the name, date of birth and a color picture of the offender.

Sec. 2. Chapter 211 of NRS is hereby amended by adding thereto a new section to read as follows:

1. Except as otherwise provided in subsection 2, when a prisoner is released from a county, city or town jail or detention
facility by expiration of his or her term of imprisonment, the sheriff, chief of police or town marshal, as applicable, may provide the prisoner with information and reasonable assistance relating to acquiring a valid driver's license or identification card to enable the prisoner to obtain employment or participate in transitional programming, if the prisoner requests such information and assistance and is eligible to acquire a valid driver's license or identification card from the Department of Motor Vehicles.

2. The sheriff, chief of police or town marshal, as applicable, shall not provide a prisoner with information or assistance relating to acquiring a driver's license or a photo identification card pursuant to subsection 1 unless he or she has verified the full legal name and age of the prisoner by obtaining an original or certified copy of the documents required by the Department of Motor Vehicles pursuant to NRS 483.290 or 483.860, as applicable, furnished as proof of the full legal name and age of an applicant for a driver's license or identification card.

3. As used in this section, "photo identification card" means a document which includes the name, the date of birth and a color picture of the prisoner.

Sec. 3. NRS 211.330 is hereby amended to read as follows:

211.330 1. [n] A prisoner who has no serious infraction of the regulations of the county, city or town jail or detention facility in which the prisoner is incarcerated or detained, the terms and conditions of his or her residential confinement or the laws of this State recorded against the prisoner must be allowed, in addition to the credits on a term of imprisonment provided for in NRS 211.310, 211.320 and 211.340, [the sheriff of the county or the chief of police of the municipality in which a prisoner is incarcerated shall deduct] a deduction of not more than 5 days from the prisoner’s term of imprisonment for [earning]:

   (a) Earning a general educational development certificate or an equivalent document by successfully completing an educational program for adults [conducted jointly by the local detention facility in which the prisoner is incarcerated and the school district in which the facility is located.]; or

   (b) Successfully completing:

      (1) A program of vocational education and training; or

      (2) Any other program approved by the sheriff of the county, the chief of police of the municipality or the director, as applicable, for the county, city or town jail or detention facility, as applicable, in which the prisoner is incarcerated or detained.
2. The provisions of this section apply to any prisoner who is sentenced on or after October 1, 1991, to a term of imprisonment of 90 days or more. If the prisoner completes such a program with meritorious or exceptional achievement, the prisoner may be allowed not more than 5 days of credit for each such program in addition to the days allowed for the successful completion of the program pursuant to subsection 1.

Sec. 4. NRS 211.340 is hereby amended to read as follows:

211.340 1. [In A prisoner who has no serious infraction of the regulations of the county, city or town jail or detention facility in which the prisoner is incarcerated or detained, the terms and conditions of his or her residential confinement or the laws of this State recorded against the prisoner must be allowed, in addition to the credits on a term of imprisonment provided for in NRS 211.310, 211.320 and 211.330, the sheriff of the county or the chief of police of the municipality in which a prisoner is incarcerated may deduct] not more than 5 days from the prisoner’s term of imprisonment if the prisoner:

(a) Successfully completes a program of treatment for the abuse of alcohol or drugs; [which is] conducted jointly by the local detention facility in which the prisoner is incarcerated and a person who is licensed as a clinical alcohol and drug abuse counselor, licensed or certified as an alcohol and drug abuse counselor or certified as an alcohol and drug abuse counselor intern or a clinical alcohol and drug abuse counselor intern, pursuant to chapter 641C of NRS; and

(b) Is awarded a certificate evidencing the prisoner’s successful completion of the program.

2. The provisions of this section apply to any prisoner who is sentenced on or after October 1, 1991, to a term of imprisonment of 90 days or more. If the prisoner completes such a program with meritorious or exceptional achievement, the prisoner may be allowed not more than 5 days of credit in addition to the days allowed for the successful completion of the program pursuant to subsection 1.

Sec. 5. (Deleted by amendment.)

Sec. 6. NRS 483.417 is hereby amended to read as follows:

483.417 1. The Department shall waive the fee prescribed by NRS 483.410 and the increase in the fee required by NRS 483.347 not more than one time for furnishing a duplicate driver’s license to:

(a) A homeless person who submits a signed affidavit on a form prescribed by the Department stating that the person is homeless.

79th Session (2017)
(b) A person who submits documentation from the Department of Corrections verifying that the person was released from prison within the immediately preceding 90 days.

(c) A person who submits documentation from a county, city or town jail or detention facility verifying that the person was released from the county, city or town jail or detention facility, as applicable, within the immediately preceding 90 days.

2. A vendor that has entered into an agreement with the Department to produce photographs for drivers’ licenses pursuant to NRS 483.347 may waive the cost it charges the Department to produce the photograph of a homeless person or person released from prison or a county, city or town jail or detention facility for a duplicate driver’s license.

3. If the vendor does not waive pursuant to subsection 2 the cost it charges the Department and the Department has waived the increase in the fee required by NRS 483.347 for a duplicate driver’s license furnished to a person pursuant to subsection 1, the person shall reimburse the Department in an amount equal to the increase in the fee required by NRS 483.347 if the person:
   (a) Applies to the Department for the renewal of his or her driver’s license; and
   (b) Is employed at the time of such application.

4. The Department may accept gifts, grants and donations of money to fund the provision of duplicate drivers’ licenses without a fee to persons pursuant to subsection 1.

Sec. 7. NRS 483.825 is hereby amended to read as follows:

483.825 1. The Department shall waive the fee prescribed by NRS 483.820 and the increase in the fee required by NRS 483.347 not more than one time for furnishing a duplicate identification card to:
   (a) A homeless person who submits a signed affidavit on a form prescribed by the Department stating that the person is homeless.
   (b) A person who submits documentation from the Department of Corrections verifying that the person was released from prison within the immediately preceding 90 days.
   (c) A person who submits documentation from a county, city or town jail or detention facility verifying that the person was released from the county, city or town jail, as applicable, within the immediately preceding 90 days.

2. A vendor that has entered into an agreement with the Department to produce photographs for identification cards pursuant to NRS 483.347 may waive the cost it charges the Department to produce the photograph of a homeless person or person released
from prison, a county, city or town jail or detention facility for a duplicate identification card.

3. If the vendor does not waive pursuant to subsection 2 the cost it charges the Department and the Department has waived the increase in the fee required by NRS 483.347 for a duplicate identification card furnished to a person pursuant to subsection 1, the person shall reimburse the Department in an amount equal to the increase in the fee required by NRS 483.347 if the person:
   (a) Applies to the Department for the renewal of his or her identification card; and
   (b) Is employed at the time of such application.

4. The Department may accept gifts, grants and donations of money to fund the provision of duplicate identification cards without a fee to persons pursuant to subsection 1.

5. As used in this section, “photograph” has the meaning ascribed to it in NRS 483.125.

Sects. 8 and 9. (Deleted by amendment.)

DEPARTMENT OF EDUCATION – DISTRIBUTIVE SCHOOL ACCOUNT

Agenda Item Write-up:

Pursuant to NRS 353.268, the Department of Education request an allocation of $1,679,139 from the Interim Finance Committee Contingency Account to fund an adjustment to the per pupil funding due to a change in allocation methodology which has a detrimental impact to certain school districts.

Additional Information:

The Department is requesting an allocation to fund an adjustment to per pupil funding due to a change in the allocation methodology use to generate district per pupil amounts for Senate Bill 544 of the 2017 legislative session. The district of location was used for this calculation rather than the district of residence which more accurately represents district enrollment. Two districts per pupil funding was impacted negatively by this methodology. Funding per pupil is broken down as follows: Washoe County School District $104 and Carson City School District $1. The allocation methodology will be reviewed during the interim and an Equity Allocation work group will make recommendations for future revisions to the Equity Allocation Model that is used in determining per pupil funding amounts statewide.

SUBJECT:  Contingency Account Request for Washoe County and Carson City School Districts

The Department of Education asks approval from the Board of Examiners to request funds in the amount up to $1,679,139 from the Interim Finance Committee Contingency Account to the Distributive School Account (DSA, BA 2610) for Washoe County School District ($1,671,527) and Carson City School District ($7,612). This request is to adjust the DSA per pupil amount equivalency resulting from a change in the allocation methodology in the employment of the virtual charter school enrollment which used the school’s headquarter location versus the student’s district of residency.

The per pupil amounts in SB544 were calculated according to the charter school’s district of headquarter and resulted in WCSD projected enrollment for FY2018 of 70,564.2 and 8,042.2 for CCSD; whereas using a student’s district of residency equated to a projected enrollment of 68,106.4 for WCSD and 7,977.4 for CCSD, resulting in a per pupil amount increase of $104 and $1, respectively.

The change from using district of residence to district of headquarter, resulted in a significant detrimental impact to one district and a minor change to another. Adjusting now for the shortfall will allow time to modify FY18 and FY19 budgets. The manner of how to handle charter school enrollment is under review with the Equity Allocation Workgroup where recommendations were made in 2016 to continue to study how charter schools factor in the DSA/Equity Allocation Model.

DEPARTMENT OF EDUCATION - SPECIAL EDUCATION CONTINGENCY

Agenda Item Write-up:

Pursuant to NRS 353.268, the Nevada Department of Education requests an allocation of $208,159 from the Interim Finance Committee Contingency Account to replenish the Special Education Contingency Account.

Additional Information:

The Department allocated an amount up to $208,159 from the Special Education Contingency Account in fiscal year 2017. This account was funded at $5,000,000 in fiscal year 2017, of that funding $3,000,000 is required to balance forward to the Distributive School Account and be distributed to public schools for special education purposes. The remaining funds in the account balance forward and a balance of $2,000,000 is legislatively approved for the account. This request will replenish the account to maintain that balance.

SUBJECT: Special Education Contingency Account

The Department of Education asks approval from the Board of Examiners to request funds in the amount of $208,159 from the Interim Finance Committee Contingency Account to replenish the Contingency Account for Special Education to the amount reflected in the legislatively approved budget of $2.0 million.

During the 2017 Session, the Legislature approved a change to the special education contingency funding from $5.0 million in FY 2017, balancing forward $3.0 million into the Distributive School Account (BA 2610), and $2.0 million to the new Contingency Account for Special Education (BA 2619).

The funding expended in FY 2017 was used to reimburse school districts for extra-ordinary special education expenditures, as follows:

- Douglas County School District $ 52,994.47
- Churchill County School District $121,204.81
- Washoe County School District $ 34,059.81

GOVERNOR'S OFFICE OF WORKFORCE INNOVATION – NEVADA P20 WORKFORCE REPORTING

Agenda Item Write-up:

Pursuant to NRS 353.268, the Governor's Office of Workforce Innovation requests an allocation of $250,000 from the Interim Finance Committee Contingency Account to support the data partner planning for the Nevada P-20 to Workforce Research Data System.

Additional Information:

During the 2017 Legislative Session, the subcommittees on Human Services recommended not approving the Governor’s recommendation for General Fund appropriations of $500,000 over the biennium for data partner planning for the Nevada P-20 to Workforce Research Data System (NPWR). The subcommittees authorized the Department of Employment, Training and Rehabilitation with the ability to request an allocation from the IFC Contingency Account after developing a detailed cost estimate and resolving issues related to data matching. Since OWINN is now responsible for oversight of the NPWR data system, OWINN is requesting the allocation.

SUBJECT: Request of Interim Finance Contingency Funds

The Governor’s Office of Workforce Innovation (OWINN) requests approval from the Board of Examiners to request $250,000 from the Interim Finance Committee Contingency Account for Fiscal Year 2017-2018 and $250,000 for Fiscal Year 2018-2019.

During the 2017 Legislative Session, the Subcommittees on Human Services recommended not approving the Governor’s recommendation for General Fund appropriations of $500,000 over the biennium for data partner planning for the Nevada P-20 to Workforce Research Data System (NPWR) and authorized DETR to approach IFC for an allocation from the Contingency Account after developing a detailed cost estimate and resolving issues related to data matching. That recommendation was then accepted and passed by the Senate Finance Committee. Since OWINN is now responsible for oversight of the NPWR data system, OWINN is requesting the allocation.

Decision unit E250 requests funding for an MSA contractor to align potential partners with datasets to further the enhancement of the system. The research and analysis of data in NPWR will allow stakeholders to make informed decisions that will lead to improvements in education, workforce, and policy. Potential partners that have been identified in the past include the Nevada Department of Motor Vehicles (DMV), Nevada Department of Health and Human Services (DHHS), and the Nevada Department of Corrections (DOC). Data partner planning for the NPWR system is vital and an attempt to continuously improve the system’s performance and the analysis performed on its data. The MSA Contractor would perform the following tasks for data partner planning for the NPWR system:

In addition, the signing of SB 516 codified OWINN into Nevada Revised Statutes and tasked the office with the responsibility of oversight of NPWR. The transfer of NPWR to OWINN from the P-20W Advisory Council may present more opportunities for data partnership development since OWINN is a state entity that can partner with other agencies and form agreements on the use of data. These new developments in oversight and administration of NPWR will be further researched and discussed with potential partner agencies with the support of the MSA contractor.
MEMORANDUM

DATE: October 24, 2017

TO: James Wells, Director
Governor’s Finance Office

FROM: Zachary Heit, Senior Economist
Governor’s Office of Workforce Innovation (OWINN)

THROUGH: Manny Lamarre, Executive Director
Governor’s Office of Workforce Innovation (OWINN)

SUBJECT: Request of Interim Finance Contingency Funds

The Governor’s Office of Workforce Innovation (OWINN) requested approval from the Board of Examiners to request $250,000 from the Interim Finance Committee Contingency Account for the Fiscal Year 2017-2018 and $250,000 for Fiscal Year 2018-2019.

This funding is being requested for an MSA contractor and costs associated with data partner planning for the Nevada P-20 to Workforce Research Data System (NPWR). Through data partner planning, OWINN seeks to incorporate data from other state agencies to improve the performance of the NPWR data system. Potential partner agencies that have been identified in the past include the Nevada Department of Motor Vehicles (DMV), Nevada Department of Health and Human Services (DHHS), and the Nevada Department of Corrections (NDOC). The addition of new data from these agencies will improve the NPWR system in one of two ways.

First, DMV data will allow for a much more reliable data match between the Nevada Department of Education (NDE) and the Nevada Department of Employment, Training, and Rehabilitation (DETR). Currently, there is no way to directly match data between these two systems since they both collect different information. Any research reports that would analyze longitudinal trends and patterns of students who exit the K-12 system and directly enter the workforce cannot be developed. Nevada System of Higher Education’s (NSHE) data serves as a bridge to match NDE data and DETR data in the past, but only yields a match rate of 9.87%. DMV data will be used to greatly improve the match rate between NDE and DETR and is its only intended use. The improved match rate will improve some of the existing reports by making them more reliable.

Second, data from potential partner agencies will provide opportunities to develop new research reports. As previously stated, DMV data will improve the data match rate between NDE and DETR where OWINN, NPWR stakeholders, policymakers, and researchers can analyze outcomes for those students that exit the Nevada K-12 education system and enter directly into the Nevada workforce. For example, we could analyze the workforce outcomes (such as employment, wages, industry placement, etc.) for students who complete a career technical education (CTE) program of study, graduate from high school, and directly enter the workforce. These type of research reports would allow state stakeholders and policymakers to better understand the effectiveness of programs, behavior of students and citizens, and workforce trends.
The addition of DHHS and NDOC data will provide more opportunities to research the connections and interactions between education, workforce, health and human services, and state prison systems. For example, by adding low income Nevadans to the NPWR system we can use data to better understand our employment, training, and support efforts and improve them to provide better employment outcomes for low income families.

Overall, data partner planning and including data from other partner agencies will improve the system by improving the data matching rate and allowing for a more robust research agenda for future report development.

The following describes an action item submitted for placement on the agenda of the next Board of Examiners’ meeting.

OFFICE OF THE STATE CONTROLLER

Agenda Item Write-up:

Pursuant to NRS 353.268, the Office of the State Controller requests an allocation of $178,580 from the Interim Finance Committee Contingency Account to fund a Master Service Agreement (MSA) contractor to complete a Business Intelligence project and online checkbook and a MSA contractor to conduct a data review to ensure the safety of sensitive data.

Additional Information:

The total projected cost to support this request is $210,000; however, unneeded funds of $31,420 has been identified in an existing category which will be transferred to mitigate the amount of the Contingency Fund request.

Funding for the Business Intelligence project and online checkbook, also known as the Controller Reporting System, was legislatively approved during the FY15-17 biennium
and has been ongoing since fiscal year 2016 when the State Controller's Office (SCO) purchased a software solution through Open Text, Inc.

In fiscal year 2018, the SCO found some data component and security issues in reviewing all the data that have been collected, which are being addressed by the SCO team and MSA contractor, to ensure nothing will be public facing that should not be, or that can be used as Personal Identification Information (PII) that could be used in an untoward manner.

A second MSA contractor would be brought on as an external auditor to isolate and review all data to determine risks and ensure no exposure of PII to the public. Additionally, the external auditor can help identify area where operations and practices are no longer in compliance with new state and federal regulations and may find areas where internal controls could be improved.

RE: Request and Justification for Contingency Fund Request

SUMMARY

The State Controller’s Office (SCO) requests $178,580 from the contingency fund at the next meeting of the Interim Finance Committee. These funds would be used to continue the use of a Master Service Agreement (MSA) contractor to complete one project that has been ongoing in the Controller’s Office for the past two fiscal years, and to also request funding for a Master Service Agreement (MSA) contractor to audit our operations and practices to ensure the data we will be putting on our online checkbook project, which will be data available to any interested party, does not cause any type of security breach for the state. Total funding for these two initiatives would be $210,000, and we have $31,420 available in Budget Category 29 that we can transfer to cover part of these costs.

BACKGROUND AND REASONING

Our office has worked over the past almost two years to complete a Business Intelligence project and an online checkbook, and this project is nearing completion. Originally, our office had requested and received $1,315,414 in Fiscal Year 2016 and $84,087 in Fiscal Year 2017 to complete this project.

In Fiscal Year 2016, the SCO identified and purchased a software solution for this project from Open Text, Inc. in the amount of $415,338 and utilized $93,960 on an MSA contractor, for a total expenditure of $509,298. We returned $939,157 to the general fund in Fiscal Year 2016, primarily from savings on this initiative.

In Fiscal Year 2017, the SCO spent $164,250 on the MSA contractor. We already had licensing for Fiscal Year 2017 of the Open Text product included in the initial purchase completed in Fiscal Year 2016, so no additional funds were spent on the Open Text product. The $84,087 allocated to the Business Intelligence project was used to fund the MSA, along with savings that we were able to realize in other areas in the IT budget for our office. We requested no additional funding from IFC for this project in Fiscal Year 2017.

As we enter Fiscal Year 2018, our SCO team found some data component and security issues in reviewing all the data that had been collected since Fiscal Year 2006. Our team is addressing these issues, and the MSA contractor has been instrumental in helping to work with these data sets to
ensure nothing will be public facing that should not be, or that can be used as Personal Identification Information (PII) that could be used in an untoward manner. We anticipate full completion of this project, to the point where our IT team can manage the Business Intelligence and online checkbook with our internal expertise, by the end of April 2018. The MSA contractor has averaged $15,000 per month in cost to the SCO, for a total of $150,000 to keep the contractor through April of 2018.

The SCO would like to hire an additional MSA contractor for two months to specifically review our data and let us know what we might be missing when it comes to ensuring we don’t expose any PII to the public. We feel this is a precaution that we must take because, frankly, there is a large amount of data. Using an MSA contractor as an external auditor is a good practice and common method to ensure the safety of sensitive data.

The contractor will be able to isolate certain data combinations and review all the data to let us know where our risks are so we can mask data appropriately before going live with the online checkbook portion of the Business Intelligence project. This MSA will also be able to determine if we have already had any data exposed that should not have been, either through a public information request or otherwise. We anticipate the cost for this MSA contractor to be $60,000.

CRITICAL NEED

The SCO is nearing completion of our Business Intelligence and online checkbook project, also known as the Controller Reporting System (CRS). The principal reason this project has been delayed has been due to a necessary overhaul of the data and the components providing the state with fiscal reporting. Ensuring the security of this data, coupled with maximizing the amount of information online for the public, is a secondary cause why this project has been delayed. If we were not to receive the monies for continuing the MSA contractor through the end of April 2018, we would have to stop a project with a total investment through the end of Fiscal Year 2017 of $673,548, and it will not be completed.

This would cause the SCO to have to continue with Oracle Discoverer for our reporting. Discoverer has been at end of life and without support from Oracle for almost six years, and we have been maintaining this product in house since support ended. This product, if it failed, would leave state agencies without one of its critical reporting solutions. According to our IT team, this could happen at any time, and we would not be able to count on Oracle to help us. The Business Intelligence project is the replacement for Discoverer.

In sum, the migration of all Agency and statewide reports from the current platform needs to be tested. This migration of reports, including testing, will take several months. Training administered by our team, including the MSA contractor, will occur in parallel to the conversion of the reports. We will also work in concert with state training staff to develop an actual class, both virtually delivered and provided in a classroom environment.

A more complete justification, including the subset of remaining tasks to see the Business Intelligence project through to completion, are included in Attachment #1.

The MSA contractor to review our data will allow us to do the following four things:

Government compliance. An external auditor can help identify areas where our operations and practices are no longer in compliance with new state and federal regulations. An external auditor can also pinpoint where our compliance efforts may be lacking. Since an external auditor has no
reason to be anything but honest about the status of our data security compliance, we can rely on the independence of the investigation and on the recommendations.

**Credibility.** Internally and externally, our financial reports will carry more weight if they’ve been vetted by an external auditor. External audits offer an unbiased glimpse into the practices of the organization.

**Fraud Prevention.** While it may be unpleasant to even think that someone could be defrauding our organization, it’s better to know for sure than continually wonder. It’s impossible to spot a fraudster just by looking, and they often turn out to be the person least likely to arouse suspicion. External auditors examine internal records without the filter of personal relationships clouding their judgment. For them, the financial statements will tell the unvarnished truth, and their impartial inspection could keep our organization and the state from taking a major loss, both in monetary terms and in terms of credibility.

**Process Improvement.** An outside auditor might find areas where we could improve our internal controls or automate certain processes to be more streamlined. While these recommendations don’t have to be implemented immediately, knowing where waste and inefficiency are originating will allow us to put a plan in place to address the problems over time.

**POTENTIAL FUNDING SOURCES**

SCO would be able to reduce the amount of this request by $31,420 by utilizing funding that was allocated by the legislature to Budget Category 29, from $210,000 to $178,580. The declining balance attachment (Attachment #2) shows the $210,000 projection absent the transfer of $31,420 via work program from Budget Category 29.

In review of the remainder of our Fiscal Year 2018 budget, we do not anticipate any additional savings in either our IT budget category or any other budget category that we could apply as additional funding sources.

**RAMIFICATIONS IF NOT APPROVED**

If this request is not approved, we would have to immediately end our relationship with the MSA contractor for the CRS project and find internal ways to save money to pay the expenses already paid toward the CRS project that will not be completed, which would include the use of the $31,420 in Budget Category 29.

This would likely cause the SCO to delay or scrap an important equipment purchase originally allocated for a new server and not be able to keep up with our equipment replacement schedule, as we would have to use these monies to pay the MSA contractor through the termination date of the project, which would be the same day this request was not approved.

Considering this project was originally estimated to cost, and was originally allocated by the legislature in Fiscal Years 2016 and 2017, to cost $1,399,501 and has, including this request and the monies spent to this point, to actually cost $883,548 to see this project through to completion, this would be a massive waste of taxpayer funds to not see this through to completion. This represents a savings to the taxpayers of $515,953 from the original budget allocations in Fiscal Years 2016 and 2017.

Thank you for your consideration, and please don’t hesitate to contact me with questions.

Subject: BOARD OF EXAMINERS [ACTION] ITEM

The following describes an action item submitted for placement on the agenda of the next Board of Examiners’ meeting.

DEPARTMENT OF PUBLIC SAFETY – DIVISION OF EMERGENCY MANAGEMENT

Agenda Item Write-up:

Pursuant to NRS 353.268, the Department of Public Safety – Division of Emergency Management requests an allocation of $122,250 from the Interim Finance Committee Contingency Account to cover costs associated with providing security support to Clark County during the upcoming New Year’s Eve activities.

Additional Information:

In 2015, and again in 2016, and with the approval of the Governor, Clark County requested and received support from the Nevada National Guard in providing additional security resources for the New Year’s Eve activities that take place in Las Vegas. This year the Division is coordinating available resources with the county in advance and again will call upon the Nevada Guard to assist with the events and provide security.

The division is currently in discussion with the County to identify specific resources that will be needed and estimating the cost of those resources. At this time there is insufficient information available to provide and precise estimate so the Division is basing its current request on the actual expenditure associate with the previous two New Year’s Eve activations.

Given the security concerns generated with the recent October 1, 2017 mass casualty event in Las Vegas, the Division and the County are planning for greater security needs for this year’s
celebrations and anticipate the amount requested at this time will be somewhat higher, but will make every effort to ensure resources are utilized as efficiently and effectively as possible to minimize the cost. The Division anticipates having more reliable and realistic estimates available prior to the next Interim Finance meeting currently scheduled for December 7, 2017.

Statutory Authority:
BOE approval required pursuant to NRS 353.268.

TO: James Wells, Director – Governor’s Finance Office  
Rick Combs, Director – Legislative Counsel Bureau

THROUGH: Jim Rodriguez, Budget Officer – Governor’s Finance Office  
Kristen Kolbe, Program Analyst – Legislative Counsel Bureau

FROM: Justin Luna, Administrative Services Officer on behalf of Caleb Cage, Chief  
DPS Division of Emergency Management

SUBJECT: Emergency funding request

The Department of Public Safety, Division of Emergency Management, is requesting assistance to provide funding for expenses related to the upcoming New Year’s Eve activities in Clark County to support the efforts and capabilities to protect public safety. The division is coordinating resources to assist with this event and the Nevada National Guard will be used to provide security support.

Currently, the balance of the Emergency Assistance Account (BA 1336) is less than $2,000 which limits the division’s ability to respond to and recover from emergencies and disasters. The division is requesting emergency funding in the amount of $122,250 to cover these projected emergency expenditures. This estimate is based on the average of the past two year’s expenses related to the New Year’s Eve support missions; however, expectations are that an enhancement security posture may be needed in light of the recent 1 October incident, so cost projections may need to be revised as plans are finalized.

Please contact me at justin.luna@dps.state.nv.us or 775-687-0304 if you have any questions or need additional information to process this request.

Respectfully, Justin

DEPARTMENT OF PUBLIC SAFETY – NEVADA HIGHWAY PATROL - DIGNITARY PROTECTION

Agenda Item Write-up:

Pursuant to NRS 353.268, the Division requests an allocation of $53,578 from the Interim Finance Committee Contingency Account to cover the cost of providing protective services as requested by the U.S. Secret Service to dignitaries visiting Nevada for the remainder of the fiscal year.

Additional Information:

To date, the Nevada Highway Patrol has already exceeded its FY18 budgetary authority for this service by $22,567 due to the unanticipated visits from the President and Vice President in response to the mass causality event in Las Vegas this October.

The NHP is anticipating additional visits by political candidates campaigning for the 2018 elections and requires additional authority to provide protection services that will surely be requested for those candidates. Additionally, the NHP is requesting funding for currently unknown, but anticipated, visits from other dignitaries that may visit Nevada for the remainder of the fiscal year. Projecting which dignitary will visit, when and the duration is not possible, therefore, this portion of the request is based on the cost of protection services requested and provided in recent past years. A breakdown of the estimated costs is attached for your review and reference.

next Board of Examiners’ meeting.

DEPARTMENT OF ADMINISTRATION
DIVISION OF ENTERPRISE INFORMATION TECHNOLOGY SERVICES

Agenda Item Write-up:
The Department of Administration, Division of Enterprise Information Technology Services, seeks approval for the fourth amendment to the existing master lease agreement with International Business Machines (IBM) which provides mainframe storage equipment, software and services not to exceed $10,425,914.54.

Additional Information:
This amendment extends the termination date from June 30, 2021 to November 30, 2021 and increases the maximum amount from $10,259,963.18 to $10,425,914.54 due to the upgrade of load balancer equipment for the mainframe server. This service controls web traffic and ensures that security and maintenance requirements are met. The state runs the risk of not being able to provide adequate or secure state mainframe infrastructure without these services.
Statutory Authority:
Relates to CETS contract #18409 (A4).

   2. Amount of current amendment (#4): $165,951.36
   3. New maximum contract amount: $10,425,914.54

II. JUSTIFICATION
7. What conditions require that this work be done?
The current equipment will not fulfill the requirements of the IRS audit of Health and Human Services which requires that all data leaving the State IBM mainframe via Wide Area Network (WAN) or Local Area Network (LAN) be encrypted by October 1, 2013, a deadline established by Obama Healthcare for data at rest to be stored.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   Lack of expertise.

9. Were quotes or proposals solicited? No
   Was the solicitation (RFP) done by the Purchasing Division?
   No
   a. List the names of vendors that were solicited to submit proposals (include at least three):
      Not Applicable

Provide a description of work/services to be performed or commodity/good to be purchased:

Purchasing upgrade and/or replacement hardware for the North and South Mainframe enterprise CPU, direct access storage, and virtual tape libraries. Procuring associated installation services required for successfully completing Mainframe hardware upgrades and refreshes. Obtaining new and replacement IBM Mainframe product software licenses.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:

The IBM business model requires customers go through their business partners to purchase their hardware because they do not sell hardware directly to customers. Sirius is a value added reseller whom EITS has a long history collaborating with to provide the State of Nevada hardware equipment refreshes at pricing levels lower than the State Government standard pricing. They have historically and continue provide the EITS datacenter with exceptional customer service. Their technical staff is composed of highly skilled industry experts, who expeditiously respond. When EITS needs assistance resolving problems or requests technical assistance with the EITS Mainframe hardware and software enterprise they are our number one support vehicle.

The EITS North and South Mainframe enterprise is composed of a highly complex and intricate IBM hardware configuration. To successfully function, the EITS Mainframe hardware configuration must have its internal software and the EITS specific enterprise configurations correctly defined at time of hardware installation. Sirius has worked diligently to comprehensively understand EITS’ configuration and learn EITS’ operation flow.

The Mainframe platform’s core operating system is IBM’s z/OS which can only be purchased either directly from IBM or through an IBM business partner.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

When service providers provide a proposal for hardware costs the pricing is based with the consideration they will be completing the entire project including performing the necessary services detailed in their submitted Scope of Work. To educate an outside vendor on the intricacies of EITS’ Mainframe hardware enterprise would be exhaustive and counterproductive to business and result in an increase of the overall project cost.

The operating system for Mainframe technology can only be purchased directly from IBM or from an
IBM business partner. Supplemental operating system software products which enhance mainframe functionality are sold by other vendors, yet their pricing is oftentimes greater than IBM’s.

Were alternative services or commodities evaluated? Check One. Yes: X No: X

a. If yes, what were they and why were they unacceptable? Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

EITS periodically reevaluates its Mainframe supplemental software seeking the lowest priced equitable products available; however, non-IBM Mainframe products are frequently priced higher than IBM’s.

b. If not, why were alternatives not evaluated?

Over the past six plus years, EITS has built a complex Mainframe enterprise, and Sirius has a comprehensive knowledge of the required hardware purchases specific to upgrading EITS’ hardware to keep the enterprise supported and current.

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

Yes: X No: X

a. If yes, starting with the most recent contract and working backward, for the entire relationship with this vendor, or any other vendor for this service or commodity, please provide the following information:

<table>

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

Not using a vendor who comprehensively understands the complexities of the EITS Mainframe enterprise can result in extensive delays, as the other vendor would require being meticulously educated on our hardware configuration. Using a different vendor puts EITS at risk of getting an improperly and/or incompatible hardware solution and a mismatched software operating system. Hardware and software installation delays can potentially place the entire Mainframe infrastructure at risk for an enterprise-wide catastrophic failure if the upgrade is not accurately configured and completed before reaching its end-of-life.
What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

Going outside of the IBM Mainframe hardware and/or software solution would require an entire conversion and replacement of existing Mainframe related CPUs, disk arrays, and virtual tape subsystems. When service providers provide a proposal for hardware costs the pricing is based with the consideration they will be completing the entire project including performing the necessary services detailed in their submitted Scope of Work. Sirius continues to negotiate pricing to a level that is lower than the State Government standard pricing. Allowing another vendor to complete the Statement of Work services for hardware installations, will most likely result in an overall increase to the project cost.

Will this purchase obligate the State to this vendor for future purchases? Before selecting your answer, please review information included on Page 2, Section 9 of the instructions.

a. If yes, please provide details regarding future obligations or needs.

The State will be obligated to purchase future upgrade equipment and operating system software from IBM to replace existing equipment and products, as support will eventually expire. Additionally, the directive for acquiring this type of hardware equipment has been to process via an operating lease.

Re: Term Lease Master Agreement (067808063G) between IGM Credit, LLC and State of Nevada, Division of Enterprise Information Technology Services and Amendment No. 4 incorporating Master Lease Agreement Schedule No. 039809

Dear Ms. Rahming:

In connection with the Term Lease Master Agreement No. 067808063G between State of Nevada, Division of Enterprise Information Technology Services, Department of Administration, as Lessee, and IBM Credit LLC as Lessor, together with its Addenda, amendments, and the above referenced Master Lease Agreement Schedule (the “Agreement”), I have examined the law and such other papers necessary to render the following opinion:

1. Lessee is a Division of the Department of Administration of the State of Nevada, as described under Chapter 242 of the Nevada Revised Statutes, and is a state or political subdivision of a state within the meaning of Section 103 of the Internal Revenue Code of 1986.

2. Lessee has all requisite power and authority to enter into the Agreement and to perform its obligations thereunder.
3. The authorization and approval of the Agreement, the execution thereof, and the transactions contemplated thereby have been conducted in accordance with all applicable laws.

4. The Agreement has been duly executed and delivered by Lessee and when the signature page relative to this Amendment and Master Lease Agreement Schedule have been fully executed and approved, it will constitute a legal, valid, and binding obligation of Lessee, enforceable against Lessee in accordance with the terms thereof, except insofar as the enforcement thereof may be limited by (i) any applicable bankruptcy, insolvency, moratorium, reorganization or other laws of equitable principles of general application, (ii) laws or rules applicable the State, municipalities, or political subdivisions such as the Lessee, affecting remedies or creditors' rights generally, including, but not limited to, limits resulting from sovereign immunity, and (iii) the exercise of judicial discretion in appropriate cases.

5. As of the date hereof, based on such inquiry and investigation as we have deemed sufficient, no litigation is pending, (or, to our actual knowledge, threatened) against Lessee in any court (a) seeking to restrain or enjoin the delivery of the Agreement; (b) questioning the authority of Lessee to execute the Agreement, or the validity of the Agreement, or the payment of principal or interest on the Agreement; (c) questioning the constitutionality of any statute, or the validity of any proceedings, authorizing the execution of the Agreement; or (d) affecting the provisions made for the payment of or security of the Agreement.

and IBM CREDIT LLC

1. AMENDMENTS. For and in consideration of mutual promises and other valuable
consideration, all provisions of the original Master Lease Agreement No.
067808063G, with an effective date as of February 14, 2017, attached hereto as
Exhibit A, remain in full force and effect with the exception of the following:

The following additional schedule of equipment Schedule No. 039809 (F5 Big
IP) is added to the Master Lease Agreement.

2. INCORPORATED DOCUMENTS. Exhibit A (Master Lease Agreement,
including previous amendments) is attached hereto, incorporated by reference herein
and made a part of this amended contract.

3. REQUIRED APPROVAL. This amendment to the original Master Lease
Agreement shall not become effective until and unless approved by the Nevada State
Board of Examiners.

IN WITNESS WHEREOF, the parties hereto have caused this amendment to the
original contract to be signed and intend to be legally bound thereby.
The following shall apply to this entire transaction.

1. For equipment, software and services not supplied by IBM, Lessor may pay fees to the supplier and/or other third-party firms for administrative services provided in connection with the transaction contemplated under this Agreement. Details are available upon request.

2. The parties agree that (i) any modifications to the terms and conditions contained herein are null and void unless specifically agreed in writing by both parties and (ii) this Schedule must be fully executed and received by Lessor by the Validity Date listed above.

Lessee hereunder declares that it has read and understands and agrees to be bound to the terms and conditions of the agreements that govern this Schedule/Supplement (each a "Governing Agreement") and any amendments or addendum thereto as Lessee. The Governing Agreement, this Schedule and any applicable attachments or addenda are the complete and exclusive statement of the Parties with respect to the subject matter herein. The foregoing referenced documents supersede any prior oral or written communications between the Parties related to the transactions covered by this Schedule/Supplement. Lessee represents and warrants that Lessee's name as set forth in the signature block below is Lessee's exact legal name, and is true, accurate and complete in all respects. By signing below, both Parties agree to the terms of this Schedule/Supplement as it may be amended or modified.

Client represents and certifies that the item(s) listed in the above table(s) are in correct order. Client hereby agrees to accept the Accepted Item(s) listed in the above table(s) on the Acceptance Date and authorizes IBM Credit LLC to make payments to the Supplier(s) for the Supplier's invoice(s) for the Accepted Item(s) and to commence the leasing or financing of these Accepted Item(s) under the Schedule/Agreement.

Since this Certificate of Acceptance ("COA") is being issued prior to Lessor's receipt of an invoice, Lessor, upon its receipt of this COA duly executed by Lessee and the Supplier's invoice, will either issue i) a confirmation document in order to confirm Lessor's acceptance of the COA or ii) an updated COA which requires Lessee's signature in order to confirm any changes. In order for IBM Credit LLC to make payment to your listed Suppliers, all Equipment must include serial number information. Accordingly, Client hereby authorizes IBM Credit LLC to complete or update any manufacturer serial number information for any Accepted Item(s) accepted, without Client's further action or consent.

Capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Agreement referenced in the Schedule listed above.

This COA may be sent to Client by IBM Credit LLC in soft copy format, such as a PDF file. Client represents and warrants that no changes have been made to the text of this COA, except for IBM Credit LLC authorized alterations to the Product Description (including without limitation, changes to any other information listed on the product information tables herein). If there are any conflicts between the version delivered by IBM Credit LLC to Client and the version delivered by Client to IBM Credit LLC, or if the Supplier's invoice does not match the information listed on the COA, IBM Credit LLC reserves the right not to accept the transaction and to send a replacement COA to Client. Any copy of this COA made by reliable means (for example photocopy, image or facsimile) shall in all respects be considered equivalent to an original.

Proposal #: PR212661.4

Sirius Computer Solutions, Inc.
10100 Reunion Place, Suite 500
San Antonio, TX 78216

All information provided in this proposal is the confidential and proprietary information of Sirius and may not be disclosed, disseminated, or otherwise revealed, in whole or in part, to any party outside of STATE OF NEVADA.
Unless otherwise noted, the price stated herein does not include applicable taxes, which may be added at the time of invoice. The price stated above for shipping and handling is subject to change in the event Customer requests expedited shipping, whether such request is made before or after acceptance of this Purchase Authorization by Customer.

This proposal is valid if ordered on or before 11/30/2017.

Until Sirius receives and accepts a Purchase Order or this Purchase Authorization for the solution proposed, pricing provided in this Proposal is subject to change based on manufacturer's pricing schedule. The Products contained on this Order may be delivered to the Customer through multiple shipments based upon supplier availability, and Customer agrees to pay a partial payment of the total purchase price stated above for any such partial shipment of Products.

All of the information provided in this Proposal is considered confidential and proprietary between Sirius and STATE OF NEVADA. Information enclosed in this Proposal may not be disclosed, disseminated, or otherwise revealed to any party outside of STATE OF NEVADA or any party within STATE OF NEVADA who is not privileged to receive such information.

**PURCHASE TERMS AND CONDITIONS**

1. Purchase Price; Payment; Taxes. Customer agrees to pay the total purchase price as shown on the attached Sirius proposal (the 'Order'), plus any applicable sales/use tax. These Purchase Terms and Conditions (the 'Terms') are explicitly made a part of the Order and are hereby incorporated therein by reference. Payment is due within thirty (30) days from the date of the invoice, unless alternative terms have been agreed upon between Sirius and the client prior to the date of this proposal. Customer agrees that any payment not received by Sirius within thirty (30) days of the invoice date shall be subject to an annual interest charge of 12%, or the maximum allowed by law, whichever is less.

2. Payment by Third Party Leasing Company. If Customer enters into a lease agreement with a third party leasing company to finance the Order, Customer shall remain bound by these terms and conditions, except to the extent that the third party leasing company shall be obligated to pay the total purchase price of the Order. In the event the third party leasing company fails to make such payment, Customer shall make such payment, and Sirius shall convey title (where applicable) to Customer upon payment of the total purchase price of the Order.

3. Freight Costs; Delivery. Sirius will arrange for shipment and delivery of the Products listed in the applicable Order to the installation site. Unless specifically stated otherwise, Customer will be responsible for shipping and delivery charges. Risk of loss to the Products shall pass to Customer upon delivery to Customer's site.

4. Title; Security Interest. Title to each product (other than software) to be sold by Sirius hereunder shall pass to Customer upon delivery. Title to software is not being transferred and the right to use software included in the Order shall be governed by a separate license agreement between Customer and the software vendor.

5. Returns. No products (including Software) shall be returned to Sirius or software subscriptions cancelled by Customer without prior written approval from Sirius.

6. Limited Warranties. Sirius represents and warrants that, at the time each product is delivered, Sirius will be the lawful owner of such product (other than software products), free and clear from any liens and encumbrances, and will have full right, power and authority to transfer good and valid title to the same to Customer. Sirius, as the lawful authorized reseller of the products being delivered to Customer, represents and warrants that such products will be accompanied by the applicable manufacturer's or software licensor's representations and warranties (either directly through the manufacturer/software licensor or as transferred by Sirius) in accordance with the manufacturer's/software licensor's policies. Customer agrees it is relying solely on the manufacturer's representations and warranties (except as expressly set forth above) and Sirius shall have no liability or obligations with respect to any manufacturers' representations and warranties, and any claims by Customer shall be made solely against the manufacturer.
Notwithstanding the foregoing, with respect to products that have been used and/or refurbished and therefore do not have any manufacturer's warranty, Sirius warrants that for a period of thirty (30) days immediately following the delivery of the products, such products will qualify for the manufacturer's maintenance agreement. If the products are both installed by the manufacturer and placed under the manufacturer's maintenance agreement prior to such installation within such thirty (30) days; provided, that Customer's exclusive recourse for a breach of this warranty shall be either the repair or replacement of such refurbished equipment or a refund of the purchase price. After such thirty (30) days period, Customer assumes all liability for such products which are either defective or may be incomplete and Sirius will have no further liability or obligation with respect thereto.

As Sirius is not the manufacturer of the products listed on the Order, Customer waives any claim against Sirius based upon (1) any infringement or alleged infringement of any patent or other intellectual property rights with respect to any products sold hereunder or any software licensed by any third party or (2) any indemnity claim or obligation made by another against Customer arising out of any such infringement or alleged infringement.

EXCEPT AS EXPRESSLY SET FORTH IN THIS SECTION, SIRIUS MAKES NO OTHER REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, TO CUSTOMER OR TO ANY OTHER PERSON OR ENTITY REGARDING PRODUCTS, SOFTWARE AND/OR SERVICES OR OTHER ITEMS PROVIDED BY SIRIUS UNDER THE ORDER OR THE RESULTS TO BE DERIVED FROM THE USE THEREOF, AND SIRIUS EXPRESSLY DISCLAIMS ANY REPRESENTATIONS AND WARRANTIES ARISING FROM COURSE OF DEALING, USAGE OF TRADE OR COURSE OF PERFORMANCE, AND THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7. Limitation of Liability. IN NO EVENT WILL SIRIUS BE LIABLE TO CUSTOMER FOR CONSEQUENTIAL, INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR ANY OTHER NON-DIRECT DAMAGES INCLUDING, WITHOUT LIMITATION, LOSS OF OR DAMAGE TO DATA, LOST PROFITS OR FUTURE REVENUES, COST OF CAPITAL, LOSS OF BUSINESS REPUTATION OR OPPORTUNITY OR ANY CLAIM OR DEMAND AGAINST CUSTOMER BY ANY THIRD PARTY, HOWEVER CAUSED, WHETHER UNDER THE THEORY OF CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SIRIUS' LIABILITY ARISING FROM OR RELATED TO THE ORDER SHALL NOT EXCEED AN AMOUNT EQUAL TO THE TOTAL AMOUNT PAID OR PAYABLE TO SIRIUS HEREUNDER. THIS LIMITATION SHALL APPLY TO THE FULLEST EXTENT PROVIDED BY LAW, AND CUSTOMER AGREES TO RELEASE SIRIUS, ITS EMPLOYEES, AFFILIATES, AND AGENTS FROM AND AGAINST ANY AND ALL LIABILITY EXCEEDING THE LIMITS STATED IN THIS PROVISION, REGARDLESS OF THE REMEDY UNDER WHICH DAMAGES ARE SOUGHT AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY PROVIDED HEREIN.

8. Applicable Law. The Order (including these Terms) and the rights and obligations of the parties hereto shall be construed under and governed by the laws of the State of Texas, without giving effect to principles of conflict of laws.

9. Waiver of Jury Trial. EACH OF THE PARTIES TO THIS AGREEMENT WAIVES ANY RIGHT TO TRIAL BY JURY OF ANY DISPUTE OF ANY NATURE WHATSOEVER THAT MAY ARISE BETWEEN THEM, INCLUDING, BUT NOT LIMITED TO, THOSE DISPUTES RELATING TO, OR INVOLVING IN ANY WAY, THE TRANSACTIONS BETWEEN THE PARTIES, THE CONSTRUCTION, PERFORMANCE OR BREACH OF THIS AGREEMENT OR ANY OTHER AGREEMENT BETWEEN THE PARTIES, THE PROVISIONS OF ANY FEDERAL, STATE OR LOCAL LAW, REGULATION OR ORDINANCE NOTWITHSTANDING. By execution of this Agreement, each of the parties hereto acknowledges and agrees that it has had an opportunity to consult with legal counsel and that he/she/it knowingly and voluntarily waives any right to a trial by jury of any disputes pertaining to or relating in any way to the transactions contemplated by this Agreement, the provisions of any federal, state or local law, regulation or ordinance notwithstanding.

10. General. The Order (including these Terms) represents the entire and integrated agreement and understanding between the parties with respect to the attached Sirius proposal and supersedes all prior or contemporaneous understandings and agreements, whether written or oral. Neither party will be liable or deemed to be in default for any delay or failure to perform its obligations hereunder if such failure results directly or indirectly from any cause beyond its reasonable control. The Order may be executed in any number of counterparts, each of which when executed and delivered (which deliveries may be made by email or facsimile) shall be deemed to be an original, and all of which counterparts taken together shall constitute but one and the same instrument. No modification of these Terms, nor waiver of any rights hereunder, shall be valid unless in writing and signed by the party against whom the modification or waiver is sought to be enforced. The waiver of any term hereof shall in no way be construed as a waiver of any other term or breach hereof. Neither the Order nor any of its rights or duties hereunder may be assigned or transferred by Customer, unless Sirius has consented to such assignment or transfer in writing. The Order does not and is not intended to confer any rights or remedies upon any person or entity other than the parties hereto. If any provision of these Terms are held by a court of competent jurisdiction to be contrary to law or otherwise invalid or unenforceable, the remaining provisions hereof shall remain in full force and effect.

The provision of the maintenance services contained on this proposal will be controlled by the terms and conditions of the applicable manufacturer and/or maintenance provider (hereinafter the "Provider"), and may be subject to auto-renewal if so provided in the applicable terms and conditions. Sirius does not guarantee any rights of termination during the term of the maintenance services contained on this proposal or any renewal term, and all refund calculations are determined solely by the applicable Provider. In the event any or all of these maintenance services are terminated in accordance with the terms and conditions of the applicable Provider, Sirius will, at Customer's option, (1) pass through to Customer all applicable credits paid to Sirius by the applicable Provider, net any related costs, or (2) hold such applicable credits on account for future purchases by Customer. If the maintenance services contained on this proposal cover multiple hardware or software components, any discounts provided in this proposal may vary between such components, and all pricing information is confidential and proprietary information of the applicable Provider.

This Proposal is subject to the terms and conditions of the above referenced Agreement(s). Acceptance of this Proposal by an authorized representative of STATE OF NEVADA will be deemed the equivalent of a Client Purchase Order, which will authorize Sirius to order the Products and Services listed in this Proposal.

I would like permission to pay the attached payable to a Payment Voucher as a stale claim. We have researched our files and determined that this payment has not been paid.

The expenditure was incurred during fiscal year 2017 and should have been paid from budget account #4660. The Department has remaining authority in Category #24 in the amount of $499,835.13 for fiscal year 2017.

If you have any further questions, please contact me at 888-7451.

Sincerely,

Jamie Vacek

The following describes an action item submitted for placement on the agenda of the next Board of Examiners’ meeting.

**DEPARTMENT OF PUBLIC SAFETY – PAROLE BOARD – TRAVEL POLICY**

**Agenda Item Write-up:**

In accordance with SAM 0204, the Division requests approval to revise the agency’s travel policy to allow an exemption from the standard 50 miles of the assigned duty station for per diem, lodging and other travel expenses when the State of Nevada is hosting the Association of Paroling Authorities International training conference.

**Additional Information:**

Currently SAM 0204 indicates the following:

- Employees are eligible for per diem, lodging and/or vehicle rental reimbursements only if they are 50 miles or more from their official work station, unless the Board of Examiners has approved a policy for a given department that permits travel reimbursements within 50 miles of the assigned duty station.

The Division is requesting an exemption to this rule when the State of Nevada is the host for the Association of Paroling Authorities International (APAI) and has staff assigned to provide direct support to the conference. Nevada is hosting this conference in April 2018 and the conference will be held at the Hyatt Regency in Incline Village. The Division indicates that the Association only has two part-time staff members and the execution of this conference is beyond their capabilities. As such, the Association relies on the hosting state to provide staff to help with organizing and managing the conference. Host staff are expected to support onsite conference
functions on the days of the conference that include training session setup and support, setting up and take-down site stations and signage, organizing events and activities, etc. Much of this work is required in the early morning hours prior to the start of the conference and in the evenings after completion of the conference daily schedule of events and activities.

ACTION ITEM:__________
October 5, 2017

To: Board of Examiners

From: Connie S. Bisbee, Chairman

Subject: Request for BOE approval of the Parole Board travel policy granting an exception to the minimum mileage provision for reimbursement for lodging and per diem in certain circumstances.

The Board of Parole Commissioners is requesting the approval of its travel policy that includes a provision allowing an exemption to the 50 mile travel rule for lodging and per diem. The State Administrative Manual (SAM) encourages agencies to adopt travel policies and allows the BOE to permit exemptions to the 50 mile travel rule.

The exemption to the 50 mile rule stated in the Board’s travel policy reads as follows:

When the State of Nevada is the host State for a training conference of the Association of Paroling Authorities International, (PAI), if the conference location is less than 50 miles, but more than 25 miles from a principal duty station of the Board, a Board employee assigned to that duty station is allowed reimbursement for lodging, per diem and other travel expense, if the Board employee has been assigned to perform various host committee duties by the Chairman of the Board. Host committee duties include, but are not limited to: vendor/exhibitor coordination; media relations/photography; host city/tourism coordination; registration/hospitality; transportation; audio/visual duties; and general administrative support.

In April, 2018, Nevada will be host to the 31st Annual training conference of the Association of Paroling Authorities, International (PAI) at the Hyatt Regency in Incline Village. PAI is an international organization comprised of parole board chairs, commissioners, hearing representatives and executives. PAI is the only organization that provides training specific to parole release decision making, condition setting and violations, and other parole board best practices.
APAI employs two part time staff members. All other work is performed by volunteers within the organization. Since APAI does not employ conference staff, much of the conference planning and coordination duties are performed by the conference host, in this case, the Nevada Parole Board.

While much of the work related to the conference duties are performed in advance of the conference, the host committee staff will be onsite performing work in the early morning prior to the training sessions and in the evening following training sessions.

The Hyatt Resort in Incline Village is 27 ½ miles in distance (with an estimated 42 minute travel time) from the Parole Board office in Carson City. BOE approval of the travel policy would permit most of the participating employees to stay on site for the conference.

The Parole Board met at a public meeting on October 5, 2017 and approved the attached travel policy, with the 50 mile exemption contingent upon BOE approval. The Parole Board respectfully requests the BOE approve the exemption to the 50 mile rule as indicated in the attached travel policy.

A. PURPOSE:

Mission-oriented reasons for travel include, but are not limited to, parole hearings, training, meetings, conferences, seminars, and operational activities. The primary purpose of this policy is to ensure that funds allocated for travel and training are properly used in a manner that facilitates the completion of the Board of Parole Commissioners’ (Board) mission and other training needs. For travel issues not addressed in this policy, refer to SAM 0200, NRS, & NAC.

This policy supersedes all prior Board travel policies. Additionally, where travel reimbursement may apply, this policy is intended to address funds that are administered by the Board.

B. POLICY:

1. General Travel Requirements

   a. This policy pertains to employees of the Board. For the purpose of this policy, “Board employees” include classified and unclassified employees, and non-state employees (contracted case hearing representatives) traveling on state business. For independent contractors, refer to SAM 0320.

   b. All travel purchases should be in accordance with NRS, NAC, SAM 0200, and this policy. The Board’s fiscal manager will ensure availability of the required funding.

   c. Required travel is based on the monthly hearings caseload and calendar, training, mediation, personnel, meetings, court hearings and inventory control.

   d. When and if it becomes necessary to arrange travel for non-state employees traveling on state business, the Board may make all airline reservations and process the billings for payment through the State system.
e. The Chairman is responsible for ensuring that all travel is necessary for the accomplishment of the Board’s mission.

1) The traveling Board employee has specific responsibility for ensuring compliance with this policy.

2) Board employees shall ensure that all travel claims submitted for reimbursement are accurate and justified.

3) The fiscal manager or designee shall indicate on the Travel Expense Reimbursement Claim Form (TE) the budget account to be charged for Board employee’s travel. The Board shall use the most current TE form supplied by the Department of Public Safety.

4) If an exception to the travel guidelines is made due to exigent circumstances, it must be documented and justified in detail and submitted along with the request for reimbursement. Failure to properly document an exception to the travel requirements may result in denial of the travel claim and the Board employee having to pay for the cost of the travel.

f. Per SAM 0210, travel expenses for State employees shall normally be charged to the budget account specifically appropriated or authorized to provide for the employees’ salary and/or travel expenses. Any exceptions to this rule shall be approved by the Department of Administration – Budget and Planning Division in advance of the travel. Documentation of approval for any out-of-budget travel is to be attached to the reimbursement claim when it is submitted for payment.

g. Travel should be accomplished by the least expensive mode practicable. Board employees shall arrange their own lodging, with lodging reimbursement not to exceed the Federal GSA lodging limits.

h. Meals provided at meetings, conferences, seminars, will not be eligible for reimbursement, with the exception of continental breakfasts.

i. To avoid unnecessary overtime, travel should take place, whenever possible, during regularly scheduled shift times or normal business hours. The Chairman or supervisors shall ensure any overtime worked for travel is justified. Since overtime must be pre-approved, the employee shall anticipate any overtime, which may reasonably be expected to occur and obtain supervisory approval before the travel takes place.

j. On those occasions when the Board employee uses his/her own vehicle to conduct state business:

1) Mileage reimbursement may be claimed based on the conditions
detailed under Section C “Definitions” of this policy.

2) Nevada’s Risk Management Auto Insurance Coverage Matrix details coverage for vehicle accidents resulting in property damage or bodily injury when using a personal vehicle on State business. The matrix is incorporated by reference and is included with this policy as Attachment 1.

k. Air-Travel

1) Airline tickets may only be purchased using the State Ghost Card account with prior approval.
2) The fiscal manager or designee will be responsible for processing unused non-refundable airline tickets.

l. Three means of funding travel may be used. They are, in descending order of preferred use:

1) Self-funded travel – the traveler funds their own travel (per diem and lodging) and submits a Travel Expense Reimbursement Claim for the same. A travel reimbursement claim must be submitted within 5 days of travel.

2) A Board employee may obtain a travel advance based on a written estimate of related expenses. These expenses shall be limited to meals and lodging based on the rate structure in the GSA Domestic Per Diem Rates list. Refer to SAM 0226 for additional information.

   a) The agency funded travel advance shall not include conference or seminar registration fees.
   b) Additional advances shall not be granted to any Board employee if they have an outstanding travel advance over 30 days in arrears.
   c) Agency funded travel advances constitute a lien upon the accrued wages of the requesting board member or employee (NRS §281.172, and §281.173).

3) Travel advance through the state sponsored credit card – when issued to a Board employee: the traveler obtains a cash advance through their state sponsored credit card and submits a Travel Expense Reimbursement Claim at the end of the travel. The use of the credit card advance is subject to the following restrictions:
   a) Cash advance is limited to $200 per 7-day period unless exigent circumstances exist.
   b) The charge card fee(s) for cash advances on the state sponsored credit card are reimbursable subject to the limitations of SAM 0226.
Nevada Board of Parole Commissioners
Travel Policy

c) Failure to submit a travel reimbursement claim within 5 days of travel may result in denial of interest/fee charges reimbursement in accordance with SAM 0226.
d) Refer to SAM 0218 for a full list of restrictions.

m. All domestic Per Diem and lodging shall follow the rate structure on the GSA Domestic Per Diem Rates website, www.gsa.gov. All international Per Diem and lodging shall follow the rates in SAM 0218.

1) There will be no deviations from the assigned rates unless specifically authorized by SAM or this policy.
2) The state approved GSA lodging rates do not include taxes or surcharges.

n. The following minimum requirements apply to reimbursement procedures:

1) Application for reimbursement shall be made using the forms and other methods of documentation required by this policy. In most cases, the employee’s TE, approved by the fiscal manager, and any memos and receipts needed to document exceptions and expenditures will be sufficient.
2) In cases where a Board employee’s request for travel involves traveling for personal as well as professional reasons, the agreement between the Chairman or approving supervisor and the traveling board member or employee shall be documented in writing (e-mail or memorandum) and agreed to, prior to travel. This documentation will then be submitted with the TE upon completion of travel. Any increase in travel costs due to changes for personal travel shall be an expense of the Board employee.
3) Per Diem rates shall be established by SAM and implemented by the Board. These rates may differ depending on travel destination and time of year.

a) Under these guidelines, there will be no need to identify breakfast, lunch, or dinner unless the travel is to a formal event (conference, seminar, training, duty assignment or operation etc.), which provides a specific meal. If this is the case, the traveler must exclude that meal from their reimbursement. The reimbursement rate for individual meals may be found at the GSA website identified above under the “meals and incidental expense breakdown”.

b) A “continental breakfast” is not considered a meal.

b) The defined per diem “incidental” expense shall not be excluded from the meals and incidental expense rate. If the Per Diem is earned, the incidental expense will be included in the reimbursement. If the Per Diem is not
earned, the incidental expense will not be reimbursed.

4) A properly completed TE which has been submitted to the fiscal manager or designee and approved by the fiscal manager shall be used to request reimbursement.

5) A properly completed TE will have receipts attached for each expense claimed except meal per diem and incidental per diem.

a) In State Travel-Lodging receipts are required for all lodging expenses.

b) Out of State Travel-Lodging receipts are required for all lodging expenses.

(3) All TEs must be signed by the traveler, prior to reimbursement, unless exigent circumstances arise, at which time the Chairman or immediate supervisor must sign the TE pending documentation from the traveler upon return.

(4) If exigent circumstances arise that do not allow the board member or employee to sign the TE, the exigent circumstances must be documented by the Chairman or supervisor. Under these conditions, the traveler must forward an e-mail or memo to the Chairman or supervisor confirming the travel and authorizing the payment of the travel claim in lieu of their signature. It shall be the responsibility of the Chairman or supervisor, under these circumstances, to ensure the TE is completely and correctly documented to support the TE.

b) Reimbursement claims by the Chairman shall be submitted to the fiscal manager, or their designee for approval.

5) The Board employee must have the Chairman or supervisor approval prior to using a personal vehicle to conduct Board business in order to receive reimbursement for mileage. Use of a personal vehicle for business travel is subject to the restrictions and requirements defined in “1(e) and 1(j,2) above and SAM Chapter 0218.
7) For single or partial day travel, Meals & Incidental Expense (M&IE) Per Diem will be paid at the following rate:
   a) If the traveler is in travel status for less than 8 hours, M & IE Per Diem will not be paid;
   b) If the traveler is in travel status for at least 8 hours but less than 10 hours, M & IE Per Diem will be paid at the rate of 25% of the daily standard rate for the traveler’s destination;
   c) If the traveler is in travel status for at least 10 hours but less than 12 hours, M & IE Per Diem will be paid at the rate of 50% of the daily standard rate for the traveler’s destination;
   d) If the traveler is in travel status for at least 12 hours but less than 14 hours, M & IE Per Diem will be paid at the rate of 75% of the daily standard rate for the traveler’s destination;
   e) If the traveler is in travel status for at least 14 hours, M & IE Per Diem will be paid at the rate of 100% of the daily standard rate for the traveler’s destination;
   f) The applicable Per Diem rate will be determined by the city/county where a majority of work was performed for that day. At no time will reimbursement be based on the traveler’s duty station or be more than GSA standards.

8) For multiple days of travel, the Per Diem will be calculated as explained above for the first and last day of travel, using midnight as the stop time for the first day of travel and the start time for the last day of travel. All intervening days will be paid at 100% of the prevailing daily Per Diem rate, as defined by GSA, subject to the restrictions in this section.

9) Per Diem and lodging rates are based on where the lodging occurs.

2. In-state Travel (SAM 0210, 0212)
   a. All airline travel between Reno and Las Vegas must use the Southwest Airlines corporate Internet booking tool, SWABIZ. For more information, refer to SAM 0212.
   b. As an optional means of transport between Carson City and Las Vegas, the Nevada Department of Transportation conducts flight operations using the State Plane. Passage may be scheduled on an as-available basis with a maximum of two weeks advance notice. Arrangements may be made through NDOT flight operations at (775) 888-7510.
   c. If an employee traveling in-state is unable to obtain lodging at the
predetermined GSA rate because of extenuating circumstances, the Chairman may authorize the expenditure up to 150% of the standard CONUS rate. For specific definitions of extenuating circumstances and authorized rate limits, refer to SAM 0210. Reimbursement will only be made at the stated receipt amount (at or below the CONUS/GSA rate) or as extenuating circumstances are approved as stated above.

d. Except as otherwise provided for in section B.4., State officers and employees are eligible for per diem reimbursements only if they are 50 miles or more from their official work station.

3. Out-of-State Travel (SAM 0210.0)

a. Requests for out-of-state travel must be pre-approved from an appropriate authority. Travel requests shall be documented using an Out-of-State Travel Authorization form (available on the Shared Drive “Forms” folder).

b. The signatures of an appropriate authority or designee, and the fiscal manager or designee will evidence approval.

c. Receipts are required for all expenses claimed for reimbursement with the exception of per diem meals and per diem incidentals.

d. If a board member or employee traveling out-of-state is unable to obtain lodging at the predetermined GSA rate because of extenuating circumstances, the Chairman may authorize the expenditure up to 175% of the federal lodging rate for surveyed out-of-state sites or up to 300% of the CONUS rate for non-surveyed out-of-state sites. For specific definitions of extenuating circumstances and authorized rate limits, refer to SAM 0210.

4. Exemption to 50-Mile travel designation in accordance with SAM 0204.

a. When the State of Nevada is the host State for a training conference of the Association of Paroling Authorities, International, (APAI), if the conference location is less than 50 miles, but more than 25 miles from a principal duty station of the Board, a Board employee assigned to that duty station is allowed reimbursement for lodging, per diem and other travel expense, if the Board employee been assigned to perform various host committee duties by the Chairman of the Board. Host committee duties include, but are not limited to; vendor/exhibitor coordination; media relations/photography; host city/tourism coordination; registration/hospitality; transportation; audio/visual duties; and general administrative support.
C. **Definitions:**

1. **Travel Status:** The Board employee’s ultimate travel destination is at least 50 miles from their principal duty station, or at least 50 miles from home if the traveler commences travel without initially reporting to his/her primary duty station, whichever is less, in accordance with SAM 0204. Employees are considered to be in travel status from portal to portal.

2. **Mileage Reimbursement — Non-Travel Status:** A Board employee using his/her own vehicle to attend to work-related duties including training, meetings, conferences or other duties within 50 miles of the Board employee's primary duty station is entitled to mileage reimbursement.

3. **Mileage Reimbursement — Travel Status:** Board employees using his/her own vehicle for the State's convenience; the mileage reimbursement rate will conform to the most recently published All Agency Memorandum from the Budget Office specifying approved rates. Board employee’s using his/her own personal vehicle for the employee’s convenience; the employee will be reimbursed at one-half the standard mileage reimbursement rate published in the most recent All Agency Memorandum from the Budget Office.

4. **Mileage Reimbursement — Calculation:** When calculating mileage for Travel Status or Non-Travel Status claims to be reimbursed, a Board employee using his/her own personal vehicle will be compensated for any miles driven in excess of his/her normal commute unless the Board employee is departing from their primary duty station. A Board employee's normal commute is the roundtrip mileage between the employee’s residence and his/her official duty station. Additional mileage incurred for items such as meals or entertainment will not be reimbursed. This applies regardless of the day which the travel occurs (e.g., workday, regular day off, etc.). Refer to SAM 0218.

2015 Flood Event - Douglas County Disaster Relief (DRA)

Agenda Item Write-up:

Pursuant to NRS 353.2755, the Division of Emergency Management and the Department of Taxation recommend approval of grant funds in the amount of $231,663.79 from the Disaster Relief Account (DRA) to reimburse Douglas County costs associated with flash flood events that occurred in July 2015.

Additional Information:

Douglas County issued a declaration of Emergency in response to a series of severe thunderstorms that impacted Carson City, Douglas, Washoe, Storey, Lyon and Pershing counties. On July 8, 2015, the Douglas County Board of County Commissioners declared a state of emergency, due to the severe flooding that hit the area and significantly impacted county residents in the Stephanie Way and Johnson Lane area. Storm systems during this period carried large amounts of water and debris in the area damaging county maintained roads, covered access roads for county maintained services, filled ditches and culverts and impacted over 437 private homeowners.

From July 14 to July 17, 2015 the Division of Emergency Management (DEM), in conjunction with county offices, conducted a Technical Assessment of the damage caused by the flooding. The Assessment Team identified damage to county and private property in excess of $3.8M for
all the counties impacted by the storms with Douglas County being the hardest hit accounting for approximately $2.2M of the estimated $3.8M in damages. The report determined that while the extent of damage experienced by the storms did not qualify for federal FEMA or State levels of disaster declaration, it did qualify for a local county declaration and as such qualifies for potential funding from the State’s Disaster Relief Account. A copy of the cost estimates of repairs and a copy of the actual expenditures the county experienced with the repairs completed is attached to this request.

On July 10, 2015 the Division of Emergency Management, on behalf of Douglas County, notified the Clerk of the Board of Examiners and the Legislative Counsel Bureau of the counties intent to Request Funding from the Nevada DRA.

On July 24, 2015, and in accordance with NRS 353.2753, a copy of the draft Damage Assessment including a description of damages and estimate of the cost of repairs was forwarded to DEM. On September 4, 2015 the County submitted its formal letter of Intent to Request Funds from the Disaster Relief Account to the Division in accordance with the 60-day requirement stated in NRS 353.2755.

Pursuant to NRS 353.2755(3)(a), the county is provided 18 months (to January 8, 2017) from the date that the governing body determined the event constituted a disaster, to complete its full application to the DRA. On December 7, 2016 the Division approved an extension of time to March 8, 2017 for the County to complete its DRA application. On February 8, 2017 the county made a second request for an extension of time due to difficulties experienced in collecting necessary cost of repairs information and providing that information to the Department of Taxation. That second request was approved by the Division on February 9, 2017 and was approved to May 7, 2017. The county was able to complete its full application within that deadline and has identified $463,327.58 in qualifying DRA expenditure in response to the 2015 Flooding Events.

Re: Disaster Relief Application
Douglas County Flash Flood – July 2015

Dear Director Wells:

The Department of Taxation has received the Douglas County (County) application for financial relief from the State Disaster Relief Fund from your office. This application is for reimbursement of certain expenses that resulted in the Flash Floods that occurred during July 2015.

The County request from the State Disaster Relief Fund is for $231,663.79. This amount represents 50% of the eligible total cost incurred by the County of $463,327.58 for cleanup costs of clearing and repairing roads, culverts and retention basins. The County, with assistance from the START Team, determined the extended event did not meet the eligibility requirements for FEMA’s declaration and was not warranted. Additionally NDEMG requested assistance from the Small Business Administration (SBA) to conduct joint federal state, and local damage assessments to the homes in Douglas, Storey, and Washoe, and it was determined that Nevada does not meet SBA declaration criteria. Additionally the study determined Douglas County was impacted the most and they were the only County to request funding assistance from the Disaster Relief Fund.

In the Department’s review of the application, several things stand out when determining the financial status of the County. The following bullet points touch on these factors:

- The assessed value declined 24% between FY09 and FY15.
- Since 2013, the operating tax rate has been limited to the current $1.168 as they are constrained by the statutory $3.66 limit.
- Although the County's General Fund ending fund balance appears to be healthy, approximately $2 million is attributed to developer contributions and can only be used for specific areas for future road repair.
- Douglas County has deferred maintenance and necessary vehicle replacements to ensure the manpower and financial resources were available for flood clean up and road repair.

The hard economic times have been difficult on Douglas County, and even though some signs of recovery are present, it will take time due to the operating tax rate restricted by the maximum operating tax rate. Therefore the Department recommends approval of Douglas County’s request from the State Disaster Relief fund for $231,663.79.

If you have any questions regarding this matter, please call Kelly Langley at 775-684-2073.

Sincerely,

Deonne E. Contine

Dear Director Wells and Director Combs:

Subject: Full Application to Request Funding from the Nevada Disaster Relief Account (DRA) – Douglas County Flash Flooding July 2015

Please accept this as formal notification of Douglas County’s request for a grant from the DRA for reimbursement of a portion of the expenditures incurred in responding to, and recovering from, the July 2015 flood events.

Douglas County declared a local emergency, and in turn, requested assistance from the State of Nevada. The Nevada Division of Emergency Management (DEM) provided technical assistance to multiple jurisdictions by conducting an assessment of damages related to the July 2015 flood events. The Division determined from the assessment that the event for Douglas County constituted a local disaster.

The full application supporting the County’s request seems to include the information necessary for the State Board of Examiners and the Interim Finance Committee to act upon the request. The County has spent $463,327.58 in response and recovery costs as a result of the flood events.

Thank you and should you have any questions or need additional information in order to make a recommendation, please contact Justin Luna at (775) 687-0304.

Hi Justin,

Do you need a physical copy or can we email it to you?
I am clearing Vicki’s review points right now. I can email you when I’m done or I can deliver it to Carson City.
Please let me know.

Douglas County, Nevada

Funding being requested is a grant for repair or replacement of roads, streets, bridges, water control facilities, public buildings, public utilities, recreational facilities or parks; emergency measures undertaken to save lives, protect public health or safety or property; or not more than 50% of any grant match the local government must provide to obtain a grant from a federal disaster assistance agency.
MEMORANDUM

To: James Wells, Director, State of Nevada, Governor's Finance Office

From: Vicki Moore, Chief Financial Officer

Date: November 2, 2017

Re: Douglas County’s 2015 Flood Application

In accordance with the County’s Disaster Relief Account application submitted on May 2, 2017, Douglas County is respectfully requesting grant assistance with the 2015 Flood Application for flash flooding that occurred on July 8 and 9 of 2015. During this flood event, Douglas County experienced flash flooding that caused significant amounts of damage to property and infrastructure, both public and private and threatened the lives of Douglas County residents. On July 8, 2015, the Douglas County Board of County Commissioners declared a State of Emergency in Douglas County as a result of the storms.

Douglas County incurred costs of $463,327.58 for cleanup and debris removal of this flood event. Attached please find a detailed list of the costs as they were presented in the flood application. The detail includes a list of costs Douglas County incurred by hiring outside contractors to aid in the cleanup efforts as well as internal labor and equipment costs.

RE: Request an Extension of Time to File Application from the State Disaster Relief Account

Dear Mr. Cage,

This letter is to request an additional extension of time to file a formal application on behalf of Douglas County for the Johnson Lane July 8, 2015 Flood Cleanup and Restoration Project in Douglas County, Nevada. Douglas County previously filed a Notice of Intent to Apply and was granted until January 8, 2017 to file a formal application with our documented request for relief. On December 7, 2016 we requested and were granted an extension to file until March 8, 2017.

As you are aware, several areas within Douglas County experienced flood damage, primarily focused in the Johnson Lane area of the Carson Valley. As a result of the floods, numerous public facilities and infrastructure experienced significant damage. Our finance department has been working with public works to compile our expenses and complete the application but our finance department has experienced ongoing staff vacancies which have impeded our ability to complete the application.

We respectfully request an additional 60 day extension to May 7, 2017, to complete all of the documentation required to submit a full and complete application. We are in the process of hiring additional staff to fill our vacancies. By delaying our application we will have a more complete financial picture to report.
Thank you for consideration of this request. If you have any questions or require further documentation, please let me know.

Sincerely,

Dear Director Wells and Director Combs:

Subject: Letter of Intent to Request Funding from the Nevada Disaster Relief Account (DRA) – Douglas County Flash Flooding July 3-July 11, 2015

This is formal notice that Douglas County intends to submit a full application to the DRA for reimbursement of expenditures incurred in responding to, and recovering from, the July 2015 flood events.

July 8, 2015, the Douglas County Board of County Commissioners adopted Resolution #2015R-038, Declaration of an Emergency Due to Flash Flooding. Preliminary cost estimates to repair damage to Douglas County’s public infrastructure, including debris removal, due to the July 2015 flood events total approximately $2.2 million.

July 8, 2015, Douglas and other affected counties requested from the Division a damage assessment of the affected areas. The State Technical Assistance Response Team (START) deployed July 9, 2015. The Division notified the Board of Examiners of the request July 10, 2015 via email.

The Division provided technical assistance to multiple counties by conducting an assessment of damages related to the July 2015 flood events. Prescribed by regulation NRS 353.2753, a draft report including a description of damages, including estimates of the costs to repair was submitted to the Chief of the Division July 24, 2015 (see attached report). The Division determined the event for Douglas County constituted a local disaster and submitted the draft report to Douglas County. The other counties have not submitted an intent to apply to the Disaster Relief Account.

These figures are preliminary estimates of the costs incurred to date as a result of responding to the July 2015 flood events in Douglas County as well as the damage recovery. Actual costs for reimbursement cannot be finalized until all work is complete. The Division is committed to

continue to work closely with Douglas County in refining the true costs for the submission of its final application for funding under the DRA.

The enclosed letter of intent was submitted by Douglas County on September 4, 2015 in accordance with the 60-day submission deadline specified in NRS 353.2755. Based on the above-mentioned declaration date, and in accordance with NRS 353.2755(9)(a), Douglas County has up to 18 months, (January 8, 2017) for the submission of the complete application.

Once Douglas County determines the total expenses, a full DRA application will be submitted to the Division and the Department of Taxation for review. The Division will review the application package for eligibility and compliance within NRS 353.2755, and then will submit the application and its recommendations to the State Board of Examiners and to the Fiscal Analysis Division of the Legislative Counsel Bureau.

Thank you and should you have any questions, please contact Susan Coyote at (775) 687-0319 or Rick Martin at (775) 687-0306.

Re: Notice of Intent to Request Disaster Relief Funding

Dear Mr. Cage,

This letter serves as Douglas County’s written notice of intent to request funding from the State Disaster Relief Account, pursuant to NRS 354.2755 for the damages incurred to public infrastructure that resulted from the July 2015 flash flooding events in Douglas County.

Under the NRS, the County’s governing board must determine that the event constituted a disaster. Attached is Resolution No. 2015R-038, adopted on July 8, 2015 by the Douglas County Board of Commissioners. The County understands that it must submit an application with all supporting financial information and documentation to the State Department of Taxation within eighteen months of the date of this written notification for consideration of disaster relief funding.

Sincerely,

Doug N. Johnson, Chairman
Douglas County Board of Commissioners

RESOLUTION #2015R-038
DECLARATION OF AN EMERGENCY
DUE TO FLASH FLOODING

WHEREAS, Douglas County has experienced unexpected severe lightning storms and heavy rain resulting in flash flooding that has caused or has the potential to cause significant amounts of damage to property and infrastructure, both public and private, and has threatened the lives of Douglas County residents; and

WHEREAS, Douglas County government does not have sufficient resources to handle a flash flood of this magnitude; and

WHEREAS, the State of Nevada and the U.S. government have the necessary resources to assist in preventing future damage from the flood and to protect the property and residents of Douglas County; and

WHEREAS, NRS Chapters 244 and 414 provide the statutory authority for an emergency declaration by the Douglas County Board of Commissioners; and

NOW THEREFORE LET IT BE RESOLVED that the Douglas County Board of Commissioners hereby declares that a State of Emergency exists in Douglas County due to the flash flood(s) and resulting damage that threatens the health, safety, welfare and property of Douglas County residents.

The Douglas County Board of Commissioners requests that the Governor investigate this flash flood and declare that a State of Emergency exists in Douglas County. The Board of Commissioners also requests that the Governor provide state assistance, including but not limited to, provision of all available resources, as deemed necessary, to stem the flooding, to assist with damage assessment and recovery. Douglas County requests that the Governor contact Nevada’s Congressional delegation to solicit their assistance in obtaining federal aid for this flash flooding and resulting damage if deemed necessary.

MEMORANDUM

To: Colleen Murphy, Budget Analyst

From: Ann Scott, Management Analyst
Enterprise Information Technology Services

Purpose: Request BOE retroactively approve for attached Revenue Contract

The attached Revenue Contract with Carson City IT Department has been submitted for the BOE’s approval. Due to the necessity of continued public communications coverage, we are asking the Board of Examiners to retroactively approve this contract to July 1, 2017.

The agency takes its contract process serious and with the recent staff changes we had a delay in processing revenue contracts and anticipate being timelier in the future.

I appreciate your time and assistance. Should you have questions please call me at (775) 684-5859 or email to annmscott@admin.nv.gov.

Sincerely, Ann Scott

Provide a description of work/services to be performed or commodity/good to be purchased:

The vendor will continue to provide an electronic medical records software system to meet federal reporting requirements.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:

The vendor has been the E-Health Record service provider for the Agency and the Agency must overlap service with the two vendors to allow the new vendor the needed time to implement the electronic health records system without interruption of services.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

The service was competitively solicited and a new vendor was awarded under RFP 3418; however, the Agency must overlap service with the two vendors to allow the new vendor the needed time to implement the electronic health records system without interruption of services.

Were alternative services or commodities evaluated? Check One. Yes: X No:

a. If yes, what were they and why were they unacceptable? Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

An extensive RFP 3418 was issued through the State Purchasing Office and a vendor was selected in full compliance with State contracting rules and regulations.

b. If not, why were alternatives not evaluated?

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

Yes: X No:

a. If yes, starting with the most recent contract and working backward, for the entire relationship with this vendor, or any other vendor for this service or commodity, please provide the following information:

| 7 | What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?  
The Nevada State Veterans Home would no longer be in compliance with mandated federal reporting requirements that require the use of an Electronic Health Records System. |
|---|---|
| 8 | What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?  
The service was competitively solicited and a new vendor was awarded under RFP 3418; however, the Agency must overlap service with the two vendors to allow the new vendor the needed time to implement the electronic health records system without interruption of services. The pricing is consistent with amount charged by vendor during previous contract |
| 9 | Will this purchase obligate the State to this vendor for future purchases? Before selecting your answer, please review information included on Page 2, Section 9 of the instructions.  
**Yes:** | **No:** | **X**  
a. If yes, please provide details regarding future obligations or needs. |

II. JUSTIFICATION

7. What conditions require that this work be done?

The federal funding for 21st Century programs (Title IV, Part B) requires the state to submit detailed information (utilization rates, goals, objectives, participation, etc.) related to services provided by the programs funded by the state. In order to have the data accurate, it is necessary to provide technical assistance and training to the programs on an ongoing basis.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

The Cayen System is the data collection process Nevada uses to obtain the information required by the United States Department of Education to evaluate the effectiveness of the 21st Century programs. The input of data into the Cayen System requires detailed knowledge of that system which neither NDE nor any other state agency possess.

9. Were quotes or proposals solicited? Yes

Was the solicitation (RFP) done by the Purchasing Division? No

a. List the names of vendors that were solicited to submit proposals (include at least three):

b. Solicitation Waiver: Not Applicable

c. Why was this contractor chosen in preference to other?

Solicitation Waiver #160802D was approved 10/6/2017. This vendor was the only applicant. Additionally, the vendor has experience in providing technical assistance and training to the programs.

d. Last bid date: Anticipated re-bid date:

Total Estimated Value of this Service Contract, Amendment or Purchase: $235,460.00
Provide a description of work/services to be performed or commodity/good to be purchased:
The contract provides technical assistance, training and Cayen data reviews to local school districts and community-based organizations that receive funding under NDE’s 21st Century Community Learning Center program for the purpose of collecting data as required under federal funding regulations for the year. 21st Century Student Support Services has provided the manuals, training and review of the Cayen data systems for the past 9 years for Nevada programs.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:
The Federal funding for 21st Century programs (Title IV Part B) requires that the state submits detailed information (utilization rates, goals, objectives participation, data, etc.) related to services provided by programs funded by the state. In order to obtain accurate data, it is necessary to provide technical assistance and training to the sub-grantees on an ongoing basis. The Nevada Department of Education has worked with the 21st Century Student Support Services to provide this training annually to schools and agencies that receive 21st Century grant funds from the state. The training has been customized with the assistance of NDE staff to ensure its alignment with the state and federal guidelines, student academic needs and performance outcomes annually.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:
Since 2007 and in collaboration with the department, the 21st Century Student Support Services team has provided this training annually to schools and agencies that receive 21st Century grant funds from the state. The training has been customized to ensure alignment with the state and federal guidelines for programs and student academic needs and performance outcomes. NDE is still in the process of exploring the use of a current statewide database system (Infinite Campus) to include the collection of the data for the 21st Century programs. However, this will require detailed testing of the systems capabilities and compatibilities with the new Federal APR system, which is anticipated to begin during the 2017-2018 school year and did not occur as previously planned in 2016-2017. The process may take up to two years to complete.

Were alternative services or commodities evaluated?  Check One.  Yes:  No:  XX
a. If yes, what were they and why were they unacceptable?  Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

b. If not, why were alternatives not evaluated?
21st Century Student Support Services has provided the manuals, training and review of the Cayen data systems for the past 9 years for Nevada programs. The services are critical to the department providing technical assistance and training to programs in order to meeting federal requirements and guidelines in alignment with the new federal reporting system. NDE is in the process of exploring the use of a current state database system (Infinite Campus) to include the collection of the data for the 21st Century programs. However, this will require detailed testing of the systems capabilities and compatibilities with the new Federal APR system, which is anticipated to begin during the 2016-2017 school year.

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

Denial of the waiver request may result in a federal non-compliance designation for the State and cause the federal funding to be placed on hold and/or terminated for Nevada’s 21st Century Community Learning Center program.

What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

The prior RFP was issued in 2012 with only response was received. There were no additional responses to provide services.

Will this purchase obligate the State to this vendor for future purchases? Check One.

Yes: XX No:

a. If yes, please provide details regarding future obligations or needs.

All future purchases will be based on the state and federal program requirements and/or changes to the data collection process. Currently NDE is exploring additional internal process to streamline the data collection process and technical assistance, as well as requesting additional internal staff during the upcoming legislation in order to increase the state’s capacity in providing these services to programs.

II. JUSTIFICATION

7. What conditions require that this work be done?

The United States Department of Education (USDOE) requires certain data be provided as part of the 21st Annual Performance Report (PPICs) in a specific format. Cayan AS21 masses the information from the 60 programs in order to meet the various requirements and then uploads this information into Federal data contractor, AIR.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

Due to the small staff size assigned to work with Elementary and secondary Education, the consultants who handle the programs included in this contract, also handle a minimum of three other programs as well. Due to the workload assigned to NDE staff, there is not enough time to complete these assignments, and no other state agency has the required background knowledge and/or expertise.

9. Were quotes or proposals solicited?

No

Was the solicitation (RFP) done by the Purchasing Division?

No

a. List the names of vendors that were solicited to submit proposals (include at least three):

Not Applicable

b. Solicitation Waiver: Exempt (Per statute)

c. Why was this contractor chosen in preference to other?

Per State Purchasing Administrator Jeff Haag, a solicitation waiver is not required for ongoing licensing, maintenance and/or support for a system already purchased/installed and in use by the state. A copy of this email is attached to the contract amendment.

d. Last bid date: Anticipated re-bid date:

8 What is the justification to extend the contract term beyond the State's four (4) year re-solicitation policy (SAM 0338):

Contract Extension Justification and Request Form

Revised: 10/2013
The United States Department of Education requires submission of certain data as part of the annual report for 21st Century Community Learning Center programs. Cayen has collected and housed this data each year, in the required format for Nevada’s programs, in order to meet this requirement and submit the data for the federal report. NDE is requesting to extend the services for one year to continue collecting the data in the current format for federal reporting. During this time, NDE will explore the use of other statewide data collection systems, such as Infinite Campus, to verify the alignment with the new federal APR system and for consolidated use in the future, if applicable.

What are the potential consequences to the State if the contract extension request is denied?

The Nevada Department of Education will fail to collect the required data in a manner consistent to the federal program guidelines for the 21st Century programs. All school staff working in programs will require additional technical assistance and training to manually collect the program data in accordance to meeting state and federal requirements of receive the grant funds. This will immediately increase the need for additional internal staff.

By signing below, I know and understand the proposed contract extension exceeds the State’s policy pursuant to SAM Section 0338 that contracts be solicited at least every four (4) years, and attest that all statements are true and correct.

2. Contract start date:
   a. Effective upon Board of Examiner's approval? No
   b. other effective date 07/01/2017

Retroactive? Yes

If "Yes", please explain
A contract amendment to the existing contract (CETS #14205) was delayed due to NSLAPR's uncertainty that the contractor would complete the original scope by the end of the contract on 6/30/17. After NSLAPR consulted with the AG Office & ASD, additional time to complete project was approved. By the time the existing contract scope was completed, the contract already expired. Thus, a new contract for maint & support is being requested effective July 1, 2017, to ensure no gap in services.

3. Termination Date: 06/30/2019

Contract term: 1 year and 364 days

4. Type of contract: Contract

Contract description: Maintence & Support

5. Purpose of contract:

This is a new contract to provide ongoing hosting, support, training and information services to library director inquiries regarding Community Connect / Nevada State Data Initiative.

6. NEW CONTRACT

The maximum amount of the contract for the term of the contract is: $120,000.00

Payment for services will be made at the rate of $60,000.00 per year

Other basis for payment: A fixed rate of $60,000 to be invoiced annually on June 1, with payment due in full within 30 days of each invoice date.

II. JUSTIFICATION

7. What conditions require that this work be done?

RE: Contract with Futterman/Civic Technologies

I am seeking a new contract with Futterman/CIVICTechnologies, with a retro start date of July to ensure no gap in services since the prior contract expired 6/30/17, and we cannot amend an already expired contract. The request for a contract renewal was delayed because we were not certain the contractor would complete the scope of the contract services by the end of the contract. After consulting with the Attorney General's Office and ASD’s contract manager, we gave him time to complete the project and agreed to pay the remainder of the contract. The work was completed too late to make the BOE deadline for the September meeting. Subsequently, the deadline for the September BOE was 8/8/17, and with the $120K request being submitted on 8/4/17, there was not enough time to get this on the September BOE.

In 2013, the contractor created a website for 41 libraries in the state of Nevada to use population and library use statistics for planning for library collections and programs. NSLAPR pays for the service with Federal funding from the Institute of Museums and Library Services. The contract was renewed to add statewide reading level data from the Department of Education, expand the reporting capability and provide training documentation and webinars. The contractor has been maintaining site since the completion of the contracted work and the library directors want us to continue funding this statistical resource under our Public Library Statistics Grant.

Please let me know if you have any questions.

1g Total Estimated Value of this Service Contract, Amendment or Purchase:

$120,000
**Provide a description of work/services to be performed or commodity/good to be purchased:**

CIVIC Technologies, Inc. will geocode existing library cardholders and provide maps of current library user and non-user populations for all public library jurisdictions in the state, using their CommunityConnect software. They will utilize market segmentation databases, as well as local Nevada integrated library application system databases to map market segments in the local library member service areas. They, along with local library personnel will identify the issues of highest interest and concern for further data gathering and analysis. Local library staff members will be trained on how to utilize available tools and data to determine who and who they are not serving, and the library service needs of Nevada residents. With improved user data and current information on interests and behaviors of residents in the library service area, staff of each of Nevada's local library jurisdictions will be able to more effectively use their funding to tailor collection development, programs, and communications for and with the citizens of Nevada. This project will cover 21 public library service areas (population totaling 1,224,209) in the 17 counties in Nevada with the exception of Las Vegas Clark County Library District which has already implemented the project for their service area in Clark County. The original contract, including Amendment #1 expired before an Amendment #2 could be processed. However, this new request (would have been Amendment #2 to the original contract) will continue the work to build upon the existing CommunityConnect software investment by maintaining, supporting, training, and responding to NSLAPR/local library director inquiries.

**What are the unique features/qualifications required for this service or good that are not available from any other vendor:**

This purchase provides a unique opportunity to identify un-served or underserved populations within the state and to provide libraries the information they need to improve customer service among library users. Libraries will be able to tailor their services to match detailed information about customer preferences. CommunityConnect is a software-as-a-service application that uses data and maps to specifically find new customers, increase services, target literacy resources, compare service areas, undertake market research, and understand market segment preferences and characteristics. CommunityConnect combines (1) national market segmentation data (Tapestry by Esri) and (2) demographic data with (3) geographic information systems (GIS) mapping technology and (4) integrated library system (ILS) data to assist library staff understand patrons, neighborhoods and service areas, and community conditions that impact library service strategies related to collections, programs, technology, facilities, marketing, and outreach. CommunityConnect integrates all sources into one seamless analysis producing products that all users are able to immediately utilize. The contractor has been maintaining the site since the completion of the original contract and the library directors want NSLAPR to continue funding this statistical resource under the Public Library Statistics Grant.

**Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:**

In order to have a complete picture for the entire state, it is imperative that information obtained is in the same format and content element as the Las Vegas Clark County Library District information. The information provided will give the State Library and Archives a tool to carry out its responsibilities identified in NRS 378.081 which will not only be of benefit to the library community, but also to agencies of the State, political subdivisions, planning groups and other agencies and organizations in planning and providing service to the citizens of Nevada at the local and statewide levels.

The closest types of service to CommunityConnect are consulting services, not a software-as-service application. Two contacts were made with library systems currently implementing the product including the King County Library System in Issaquah, Washington, and the Denver Public Library. In a conversation with Bill Placek, Director of the King County Library System, they found that they were only...
able to gather independent clusters of data from the county demographer, the Census Bureau, and their local library system. Based on the research by both the King County Library System and the Denver Public Library, analyzing and mapping these independent clusters of information would require additional consulting services. They found only one other system, Orange Boy, which does not provide the unique analysis feature of CommunityConnect. The CommunityConnect product pulls all the data from multiple sources (national market segmentation data (Tapestry by Esri), demographic data including Census, geographic information systems (GIS) mapping technology and ILS data) and the software does the analysis, not additional library staff members or consultants. The software documents and compares all changes in the data. The CommunityConnect product allowed all 1,200 King County Library staff to run their own reports without dependence on outside consultants. Market segmentation data is expensive and was not easily available for the libraries. It is about consumer behavior, not demographics. It is one of the most fundamental strategic marketing concepts: grouping people (with the willingness, purchasing power, and the authority to buy) according to their similarity in several dimensions related to a product under consideration. The better the segments chosen for targeting by a particular organization, the more successful the organization. The objectives are accurately predicting the needs of customers and improve the profitability and delivery of services, in this case library services. A conversation with Shirley Amore, City Librarian, Denver Public Library, reiterated the uniqueness of the CommunityConnect product in utilizing market segmentation data which they would otherwise have to be purchased separately and it would not be tied to their integrated library system and its patron circulation data.

b. If not, why were alternatives not evaluated?

7. What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

If this waiver request is denied, there will not be an accurate, uniform picture of all the local library jurisdictions throughout the State of Nevada. If this waiver for the new contract (would be Amendment #2 to the original contract if contract did not expire) is denied, the maintenance, support, training and responses from vendor regarding inquiries from NSLAPR/local library directors will not be available.

8. What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

The same level of analysis provided by the CommunityConnect product would require the use of separate individual consulting and product services to develop and/or take data from (1) the US Census Bureau, (2) local statisticians and demographers, (3) the state demographer, (4) GIS systems, (5) local library information systems, as well as (6) the purchase of separate business database information about market segmentation. Analyzing these disparate resources using multiple products and generating an easily accessible service usable by all library...
staff in all public library jurisdictions in the state would incur an additional layered-on cost to the cost of the individual products and services. CommunityConnect combines all resources and services in one product.

Due to the sudden and unexpected resignation of our current Henderson Clinic psychiatrist, little more than one month was available to obtain a qualified licensed practitioner of psychiatry. Psychiatrists are uniquely difficult positions to fill and UNLV School of Medicine agreed to step in and provide temporary services while State recruitment efforts could be accomplished. Services were continued so as not to interrupt treatment services for current Henderson Clinic clients.

3. Termination Date: 06/30/2019
   Contract term: 1 year and 348 days

4. Type of contract: Interlocal Agreement
   Contract description: Psychiatric Services

5. Purpose of contract:

   This is a new interlocal agreement that continues ongoing psychiatric treatment services for outpatient clients at the Henderson satellite clinic. Services include initial assessments, progress appointments, referral and medication management in an outpatient setting.

6. NEW CONTRACT

   The maximum amount of the contract for the term of the contract is: $632,400.00
   Payment for services will be made at the rate of $155.00 per hour
   Other basis for payment: $155.00 per clinical hour

II. JUSTIFICATION

7. What conditions require that this work be done?

   The agency operates outpatient programs requiring the services of psychiatrists. Pursuant to NRS 433.344 and 436.123, when vacancies occur in the medical staff, contract psychiatrists are needed for adequate coverage.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

   There are currently not enough psychiatrists on staff or in the State system to meet all of the needs of Southern Nevada Adult Mental Health Services.

MEMORANDUM

TO: Nikki Hovden
Budget Analyst
Budget Division

THROUGH: Mark Winebarger
Administrative Services Officer IV
Division of Public and Behavioral Health

FROM: Ellen Richardson-Adams
Southern Nevada Adult Mental Health Services
Outpatient Administrator

SUBJECT: REQUEST FOR RETROACTIVE START DATE OF CONTRACT – Board of Regents – UNLV (CETS #19271)

Due to the sudden and unexpected resignation of our current Henderson Clinic psychiatrist, little more than one month was available to obtain a qualified licensed practitioner of psychiatry. Psychiatrists are uniquely difficult positions to fill and UNLV School of Medicine agreed to step in and provide temporary services while State recruitment efforts could be accomplished. Services were continued so as not to interrupt treatment services for current Henderson Clinic clients. Therefore, we request a retroactive start date of July 17, 2017.

Current providers are being counseled on appropriate time frames for notification of termination of employment or services.

Thank you for your consideration in this matter.

II. JUSTIFICATION

7. What conditions require that this work be done?
   Current, manual licensing system does not meet the new law which requires the Division to make available the ability for individuals to submit forms electronically in a secure manner. Antiquated manual systems lead to inefficiencies, poor customer service, back log in work and inefficient revenue collection. The goal of the Health Division is to create a single-point of licensing access for Health Facilities, Clinical Laboratories, Child Care Facilities, Food Handling Establishments, Dietitians, Music Therapists, Emergency Medical Services (EMS) and other entities within the Health Division.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   State employees lack the expertise and resources to perform the work.

9. Were quotes or proposals solicited?  
   No

   Was the solicitation (RFP) done by the Purchasing Division?
   Yes

   a. List the names of vendors that were solicited to submit proposals (include at least three):
      Image Trend, Inc.
      Aithent, Inc.

MEMORANDUM

TO: Nikki Hovden
Budget Analyst
Budget Division

THROUGH: Mark Winebarger
Administrative Services Officer IV
Division of Public and Behavioral Health

FROM: Tina Gerber-Winn
Agency Manager
Community Health Services

SUBJECT: REQUEST FOR RETROACTIVE START DATE OF CONTRACT – Pershing County (CETS #19279)

The Nevada Division of Public and Behavioral Health, Clinical Services Program, receives funding from the county to provide direct preventative healthcare, as well as referrals for medical services, to county residents.

This revenue contract was delayed due to ongoing negotiations with the county and complications with the required template language. If this contract is not approved, State and County residents will be delayed receiving preventive healthcare and other necessary medical services.

We therefore request that this contract be accepted with a retroactive start date of July 1, 2017. If this contract is not approved, State and County residents will be delayed receiving preventive healthcare and other necessary medical services.

Thank you for your consideration in this matter.

REQUEST FOR RETROACTIVE START DATE OF CONTRACT – UNR-UNSOM (CETS# 19291)

This contract supports our needs for staffing Child and Adolescent Psychiatry Fellows in Rural Clinics. This memorandum requests that the following Interlocal Contract be approved for a retroactive start date effective July 1, 2017. These agreements were delayed due to negotiations between UNSOM, Rural Clinics, and SNAMHS, discussing the addition of a similar program by the Las Vegas UNSOM program. Due to external events at the Las Vegas program they were not able to participate in this contract. We therefore request that this contract be accepted with a retroactive start date of July 1, 2017. As you know child and adolescent psychiatry is a critical shortage specialty in the State. Without the addition of this resource in this contract the Rural Clinics will have a critical shortage to provide child and adolescent services.

The negotiations included Dr. Ravin, Medical Program Coordinator of Behavioral Health programs for the State. Rural Clinics will implement the following to prevent future retroactive requests:

- Contract began three months prior to end of fiscal year. In the future any additions, or negotiations for additional services can be made as amendments to avoid any future delays.

If you have any future questions, please contact Greg Kitchingman at (775) 684-5023 or gkitchingman@health.nv.gov

Thank you for your consideration in this matter.

   $24,761,639.35 | $24,761,639.35 | $24,761,639.35 | Yes - Action
II. JUSTIFICATION

7. What conditions require that this work be done?
   The Patient Protection and Affordable Care Act of 2010 (ACA) was signed into law. The Health Care Reform law mandates the creation of Health Benefit Exchanges that will allow consumers to access and evaluate plans from commercial insurers and to apply for health subsidy programs such as Medicaid and Children's Health Insurance Program (CHIP). Integrating the eligibility determination and enrollment processes for publicly-subsidized health coverage programs and providing seamless coordination between the Health Benefit Exchange, Medicaid and CHIP will be critical to providing a "one-stop shop" to coverage. The intent of the law is to allow an individual to supply a limited amount of information that can be used to determine whether he/she is eligible for coverage under any of the publicly-subsidized health coverage programs available in the State.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   State employees do not have the resources or expertise to provide this service.

9. Were quotes or proposals solicited? Yes
   Was the solicitation (RFP) done by the Purchasing Division? Yes

   a. List the names of vendors that were solicited to submit proposals (include at least three):
      Oracle
      UNISYS
      Deloitte Consulting
      IBM

   b. Solicitation Waiver: Not Applicable

   c. Why was this contractor chosen in preference to other?
      Vendor was chosen based on a weighted average of evaluation criteria as determined by an evaluation committee of five (5).

   d. Last bid date: 12/20/2011 Anticipated re-bid date:

10. Does the contract contain any IT components? Yes

III. OTHER INFORMATION

11. Is there an Indirect Cost Rate or Percentage Paid to the Contractor?
      No If "Yes", please provide the Indirect Cost Rate or Percentage Paid to the Contractor

      Not Applicable

12. a. Is the contractor a current employee of the State of Nevada or will the contracted services be performed by a current employee of the State of Nevada? No

   b. Was the contractor formerly employed by the State of Nevada within the last 24 months or will the contracted services be performed by someone formerly employed by the State of Nevada within the last 24 months? No

   c. Is the contractor employed by any of Nevada's political subdivisions or by any other government? No If "Yes", please explain

      Not Applicable

13. Has the contractor ever been engaged under contract by any State agency? Yes
      If "Yes", specify when and for which agency and indicate if the quality of service provided to the identified agency has been verified as satisfactory:
Contractor was under contract with DWSS from January 2010 to February 2011 and from May 2011 to October 2011 and provided satisfactory service.

14. Is the contractor currently involved in litigation with the State of Nevada?

4. Type of contract: Contract
   
5. Contract description: Data Share JJ
   
6. Purpose of contract:
   
   This is a new contract to provide data sharing services between the counties and state youth facilities as recommended by the Council of State Governments’ Justice Center.

7. NEW CONTRACT
   
   The maximum amount of the contract for the term of the contract is: **$2,283,403.00**
   
   Payment for services will be made at the rate of $24,000.00 per month
   
   Other basis for payment: for 90 months with a $123,403 one-time start-up fee.

II. JUSTIFICATION

7. What conditions require that this work be done?
   
   The Council of State Governments (CSG) Justice Center conducted a comprehensive assessment of Nevada's juvenile justice system. One of the problems identified by CSG is the lack of a standardized data system. This will allow the State and counties to share tracked data for more accurate reporting of juvenile justice system performance, recidivism rates or other outcomes for youth.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   
   The agency does not have the capability of developing this type of system.

9. Were quotes or proposals solicited? No
   
   Was the solicitation (RFP) done by the Purchasing Division? No
   
   a. List the names of vendors that were solicited to submit proposals (include at least three):

4 year contract with automatic renewal for an additional 4 years unless terminated.
Provide a description of work/services to be performed or commodity/good to be purchased:

The Council of State Governments (CSG) Justice Center conducted a comprehensive assessment of Nevada's juvenile justice system.

One of the problems identified by CSG is the lack or a standardized data system. CSG describes the problem as "state and local agencies do not regularly or fully track juvenile justice system performance, recidivism rates, or other outcomes for youth, and lack the data structure and research capacity to analyze system performance and use data to guide policy, practice, and funding improvements". They recommended the State move to a data system that could "collect and report data regarding referral, risk and need, detention, decision/finding, supervision, residential placement, program, and service information for local juvenile probation agencies, and to include commitment/admission, risk and need, charge/offense/violation, disciplinary actions, program and service, residential placement, education, and revocation for youth correctional and parole services".

This contract would allow the State to develop a single data system. In essence, for a data system to do what the CSG recommended, it must be one system and must bridge the gap between county and state jurisdictions/areas of operation (see Bifurcation at a Glance) as kids enter the system with county and may end the system with the state. Much of the data on a youth is housed at the county level with county probation and detention departments and county courts. The State data begins when a youth is committed to a state correctional facility and re-entered into the community on parole.

What makes one statewide data collection system even more important is the need to track recidivism. A youth, who is adjudicated anywhere in Nevada can be tracked and the State can begin looking at true recidivism rates. Further, the task of comparing data in one juvenile data system to one adult data system will further enhance the state's ability to measure recidivism, even as youth enter the adult system at age 18.

Lastly, the State is ultimately responsible for the gathering, analyzing, and reporting of juvenile justice system data, but without a mechanism to do so; this cannot and does not happen.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:
CaseloadPRO is the leading vendor in this field, and are used by many organizations around the country. At the time the Counsel of State Governments met, several Nevada counties were in the process of updating their own case management systems and those counties all chose Caseload Pro as their vendor. The following counties have already converted and are currently utilizing CaseloadPRO: Clark, Carson City, Storey, Douglas, Lyon, and Humboldt. With this in mind, DCFS has pursued conversations with the counties who are still using their own systems, the three DCFS correctional facilities, and Youth Parole. All entities have agreed that it is in the best interest of the juvenile justice system to convert and commit to Caseload PRO in order to share data and all be on the same statewide data system. The counties have determined that it would be cost prohibitive at this point to change to a different case management system.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

CaseloadPRO is currently used by several counties in the State. It is imperative that the State and all of the counties use the same service, otherwise the data would not be compatible with all users. It was the legislative intent to use CaseloadPRO per the language in the NEBS budget building system. In NEBS it was identified by name, and the amounts approved by the Legislature for year 1 and 2 were the exact amounts of the CaseloadPRO quote in the first two years. Because of the legislative intent the State was given several discounts as outlined in the quote. This includes a 20% discount on user fees from their advertised fee of $37.50 per user/month to $30.00 per user/month. Secondly, the State will receive a 15% discount in Training and a 20% discount in project management. However, the largest discount is noted in data conversion and set up. CaseloadPRO will give the State a 70% discount from $998.00 per unit to $298.50.

Were alternative services or commodities evaluated? Check One. Yes: X No: 

a. **If yes**, what were they and why were they unacceptable? Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

Yes, both the state and several counties have explored many options and have been provided with vendor demos. Since there were several counties who had the funding to meet the CSG recommendations to date they had the ability to test the systems and have determined CaseloadPRO was the best option available. One major factor in the determination is the fact that unlike most available platforms, CaseloadPRO is a criminal justice system specific case management platform and therefore is designed for this specific use.

b. **If not**, why were alternatives not evaluated?

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request. Yes: No: X

<td>The State could potentially be obligated to use a case management service that is different from that of many of the counties. If this were to happen the data would not be compatible and those counties would not be able to report their details to the State, ultimately resulting in the State not being in compliance with the CSG recommendations. Under this scenario the system would also be almost useless as it wouldn’t meet the needs as detailed in questions #2 above.</td>

<tr>
<td></td>
<td>The CaseloadPRO system has many components to it. For example, it can record room checks with the use of a strip and a wand – once that wand hits the strip for the assigned youth, an update date and time is uploaded as a room check. It can keep track of youth who are on electronic monitoring 24/7 with the use of an area map and a beacon. Lastly, it has the capability to upload, send and receive drug testing.</td>

<tr>

<td>The vendor may upgrade its system over time in order to offer additional services not currently offered. The cost for any additional services would be an increase in the monthly user fee. There would be no additional one-time costs, unless additional hardware is needed such as wands and strips for monthly room checks which would be separate purchases.</td>

### State of Nevada - Budget Division
#### Line Item Detail & Summary
2017-2019 Biennium (FY18-19)

Section A1: Line Item Detail by GL

**Budget Account: 1383 HHS-DCFS - JUVENILE JUSTICE SERVICES**

The Juvenile Justice Program sub-accounts funding to local units of government and private agencies for programs including removing juveniles from adult jails, keeping juvenile offenders separate from adult offenders, de-institutionalizing status offenders, reducing the disproportionate incarceration of minority offenders, specialized programs for Native American youth, and community-based delinquency prevention programs.

This budget account supports the Social Services Chief who performs compliance and monitoring of jails and lockups; provides legislative support on juvenile justice bills; serves as Nevada's Juvenile Justice Specialist; supports the Juvenile Justice Commission; coordinates Juvenile Justice data collection and analysis; prepares monitoring and performance reports for the various grant programs including Grants Management System reporting on the Office of Juvenile Justice and Delinquency Prevention website; implements contracts; and serves as a general juvenile justice resource for county partners. The Chief supervises the JREA Coordinator (Program Officer III), a Program Officer I, and an Administrative Assistant II. Statutory Authority: NRS Chapter 62 and the Federal Juvenile Justice Act.

**Funding:** State general fund appropriation (GL 2501), Federal Office of Juvenile Justice and Delinquency Prevention CJJDAP Formula Grant (GL 3580), Title V Community Prevention Grant (GL 3582), Juvenile Accountability Block Grant (GL 3588), and Juvenile Accountability Block Grant Program Income in the form of quarterly Treasurer's Interest Distribution (GL 4326), and fines generated as a pass-thru from the Department of Taxation (GL 4157).    1. The max amount of the original contract:
      a. Amendment 1:  $68,584.00  $68,584.00  $68,584.00  Yes - Action
   2. Amount of current amendment (#2):  $89,026.80  $89,026.80  $89,026.80  Yes - Action
   3. New maximum contract amount:  $237,610.80

II. JUSTIFICATION
7. What conditions require that this work be done?
   It is important to maintain the finish, weather resistance and appearance of the buildings. Keeping the paint and stucco in good condition maintains the integrity of each building's structure. Additionally, many of the buildings of the West Charleston campus have not been painted since the buildings were originally constructed. The interior of Desert Willow has only been patch painted when maintenance staff have had to perform some repairs.
8. Explain why State employees in your agency or other State agencies are not able to do this work:

The current staff does not have the expertise to paint wide scale projects that involve numerous buildings. With their current workload, it would be difficult to complete these deferred maintenance projects within the fiscal year.

9. Were quotes or proposals solicited? Yes

Solicitation Waiver

Revised: June 2016
Provide a description of work/services to be performed or commodity/good to be purchased:

As a continuation from the MDC Pilot Program, Contractor will provide NetMotion and Feeney Wireless Crossroads, Internet of Things training and support for 479 each MDC units by remotely and onsite providing the following:
(a) NetMotion Training (Remotely and Onsite)
(b) Feeney Wireless Crossroads, Internet of Things Training (Remotely and Onsite)
(c) Proper setup and maintenance of mobile devices for Feeney Wireless Crossroads, Internet of Things and NetMotion Diagnostics
(d) Contractor will also provide additional onsite training and training documentation for 479 MDC units and will ensure all training objective are met.
(e) Contractor will verify device and mounting installations onsite and make device setting changes if needed.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:

Feeney Wireless (FW) has tremendous experience in supporting Public Sector accounts including network security requirement for CIHS, Two Factor Authentication, Mobile VPNs, and Security for a complete mobile data system.

FW is the only vendor that manufactures the Skyus-X modem that is an integral part of the NHP MDC network, marry the MDC tablet with the proper servers. This is accomplished by utilizing cellular and Wi-Fi connections while using NetMotion as the VPN. As a part of their service, they are required to setup all the devices to specifications that are unique to NHP, verify installations, make setting changes if needed during initial deployment, and support those devices after deployment. FW will also be required to provide training to NHP personnel in regards to those devices and provide training documentation.

FW has unique diagnostic and tracking software for their CIRA GX440 and Skyus-X (Crossroads). FW will be required to add new devices to Crossroads and provide training to NHP personnel in its use. They will also be required to setup NetMotion diagnostic software and provide training for that as well. In addition, they will need to maintain both diagnostic software services to insure NHP MDC efficiency.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

This service cannot be competitively bid because parts of software needed to perform the service work are only available through FW as the OEM. The Skyus-X and Crossroads diagnostic software being prime examples. FW is the only vendor that manufactures the Skyus-X modem and their services were used during the original NetMotion server setup at the beginning of MDC Project and also during the FY16 deployment. If the services were competitively bid out, we would have to work with multiple vendors which would not be optimal and efficient for NHP, as devices and services provided by other vendors would not be compatible with the existing system and equipment. If it could be made to be compatible, NHP employees would need to learn to use two different systems and employees trained and using equipment from the pilot program and the last deployment would need to be retrained. No other vendor will be able to provide training in regards to the Skyus-X or be able to evaluate installation and settings during FY17 deployment.
Were alternative services or commodities evaluated? Check One.  
Yes: X  No: 

a. **If yes, what were they and why were they unacceptable?** Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

In 2014, during the pilot phase of the project, AT&T Cradle point was evaluated and priced. AT&T Cradle point had features that met some NHP expectations, but did not support NetMotion and NetMotion Diagnostics. AT&T does not sell or manufacture the CIRA GX440 or Skyus-X modem and does not have or can support Crossroads. Therefore they cannot, provide training in regards to Crossroads and NetMotion Diagnostics. No other vendor will be able to provide services for adding new Skyus-X devices to Crossroads or be able to support the software.

b. **If not, why were alternatives not evaluated?**

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

No other vendor can provide constructive training and support for existing FW equipment and diagnostic software. Any other vendors would require new equipment, software and training which would not be in the best interest.

What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

FW was contracted for the pilot phase of the project because they were the only ones that provided complete competitive pricing for all of the service and goods required to have a secure mobile data solution. Other bids turned in were incomplete. FW won the bid for goods for FY16 and now FY17. The amendment to contract is to finalize training in regards to their Skyus-X for new reasons and supporting diagnostic software.

MEMORANDUM

From: Bob Bennett
Executive Director

Date: August 16, 2017

Subject: Contract 18997 – Soto, Francisco

Please be advised that the above-referenced contract includes a retroactive effective date, e.g., work commenced prior to the Board of Examiners’ approval date. This is the result of the prior Chief Inspector stepped down from the position at the end of May 2016. Mr. Francisco Soto began transitioning into the role of Chief Inspector during this time.

The Commission unanimously appointed Mr. Soto to the Chief Inspector position at the June 21, 2016 meeting, and he began fully carrying out the duties of the position for the Commission in July 2016. Mr. Soto has been performing these duties in good faith, and his performance has exceeded the expectations of the Athletic Commission administration.

The delay in updating Mr. Soto’s contract upon his promotion to Chief Inspector is the result of an oversight on the part of the Nevada Athletic Commission. At the time of his promotion, Mr. Soto was already under contract at the rate of pay for a standard Inspector, and agency staff failed to realize that a new contract needed to be signed to provide for the salary increase associated with his new position. Upon approval of this new contract (#18997), Mr. Soto’s prior contract (#16870) will be cancelled.

We respectfully request that his contract be approved with the retroactive date. Thank you.

MEMORANDUM

September 13, 2017

TO: Colleen Murphy
Budget Analyst

FROM: Shannon Rahming, Enterprise IT Services, Department of Administration

RE: Retro Memo for Gartner

This is a request for a retroactive start date of October 1, 2017 for the Gartner, Inc. contract (CETS #19248). This is a work order request to a new state master service agreement that was approved at the September BOE meeting. This Gartner work order provides subscription based research services for IT executives.

A new master service agreement has been awarded but the delays have made it necessary to amend the current vendor contract to add additional time and money to continue these essential services while the new contract is approved by BOE at the October 10, 2017 meeting.

21. Contract term: 339 days
22. Type of contract: Contract
23. Contract description: Professional Devep
24. Purpose of contract:
   This is the second amendment to the original contract to provide training to Nevada school counselors in strategies to increase the participation of Career and Technical Education students in programs that lead to nontraditional careers. This amendment increases the maximum amount from $9,850 to $10,760 due to an additional half day of two different professional development services and increased travel cost due to the trainer availability.

II. JUSTIFICATION
7. What conditions require that this work be done?
Under the Carl D. Perkins Career and Technical Education Act there are performance indicators (6S1 & 6S2) for nontraditional student participation and completion of CTE programs. As requirement of the Perkins funding the state must meet or exceed set target levels. In order to continually meet and increase these performance indicators it is crucial that NDE provide professional development to our high school counselors to assist in meeting this requirement by encouraging and educating students to enroll in nontraditional programs that lead to high-skill, high-wage, and high demand careers. As the Title IX coordinator for the state, it is my responsibility to provide professional development to increase the participation of students in nontraditional career pathways, as mandated under Title IX of the Educational Amendments of 1972 prohibits sex discrimination in schools, especially in career and technical education.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
No one at the Department of Education has the expertise in the subject matter.

9. Were quotes or proposals solicited?
Yes
Was the solicitation (RFP) done by the Purchasing Division?
No

a. List the names of vendors that were solicited to submit proposals (include at least three):
- National Research Center for Career & Technical Education
- Southern Regional Education Board
- National Alliance for Partnerships in Equity, Inc.
- Education Policy Institute

b. Solicitation Waiver: Not Applicable

c. Why was this contractor chosen in preference to other?
The National Alliance for Partnerships in Equity (NAPE) is the standard bearer for professional development on improving nontraditional gender and underserved populations; access to and success in educational and training programs that lead to high-skill, high-wage, and high-demand careers.

d. Last bid date: Anticipated re-bid date:

   Division of Public and Behavioral Health

FROM: Tina Gerber Winn – Agency Manager
   Community Health Services

SUBJECT: REQUEST FOR RETROACTIVE START DATE OF CONTRACT – Elko County
   (CETS# 19366)

The purpose of this Interlocal Contract is to provide public health services to meet the health needs of rural and frontier communities. Due to unforeseen delays in the negotiation and revision process concerning deliverables and reimbursement rates charged to the County, this interlocal agreement will need to be approved retroactively.

We therefore request that this contract be accepted with a retroactive start date of July 1st, 2017.

If the attached contract is denied, the ability of Community Health Services, in collaboration with Elko County, to manage infectious diseases per (NRS 439.350, 439.360 and 441A) will be seriously impacted and/or unable to continue with the provision of services.

Thank you for your consideration in this matter.

THROUGH: Mark Winebarger
Administrative Services Officer IV
Division of Public and Behavioral Health

FROM: Tina Gerber-Winn
Agency Director
Rural Clinics

SUBJECT: REQUEST FOR RETROACTIVE START DATE OF CONTRACT – July 1, 2017 (CETS #19367)

This memorandum requests that the following Interlocal Contract C 16144 be approved for a retroactive start date effective July 1, 2017. This agreement was delayed due to the modifications made on Attachment A. Specifically, clarification of the number of and type of services to be provided by the ECHO clinic took several months to finalize due to scheduling conflicts and a change in assigned staff.

If a retroactive start date is not approved the professional working relationship with the University School of Medicine will be negatively affected by the perceived reversal of our negotiated service terms. Additionally, Rural Clinics staff will not have access to clinical guidance key to proper service provision and improvement of clinical skills that benefit the clients served.

Thank you for your consideration in this matter.

   If "Yes", please explain: Not Applicable

3. Termination Date: 09/30/2021
   Contract term: 3 years and 360 days

4. Type of contract: Contract
   Contract description: Website Redesigns

5. Purpose of contract:
   This is a new contract to provide redesign and maintenance/support services for DCNR/NDEP websites. The State Environmental Commission and the NV Recycles websites will be redesigned to be more consistent with other DCNR websites.

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: $45,000.00
   Other basis for payment: Services provided to be invoiced monthly

II. JUSTIFICATION
7. What conditions require that this work be done?
   The DCNR/NDEP websites are outdated and difficult for the public and regulated entities to navigate. The regulatory programs of the agency are complex and redesigned websites with cleaner navigation will assist businesses and the public. DCNR/NDEP would like to improve and centralize access to on-line services and provide accessibility for mobile users. In addition, for the website to be useful it must be kept current and DCNR/NDEP needs a platform which will allow easy updates by non-IT, program staff.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   Since the agencies websites contains a large amount of complex content, additional expertise is needed to develop the Website Redesign. Additional expertise is also needed to create the framework for the development of on-line forms as required by SB236 passed by 2013 Legislature

9. Were quotes or proposals solicited? Yes

5. Purpose of contract:

   This is a new contract for radio announcements to provide the public with information regarding the shortened Open Enrollment Period to purchase insurance through the health insurance exchange for plan year 2018. The Open Enrollment period runs from November 1, 2017 to December 15, 2017 for the 2018 plan year. Insurance plans sold during Open Enrollment are effective beginning January 1, 2018.

6. NEW CONTRACT

   The maximum amount of the contract for the term of the contract is: $30,000.00
   Other basis for payment: Invoice for airtime used.

II. JUSTIFICATION

7. What conditions require that this work be done?

   Nevada citizens may not be aware of the shortened time available for open enrollment for health insurance through the health insurance exchange. Without this information, Nevada's vulnerable citizens may not reenroll in time and be left without insurance coverage. DOI has a responsibility to ensure the public is informed of significant insurance developments.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

   The Division of Insurance does not have the resources to advertise on a statewide basis.

*Revision: November 2016*
Provide a description of work/services to be performed or commodity/good to be purchased:

This contract is for radio announcements to provide the public with information regarding the shortened Open Enrollment Period to purchase insurance through the health insurance exchange for plan year 2018. The Open Enrollment period runs from November 1, 2017 to December 15, 2017 for the 2018 plan year. Insurance plans sold during Open Enrollment are effective beginning January 1, 2018.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:

The Nevada Broadcasters Association (NBA) is a 501(c) 6 not-for-profit state association. The service that will be provided through this request is a statewide Non-Commercial Sustaining Announcement (CNCSA) campaign. Like Public Service Announcements (PSAs), NCSAs are informational/educational announcements broadcast by radio and television outlets within a selected broadcast area; unlike PSAs, NCSAs are aired by member broadcaster in their best available unsold time slots, offering the sponsoring agencies with a variety of exposures which often include prime or near-prime time.

This service allows NBA to provide $4 worth of airtime at a cost of $1 to the Division. It is in the State’s and public’s best interest to use this vendor due to the reduced rates which result in an increase in airtime. As stated in Attachment 'A', the Nevada Broadcasters Association (NBA) is a 501(c) 6 not-for-profit state association. The Association is the only Nevada resource for producing and airing Non-Commercial Sustaining Announcement campaigns.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

The Division is requesting this service from NBA since they are the only company in NV that provides this service.

Were alternative services or commodities evaluated? Check One. Yes: No: X

a. If yes, what were they and why were they unacceptable? Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

b. If not, why were alternatives not evaluated?

The Division has worked with NBA on past public awareness campaigns. DOI is familiar and satisfied with the quality and timeliness of NBA's work. And, given the short turnaround time for this project, DOI has complete confidence that the vendor will be ready to begin public announcements by the beginning date of the contract.

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation

Yes: X No:
waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

a. If yes, starting with the most recent contract and working backward, for the entire relationship with this vendor, or any other vendor for this service or commodity, please provide the following information:

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

Nevada citizens may not be aware of the shortened time available for open enrollment for health insurance through the health insurance exchange. Without this information, Nevada’s vulnerable citizens may not reenroll in time and be left without insurance coverage. DOI has a responsibility to ensure the public is informed of significant insurance developments.

What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

An internet search was conducted for Non-Commercial Sustaining Announcement (NCSA) Providers in the state of Nevada. Nevada Broadcasters Association is the only NCSA in the State. Television and radio broadcasters donate unsold airtime to NBA who then make that time available for public outreach. This significantly lowers the cost which will allow the Division an opportunity to reach a wider audience.

Will this purchase obligate the State to this vendor for future purchases? Before selecting your answer, please review information included on Page 2, Section 9 of the instructions.

a. If yes, please provide details regarding future obligations or needs.

II. JUSTIFICATION
7. What conditions require that this work be done?

The State of Nevada must maintain a clean facility for the safety and health of department clients and staff. This second amendment will extend the time necessary for a State contract for janitorial services to be completed by State Purchasing Division.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

The State of Nevada does not have the manpower to provide this service in-house.

9. Were quotes or proposals solicited? Yes

Was the solicitation (RFP) done by the Purchasing Division? No

a. List the names of vendors that were solicited to submit proposals (include at least three):

- G-3 Janitorial
- F.A.A.D. Janitorial
- J & L Janitorial

b. Solicitation Waiver: Not Applicable

c. Why was this contractor chosen in preference to other?

Three vendors submitted proposals at the time of the original contract. The Evaluation Committee determined this was the best vendor to provide the needed service.

d. Last bid date: 09/20/2013 Anticipated re-bid date: 03/01/2018

10. Does the contract contain any IT components? No

<td>This is the second amendment to the original contract and first amendment that provides ongoing janitorial services for the facility located in Carson City. This amendment extends the termination date from December 31, 2017 to June 30, 2018 and increases the maximum amount by adding $16,881.48 ($2,813.58 per month x 6 months) increasing the maximum contract from $135,051.84 to $151,933.32 due to the continued need for the services. The six month extension should allow enough time for the Division of Purchasing to complete the Request for Proposal for a state janitorial contract.</td>

### What is the justification to extend the contract term beyond the State’s four (4) year re-solicitation policy (SAM 0338):

State Purchasing Division is in progress of a statewide Request for Proposal (RFP) for janitorial services. The RFP has not been approved for release at this point in time. I emailed Gail Burchett who agreed with my concern of the RFP and recommended that I extend the contract out 6 months. The extension of time should be sufficient for the RFP process to be completed.

### What are the potential consequences to the State if the contract extension request is denied?

We will have no janitorial service and our building will become unsanitary.
By signing below, I know and understand the proposed contract extension exceeds the State's policy pursuant to SAM Section 0338 that contracts be solicited at least every four (4) years, and attest that all statements are true and correct.

Please consider this memo as my support of your request to extend the identified contract beyond the current State policy period. This exemption is granted pursuant to NRS 333.135 and SAM 0338 and may be rescinded in the event reliable information becomes available upon which the Purchasing Administrator determines the decision was based on incorrect or inaccurate facts. Pursuant to NRS 333.700(7), contracts for services do not become effective without the prior approval of the State Board of Examiners (BOE).

If you have any questions or concerns please contact the Purchasing Division at 775-684-0170.

Subject: BOARD OF EXAMINERS INFORMATION ITEM

The following describes an information item submitted for placement on the agenda of the next Board of Examiners meeting:

DEPARTMENT OF MOTOR VEHICLES – COMPLETE STREETS PROGRAM

Agenda Item Write-up:

Pursuant to NRS 482.480, Subsection 11, the Department of Motor Vehicles shall certify to the State Board of Examiners the amount of the voluntary contributions collected for each county by the department and its agents, and that the money has been distributed as provided in statute. This report is for the period beginning July 1, 2017 and ending September 30, 2017.

Additional Information:

During this time period the Department of Motor Vehicles collected $85,560 as compared to $84,358 for the same period last year and $89,033 collected last quarter. Of the amounts collected, approximately 77.4% was from Clark County, 16.5% was from Washoe County, 3.3% was from Carson City and 2.8% was from Douglas County. After deducting 1% to administer the program, Clark County received $65,587.50; Washoe County received $13,992.66; Carson City received $2,768.04 and Douglas County received $2,356.20.

For the first quarter of State Fiscal Year 2018, 13.8% is the average of those registering vehicles who contributed to the Complete Streets Program. This is a .5% reduction from the year to date total of 14.3% from State Fiscal Year 2017. For the first quarter of State Fiscal Year 2018, Clark County received on average 14.83% where Douglas County on average 10% of vehicle registrations donating.
Uses:

- Clark County funding is being utilized for the City of Mesquite Rectangular Rapid Flashing Beacon project and the City of Henderson Buffered Bike Lanes and Road Diet project.
- Douglas County is accumulating funds for the Tillman Lane Road Reconstruction project that will include bike lanes and ADA features.
- Washoe County funds will be used for the construction of the Oddie – Wells corridor multi-modal improvements.
- Carson City utilized funding for the Downtown Complete Street project and plans to accumulate funds for future projects.

Going forward future uses will be reported annually.

Mr. Paul Nicks, Budget Analyst
State of Nevada – Governor’s Finance Office
209 E. Musser Street, Room 200
Carson City, NV 89701-4298

Dear Mr. Nicks:

I am writing to provide the update for the 3rd Quarter of calendar 2017 on the RTC’s activities on projects funded with the Complete Streets Program funds (CSP funds).

During calendar year 2016, the RTC received a total of $242,947.98 in CSP funds from the DMV. Following the procedure described in the Q4 2015 report, the local jurisdictions met on November 24, 2016 and it was determined these funds will be allocated to the City of Henderson and the City of Mesquite for complete streets projects to be constructed during calendar 2017.

Interlocal contracts between the RTC and Mesquite and Henderson were executed at the February 9, 2017 RTC board meeting. The projects to be completed during calendar 2017 are summarized as follows:

1. **City of Mesquite Rectangular Rapid Flashing Beacon Project ($24,000.00 allocation).**

   The interlocal contract between the RTC and the city of Mesquite (COM) was executed on February 9, 2017, establishing RTC Project 191D-CSF. As of September 30, 2017 COM indicates Design is 100% complete with construction anticipated to be complete on or before November 30, 2017 as shown in Exhibit A.

2. **City of Henderson Buffered Bike Lanes/Road Diets Project ($218,947.98 allocation).**

   The interlocal contract between the RTC and the City of Henderson (COH) was executed on February 9, 2017, establishing RTC Project 191C-CSF. As of September 30, 2017 COH indicates that they chose Priority 2 - Cassia Way - American Pacific to Wigwam, as identified in RTC’s letter dated March 29, 2017. The project is a road diet consisting of
re-stripping with buffered bike lanes and on street parking. The project plans are 100% complete with construction start anticipated for October 2017 and project completion in March 2018 as shown in Exhibit B. The Engineer’s estimate (+/- $215k) for the project is consistent with the city’s allocation of the funding.

Finally, during Q3 2017 RTC received a total of $66,531.96 in CSP funds from the DMV as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>07/21/2017</td>
<td>$22,055.22</td>
</tr>
<tr>

<td>$22,106.70</td>
</tr>
<tr>
<td>09/13/2017</td>
<td>$22,370.04</td>
</tr>
<tr>
<td></td>
<td><strong>$66,531.96</strong></td>
</tr>
</tbody>
</table>

Q1, Q2 and Q3 receipts for calendar 2017 total $194,208.30. These funds will accrue until the end of 2017, at which time the local jurisdictions will meet to allocate the 2017 CSP proceeds to the complete streets project(s) to be constructed during 2018 as described in the Q4 2015 report.

RE: Complete Streets Program Fund

Dear Mr. Nicks:

In response to a letter received from the Director of the Governor’s Finance Office, Carson City is pleased to report on the use of funds received through the Department of Motor Vehicles’ (DMV’s) Complete Streets Program. On December 16, 2016, Carson City used all available funds of Carson City’s DMV Complete Streets Program funds on the City’s Downtown Complete Streets Project. Staff plans to let the funds accumulate for the near future, however, future Complete Streets projects are in development and would benefit from these funds.

Carson City is grateful to be a part of this program. Staff believes this is a very beneficial program that will continue to grow as the public sees more successful projects like the Downtown Carson Complete Street project. Please feel free to contact me at 283-7396 with any questions or concerns. Thank you.
