B&I - INDUSTRIAL RELATIONS

210-4680

PROGRAM DESCRIPTION

The Industrial Relations Division includes the Administrator's Office, the Workers' Compensation Section (WCS), and the Legal Section. The WCS regulates Nevada's workers' compensation programs to ensure that injured workers receive timely and accurate delivery of wage loss compensation, physical impairment compensation, medical compensation, and rehabilitation benefits through a comprehensive program of training, auditing, investigation, and enforcement. The WCS is also responsible for the regulation of private insurers, self-insured employers, associations of public and private self-insured employers, private workers' compensation carriers, third party administrators, managed care organizations, and health care providers. The WCS Compliance Unit enforces the statutory requirement that all employers with one or more employees maintain a policy of workers' compensation. In a non-regulatory capacity WCS oversees the administration of uninsured claims. The Administrator's Office and Legal Section provide general administration and legal support services to the operating units of Division of Industrial Relations. The Administrator's Office administers the provisions of law, and development of regulations and policies related to the sections of the division. Additionally, the legal section provides accurate and timely legal services to support all Division of Industrial Relations sections.

OSHA staff investigate employee safety and health complaints, employee discrimination complaints, and industrial accidents. Within the Occupational Safety and Health Enforcement budget, the Bureau of Labor Statistics unit collects and publishes statistics on Nevada workplace injuries, illnesses, and fatalities. The Mechanical Compliance Section Unit inspect boilers, elevators, pressure vessels, and all other related equipment.

B&I - WEATHERIZATION

101-4865

PROGRAM DESCRIPTION

The Weatherization Program works in combination with the federal Department of Energy's (DOE) Weatherization Grant Program, the state's Universal Energy Charge (tax), other state agencies, and the private sector to help low-income families improve energy efficiency for their homes, minimizing utility costs. Most funds are expended through subcontractors who are carefully trained and monitored in their efforts to test for weather-related air and water leakages in homes and multi-family projects of low income families. Once a dwelling unit is determined to need specific assistance, insulation, windows, doors, heaters, or water heaters are procured and installed. The staff conduct quality control audits, training programs, and assist in outreach efforts. Statutory authority: NRS 702.250.

BASE

This request continues funding for three positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

B&I - ATHLETIC COMMISSION

101-3952

PROGRAM DESCRIPTION

The Athletic Commission regulates all contests or exhibitions of unarmed combat, including the licensure and supervision of promoters, boxers, mixed martial artists, kick boxers, seconds, ring officials, managers, and matchmakers.

In 1941, the Nevada Athletic Commission was established by an act of the Nevada legislature. Since that time, the Commission has regulated professional unarmed combat (e.g., boxing, kick boxing and mixed martial arts/MMA) in Nevada. The conduct and regulation of unarmed combat in Nevada are governed by NRS Chapter 467, and are further clarified by the Regulations of the Commission (Chapter 467 of the Nevada Administrative Code). The Commission administers the state laws and regulations governing unarmed combat for the protection of the public and to ensure the health and safety of the contestants.

BASE

This request continues funding for five positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

B&I - MANUFACTURED HOUSING

271-3814

PROGRAM DESCRIPTION

The Manufactured Housing Division's principal responsibility is to ensure that manufactured homes, mobile homes, travel trailers, commercial coaches, manufactured buildings, and modular components are constructed and installed in a manner which provides reasonable safety and protection to owners and consumers (NRS 489). The division licenses the various professionals including manufacturers, dealers, responsible managing employees, salespersons, general servicemen, and specialty servicemen (NRS 489). The division investigates consumer complaints against licensees on service and products, including manufacturer home warranty issues. The division maintains mobile and manufactured home title records, issues certificates of ownership, and conversions to real property, and property liens (NRS 489).

Revenue for this budget is generated by user fees including licensing fees to industry professionals, fees charged for issuance of certificates of ownership, liens, conversions to real property and title searches. The division also receives revenues from the installation of safety seals for inspections of mobile and manufactured homes, commercial coaches, and factory-built housing, manufacturing, construction and/or modification plan review, and non-grant federal (H.U.D) funds.

BASE

This request continues funding for ten positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Landlord/Tenant program handles complaints and disputes between the landlord/owner and the tenants who rent space but own their own manufactured home. Complaints range from improper eviction notices, violation of park rules and regulations, unequal enforcement of park rules, and lease agreements. The program is supported by annual fees paid by the park owners per NRS 118B.185. Fees are collected based on the number of spaces in the park at \$5.00 per space, less spaces with park-owned homes.

GOED - GOVERNOR'S OFFICE OF ECONOMIC DEV
101-1526

PROGRAM DESCRIPTION

The Nevada Governor's Office of Economic Development (GOED) works to diversify and strengthen the state's economy by: attracting companies, subsidiaries, and divisions to locate into the state; assisting in the retention and expansion of existing Nevada companies; and helping new companies to start up in the state. GOED works closely with regional development authorities to identify, pursue, and achieve the goals of the GOED State Economic Development Plan released in February 2012. The GOED Plan focuses on seven sectors: aerospace and defense, energy, healthcare information technology, hospitality, tourism, and logistics and operations. Through the plan, GOED is also tasked with expanding global exports and foreign investment. To build the workforce required today and tomorrow, GOED closely collaborates with the Department of Education, Training and Rehabilitation; the Nevada System of Higher Education; and other organizations to identify opportunities to expand Nevada's workforce and provide the qualified people needed by the state's businesses.

BASE

This request continues funding for thirty positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Nevada Procurement Technical Assistance Center (PTAC) Procurement Outreach Program (POP) under the Governor's Office of Economic Development (GOED) provides assistance to Nevada businesses to enable them to identify potential contractual opportunities with federal and/or state and local governments, government prime contractors, and to obtain or perform under contracts with these entities. Specialized assistance from POP may include locating marketing opportunities for Nevada businesses, educating clients about electronic commerce with government entities, various registrations and certification requirements, as well as bid/proposal preparation for submission to government entities. The result is creating jobs for Nevadans through businesses successfully contracting with government. This will bring federal dollars to the state and/or keep local tax dollars in Nevada. Statutory Authority: NRS Chapter 231 and Title 10 USC Chapter 142.

BASE

This request continues funding for six positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

GOED - NEVADA SSBCI PROGRAM

101-1521

PROGRAM DESCRIPTION

On September 27, 2010, President Obama signed into law the Small Business Jobs Act of 2010 to help increase credit availability for small businesses. The Act created the State Small Business Credit Initiative and appropriated \$1.5 billion to be used by the US Department of the Treasury to provide direct support to states for use in programs designed to increase access to credit for small businesses. Pursuant to the Act, Treasury allocated funds to all fifty states according to a statutory formula that takes into account a state's job losses in proportion to the aggregate job losses of all states. Under the Act, each state or territory was guaranteed a minimum allocation of 0.9 percent of the \$1.5 million.

Nevada's allocation was \$13.8 million, with \$525,000 available for administration of the program. The funding must be drawn down in three tranches of \$4.6 million. Each tranche includes a specific amount of available administrative funding - \$227,000 for start-up and the first tranche, and \$137,000 each for tranches two and three. Additionally, revenue generated through filing fees, loan interest, treasurer's interest, and penalties, are available to fund administrative cost.

The program currently consists of three initiatives:

1. Credit Support Program - allows cash collateral up to 35% of a loan to a qualified business to be placed on account at the lending institution. This cash collateral may be drawn upon, on a proportional risk basis with the bank, in the event of default.
2. Battle Born Venture Fund - provides equity and equity-like funding to start-up and growing companies. Companies must have sales to qualify.
3. Micro-Enterprise Lending - provides loans, with a required 1:1 match from private sources, to very small businesses.

At the end of 2017, the US Treasury will transfer the program to state ownership.

GOED - NEVADA KNOWLEDGE FUND
101-1533

PROGRAM DESCRIPTION

The Knowledge Fund was created through the passage of AB 449 during the 2011 Legislative Session in conjunction with the restructuring of Nevada's economic development. The purpose of the Knowledge Fund is to spur research and the commercialization of that research in areas in which the state has targeted for economic growth. Commercialization in knowledge-based industries creates high-paying jobs that support families and generate tax revenue.

The fund is an investment in the state's economic future and provides grants of funds in five allowable areas, including:

1. Establishing technology outreach programs throughout the state;
2. Recruiting, hiring, and retaining research teams and faculty;
3. Research laboratories and related equipment;
4. Construction of research facilities; and
5. Matching funds for federal and private sector grants and contract opportunities.

BASE

This request continues funding for associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The primary mission of the Nevada Division of Tourism is to generate revenue for the State of Nevada through tourism activities that encourage overnight stays. Tourism accomplishes this through administering a strategic integrated marketing plan that consists of a robust research program measuring visitation and identifying salient consumer purchase behavior; public relations, public affairs and social media outreach; traditional and digital advertising and customer engagement programming including customer relationship management, fulfillment and call center operations; web and mobile application development; domestic and international sales, including a presence at key consumer and travel trade shows; and grants and educational programs and conferences designed to enhance business opportunities for Nevada's tourism industry. Statutory Authority: NRS 231.160 to NRS 231.360.

TOURISM - NEVADA HUMANITIES

101-2894

PROGRAM DESCRIPTION

Nevada Humanities is a non-profit, nationally-recognized program that works in partnership with local communities to develop and fund humanities activities and educational programs. Established under provisions contained in the federal legislation creating the National Endowment for the Humanities, Nevada Humanities creates an environment conducive to economic development, heritage tourism, and quality education by fostering humanities activities such as lectures, exhibits, publications, book festivals, historic performances, teacher institutes, documentary films, interpreted art presentations, and a humanities grants program. After four consecutive biennia of legislative provision of one-shot funding to support a southern Nevada office, the 2005 Legislature converted the one-shot funding request to an ongoing appropriation.

BASE

This request continues funding for a private, non-profit organization engaged in the implementation and support of activities and studies in the humanities. Nevada Humanities uses these funds to partially support the operations and staffing of its southern Nevada office and humanities programs implemented in southern Nevada.

PROGRAM DESCRIPTION

The Lost City Museum in Overton, Nevada located near the Moapa Paiute Indian Reservation, serves the public by studying, preserving, and protecting ancient puebloan sites and artifacts found in the Moapa Valley area, and interpreting these collections through exhibits, public programs, and publications. The Lost City Museum facility is itself an artifact, a Civilian Conservation Corps reproduction of an adobe pueblo dwelling complex and is preserved for future generations. An active archaeological program sponsors pottery workshops and other educational programs as well as occasional archeological digs. Interior and exterior exhibits on the grounds attract numerous tourists interested in topics relating to the Anasazi Pueblo complex, other early Native American cultures of southern Nevada, and the later history of the Moapa Valley, including Mormon settlement, mining, and railroads. The museum serves regional audiences of Native Americans, youth, students, families, adults, and a wide-reaching network of scholars and researchers interested in Native American cultures. Statutory Authority: NRS 381.

When needed, the funds will be transferred to the Division of Health Care Financing and Policy and used to pay the state's share of the cost for the Private UPL Supplemental Payment Program.

HHS-DO - GRANTS MANAGEMENT UNIT

101-3195

PROGRAM DESCRIPTION

The Grants Management Unit consolidates the function and management of grant programs that pass funds through to community level and state sub-recipients. This unit was created to ensure the standardization of procedures, simplification of accounting, and co-location of staff. The efficiencies realized allow the department to use fewer funds for administrative purposes and to pass more funds to grantees providing direct services. Grantees have also benefited from the standardized procedures used to request funding.

BASE

This request continues funding for nine positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DHHS - AGING AND DISABILITY SERVICES DIVISION - The Aging and Disability Services Division (ADSD) provides leadership and advocacy in the planning, development and delivery of a high quality, comprehensive support service system across the lifespan to allow all of Nevada's elders, children and adults with disabilities or special health care needs, to live independent, meaningful, and dignified lives in the most integrated setting appropriate to their needs.

Division Budget Highlights:

- 1. Autism Treatment Assistance Program (ATAP)** - ATAP has experienced significant growth as more and more children have been diagnosed with Autism Spectrum Disorders. As such, ADSD is requesting a caseload growth increase to support services to an additional 264 children over the biennium to serve a total of 836 by end of fiscal year 2017.
- 2. Caseload Growth for Developmental Services** - The three Developmental Services agencies request increased caseload growth funding to serve an additional 915 persons and lower existing waitlists.
- 3. Caseload Growth for Aging Services** - The Division requests increased funding for community based services that keep seniors and persons with disabilities out of institutions by supporting them in community based settings. This request will allow ADSD to serve an additional 132 persons over the biennium.
- 4. Provider Rate Increase** - ADSD requests a rate increase for providers of Developmental Services. Providers have not received a rate increase in many years and this will serve as a first step to alleviate the difficulties providers face to appropriately and safely serve consumers and remain in business.
- 5. Consolidate Services for Persons with Disabilities** - ADSD and DHCFP request the transfer of the Waiver for Independent Nevadans (WIN) to ADSD. This will allow for greater consistency in service delivery to persons with disabilities and will also allow for all the Medicaid Waiver programs to be managed under ADSD.

E282 EDUCATED AND HEALTHY CITIZENRY

This request funds an update to the expired Strategic Plan for Senior Services and the expired Strategic Plan for Persons with Disabilities (SPPD). These plans are used for the development of service program revisions and additions that are congruent with identified current needs and that allow for service provision in the community rather than in an institution. The SPPD is also used to develop Nevada's Olmstead Plan, which assures compliance with the Americans with Disabilities Act, and addresses the state's need to avoid or remedy discrimination caused by unnecessary segregation and institutionalization.

PROGRAM DESCRIPTION

The mission of the Aging and Disability Services Division is to ensure the provision of effective supports and services to meet the needs of individuals and families, helping them lead independent, meaningful and dignified lives. This budget account includes the Disability Services unit, Community Based Care, and Elder Protective Services. The Disability Services unit provides resources at the community level that assist people with severe disabilities and their families in helping them to live as independently as possible, and to live in an integrated setting. Programs within this unit include the Assistive Technology for Independent Living, the Communication Access Program for persons who are Deaf or hard of hearing, and the Autism Treatment Assistance Program. The Community Based Care unit provides service to those seniors and persons with disabilities most at risk through the Home and Community Based Waiver for the Frail Elderly, Community Service Options Program for the Elderly, Homemaker Program, and Personal Assistance Services to provide alternatives to nursing home placement. The Elder Protective Services Program, which is part of the Elder Rights Unit, receives and investigates reports of abuse, neglect, self-neglect, exploitation, and isolation of persons aged sixty years and older.

HHS-ADSD - EARLY INTERVENTION SERVICES

101-3208

PROGRAM DESCRIPTION

Early Intervention Services are provided to children from birth to their 3rd birthday who have known or suspected developmental delays in the areas of cognition, communication, physical development (including vision and hearing), social and emotional development and/or adaptive skills as required by Part C of the Individuals with Disabilities Education Act. Services may include, but are not limited to, service coordination; occupational, physical and speech therapy; vision and hearing services; specialized instruction; parent support; assistive technology; pediatric diagnostic evaluations; nutritional services; and family training and counseling. Services are primarily provided in the home, child care and preschool settings, and/or Early Head Start programs. In collaboration with Maternal Child Health and local hospitals, early intervention state programs provide follow-up developmental and pediatric services for hospital neonatal intensive care nurseries and follow-up hearing evaluations for the newborn hearing screening program. Early intervention personnel provide administrative and physician support for specialty clinics for children in the areas of genetic disorders, metabolic disorders, and craniofacial anomalies. Nevada Early Intervention Programs provide early intervention services in all of Nevada's seventeen counties. Regional offices are located in Reno, Carson City, Winnemucca, Elko, Ely and Las Vegas. In 2006, a public/private partnership was initiated and has expanded to five private community partners serving the Las Vegas area and four private community partners serving the Reno/Sparks/Carson City areas.

BASE

HHS-ADSD - FAMILY PRESERVATION PROGRAM

101-3166

PROGRAM DESCRIPTION

The Family Preservation Program provides financial assistance on a monthly basis to low-income families residing in Nevada who are providing care in their home for family members with profound or severe intellectual disabilities. Also covered are children under six years of age who have developmental delays that require support equivalent to that required by a person with profound or severe intellectual disabilities or a related condition. The purpose of this assistance is to help offset expenses necessary to meet the special needs of the person with intellectual disabilities and to help strengthen and support families, thereby keeping families intact and reducing the need for out-of-home placement. Families use assistance payments to obtain specialized supplies or equipment (wheelchairs, clothing, diapers, therapy services, special diets, transportation services) and general income supplementation. Statutory Authority NRS 435.365.

BASE

This request continues funding for program operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DHHS - HEALTH CARE FINANCING & POLICY - The mission of the Nevada Division of Health Care Financing and Policy is to purchase and provide quality health care services to low-income Nevadans in the most efficient manner; promote equal access to health care at an affordable cost to the taxpayers of Nevada; restrain the growth of health care costs; and review Medicaid and other state health care programs to maximize potential federal revenue.

Division Budget Highlights:

- 1. **Medicaid Management Information System (MMIS)** - This Technology Investment Request replaces the core MMIS claims processing system to allow for claims processing, more efficient system revisions and updates, and scalable peripheral systems including a data warehouse for the Department of Health and Human Services data consolidation.
- 2. **Medicaid Expansion/Affordable Care Act** - Medicaid expansion allows a projected 147,000 newly eligible beneficiaries to receive health care services payable by Medicaid with a total served population approaching 600,000. General Fund savings will increase as Medicaid expands as a pay source for physical and behavioral health services.
- 3. **Applied Behavioral Analysis** - Staff has worked with statewide stakeholders to develop a program to meet the needs of children under 21 with autism spectrum disorder (ASD). Estimated projections are that nearly 6,000 children in Nevada have ASD and of those approximately 1,800 will be eligible for this benefit through Medicaid.
- 4. **Provider Rate Increases** - Rate increases include home health nursing services and inpatient hospital care. Also included is a proposal for physicians, physician assistants, and advanced practitioners of nursing to use a more current Medicare rate, adjusting some rates down while increasing reimbursement for primary care.

HHS-HCF&P - INTERGOVERNMENTAL TRANSFER PROGRAM

101-3157

PROGRAM DESCRIPTION

The Intergovernmental Transfer (IGT) account collects payments from counties to be used as state matching funds for Medicaid expenditures, thus reducing the need for state General Fund appropriations. Payments are collected from Clark and Washoe counties in support of supplemental Disproportionate Share Hospital (DSH) payments to hospitals. DSH payments support facilities that serve a disproportionate share of Medicaid, indigent, or other low-income patients. This reduces the burden of uncompensated costs for these facilities. The IGT also collects payments from counties to support supplemental Upper Payment Limit (UPL) payments to providers for inpatient and outpatient hospital services, Graduate Medical Education and mental health services. The UPL program allows supplemental payments to certain providers to fill the gap in payments from what Medicaid reimburses compared to the upper payment limit of what the Medicare program reimburses. In addition, revenues to support the non-federal share of Medicaid costs such as School Based Services and non-emergency para-transit transportation services provide by local government providers. The proceeds are deposited to this account and transferred as needed to Nevada Medicaid, budget account 3243, medical payments, and to Health Care Financing and Policy, budget account 3158, for related administrative costs, to Nevada Check Up (NCU), budget account 3178 for NCU medical expenditures. The remainder, if any, is balanced forward to reserve.

Statutory authority: NRS 422.380 through 422.390 and the Nevada State Plan under Title XIX of the Social Security Act.

BASE

This request continues funding for categorical expenditures with revenues from county and local governments used as state matching funds for Medicaid expenditures thus reducing the need for General Fund appropriations.

HHS-HCF&P - INCREASED QUALITY OF NURSING CARE

101-3160

PROGRAM DESCRIPTION

The 2003 Legislature instituted a Long-Term Care provider tax on freestanding long term care facilities to increase the quality of long-term nursing care in Nevada. The tax rate is based on 6% of net patient revenues (42 CFR 433.68). The proceeds of the tax are deposited to this account and then transferred, as needed, to Nevada Medicaid, budget account 3243, to make monthly supplemental payments to skilled nursing facilities caring for Medicaid recipients, up to one percent to Health Care Financing & Policy Administration, budget account 3158, for administrative costs; and the remainder is balanced forward to reserve. Statutory authority: NRS 422.3755 through 422.379.

BASE

This request continues funding for categorical expenditures by collecting long-term care (LTC) provider tax payments on freestanding LTC facilities to increase the quality of long-term nursing care in Nevada.

The Nevada Check Up Program is a stand-alone program. It is not an entitlement program nor is it part of the Medicaid Program. Families are assessed quarterly premiums based on family size and income. Statutory Authority: NRS 432A.300, NRS 422, Federal Title XXI of the Social Security Act, and Section 43 of the Code of Federal Regulations.

BASE

This request continues funding for medical service costs.

HHS-HCF&P - NEVADA MEDICAID, TITLE XIX

101-3243

PROGRAM DESCRIPTION

This budget account represents Medicaid medical costs for the Division of Health Care Financing and Policy as authorized by Federal Title XIX of the Social Security Act. The mission of the division is to purchase quality, accessible, and economical health care services for eligible Nevadans. Federal regulations define mandatory recipient groups to be covered; Nevada generally covers only those mandatory groups. The Welfare and Supportive Services Division and the Department of Health and Human Services, Director's Office provide caseload forecasts. Cost-per-eligible data is produced from the Medicaid Management Information System and is based on paid medical claims history. This data is factored with the caseload projections to produce budgeted medical expenditures. DHHS - PUBLIC AND BEHAVIORAL HEALTH - The mission of the Division of Public and Behavioral Health is to protect, promote and improve the physical and behavioral health of the people in Nevada.

Division Budget Highlights:

- 1. Medicaid Managed Care** - Reimbursable services provided to Medicaid managed care clients were expanded to include inpatient services at a per diem rate of \$625 per day, saving the state approximately \$27 million in General Fund appropriations over the 2015-2017 biennium.
- 2. Newborn Screening Services Provided in Nevada** - In the past, an out-of-state laboratory provided newborn screening services for serious inherited conditions and diseases in newborns. Because the University of Nevada now provides screenings, fee revenues of nearly \$2.5 million per year will remain in Nevada.
- 3. Governor's Behavioral Health and Wellness Council** - To help support the recommendations made by the Governor's Behavioral Health and Wellness Council, the budget includes nearly \$2 million in tobacco settlement funds for the Mobile Outreach Safety Team, the Community Triage Center and the Mental Health Court for the upcoming biennium.
- 4. Stein Hospital Revitalization** - The budget includes \$20.1 million to expand forensic mental health services in southern Nevada. In 2014, funding was provided to add forensic beds to the Stein Hospital. Additional beds will reduce the number of people waiting in emergency rooms for admission to Rawson-Neal Hospital.

Activity: Fiscal/Accounting/Budget

Fiscal Services supports all accounting, contracting, purchasing, budgeting and fiscal management. Public and Behavioral Health has twenty-eight budget accounts included in the Executive Budget.

PROGRAM DESCRIPTION

Environmental Health Services (EHS) involves those aspects of public health concerned with the factors, circumstances, and conditions in the environment or surroundings of humans that can exert an influence on health and well-being. The EHS section uses tools such as permitting, management, education, enforcement, consultation, and emergency response for the purpose of preventing environmental health hazards, the promotion and protection of the public health and the environment in the following areas: food protection; bottled water plants and distributors; cosmetic plants; public accommodations; recreational vehicle parks; institutional environmental health; recreational swimming areas and waters; solid and liquid waste management; onsite septic systems; water sanitation; and emergency preparedness. All food-borne illness complaints are investigated, as well as truck wrecks and fires that involve food and drugs. Services and public education are provided throughout the state in a variety of fields including sanitation courses for food service workers and managers. Offices are located in Carson City, Elko, Winnemucca, Ely, Fallon, and Las Vegas.

This program assures safe food and healthful public facilities and institutions, creating a foundation of public confidence that encourages economic development. School students are assured a healthful environment in which to focus their educational achievement; visitors are assured of their health and safety, thus encouraged to come to Nevada to take part in gaming and non-gaming business, and tourist-related industries. Statutory Authority: NRS 432A, NRS 439, NRS 445A, NRS 446, NRS 447, NRS 449, NRS 583, and NRS 585.

PROGRAM DESCRIPTION

The mission of the HIV/AIDS Prevention and Care Program is to work with local health authorities and the general public to prevent and control HIV/AIDS in Nevada. The program consists of the following: HIV Prevention, Ryan White CARE Act Part B, AIDS Drug Assistance Program, and Housing Opportunities for People with AIDS (HOPWA). The program's functions are achieved through collaborative relationships with public and community-based organizations, local health authorities, community members, and other key stakeholders. Primary activities of HIV Prevention include the coordination of statewide HIV community planning and the development of an annual comprehensive HIV prevention plan; provide training and technical assistance to local health authorities and community-based organizations that offer screening and testing; provide risk reduction education and counseling; drug treatment; and other community-based wellness activities. Additionally, the HIV Prevention Program is tasked with ensuring that new Center For Disease Control HIV prevention strategies and initiatives are implemented statewide. This ensures that Nevadans are receiving the latest behavioral interventions available.

Primary activities of the Ryan White CARE Act Part B program include the providing of HIV/AIDS medications and community-based services to individuals infected and affected with HIV/AIDS. Medications, treatments, and other services are provided through agreements with community-based organizations, pharmacies, and HIV/AIDS specialty clinics. Program income consists of 340B drug rebates received on drugs purchased and is used to support the program. This program income remains with the sub-grantee and is added to resources committed to the project to further objectives and cover program costs. HOPWA provides housing assistance and supportive services for individuals living with HIV/AIDS. HOPWA funding is utilized to establish, coordinate and develop housing assistance resources or to acquire, maintain or repair facilities. Services are provided through a contract with a community-based organization. Statutory Authority: NRS 441A and NRS 439.

HHS-DPBH - PUBLIC HEALTH PREPAREDNESS PROGRAM

101-3218

PROGRAM DESCRIPTION

This budget includes multiple programs that perform the following activities: preparation for and management/mitigation of the response to public health emergencies caused by naturally-occurring disasters or terrorism; primary care health planning and provider recruitment and retention; and emergency medical systems response. These activities are accomplished through combined health care planning, health care systems, and response efforts of various disciplines across the State of Nevada, such as public health, primary care, emergency management, community services, the health care community, law enforcement, etc. To ensure consistency with the National Preparedness Response Framework, all activities and capabilities are being developed to be National Incident Management System (NIMS) compliant.

The purpose of these programs is to improve Nevada's public health infrastructure in order to be better prepared to respond to public health emergencies, including natural and man-made disasters, and to bring medical resources to the State's Health Professional Shortage Areas. These resources are critical in protecting the life, health, and safety of Nevada's citizens and visitors.

The budget receives its funding from federal grants awarded by the Centers for Disease Control and Prevention, the Assistant Secretary for Preparedness and Response, Health Resources and Services Administration, and the Department of Homeland Security. It also receives fees for the Conrad 30/J-1 Physician Visa Waiver Program and Certificate of Need for Health Facilities.

Statutory Authority: NRS 414, NRS 439, NRS 439A, NRS 440, NRS 441A, and NRS 442.

BASE

This request continues funding for twenty-one positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

HHS-DPBH - BIOSTATISTICS AND EPIDEMIOLOGY

101-3219

PROGRAM DESCRIPTION

The Biostatistics and Epidemiology budget account serves the Division of Public and Behavioral Health (DPBH) Office of Public Health Informatics and Epidemiology (OPHIE). The mission of the OPHIE is to conduct disease surveillance, investigate disease outbreaks, and provide quality, timely, and relevant data and statistics to supportive public health stakeholders.

To carry out this mission, the OPHIE records and analyzes reportable disease information; analyzes data from disease investigations; identifies risk factors; provides education and recommendations on disease prevention; and, works in conjunction with appropriate agencies to enforce communicable disease laws. Staff in the OPHIE also performs data management, quality assurance, analysis, and reporting in a broad spectrum of public health areas.

The OPHIE houses many core public health datasets, including communicable disease (HIV, STD, TB, and others) registries, births, deaths, fetal deaths, abortions, marriages, divorces, and others. Common elements between databases enable matching or linking of these databases in order to provide newly accessible and standardized information for analytical and programmatic purposes. Extracted databases derived from each database and linked databases are available for statistical data analysis. Analyses are compiled in a variety of reports, which are posted on the DPBH website, making the data available for program evaluation and planning and policy development.

Statutory Authority: NRS 439 and 441A

HHS-DPBH - CHRONIC DISEASE

101-3220

PROGRAM DESCRIPTION

There are six long-term programs/funding sources in this budget account: Preventive Health and Human Services Block Grant, Women's Health Connection, Comprehensive Cancer Control, Colorectal Cancer Screening Program, Tobacco Prevention and Education, and Diabetes Prevention and Control Programs. Two new programs were added in state fiscal year 2012 for Chronic Disease Prevention and Health Promotion. The Coordinated Chronic Disease Prevention and Health Promotion Program strives to enhance program capacity and integration. The 2013 Legislature approved the transfer of the Oral Health Program (OHP) from Maternal Child Health Services to integrate and align with Chronic Disease Management and Activities. OHP is a vital part of the Chronic Disease Program mission.

BASE

This request continues funding for twenty-one positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Community Health Services (CHS) provides public health services in fourteen of Nevada's rural counties. Eleven of these counties have community health services clinics; Elko, Eureka, and Storey Counties have Federally Qualified Health Centers (FQHC) but no CHS clinics. CHS provides public health preparedness (PHP) coverage and epidemiology assistance in twelve counties; Lyon and Douglas Counties began receiving their PHP and epidemiology coverage by Carson City Health and Human Services in the fall of 2011. Essential public health nursing services include adult and child immunizations, Early Periodic Screening Diagnosis and Treatment examinations, including lead testing; family planning, cancer screening, and identification/treatment of communicable diseases such as Tuberculosis, Sexually Transmitted Infections and Human Immunodeficiency Virus (HIV). Lincoln and Esmeralda county Community Health Nurses function as the school health nurse in those rural districts without school nurses.

BASE

This request continues funding for twenty-nine positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

HHS-WELFARE - TANF

PROGRAM DESCRIPTION

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) replaced the entitlement for Aid to Families with Dependent Children (AFDC) with a Temporary Assistance for Needy Families (TANF) block grant covering cash assistance, employment and training activities and other activities meeting the four goals of TANF:

1. Provide assistance to needy families so children may be cared for in their homes or in the homes of relatives.
2. End the dependence of needy parents on government benefits by promoting job preparation, work and marriage.
3. Prevent and reduce the incidence of out-of wedlock pregnancies.
4. Encourage the formation and maintenance of two-parent families.

Although significantly curtailed by the Deficit Reduction Act of 2005, PRWORA gave Nevada the flexibility to design its own self-sufficiency program to assist recipients in finding and keeping jobs. The program uses elements such as capped funding, work requirements and time limits on program eligibility to limit long-term dependency.

There are currently three different types of TANF benefit programs offered to new applicants:

1. New Employees of Nevada (NEON)
2. Child Only for households containing no-work eligible individuals
3. Temporary Program (TEMP) providing short term assistance limited to an episode of need as a result of unforeseen circumstances, which includes a natural disaster such as a flood, earthquake, etc.

TANF is federally funded through a block grant from the Department of Health and Human Services. The annual federal TANF block grant is \$43.7 million and is anticipated to remain at that level. Under the Maintenance of Effort (MOE) provision in the federal regulations, states are required to contribute money equal to 80% of the amount spent AFDC and AFDC-related programs during fiscal year 1994. The 80% MOE can be reduced to 75% for each year the work participation rates are met. For Nevada, the total TANF MOE is \$27.2 million of which \$24.6 million is in the TANF budget account. The remaining \$2.6 million is spent in Child Care, budget account 3267, which is counted as MOE for both TANF and Child Care.

The TANF program mandates the state to participate in a Child Support Enforcement Program (CSEP), which is funded through budget accounts 3238 and 3239.

Statutory Authority: NRS 422A.

HHS-WELFARE - ASSISTANCE TO AGED AND BLIND

101-3232

PROGRAM DESCRIPTION

The State Supplemental Assistance Program provides an additional payment to low-income aged and blind individuals; receiving Supplemental Security Income (SSI), and provides adult group care facilities with a greater supplement to assist recipients in avoiding or delaying institutionalization. The federal government started the SSI program on January 1, 1974. The program is administered by the Social Security Administration (SSA), and states were given the option to make payments in addition to the amount paid by the federal government. Nevada has paid a state supplement to the aged and blind since the start of the program. The prevention of, or delay in, institutionalization results in cost savings for the Medicaid program.

The Division of Welfare and Supportive Services contracts with the SSA to determine eligibility and issue the state supplement. States pay a per check charge for each SSI payment made. The state supplement and federal payment are paid monthly to the recipient and combined in one check from the SSA.

Statutory Authority: NRS 422A.

PROGRAM DESCRIPTION

The Field Services budget provides staff salaries and operating expenses for the various programs administered by the Division of Welfare and Supportive Services (DWSS). This budget account primarily consists of Family Services Specialists who determine eligibility for the major program areas which include: Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), and various medical programs including Medical Assistance to the Aged, Blind and Disabled. Family Services Specialists and Social Workers provide employment and support services to assist the needy in overcoming barriers to self-sufficiency.

The federal government mandates specific quality and performance measures for eligibility, client support and periodic reviews of client circumstances. The state is subject to penalties in the form of grant reductions for non-compliance with the performance measures. If penalized, the state is required to replace the grant reductions with General Fund appropriations restoring the available program funding to the pre-penalty level. Additionally, program integrity and fraud protection is an integral part of Field Service responsibility.

Field Services is required to provide service and appropriate eligibility to anyone seeking access to DWSS administered programs. All requests are provided a consistent level of quality service.

Statutory Authority: NRS 422A.

BASE

This request continues funding for 1,432.51 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

HHS-WELFARE - CHILD SUPPORT ENFORCEMENT PROGRAM

101-3238

PROGRAM DESCRIPTION

The mission of the Child Support Enforcement Program (CSEP) is to help strengthen families and reduce welfare dependency by ensuring parents live up to the responsibility of supporting their children.

CSEP promotes the well-being of children, strengthens families, and reduces the demand on public treasuries by securing support from legally responsible parents in conjunction with the Temporary Assistance for Needy Families (TANF) mandate for the state to participate in CSEP.

In Nevada, this program is administered by the Division of Welfare and Supportive Services (DWSS) and jointly operated with participating county district attorneys' offices through cooperative agreements. CSEP provides five basic services:

- 1) Location of absent parents;
- 2) Establishment of parentage;
- 3) Establishment of child support and medical support orders;
- 4) Enforcement of child support and medical support orders;
- 5) Collection and disbursement of child support and medical support payments.

Funding is matched 34% by the state and participating counties and 66% by the Federal Child Support Enforcement Grant. The 34% state share is funded through State Share of Collections (SSC). The SSC is the amount of TANF dollars allowed to be retained by the state according to federal rules, which are collected through assigned child support payments.

Statutory Authority: NRS 425.

BASE

HHS-WELFARE - CHILD SUPPORT FEDERAL REIMBURSEMENT

101-3239

PROGRAM DESCRIPTION

The Child Support Federal Reimbursement budget account is used to pass through federal payments to participating district attorneys' offices for the federal share of costs and incentive payments associated with their local child support enforcement programs. Currently ten of the seventeen Nevada district attorneys participate in the program under contract to provide intake, location of non-custodial parents, paternity establishment, financial and medical support order establishment, and other enforcement activities. The Child Support Federal Reimbursement budget account was created in the 1999 budget process to separate the child support program's state administrative costs in budget account 3238 from the pass-through of federal funds to the local district attorneys.

Statutory Authority: NRS 425.

HHS-WELFARE - CHILD ASSISTANCE AND DEVELOPMENT

101-3267

PROGRAM DESCRIPTION

The Child Care Assistance and Development Program (CCDP) provides assistance to Nevada's low-income families in paying for their child care needs. These services assist people to become and remain self-sufficient, thereby reducing long-term dependency and the associated expenditures to public assistance programs.

The CCDP is administered by the Division of Welfare and Supportive Services with service delivery accomplished by Children's Cabinet in northern Nevada and the Las Vegas Urban League in southern Nevada. The Child Care and Development Fund includes the following child care programs:

- 1) New Employees of Nevada (NEON) program - provided to current Temporary Assistance to Needy Families (TANF) clients who are participating in various NEON components such as orientation, education and vocational training, employment seeking and work participation.
- 2) At-Risk - provides child care payments for non-TANF clients who are income eligible for TANF.
- 3) Discretionary - provides child care and related payments for non-TANF eligible clients.

Statutory authority: NRS 422A.

BASE

HHS-WELFARE - ENERGY ASSISTANCE PROGRAM

101-4862

PROGRAM DESCRIPTION

The mission of the Energy Assistance Program (EAP), formerly known as Low Income Home Energy Assistance (LIHEA), is to assist eligible Nevada citizens in meeting their heating and cooling needs.

The EAP provides payments for eligible households, which can be applied to either the heating provider, the cooling provider, or split between the two. In addition, the EAP program provides arrearage assistance to eligible households affording them the opportunity to use their annual EAP benefit allotment as a subsidy to meet monthly heating/cooling costs. EAP payment funding is provided by the Low Income Home Energy Assistance block grant and through the Fund for Energy Assistance and Conservation, budget account 6031, which was created as a result of legislation approved during the 2001 Legislative Session to collect a Universal Energy Charge (UEC) from certain electric and gas utilities.

Statutory Authority: NRS 422A and 702.

Services include shelter, crisis phone access, emergency assistance, advocacy, hospital accompaniment, and counseling. Viable programs are sustained in all seventeen Nevada counties with trained staff and volunteers. The Division of Child and Family Services has responsibility for monitoring domestic violence programs to ensure compliance with NRS 217.400 through 217.460 for granting funds from the domestic violence account, maintaining financial records, and evaluating services provided. Funding for this program comes from marriage license fees. The Victims of Domestic Violence account was established for the purpose of managing these funds. Statutory Authority: NRS Chapter 217.

HHS-DCFS - UNITY/SACWIS

101-3143

PROGRAM DESCRIPTION

Information Management Services (IMS) is the unit within the Division of Child and Family Services (DCFS) that supports the technology needs of the division and the county child welfare agencies. IMS maintains two major computer applications: Unified Nevada Information Technology for Youth (UNITY) and Avatar.

UNITY is the Nevada-specific acronym for the federally mandated Statewide Automated Child Welfare Information System (SACWIS). The UNITY application became fully operational statewide in September 2003. Child welfare agencies nationwide are required to submit adoption and foster care information electronically to the Administration for Children and Families as per Public Law 103-66 (Omnibus Reconciliation Act). Child protective services intake and case management has been fully automated to ensure timely and accurate communications between state and county entities. In addition, UNITY is the system of record for the Youth Parole Bureau.

Avatar is the Health Insurance Portability and Accountability Act compliant case management and billing system that supports children's mental health. It has been operational since August 2005.

In addition to maintaining these two applications, IMS provides helpdesk support and application training to the three Nevada child welfare agencies (DCFS, Clark County Department of Family Services and Washoe County Department of Social Services); and network, and desktop computer support for DCFS.

BASE

This request continues funding for thirty-eight positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

HHS-DCFS - WASHOE COUNTY CHILD WELFARE

101-3141

PROGRAM DESCRIPTION

In the 2011 Legislative Session, the funding for Washoe County Department of Social Services (WCDSS) by the division changed. Currently, WCDSS receives an annual capped block grant each year to support child welfare services. This funding de-categorized the General Fund appropriation for the purpose of child welfare integration and allows the agency to redirect child welfare funding to services not restricted by traditional definitions and funding limitations, but driven by the needs of children and families in their community. WCDSS has the ability to retain savings generated if services provided by the county cost less than the amount budgeted. This funding is contingent upon the counties meeting a minimum maintenance of effort. Specifically, the counties must maintain the amount of local funds spent for child welfare and child protective services at a level equal to or greater than the amount appropriated. In addition, within this current funding mechanism is a process to support a fiscal incentive program designed to stimulate and support improvement in key areas identified in the agency improvement plan. A second allocation is included that will estimate each biennium the cost attributed to the projected caseload growth for the adoption assistance program to ensure adoptions are continuously reinforced and each legislative session the funding can be determined based on historical adoption growth. Lastly, the agency which provides child welfare services, must submit annually an agency improvement plan and data demonstrating the progress they have made toward meeting the specific performance targets set forth in the plan. The agency improvement plan is an integral part of the Quality Unit's oversight role.

BASE

This request continues the annual capped block grant to support child welfare services for Washoe County Department of Family Services. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Division of Child and Family Services (DCFS) Rural Region Child Welfare supports child protective services and other related child welfare services to the fifteen rural counties in the state through its Rural Region offices. The DCFS Rural Region is separated into four districts, each providing services to multiple counties. Child welfare services include emergency response (child protection) and the continuum of ongoing services to families through a comprehensive case planning process that provides initial assessment and comprehensive case management services that support the child, the parents and the caregivers. The continuum includes emergency shelter care, foster family care (including relative placements), group home care, therapeutic foster care, residential treatment care for both in and out of state placements, Interstate Compact for the Placement of Children, foster care licensing, independent living services and adoption. Additional services to support the child and their family include in-home counseling, Intensive Family Services (IFS), early childhood services and designated outpatient services.

HHS-DCFS - CHILD WELFARE TRUST

645-3242

PROGRAM DESCRIPTION

The Child Welfare Trust Fund account was established to receive benefits for survivors or other awards payable to children receiving child welfare services in a county whose population is less than 100,000, which must be deposited in the State Treasury for credit to the fund including Social Security and Supplemental Security Income. The division maintains a separate account for each child who receives money and deducts from the account any services to the child provided by public money. Surplus balances are distributed in accordance with the guidance provided by the entity in which the funds were received. Interest accrued is credited to the budget account by the Treasurer's Office and then credited to each child's separate account maintained in the Trust Fund for Child Welfare at the end of each interest period. Statutory Authority: NRS 432.037

BASE

This request continues funding for cost of care for children eligible for Social Security benefits. The amount balanced forward to the next fiscal year consists of the balance remaining for the care of the child as authorized by Social Security.

The National Institute of Corrections has been a leader in this topic area since 2004, providing assistance to many agencies through information and training resources.

HHS-DCFS - YOUTH ALTERNATIVE PLACEMENT

101-3147

PROGRAM DESCRIPTION

The Youth Alternative Placement budget account was established to provide financial support to each regional facility for the detention of children who have been adjudicated delinquent by Nevada courts. There are three regional facilities; two are located in Douglas County (China Spring Youth Camp and Aurora Pines Youth Camp), and one is located in Clark County (Spring Mountain Youth Camp).

The China Spring Youth Camp/Aurora Pines Girls Facility is dedicated to helping approximately forty male and sixteen female, mid-level offenders between the ages of twelve and eighteen, develop skills, knowledge and the experience necessary to promote health and resiliency, stop the progression of problems caused by delinquent behavior, and interpret and avoid high risk behavior patterns in an emotionally safe, comforting, challenging, and nurturing environment. The facility provides structure and programs to assist juvenile offenders to overcome their delinquent behavior, as well as opportunities to correct thinking errors, practice positive new social skills, and facilitate reintegration into the family and community.

The Spring Mountain Youth Camp, and its community-based program, provides residential treatment for approximately 112 youth between the ages of twelve and eighteen. The programs at Spring Mountain Youth Camp provide for therapeutic, educational, social, medical, and recreational needs. Counseling and therapy are provided to the youth as needed through Clark County's psychological services. Aftercare services are provided by a team which includes probation officers and a mental health therapist who begin contact with youth prior to placement and continues through completion of probation. This program operates in cooperation with, and is supported by, local law enforcement agencies, the Clark County School District, and various state agencies. Statutory Authority: NRS 62B.150

BASE

This request continues funding to support the youth alternative placement camps. One-time expenditures have been eliminated and partial year costs have been annualized.

HHS-DCFS - CALIENTE YOUTH CENTER

101-3179

PROGRAM DESCRIPTION

The Caliente Youth Center (CYC) is a secure, juvenile residential facility located 150 miles north of Las Vegas on the east side of US Highway 93 in Caliente, Nevada. There are seven housing units situated on thirty-five acres with a maximum capacity of 140 youth. CYC serves male and female clients between twelve to eighteen years of age. CYC is authorized and governed by NRS Chapter 63, State Facilities for Detention of Children, and those applicable statutes contained within NRS Chapter 62A, Juvenile Justice General Provisions. The programming at CYC addresses delinquent youth who also may have been victims of abuse, abandonment, and neglect, working closely with both public and private agencies in accomplishing goals. Staff from CYC coordinate with the Nevada Youth Parole Bureau and the Interstate Compact on Juveniles to ensure the youth receive the best possible aftercare services once they are released from CYC's jurisdiction. Youth who apply themselves to reach their goals in the shortest time possible typically achieve parole release within six to seven months. Statutory Authority: NRS Chapter 63

PROGRAM DESCRIPTION

The Nevada Youth Training Center (NYTC) is a residential juvenile correctional facility serving male youth between the ages of twelve and eighteen who are committed by the state's district courts for correctional care. Bed space of the facility was reduced to 60 from 110 beds during the 2013 Legislative Session. The facility is located in Elko, Nevada and operates a junior/senior high school program offering required and elective academic subjects, remedial programs (reading, math, language), special education, and vocational education. Youth also receive counseling conducted individually or in small and large groups, monthly treatment team meetings, and substance abuse counseling. Youth who apply themselves to reach their goals in the shortest amount of time possible typically achieve parole release within six to seven months. Statutory Authority: NRS Chapter 63.

HHS-DCFS - YOUTH PAROLE SERVICES

101-3263

PROGRAM DESCRIPTION

Youth Parole Services provides supervision and case management services to delinquent youth committed to the Division of Child and Family Services (DCFS) Youth Correctional Services. Caseloads consist of: delinquent youth committed to state youth institutions; youth on parole from such institutions; youth referred to Nevada for parole supervision from other states through the Interstate Compact on Juveniles (NRS 62I); youth committed to DCFS who require both correctional and mental health residential treatment; and youth under the age of twelve who are committed to DCFS for correctional care, but who cannot by law be placed in an institutional setting.

Parole aftercare services are provided to youth through a continuum of services starting with client and family assessment, institutional visitation, and pre-release parole planning with youth while the youth are in the state youth correctional facilities. Based on these contacts, youth are provided with a reputable placement and appropriate parole programming. Youth unable to return to parents or guardians are provided residential care through division contracts for foster care, group care, and residential treatment programs. While on parole, each youth is supervised to ensure compliance with conditions of parole and state and local laws. Counseling and guidance is provided to facilitate the youth's successful participation in an educational and/or vocational program. Through day treatment classes and individual and group counseling, Youth Parole counselors assist parolees in the development of competencies in their personal lives. Issues of anger control, substance abuse, gender specific issues, gang membership, impulse control, social skills and decision-making are addressed on an individual basis. Youth Parole Services operates the Interstate Compact on Juveniles which regulates the transfer of juvenile probation and parole supervision across state boundaries and is charged with arranging the return of delinquent runaways on demand. Statutory Authority: NRS Chapters 62, 62I, and 63.

Services are delivered through fourteen offices throughout the state, including six rural offices. The program is funded with 78.7% federal funds and 21.3% General Funds. BVR also administers the Supported Employment Program (Title VI of the Rehabilitation Act) which expands employment options for individuals with the most significant disabilities who may be able to engage in competitive work through the provision of intensive training, supervision, and other services, which is 100% federally funded.

DETR - SERVICES TO THE BLIND & VISUALLY IMPAIRED

101-3254

PROGRAM DESCRIPTION

The mission of the Bureau of Services to the Blind and Visually Impaired (BSBVI) is to bring Nevadans together to promote barrier-free communities in which individuals with disabilities have access to opportunities for quality employment and self-sufficiency. The bureau provides a full range of services to persons who are blind, deaf/blind, or severely visually impaired, including vocational rehabilitation; mobility and living skills training; assistive technology training and purchase of equipment; and low vision programs. The services available under this program are tailored to meet the individual interests, skills, abilities, and informed choice of participants and may include vocational training; secondary and post-secondary education; counseling and guidance; job development, placement, and follow-up services; transportation; and medical treatment and intervention. Services are delivered through fourteen offices throughout the state, including six rural offices. The program is funded with 78.7% federal funds and 21.3% non-federal funds. The bureau also administers the Older Individuals who are Blind (OIB) grant (Title VII of the Rehabilitation Act), which provides services to individuals over age 55 who are blind or visually impaired and is funded with 90% federal funds and 10% state General Funds. OIB services are geared towards assisting participants in gaining skills to live independently, travel safely around the community, and avoid institutionalization.

BASE

This request continues funding for thirty positions and associated costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DETR - BLIND BUSINESS ENTERPRISE PROGRAM

101-3253

PROGRAM DESCRIPTION

The mission of the Blind Business Enterprise of Nevada Program, commonly referred to as BEN, is to provide information, assessment, training, and placement of blind individuals in vending and business opportunities in public buildings. The Bureau of Services to the Blind and Visually Impaired (BSBVI) administers the business enterprise account for the blind (a non-reverting fund) under the authority of the Randolph-Sheppard Act amendments of 1974, NRS 426 and NAC 426. The primary source of revenue for this fund consists of a percentage of net profits from blind operators of vending facilities that are licensed by BSBVI. These facilities are located in federal, state, and municipal buildings statewide. Statutory Authority: NRS 426, Randolph-Sheppard Vending Stand Act Amendments of 1974.

BASE

This request continues funding for six positions and associated costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DETR-NEVADA P20 WORKFORCE REPORTING

101-3270

PROGRAM DESCRIPTION

NRS 386.650 mandates an automated system of accountability for Nevada that includes a system of identification that allows for identifying a student in both the public schools and NSHE. Legislation enacted during the 2011 Session of the Nevada State Legislature requires linking data for workplace purposes (Senate Bill 449, NRS 397). NRS 612.265 defines the circumstances under which the Administrator of DETR's Employment Security Division may share employment information. DETR has submitted a Bill Draft Request for the 2015 Session of the Nevada State Legislature to provide authority to DETR's Employment Security Division to share record level data for the purpose of Nevada P20 Workforce Reporting.

The Nevada P20 Workforce Reporting system will link the various data systems, automating the exchange of data and facilitating the assignment of unique IDs that will de-identify the data and enable the three agencies and stakeholders (e.g., Executive Office, Nevada Legislature, Nevada policy makers) to augment their access, research and reporting capabilities.

NDOC - PRISON MEDICAL CARE

101-3706

PROGRAM DESCRIPTION

The mission of the Medical Division of the Nevada Department of Corrections (NDOC) is to provide quality, constitutionally mandated health care using an efficient system of managed care that is professional, humane, and appropriate. Inmate health care is comprised of medical, dental, and clinical mental health care. To fulfill its mission, the Medical Division operates infirmaries or clinics at all NDOC institutions. The major medical facility for the department is the Regional Medical Facility (RMF), integrated into the operation and perimeter of the Northern Nevada Correctional Center. The RMF provides inpatient medical care for serious medical conditions, surgical aftercare, inpatient mental health care, structured living unit for mental health patients after discharge from inpatient services, and long term care for fragile, aging, and disabled inmates. Mental health extended care is also provided at High Desert State Prison. The camps, Restitution Center, and Transitional Housing Center obtain medical services from institutions specifically assigned to support them. In fiscal year 2003, the Medical Division resumed the provision of health care services for Ely State Prison and in fiscal year 2005, resumed the provision of health care services for Florence McClure Women's Correctional Facility from two different private health care contractors. In fiscal year 2004, inmate programming moved from the Medical Division and organized into a separate Programs Division, budget account 3711, which was funded by the Legislature. The Medical Division is not National Commission on Correctional Health Care (NCCHC) accredited; however, NCCHC standards are used as a guideline for policy and procedure development.

PROGRAM DESCRIPTION

The Northern Nevada Correctional Center (NNCC) opened in 1964 as a medium custody facility with three housing units. From 1964 until 2008, six additional housing units were added. NNCC provides intake for the northern region and houses the Regional Medical Facility (RMF) for the Department of Corrections. The RMF provides inpatient medical and mental health services. In addition, there is a Medical Intermediate Care Unit and Structured Care Unit for inmates for which medical and mental health situations are stable, but require additional staff monitoring. NNCC also houses the Regional Warehouse which is the distribution center for the facilities located in Carson City and Reno. Educational services are conducted by the Carson City School District staff and include high school diploma, General Education Diploma, literacy programs, and English as a Second Language. A wide range of self-help and treatment programs are available and administered by medical, mental health, and program staff. Programs include Senior Structured Living Program for inmates sixty years of age and older and a re-entry program to prepare inmates for reintegration into society. Current vocational programs include auto mechanics/auto shop and computer science. Silver State Industries manufactures a variety of products for governmental agencies and private entities through programs including a wood shop, a metal shop, a paint shop, and an upholstery shop. Prison Industries has also partnered with a private company operating inside the facility to manufacture a variety of vinyl materials including mattresses.

NDOC - NEVADA STATE PRISON
101-3718

PROGRAM DESCRIPTION

The Nevada State Prison (NSP) is located in Carson City. NSP was established in 1862, when the Nevada Legislature purchased the Warm Springs Hotel and twenty acres of land for \$80,000. NSP was one of the oldest operating prisons in the US, until the facility was officially decommissioned May 18, 2012. Offenders under sentence of death are incarcerated at the Ely State Prison; but executions, as mandated by the state constitution, will continue to be conducted at NSP. The Department of Motor Vehicles continues to operate a license plate plant at the facility.

BASE

This request continues funding for associated operating costs for maintaining a closed facility. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Lovelock Correctional Center (LCC) is primarily a medium security institution, but has a large population of close custody protective segregation inmates requiring special handling and security. The 1989 Legislature approved operation of the facility with Phase I becoming operational in October 1995 and Phase II in November 1997. LCC has an active, broad based religious program available to all inmates. Coal Canyon High School, sponsored by the Pershing County School District, runs literacy programs, General Education Diploma and high school diploma courses, a variety of college level classes and several vocational programs. Vocational programs include an auto shop and dry cleaning certification. In addition, LCC has a sex offender treatment program, drug and alcohol counseling, the Structured Living Program, and mental health programs. Prison Industries has two programs, one manufactures prison clothing for all department institutions and the other manufactures draperies for the general public.

NDOC - WARM SPRINGS CORRECTIONAL CENTER

PROGRAM DESCRIPTION

The Warm Springs Correctional Center (WSCC) was authorized by and constructed through appropriations from the 1961 Legislature and was known as the Nevada Women's Correctional Center until September of 1997. It was converted to a medium security men's prison in 1998 and to a minimum custody facility in July 2003. The institution has been remodeled and expanded four times over the past forty-seven years. A second housing unit was added in 1979 and a third in 1987. The core services building, which houses food services, health care services, education facilities, and the gymnasium was added in 1981. The 1995 and 1997 Legislatures authorized a fourth housing unit, two new towers, a new security fence, additional classrooms, and a complete remodeling of the kitchen, dining room, and entrance building. The completion of this project in July 1998 brought the budgeted capacity of WSCC from 260 to 547 inmates. In July 2008, WSCC was converted back to a men's medium custody institution. WSCC provides program opportunities including literacy training, high school, adult basic education, vocational training, community college, addiction recovery, and a variety of socialization programs offered by the out-patient psychology division. WSCC also accommodates a variety of religious services through an active chapel, which includes music and choir. The Carson City School District offers high school diplomas and adult basic education General Education Diplomas, literacy and English as a Second Language. Vocational training includes culinary arts, computer science, and a Prison Industry card program.

PROGRAM DESCRIPTION

The Florence McClure Women's Correctional Center (FMWCC) is located in Las Vegas, Nevada. In 1996, this facility became operational to house women incarcerated in the department. The Corrections Corporation of America (CCA) owned and operated the facility until its purchase by the State of Nevada in October 2001. Effective October 1, 2004, NDOC took possession of the facility, eliminating the need to contract with the CCA. Formerly known as the Southern Nevada Women's Correctional Center, the facility was renamed in 2007 in honor of Florence McClure and her contributions to improving conditions for incarcerated women. FMWCC houses all custody levels of female inmates in Nevada. The facility's capacity increased in 2008 with the addition of a 240-bed dorm and in 2009 with a 300-bed addition to the main facility. FMWCC has several various religious programs available to all inmates, General Education Diploma and High School Diploma courses, and a variety of correspondence college level classes. FMWCC has a substance abuse program that offers in-house drug and substance abuse treatment, Mental Health Treatment Program that provides structure for mental health challenges, Re-Entry Program that prepares inmates for the reintegration into society, Senior Program that focuses on the needs and activities for inmates older than 55 years of age, and the Pups on Parole Program that trains inmates to be certified dog handlers. FMWCC has one Prison Industry program which can employ over seventy inmates and is geared towards salvaging and re-packaging overstock products/merchandise.

NDOC - NORTHERN NEVADA RESTITUTION CENTER
101-3724

PROGRAM DESCRIPTION

The Northern Nevada Restitution Center is located in Reno and functions as a community assignment facility, housing inmates who are employed in the community. From earned income, inmates make restitution payments to victims and to criminal justice agencies, and may accumulate funds above restitution payments to facilitate their release in the community. The center moved to its current site in April 1993. Pursuant to AB299 of the 2005 Nevada Legislature, State Public Works Division has entered into a contract with Reno Sparks Indian Colony as the primary project manager for a land exchange wherein a new facility to be known as Northern Nevada Transitional Housing Center would be constructed for the department and is estimated to be completed in August of 2015.

BASE

NDOC - STEWART CONSERVATION CAMP

101-3722

PROGRAM DESCRIPTION

The Stewart Conservation Camp (SCC) is adjacent to the Northern Nevada Correctional Center and originally opened in 1978. In 1995, SCC was rebuilt and more than doubled the size of the original camp. SCC houses minimum custody and community trustee inmates in five dormitory type units. Inmates at SCC can earn their General Education Diploma. In addition, inmates can participate in several self-help and treatment programs conducted by medical and mental health staff in the evenings. The majority of the inmates at SCC work for the Nevada Division of Forestry and are assigned to twelve-man crews to work on conservation projects and fire suppression activities. Inmates also work for Prison Industries which runs the ranch, dairy, and the Wild Horse Training Program. Under the supervision of Prison Industries, the ranch employs in their operations: a commercial dairy, alfalfa production, and care for horses in coordination with the Department of Agriculture and the Bureau of Land Management. The Wild Horse Training Program involves inmates training horses for adoption by the public. Additionally, some of the inmates are classified as community trustees who provide support services for several state agencies in Carson City.

PROGRAM DESCRIPTION

The Three Lakes Valley Correction Center (TLVCC) is a minimum custody facility, adjacent to the Southern Desert Correctional Center (SDCC) at Indian Springs. This institution initially opened in 1982 as Indian Springs Conservation Camp with the opening of SDCC. At that time, the facility housed a male inmate population in an open bay facility. The institution opened with a 108 bed capacity, but was expanded to 150 beds in 1990. In 1994, the camp layout was restructured for better security and the capacity was increased to 248 inmates; then, in 2007, it was expanded to a capacity of 404 inmates. In 2008, the facility was renamed Three Lakes Valley Correction Center (TLVCC), and in 2010, TLVCC was expanded further to incorporate a new facility that increased its total capacity to 594 inmates. The inmates at TLVCC support the Nevada Division of Forestry (NDF) program for conservation and fire suppression with twelve-man crews. In addition to the NDF program, there is the Program of Regimental Discipline (commonly known as the "Boot Camp") which routinely accommodates about sixty-five offenders in a military style program that includes intensive instruction in discipline, respect, motivation, leadership, life skills, substance abuse counseling, and physical exercise as an alternative to standard incarceration.

NDOC - JEAN CONSERVATION CAMP

101-3748

PROGRAM DESCRIPTION

The Jean Conservation Camp (JCC) houses female minimum custody inmates. Its parent institution is the Florence McClure Women's Correctional Center, which is forty-five miles away. The camp opened in August 1988. New construction, completed in the spring of 1999, replaced existing housing units and increased capacity from 112 to 240 inmates. JCC became an all-female facility when the High Desert State Prison opened in September 2000. JCC has several various religious programs available to all inmates, General Education Diploma and High School Diploma courses, and a variety of correspondence college level classes. In addition, JCC offers a wide variety of self-help programs provided by a Mental Health Counselor. The inmates housed at this facility support the Nevada Division of Forestry program for conservation and fire suppression with twelve-person crews.

NDOC - SILVER SPRINGS CONSERVATION CAMP

101-3749

PROGRAM DESCRIPTION

The Silver Springs Conservation Camp (SSCC) is a minimum security, female custody facility, located approximately thirty miles east of Carson City. The facility was authorized by the 1989 Legislature and opened in September 1991. Inmates worked primarily for the Nevada Division of Forestry on conservation, fire suppression, and public service projects. The Warden of the Warm Springs Correctional Center administered SSCC with a Correctional Lieutenant and Sergeant providing on-site management. With a declining female inmate population, SSCC closed in July 2008 and the remaining inmates were transferred to other institutions.

BASE

This request continues funding for associated operating costs for maintaining a closed facility. One-time expenditures have been eliminated and partial year costs have been annualized.

Profits from the operations are transferred to the Inmate Welfare Fund, budget account 240-3763, to maintain the inmate law libraries and for the welfare and benefit of all inmates. In addition, costs absorbed by the Medical Division and the Director's Office on behalf of indigent inmates are reimbursed by the profits from OSF. Statutory Authority: NRS 209.221.

BASE
