

**Creating a Decision Unit – New Program**  
**Screen Process Flow – Creating the Decision Unit**

- Requesting expenditures due to a new grant received to create efficiencies in a program.
  
- This example includes the award of a \$900,000 federal grant each year, which requires the addition of two state positions, their associated costs and a contract for services for the program.
  - Tools are available on the Budget Division website to assist in determining appropriate associated costs for new positions.
  
  - This example adds 2 positions and associated costs:
    - Management Analyst 3 – 07.624
    - Administrative Assistant 3 – 02.211

Save    Save and Return    Cancel    Recalc...

There are several methods of creating a position in NEBS.

- Copy same position type from base or some other appropriate decision unit
- Copy position from another budget account
- Insert position and manually input your position information

Verify/Input PCN #; Start Date; Position Type; Group (if applicable); Retirement Code; Class Code and Step.

Position costs will not transmit to your line item screen until you process the payroll schedule by pressing the Recalc Payroll button.

# Creating a Decision Unit – Position Transfer Line Item Tab – Non-payroll Schedule Costs

<input type="checkbox"/>	8	B000	10	7430	American Sign Language	0	0	0	0

Must process schedule before cost will appear in the decision unit line item screen.

Similar to each of the other schedules, click on the  icon and enter the number of new line items to add. In the vendor schedule, the analyst will manually input vendor information and costs in the appropriate fields

Since the costs are manually input into the system, it is imperative that you attach all relevant backup documentation in the Note utility. Of particular interest is documentation on your cost calculations, quotes and assumptions.

# Creating a Decision Unit – Position Transfer

## Line Item Tab – Schedule Costs (non-payroll) – Building Rent non-B&G Costs

Similar to each of the other schedules, click on the **+** icon and enter the number of new line items to add. In the rent schedule, the analyst will manually input the dec unit number, the leased building information, sq. ft. required for this dec unit, # of months (remember costs normally start in October in Yr 1) and monthly rate/s in the appropriate fields

Filter for the specific dec unit you are building.

Property and Contents Insurance will automatically calculate.

Use the icon to indicate how many line item you wish to add.

NOTE; The Priority column in this example will be eliminated in production this biennium.

The Equipment schedule is separated into two sections: The top section is for standard equipment such as desktop computers, software and office furniture. These unit costs are provided via a cost table in NEBS.

The bottom section of the schedule is for non-standard equipment. This information is entered manually and the cost associated with these items must be fully documented in the Note utility.

# Creating a Decision Unit – Position Transfer Line Item Tab – Final Steps

After your decision is built and you have added your revenue to balance it, review the information and make sure all necessary notes, narrative, justification, attachments have been included in the Line Item, Schedules and Acct. Maint. tabs.
