Work Program Overview Why do We Process Work Programs? It's the Law

State Budget Act

NRS 353.150 through 353.246

 NRS 353.220 - Procedure for revision of work programs and allotments

"The head of any department, institution or agency... may request the revision of the work program of his or her department, institution or agency at any time during the fiscal year, and <u>submit the revised program</u> to the Governor through the Chief with a request for revision of the allotments for the remainder of that fiscal year."

Work Program Overview

• Reasons for requesting a revision:

- 1. Identify and reconcile changes in an agency's funding
- 2. Accept a new gift or grant
- 3. Augment grant/non-grant program funding (increase/decrease)
- 4. Increase/decrease authority to collect fees
- 5. Balance forward authority or remaining cash
- 6. Transfer authority between categories
- 7. Comply with legislation
- 8. Establish a non-executive budget account
- 9. Establish authority for IFC Contingency funds (requires memo)
- Establish authority to request and pay back a General Fund advance

Work Program Overview

- Work Program Documents Ensure:
 - Expenditures are within approved funding
 - Budget reflects Executive and Legislative intent
 - Sufficient authority exists to carry out the agency's goals and objectives
 - Changes are consistent with the State Budget Act, NRS and federal guidelines

Work Program Overview IFC Contingency NRS 353.268

- Non-restricted funds
 - Memo of request for Board of Examiners
 - Memo of request for Interim Finance Committee
 - Complete and accurate work program
- Restricted funds
 - Memo of request for Interim Finance Committee
 - Complete and accurate work program
- Not available for accounts that do not have General Fund or Highway Fund appropriations

When to Request a Work Program

- Upon receipt of a new Notice of Grant Award/gift/fee/ assessment
- Upon discovery of a projected budget authority shortfall may wish to submit later in the fiscal year to ensure accurate projections
- Prior to beginning a new program
- Prior to next IFC deadline plan ahead
- Revenues exceed total work program authority at end of the fiscal year to close a budget
 - Authority vs. Cash
- Work Program should be submitted prior to obligating funds

Work Program Overview It's a mini decision unit or mini BUDGET

Assembly Bill 20 (2015)

- AB20 removes the requirement for additional approval by the IFC of work programs which result from:
 - A gift or nongovernmental grant which does not exceed \$20,000 or a governmental grant which does not exceed \$150,000
 - Carrying forward money from the preceding fiscal year with no change in purpose

15 & 45 Day Work Programs

- NRS 353.220, NRS 353.263
- Requires pre-approval from the Budget Division, prior to submitting the work program
- Written request required from agency for approval
- Emergency or protection of life or property
- Revision requires expeditious action 15 days
- Revision requires action before scheduled IFC meeting 45 days
- Can be called at the next IFC

Work Program Guidelines

- One decision one work program revision
- Submit to the Budget Division on or before the deadline
 - Verify IFC thresholds to determine if IFC approval is required (IFC thresholds on slide 46)
 - Submitting complete work programs by the deadline assures they will be submitted to IFC for approval
 - Submit all work programs as soon as the need is known
 - Deadlines have been published for the fiscal year
- Submit related work programs together with reference to its "companion" work program
 - Multiple agencies work together prior to submission to ensure consistency

Work Program Guidelines Section 7 of the Authorizations Act

- Revert General Fund or Highway Fund if being replaced by new funding
 - Exceptions
 - The agency must demonstrate the new funding is being used for new expenditures
 - The funding source has a "non-supplant" clause (example: Federal Grants)
 - The agency can demonstrate that a reversion would jeopardize receipt of the other funds altogether

COMMON PROBLEMS:

- Untimely submission
- Missing supporting documentation (projections, quotes, etc)
- Amounts in back-up don't match the WP request
- Narrative amounts do not match WP request
- Grant reconciliation doesn't tie to DAWN and/or grant award, or calculations are incorrect
- Combining work programs with more than one purpose
- Transferring between categories isn't justified for both sides
- Information is not basic enough for someone who doesn't work at the agency to understand
- Requesting items not approved during Governor's Recommendation or by the Legislature through a WP
- All companion work programs are not submitted

The division's Bureau of Health Care Quality and Compliance charges fees for applications, licenses and renewals of health care facilities, medical laboratories and personnel. Pursuant to NRS 353.253, cash on hand at the end of each fiscal year must be balanced forward in the same budget account for use in the subsequent fiscal year.

Realign/Additional grant authority

The Immunization Program is federally funded and typically receives 3 rounds of funding per calendar year from the Center of Disease Control. Additional revenue and expenditure authority is needed to establish the first round of funding for calendar year 2013. In addition, a re-alignment in expenditure categories is needed to reconcile state authority. This grant not only funds the operation of the Immunization Program, but it is also used to support two immunization coalitions and three health districts. These coalitions and health districts conduct mandatory activities on behalf of the Nevada State Immunization Program.

Approval of this request will allow the Department of Employment, Training, and Rehabilitation to adequately fund services to potential employees and employers to improve Nevada's workforce. This training supports economic diversification efforts by creating a skilled workforce and assisting clients to return to work.

 New federal grant received from the Department of Health and Human Services for the Title X in Nevada Health Insurance Enrollment Program

This program will expand eligibility and enrollment outreach activities at four existing Title X service delivery sites to assist the uninsured clients accessing clinic services to enroll in health insurance or Medicaid through the Silver State Health Insurance Exchange. This expansion, for current and potential clients, will provide information and assistance to understand and identify the affordable coverage that best meets the client's needs. This will enable better access to high quality family planning and other health preventative services. The four existing sites that have been chosen are located in Northern Nevada in counties considered to be rural and frontier: Carson City, Churchill County, Lyon County, and Humboldt County. Nevada family planning clinics expect to reduce the overall percentage of uninsured clientele with this program.
