M200	DEMOGRAPHICS/CASELOAD CHANGES				
	This request funds a decrease in projected department-wide inmate population from 12,395 in state fiscal year 2020 to 12,345 in state fiscal year 2022 (.004% decrease over 2020) and 12,349 in fiscal year 2023 (.004% decrease over 2020). The Department of Administration contracts with JFA Associated, LLC to provide a Ten Year Prison Population Projection with which the Nevada Department of Corrections uses to construct the Biennium Plan used to budget the inmate caseload in the various facilities based on projected inmate classification level. The distribution of the projected population is based on the Capacity Analysis Report. The Capacity Analysis Report simply depicts, on a specific day, how each bed in a given facility is being used. (I.E Administrative segregation, medical, protective custody, etc.) Inmate caseload is adjusted accordingly. [See Attachment]

M600	COURT ORDERS				
	<p>This decision unit funds one Administrative Assistant 2 at Florence McClure Women's Correctional Center Law Library and one Administrative Assistant 2 at Southern Desert Correctional Center Law Library to begin court mandated e-filing with the US District Court by January 1, 2022.</p> <p>The purpose of this request is to obtain one (1) new Administrative Assistant II position to support the law library operations at Florence McClure Women's Correctional Center (FMWCC) which also supports Jean Conservation Camp (JCC) and Casa Grande Transitional Housing (CGTH) and (1) new Administrative Assistant II position to support the Southern Desert Correctional Center (SDCC) which also supports Three Lakes Valley Conservation Camp (TLVCC). NDOC was issued a court order by the United States District Court (USDC), District of Nevada to implement the e-filing program at the FMWCC law library by January 1, 2022. The need for additional staff is essential to implement and support the anticipated additional workload for the e-filing program while maintaining the demands of day-to-day law library operations. The e-filing process allows inmates to use NDOC law library services to electronically send and receive legal documents to the USDC District of Nevada and the Nevada Attorney General rather than using US Postal Services mail services.</p> <p>The sensitive nature of the material requires free-staff to perform these duties instead of an inmate law library clerk. The current staffing at the FMWCC and SDCC law libraries cannot support this additional service to be offered to inmates; the work demands are labor-intensive and time sensitive. If an additional position is not approved, law library services at FMWCC/SDCC and its satellite conservation camps and transitional housing center will be negatively impacted. This could increase the potential of grievances and lawsuits if inmates are not receiving legal access since NDOC must comply with the court order and implement the e-filing program. Court order attached.</p> <p>[See Attachment]</p>

E225 EFFICIENCY & INNOVATION

This decision unit funds one new Food Service Manager 3 position needed to oversee the agency's overall adherence of the approved menus in the most efficient manner. This Food Service Manager will be responsible for overseeing the agency's overall adherence of the approved menus in the most efficient manner. The position will audit all food service-related reports related to the preparation of the inmate menus at all NDOC facilities. The incumbent will assist in training culinary staff, as appropriate, and coordinate efforts with the institutional Business Managers to ensure food costs are optimized. NDOC Purchasing oversees the agency's inmate menus and manages contracts for the dietitian and rabbinical oversight of the common fare kitchens. At each institution, Food Service Managers (FSM) supervise the culinary operations including ordering food for the approved menus and the receipt, storage and preparation of food. At each camp, custody oversees culinary and may solicit feedback from the FSM at their parent institution. A new position, with food service management knowledge, is critical to ensuring consistency and efficiency of the agency's culinary operations. NDOC Purchasing's role should be reduced to ordering food and supplies needed similarly to other agency operations and programs.

	<p>This decision unit requests funding to purchase additional Comprehensive Adult Student Assessment System (CASAS) tests used during the initial assessment of an inmate to determine what educational and programming areas that specific offender will need to address in order to effectively reduce their likelihood to recidivate.</p> <p>The Adult Education Programming and Youthful Offender (YOP) throughout NDOC facilities relies upon the data appraisal supplied by the Comprehensive Adult Student Assessment System (CASAS) analysis. Adult students return to education with abilities varying in a wide range, from special education disabilities to college ready. The CASAS test is one of the fastest most accurate methods of assessing a student's potential upon reintroduction to education. Administering this assessment to students/inmates upon arrival at the institution has proven invaluable to the eventual success of their overall educational outcomes.</p> <p>Frequently students arrive at the institution and their information conveys that they are at one level of educational abilities, and upon assessment the test displays they may in fact be above or far below inmates' stated level. With CASAS data, Special Education services can begin Response to Intervention (RTI) processes within weeks of intake. Inmates will be enrolled in appropriate education programs (the literacy level identified by CASAS) including an Adult Basic Literacy Skills Program, High School Equivalency Program, High School Diploma Program and Industry Recognized Vocational Skills Programs. CASAS scores are streamlined to make for the most accurate placement for inmate/student's educational success. CASAS testing gives an appropriate National Reporting System (NRS) education appraisal that teachers and testing specialists can use to pinpoint an inmate/student's math, reading literacy, and work readiness skills. In addition, CASAS testing students at various points throughout their instructional path provides correlational data that can be utilized as a guide to provide individual educational prescriptions. CASAS testing is the most widely used adult education competency-based testing system in the United States and is used throughout the State of Nevada.</p> <p>As documented by the Rand Corporation study, inmates who participated in educational programs were 43% less likely to commit a crime and return to incarceration within three years than those who did not. This study also showed that inmates who participate in education programs in prison increased the likelihood of obtaining employment by 13% (as compared to inmates who did not participate) once released. Since the NDOC begins the re-entry process at intake, these assessments are an integral component in our efforts to provide appropriate and effective educational programming for incarcerated individuals thereby reducing their likelihood of recidivating, improving their employment opportunities and ultimately lowering the long-term costs to the citizens of the State of one more that are associated with a continued cycle of incarceration. Not to mention the increased safety of our communities.</p> <p>If this decision unit were not approved in would inhibit the NDOC from appropriately assessing inmates to ensure proper programming is provided to the inmates. It would also hamper NDOC's ability to provide data driven analysis of recidivism reduction reporting.</p> <p>[See Attachment]</p>

E227 **EFFICIENCY & INNOVATION**

This decision unit funds the repair and maintenance of exercise equipment at Lovelock Correctional Center.

The Lovelock Correctional Center (LCC) has some very old and heavily used exercise equipment. Approval of this decision unit would provide additional funds in each year of the biennium to make repairs to exercise equipment up to the amount requested. The LCC will be able to better maintain their equipment by providing funding to make necessary repairs as needed and help to extend the life of the equipment.

	This decision unit funds a contract to make necessary repairs to exercise equipment at High Desert State Prison. In accordance with the Health Department tears and rips should be repaired to prevent the spread of bacteria. Repair or dispose of equipment and furniture with damaged surfaces that do not allow surfaces to be adequately cleaned. Based on the wear and tear of the athletic equipment at High Desert State Prison it is imperative that this request to repair and reupholstered equipment is approved. By being able to repair this equipment it will help prevent the spread of bacteria, and more importantly COVID-19. It will also allow for the inmate population to continue their daily fitness routine and supply the population with the appropriate supply of equipment for 3,400 offenders. By utilizing this equipment it allows for offenders to receive the required physical fitness that stimulates their physical and mental well-being, while reducing numerous health ailments. In addition, the weightlifting equipment needs refurbishment of various components such as padding and tension cables due to age and high usage. Refurbishment will help extend the equipment's useful life and reduce risk of inmates getting physically hurt and help mitigate infection control risk. Further, unsafe/unusable equipment can have negative impact on their personal behavior. The weightlifting equipment is utilized by inmates for recreation/exercise and helps promote personal discipline, positive motivation, improved health, and goal setting. Weightlifting is an activity that is regularly looked forward to by inmates that involves commitment and overall improvement to an inmate's wellness. The weightlifting program allows the inmates to relieve the pressure of life in prison while also promoting healthy physical, mental, and social abilities. If the funds are taken out of our yearly allocated recreation budget it will create a financial burden on the other needs of the recreation department. [See Attachment]

	This request continues funding of digital mail services implemented in state fiscal year 2021. In response to the COVID-19 pandemic, The Nevada Department of Corrections (NDOC) follows the recommendations from health organizations, medical professionals, and correctional best practices to protect the health and safety of inmates, employees, and the community. The NDOC recognizes the utmost importance for inmates to stay connected with their family and friends. The community ties and support are essential to the support needed for a successful reentry to the community. To mitigate the risk of introducing the virus, as well as, contraband such as drugs into NDOC facilities, the department implemented physical mail processing services. These services allow family and friends to send physical mail to a third-party vendor for the letters, photos and envelopes to be scanned and delivered to correctional facilities electronically. The vendors are completely separate from the correctional facilities which greatly reduces the danger to NDOC staff, inmates and the general public posed by drug-laced mail including fentanyl and other opioids. Approval of this decision unit will provide the funding required to continue funding digital mail services. [See Attachment]

Lovelock Correctional Center is unique in that there are multiple areas (yards) that participate in athletic activities. There has been limited funds available to purchase new equipment for softball, which is played five to seven months of the year. The supplies requested would replace bats and mitts. Current mitts have been repaired on site by Prison Industries, however, they are to the point that repair is no longer an option. Given the population of 1,700 inmates, with a high percentage participating for more than half the year, the equipment really needs to be replaced. [See Attachment]

	The Jean Conservation Camp (JCC) houses inmates who are to be physically fit for wildland fire deployment with the Nevada Division of Forestry (NDF). Being fit enough to pass the NDF Pack test allows the inmates to be a part of the NDF work crew. Being on the NDF work crew includes a normal work schedule that teaches inmates good work habits and routines. These habits and routines are pertinent for successful reintegration of inmate's into our communities. Having this piece of equipment will also encourage physical activity to those who are not in good physical shape to be more active. Having more options for physical activity is beneficial to the inmate's mental health, as a sedentary lifestyle in prison can be detrimental to an inmate's mental health and reentry into society. Inmates who are approved to work in NDF fire crews must pass a pack test wearing a 45lb vest. Currently, JCC does not have weighted vests for pack test training, instead, backpacks are available but are inoperable, falling apart and do not include weights. They do not adjust to one size fits all and cause back pain if not worn properly. Also, there are not enough backpacks to utilize for groups. A weighted vest (containing 45 pounds) will help prepare inmates for the mandatory pack test and will be utilized for continuous training for prospective pack testers. Weighted vests allow an inmate to adjust for heavier and lighter weight when needed, throughout improvement. The sixty pound vests are the same price as the forty-five pound vests and the weights are removable to make them weigh anywhere up to 60lbs. This equipment will be stored in the administration building. [See Attachment]

The replacement shin guards for soccer, soccer balls and basket balls is an annual expense. The inmates spend non-working hours exercising by playing basket ball, soccer and using the track. Since these items are used on an almost daily basis they wear out and have to be replaced annually. The exercise equipment that is kept on hand for the inmates to use keeps them occupied both mentally and physically and assists with their well being while incarcerated. [See Attachment]

	This decision unit funds the replacement of a rowing machine at Lovelock Correctional Center.				
	The Lovelock Correctional Center was equipped with a rowing machine upon opening in 1996, however, it was deemed inoperable in 2014 and has not been replaced. Additional equipment will ease the demand on other equipment and extend the life of all the exercise equipment. The exercise equipment that is kept on hand for the inmates to use keeps them occupied both mentally and physically and assists with their well being while incarcerated.

E717	EQUIPMENT REPLACEMENT				
	This decision unit funds the fabrication of weight plates to repair the cable weight machine at Lovelock Correctional Center. The Lovelock Correctional Center (LCC) Recreation department is equipped with cable weights, which are original to the institution 1993. The weights on these machines have been broken over the last twenty-five years and require replacement. When breakage first arose, staff attempted to purchase replacement weights, however, after investigation, the required replacements were no longer manufactured thus requiring fabrication onsite. By fabricating the new weights at the cost of approximately \$5,000 (based on steel prices), would be substantially less than the cost to replace the existing machine as a new weight system would run in the neighborhood of \$20,000. Labor to complete the fabrication, would be completed by LCC Maintenance staff. [See Attachment]

	Jean Conservation Camp (JCC) houses inmates who are to be physically fit for wildland fire deployment with the Nevada Division of Forestry (NDF). Being fit enough to pass the NDF Pack test allows the inmates to be a part of the NDF work crew. Being on the NDF work crew includes a normal work schedule that teaches inmates good work habits and routines. These habits and routines are pertinent for successful reintegration of inmate's into our communities. Having this piece of equipment will also encourage physical activity to those who are not in good physical shape to be more active. Having more options for physical activity is beneficial to the inmate's mental health, as a sedentary lifestyle in prison can be detrimental to an inmate's mental health and reentry into society. This equipment is an all-in-one piece of equipment designed for a full body workout. It's beneficial for core strength and upper body which will assist inmates with building upper body and arm strength to maintain fitness for firefighting assignments, including carrying heavy equipment in arduous terrain. This equipment will be located in the multi-purpose room (MPR) building. Exercise keeps the inmates occupied both mentally and physically and assists with their well being while incarcerated. 	This decision unit funds new soccer goals at the Stewart Conservation Camp. The Stewart Conservation Camp (SCC) is in need of soccer goals to enhance their athletic program and offer exercise options for the inmates housed at that facility. The facility developed an exercise area with grass and an adjacent track for walking/jogging, but SCC has been unable to acquire soccer goals for this location as the allotted Athletic Budget for this institution is generally between \$200 and \$300 per year. Soccer will give the inmates another outlet for friendly competition and team building skills. [See Attachment]

Having more options for physical activity is beneficial to the inmate's mental health, as a sedentary lifestyle in prison can be detrimental to an inmate's mental health and reentry into society. JCC's outside track currently consists of uneven and loose gravel which is the cause of many falls and injuries during a sprint workout. Running on a treadmill instead of the outdoor track will be easier on healing many foot injuries and set-backs from recovery to pack test. Inmates can test on a treadmill in between pack testing and allows them to track the mileage more efficiently and accurately, allowing the inmate to see her minutes per lap while testing. There are currently no treadmills at JCC to assist inmates with cardio training. This equipment will be located in the multi-purpose room (MPR) building. [See Attachment]

JCC houses inmates who are to be physically fit for wildland fire deployment with the Nevada Division of Forestry (NDF). Being fit enough to pass the NDF Pack test allows the inmates to be a part of the NDF work crew. Having more options for physical activity is beneficial to the inmate's mental health, as a sedentary lifestyle in prison can be detrimental to an inmate's mental health and reentry into society. Kettlebells are designed more for women with lighter weight groups and easier grip. This equipment will be beneficial to group exercise and high intensity workouts. The current weights at JCC were received from the men's prison which are heavier weights, only leaving a few that inmates can actually utilize. This equipment is also old and rusty due to the harsh weather and normal use. Most sets are also missing. This equipment will be located in the multi-purpose room (MPR) building. [See Attachment]

	This decision unit funds a new recreation - par course at the Warm Springs Correctional Center.				
	The request is to replace the weight pile at Warm Springs Correctional Center with a par course. The weight pile has loose weights, bars and benches that can be used to assault inmates and/or staff on the yard. If the par course is approved this will reduce safety and security risks at the facility while still providing inmates the resources they need to work-out. The equipment is secured to the ground and will not pose the same threat as the current weight equipment. This par course is also durable; therefore, will lead to a reduction of replacement and repair costs. Par courses are fixed structures with no individual or moving parts requiring repair or replacement when individual parts or pieces are damaged unlike weight machines or weight piles.

Budget Account: 3774 PEACE OFFICER STANDARDS & TRAINING COMMISSION

The Commission on Peace Officer Standards and Training (POST) establishes and regulates the minimum qualifications, training, and standards for all peace officers in the State of Nevada. POST oversees and tracks the employment, behavior, basic and professional certification, course certification, and training for Nevada's officers. Regularly scheduled public meetings are held around the state to discuss and revise laws and regulations, hear issues regarding the law enforcement community, and render judgment regarding officer behavior, which may result in denial, suspension or revocation of POST certification. In addition, POST is responsible for establishing the standardized performance objectives for all basic training academies. POST also develops and delivers exemplary training (both classroom and online), conducts its own basic training academy, and provides professional courses for the officers throughout the state. POST performs statewide audits of all 139 agencies and 35 academies, providing guidance and oversight while monitoring their compliance with the standards set forth in the NRS and NAC. Statutory Authority: NRS 289.

E225	EFFICIENCY & INNOVATION				
	Data and Records Management System Modernization				
	Nevada Peace Officer Standards and Training Commission (POST) currently utilizes three separate data management and records storage systems which have been in use for approximately 15 years (Application Extender, Crownpointe, and Formatta). The age of these systems and advancements in computer-based records management software have made these systems obsolete and are no longer supported. Additionally, these systems lack the ability to efficiently interface and the current system is experiencing failures and shutdowns that could potentially result of the corruption and/or loss of peace officer files and records, including records of officers who have had their certifications revoked due to misconduct.				
	The lesser of the two attached quotes, from Precision Document Imaging, is a system that is currently in use in other Nevada government offices and agencies and can be designed to support the current and future needs of Nevada POST.				
	At a time when peace officer training and conduct files are at the forefront of public examination, Nevada POST considers this a critical need and is only listed as our second priority based on legislative requirement and mandates currently in place.

	In-State Travel Increase.				
	Increase travel authority to meet the requirements of AB478, AB129, and AB236, POST will require subject matter experts (SME) to provide both basic and advanced levels of training to peace officers throughout the state. This will necessitate SME to travel to various locations throughout Nevada to provide training.				
	Current funding is insufficient to implement and deliver this training as required. This request is for \$10,000 increased to the FY21 funding level.

	Increase training supplies. The Nevada Peace Officers Standards and Training Commission (POST) Basic Academy does not have an Emergency Vehicle Operator Course (EVOC) training facility but had previously utilized an adjacent public parking lot to conduct this training. Effective July 1, 2021, the facility will no longer be a viable option and EVOC training will be forced to move to this RENO Public Safety Training Center. This will result in an increased projected training cost of approximately \$1,500 per fiscal year. Existing funding is insufficient to absorb this cost. Agencies who utilize the POST Basic Academy for required training currently pay a registration fee of \$500 per student. POST will increase these registration fees to \$600 per student in order to offset these increased costs, thereby avoiding direct increase in agency fund obligations.

	Access Control System Replacement and Upgrade. Nevada Peace Officers Standards and Training (POST) facilities are controlled access / secure facilities and not open to the general public. The current key-card access control system has exceeded the useful life cycle and can no longer be serviced and maintained due to aging technology and lack of parts. In addition, the current system is wireless and does not meet most recent industry recommendations as the existing wireless technology is outdated and subject to unauthorized code copying or hacking which could compromise safety, security, personnel records, and personal information of Nevada Peace Officers (NRS 603A.210 Security measures [Effective January 1, 2021.]) [See Attachment]

6211	FS MONTHLY VEHICLE RENTAL IN-STATE The Board had two Fleet Service vehicles. One in Carson City that is used for the Carson City office and one used by the Board's Las Vegas office. These vehicles were returned in July 2020 to meet the 5 percent budget reductions due to COVID-19. The Board would like to continue leasing fleet vehicles in both the Las Vegas and Carson City offices. Due to COVID-19, Parole Violation hearings were held via video instead of in-person at the institutions. The Board will continue to require vehicles for weekly deliveries and pick-up to the mail room, delivery of contract employee timesheets and Pardon's Board file deliveries. Although the Parole Board does not meet the minimum mileage, it does meet the 80 percent required usage. Las Vegas fiscal year 2020 average mileage: 4602/12 months = 384 average miles per month. Carson City fiscal year 2020 average mileage: 1234/12 months = 103 average miles per month. Increase to cost is based on Fleet Services schedule. [See Attachment]	0	0	871	871

	Increase to base expenditures, to adjust increased costs for costs associated with the Intrastate Agreement with the Board of Regents, Nevada System of Higher Education (NSHE). The Intrastate Agreement with the Board of Regents, NSHE fluctuates yearly. A four year average was used to adjust increased costs. [See Attachment]				
7062	CONTRACTS - B	0	0	-32	-32
	Reduction to base, due to the Parole Board moving staff from a second location in Carson City to one location. Anticipated costs for alarm monitoring in the Las Vegas Parole Board's office and the Carson City office. The Carson City monthly cost is \$40 for a total of \$120 per quarter. The Las Vegas monthly cost is \$22 for a total of \$66.00 per quarter. \$120 + \$66 = \$186 times four quarters = \$744.00 per year. The amount reduced from previous fiscal years, is due to the removal of monitoring equipment in the Parole Board's location at 1445 Old Hot Springs Road, and the Parole Board moving staff from the second location in Carson City to one centralized location. 	This request is for additional funding for anticipated costs of court reporting for four Pardon Board hearings.				
	The cost of a court reporter is dependent upon the number of people on the pardons list and the number of Pardon Board hearings determined by the current Governor. The Pardons Board expenses are paid by the Parole Board's budget. The Parole Board does not receive additional funds for Pardons Board expenses. Three Pardons Board hearings were held in fiscal year 2020. If SJR1 passes in the November 2020 vote, there will be a minimum of four Pardons Board hearings held per year. A five year average is \$1,600.50 per hearing times four hearings = \$6,402 The requested increase is for \$3,282.

E720	NEW EQUIPMENT This request is for 33 (27 FTE and 6 contracted employees) webcams to utilize Windows 365 Teams online and better communicate with The Department and other Divisions of Public Safety. Webcams were requested and approved in the Parole Board's fiscal year 2019-2021 biennial budget. The Parole Board was unable to locate the webcams at the cost provided by EITS. When COVID-19 pandemic occurred, the Parole Board located other webcams, but they were out of stock and there was no guarantee the items would arrive before the close of fiscal year 2020. And also This request is for 10 Zoom business licenses and Zoom Cloud connectors. The Parole Board conducts parole hearings via video conference from the Parole Board Las Vegas and Carson City offices to the institutions. During COVID-19 and the Governor's directive to close state office to the public, the Parole Board had to postpone approximately 1,050 hearings because statutorily hearings must be open to the public. Should COVID-19. or any other unforeseen issue arise that could possibly close our offices, the Parole Board would like to mitigate the risk of canceling or delaying hearings for months, or longer by having the ability to conduct virtual hearings through Zoom. Please see attached Chairman's letter. [See Attachment]

E490	EXPIRING GRANT/PROGRAM				
	This request funds the State Flexibility to Stabilize the Market Grant Program activities. This grant expires 08/21/2021.				
	This grant was awarded to provide the state's insurance regulators with the opportunity to enhance the states' ability to strengthen their respective health insurance markets through innovative measures that support market reforms and consumer protections under the Patient Protection and Affordable Care Act (PPACA). The division has used these grant funds to develop tools to analyze health provider networks to determine if severe market outliers exist which could potentially discriminate against individuals with high cost illnesses.

	This request continues funding for 12 employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
4021	MISCELLANEOUS SALES This funding source is from revenue received from the \$25 fee charged to investigators for receipt of property lists. The Unclaimed Property Division receives requests from investigators (also known as heir finders) pursuant to NRS 120A.740 for property lists. This revenue source funds a portion of expenditure category 01 (salary costs).	1,600	1,470	1,600	1,600
4677	TRANSFER FROM ABANDONED PROPERTY This funding source is a transfer from budget account 6150, the Abandoned Property Trust Account. The Trust Account receives all monies associated with the Unclaimed Property Division, such as unclaimed funds from holders and the proceeds from the sale of abandoned property. The funding for the administration of Unclaimed Property (budget account 3815) is authorized per NRS 120A.620.	2,341,621	2,696,141	2,405,125	2,426,843

7041	PRINTING AND COPYING - A This request continues funding for printing and copying services for the Unclaimed Property Program. The program incurred an increase in printing expenditures due to an increase in the number of campaigns released in FY20 to assist Nevadans in claiming their unclaimed property. These campaigns targeted Nevada non-profit groups, Native American tribal groups in Nevada, and worked with DETR to target unemployed Nevadans due to the COVID-19 pandemic. These campaigns increased printing costs in order to provide Nevadans the necessary paperwork to claim their property. The Treasurer's Office is requesting to maintain the FY20 amount for FY22/23.	965	526	965	965
7045	STATE PRINTING CHARGES This request continues funding for State printing services. The program incurred an increase in printing services in FY20 due to an office move in which new envelopes were needed displaying the updated address. The cost for printing the new envelopes was \$252.69 which will be reflected in a M150 decision unit as this was an one time expenditure.	401	148	401	401

	Per NRS 477.045(1)&(2) and NAC 477.323 the SFM shall collect a surcharge of \$60 for each hazardous materials storage permit issued throughout the state plus \$90 for administrative costs. The \$60 revenue must be deposited into the contingency account for hazardous materials. Per NRS 459.735 (2)(e), this revenue is for the operation of training programs and a training center for handling emergencies relating to hazardous materials and related fires pursuant to NRS 477.045. This revenue represents the amount transferred from the contingency account that has been identified to fund expenditures authorized in NRS 459.735.

E380 SAFE AND LIVABLE COMMUNITIES

This requests funds a new Plans Examiner II in the division's Fire and Life Safety Bureau.

This request is prompted by the need to add additional staff to conduct fire and life safety plan reviews. Currently there is one permanent staff member, a Plans Examiner III, tasked with conducting fire and life safety plan reviews. This creates a delayed review time for project submittals. The State Fire Marshal Division has an average turnaround time from project submittal to initial review of approximately 30 days. Other local fire marshal agencies within the State of Nevada average a 10-day turnaround. The delay within the State Fire Marshal review times has subsequently caused a delay in construction start and completion times, the effect of which is some projects not meeting deadline completion dates. This results in delayed openings in schools, businesses, state buildings and health care facilities. This may create a financial burden to those parties involved. Additionally, as the Plans Examiner III has a backlog of plans to review, he is unable to tend to other statutory obligations of the State Fire Marshal as tasked by NAC 477 and assigned to the Plans Examiner branch of the Fire Marshal division. These include cooperating with the Division of Child and Family Services of the Department of Health and Human Services in overseeing the safety of and directing the means and adequacy of exit in case of fire from foster homes, assisting local governments in drafting regulations and ordinances, conducting audits of rural agencies that have entered into an interlocal agreement with the State Fire Marshal to ensure they meet the minimum standards as prescribed by the Inter-local agreement, and coordinate and conduct the fire and life safety inspections of statutorily assigned inspections in rural counties that lack the infrastructure of a Fire Prevention program. Also, in the absence of the plans examiner III due to vacation, sick leave or other circumstance, there is no individual with the qualifications and certifications to fill that role. In 2008, there were 3 permanent Plans Examiner II personnel that, due to budgetary constraints, were eliminated. To date, none have been replaced.

<p>This requests funds various memberships and conference registrations in excess of what was legislatively approved in fiscal years 2020 and 2021. The division holds memberships to various organizations in line with the division's mission, ranging from Fire and Life Safety to Investigations and Enforcement. Additionally, conferences in association with these organizations may be attended. Currently, memberships are not budgeted across the board amongst existing personnel that the memberships and conferences would be applicable to. To provide consistency and equal opportunity to hold memberships and attend conferences, this request funds these additional memberships and registrations.</p>

Section A1: Line Item Detail by GL

Budget Account: 3820 B&I - COMMON INTEREST COMMUNITIES

The Office of the Ombudsman for Owners in Common-Interest Communities and Condominium Hotels assists in processing claims submitted to mediation or arbitration pursuant to NRS 38.300 to 38.360, inclusive. The Office also assists owners in common-interest communities to understand their rights and responsibilities and the governing documents of their associations, including, publishing materials related to those rights and responsibilities. The Office investigates disputes involving NRS 116, NRS 116B, or the governing documents of an association, and assists in resolving such disputes. The Office also aids persons appointed or elected to serve on executive boards of associations to carry out their duties, and compiles and maintains a registration of each association organized within the state. The seven-member Commission for Common-Interest Communities and Condominium Hotels was created in 2003 to conduct disciplinary hearings, adopt regulations, and act in an advisory capacity for the program. Statutory Authority: NRS 38.300 through 38.360; NRS 116.600 through NRS 116.795; NRS 116A.200 through NRS 116A.470; NRS 116B.870 through NRS 116B.915.

	NRS679B.305(2) requires that not less than a \$40,000 reserve balance is to be maintained in Budget Account 3821 - Insurance Recovery to be used to satisfy claims against licensees.				
	Prior to the 78th Legislative Session, any balance in excess of \$40,000, was required to be transferred to DOI BA3824 - Education and Research for education and research activities. During the 78th Legislative Session, the DOI consolidated BA3824 into BA3813 - Insurance Regulation.				
	In FY15, the actual revenue collected in BA3821 exceeded the Legislatively approved by \$169,320. However, due to Department oversight in processing the transfer of \$169,320 into BA3813 and the subsequent decision by the Legislative Council Bureau that the transfer could not be done in FY16, a reserve balance of \$209,320 remains.

Budget Account: 3826 B&I - REAL ESTATE EDUCATION AND RESEARCH

The Real Estate Education and Research Program (program) promotes and ensures awareness of relevant laws and practices required of real estate licensees, and provides information to the public regarding laws and requirements of all parties in a real estate transaction. The program also prepares and distributes statutorily mandated disclosure information to both sellers and buyers in residential real estate transactions. The duties and mission of the program are accomplished through publication of printed materials, proactive oversight of real estate education offerings to licensees, the Nevada Real Estate Division website, public information initiatives, contracted education programs, and research contracts. The program also processes pre-licensing, post-licensing, and continuing education courses in order to ensure high quality education for licensees; conducts audits of approved courses; develops educational programs; provides immediate accessibility for licensees and the public to division forms and information through the division website. Statutory Authority: NRS 645.842.

E551	TECHNOLOGY INVESTMENT REQUEST				
	The aim is to transition from legacy aging licensing software program(s) with limited support to one integrated seamless program that includes the Education Section, Payment processing and Administrative functions without losing any operational functionality. The overarching goal is to implement an integrated education system. The system will provide necessary pre/post and continuing education course application and renewals, school, sponsor and instructor application and renewals, State and National testing administration and implementation with third-party vendors, including monetary and fiscal tracking needed to seamlessly move licensees applications through the license process, move licensees through the education renewal process, maintain accurate receipting records, provide for proper monitoring, generate required reports and keep the public apprised of licensees education requirement status.				
	The current system is a manual process, paper heavy, requiring cash and check processing, with not systems integration for testing, rosters, calendars, evaluations uploads or tracking. The current platform is simply a registration system that must be done by division personnel and Nevada Real Estate Division must resort to expensive reprogramming, modifications, and patches to keep up with changes to Statute, business practices, and data collection. Additionally, the current system does not allow for online access and requires manual operation for many of aspects which the new system will cover. [See Attachment]

E226	EFFICIENCY & INNOVATION				
	This request funds the addition of three new financial examiner positions to meet Federal Deposit Insurance Company (FDIC) financial examination requirements and to coordinate examination efforts with the FDIC resident examiners, who facilitate the examination efforts of large saving banks. The positions requested to meet these objectives include: one Financial Institutions Examiner III and two Financial Institutions Examiners II. In effort to meet examination requirements and to coordinate examination efforts with the Federal Deposit Insurance Company (FDIC) resident examiners, who facilitate these financial institution types, FID is requesting to build a savings banks examination team, within the depository team. The addition of three new positions, include: one Financial Institutions one Financial Institutions Examiner III; and two Financial Institutions Examiners II. Based on the size, complexity, and risk profile of depository savings banks FID will be conducting quarterly examinations in line with the FDIC schedule (NRS 673.450.1). This addition will enable the facilitation of the lengthy savings banks examination requirements, while maintaining the Division's ability to meet the examination requirements for the state's other depository institutions. During the April 28, 2017 Assembly Committee on Commerce and Labor, the FID Commissioner testified that an increase in staff may be needed to regulate large institutions of this level of complexity. Non-IFC work program C44487 was approved on October 22, 2018, enabling phase one of position additions to facilitate depository savings banks examinations. [See Attachment]

E550	TECHNOLOGY INVESTMENT REQUEST				
	This request funds the FID migration from the current system (Versa) to Nationwide Multi-State Licensing System (NMLS). The Financial Institutions Division (FID), over 10 years ago, implemented the Versa System, which is a Commercial-off-the-Shelf (COTS) software solution for state regulatory agencies. The system supports their core business functions, including licensing, examinations, enforcement, and reporting. The COTS vendor is Micropact, a division of Tyler Technologies. The system is hosted on EITS virtual servers. The current system is based on older technology and lacks some needed functionality. This project involves FID migrating from the current legacy system (Versa) to a new system. The new system (which has been in production for about 8+ years) named the Nationwide Multi-State Licensing System (NMLS), is a multi-state system (SaaS) used by all states. There is no charge to state regulators (it is paid for by the private sector licensees). At this time FID assumes the only cost to move to the new system is for data migration services, which are estimated to be approximately \$41,500. [See Attachment]

Budget Account: 3838 B&I - ACCOUNT FOR LOW-INCOME HOUSING

The Low Income Housing Trust Fund assists and encourages the private sector and other governmental entities in creating and maintaining affordable housing throughout the state and serves as the main source of matching funds for federal housing programs. This program supports brick and mortar initiatives or rental assistance for families whose income falls at or below 60 percent of median income. Additionally, the fund provides down payment assistance for first-time homebuyers. Statutory Authority: NRS 319.500.

15 LOAN DISBURSEMENTS

Expenditures related to payments to Trust Fund subgrantees.

The Federal government determines the annual allocation to the Division and in turn the Division sub-grants the award based on population and the state demographers data.

Within 12 months of the award notifications, each sub-grantee is required to provide the Division with a project list and the timeframe in which they anticipate these resources be spent. Based on the information provided by these sub-grantees, the funds are encumbered and payment anticipated. For FY17, several projects are being completed and the result is a larger annual expenditure.

84	ENCUMBERED RESERVE				
	Reserved funds that have already been committed to subgrantees.				
9178	RESERVE - BAL FWD TO SUBSEQUENT FY Category 84 is used to track funds that have already been committed to sub-recipients. See attached list of sub-recipient encumbrances. The change in reserves is derived from the plans submitted by the sub-grantees showing which of their projects will draw down funds in FY22 and FY23. The nature of these construction projects take approximately 18-24 months from award of funds to completion of construction/draw down. This is why the balances appear to be carried over several years and then drop. The Division has little control over the timing of the draw of funds by the sub-grantees. 	Expenditures related to payments to Trust Fund subgrantees. The Federal government determines the annual allocation to the Division and in turn the Division sub-grants the award based on population and the state demographers data. Within 12 months of the award notifications, each sub-grantee is required to provide the Division with a project list and the timeframe in which they anticipate these resources be spent. Based on the information provided by these sub-grantees, the funds are encumbered and payment anticipated. For FY17, several projects are being completed and the result is a larger annual expenditure.

Expenditures related to payments to Trust Fund subgrantees. The Federal government determines the annual allocation to the Division and in turn the Division sub-grants the award based on population and the state demographers data. Within 12 months of the award notifications, each sub-grantee is required to provide the Division with a project list and the timeframe in which they anticipate these resources be spent. Based on the information provided by these sub-grantees, the funds are encumbered and payment anticipated. For FY17, several projects are being completed and the result is a larger annual expenditure.

E900	TRANSFER ADMIN PCNS TO FROM 3845 TO 3841				
	This request transfers one Chief Assistant, two Administrative Assistant 3's, one Administrative Assistant 2, and one Information Technology Professional 3 from Nevada Housing Division, budget account 3845 to Nevada Housing Division, budget account 3841.				
	During a prior legislative session, the Housing Division incorporated the Manufactured Housing Division via merger. As part of this merger, several positions were moved from their prior budget accounts into the newly created budget account 3845 Housing Inspection and Compliance. Testimony was provided during session that the Division would monitor the changes and make adjustments as necessary over the next biennium. This request would provide a more efficient method for inter-divisional cost allocations by consolidating shared staff into one budget account 3841. It would allow the Division to have one cost allocation from budget account 3841 to each of the receiving budget accounts (3838, 3839, 4865 and 3845) instead of having the bi-directional cost allocations which currently exist. The Division believes this would increase efficiency in calculating cost allocations, increase the ability to more accurately spread shared costs and would provide transparency by simplifying the number of cost allocations.

E902	TRANSFER FEDERAL HOME PROGRAM TO FROM 3841 TO 3838				
	This request transfers the Federal HOME Program, one Grants & Projects Analyst 3, and one Grants & Projects Analyst 2 from Nevada Housing Division, budget account 3841 to Nevada Housing Division, budget account 3838.				
	This request would consolidate all non-weatherization Federal and State grant programs in budget account 3838. This would allow the Division to make fewer payroll cost allocations between budget accounts and provide additional flexibility for grant/program staff to work across multiple grants. The GL and Categories impacted by this transfer are: RGL's 3580, 4331, 4429, categories 15, 90, and a portion of 86.

E900	TRANSFER ADMIN PCNS TO FROM 3845 TO 3841 This request transfers one Chief Assistant, two Administrative Assistant 3's, one Administrative Assistant 2, and one Information Technology Professional 3 from Nevada Housing Division, budget account 3845 to Nevada Housing Division, budget account 3841. During a prior legislative session, the Housing Division incorporated the Manufactured Housing Division via merger. As part of this merger, several positions were moved from their prior budget accounts into the newly created budget account 3845 Housing Inspection and Compliance. Testimony was provided during session that the Division would monitor the changes and make adjustments as necessary over the next biennium. This request would provide a more efficient method for inter-divisional cost allocations by consolidating shared staff into one budget account 3841. It would allow the Division to have one cost allocation from budget account 3841 to each of the receiving budget accounts (3838, 3839, 4865 and 3845) instead of having the bi-directional cost allocations which currently exist. The Division believes this would increase efficiency in calculating cost allocations, increase the ability to more accurately spread shared costs and would provide transparency by simplifying the number of cost allocations.

E901	TRANSFER HOUSING ADVOCATE FROM 3845 TO 3841 This request transfers one Affordable Housing Advocate from Nevada Housing Division, budget account 3845 to Nevada Housing Division, budget account 3841. During a prior legislative session, the Housing Division incorporated the Manufactured Housing Division via merger. As part of this merger, the new position of Affordable Housing Advocate was created and placed into the newly created budget account 3845 Housing Inspection and Compliance. Testimony was provided during session that the Division would monitor the changes and make adjustments as necessary over the next biennium. This request would provide a more efficient method for inter-divisional cost allocations by consolidating shared staff into one budget account 3841. It would allow the Division to have one cost allocation from budget account 3841 to each of the receiving budget accounts (3838, 3839, 4865 and 3845) instead of having the bi-directional cost allocations which currently exist. The Division believes this would increase efficiency in calculating cost allocations, increase the ability to more accurately spread shared costs and would provide transparency by simplifying the number of cost allocations.

E225	EFFICIENCY & INNOVATION				
	<p>This decision unit requests a new Compliance Audit Investigator III (Senior Investigator) to perform investigations relating to public works and prevailing wage and the Apprenticeship Utilization Act. This position will also supervise Compliance Audit Investigator II positions. The position will be located in the Las Vegas office.</p> <p>The workload and statutory and regulatory responsibilities of the Office of the Labor Commissioner have increased. The overall workforce in the State of Nevada has also increased. Since 2016, private employment has increased by 15% to 20% to 1,276,300 and construction employment has increased by over 20% to 30% to 96,200 (Department of Employment, Training and Rehabilitation.) These increases directly relate to the statutory and regulatory responsibilities of the Office of the Labor Commissioner because the Office of the Labor Commissioner is responsible for the enforcement of the following: (1) Minimum Wage and Overtime, Breaks and Lunches, and Deductions (NRS and NAC 607 and 608); (2) General Complaints and Employment Practices (NRS and NAC 607, 608, and 613); (3) Public Works Projects and Prevailing Wage and Apprenticeship Utilization Act (NRS and NAC 338); Private Employment Agencies and Producer Permits (NRS and NAC 608 and 611); and (4) Task Force on Employee Misclassification (NRS 607.) NRS section 338.013 requires awarding/public bodies to request and obtain a public works project (PWP) number from the Office of the Labor Commissioner. The change in the PWP amount from \$250,000 to \$100,000 (Assembly Bill 136 - 2019) has also resulted in increased oversight of public works projects and prevailing wage. In FY 20 there were 848 public works project (PWP) numbers requested. All of these projects require the Office of the Labor Commissioner to enforce prevailing wage and the new requirements of the Apprenticeship Utilization Act (Senate Bill 207 - 2019.) The Office of the Labor Commissioner also processed 83 waivers for the Apprenticeship Utilization Act as of August 31, 2020. In FY 20 the Office of the Labor Commissioner collected \$218,568 in Administrative Penalties and Investigator Costs that went directly to the General Fund. In FY 20 there were 4745 wage claims filed including, wage claims, general complaints, and prevailing wage claims. For wage claims, general complaints, and prevailing wage claims our office collected \$999,739 in wages and \$244,239 in penalties. To support the enforcement of prevailing wage and the requirements of the Apprenticeship Utilization Act a new Compliance Audit Investigator III (Senior Investigator) is needed to conduct investigations and supervise investigations by Compliance Audit Investigator II positions. The source of funding for this position would be a fee to obtain a public works project (PWP) number as required by NRS 338.013. The fees would be set as follows and would be paid by the general/prime contractor awarded the public works project. For projects between \$100,000 to \$1,000,000 million the fee would be \$250.00; for projects between \$1,000,000 to \$10,000,000 million the fee would be \$500.00; and for projects over \$10,000,000 million the fee would be \$1,000.00. The following revenue would be generated to support this position: \$142,000.00 (568 PWP #'s between \$100K and \$1million); \$130,000 (260 PWP #'s between \$1million and \$10million); and \$56K (56 projects over \$10million.) For reference, California requires contractors to pay a \$400.00 registration fee to even bid on a public works project. Montana requires a similar registration fee of between \$50.00 and \$550.00 depending upon the size and license scope of the contractor. Oregon and Idaho also have similar requirements to register and pay a fee and/or post a bond to even bid on a public works project.</p> <p>[See Attachment]</p>

E550 TECHNOLOGY INVESTMENT REQUEST

This decision unit requests new Labor Certified Payroll (LCP) Tracker Compliance and Workforce Manager software to assist and allow the Office of the Labor Commissioner to conduct investigations on public works projects, enforce prevailing wage on public works projects, monitor and enforce the use of apprentices on public works projects, monitor and report on construction workforce data and private employment data, and generate regional reports and dashboards on workforce data.

The Office of the Labor Commissioner is responsible for enforcing public works and prevailing wage laws and the utilization of apprentices on public works projects pursuant to NRS and NAC section 338. The LCP Tracker Compliance and Workforce Manager software will allow the Office of the Labor Commissioner to do the following: (1) Review and track public works projects and review certified payroll reports to ensure the correct prevailing wage is being paid; (2) Track and monitor apprenticeship utilization on public works projects by reviewing certified payroll reports; (3) Report on the career path(s) and retention of workers and apprentices through payroll reports and data; (4) Measure the success of workforce programs by tracking worker and apprentice data; (5) Track workforce and employment opportunities in construction and private employment, including, employment on public works projects; and (6) Create regional reports and dashboards on workforce data including but not limited to, number of workers on projects, age, ethnicity, gender, wages, wage increases, length in apprentice program, years as a journeyman, work history, etc.

For Fiscal Year 2020, the Office of the Labor Commissioner processed 848 requests for public works projects numbers. There are over 6,000 registered apprentices and over 50 registered apprenticeship programs in the State of Nevada. The ability to track the utilization of apprentices on public works projects is an essential requirement of the Office of the Labor Commissioner under NRS and NAC 338 and the Workforce Manager software will allow the Office of the Labor Commissioner to perform this function as detailed above.

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 3920 PUC - PUBLIC UTILITIES COMMISSION OF NEVADA

The Public Utilities Commission of Nevada (PUCN) regulates public companies engaged in: electric, natural gas, telephone, water, and sewer services; gas and electric master meter service at mobile home parks; and some propane systems. In addition, PUCN monitors gas pipeline and railroad safety. Statutory Authority: NRS 703-705, 704A, 705B, 707-710.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 103 employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	4,885,395	4,856,153	4,209,062	3,935,403
2512	BALANCE FORWARD TO NEW YEAR	-4,856,153	0	0	0
2520	FEDERAL FUNDS FROM PREVIOUS YEAR	-13,050	0	0	0
2521	FEDERAL FUNDS TO NEW YEAR	0	13,050	0	0
3305	UNIVERSAL ENERGY CHARGE ASSESSMENT NRS 702.150 through 702.170 allow the PUCN to collect the universal energy charge (UEC) levied on all retail customers who consume electricity and natural gas within the boundaries of the State of Nevada. The UEC funding provides for energy assistance and weatherization assistance to low-income Nevadans. To carry out its powers and duties, the PUCN retains an administrative fee not to exceed 3 percent and deposits the remaining monies to the fund for energy assistance and conservation administered by the Division of Welfare and Supportive Services. [See Attachment]	63,810	66,363	65,669	68,079
3315	REGULATORY ASSESSMENTS The PUCN's budget is funded primarily through the annual regulatory assessment (mill rate) levied against public utilities in the State for which they receive recovery from their ratepayers. Pursuant to NRS 704.033 the PUCN is required to notify utilities of the annual assessment rate by June 15th of each year for the following fiscal year. The statutory maximum is 3.5 mills (.0035) on each dollar of gross operating revenue derived from the intrastate operations of all public utilities subject to jurisdiction of the PUCN. With that in mind, the PUCN will have the opportunity to adjust the assessment accordingly should revenues be higher and/or expenditures be lower than projected and yet ensure sufficient funds are available during the fiscal year to meet expenses associated with state and federal utility issues; and/or additional expenditures that may be determined to be needed by the 2021 Legislature. Additionally, NRS 704.033(6) allows the PUCN to collect a \$200.00 annual licensing fee from commercial mobile radio service (CMRS) providers. [See Attachment]	11,719,724	11,686,428	12,070,816	12,070,816
3420	FED GAS PIPELINE SAFETY GRANT The PUCN is reimbursed by the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration for up to 80 percent of the allowable costs incurred from the previous calendar year by its Pipeline Safety Program. [See Attachment]	750,685	703,415	799,957	795,391
3716	INSPECTION FEES NRS 704.309 allows the PUCN to levy and collect an annual assessment from each railroad subject to the Commission's jurisdiction that transports cargo into, out of or through Nevada to support the activities of the PUCN relating to its Rail Safety Inspection Program. [See Attachment]	365,938	410,120	433,238	433,231
3717	APPLICATION FEES NRS 703.197 allows the PUCN to assess fees of \$10 to \$200 for the various types of applications, petitions and filings it receives.	16,470	17,800	16,470	16,470

10	OUT-OF-STATE AUDITS				
	This category is used much like a revolving fund in that out-of-state travel for audits of utilities and railroads whose records are located outside the State of Nevada are charged to this category. Subsequent to the audit trip, the utility is billed for all costs of travel in excess of state per diem rates. This category is also used in the same manner by Commission members and Staff for out-of-state investigations, audits and appearances resulting from PUCN interventions in proceedings before the Federal Energy Regulatory Commission (FERC), the Federal Communications Commission (FCC) or other federal regulatory agencies (NRS 703.145). Reimbursements of these expenses are deposited in revenue general ledger number 4355.				
	These charges occurred more frequently in the past. Due to infrequency of these charges, the Commission does not believe these costs will occur during the next budget biennium.

<p>This category is used much like a revolving fund in that out-of-state travel for audits of utilities and railroads whose records are located outside the State of Nevada are charged to this category. Subsequent to the audit trip, the utility is billed for all costs of travel in excess of state per diem rates. This category is also used in the same manner by Commission members and Staff for out-of-state investigations, audits and appearances resulting from PUCN interventions in proceedings before the Federal Energy Regulatory Commission (FERC), the Federal Communications Commission (FCC) or other federal regulatory agencies (NRS 703.145). Reimbursements of these expenses are deposited in revenue general ledger number 4355.</p> <p>These charges occurred more frequently in the past. Due to infrequency of these charges, the Commission does not believe these costs will occur during the next budget biennium.</p>

E247 EFFICIENCY & INNOVATION

This enhancement decision unit requests increased training travel funds in Category 30.

This enhancement is increasing the training travel funds in Category 30 to what would have been the base amount for Fiscal Year 2020 had training not been cancelled due to the COVID-19 pandemic. This travel impacts all employees of the PUCN and is in various locations (see attached travel log which lists cancelled trips, dates, employees and amounts). Training varies depending on the employee from mandatory required training for Rail and Pipeline employees and training to complete Continued Learning Education requirements for employees with licenses. All training also provides opportunities to learn new skills, gain knowledge on the evolving industry and share that knowledge with other employees of the PUCN. The employees would have attended these trainings in Fiscal Year 2020 but events were cancelled by the hosting vendors along with the State of Nevada's travel restrictions. The PUCN employees will continue to attend these types or similar types of training opportunities each year.

This enhancement decision unit requests increased travel funds in Category 03.					
This enhancement is increasing the travel funds in Category 03 to what would have been the base amount for Fiscal Year 2020 had travel not been cancelled due to the COVID-19 pandemic. This travel impacts all employees of the PUCN in the State of Nevada (see attached travel log which lists cancelled trips, dates, employees and amounts). Travel varies depending on the employee from essential travel for Rail, consumer session and hearings for dockets to travel within the State for conferences and workshops to stay current on new rules, regulations and staying current on emerging patterns for the employee's work. The employees would have attended these trips in Fiscal Year 2020 but events were cancelled by the hosting vendors along with the State of Nevada's travel restrictions. The PUCN employees will continue to attend these types or similar types of travel opportunities each year.

Budget Account: 3922 B&I - NEVADA TRANSPORTATION AUTHORITY

The Nevada Transportation Authority (NTA) provides fair and impartial regulation of motor carriers to promote safe, adequate, economical and efficient service, and to foster sound economic conditions in motor transportation. Pursuant to NRS 706 and NRS 712, the NTA has statewide regulatory authority for the household goods industry, tow car industry, bus industry and limousine industry. In addition, the NTA has regulatory authority over the taxicab industry throughout the state, except in Clark County. Pursuant to NRS 706A, the NTA has statewide regulatory authority for the operation of transportation network companies and their driver partners. Pursuant to NRS 706B the NTA has statewide regulatory authority for the operation of autonomous vehicle network companies.

Budget Account: 3923 B&I - TRANSPORTATION AUTHORITY ADMIN FINES

In 1997, a special fund for use of the Nevada Transportation Authority was established pursuant to NRS 706.771, which requires that all administrative fines imposed and collected by the Nevada Transportation Authority are credited to a separate account to be used by the Authority to enforce the statutory provisions. Statutory Authority NRS 706.

4157	FINES Administrative fines for violation of NRS and NAC 706. The NTA projects fine revenue based on enforcement efforts, hearing outcomes related to violations, and collection activity. Fines cannot be projected forward with certainty since violations are unknown, nor can the final decision be predicated on matters that may come before the Authority for adjudication. FY20 and FY21 revenue for GL 4157 is projected to be \$172,860 for each fiscal year based upon the most recent 3-year average. (NRS 706.771) FY18 - \$166,449 + FY19 - \$198,893 + FY20 - \$153,237 = \$518,579/3 = \$172,860 [See Attachment]	153,237	224,886	172,860	172,860

Budget Account: 3952 ATHLETIC COMMISSION

The Nevada State Athletic Commission (Commission) regulates all contests or exhibitions of unarmed combat, including the licensure and supervision of promoters, boxers, mixed martial artists, kick boxers, seconds, ring officials, managers and matchmakers.

The Nevada Athletic Commission was established by an act of the Nevada Legislature in 1941. Since that time, the Commission has regulated professional unarmed combat (e.g., boxing, kick boxing and mixed martial arts) in Nevada. The conduct and regulation of unarmed combat in Nevada are governed by NRS Chapter 467 and Chapter 467 of the Nevada Administrative Code. The Commission administers the state laws and regulations governing unarmed combat for the protection of the public and to ensure the health and safety of the contestants.

The POD Index is a method used to evaluate the performance of judges worldwide by determining the percentage of instances his or her scores are consistent with the other two judges working the same fights. The Athletic Commission uses this unique quantitative system to determine how accurate its judges are scoring bouts. This information is more detailed than the agency's own records because it includes all of the judges scores both in and outside of Nevada. It is an effective method in evaluating performance levels for existing judges and also potential judges that want to license in Nevada. It is also a statistical basis for assigning bouts, particularly championship title fights, when accurate scoring is crucial. Additionally, the judges themselves have started using POD Index to gauge their own performance and measure improvements. POD Index allows the Athletic Commission to innovate and improve its systems and provide the agency with accurate information for critical decision making.	7,000	7,000	7,000	7,000

	Addition of a New Staff Member (AA III)				
	Addition of another Administrative Assistant III. Currently the increase in shows dictates that we add another staff member. The increase in shows is due to COVID-19. The "No-Audience" event protocol mandates staff quarantine for specific time frames prior to each event. This means we are down staff in the office as well. Currently staff are struggling to schedule vacation periods and any type of absence at this point would have a major impact due to the work load. Although we cannot predict how long the current situation will continue we do not expect to revert to our normal protocols with large audience in attendance events with ticket sales for the foreseeable future. With vaccines, still in the trial phase and States rolling back openings after each new spike, we are seeking long term support for the increased workload. [See Attachment]

E227	EFFICIENCY & INNOVATION Officials Training \$2,500.00 Seeking to develop a small budget line for "Onsite" quarterly or biannual Officials Training. This fee would cover gym/boxing/octagon facility rental fees for training purposes. Officials include, Judges/Referees/Time Keepers. Las Vegas is recognized throughout the world as the preeminent city for Unarmed Combat sporting events. These events generate millions of dollars for State and other businesses. Which means the Officials MUST not make mistakes, as it could mean a loss of revenue if Promoters don't feel like the right calls are going to be made. The Nevada Athletic Commission strives to provide the Gold Standard for the sport of Unarmed Combat.

3700	REGISTRATION FEES In compliance with NRS 462.160, the Board charges a fee for charitable lottery or chartable games. The fee is \$25 per day for qualified organization other than qualified professional sports organization and \$200 per day for a qualified sports organization. Further, 462.160(4) states these fees are to be utilized to administer and enforce the provisions of NRS 462. Any fees collected would offset in personnel expenses (Category 01).	22,405	2,465	33,500	33,500
3704	INVESTIGATION FEES In compliance with NRS 463.335, the Board collects \$45 from each gaming employee applicant for reimbursement to process their work permit registration. This fee is used to reimburse the Board for personnel expenses (Category 01); operating expenses (Category 04); information services (Category 26), OSHA (Category 28) and training (30). This line item coupled with GL 3705 funds 2.4% of Budget Account 4061.	941,615	1,913,238	1,073,930	1,073,958

4666	TRANSFER OF BOND PROCEEDS In compliance with the Federal Forfeiture Guidelines, the Board can use Federal Forfeiture funds to pay the salary and benefits of a position used to fill a vacancy created for an existing Enforcement agent assigned to a federal task force. Two Enforcement positions, PCN 800 and 801, have been designated as these replacement positions and any payroll costs will be transferred from the Federal Forfeiture budgets (BA 4064/4066) when costs are incurred.	0	209,375	209,366	209,366
4669	TRANS FROM OTHER B/A SAME FUND	2,471,728	0	0	0
4688	TRANS FROM GAMING INVESTIGATIVE In compliance with NRS 463.331, an investigative fund was established to pay all expenses incurred by the Board and Commission for the investigation of gaming applications (BA 4063). The portion of the fund paying for the hourly rate charged for the agent's time is transferred to BA 4061 to supplement funding of personnel services (Category 01). All other categories are funded via this revenue source primarily to cover the cost of the Investigations Division and the Gaming Lab. This line item funds approximately 26.3% of BA 4061's submitted budget. [See Attachment]	11,370,536	12,361,813	12,123,870	12,108,962

	In 1995 the Legislature approved a Credential Payment Program authorizing the Board to adopt a plan for an additional payment of up to \$5,000 annually for qualified unclassified employees. In order to qualify for the credential payment, employees must possess a current Nevada Certified Public Accountant Certificate or a license to practice law in any of the 50 states and, in the opinion of the Board, must utilize the skills evidenced by these credentials to further enhance performance of job duties. Also qualifying for the credential payment are employees of the Board's Technology Division who are in possession of a Bachelor of Science or higher degree in engineering or computer science.				
	In FY 20, the Board paid the \$5,000 annual maximum credential payment in two separate payments of \$2,500 each for all eligible full time employees. One payment was made in December 2019 and a second at the end of FY 20. Base has been adjusted to add any employees who either qualify or are likely to qualify in FY 22 and/or FY 23. Refer to Attachment 01.1 for additional information.				
	Credential Pay is paid via manual journal vouchers rather than the State payroll system. The Nevada Executive Budget System automatically eliminates all benefits manually posted. Therefore the total request is made in Decision Unit M150.

	Out-of-state travel includes funding for meetings with officials and regulators from other gaming jurisdictions, meetings with federal officials, and attending conferences. In FY 20 the Nevada Gaming Control Board intended to send a representative to the International Association of Gaming Advisors summit. The summit was scheduled for June 2020 in Northern Ireland; however it was cancelled due to COVID 19. Additionally, in compliance with the State mandate for budget reductions, all funding available for FY 20 and for FY 21 was reverted. The Board is requesting to restore the out-of-state travel. This request is less than the three year average from FY 17 - 19, but will allow the Board to meet its needs. [See Attachment]

6001	OTHER TRAVEL EXPENSES-A In compliance with all Agency Memorandum 2020-08, travel plans were restricted for the last four months of FY 20 due to COVID 19. This mandate continues into FY 21 and will have an effect ifor the budget request in FY 22 and for FY 23. The majority of the increase in FY 22 is due to out of town audits. Given the restrictions on travel in FY 20 and in FY 21, the Board projects the auditor's travel will not resume to a normal pace until the latter part of FY 21. This has resulted in delays for performing out of town audits. The increase in auditor travel in FY 22 is \$102,892 and in FY 23 is \$51,091. Per NRS 463.110, the Board meets monthly at a time and place of their discretion. Historically the Board conducts six meetings in Carson City and six in Las Vegas. During FY 20 this plan was disrupted due to COVID 19 travel restrictions. The increase in executive travel is \$21,462 each year. The remaining increase of \$18,536 is intended for increased oversight of management in Administration and Technology Division. Refer to the attachments for additional information. 	During FY 20 casino operations temporarily closed due to COVID 19. This resulted in the number of gaming applications dropping dramatically from mid March through June. As a result the online payments dropped. Refer to the Vendor Services Schedule for additional information.				
7075	MED/HEALTH CARE CONTRACTS Medical contracts used for screening pre hires. Both Statewide contracts have been replaced with new vendors. As a result the rate for service increased. In addition the Board's hiring practice was disrupted due to the hiring freeze mandated in March 2020. The increased cost is based on the contractual rate times the average number of positions filled each year. Since FY 21 continues to have the mandated hiring freeze, the Board calculated the rate of new hires at 150% in FY 22 when compared to FY 23. 	In mid March 2020 the Nevada casinos were closed due to COVID 19. As a result the number of gaming employee applications filed dropped dramatically. In a normal year, the fee is 5.7% of the total number of applications paid. Based on historical rates the annual cost is projected to be \$1,368 each year.				
7401	CLIENT SERVICE PROVIDER PMTS-A Purchases in FY 20 are a nonrecurring expenditure; therefore base is reduced accordingly.	0	0	-19	-19
7460	EQUIPMENT PURCHASES < \$1,000 Purchases made in FY 20 are deemed recurring in nature. The Board purchased 5 desktop risers for employees experiencing ergonomic issues. Per the budget instructions projected cost can be justified based on a 5 year average or a 3 year average. The Board had an average cost of \$2,145 for 3 years. This would permit the Board to purchase approximately 6 desk risers per year. Refer to the Equipment Schedule for additional information.	0	0	351	351

7075	MED/HEALTH CARE CONTRACTS Any employee who reasonably anticipates contact with blood or other potentially infectious materials during the performance of their job is considered to have occupational exposure. The Enforcement Division's unclassified employees are POST certified and meet the definition of having this occupational exposures. Federal OSHA standards state the employer is required to offer hepatitis B vaccinations to these employees. By the end of FY 21, 49 of the total 91 positions will have received the vaccination. The remaining 45 positions have either initially declined or are uncertain. The OSHA standards does allow any employee who initially declines to receive the vaccination at a later date. The Board projects 20% of the staff per year, or 18 positions, will participate in receiving this vaccination. The current pricing for the series is \$300 for a total of \$5,400 per year. Budget Account: 4063 GCB - GAMING CONTROL BOARD INVESTIGATION FUND

The Nevada Gaming Control Board Investigative Fund was created as a special revenue fund for the purpose of paying all expenses incurred by the Board and the Commission to investigate a gaming application. Due to the unpredictable and fluctuating nature of the investigations and the subsequent funding to pay for them, it is difficult to predict the amount of money that will pass through this account and the type of expenditures which will occur. Statutory Authority: NRS 463.331.

5002	CREDENTIAL PAY In 1995 the Legislature approved a Credential Payment Program authorizing a plan for an additional payment of up to \$5,000 annually for qualified unclassified employees. In order to qualify for the credential payment, employees must possess a current Nevada Certified Public Accountant Certificate or a license to practice law in any of the 50 states and, in the opinion of the Commission, must utilize the skills evidenced by these credentials to further enhance performance of job duties. The Commission's Senior Research Specialist qualifies for Credential Pay because he is a licensed attorney. Credential pay is not in the State payroll system; therefore manual journal vouchers are prepared semiannually to record this pay. The actual credential pay is posted to GL 5100. When the NEB system downloads salary costs from the automated payroll system credential paid is eliminated in NEBS. The amount requested includes 3.96% for applicable benefits, or \$5,198.	0	0	5,198	5,198
5860	BOARD AND COMMISSION PAY Adjustment to annualize the Commission Members' salaries and to reinstate the applicable benefits. The Commission Members are paid via manual journal vouchers rather than the State payroll system. The Nevada Executive Budget System automatically eliminates all benefits manually posted. 6001	OTHER TRAVEL EXPENSES-A Out-of-state travel includes funding for meetings with officials and regulators from other gaming jurisdictions, meetings with federal officials, and attending conferences. In FY 20 the Nevada Gaming Commissioners intended to send a representative to the International Association of Gaming Advisors summit. The summit was scheduled for June 2020 in Northern Ireland; however it was cancelled due to COVID 19. Additionally, in compliance with the State mandate for budget reductions, the full funding for FY 20 and for FY 21 was reverted. The Commission is requesting to restore the out-of-state travel funding. [See Attachment]	0	0	221	221

6001	OTHER TRAVEL EXPENSES-A Travel expenditures for the five Commission Members and the Senior Research Specialist. Per 463.029, the Commission meets monthly at a time and place of their discretion. The Commission routinely conducts at least two meetings in Carson City and ten meetings in Las Vegas. During FY 20 this plan was disrupted due to COVID 19 travel restrictions. In addition the Southern Nevada Commissioners and staff traveled via personal aircraft owned by a former Commissioner. This transportation is no longer available, therefore the Commissioners will be required to travel via commercial aircraft. The travel costs are based on all allowable travel expenses reimbursed by the State. Refer to Attachment 03.2 for additional information. [See Attachment]	0	0	295	295

2021-2023 Biennium (FY22-23)**

Section A1: Line Item Detail by GL**Budget Account: 4101 DCNR - NEVADA NATURAL HERITAGE**

The mission of the Nevada Division of Natural Heritage (NRS 232.1369) is to maintain comprehensive data management systems on the locations, biology, and conservation status of all endangered, threatened, sensitive, and at-risk plant and animal (including invertebrates) species in Nevada. The Division manages data on rare and at-risk species, including data collection, data input, and quality control. These data are provided to other state agencies, federal agencies, non-governmental organizations, consultants, and the public to inform conservation planning and land-use planning decisions, facilitate federally mandated environmental review, minimize future resource conflicts, protect biodiversity, and help prevent species from becoming threatened or endangered. The Division maintains botanical expertise per NAC 527.200 and serves as scientific advisor to the State Forester/Firewarden for topics related to rare plants. The Division also manages the Nevada Wetland Program with the goals of stakeholder and interagency collaboration, understanding the extent, quality, and stressors of the state's wetland resources, and protecting and restoring wetlands as a carbon sequestration mechanism to address climate change.

REVENUE					
2510	REVERSIONS	-17,416	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR This balance forward amount is equal to the revenue received from RGLs 4259 and 4254, less the expenditures in categories 10 and 70. To improve efficiencies, the agency requests to establish this balance forward budget since revenue is balanced forward each year, but is currently not in the budget. In addition, the agency begins each fiscal year with zero cash and is unable to process early fiscal year payments. Establishing this balance forward cash will allow early fiscal year snatch and grab payments to occur seamlessly.	26,378	38,513	0	0
2512	BALANCE FORWARD TO NEW YEAR	-38,513	0	0	0
3503	FEDERAL RECEIPTS-USEPA WETLANDS GRANT This revenue is from federal Wetland Program Development Grants from the U.S. Environmental Protection Agency. Grant number 99T65201 expired in fiscal year 2020 on 10/31/2020. Grant number 99T93201 has a beginning grant period of 10/01/2019 and is expected to be expended in fiscal year 2021. This funding supports expenditures in categories 01 and 39. [See Attachment]	187,309	308,174	0	0
3581	USFWS DATA SHARING AGREEMENT This cooperative agreement with the U.S. Fish and Wildlife Service (USFWS) provides support to the Nevada Division of Natural Heritage and its efforts to maintain and enhance tracking of at-risk species. The agreement also provides data to the USFWS to assist with project environmental review and conservation planning. This was a five-year agreement that expires in fiscal year 2021.	5,000	5,000	5,000	5,000
4230	COST ALLOCATION REIMBURSEMENT - A The revenue source for these Indirect Costs is U.S. Environmental Protection Agency grant number CD99T93201.	219	0	0	0
4254	DATA BASE RUNS SALES The Nevada Division of Natural Heritage receives compensation to prepare responses to custom data requests on rare and at risk species for the public.	9,982	9,304	9,982	9,982
4259	NATURESERVE CONTRIBUTIONS This revenue line item is for funds received from NatureServe. The Nevada Division of Natural Heritage (NDNH) receives compensation from NatureServe for permission to use NDNH data for NatureServe projects. Related expenditures occur in CAT10 and are used for special projects that enhance NDNH's database and the NatureServe Network. Funds remaining at the end of each fiscal year balance forward until expended.	20,005	13,000	20,005	20,005
4266	AMERICAN FORESTS-USCA GRANT This revenue item is a grant from the U.S. Climate Alliance and American Forests. All expenses will occur in fiscal year 2021. [See Attachment]	0	62,751	0	0
4667	TRANSFER FROM WILDLIFE This was a one-time transfer to correct an error related to U.S. Environmental Protection Agency grant number CD99T65201, which expired in fiscal year 2020.	138	0	0	0
4668	NDF ENDANGERED SPECIES This revenue source is a pass-through subgrant from the Nevada Division of Forestry through the U.S. Fish and Wildlife Service Federal Award ID F18AP00714-0001-0320. This funding supports personnel and travel expenditures in categories 01 and 29. This grant is expected to be expended in fiscal year 2021. [See Attachment]	1,983	62,209	0	0
4669	TRANS FROM OHV This revenue line item is for grant funds received from the Nevada Off-Highway Vehicles Program. This revenue source supports expenditures in categories 01 and 27. This grant is expected to be expended in fiscal year 2021. [See Attachment]	144	19,856	0	0

4673	TRANS FROM ENVIRON PROTECT The revenue transfer from the Nevada Division of Environmental Protection (NDEP) is derived from two federal grants. The first one, a five year grant from the U.S. Department of Energy (DOE), became effective in fiscal year 2017 and expires in fiscal year 2021. The DOE funds are approved to offset salary and travel costs associated with program planning, data collection, and database management of rare species information. The DOE funding supports expenditure categories 01 and 35. The DOE grant is expected to be renewed, but negotiations are in process and fiscal year 2022 and 2023 funding amounts are not yet known. Therefore, the fiscal year 2021 budget amount was used as advised by NDEP (see attachments). The second grant, a Multi-purpose Grant (MPG) from the U.S. Environmental Protection Agency (EPA), became effective in fiscal year 2020. These EPA MPG funds are expended in special use category 49 through contract services and are expected to be fully expended in fiscal year 2021. [See Attachment]	126,763	164,920	111,361	111,361
4704	TRANS FROM TRANSPORTATION This revenue transfer from the Nevada Department of Transportation (NDOT) provides financial support to the agency to develop and maintain scientific information on the state's rare and at-risk plants and animals. In return, NDOT receives custom data reports upon request, satisfying their obligation to provide environmental analyses on NDOT project areas as mandated by the National Environmental Policy Act and the Endangered Species Act. As agreed to by NDOT, this funding supports salary and operating costs. This funding supports expenditure categories 01, 02, 03, 04, 26, 30, 40, 87 and 88. 	This request replaces computer hardware and associated software per the EITS recommended replacement schedule. The Nevada Division of Natural Heritage has a specific mission to maintain data management systems and to provide scientific information on the conditions and locations of the state's plants and animals of concern. This information is contained and updated within a unique database that is specific to the agency's mission. The database information is provided to other state and federal agencies to help streamline mandated environmental reviews for certain state and federal land use authorizations. Because the information is database driven, the agency's mission is dependent upon the functionality of computer equipment and software. [See Attachment]

E815	UNCLASSIFIED POSITION CHANGES This request aligns the tier level of the Nevada Division of Natural Heritage Administrator position to similar Administrator positions in the Department of Conservation and Natural Resources. This request increases the tier level of the Nevada Division of Natural Heritage (NDNH) Administrator from Tier Level 11 to Tier Level 8 to align the position with similar Administrator positions in the Department of Conservation and Natural Resources (DCNR). This is the fourth biennium for which this request has been submitted. The NDNH Administrator position is the lowest paid Division Administrator in DCNR yet has duties and responsibilities similar to other DCNR Administrators including general Division leadership, staff management, and decision-making; management of multiple grants and contracts; budget building, policy and regulation management and decision-making, partner relations, and more. This request increases the annual pay from \$91,841 to \$110,211 under Pay Policy 10, Unclassified Employees on Employee/Employer Paid Retirement Compensation Schedule, dated July 15,2019. NDNH was recognized in statute (NRS 232.1366) as a Division with DCNR in 2019 with specific duties outlined (NRS 232.1369). NDNH provides expertise in the areas of zoology, botany, and community ecology, including the study of wetland ecosystems, and maintains data systems related to the location, biology, and conservation status of plant and animal species and ecosystems. These data are provided to a variety of state, federal, private, and non-profit organizations to inform land use decisions, streamline mandated environmental reviews, avoid costly resource conflicts, and protect biodiversity to ensure species are not listed under the Endangered Species Act. In addition to managing seven FTEs and the data systems that house the state's biodiversity data, the Administrator position manages several grant-funded projects and other special projects. Since 2002, the NDNH Administrator position has managed Nevada's Wetland Program, and has received multiple federal grants from the U.S. Environmental Protection Agency totaling nearly \$2 million to develop the program. The NDNH Administrator also plays an integral part in the state's climate strategy, participating on working groups, and managing and coordinating research and grants related to quantifying Nevada's ecosystems as carbon sinks. The Administrator position also manages/oversees the Nevada Native Flora Committee per NAC 527, a public body of botanical experts who review and research Nevada's rare flora. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4130 B&I - TAXICAB AUTHORITY

The Taxicab Authority regulates the taxicab industry in counties whose population is 700,000 or more. It consists of a board and an administration whose purpose is to ensure the safety, comfort, and convenience of the riding public. The five-member board, appointed by the Governor, conducts monthly meetings, adopts appropriate taxicab regulations and conducts appeal hearings filed regarding final decisions made by the Administrator. Specifically, the Board decides rates, charges and/or fares for taxicab service, issues or transfers certificates of public convenience and necessity, and allocates medallions to certificate holders.

The Administrator is responsible for the control and regulation of the taxicab industry. Specifically, the Administrator determines the issuance, suspension and/or revocation of drivers' permits, enforces the safety standards for taxicabs within the industry, enforces administrative laws within NRS 706.881 to NRS 706.885 and NAC Chapter 706, as applicable and conducts administrative hearings.

2512	BALANCE FORWARD TO NEW YEAR	-4,557,703	0	0	0
3315	REGULATORY ASSESSMENTS Fees are passed to Taxicab Authority from Clark County in July and January. Clark County collects \$70.00 per taxicab and the Taxicab Authority receives 80% of the fees collected. NRS 706.8826. Budgeted amounts are based on a three year average of actual receipts. FY18 \$196,420 + FY19 \$192,743 + FY20 \$129,096 = \$518,259 / 3 = \$172,753	129,096	195,403	172,753	172,753
3610	CERTIFICATES The annual fee assessed each taxicab company operating in Clark County through the issuance of medallions authorizing the operation of individual taxicabs. The initial and replacement cost of each medallion is \$300. The current medallion allotment is 3,530. NRS 706.8826. 3,530 x \$300 = \$1,059,000	1,055,650	1,059,000	1,059,000	1,059,000
3656	DRIVER PERMITS Fees for initial permits, annual renewals and re-issuance. Costs: Initial permit or renewal of an expired permit \$40. Annual renewal, replacement or re-issuance due to change of employer \$10. NRS 706.8841. Budgeted amounts are based on actual Base year receipts.	77,811	127,418	77,811	77,811
3703	FINGERPRINT FEES These fees are representative of pass through fingerprint fees for background checks through the Criminal History Repository, currently \$36.25 per submission. Additionally, the Taxicab Authority charges a fee of \$15 which is retained for the support of the fingerprint program. The \$15 is recorded in GL 3722 (Misc. Program Fees) NRS 706.8841; 706.8825. Budgeted amounts are based on actual Base year receipts.	22,372	31,175	22,372	22,372
3717	APPLICATION FEES Fee associated with the initial application for a Certificate of Public Convenience or modification to an existing certificate due to stock transfers, the fee is \$200. NRS 706.8827. Budgeted amounts are based on a three year average of actual receipts. FY18 \$231 + FY19 \$1,000 + FY20 \$1,022 = \$2,253 / 3 = \$751	1,022	0	751	751
3722	MISCELLANEOUS PROGRAM FEES These fees are representative of pass through fingerprint fees for background checks through the Criminal History Repository, currently \$36.25 per submission. Additionally, the Taxicab Authority charges a fee of \$15.00 which is retained for the support of the fingerprint program. The \$15.00 is recorded in GL 3722 (Misc. Program Fees) NRS 706.8841; 706.8825. Budgeted amounts are based on a three year average of actual receipts. FY18 \$12,705 + FY19 \$8,921 + FY20 \$6,101 = \$27,727 / 3 = \$9,242	6,101	12,705	9,242	9,242
3750	TECHNOLOGY FEE RGL 3750 is assessed at a rate of \$0.05 per trip; this amount is 25% of the \$0.20 per trip fee assessed under RGL 3832. Due to the introduction of Transportation Network Companies to Nevada and the uncertainty of the COVID-19 pandemic, the revenue received from the technology fees is expected to fluctuate from the levels seen prior to their arrival. See attached revenue projections. [See Attachment]	511,079	604,958	578,743	683,692
3810	SERVICE & HANDLING CHARGE These fees are representative of pass through for fees collected to offset the costs of certified transcripts provided to the Board for taxicab driver administrative court hearing appeals. Due to the uncertain nature of these funds, budgeted amount is zero.	273	0	0	0

03	IN-STATE TRAVEL				
6200	PER DIEM IN-STATE In-state travel destinations for the Taxicab Authority (TA) are Laughlin, Mesquite and Carson City. The TA is charged with inspecting the taxicab fleet in Laughlin and Mesquite on a monthly basis. Annually, Laughlin hosts a major convention/special event in April, resulting in the highest event and revenue month for the TA. It is anticipated that TA Compliance Investigators will monitor those activities during the events. As part of the Department of Business and Industry and in effort to insure effective communication between the two entities, periodic travel is anticipated from Las Vegas to Carson City, for budgetary and department matters, as well as to attend Interim Finance Committee and Board of Examiners meetings.	61	464	61	61

E900 TRANSFER FROM 4130 TO 4681

This request transfers vacant PCN 0302 IT Professional 2 from budget account 4130 Taxicab Authority (TA) to budget account 4681 Department of Business and Industry Administration (B&I Admin). The Taxicab Authority currently has a vacant PCN 0302 IT Professional 2. This position was vacated by the incumbent in October 2019 and has been left unfilled due to declining TA revenues and the COVID related hiring freeze. The original purpose of this position was to navigate the TA through the process of defining, procuring, implementing, and supporting a new enterprise information system. The position also provides day-to-day IT support to the TA, including desktop software, mobile devices (for investigators and inspectors working in the field), the TA court system (For The Record), background check system, and support of peripheral devices (e.g. printers, scanners, etc.). The TA has determined that the current workload does not support the need for a full-time position. The new system, Accela, has been implemented through Phase 2 with the support of existing B&I Admin IT staff. The new Accela System supports licensing, medallion management, inspections, investigations, dispatch, enforcement, and the TA court (case management). The department IT staff is stretched thin not only supporting the TA, but supporting the overall department needs. By transferring the position to B&I Admin, where it would serve as an IT resource supporting the Department's 12 Las Vegas agencies, inclusive of the TA and 439 staff. Currently, there is only one dedicated overburdened IT position. The increasing reliance on video conferencing and telecommuting further impacts the workload. Additionally, the support will aid with the Department's multiple IT projects (e.g. new system implementations, system upgrades, deployment of new technology), where the B&I Admin IT staff have a critical role. Additionally, the transfer of this position enables the distribution of the associated costs and financial burden from one agency to 12 that will benefit.

Budget Account: 4149 DCNR - DEP STATE ENVIRONMENTAL COMMISSION

The Nevada State Environmental Commission (SEC) serves as the primary rule-making, variance, and appeal body for environmental regulations in Nevada. The Commission is an 11 member body that meets to establish regulations and resolve appeal actions for the Division of Environmental Protection. Expenses of the SEC are supported by fees. The SEC was originally established in the Air Pollution Control statutes (NRS 445B.200). Other statutes establish the jurisdiction of the SEC to adopt environmental regulations, set fees, and hear appeals. <p>This efficiency request funds a Personnel Officer III position to provide the knowledge, skills, and abilities necessary to keep the department apprised of the varying laws, regulations and rules, while also overseeing all personnel staff, tasks and needs of the department.</p> <p>The Department of Conservation and Natural Resources (DCNR) is a large department without a Personnel Officer. As human resource tasks have become more and more robust, with ever-changing federal and state laws, rules, and regulations, the lack of a DCNR Personnel Officer has proven to be inefficient for the department. As the department has grown in function, the human resource needs have also increased in complexity. With approximately 800 full time employees, multiple seasonal positions, and 11 boards and commissions, DCNR has over 1000 authorized incumbents. DCNR's lack of a Personnel Officer is in contrast to other departments of similar size, not only causing inconsistencies with internal personnel issues, but also causing a lack of knowledge of critical issues that face all departments within state government.</p> <p>DCNR has seven main agencies with three Personnel Analysts: one in the Division of Environmental Protection, one in the Division of Forestry, and one in the Division of State Parks. The Division of Forestry also has a Personnel Technician. The personnel functions for the other four DCNR agencies are handled by the Director's Office fiscal staff or by fiscal staff in the smaller DCNR agencies. While these positions combined handle the usual daily personnel tasks, the overall guidance, support and management for the department's human resource and personnel program is left for the Director or Deputy Director positions to oversee, manage and deal with directly. With other competing tasks, this model leaves the human resource program of the department without a solid foundation. A Personnel Officer would provide the knowledge, skills, and abilities necessary to keep the department apprised of the varying laws, regulations and rules, while also overseeing all personnel staff, tasks and needs of the department.</p> <p>[See Attachment]</p>

	This efficiency request transfers one Administrative Services Officer from Agency 334, DCNR, State Historic Preservation Office, budget account 4205 to Agency 700, DCNR Director's Office, budget account 4150.				
	The State Historic Preservation Office (SHPO) was transferred from the Department of Cultural Affairs to the Department of Conservation and Natural Resources (DCNR) in 2011. Since that time, the agency has realized greater fiscal efficiency through its support by the DCNR Director's Office fiscal staff. The Director's Office strives for a more centralized fiscal services for the smaller agencies within the department, of which SHPO is one of the smallest agencies within DCNR. Both SHPO and DCNR have realized that the Administrative Services Officer currently within the SHPO budget account 4205 can be more efficient by providing support on more of a department-wide basis rather than specific support focused only on SHPO. The Director's Office has also realized a greater need for additional fiscal staff to assist with the more varied and more numerous fiscal tasks that are required by a Director's Office. Since 2014, the Director's Office has been assigned three new programs / agencies without any additional fiscal support staff including: the Sagebrush Ecosystem Program with the Sagebrush Ecosystem Council; the Off-Highway Vehicles Program; the Division of Outdoor Recreation. The Natural Heritage Program was also changed from a program to a division during the 2019 Legislature, which has also morphed into a more complex division with new programs requiring increased fiscal support. This position transfer would help the Director's Office fiscal staff create better efficiencies overall, and would help support the new agencies and programs that did not previously exist within the department while making better use of an already existing position.

Budget Account: 4151 DCNR - CONSERVATION DISTRICTS PROGRAM

The Conservation Districts Program and the State Conservation Commission regulate the activities of Nevada's 28 locally elected conservation districts. Conservation districts work for the proper development and conservation of the state's renewable natural resources by using available technical, financial and educational resources and coordinating these resources so they meet the needs of landowners and the general public. The program works in cooperation with local jurisdictions, federal agencies, other state agencies, non-profit organizations, and the public for conservation of soil, water, and other natural resources. Statutory Authority: NRS 548 and 232.090.

Budget Account: 4155 DCNR - DEP WATER PLANNING CAP IMPROVEMENT

This budget account provides administrative support for the Capital Improvement Grants Program, which awards grants for capital improvement projects to small public water systems for qualifying water conservation projects and to defray costs associated with connecting individual septic systems to community sewer systems. This budget account is funded by grant application fees and bond proceeds. Statutory Authority: NRS 349.982.

Budget account 3189 currently has five staff members, all which perform tasks related to the Clean Water State Revolving Fund (CWSRF), Drinking Water State Revolving Fund (DWSRF), and the Capital Improvement Grants Program. Staff allocates their time to activities as they perform work for applicants, and to maintain the records. A fiscal year 2020 allocation worksheet is attached. The SFY22-23 budget was built anticipating a small percentage of staff time would be needed to work on the Capital Improvement Grants Program with its current funding levels. Should the legislature authorize bonds for the program, staff will increase their time spent working on the program, requiring additional funds to be transferred to BA 3189. There is no way to project this at the time of submission. [See Attachment]	2,230	2,853	2,230	2,230

2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This line item accounts for reserves, which consist of grant application fees and Treasurer's Interest collected in prior years. Grant application fees are required to be spent according to NRS 349.982(4). The Capital Improvement Grants Program is entirely supported with state resources. State grants are provided to water systems through bonds the state issues (non-executive budget account 4163). Administration for the program (BA 4155) is entirely reliant upon fees and Treasurer's interest. The program does not have any additional authority for bonding at this time and does not have a way to project what the Legislature will authorize in bonding for each biennium. Should the Legislature authorize the Treasurer's Office to issue bonds to support the program, then grants would be made to water systems. These grants would require a loan application fee to be paid to the program for administration. This would in turn, support the program. Should the Legislature not authorize the Treasurer's Office to issue bonds to support the program, then the program may use a portion of bond proceeds (less than 5%) for administration, or remain stagnant until such time the Legislature provides for additional bonds. E258	INFRASTRUCTURE, ENERGY & ENVIRONMENT This decision unit is to establish budgetary authority to receive fees from budget account (BA) 3198 and subsequently transfer them to BA 3189 for salary and benefit expenses of the professional engineer to review plans for projects seeking funding from the program. This is a companion decision unit to E258 in budget account 3189. BA 4155 administers the Capital Improvement Grants Program. This budget account does not directly fund any staff positions so the program must rely upon other positions to perform program administration and project reviews. BA 3189 funds a full-time professional engineer who is charged with reviewing drinking water projects that seek funding from the program. This enhancement would specifically provide funding for work the professional engineer performs in reviewing and monitoring project design, construction, and compliance to program requirements for projects that are anticipated within the FY22-23 biennium. Reasonable fees have been assessed and collected for carrying out the provisions of NRS 445.800 to NRS 445.955. Part of those provisions include the Legislature's declaration of state policy, "It is the policy of the State to provide for water which is safe for drinking and other domestic purposes and thereby promote the public health and welfare." (NRS 445A.800) The Capital Improvements Grant Program is a means that public water systems may utilize to help them meet their statutory requirements. Using fees for this purpose is consistent with the Division of Environmental Protections purpose for the fees and reduces the need for reliance on tax-exempt bond proceeds for administration purposes. Funds are needed to be transferred to BA 4155 prior to being transferred to BA 3189 so BA 4155 can properly account for the activities associated with the program in accordance to accounting principles and internal controls. A companion decision unit E258 exists in BA 3189 to receive these funds to offset salary and benefits associated with the professional engineer. Payroll worksheets are attached for further support. Budget Account: 4156 DCNR - ACCOUNT TO RESTORE THE SAGEBRUSH ECOSYSTEM

The 2013 Legislature approved AB 461 on June 11, 2013 and established the account to restore the sagebrush ecosystem per NRS 232.161. The account shall be administered in a manner consistent with polices and priorities established by the Sagebrush Ecosystem Council created by NRS 232.162. The Director may apply for and accept any gift, donation, bequest, grant or other source of money, and any money so received must be deposited in the account.

The interest and income earned on the money in the account, after deducting any applicable charges, must be credited to the account. Money that remains in the account at the end of a fiscal year does not revert to the State General Fund, and the balance in the account must be carried forward to the next fiscal year. The money in the account may only be used to establish and carry out programs to preserve, restore, and enhance sagebrush ecosystems pursuant to NRS 321.592 and 321.594.

Budget Account: 4160 DCNR - ENVIRONMENTAL QUALITY IMPROVEMENT

This budget account is established as an environmental quality improvement account with funds collected through the Supplemental Environmental Projects (SEP) program as defined by the United States Environmental Protection Agency (US EPA) as "environmental beneficial projects which a defendant/respondent agrees to undertake in a settlement of an enforcement action, but which the defendant/respondent is not otherwise legally required to perform." The Nevada Division of Environmental Protection's approach to SEPs is modeled after US EPA's program.

Funds related to the SEP program, and other enforcement actions that result in penalties with specific uses of the funds outlined in the enforcement action for use through the EQIA, will be held in this account and transferred to another Department of Conservation and Natural Resources budget account for expenditure upon identification of an appropriate related project.

Budget Account: 4162 DCNR - STATE PARKS

The Division of State Parks' mission is to develop and manage Nevada's diverse system of parks and recreation areas - while protecting scenic, historic and scientific resources, and providing access to outdoor recreation opportunities in support of a vibrant economy and a healthy populace. Major programs include: operations, planning, development, grant administration, safety, resource protection and management, maintenance, administration, law enforcement, and interpretation of cultural and natural resources. The Division headquarters are located in Carson City, with regional offices in Fallon, Panaca, and Las Vegas. The Division is comprised of 27 park units located throughout the state, and includes 133 permanent and 145 seasonal staff. The Division administers the Federal Land and Water Conservation Fund and Recreational Trails Programs, which provide grants to urban and rural communities for the development of trails and parks, and for the acquisition of land and water for outdoor recreation opportunities. The Division operates under the philosophy of doing the right thing for the visitor and the resource.

	This Decision unit requests additional cleaning supplies for various parks. Ice Age - this is a new park, with visitation that will increase as facilities are constructed. A cleaning supply budget is needed for trash bags, gloves, litter pickers, etc. Spring Mountain Ranch - In the last 10 years, annual visitation has increased by 80% (from 179,000 to 323,000). The park has run out of toilet paper, garbage bags, and cleaning supplies needed to keep up with the demand. Most recently, park staff has needed to borrow toilet paper and garbage bags from Super Summer Theater to get through the season. Wild Horse - this park needs more cleaning supplies due to the construction and operation of three new guest cabins that opened in 2020. [See Attachment]

E253 INFRASTRUCTURE, ENERGY & ENVIRONMENT

This Decision unit establish a maintenance budget for maintenance of park residences. NDSP has housing at most of its 27 locations. Housing is mandatory for law enforcement rangers at most locations as they are responsible for responding to calls for service 24 hours a day / 365 days a year. Nearly every residence is at least 20 years old with the vast majority of these residences being built in the 1970s or older. These residences have also received very little attention over the years as any repairs made to the residences directly competes with funding that is required to make repairs to park facilities used by the park visitor. Park Supervisors will nearly always prioritize their park facilities ahead of employee residences (even if it is the residence that they live in). This request is to set aside funding specifically to keep the residences maintained at a functional level. Since residency is required, it is critical to provide a decent standard of housing for those employees.

E261 INFRASTRUCTURE, ENERGY & ENVIRONMENT

This Decision unit establishes a budget for biennial budget to maintain Fort Churchill Ruins. The State Public Works Department completed a \$1.2 million project in 2019 to stabilize and repair the adobe ruins at Ft. Churchill State Historic Park. This request is a necessary follow-up to that project in order to provide ongoing maintenance of the adobe structures. This would include plastering the tops and exterior walls of the ruins to prevent future disintegration and degradation of this historic resource.

E262 INFRASTRUCTURE, ENERGY & ENVIRONMENT

This Decision unit enhances parks maintenance budget (Cat 07) for various parks. The budget necessary for general maintenance and upkeep of these parks is not sufficient to cover the needs. Projects include: herbicides for noxious weed control, building upkeep including paint, erosion control in campgrounds, irrigation and plumbing repairs, roof maintenance, and campsite fire ring replacement. These are examples of the types of projects that can not be completed without additional funding, which will result in longer term deferred maintenance with associated costs. All of these project examples also enhance the visitor experience.

	This Decision unit is an addition to operating expenses, specifically for fuel and vehicle maintenance for various parks. From 2015 to 2019, visitation to Nevada's State Parks increased by 31% (from 3.1 million to more than 4 million visitors). This increase in visitation coupled with new amenities such as cabins and campground upgrades has strained the operating budgets at our parks, with associated increases in costs for cleaning supplies, trash disposal, gasoline and tires due to more frequent patrols, vehicle repair/maintenance, safety equipment, etc. The effects of insufficient operating budgets result in parks limiting the number of times per day bathrooms are cleaned, limiting numbers of patrols to preserve gas and prevent vehicle wear and tear, delay vehicle repairs, etc.

	This Decision Unit converts 4 seasonal park aids to full time park aids. The use pattern at Valley of Fire has changed over the years from that of seasonal extremes in visitation to what is now a year round demand being put on the facilities. Valley of Fire maintains near full capacity 12 months of the year forcing a need for year round assistance in cleaning and maintaining the facilities. This request is to convert the seasonal Park Aid positions to year round positions to help ensure that the facilities are maintained to an adequate level at all times.

	This Decision unit is requesting additional operating supplies for various parks. When Walker River State Recreation area was established, there was no accurate way to predict operating expenses. Since the park was opened to the public, with 3 newly developed campgrounds, a visitor center, and resource protection/weed control occurring on thousands of acres, operating costs are now a known quantity. One of the major costs has been the fuel and vehicle maintenance needed for staff to service, maintain, and patrol the park's 12,000 acres. [See Attachment]

Radios are the main (and often only) method of communication for our park staff. Functioning radios are vital for emergency response, park operations, and for communication with public safety dispatch. When radios break or reach the end of their service life, there are no alternatives for efficient communication in the parks. Life expectancy for our radios is 5 years. As such, the NTRPA reviews all proposals to modify or remodel structures housing gaming. Board meeting agendas are required to be posted as a legal notice in at least three newspapers five days prior to each meeting. The expense for the posting of one meeting is approximately \$342. This Decision Unit includes noticing costs for three meetings. Please see example newspaper notice and invoice attached. NDSL serves as staff to the Nevada Tahoe Regional Planning Agency who is required to meet at least once per year. This Decision Unit would enable staff to facilitate four meetings per year by adding the costs associated with required newspaper postings. With recent planning activities related to structures housing gaming in Lake Tahoe, the agency anticipates facilitating more than the minimum required one meeting per year. [See Attachment]

Budget Account: 4171 DCNR - WATER RESOURCES

The mission of the Division of Water Resources is to conserve, protect, manage, and enhance the state's water resources for Nevada's citizens through the appropriation and reallocation of public waters. In addition, the division is responsible for quantifying existing rights; monitoring water use; distributing water in accordance with court decrees; reviewing water availability for new subdivisions and condominiums; reviewing the design, construction, and operation of dams; appropriating geothermal water; licensing and regulating well drillers and water right surveyors; reviewing flood control projects; collecting and monitoring water resource data and records; and providing technical assistance to the public and governmental agencies. The division also provides technical assistance and information to governmental agencies and the public concerning state, regional, and local water resource planning, and provides floodplain management, planning, and mitigation assistance to communities throughout the state. Statutory Authority: NRS chapters 532, 533, 534, 534A, 535, 536, 538, 540, and 543.

	This request continues funding for seventy-one positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL This revenue supports the operations of the Division, including personnel, out-of-state and in-state travel, operational expenses, equipment, payment for services by the United States Geological Service, operation of the South Fork Dam, state fund match for the Federal Emergency Management CAP grant, information services, training, and the attorney general cost allocation.	8,259,567	7,575,160	9,273,313	9,438,223

3502	FED FMA CAP GRANT This is a Federal Grant with a 67/33, federal/ state match. This funding can only be used for the Flood Plain Program (Category 01, Category 17 for program specific costs, Category 40, 87 and 88 assessments). State match authority is established in traditional expenditure categories. This line item has been adjusted to the current grant award. [See Attachment]	169,329	180,761	163,565	165,198
3503	FED FEMA DAM SAFETY GRANT This is a Federal Grant that can only be used for the Dam Safety Program, with no state match (Category 16 for program costs, Category 40, 87 and 88 assessments). This line item has been adjusted to the current grant award. [See Attachment]	60,429	79,808	60,429	60,429
4201	COURT REPORTER This revenue is from reimbursement of the cost of transcripts of their hearings. This court reporting expense varies due to the length and complexity of specific hearings. For example, the hearing on the Southern Nevada Water Authority Pipeline in 2011 cost \$34,320.00 for a single hearing. Multiple hearings are conducted each year. The agency was provided the authority to expand their adjudication staff in the 2013 legislative session so the authority for this revenue is adjusted to reflect the plan for these large hearings plus additional smaller hearings during the 2022-23 biennium. There is a corresponding M150 adjustment to base to bring the total authority to \$44,000.	22,514	44,000	23,288	24,784

4670	TRANSFER FROM WATER BASIN - NON-EXECS This is a transfer of revenue from our water basin accounts to cover 25 percent of the salary cost for PCN 0075, 100 percent of the salary costs for PCN 0076, 0077, and 0078, and 40 percent of the salary cost for PCN 0029, as well as a share of the funding for travel costs, operating costs, the Director's Office cost allocation and silvnet charges.	335,389	346,990	367,340	372,885
4673	TRANS FROM ENVIRON PROTECT Revenue received from the Division of Environmental Protection through a Department of Energy Grant. This revenue was initially received in FY 11 and is a revenue swap to offset the state's general fund. This grant funding will be used for costs associated with water basins underlying and adjacent to the Nevada Test Site. An M150 adjustment decreases total DOE authority to correspond with the DOE budget as provided by NDEP for the FY22/23 biennium. [See Attachment]	338,991	279,208	303,949	310,985

Budget Account: 4173 DCNR - STATE LANDS

The Division of State Lands holds title to over 304,000 acres of state-owned land, and acquires land and land interests for state agencies to carry out their missions. State Lands ensures the state is compensated for any use, occupancy or disposal of state-owned lands and maintains state land records. The agency is home to the State Land Use Planning Agency (SLUPA), which provides land-use planning services, administers the Nevada State Clearinghouse (a central location for coordinating state comments on federal land activities), coordinates the Nevada Joint Military Affairs Committee, and serves as staff to the State Land Use Planning Advisory Council. The agency houses the Nevada Tahoe Resource Team (NTRT) who coordinates various state conservation and environmental protection programs at Lake Tahoe. Finally, State Lands is a participating agency with the Sagebrush Ecosystem Program and has a representative on the Sagebrush Ecosystem Technical Team.

	This Decision Unit includes NDSL's portion of software license expenses for drone imagery mapping. The expense is shared among agencies within the department. The Decision Unit also adds a new vendor Pix4D to the Vendor Schedule. Please see attached quote and cost-share spreadsheet. NDSL utilizes drone technology to support state property inspections, especially when there is a need to cover large expanses of land or when accessibility is limited, such as on sovereign lands. NDSL borrows a drone housed in the Division of Water Resources. The Pix4D software enables mapping and "stitching" together the imagery collected from drone flights. The Decision Unit represents NDSL's equal share of the software license cost divided among four agencies within the department. [See Attachment]

	This efficiency request transfers one Grants and Projects Analyst and associated operating costs from State Parks budget account 4162, to the Division of Outdoor Recreation, budget account 4180. Transfer the Nevada Outdoor Education and Recreation Grant Program (NOERGP) budget account to the Nevada Division of Outdoor Recreation (NDOR). The effect and desired outcome of this change is to house, both administratively and financially, the NOERGP within NDOR. When the NOERGP was originally introduced, NDOR did not yet exist. The subsequent successful creation of the NDOR means that it and the NOERGP share some similar overarching missions, goals, and objectives. As a result, significant organizational and budgetary efficiencies can be linked to locating the NOERGP within NDOR. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4194 DCNR - FORESTRY - WILDLAND FIRE PROTECTION PRGM

The division manages the Wildland Fire Protection Program (WFPP), a cooperative arrangement established in the 2014-2015 biennium to provide wildland fire management services to participating entities. Counties and/or individual cooperators voluntarily opt-in to the WFPP. Doing so allows local governments to focus limited resources on local needs, while the division focuses on wildland fire protection. The WFPP educates and prepares landowners for fire, mitigates existing wildfire risk, and provides rapid response to fire events with a specially trained and equipped suppression force. The WFPP also participates in rehabilitation efforts to damaged lands after a fire. Statutory Authority: NRS 472.

B000	BASE				
	This request continues operating cost funding for the Nevada Division of Forestry (NDF) Wildland Fire Protection Program (WFPP). [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL General Fund included in this budget is for the purchase of seed, plants, and other materials used in wildland fire rehabilitation. These expenditures include the purchase of seed, plants and other materials for the purpose of restoring land and vegetation that was disturbed or damaged by wildfire and related suppression activities such as the creation of bulldozed firebreak lines. Any disturbance of wildland caused by fire suppression activities that may result in increased threats to the public or area infrastructure is typically repaired as soon as practical. The FY21 Work Program amount was reduced in work program 21BR4194 due to COVID related budget reductions. This funding should continue in the 22/23 biennium.	50,000	0	31,933	31,933
2510	REVERSIONS	-18,066	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR Maintaining a reserve of Wildland Fire Protection Program (WFPP) county assessments reduces the significant fiscal impact of seasons with numerous or large fires. Funds will be balanced forward during periods of minimal fire activity, thereby building a reserve over time to prepare for seasons with heavy fire activity.	990,822	1,190,853	1,542,837	1,981,708

5170	SEASONAL Seasonal firefighting and other support positions are critical to allow the Nevada Division of Forestry (NDF) to provide fire suppression readiness cost-effectively each wildfire season. Seasonal positions increase the number of firefighters available during the height of the fire season. Note regarding budgeting treatment: Seasonal positions cannot be identified separately within existing payroll systems, therefore the positions are not funded in base, but are contained in a special NEBS Budget Version "S01 - SEASONALS". Cost estimates derived from that NEBS version are funded in the Agency Request budget through an M150 within CAT 01, Personnel Services, GL 5170, Seasonal.	0	633,821	0	0

	The preferred method of overtime compensation for non-emergency work performed on behalf of NDF is through the accrual of compensatory time. However, pursuant to NAC 284.250(3), compensatory time may not be accrued in excess of 120 hours. Due to work load issues, the agency must monitor the accrual of compensatory time and internal policy requires a plan for usage when an employee accrues 60 hours or more. In some cases, when such usage is not possible, the agency must pay down or pay off these accruals in order to continue the necessary work of the Division.

	NDF employees placed in standby status receive standby pay. Standby pay is paid at the rate of 5 percent of the employee's normal rate of pay for every hour in standby status. Standby status occurs when an employee is: 1) directed to remain available for notification to work during specified hours; 2) prepared to work if the need arises, whether or not work occurs; 3) able to report to work within a reasonable time; 4) directed by his/her supervisor to carry a paging device, provide a telephone number where he/she may be notified or provide any other acceptable means for notification; and 5) allowed to use the time he is waiting for notification to work on personal pursuits. Because standby is a normal operating function of the agency and ensures the ability to respond to emergencies, it remains in base.

	The core mission of the Nevada Division of Forestry (NDF) places employees in situations in which they have to be readily recognizable and, perhaps more importantly, in situations where clothing must be of a protective nature. NDF has designated 4 classes of authorized uniforms including protective clothing that meets standards for fire ratings required for respondent staff. Pursuant to NRS 281.121, NDF has received approval from the Budget Division for various staff to be budgeted for each class of uniform, and provides compensation for these uniforms. These expenditures are calculated in a NEBS schedule.

E900	TRANSFERS				
	This decision unit transfers personnel and related operating expenditures in budget account 4194, Wildland Fire Protection Program to budget account 4195, Forestry to provide firefighters with predictable and stable funding.				
	NDF's Wildland Fire Protection Program (WFPP) staff (firefighters) are currently housed in budget account 4194 and funded entirely by participating county contributions. These positions protect life and property from the effects of catastrophic wildfire. The funding for these positions and their associated operating costs needs to be predictable and stable. Under the current structure this is not the case. Because funding for the firefighters and their associated operating costs are tied directly to county contributions, NDF is forced to staff only to the level of participation on a fluid basis. Minimum staffing levels are predicated on full county participation which is currently not the case. When the WFPP experiences a participant leaving the program it must immediately vacate positions to offset the loss of revenue, leaving the state vulnerable. NDF needs to maintain minimum staffing levels to be effective in maintaining initial attack success rate regardless of which counties are participating in the program. Successful initial attack keeps fires small and suppression costs down. Minimum staffing levels are underfunded under the current scenario, unnecessarily increasing the state's risk exposure. Section A1: Line Item Detail by GL

Budget Account: 4195 DCNR - FORESTRY

The core mission of the Nevada Division of Forestry (NDF) is to protect, conserve, and enhance the state's natural resources and provide protection from wildfire. To accomplish this mission, NDF manages and coordinates all forestry, nursery, endangered plant species, and watershed resource activities on qualified public, state, and private lands. NDF also cooperates with other state agencies to coordinate and respond to natural disasters such as floods and earthquakes. Statutory Authority: NRS chapters 40, 193, 205, 206, 232, 472, 474, 475, 476, 527 and 528.

3554	USFWS VULNERABILITY MODELS This grant was awarded to the Nevada Division of Forestry (NDF) to contract with the Nevada Natural Heritage Program (NNHP) to initiate a climate vulnerability modeling project for Great Basin endemic plants. This project is intended to identify both species and landscape level vulnerabilities to climate change in the Great Basin and provide baseline data from which to develop conservation strategies to increase resiliency of the most vulnerable species and habitats. This grant funds expenditures in CAT 54 during the base year and will be reduced to zero in M150.	2,409	19,087	2,408	2,408

These funds support salaries and operating costs of the two existing grant-funded Management Analyst positions, Statewide Cost Allocation Plan (SWCAP), Attorney General Cost Allocation (AG) assessments, and the majority of operating costs associated with the grant-funded program staff. Although the agency strives to recover only enough funds to pay for its indirect costs, it is possible that an excess of funds will be recovered. These funds must be carried forward each year in order to ensure enough funding is available in subsequent years, as this balance is considered/adjusted when negotiating the following fiscal year's rate. As grant funding fluctuates, NDF will depend upon these carry forward funds to support future indirect costs.	180,047	508,977	470,250	541,149

4666	TRANSFER FROM STATE LANDS - TAHOE EIP The Tahoe Environmental Improvement Program (EIP) consists of a transfer from State Lands to fund one full-time, permanent position (Forester 3) and associated operating expenses in category 66. These funds support the Nevada Tahoe Resource Team (NTRT), an interagency team dedicated to preserving and enhancing the natural environment in the Lake Tahoe basin. The team currently consists of eight members: five from the Division of State Lands, one from the Division of Forestry, one from the Department of Wildlife, and one from the Division of State Parks. Funds for this ledger account are transferred under a Memorandum of Understanding between the Divisions of State Lands and Forestry. NTRT is part of a wide network of agencies and groups working in the Tahoe basin to implement the Lake Tahoe EIP. The EIP is a ten-year improvement plan that identifies over \$900 million in projects and programs needed to improve the environment at Lake Tahoe. The cost of implementing the EIP has been apportioned between the Federal Government, the States of Nevada and California, local governments, and private property owners. The State of Nevada's commitment is \$82 million. The five-year average was used for projections. \$94,072 + 92,101 + 93,918 + 96,803 + 97,863 = \$94,952	101,973	110,217	110,562	110,912

4687	TRANS FROM BA4196 - IBU The NDF Incident Business Unit (IBU) assesses wildland fire cooperators for NDF staff and equipment costs in addition to billing them for firefighting activities conducted on their behalf. These assessments are deposited into budget account 4196 and transferred to budget account 4195 to cover the cost of the IBU. Funds are carried forward from year to year to cover staff and operating costs during years where fire activity is low. Seasonal positions increase the number of firefighters available during the height of the fire season. Note regarding budgeting treatment: Seasonal positions cannot be identified separately within existing payroll systems, therefore the positions are not funded in base, but are contained in a special NEBS Budget Version "S01 - SEASONAL POSITIONS". 5904	VACANCY SAVINGS Please refer to Vacancy Savings schedule.	0	-102,185	0	0
5910	STANDBY PAY NDF employees placed in standby status receive standby pay. Standby pay is paid at the rate of 5 percent of the employee's normal rate of pay for every hour in standby status. Standby status occurs when an employee is: 1) directed to remain available for notification to work during specified hours; 2) prepared to work if the need arises, whether or not work occurs; 3) able to report to work within a reasonable time; 4) directed by his/her supervisor to carry a paging device, provide a telephone number where he/she may be notified or provide any other acceptable means for notification; and 5) allowed to use the time he is waiting for notification to work on personal pursuits. Because standby is a normal operating function of the agency and ensures the ability to respond to emergencies, it remains in base.	24,260	0	24,260	24,260

09	POLICE/FIRE PHYSICALS				
	NDF's natural resources conservation and wildland firefighting mission requires staff to participate in tasks that are physically demanding. Regular physical examinations ensure that staff can perform these tasks safely.				
7075	MED/HEALTH CARE CONTRACTS Physicals are budgeted through the Staff Physicals schedule and reconciled through a schedule-automated M150 adjustment. The Nevada Rural Mobile Unit fee is prorated among various state agencies using the service. NDF's portion of this fee is allocated between budget accounts 4195 and 4198 based on the percentage of the budgeted amount in each budget account. See NEBS Staff Physical Schedule for more information. Although paid out of GL 7075, NEBS budgets these under GL 7385.	32	0	32	32
7385	STAFF PHYSICALS The Nevada Division of Forestry is an natural resource conservation and wildland fire response agency where the very nature of the work places employees in physically strenuous situations beyond that of most other state employees. Staff Physicals are provided by NDF in accordance with NRS 617.135 to all classifications of firefighters as well as crew supervisors and other NDF employees that are specifically required to obtain a Red Card (Incident Qualification Card) certification and pass a physical fitness "pack" test at the moderate or arduous level. In addition, some NDF employees are required to obtain physicals in order to qualify for a Commercial Drivers License (CDL) . CDLs are needed to operate certain fire apparatus or other crew and/or equipment transport vehicles. Please see Staff Physicals schedule for more information.	1,805	1,967	1,805	1,805

	The Nevada Division of Forestry is a natural resource conservation and wildland fire response agency where the very nature of the work places employees in physically strenuous situations beyond that of most other state employees. Staff Physicals are provided by NDF in accordance with NRS 617.135 to all classifications of firefighters as well as crew supervisors and other NDF employees that are specifically required to obtain a Red Card (Incident Qualification Card) certification and pass a physical fitness "pack" test at the moderate or arduous level. In addition, some NDF employees are required to obtain physicals in order to qualify for a Commercial Drivers License (CDL) . CDLs are needed to operate certain fire apparatus or other crew and/or equipment transport vehicles. Please see Staff Physicals schedule for more information.				
7460	EQUIPMENT PURCHASES < \$1,000	0	512	0	0
	The Nevada Division of Forestry, with a Carson City Administrative office, three Regional locations, Air Operations, and four Interagency Dispatch Centers , owns, operates and utilizes an enormous number of small equipment items (purchased for under \$1,000) for everyday activities. This includes not only everything from office and building operations/maintenance equipment, but also emergency response equipment. This equipment is warehoused, and maintained in NDF facilities, and stocked within equipped emergency response vehicles that are critical for immediate dispatch at all times. While certain equipment items may be replaced in one year, different items will need to be replaced in another. As such, funding for such small equipment items is maintained within this budget account and expenditure category to ensure these equipment items are replaced as needed.

	This supports annual memberships paid to organizations related to Forest Health and Federal Financial Support of Forest and Wildlands, and registration fees paid to participate in various community service or other events. These critical memberships provide the NDF access to unique, program specific information and solutions not available from other sources.				
7385	STAFF PHYSICALS The Nevada Division of Forestry is a natural resource conservation and wildland fire response agency where the very nature of the work places employees in physically strenuous situations beyond that of most other state employees. Staff Physicals are provided by NDF in accordance with NRS 617.135 to all classifications of firefighters as well as crew supervisors and other NDF employees that are specifically required to obtain a Red Card (Incident Qualification Card) certification and pass a physical fitness "pack" test at the moderate or arduous level. In addition, some NDF employees are required to obtain physicals in order to qualify for a Commercial Drivers License (CDL). CDLs are needed to operate certain fire apparatus or other crew and/or equipment transport vehicles. Please see Staff Physicals schedule for more information.	0	0	0	0

	NDF utilizes a state-wide radio system to allow staff and resources to communicate statewide. The NDF communications and emergency response system includes four dispatch centers that require long range communication capabilities. The NDF rents space from EITS to house NDF equipment on EITS mountain top radio sites. The interagency dispatch centers dispatch and control NDF assets and resources (staff, volunteers, and equipment) throughout the state relying on these communications capabilities.				
7551	EITS MICROWAVE DS0 CIRCUIT	35,098	35,098	35,098	35,098
	NDF utilizes a state-wide radio system to allow staff and resources to communicate statewide. The NDF rents microwave channels from EITS which provides NDF with the capabilities of controlling and using radios remotely from hundreds of miles away. The Minden and Elko interagency dispatch centers dispatch and control NDF assets and resources (staff, volunteers, and equipment) throughout the state relying on these communications capabilities.

	The Nevada Division of Forestry, with a Carson City Administrative office, three Regional locations, Air Operations, and four Interagency Dispatch Centers, owns, operates and utilizes an enormous number of small equipment items (purchased for under \$1,000) for everyday activities. This includes not only everything from office and building operations/maintenance equipment, but also emergency response equipment. This equipment is warehoused, and maintained in NDF facilities, and stocked within equipped emergency response vehicles that are critical for immediate dispatch at all times. While certain equipment items may be replaced in one year, different items will need to be replaced in another. As such, funding for such small equipment items is maintained within this budget account and expenditure category to ensure these equipment items are replaced as needed.

	NDF's natural resources conservation and wildland firefighting mission requires staff to participate in tasks that are physically demanding. Regular physical examinations ensure that staff can perform these tasks safely. Positions require basic and continuing fire education; a minimum of one week of annual training is required for all positions. Battalion Chief positions require an additional week of training due to the complexity of duties related to these positions.

2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	<p>NDF was able to secure a contract for \$5 million with NV Energy to coordinate plan, implement and track accomplishments of projects within the NVE right of ways and under and around NVE infrastructure to reduce the risk of catastrophic loss in moderate to extreme risk wildfire areas in Nevada. In addition, the Nevada Legislature gave NDF matching funds through SB 508 to expand the NVE treatments. Matching funds will be used on multiple projects, selected in partnership with state, local, federal and private partners adjacent to NV Energy contract projects across Nevada to reduce hazardous fuel loads, increase landscape resilience, restore wildfire affected landscapes, and implement technology measures to assist in prevention of wildfires. This project will provide much needed fuel reduction for forest, rangelands, watersheds, and desert landscapes across Nevada in a collective effort between NV Energy, NDF, home/landowners, and the US Forest Service, the Bureau of Land Management and local government entities as adjacent at a scale large enough to reduce the threat of catastrophic loss from wildfire when it occurs. These funds will also be used in long term planning efforts including climate change effects on wildfire in Nevada and effects on projects implemented for fuel reduction. This project is a model for shared stewardship in Nevada, prioritizing high risk areas and working collectively to implement treatment of hundreds of acres across these prioritized landscapes and infrastructure/technology improvements for the prevention of wildfires in Nevada.</p> <p>These rural foresters will be housed in an NDF conservation camp to ensure each camp's project work is primarily focused on the highest priority natural resource projects, when not actively engaged in wildland firefighting. The fire season in Nevada is getting longer, and individual fires are escaping initial attack and growing larger than in the past. These wildland fires threaten both urban and rural communities and destroy critical habitat for greater sage grouse and other important wildlife species. The Division of Forestry has statutory responsibility to protect the State's citizens and natural resources from these wildland fires. One of the most effective and efficient ways of providing this protection is through taking proactive measures prior to fire ignitions through a well-managed fuel reduction program. Effective implementation of fuel reduction projects and construction of strategically placed fuel breaks can lead to successful initial attack by fire suppression forces which keeps fires small, protects the state's inhabitants and reduces overall suppression costs. The Division of Forestry currently employs 3 full-time fuel foresters, located in Washoe Valley, Wells, and Pioche, to implement fuel reduction practices across the state. NDF is working to hire 3 additional Forester III's through the recently signed NV Energy contract in Carson City, Las Vegas Area (covering Three Lakes Valley and Jean Conservation Camps) and Winnemucca. NDF's goal is to have Foresters at each conservation camp to ensure mission driven work is being completed, revenue targets are met or exceeded and work is done according to the best available science to slow the spread of wildland fire and create resilient landscapes. Given the large geographical area served by the 3 existing fuel foresters, they are unable to meet the need for an effective state-wide program. This position would effectively expand the geographic area of at-risk communities served by the wildfire hazard mitigation program in order to greatly increase the pace and scale of projects implemented on the ground.</p> <p>The Management Analyst II will work with program staff to track grant, sub-grant and SB508 funds to ensure compliance with state and contract rules. In addition, this position will ensure purchases are appropriate for the funding source, and assist in compiling and submitting all necessary accomplishment and financial reports for these funding streams.</p> <p>[See Attachment]</p>

E500	ADJUSTMENTS TO TRANSFERS				
This decision unit accepts General Fund from budget account 4196 to support personnel and related operating expenditures currently in budget account 4194, Wildland Fire Protection Program (WFPP) but transferred into budget account 4195 through decision unit E900 to provide critical firefighting staff with a predictable and stable funding source. The General Fund in budget account 4196 is instead replaced with County Participation funds collected in RGL 4101 with remaining cash reserves also moved to 4196 for support of fire costs. This proposed swap is revenue neutral and does not request additional General Fund overall.					
NDF's Wildland Fire Protection Program (WFPP) staff (firefighters) are currently housed in budget account 4194 and funded entirely by participating county contributions. These positions protect life and property from the effects of catastrophic wildfire. The funding for these positions and their associated operating costs needs to be predictable and stable. Under the current structure this is not the case. Because funding for the firefighters and their associated operating costs are tied directly to county contributions, NDF is forced to staff only to the level of participation on a fluid basis. Minimum staffing levels are predicated on full county participation which is currently not the case. When the WFPP experiences a county leaving the program it must immediately vacate positions to offset the loss of revenue, leaving the state vulnerable. NDF needs to maintain minimum staffing levels to be effective in maintaining initial attack success rate regardless of which counties are participating in the program. Successful initial attack keeps fires small and suppression costs down. Minimum staffing levels are underfunded under the current scenario, unnecessarily increasing the state's risk exposure.

	This efficiency request reclassifies the vacant Camp Area Supervisor position transferred from the Conservation Camp budget account 4198 Grade 37 to an Education & Information Officer Grade 35 in the Forestry Administration budget account 4195 in decision unit E901.				
	For management purposes, NDF has divided the state into 3 regions in which a regional office sits with regional leaders of NDF's resource, fire and camp programs. The conservation camp program has re-aligned leadership to better match NDF's regions, so the fourth camp area supervisor is no longer needed in 4198. Each area supervisor manages 3 conservation camps within their region and participates in the regional management team in the associated region prioritizing and filling resource needs for natural resource management and wildland fire suppression activities. NDF would like to transfer the funding for the Camp Area Supervisor Position into Budget Account 4195 to fund an Education & Information Officer to assist the agency in developing, coordinating and presenting education programs to address areas of concern or interest to target audiences, and to report annual or incremental progress of varying agency program areas to various audiences. The conservation camp program has re-aligned leadership to better match NDF's regions, so the fourth camp area supervisor is no longer needed in 4198. Each area supervisor manages 3 conservation camps within their region and participates in the regional management team in the associated region prioritizing and filling resource needs for natural resource management and wildland fire suppression activities. NDF would like to transfer the funding for the Camp Area Supervisor Position into Budget Account 4195 to fund an Education & Information Officer to assist the agency in developing, coordinating and presenting education programs to address areas of concern or interest to target audiences, and to report annual or incremental progress of varying agency program areas to various audiences.

Section A1: Line Item Detail by GL

Budget Account: 4196 DCNR - FORESTRY - FIRE SUPPRESSION

The Forest Fire Suppression Account funds protection of life, property, and natural resources from fire, flood, and other natural or human caused emergencies. The program is funded with a combination of: General Fund appropriations; reimbursements paid to the Nevada Division of Forestry for firefighting efforts made on behalf of others; and Federal Emergency Management Agency - Fire Management Assistance grants and sub-grants. The agency has access to the Interim Finance Contingency Fund, the Reserve for Statutory Contingency Account, and the Disaster Relief Account when the volume or severity of fire incidents result in insufficient funds to meet state obligations. Statutory Authority: NRS 472.

	This request continues operating cost funding for the Nevada Division of Forestry (NDF) Fire Suppression and Emergency Response budget account.				
REVENUE					
2501	APPROPRIATION CONTROL The general fund provides the primary financial support to cover the State's public safety responsibility for wildland fire management (e.g. preparedness, suppression, & rehabilitation) and other emergency response incidents (e.g. floods, earthquakes, etc.) that the Nevada Division of Forestry responds to. The State of Nevada has responsibility for costs incurred with wildland fire management and emergency incident response on non-federal land statewide. Those responsibilities vary depending on established jurisdictional boundaries, as well as various contracts and agreements. General funds support expenditure categories 01 Personnel Services, 10 Fire Suppression, 12 Non-Fire Expenses (i.e. other emergency response), and 87 Purchasing Assessment.	4,291,199	3,488,359	13,118,684	13,117,348
2510	REVERSIONS	-71,804	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR Funds balanced forward include the assessment portion of costs charged to other fire cooperators for NDF resources used to assist those entities with firefighting and other emergency response activities. These billings include a charge for the NDF Incident Business Unit (IBU) that is calculated as part of the rate charged for NDF staff and equipment. That fee is collected for the sole purpose of supporting the activities of the IBU. Funds are collected and used for the current year. When excess funds are collected in the current year, those funds are carried forward to future years to cover IBU costs should there be insufficient funds collected to cover operating and salary costs prospectively.	1,871,233	873,767	886,749	888,085
2512	BALANCE FORWARD TO NEW YEAR Balance forward from previous year.	-873,767	0	0	0
2513	BALANCE FORWARD TO NEW YEAR NEW B/A	0	0	0	0
3576	FEMA FIRE ASSISTANCE GRANTS The Federal Emergency Management Agency (FEMA) Fire Management Assistance Grants Program (FMAG) provides direct financial support to the State. It also funds sub-grants to local governments for qualifying wildland fires equal to 75% of authorized costs paid for mitigation, management, and control of fires burning on non-federal lands, including forests, rangelands and woodlands. Eligibility criteria includes: 1) a threat to lives and improved property, including threats to critical infrastructure and watershed areas; 2) availability of State and local firefighting resources; 3) high fire danger conditions; and 4) potential for major economic impact. The annual budget includes a five-year average for FMAG grants. FMAG funding sub-granted to local governments is expended in CAT 19. Expenses associated with FMAG grants received for fires that are the responsibility of the State, are paid directly out of CAT 01 Personnel Services and CAT 10 Fire Suppression Costs. The FMAG grant then reimburses the State for expenses already paid. As expenses for emergency response vary drastically between different incidents, individual base year line item expenses associated with these revenue sources in CAT 01 and CAT 10 are reduced to zero in M150 and budgeted under GL 5000 Personnel Services or GL 7000 Operating.	257,756	562,623	257,756	257,756
4201	FIRE EQUIPMENT REIMBURSEMENT The State invoices cooperators for fire suppression costs incurred by the State when it assists those entities in fighting fires in their jurisdictional areas of responsibility. Fires fought in multi-jurisdictional areas result in cooperators making payments to each other as per the final adjudication costs. Revenues from those billings become part of the revenues used by the NDF to support its own fire suppression costs for that state fiscal year. As expenses for emergency response vary drastically between different incidents, individual base year line item expenses associated with these revenue sources in CAT 10 are reduced to zero in M150 and budgeted under GL 7000 Operating.	1,099,762	647,928	1,099,762	1,099,762
4203	PRIOR YEAR REFUNDS Wildland fires, fire billings, and receipts from fire billings seldom occur within a timeframe that works within the state fiscal year period. Although the State makes every effort to bill for fire costs incurred on behalf of other cooperators within a 180-day period after the close of the incident, those billings are often dependent upon receipt of billings from third parties - including Federal agencies that do not bill NDF in a timely manner. More often than not, the State invoices cooperators for NDF fire suppression costs but receives those funds in a fiscal year subsequent to the incident. Those funds are then used to support fire suppression costs for the current fiscal year. If the current year fire incidents are minimal and the State does not have to add IFC Contingency Funds to the fire suppression account, these funds are reverted to the general fund and/or the state revenues (i.e. general fund, IFC Contingency Fund or BOE Emergency Response funds) supporting fire suppression costs at the time the incident started.	5,540,797	1,777,688	5,540,797	5,540,797

4219	FOREST FIRE REIMBURSEMENTS The State invoices cooperators for fire suppression costs incurred by the State when it assists those entities in fighting fires in their jurisdictional areas of responsibility. Fires fought in multi-jurisdictional areas result in cooperators making payments to each other as per the final adjudication of the firefighting costs. Revenues from those billings become part of the revenues used by the NDF to support its own fire suppression costs for that state fiscal year. Expenses associated with Forest Fire Reimbursements support expenditures paid out of the following expenditure categories: 01 Personnel Services, 10 Fire Suppression, and 15 Central Reporting Unit. As expenses for emergency response vary drastically between different incidents, individual base year line item expenses associated with these revenues sources in CAT 01 and CAT 10 are reduced to zero in M150 and budgeted under GL 5000 Personnel Services or GL 7000 Operating. 4351	OTHER REIMBURSEMENT The Nevada Division of Forestry (NDF) and the Nevada Department of Wildlife (NDOW) are neighbors on the airport site in Minden, Nevada. On occasion, NDOW utilizes NDF fuel tanks to fuel their aircraft. Funds are then transferred in payment. These funds are a direct reimbursement for costs paid by the general fund since 4196 pays all costs associated with aircraft used for fighting wildland fires. As such, there is no expenditure line item for this revenue; it reverts directly to the general fund at the end of each year collected. EXPENDITURE

01	PERSONNEL Supports non-base salary expenses such as overtime for NDF staff and temporary seasonal employees dispatched to fight wildland fires and respond to other related emergencies.				
5000	PERSONNEL SERVICES The Fire Suppression Account funded out of B/A 4196 is unique in that it is not budgeted as a typical line-item State base budget normally derived from actual base year line item expenditures. It is budgeted at a pre-agreed upon amount of \$2,500,000 in State general funds, plus a seven-year average of FEMA FMAG grants receipts, and revenue for Forest Fire Reimbursements. Line item expenditures from year to year are driven by the quantity and type of emergency response needs for the particular year. As expenses for emergency response vary drastically between different incidents that may occur each year, individual base year line item expenses associated with these revenues sources budgeted in CAT 01 and CAT 10 are reduced to zero in M150, and budgeted at levels as described above under GL 5000 Personnel Services and GL 7000 Operating. 9091	TRANS TO FORESTRY The Central Reporting Unit (CRU) charges an assessment on NDF staff and equipment costs billed to cooperators for NDF firefighting activities conducted on behalf of those cooperators. These assessments are collected as part of the fire billings to those cooperators, deposited into B/A 4196, and transferred to B/A 4195 to cover the cost of the CRU. 	In prior biennia, the agency has been authorized to expend \$175,000 in budget account 4198 for vehicle repairs associated with wear and tear from firefighting use. This authority was contained in section 11 of AB490 for the 2015-2017 biennium. These funds were to come from fire reimbursements, collected in budget account 4196, but the agency neglected to set up a transfer of funds from BA4196 to BA4198 for that purpose. This adjustment is to fulfill legislative intent and fund the reserve for vehicle repairs in 4198.

15	TRANSFER TO IBU IN 4195 Supports the Incident Business Unit (IBU), which is responsible for fire billing payments, audit, adjudication and subsequent payment of cooperator billings. Funding is provided through an assessment charged on resources dispatched to emergencies. These funds are transferred to Budget Account 4195 where expenditures related to the IBU are budgeted.				
9091	TRANS TO FORESTRY The Incident Business Unit (IBU) charges an assessment on NDF staff and equipment costs billed to cooperators for NDF firefighting activities conducted on behalf of those cooperators. These assessments are collected as part of the fire billings to those cooperators, deposited into B/A 4196, and transferred to B/A 4195 to cover the cost of the IBU. Funds are carried forward from year to year to cover staff and operating costs during years where fire activity is low. E500 ADJUSTMENTS TO TRANSFERS

This decision unit reduces General Fund in budget account 4196 and instead moves it to budget account 4195 to support personnel and related operating expenditures currently in budget account 4194, Wildland Fire Protection Program (WFPP). Decision unit E900 transfers the WFPP from budget account 4194 (transfer out) to 4195 (transfer in) to provide critical firefighting staff with a predictable and stable funding source. The General Fund in budget account 4196 is instead replaced with County Participation funds collected in RGL 4101 with remaining cash reserves also moved to 4196 for support of fire costs. This proposed swap is revenue neutral and does not request additional General Fund overall.

NDF's Wildland Fire Prevention Program (WFPP) staff (firefighters) are currently housed in budget account 4194 and funded entirely by participating county contributions. These positions protect life and property from the effects of catastrophic wildfire. The funding for these positions and their associated operating costs needs to be predictable and stable. Under the current structure this is not the case. Because funding for the firefighters and their associated operating costs are tied directly to county contributions, NDF is forced to staff only to the level of participation on a fluid basis. Minimum staffing levels are predicated on full county participation which is currently not the case. When the WFPP experiences a county leaving the program it must immediately vacate positions to offset the loss of revenue, leaving the state vulnerable. NDF needs to maintain minimum staffing levels to be effective in maintaining initial attack success rate. Successful initial attack keeps fires small and suppression costs down. Minimum staffing levels are underfunded under the current scenario, unnecessarily increasing the state's risk exposure.

E878 SUPPLEMENTAL APPROPRIATIONS

This request funds a projected shortfall in the fire suppression budget account for fiscal year 2021. The Nevada Division of Forestry (NDF) submits regular requests for IFC Contingency funds to pay for fire costs, so this request will cover the need for additional funds during the Legislative session in lieu of IFC Contingency Funds. The agency will continue to submit IFC Contingency requests as needed during the first half of FY21 until the Legislative session starts.

E902 TRANSFERS

This decision unit receives the transfer of the reserve from county participation funds from budget account 4194 Wildland Fire Protection Program that are remaining after the transfer of the personnel and operating cost from budget account 4194 Wildland Fire Protection Program to budget account 4195 Forestry (transfer decision unit E900). This transfer provides additional funding to budget account 4196 for support of fire suppression costs. If this swap is approved, this funding can be moved out of Category 86 Reserve and will instead offset the General Fund.

The Fire Suppression budget account (4196) is currently funded with general fund to provide for wildland fire suppression costs on both state and private lands belonging to the counties. If the county funding were to be used in this budget account, increases or decreases in county participation would be aligned to the risk the state is exposed to for wildland fire suppression costs.

Budget Account: 4198 DCNR - FORESTRY - CONSERVATION CAMPS

The Conservation Camp Program coordinates, directs, and supervises the work performed by inmates of the Department of Corrections who reside in Forestry Conservation Camps located throughout the State of Nevada. The Conservation Camp Program provides the work force for labor-intensive forestry and conservation work projects, wildfire management, and other emergency activities. The Program consists of 74 Conservation Crew Supervisors, ten Camp Supervisors, three Camp Area Supervisors, one Training Officer, one Administrative Officer, three Mechanics, one Program Manager, and anywhere from 600-800 Crew members. Conservation Camps use approximately 161 pieces of equipment and vehicles. Personnel and vehicles are located at nine facilities across the state in: Carson City, Winnemucca, Carlin, Wells, Ely, Pioche, Tonopah, Las Vegas, and Jean. Each camp fields both fire and conservation project crews. Every Crew Supervisor PCN is assigned 6-12 Crew members for project and emergency response. Crew members are inmates that are certified as fire fighters with the national industry standardized training. In addition to fielding project and fire crews, some camps support nursery operations and/or mobile kitchen units.

E901	TRANSFERS This efficiency request transfers a vacant Camp Area Supervisor position from the Conservation Camp BA 4198 to the Forestry Administration BA 4195 to fund an Education & Information Officer for NDF. For management purposes, NDF has divided the state into 3 regions in which a regional office sits with regional leaders of NDF's resource, fire and camp programs. The conservation camp program has re-aligned leadership to better match NDF's regions, so the fourth camp area supervisor is no longer needed in 4198. Each area supervisor manages 3 conservation camps within their region and participates in the regional management team in the associated region prioritizing and filling resource needs for natural resource management and wildland fire suppression activities. NDF would like to transfer the funding for the Camp Area Supervisor Position into Budget Account 4195 to fund an Education & Information Officer to assist the agency in developing, coordinating and presenting education programs to address areas of concern or interest to target audiences, and to report annual or incremental progress of varying agency program areas to various audiences.

Budget Account: 4204 TAHOE REGIONAL PLANNING AGENCY

The Tahoe Regional Planning Agency (TRPA) was jointly created by the states of Nevada and California and the United States Congress. The TRPA leads the cooperative effort to preserve, restore, and enhance the unique natural and human environment of the Lake Tahoe region. TRPA's vision is to have a lake environment that is sustainable, healthy, and safe for the community and future generations. Under the Tahoe Regional Planning Compact, requests for state funds by the TRPA must be apportioned two-thirds from California and one-third from Nevada. As a planning agency, TRPA has the power to exercise effective environmental controls and perform other essential functions over the water, land, air, wildlife, and development of the Lake Tahoe region. Starting in 1997, with the Nevada and California Governors' Memorandum of Understanding and the Presidential forum, TRPA has led the cooperative efforts of funding the Environmental Improvement Program. Statutory Authority: NRS 277.190-277.220.

Budget Account: 4205 DCNR - OFFICE OF STATE HISTORIC PRESERVATION

The State Historic Preservation Office's mandate is to encourage preservation, documentation, and use of cultural resources through state and federal programs. Office programs support preservation of buildings and archaeological sites through grant distribution and management, project reviews for federal tax credits, the National and State Registers of Historic Places, review of federal undertakings in the state, planning of preservation projects, and public education. The office also manages almost 300 historical markers to interpret sites throughout the state, which benefit both local and out-of-state travelers. Through these activities, the State Historic Preservation Office encourages tourism, economic growth, and education. Statutory Authority: NRS 383.

03	IN-STATE TRAVEL				
6211	FS MONTHLY VEHICLE RENTAL IN-STATE Adjustment to vehicle monthly rental expense due to COVID A long-term lease vehicle is less costly than short-term rentals and employee vehicle reimbursement; changing to long-term leases will allow more of the required visits to be completed. Unfortunately, due to the Covid-19 emergency declaration, which occurred less than three months after receiving the vehicle in Las Vegas from Fleet Services and two months in Carson City, the entire field season of traveling was cancelled. Given the safety restrictions on fall and winter travel, the spring/summer travel period would account for most of the mileage anticipated. The annualized rate based on the 8-16 weeks of use does not reflect the planned mileages as the required activities described below will be reinitiated in Fiscal Year 2022. Federal funding from the Historic Preservation Fund requires that the Office of Historic Preservation complete activities in several program areas that necessitate yearly travel around the state to ensure a minimum maintenance of effort (MOE) for the grant (Grant Manual; Section 3.b.2.a. 1-10). These activities include, but are not limited to, regularly inspecting historic properties located on federal, state, and private land; ensuring federal agency compliance with federal laws regarding cultural resources; surveying cultural resources to develop National Register listings; and inspecting historic buildings with preservation covenants held by the Office of Historic Preservation. In addition, the legislatively established Nevada Stewardship program (NRS 383.075) requires regular inspection of cultural resources monitored by volunteer site stewards as directed by statute.	0	0	8,863	8,863

Budget Account: 4207 CCB - MARIJUANA REGULATION & CONTROL ACCT

The Cannabis Compliance Board (CCB) administers Nevada's legal medical and adult-use cannabis programs, ensuring the protection of public health and safety through a strict and rigorous regulatory scheme. The CCB's responsibilities include licensing and regulation of Nevada cannabis establishments. The CCB was assigned responsibility of the adult-use cannabis program with the voter-passed Regulation and Taxation of Cannabis Act in November 2016, which legalized adult-use cannabis in Nevada. The Nevada Legislature transferred responsibility of the state's medical cannabis program from Health and Human Services to the Department of Taxation on July 1, 2017. The 2019, Nevada Legislature passed AB 533, creating the Cannabis Compliance Board and transferred the authority to license and regulate persons and establishments relating to cannabis from the Department of Taxation to the Board. The CCB became effective July 1, 2020.

The CCB administers nine cannabis license types and is responsible for establishing licensing qualifications; determining the need to license additional establishments in the state; reviewing applications for licensure; issuing initial and annual renewal of licenses; tracking licenses; reviewing and making determinations on transfers of ownership; and suspending, revoking, and reinstating licenses. The CCB establishes standards and procedures for the cultivation, production, testing, distribution, and sale of cannabis in Nevada. As a critical part of its regulatory oversight, the CCB inspects cannabis establishments to ensure compliance with state laws and regulations around issues such as security, testing, inventory tracking, labeling, and packaging. Additionally, the CCB reviews all proposed cannabis establishment advertising and design.

There are two tax types specific to cannabis that the Department of Taxation is responsible for administering and collecting: wholesale cannabis tax and retail cannabis tax. Revenues from the wholesale cannabis tax, as well as revenues from fees, penalties, and assessments, will first pay the CCB's administrative and enforcement costs. \$5 million per year is then distributed to counties, cities, and towns, and the remainder is distributed to the state Distributive School Account. Every six months, the Department of Taxation reviews and sets the fair market value at wholesale rates for multiple categories of cannabis product, upon which the wholesale cannabis tax is calculated. The Department of Taxation distributes revenues from the retail cannabis tax to the Account to Stabilize the Operation of State Government. Statutory Authority: NRS 372A.

2512	BALANCE FORWARD TO NEW YEAR	-2,893,860	0	0	0
3324	EXCISE TAX - MMT The medical marijuana excise tax, paid on medical marijuana only at the rate of 2 percent at each transfer, was folded into the wholesale marijuana excise tax by the 2017 Legislature at the new rate of 15 percent and imposed on cultivators only. As such, it is anticipated that there will be no revenue under the medical marijuana excise tax in fiscal year 2022 or 2023.	27,081	0	0	0
3325	EXCISE TAX - WHOLESALE The 15 percent wholesale excise tax is levied on the fair market value of the first transfer by cultivators. The budgeted amount is based on Cannabis Compliance Board estimations, projections may need to be adjusted after the fiscal year 2021 consensus forecast.	44,770,674	48,527,100	44,770,674	44,770,674
3601	APPLICATION FEES It is anticipated that there will be no new application fees in fiscal year 2022 and 2023.	0	0	0	0
3602	ESTABLISHMENT LICENSES AND FEES NRS 678B.390 sets the licensing fees that are charged for all cannabis establishments. The budgeted amount is based on current licensees as well as conditional licensees that are expected to be perfected in fiscal year 2022 and 2023. [See Attachment]	3,620,100	3,854,899	4,566,000	4,566,000
3700	AGENT REGISTRATION FEES NRS 678B.390 requires that the Cannabis Compliance Board collect a \$150 application fee to obtain or renew a cannabis establishment agent registration card for a person who is employed or volunteers at a cannabis establishment. The registration card is good for two years. The budgeted amounts are projected on agent cards going from being valid from one year to two. This change in time will result in lower Agent Card renewals in fiscal year 2022 and higher Agent Card renewals in fiscal year 2023 while a new renewal cycle is created.	1,183,275	1,537,701	1,121,250	2,700,000
3755	ADMIN FEE BAD CHECK CHARGES Fees for bad checks are no longer supported under the Cannabis Compliance Board as NRS 360.238 is specific to the Department of Taxation which covers checks returned due to insufficient funds, credit, or stop payments. Revenue is not expected in fiscal year 2022 and 2023.	250	675	0	0
3892	TIME AND EFFORT ASSESSMENT Nevada Cannabis Compliance Regulation (NCCR) Regulation 6.025 allows the Cannabis Compliance Board to charge assessments for its oversight of cannabis establishments, not relating to processing an application. The Board will collect an assessment from each establishment for the time and effort attributed to the oversight at the rate of \$111 per hour. The budgeted amount is based on fiscal year 2020 actuals.	293,525	276,335	293,525	293,525
4152	CIVIL PENALTIES Nevada Cannabis Compliance Regulation (NCCR) Regulation 4 outlines the civil penalties that can be imposed by the Board when a cannabis establishment violates either statutes or regulations. The budgeted amount is based on fiscal year 2020 actuals.	115,657	151,500	115,657	115,657

	This request is for an Administrative Law Judge and Legal Secretary II for the Cannabis Compliance Board. An Administrative Law Judge (ALJ) will serve as an employed judge and trier of fact who will preside over Cannabis Compliance Board administrative hearings. Additionally, the ALJ will make recommendations to the board on disciplinary proceedings. A dedicated ALJ and Legal Secretary II will establish an unbiased body that will assist the part-time Cannabis Compliance Board in processing disciplinary and administrative hearings expeditiously. The requested positions of an unclassified Administrative Law Judge (ALJ) and Legal Secretary II will allow the Cannabis Compliance Board to administer administrative hearings and adjudicate approximately 10-15 cases a month. The ALJ will have the power to administer oaths, make rulings on evidentiary objections, render legal and factual determinations, and make or recommend decisions on Cannabis Compliance Board (CCB) administrative hearings. The CCB anticipates a continued increase in administrative hearings as the Board oversees a growing cannabis industry in the state. BDR: 21A2702691 has been submitted to support this request. This request is for four additional attendees for existing staff to attend the annual Marijuana Management Symposium conference. This conference is with regulators from all areas including fire, building, law enforcement, food safety, and related industries that are specifically related to cannabis facilities.					
The Marijuana Management Symposium conference focuses solely on the public sector and how entities can responsibly tackle the challenges that come with implementing and regulating the newly legalized and commercialized cannabis industry. This conference will update staff on the impacts of marijuana legalization on public health, the environment, and public safety to gain best practices from regulators in other jurisdictions, states, and countries as well as hear lessons learned from implementation phases and enforcement practices across various states. Attendance at this event will help staff learn to adapt to evolving marijuana regulations while finding solutions to hurdles as well as connect them to a network of colleagues from different jurisdictions, other states, and countries. Projected travel for the Marijuana Management Symposium is based on two attendees from Las Vegas and two attendees from Carson City.

	This request is for funding for various newspaper publications. Subscriptions for the Reno Gazette Journal and the Las Vegas Review Journal allow the Cannabis Compliance Board to stay up-to-date and informed on timely developments in Nevada's cannabis industry. The Cannabis Compliance Board often grants interviews and provides information for both newspapers. The ability to follow-up and read any Cannabis Compliance Board related articles, allows the Public Information Officer to ensure the accuracy of the information that's being shared and provides an additional resource which enables staff to monitor cannabis industry traffic. Additionally, it is the role of the Public Information Officer for the Cannabis Compliance Board to keep a pulse on news of the day, cannabis and non-cannabis industry-related information in the state, in order to better guide and plan the agency's media strategies. 	This request is for the Field Audit Section within the Cannabis Compliance Board. It adds five Auditor II's to continue meeting regulatory responsibilities under Nevada Cannabis Compliance Regulation (NCCR). An increase of Auditor II's are needed to for the Audit Section to meet the growing number of field audits required as establishments continue to expand in the Nevada cannabis industry. The requested positions are needed in the Field Audit Section of the Cannabis Compliance Board to continue meeting the regulatory obligations of inspections to be performed by the board outlined in NCCR 5.075 (7).				
	Under this requirement the Cannabis Compliance Board (CCB) is tasked with entering and inspecting each licensed establishment at a minimum at least annually. Additionally, CCB Auditors must perform follow up visits and additional compliance checks as necessary The Field Audit Section includes one Program Supervisor and seven Auditor II's with the task of auditing at a minimum, each cannabis establishment annually as required under Nevada Cannabis Compliance Regulation (NCCR). The additional five Auditor II's will allow the CCB to meet at the very least the minimum standard under the NRS, including any additional inspections as required by the Board. Workload statistics have been attached to support this request.

This decision unit requests funding for one unclassified Division Chief and one Administrative Assistant III.					
The unclassified chief series proposed for the Nevada Cannabis Compliance Board serves to carry out the intent of the Legislature in ensuring the cannabis industry in Nevada becomes regulated in a similar manner to that of gaming. The addition of an unclassified Division Chief better aligns the core functions of the agency and mirrors, although to a smaller degree, the organizational structure of the Nevada Gaming Control Board. Introducing this position as unclassified will allow for better qualified candidates with more multi-disciplinary skill sets to address the ever evolving and complex requirements of regulating the cannabis industry.

	This request is for courses offering Continued Legal Education credits geared toward the cannabis industry. Nevada attorneys subject to MCLE requirements must take 13 credit hours of continuing legal education annually. This request allows for executive staff members of the CCB to attend Continued Legal Education classes specific to the cannabis industry.				
	The requested classes will benefit the Board by assisting with the drafting of regulations, preparing for hearings, and allow the executive team to stay compliant with requirements through the State Bar of Nevada. This request also includes registration and travel to the Cannabis Business Summit and Expo to allow members of the CCB executive team to further engage on cannabis technologies and stay abreast of upcoming trends in the cannabis industry.

3842	ADMISSION CHARGE Per NRS 381.0045, the Board of Museums and History establishes fees for admission. Revenue source was determined strictly by using FY2018 paid admission as of June 30, 2018. Calculation: 15,942 paid admissions Carson City x \$ 6.00 admission charge each \$95,652	86,428	95,652	95,652	95,652
3846	RIDE CHARGE Funds generated through the operation of railroad equipment on the Nevada State Railroad Museum's one-mile loop track in Carson City, Nevada and on the Boulder City Railroad Museum's 7 mile/45 minute excursion ride in Boulder City, Nevada. Ride charges are subject to historic equipment operating on all scheduled days without mechanical breakdowns or natural weather events. Any unexpected cancellation of operations results in significant agency shortfalls. Revenues support 50% of the salary costs and associated operating expenses for 3 FTE positions in Boulder City. Revenue source was determined strictly by using FY2018 base train ride revenue as of June 30, 2018. No calculations were used due to the current difficulty in identifying different fees for different age groups and during different events.	275,612	311,488	311,488	311,488

	The expenses were used to purchase miscellaneous goods and materials for the 42nd Annual Conference of the National Association of Abandoned Mine Land Programs (NAAML P). The NAAML P conference is being hosted by the State of Nevada as a member of NAAML P at Stateline, Lake Tahoe and was scheduled for September 19 - 24, 2020 but due to Covid-19 the conference was rescheduled at the same venue for September 12-16, 2021. No agency monies will be used for expenses and there will be no net impact to the agency's budget, following the conclusion of the conference. All revenue received for the conference, from registration, exhibitor, and sponsor fees will be used to pay for all the expenditures; any excess (or shortage) of revenue will be paid to (or paid by) NAAML P. Budget Account: 4235 DCNR - FORESTRY - NURSERIES

This enterprise account contains three distinct programs administered by the Nevada Division of Forestry (NDF). The Nursery, Seedbank, and Forest Products Utilization programs are rooted in the agency's overall mission and are an integral part of both the natural resources and fire suppression programs operated by the agency.

The Nursery Program, under the oversight of the NDF Natural Resource Program, was established in 1957 to provide technical assistance and conservation plant materials (tree seedlings, shrubs, forbs, and seeds) to meet the conservation needs of Nevada's private landowners and public land management agencies. The nurseries also offer custom growing services for conservation plants native to, or adapted to, the Mojave Desert, Great Basin Desert, and Sierra Nevada. They produce low-cost native or adapted plant species acclimated to Nevada's environmental conditions for conservation purposes, including windbreaks, green-strips, stream bank stabilization, wetland and riparian restoration, mine reclamation, reforestation, wildlife habitat enhancement, and rehabilitation of wildfire damaged lands or other disturbed sites. The Nursery Program is comprised of two facilities, one in Washoe Valley and one in the Las Vegas Valley.

The Seedbank was established in 1995 to provide seed, equipment, and other materials to rehabilitate wildland fire and fire suppression related damages. The seedbank and assists private landowners and public agencies with conservation treatments on their lands to reduce soil erosion, increase plant diversity, improve wildlife habitat, and reduce the threat of wildland fire. The Seedbank facility is co-located with the nursery in Washoe Valley.

The Forest Products Utilization Program was established in 2012 to focus on adding value to cut wood that occurs from the agency's normal fuel reduction and forest health enhancement projects. Prior to the initiation of the program, much of the wood that was cut was piled and burned in place as the most expedient method of disposal. The acquisition of harvesting and processing equipment allows the agency to extract the wood from the forest, process it into a useful end product, and transport it out of the forest. The value added products, typically wood chips, fuel wood, and saw logs are sold from the nursery/seedbank facility in Washoe Valley.

All of these enterprise programs receive operating funds based on the sale of conservation plant materials and forest products. Statutory Authority: NRS 472, 527, & 528.

REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR Balance forward funds include unexpended Seedbank revenues received for the sale of seed stock as well as unused revenue from the Forest Products program. These fees are collected, used for the current year expenditures, and when excess funds are collected in the current year, they are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program. The total fiscal year nursery plant sales revenues have been insufficient to fully support the salary and operating expenditures of the nurseries. Therefore, as this is an inclusive Enterprising Fund, a portion of the excess cash on hand, which is balanced forward each fiscal year, assists in supporting the nursery expenditures when current year plant sales are insufficient to support current year costs incurred.	1,176,670	1,059,050	1,031,818	1,022,349
2512	BALANCE FORWARD TO NEW YEAR Balance forward funds include unexpended Seedbank revenues received for the sale of seed stock as well as unused revenue from the Forest Products program. These fees are collected, used for the current year expenditures, and when excess funds are collected in the current year, they are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program. The total fiscal year nursery plant sales revenues have been insufficient to fully support the salary and operating expenditures of the nurseries. Therefore, as this is an inclusive Enterprising Fund, a portion of the excess cash on hand, which is balanced forward each fiscal year, assists in supporting the nursery expenditures when current year plant sales are insufficient to support current year costs incurred.	-1,059,050	0	0	0
4012	NURSERY SALES The Nevada Division of Forestry Nurseries cultivates and sells plants native to or acclimated to the environmental conditions of Nevada for sale to the public and other governmental entities. These products are used for conservation purposes including: establishment of windbreaks; erosion control; wildlife habitat enhancement and rehabilitation of lands damaged by wildfire. This is an enterprise program that operates using funds from the sale of these products. These revenues support Nursery expenditures paid out of expenditure categories: 01-Personnel Services, 10-Nursery Operating, 87-Purchasing Assessment, 88-SWCAP, and 89-AG's Cost Allocation. Budgeted revenue is based on a 5-year average.	193,733	221,802	232,226	232,279
4021	FOREST PRODUCT SALES NDF previously acquired wood harvesting equipment to improve forest health, reduce the wildfire threat and improve watershed health. Woody biomass in the form of chips, whole logs and/or firewood are generated as products of fuel reduction or forest health project implementation. It is NDF's goal to maximize utilization of generated woody biomass by selling the material where appropriate and cost effective to do so. The fees that are collected will be used for current year expenditures in CAT 20 (Forest Products Program) for the maintenance and fuel costs of the equipment. Budgeted revenue is set at 5 year average.	0	2,287	2,227	2,227

	The State of Nevada Seedbank collects, mixes, stores, and sells bulk species of Nevada native seed to be utilized for rehabilitation efforts by the Nevada Division of Forestry, Nevada Department of Wildlife, US Forest Service, US Bureau of Land Management, US Fish and Wildlife Service, California Department of Forestry and other state, federal and local agencies. The Nevada Seedbank is the chosen State of Nevada vendor by State Purchasing to be the sole provider of seed for other state agencies. The revenues are collected, used for current year expenditures, and those excess funds are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program which over the past few years have had insufficient revenues to fully support those nurseries. These revenues support Seedbank expenditures paid out of expenditure categories: 01-Personnel Services, 15-Seedbank Operating, 87-Purchasing Assessment, 88-SWCAP, and 89-AG's Cost Allocation. Budgeted revenue is based on a 5-year average.				
4301	RENTAL INCOME - NON-EXECUTIVE BUDGETS NDF previously acquired wood harvesting equipment to improve forest health, reduce the threat to wildfire and improve watershed health. NDF has established billing rates for equipment rental to outside users; this activity will generate income for the program. The fees that are collected will be used for current year expenditures in CAT 20 (Forest Products Utilization Program) for the maintenance of the equipment. Budgeted revenue is based on a 5-year average.	57,096	76,229	95,410	95,410
4303	MACHINE RENTAL The Seedbank rents out rangeland seed drills, hand seeders, and ATV Seeders to land owners, NDF crews, resource management staff, and other entities to assist with rehabilitation needs caused by fire suppression activities, wildfire and other land disturbing activities. Fees collected are ultimately used for current year expenditures in CAT 15 (Seedbank Operating), including the maintenance of the equipment. Budgeted revenue is based on a 5-year average.	4,044	4,645	5,635	5,635
4669	TRANS FROM OTHER B/A SAME FUND (4195) Grant funds transferred from B/A 4195 from the U.S. Forest Service (USFS) Consolidated Payment Grants (CPG), USFS Hazardous Fuels, as well as participating grants and agreements from other USFS, Bureau of Land Management Agreements, and US Fish and Wildlife Service initiatives support 2 NDF nursery Conservation Aid positions, one at each Nursery to collect, process and plant seeds; assist with irrigation, sell and deliver plants; and perform other duties to keep the nurseries and seedbank operational. Funds are also use to support a portion of a Forester III position that serves as the Seedbank and Forest Products/Biomass Utilization Coordinator, whom manages seed and forest products marketing, sales, acquisition, production, collecting and distribution as well as machinery rental, maintenance and repair.	93,607	125,865	39,332	37,882

	This GL includes monthly charges paid for cellular telephones issued to employees. These telephones enable staff to communicate while working outside a traditional office. This GL will also include cellular phone equipment if applicable.				
7296	EITS LONG DISTANCE CHARGES	60	39	60	60
	This GL contains expenditures for long distance telephone charges, paid to the Division of Enterprise Information Technology Services.				
7300	DUES AND REGISTRATIONS	0	0	0	0
	This category supports annual memberships paid to organizations related to Plant program materials, and registration fees paid to participate in various community service or other events.				
7340	INSPECTIONS & CERTIFICATIONS	0	879	0	0
	This category includes expenditures for annual water assessments at the Washoe Nursery from the Nevada Division of Water Resources; annual payment to the State Fire Marshal for hazardous material storage permit fees at both nurseries; annual fire extinguisher inspections. This is usually an annual reoccurring expense, but the FY20 base year expenditure did not occur due to a halt in operations as a result of the COVID shutdown. An M150 adjustment brings authority back up to the budgeted FY21 work program level.

	The Nevada Seedbank was added to the Nursery Program through the Nevada Legislature in 1995 (SB 579) to provide a mechanism to reduce or mitigate the growing frequency and severity of impacts resulting from wildland fires throughout the state. The Seedbank provides seed, equipment and other materials to rehabilitate wildland fire and fire suppression related damages, and assists private landowners and public agencies with conservation treatments on their lands to reduce soil erosion, increase plant diversity, improve wildlife habitat and reduce the threat of wildland fire. The State of Nevada Seedbank collects, mixes, stores, and sells bulk species of Nevada native seed to be utilized for rehabilitation efforts by the Nevada Division of Forestry, Nevada Department of Wildlife, US Forest Service, US Bureau of Land Management, US Fish and Wildlife Service, California Department of Forestry and other state, federal and local agencies.

20 FOREST PRODUCTS PROGRAM

The NDF Forest Products Program maintains an inventory of machinery used for wood harvesting to improve forest health, reduce wildfire risk and improve watershed health. In order to augment program income, NDF has established revenue rates for rental of each piece of equipment to outside entities that desire to perform wood harvesting work. These rental fees generate income that in turn funds more cleanup and reclamation work by the Forest Products Program. This category contains the corresponding authority needed to maintain the equipment and any operating supplies needed for the Forest Products Program.

	The Nevada Division of Forestry Nurseries cultivates and sells plants native to or acclimated to the environmental conditions of Nevada for sale to the public and other governmental entities. These products are used for conservation purposes including: establishment of windbreaks; erosion control; wildlife habitat enhancement and rehabilitation of lands damaged by wildfire. This is an enterprise program that operates using funds from the sale of these products. These revenues support Nursery expenditures paid out of expenditure categories: 01-Personnel Services, 10-Nursery Operating, 87-Purchasing Assessment, 88-SWCAP, and 89-AG's Cost Allocation. 	Balance forward funds include unexpended Seedbank revenues received for the sale of seed stock as well as unused revenue from the Forest Products program. These fees are collected, used for the current year expenditures, and when excess funds are collected in the current year, they are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program. The total fiscal year nursery plant sales revenues have been insufficient to fully support the salary and operating expenditures of the nurseries. Therefore, as this is an inclusive Enterprising Fund, a portion of the excess cash on hand, which is balanced forward each fiscal year, assists in supporting the nursery expenditures when current year plant sales are insufficient to support current year costs incurred.

4021	FOREST PRODUCT SALES NDF previously acquired wood harvesting equipment to improve forest health, reduce the wildfire threat and improve watershed health. Woody biomass in the form of chips, whole logs and/or firewood are generated as products of fuel reduction or forest health project implementation. It is NDF's goal to maximize utilization of generated woody biomass by selling the material where appropriate and cost effective to do so. The fees that are collected will be used for current year expenditures in CAT 20 (Forest Products Program) for the maintenance and fuel costs of the equipment. 15	SEED BANK The Nevada Seedbank was added to the Nursery Program through the Nevada Legislature in 1995 (SB 579) to provide a mechanism to reduce or mitigate the growing frequency and severity of impacts resulting from wildland fires throughout the state. The Seedbank provides seed, equipment and other materials to rehabilitate wildland fire and fire suppression related damages, and assists private landowners and public agencies with conservation treatments on their lands to reduce soil erosion, increase plant diversity, improve wildlife habitat and reduce the threat of wildland fire. The State of Nevada Seedbank collects, mixes, stores, and sells bulk species of Nevada native seed to be utilized for rehabilitation efforts by the Nevada Division of Forestry, Nevada Department of Wildlife, US Forest Service, US Bureau of Land Management, US Fish and Wildlife Service, California Department of Forestry and other state, federal and local agencies.

20	FOREST PRODUCTS PROGRAM The NDF Forest Products Program maintains an inventory of machinery used for wood harvesting to improve forest health, reduce wildfire risk and improve watershed health. In order to augment program income, NDF has established revenue rates for rental of each piece of equipment to outside entities that desire to perform wood harvesting work. These rental fees generate income that in turn funds more cleanup and reclamation work by the Forest Products Program. This category contains the corresponding authority needed to maintain the equipment and any operating supplies needed for the Forest Products Program.				
7024	OPERATING SUPPLIES-D This M150 adjustment increases authority to a more likely reoccurring amount. Base year FY20 expenditures were lower than usual due to a halt in operations as a result of the COVID shutdown. The FY21 work program amount included costs that will not continue in the 22/23 biennium, so this adjustment has instead been annualized as follows: FY20 Actual = \$5,888 / 8 months of operating = \$736 per month \$736 x 4 months = \$2,944 M150 adjustment to annualize due to COVID	0	0	2,944	2,944

	The core mission of the Nevada Division of Forestry (NDF) places employees in situations in which they have to be readily recognizable and, perhaps more importantly, in situations where clothing must be of a protective nature. NDF has designated 4 classes of authorized uniforms including protective clothing that meets standards for fire ratings required for respondent staff. Pursuant to NRS 281.121, NDF has received approval from the Budget Division for various staff to be budgeted for each class of uniform, and provides compensation for these uniforms in compliance with statute. These expenditures are calculated in a NEBS schedule.				
	Pursuant to NAC 284.294, employees who are required to furnish their own tools may elect to be reimbursed for the use, loss, theft and breakage of the tools at the rate of \$50 per month if the monetary value exceeds \$1,000.

2511	BALANCE FORWARD FROM PREVIOUS YEAR Balance forward funds include unexpended Seedbank revenues received for the sale of seed stock as well as unused revenue from the Forest Products program. These fees are collected, used for the current year expenditures, and when excess funds are collected in the current year, they are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program. The total fiscal year nursery plant sales revenues have been insufficient to fully support the salary and operating expenditures of the nurseries. Therefore, as this is an inclusive Enterprising Fund, a portion of the excess cash on hand, which is balanced forward each fiscal year, assists in supporting the nursery expenditures when current year plant sales are insufficient to support current year costs incurred.	0	0	0	-340,210

This decision unit adds uniforms for seasonal positions. Currently, seasonal staff do not have issued uniforms, but operate in the same capacity as permanent staff when interacting with the public and representing NDF. The Division desires to provide uniforms for seasonal staff in an effort to present a professional image and provide safety in the field while engaged in resource project work. (see Uniform Schedule for related attachments)

NDF - "S" SEASONAL - NEW/REPLACE for 1 staff includes:

1. Polo Shirt
2. T-Shirt
3. Pants
4. Ball Cap

	General Fund included in this budget is for the purchase of seed, plants, and other materials used in wildland fire rehabilitation. These expenditures include the purchase of seed, plants and other materials for the purpose of restoring land and vegetation that was disturbed or damaged by wildfire and related suppression activities such as the creation of bulldozed firebreak lines. Any disturbance of wildland caused by fire suppression activities that may result in increased threats to the public or area infrastructure is typically repaired as soon as practical.

E710	EQUIPMENT REPLACEMENT				
	This decision unit will replace the Washoe nursery and seed bank's forklift (fixed asset number 220277 assigned to the Washoe Nursery, purchased in 1996). The existing forklift is 24 years old and has multiple problems that affect its reliability and ability to be used safely. NDF's Plant Material Program, which includes 2 nurseries and one seed bank, was first established in 1957 to provide technical assistance and conservation plant materials - tree seedlings, shrubs, forbs and seed - to meet the conservation needs of Nevada's private landowners and public land management agencies. The nurseries also offer custom growing services for conservation plants native or adapted to the Mojave Desert, Great Basin, and Sierra Nevada. The nursery and seedbank operations require regular loading and unloading of plant materials, soil, seed, and other equipment and materials necessary for propagation of conservation plant materials. These items are purchased in commercial quantities which are heavy and typically delivered on pallets. A forklift is required to safely and efficiently move these materials to storage locations and to make use of the materials during plant production. . A new, replacement forklift will add efficiency and safety to the conservation plant material operation by providing reliable handling of heavy pallets of material without the need for manual labor and increased time otherwise required to move the materials in smaller quantities.
