Budget Account: 1531 GOED - WORKFORCE INNOVATIONS FOR A NEW NEVADA ACCT

The Workforce Innovations for the New Nevada (WINN) account was established as a result of the approval of Assembly Bill 1 of the 29th Special Session of the Nevada Legislature. The legislation requires the Governor's Office of Economic Development to develop and implement programs to provide customized workforce development services to companies that create and expand businesses in the state and/or relocate businesses to the state. The legislation was inspired by the need for customized workforce training in advanced manufacturing and related skills to serve the needs of emerging industries in the state. Statutory Authority: NRS 231.141 through NRS 231.152.

This decision unit increases the revenue in the first year to include the amount approved for the second year of the current biennium. The agency is requesting to receive all of the funds for the biennium in the first year in order to be able to obligate the full amount up front. This would provide additional time needed to obligate and spend all of the funds for longer-term workforce development training programs versus limiting obligations to only short-term projects at the start of the second year of the biennium, which has proven challenging when the funds revert at the end of the biennium.

Budget Account: 1533 GOED - NEVADA KNOWLEDGE FUND

The Knowledge Fund was created with the passage of Assembly Bill 449 (2011) as part of the restructuring of Nevada's economic development agency. The Knowledge Fund spurs research and the commercialization of research in areas the state has targeted for economic growth. Commercialization in knowledge-based industries creates high-paying jobs and generates tax revenue in addition to strengthening research and development in Nevada's targeted industries. The Fund provides grants in five allowable areas, including: establishing technology outreach programs throughout the state; recruiting, hiring, and retaining research teams and faculty; funding research laboratories and related equipment; constructing research facilities; and matching funds for federal and private sector grants and contract opportunities. Statutory Authority: NRS 231.1591 through NRS 231.1597.

Budget Account: 1560 ADMINISTRATION - SPWD - FACILITY COND & ANALYSIS

The State Public Works Division's (SPWD) Facility and Condition Analysis Unit is responsible for inspecting and evaluating the short and long-term facilities maintenance needs for all state-owned buildings. The Unit performs physical inspections of all state buildings to identify and quantify the potential short and long-term fiscal obligation and projected inventories of deferred maintenance. Staff attempts to inspect and evaluate every state building on a three-year cycle and works with state agencies to identify, evaluate, and document immediate facility condition issues and/or concerns. Staff generates Facilities Condition Analysis reports, estimates cost of repairs, makes recommendations as to the priority and urgency of the facilities' maintenance needs and makes that information available to state agency directors, the Division Administrator, the Legislature, and the Budget Office. Statutory Authority: NRS 338, 341, 393 and 444.

Section A1: Line Item Detail by GL

Budget Account: 2361 DEPARTMENT OF TAXATION

The Department is responsible for providing fair, efficient, and effective administration of tax programs in accordance with applicable statutes, regulations, and policies, and serves taxpayers and state and local government entities. The Department collects approximately \$7.3 billion a year in taxes and distributes those revenues to the state General Fund, distributive school account, other state agencies, and local government entities. Taxes administered by the Department include all sales and use taxes, modified business tax, insurance premium tax, commerce tax, and a variety of excise taxes. In addition, the department is responsible for appraising property of an interstate or inter-county nature as well as mining property. It establishes guidelines for county assessors, recorders, and treasurers; monitors appraisal and assessment performance; and ensures statewide compliance with assessment standards established by the Nevada Tax Commission (NTC). The Department reviews local government budgets and audits, prepares ad valorem tax rates for certification, and advises local governments on Budget Act compliance and financial management matters. Additionally, the Department provides certified annual population estimates for the state, counties and incorporated cities.

The Department serves as staff to five boards and commissions, including the NTC, which, as head of the Department, adjudicates contested cases, adopts regulations, and ensures fair and equitable treatment of taxpayers across tax types. The State Board of Equalization hears and determines property tax appeals and equalizes property tax values. The Committee on Local Government Finance provides financial accounting standards for local governments and oversight to financially troubled local government entities. The Mining Oversight and Accountability Commission ensures various state agencies maintain compliance over environmental, safety and training, and taxation issues related to the mining industry. The Appraiser Certification Board ensures all property tax appraisers in the state are certified and maintain continuing education requirements. Statutory Authority: NRS 354, 360, 360B, 361, 361A, 362, 363A&B, 363C, 364.125, 368A, 369, 370, 370A, 371, 372, 372A, 372B 374, 374A, 375, 375A&B, 376A, 377, 377A&B, 387.332, 444A.090, 453A, 453D, 482.313, 585.497, 680B.

3401	FEDERAL AID This revenue source was discontinued beginning in fiscal year 2021.	13,167	0	0	0
3601	CIG/OTP LICENSE FEES During the 2019 Legislative Session, changes were made to NRS 370. These changes allowed for new licensing fees for other tobacco products, wholesale and retail dealers, and an increase to the existing fee for cigarette wholesale dealers. This increased revenue was to aid in the enforcement of licensees and the tracking of tobacco products sold in the state. Projections for fiscal years 2022 and 2023 are based on the number of current license types as of July 27, 2020. FY22 and FY23 License Fees 26 manufacturers licenses x \$1,000 = \$26,000 196 OTP wholesalers dealers x \$650 = \$127,400 3,080 tobacco retail dealers x \$50 = \$154,000 51 cigarette wholesale dealers x \$650 = \$33,150 Total: \$340,550	328,924	364,900	340,550	340,550
3729	AUDIT FEES Fees are collected pursuant to several statutes (NRS 363A, NRS 363C.120, NRS 372.740, and NRS 372A.280) to reimburse the State for employee travel required outside of the state to examine the records of any person selling or purchasing tangible personal property in this state. Expenditure offset is category 10, Out-of-State Audit. As a result of efforts by the Department, the revenues for this purpose have declined. The efforts are associated with auditing via electronic means. Due to the COVID-19 pandemic in fiscal year 2020 and the decrease it caused in travel, the projection is based on an average of fiscal years 2018 and 2019. FY18 = \$22,299 FY19 = \$22,547 Two-Year Average = \$22,423	12,713	34,594	22,423	22,423
3750	ADMIN FEE CIGARETTE TAX Fees are received pursuant to NRS 370.260 as compensation for collecting tobacco taxes and license fees. Revenues are used to fund staff in category 01 and cigarette stamp purchases in category 25. See attached Spreadsheet for fiscal year 2022 and 2023 revenue projections. 	Fees are received pursuant to NRS 244A.860 to reimburse the Department for collecting and administering the county-imposed fee upon the lease of a passenger car by a short-term lessor. Expenditure offset is category 01, Personnel Services. The budget for this revenue is requested at the base amount.				
3755	ADMIN FEE BAD CHECK CHARGES Fees in the amount of \$25 are charged to taxpayers pursuant to NRS 360.238 for checks returned due to insufficient funds, credit, or stop payments. Expenditure offset is category 01, Personnel Services. The budget for this revenue is requested at the base amount.	90,113	80,844	90,113	90,113
3765	JUSTICE COURT FEES Fees are received from County Treasurers pursuant to NRS 4.065, which requires the Justice of the Peace to charge and collect \$1 from parties commencing, answering, or appearing in an action or proceeding. Fees are used to employ a demographer to assist in the determination of population pursuant to NRS 360.283. The expenditure offset is category 01, Personnel Services and category 21, Demographic Surveys. The budget for this revenue is requested at the base amount.	85,818	83,276	85,818	85,818
4230	MARIJUANA PROGRAM COST ALLOCATION This cost allocation provides reimbursement to the Department of Taxation from the Cannabis Compliance Board. This allocation provides reimbursement for Allied Security armed guard services, and Stanley Security camera and panic button services which are used in the operations of collecting taxes from the cannabis industry. This revenue source is discontinued in fiscal year 2022. See M-150 for this line item.	23,965	47,337	23,965	23,965
4254	MISCELLANEOUS REVENUE Revenues that are generated from the reimbursements for publications, charges for photocopies, sale of seized assets, and other items not otherwise classified. Revenue is based on an average of fiscal years 2019 and 2020. In prior years, the Department would purchase publications that were used by the Local Government Services (LGS) Division of the Department and sold to the counties. In fiscal year 2017, it was determined that the counties would purchase the publications directly and not go through the Department. Therefore, the projection is based upon an average for fiscal years 2019 and 2020. FY19 = \$1,837 FY20 = \$1,249 Two-Year Average = \$1,543	1,474	2,341	1,543	1,543

4673	TRANS FROM ENVIRON PROTECT Funds are received from the Division of Environmental Protection pursuant to NRS 444.616, which provides for 0.5 percent of the balance in the Solid Waste Management Account to be transferred quarterly to the Department for administering and collecting the tire tax. The budget for this revenue is requested at the base amount. Expenditure offset is category 01.	10,289	10,089	10,289	10,289
4683	TOBACCO SETTLEMENT INCOME Funds are received from the Master Settlement Agreement (MSA) to support the Master Settlement Enforcement Section. Reimbursements are provided by the State Treasurer's Office. The section enforces State requirements pursuant to Nevada Revised Statutes 370 and 370A and the MSA. Reimbursements support personnel expenses in category 01 and travel and operational expenses in category 11, Master Settlement Agreement. Revenue GL 3601 CIG/OTP is projected at \$340,550. Expenditures for the MSA Enforcement Section are projected to be less than projected revenue from RGL 3601. No Tobacco Settlement Income (MSA) Funds will be needed for fiscal years 2022 and 2023.	0	0	0	0

M501 FEDERAL IRS MANDATES

This request is to perform background checks on employees as required by the IRS. The Department of Taxation received authority to conduct these background investigations through NRS 360 during the 2019 Legislative Session.

The Department estimates 19 employees will fit the five-year requirement for a new background check in fiscal year 2022 and 2023.

The Department of Public Safety charges \$40.25 per background check. The fingerprinting vendors charge \$20 per fingerprint card. The total estimate for a background check to be completed on an employee is \$60.25.

FY2022: 19 employees X 60.25 = \$1,144.75
FY2023: 19 employees X 60.25 = \$1,144.75

The Department was audited by the IRS in the spring of 2018 for its use of Federal Taxpayer Information (FTI) and the secure storage of that information. The IRS requires that agencies who require access to FTI establish a personnel security program that ensures background investigations for any individual that has access to FTI at a minimum of 10 years. The Department asserts that implementing background investigations of employees at a minimum of every five years is prudent to ensure compliance with the IRS requirement as well as protecting the state's vulnerable resources.

The Department currently works with the Records, Communication, and Compliance Division in the Department of Public Safety for background checks under NRS 239B.010(1)(b), which authorizes a state agency or political subdivision to conduct a fingerprint-based background check on "any person with whom it intends to enter into a relationship of employment." Per the Federal Bureau of Investigation (FBI), this only pertains to initial employment, not a background check on current employees. Their response states "If Nevada would like to conduct background checks on current employees, which would include periodic reinvestigations" the statute would need to be amended to be in compliance with IRS Publication 1075, or the Department would need to establish the authority within its own statutes that would allow for the background check similar to NRS 239B.010 and also allow for the periodic reinvestigations.

IRS Background Investigation Minimum Requirements (from the IRS audit):

Determining the suitability of individuals who require access to U.S. government Sensitive But Unclassified (SBU) information, including FTI, is a key factor in ensuring adequate information security. Prior to granting access to FTI, and periodically thereafter, the Agency must complete a suitability background investigation (BI) which is favorably adjudicated by the Agency.

Federal agencies must conduct a suitability or security background investigation based on the position sensitivity of the individual's assigned position and risk designation associated with the investigative Tier established by the Federal Investigative Standards (FIS). Granting access to FTI requires a Tier 2 level investigation at a minimum.

A FIS Tier 2 standard background investigation meets the suitability investigative requirement for non-sensitive positions designated as moderate risk public trust (requested using Standard Form 85P). Investigations conducted at Tiers 2-5 meet the minimum standard for an employee or contractor access to FTI. Federal agencies may be asked to provide evidence that the required BI was conducted for each individual granted access to FTI. FIS standards require reinvestigation every five years at a minimum.

State and local agencies which are not required to implement the federal background investigation standards must establish a personnel security program that ensures a background investigation is completed at the appropriate level for any individual who will have access to FTI using the guidance below as the minimum standard and a reinvestigation conducted within 10 years at a minimum.

Agencies must develop a written policy requiring that employees, contractors and sub-contractors (if authorized), with access to FTI must complete a background investigation that is favorably adjudicated. The agency may adopt the favorability standards set by the FIS or one that is currently used by another state agency, or the Agency may develop its own standards specific to FTI access.

The written background investigation policy must establish a result criterion for each required element which defines what would result in preventing or removing an employee's or contractor's access to FTI.

Agencies must initiate a background investigation for all employees and contractors prior to permitting access to FTI.

State agencies must ensure a reinvestigation is conducted within 10 years from the date of the previous background investigation for each employee and contractor requiring access to FTI.

E225 EFFICIENCY & INNOVATION

This request is for two positions to create the Office of Taxpayers' Rights Advocate. This office is anticipated to be within the Department's Carson City office and would consist of an Administrative Assistant IV and an unclassified, Deputy Director level position. The Office of Taxpayers' Rights Advocate would assist taxpayers with problems and complaints that have not been resolved through the normal channels of the Department. The office would also act as a liaison between the Department and taxpayer during audit and collection processes to ensure taxpayer rights are understood and protected. Part of the role is to make sure the Department's staff actions are consistent with the Taxpayers' Bill of Rights. To achieve this, the advocate will work closely with the Department of Taxation's Executive Director and senior staff on systemic tax and feepayer issues. This decision unit corresponds with BDR No. 21A1302676.

The Department feels this office would offer valuable assistance to taxpayers who need help resolving tax problems. This program would assist in changing the Department's image of being a regulatory, enforcement agency to being a valuable resource to help taxpayers comply with Nevada's tax laws. The Taxpayer Rights Advocate is needed to bring a positive customer service component to the Department. Due to the compliance and enforcement aspects of the Department of Taxation, customers tend to have a negative perception of the Department. This position would be an independent branch of the Department focused on helping taxpayers through often confusing processes and to resolve tax related issues. This position would also offer an educational outreach program to the communities in Nevada to ensure taxpayers understand their obligations and rights. This outreach would increase the transparency of the Department to the public.

In cases where the law, policy, or procedure does not allow any change to Department staff action, but a change appears justified, the taxpayer advocate can be alerted to a potential area that may need clarification or modification. The taxpayer advocate can recommend policy, procedural, and legislative changes based on its contact with taxpayers.

The Office of the Taxpayers' Rights Advocate would facilitate resolution of taxpayer complaints or problems, including complaints regarding unsatisfactory treatment of taxpayers by Department employees. In addition, the advocate would monitor all tax and fee programs administered by the Department for compliance with the Taxpayers' Bills of Rights and recommend new procedures or revisions to existing policies to ensure fair and equitable treatment of taxpayers. The advocate will work with Department staff to ensure that taxpayer educational materials are clear and understandable and will conduct public Taxpayers' Bill of Rights meetings to give the public an opportunity to express their concerns, suggestions, and comments.

E227 EFFICIENCY & INNOVATION

This request is for a Statistician for the Data Team within the Administrative Services Division of the Department of Taxation. This position will assist the Economist and Management Analyst III in better serving the public and the Department's stakeholders by providing timely, detailed, and accurate information. The Department of Taxation provides a wealth of information and analysis on tax revenues and distributions, historical data, and forecasts to a wide range of stakeholders including other State agencies, local governments, and private industry. Statistical data from the Department is used to create statewide revenue estimates and Economic Forum forecasts, in addition to local county and city budget estimates. It is vitally important that the reports produced by the Department are both timely and consistent with previously reported information.

	Due to the complex nature of our database systems, producing quality, reliable, and consistent data and analysis is labor-intensive. Our data, queries, and calculations require regular and ongoing review and analysis to ensure that they are keeping up with our evolving policies, procedures, and technical systems. A statistician is needed to generate reports on a regular basis (monthly, quarterly, and annually) and in response to Legislative and public data requests. The Statistician will also work under the general supervision of the Deputy Director to verify that queries and reports are always maintained and up to date. The Statistician will be a critical component of the Department's Data Team, which will aid both the Department and other State agencies in better understanding the sources of the State's revenues. E228 EFFICIENCY & INNOVATION

This request is for the Information Technology Division (IT) to contract with a consultant to assist with the UTS (Unified Tax System) operations and updates. 2,080 hours X \$100 rate = \$208,000

The division maintains a backlog of items that need to be addressed for the UTS to function. Each backlog item requires programming changes, IT infrastructure changes, or security fixes. Every odd year, the Legislative Session brings changes in laws and regulations that need to be implemented in a timely manner. To implement the changes, IT has to put some projects on hold during the implementation period. The backlog is cumulatively increasing, and IT is unable to implement those backlogs. By having a consultant, it will allow the Department the ability to hire and recruit a specific type of technology consultant as needed.

E229 EFFICIENCY & INNOVATION

This request is for relocating the two Department of Taxation offices in the Las Vegas Valley into one location to allow for one cohesive Department of Taxation presence in Southern Nevada. This location would contain a hearing room for Commission meetings, a conference rooms for staff and constituent meetings and workshops, and a training room for new staff orientation and ongoing education for staff. This consolidation would also result in costs savings through elimination of duplicate vendor services.

The Department of Taxation has two offices in the Las Vegas Valley. This consolidation would allow for increased back up support for the offices when staff is out. Currently, Tax Managers at the Henderson and Las Vegas offices must travel to provide supervisory coverage when their counterparts are out of the office. This consolidated location would eliminate the need for travel and allow for a greater supervisory presence. This location would contain a training room eliminating the need for staff to travel between offices to attend or provide training. This will result in cost savings and efficiencies to the Department including a reduced number of cameras needed, elimination of one security guard position, and consolidated Loomis pickup costs. The Henderson office has been on a month-to-month lease since February 28, 2020. The current landlord is asking above market rate and negotiations have stalled. This consolidation would allow for a long-term lease to replace the expired Henderson lease and provide stability for the Department.

E230	EFFICIENCY & INNOVATION				
	This request would provide for a technical solution to securely transfer and store large data files from taxpayers to the Department of Taxation. This solution would allow for taxpayer access to upload large files and allow the auditors to retrieve and utilize the files.				
	The current audit process requires taxpayers to provide business records via multiple email attachments, voluminous mail shipments, in person drop off at the office, or by the auditor conducting a field visit and picking up the documents. For large audits, the taxpayer does not want to make copies of all documents, so they will drop originals off for auditors to use. These documents are then returned to the taxpayer after the audit. During the Covid-19 pandemic, in an effort to reduce in person contact, Audit Staff worked with the Information Technology Division to establish a FTP site for transmission of documents. This process is time consuming to set up, and requires a few months lead time in certain circumstances. Establishment of a Cloud Storage Solution would allow auditors access to complete electronic records to provide for more accurate and complete analysis. Additionally, this would create an efficiency by reducing the travel required to collect documentation from taxpayers.

Budget Account: 2560 NDVS - OFFICE OF VETERANS SERVICES

The Department of Veterans Services is responsible for advocating for and providing superior service to Nevada veterans and their families and to provide our communities and partners the opportunity to contribute in these endeavors. Through four major programs, the department assists veterans in preparing and submitting claims for benefits, provides skilled nursing care, provides dignified burial support and helps veterans successfully integrate into Nevada communities. Statutory Authority: NRS Chapter 417.

Budget Account: 2561 NDVS - SOUTHERN NEVADA VETERANS HOME ACCOUNT

The Nevada State Veterans Home (the Home) is a 180 bed state-skilled nursing care facility. The Home, dedicated on June 28, 2002, admitted its first residents on August 12, 2002. The Home provides 24-hour skilled nursing care to eligible veterans, spouses of veterans, and Gold Star Parents who had a child who died while in military service. A minimum of 75% of the Home's residents must be veterans. The 180 bed facility consists of three 60 bed wings and is located on 50 acres in Boulder City. One of the Home's three wings houses a secured care unit intended for residents with severe dementia. The Home is certified by Medicaid, Medicare, and the US Department of Veterans Affairs. The Home provides a full range of services including: physicians; laboratory; pharmacy; physical, occupational, respiratory and speech therapy; dental; social and spiritual services; medical records; activities; transportation; maintenance; dietary; barber; laundry; housekeeping; and financial services. The Home's primary mission is "Caring for Nevada's Heroes." Statutory Authority: NRS Chapter 417.

Budget Account: 2580 DETR - EQUAL RIGHTS COMMISSION

The mission of the Nevada Equal Rights Commission (NERC) is to foster and protect the rights of all people of the state reasonably to seek, obtain, and hold employment and housing, and seek and be granted services in places of public accommodation without discrimination, distinction or restriction as prohibited by state and federal discrimination laws. NERC oversees the state's equal employment opportunity program, providing mediation, investigation, and resolution of employment discrimination complaints related to race, religion, color, age (over 40), sex, disability, sexual orientation, gender identity or expression, or national origin. NERC partners with the federal Equal Employment Opportunity Commission in resolving these complaints. NERC also has jurisdiction in Nevada over discrimination in housing and places of public accommodation. Statutory Authority: NRS 233.

	Federal EEOC Contract - This funding is from the Federal Equal Employment Opportunity Commission (EEOC). Each federal fiscal year the Nevada Equal Rights Commission obtains a contract to resolve cases of alleged discrimination in partnership with EEOC. This contract starts on October 1 of each year. The current request is based on the FY17 payment which calculates the following: 675 closed cases @ \$700 each = \$472,500 37 intake services @ \$70 each = \$2,590 1 EEOC/FEPA training @ \$1,500 = \$1,500 1 FEPA engagement funding @ \$1,000 = \$1,000 Grand Total = \$477,590				
4254	MISCELLANEOUS REVENUE	600	555	613	613
	Miscellaneous Revenue - The majority of the funds received in this general ledger represent payment for copies, as provided in NRS 239.052, and for "witness fees" upon receipt of subpoenas, as per 28 U.S.C. --+ 1821 and NRS 50.225. A 3-year average is used in projecting the annual amount (Average of SFY16 \$506, SFY17 \$760, SFY18 \$400 = \$1,666 / 3 = \$555).

Section A1: Line Item Detail by GL

Budget Account: 2610 NDE - DISTRIBUTIVE SCHOOL ACCOUNT

The Legislature declares that the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity. Recognizing wide local variations in wealth and costs per pupil, this State should supplement local financial ability to whatever extent necessary in each school district to provide programs of instruction in both compulsory and elective subjects that offer full opportunity for every Nevada child to receive the benefit of the purposes for which public schools are maintained. Therefore, the quintessence of the State's financial obligation for such programs can be expressed in a formula partially on a per pupil basis and partially on a per program basis as: State financial aid to school districts equals the difference between school district basic support guarantee and local available funds produced by mandatory taxes minus all the local funds attributable to pupils who reside in the county but attend a charter school or a university school for profoundly gifted pupils. This formula is designated the Nevada Plan.

It is the intent of the Legislature, commencing with Fiscal Year 2019-2020, to promote transparency and accountability in state funding for public education by accounting for all state financial aid to public schools and projected local financial aid to public schools, both on a per pupil basis and on a per program basis, and expressing the total per pupil amount of all such support.

E911	Transfer Natl School Lunch Match to BA 2677				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	Transfer the National School Lunch State Match, which is match for a federal grant administered by the Department of Agriculture, from the DSA Account (BA 2610) to the formerly titled New Nevada Education Funding Plan account (BA 2677), which will be renamed the District Support Federal Grants Program Account. This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

Budget Account: 2612 NDE - EDUCATOR EFFECTIVENESS

This budget account provides resources for the Department of Education, local school districts, and charter schools to attract, prepare, train, recruit, develop, and retain teachers, principals, and other school leaders to ensure that all students have access to effective, high-quality, and experienced educators at all levels. Federal dollars support allowable activities as defined by the Elementary and Secondary Education Act, and state dollars are used for review and evaluation of traditional and alternative route to licensure preparation programs as well as development, implementation, and monitoring of the statewide performance evaluation system known as the Nevada Educator Performance Framework in accordance with state law. The Teachers and Leaders Council is also included in this budget account. Authority: NRS 391.038 and 391.039, NRS 391.450 - 391.485, 20 USC 2101 - 2103 et seq. NRS 391.490-391.496 Teacher Recruitment and Retention Advisory Task Force.

	This category supports the admin costs for the State Seal of Financial Literacy and the financial literacy month. The State Seal of Financial Literacy is awarded to pupils who graduate from a public high school, charter school or university and have a proven high level of financial literacy. Financial Literacy month is to be held once in each school year and requires the Department of Education to host a parent and family engagement summit. The State Financial Literacy Advisory Council develops a strategic plan for the development of educational resources in financial literacy to serve as a foundation for professional development for pupils. The council also prepares written reports with recommendations concerning the instruction of the curriculum in financial literacy and the activities of the council every even numbered year.

19 SOCIAL OR OTHER LIC.MENTAL HEALTH WORKER GRANTS

With these funds we are currently able to support the employment of approximately 350 professionals in 14 districts and 14 charter schools. These professionals collaborate with their colleagues in school counseling and school psychology in a host of related services, ranging from whole-school efforts to create safe, respectful, and supportive learning environments to small group and individual direct services, including in some cases therapeutic or mental health services that can only be provided by clinically licensed professionals. Other services include suicide prevention, family engagement, linking schools and families with community resources, case management, etc.

Budget Account: 2616 NDE - INCENTIVES FOR LICENSED EDUCATION PERSONNEL

NRS 391.A creates the Grant Fund for Incentives for Licensed Educational Personnel to be administered by the department. The Board of Trustees of each school district in Nevada is required to establish a program of incentive pay for licensed teachers, school psychologists, school librarians, school counselors, and administrators employed at the school level which are designed to attract and retain those employees.

This budget contains the funding for remaining provisions of the 1/5th retirement credit purchase program (previously NRS 391.165). Personnel participating in the 1/5th purchase program in fiscal year 2007 could elect to continue until they had received five 1/5th credit purchases at which time they would be eligible to participate in the incentive program mentioned above.

Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA					
The budgeted amounts for these categories meet the State's Maintenance of Effort requirement for federal special education funding. This decision unit transfers Special Education expenditures to the formerly titled State Supplemental School Support Account (BA 2617), which will be renamed the Special Education State MOE Account. Additionally, this decision unit transfers Students with Disabilities in excess of 13% of the student population to BA 2617. This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

Budget Account: 2671 NDE - ACCOUNT FOR COMPUTER EDUCATION AND TECHNOLOG
SB 313

The Account for Computer Education and Technology was created in the State General Fund, to be administered by the Superintendent of Public Instruction. The account may accept gifts and grants of money from any source for deposit in the Account. Any money from gifts and grants may be expended in accordance with the terms and conditions of the gift or grant. The interest and income earned on the sum of money in the Account and any unexpended appropriations made to the Account from the State General Fund must be credited to the Account. Any money remaining in the Account does not revert to the State General Fund, and the balance in the Account must be carried forward to the next fiscal year.

E919	Transfer Computer Ed & Tech to BA 2671				
Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA					
This decision unit transfers Category 43 (Computer Education & Technology) from the Other State Education Programs Account (BA 2699) to the Account for Computer Education and Technology (BA 2671). This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

E930	Transfer NV Ready 21 Technology grants to BA 2671				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This decision unit transfers the Nevada Ready 21 Technology grant (State funded grant) from the School Remediation Trust Fund Account (BA 2615) to the Account for Computer Education and Technology Account (BA 2761). This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

Section A1: Line Item Detail by GL

Budget Account: 2672 NDE - ACCOUNT FOR ALTERNATIVE SCHOOLS

The Account for Alternative Schools is funded by a federal Charter School grant from the United States Department of Education for a new charter school program to increase the number of new high-quality charter school operations within Nevada. This program provides sub-grants to charter schools for projects related to: the best practice dissemination; post-charter planning and implementation grants for charter schools with an express mission to serve students most at risk of not meeting the state's academic standards; and dissemination grants for charter schools that meet the definition of high-quality and have a demonstrable record of high performance with students at greatest risk for not meeting academic standards.

E913	Trasfer of federal ESSER grant to BA 2677 (PCFP)				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This transfers federal ESSER funds, available through the CARES Act, from the Office of the Superintendent (BA 2673) to the formerly titled New Nevada Education Funding Plan (BA 2677), which is recommended to be renamed the District Support Services Federal Grant Programs Account. This realignment allows federal revenues and expenditures with a similar programmatic purpose to be included in a single BA and leads to the budgetary implementation of the PCFP.

Budget Account: 2676 NDE - CAREER AND TECHNICAL EDUCATION

"The Department of Education administers career and technical education programs that meet the requirements of the Nevada State Plan for Career and Technical Education (CTE). The plan is based on the needs of students within the state and serves as the application for the federal funds authorized by the Strengthening Career and Technical Education for the 21st Century Act (Perkins V). The primary mission of the federal program is to develop and improve CTE programs, focusing on high quality programs aligned to economic and workforce development priorities of the state.

Revenue received through the Perkins V Grants to States has funding set asides including 5% or \$250,000, whichever is greater, for state administration; 10% for statewide leadership; and 85% for basic grant aid to school districts, public charter schools, and community colleges. Federal funds administration must be matched by state funds. In addition, the maintenance of effort provision requires the state to maintain funding at least at prior year levels. Authority: NRS 388.340(2a), 388.360(3) and the Strengthening Career and Technical Education for the 21st Century Act (Perkins V)."

E920	Transfer CTE contracts and grants from BA 2699				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This decision unit transfers Category 25 (Job for Americas Graduates), Category 32 (Voc Student Org), and Category 78 (AB580-SEC82-CTE PROGRAMS) from the Other State Education Programs Account (BA 2699) to the Career and Technical Education Account (BA 2676). This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP. Note: Currently, there is no funding budgeted for Jobs for America's Graduates in FY 2022 or FY 2023.

Budget Account: 2678 NDE - GEAR UP

The Nevada State GEAR UP (NVGU) application is a collaborative effort among the Nevada Department of Education (NDE), Office of the Governor, Office of the State Treasurer, and diverse stakeholders, including parents/families, students, agency representatives, businesses, and non-profit organizations. As lead agency and fiscal agent, the NDE will direct the project implementation with its partners, including the Nevada System of Higher Education (NSHE), Nevada School Districts, and the National Council for Community and Education Partnerships (NCCEP).

NVGU programming is based on the need for students to do well academically in middle and high school, enroll in rigorous and relevant classes, graduate high school, and enter college as a natural extension of their education. Activities for students include mentoring; tutoring; Science, Math, Engineering, Technology (STEM) activities and enrichment; educational field trips; financial literacy/financial aid workshops; and parent/family involvement. NVGU will develop a framework and strategies in GEAR UP middle and high schools for the implementation of Every Student Succeeds Act (ESSA)-based best practices and Nevada College Readiness Standards.

In alignment with the U.S. Department of Education, NVGU's goals and objectives are as follows:

GOAL 1: Increase the number of Nevada GEAR UP students who are prepared to enter and succeed in postsecondary education.

OBJECTIVES: 1.1 - Increase graduation rates of NVGU students from high school; 1.2 - Increase enrollment rates of NVGU students in postsecondary education

GOAL 2: Increase Nevada GEAR UP students' and families' knowledge of postsecondary education options, preparation, and financing.

OBJECTIVES: 2.1 - Increase student academic performance in mathematics; 2.2 - Increase enrollment rates of GEAR UP students in postsecondary education

GOAL 3: Increase the rate of high school graduation and enrollment in postsecondary for Nevada GEAR UP students.

OBJECTIVES: 3.1 - Increase student expectation and knowledge of postsecondary preparation and financial aid options and procedures; 3.2 - Increase parent and family expectations and knowledge of postsecondary preparation and financial aid options and procedures.

During the 2020-2026 grant period, NVGU will serve approximately 4,631 students per year and will operate statewide in 11 middle schools and 9 high schools located in northern and southern Nevada school districts, and in academic outreach programs located at Nevada's two Universities. The program will serve students beginning in the 6th grade, and through their first year in college. The project schools are located in four of the 17 Nevada school districts. Nevada request of \$24,500,000 in Federal funds over the seven year grant period will be matched by non-Federal funds of \$6,665,291 from NDE and \$17,838,502 from partners, for a non-Federal funds match total of \$24,503,793 to be dedicated for use to increase academic achievement; preparation for; and persistence in postsecondary education.

Section A1: Line Item Detail by GL

Budget Account: 2680 NDE - CONTINUING EDUCATION

The Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education (ABE) and English as a Second Language (ESL) services in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations on a competitive basis to carry out the purpose of the act. Students enrolled in the programs must be over 18 years of age, must not have a high school diploma or its equivalent, and must be withdrawn from high school and not required to be in a school. A federally required 25% match is partially met by state funding for instruction; the local instructional programs contribute the balance of the match. Authority: P.L. 105-220. Workforce Investment Act, Title II, Adult Education and Family Literacy Act; NRS 387.1233.

E921	Transfer Adult Education from BA 2699 Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA This decision unit transfers Category 80 (Adult Education) from the Other State Education Programs Account (BA 2699) to the Continuing Education Account (BA 2680). This realignment allows similar expenditures to be included in a single BA; consolidates federal funds and GF used as match into a single budget account; and leads to the budgetary implementation of the PCFP. The Nevada Western Interstate Commission for Higher Education (Nevada WICHE) was established in 1959 as a participating member of the multi-state Western Regional Education Compact comprised of 16 western states and territories. The agency operates two programs, both of which provide tuition assistance to individuals studying various allied health professions in exchange for employment commitments upon graduation. Employment commitments serve as a tool to increase Nevada's health profession workforce.

2501	APPROPRIATION CONTROL The Nevada WICHE Commission approved exiting the PSEP field of veterinary medicine beginning with new students entering in FY 2022. Due to requested budget reductions in FY 2021, the agency stopped supporting new vet med students one year earlier in FY 2021. The agency is committed to funding all existing continuing PSEP veterinary medicine students until graduation. As this is a four year program, 3 to 4 students drop off each year saving the program anywhere between \$97K to \$130K per year. The last class will graduate in 2023. The savings from this decision unit are distributed between General Fund reversions, a reduction of student derived revenue in FY 2023, and an increase in the HCAP social work field. [See Attachment]	0	0	-137,250	-199,475
4331	INTEREST INCOME 20% reduction in interest income due to the recent change in interest rates (from 8% to 1%). Veterinary medicine has the highest support fee and by extension loan component of all fields. It will be the first field to show a significant loss in interest income. 3-year average \$76,403 * .20 = \$15,281 beginning in FY 2023.	0	0	0	-15,281

4421	LOAN REPAYMENT 8% reduction in principal loan repayment income due to decreased investment in veterinary medicine. This field has the highest support fee and by extension loan repayment income of all fields; it will be the first field to show a loss in income. 3-year average \$236,796 * .08 = \$18,944 beginning in FY 2023.	0	0	0	-18,944
4429	LOAN REPAYMENT Loan prepayments (also known as in-lieu payments) are generated from the PSEP which funds students at a 75% grant and a 25% stipend. Loan prepayments are primarily generated from veterinary medicine students. In the base year, 3 vet med students prepaid their loan at \$8,100 per student (3 x \$8,100 = \$24,300). It is estimated that by exiting the field of vet med, loan prepayments will be similarly reduced going forward. Additionally, interest rates for the loan component have been dropped to 1%, making it unlikely that loan prepayments (in-lieu) in general will be collected from any field in either year of the biennium.	0	0	-24,300	-24,300

9726	LOAN DISBURSEMENTS The HCAP program currently funds 10 social work students per year through a \$5,000 stipend (\$50,000 base). As part of the savings from exiting veterinary medicine, the agency proposes to fund 20 social work students per year with a \$5,500 stipend (\$110,000). This represents an increase of \$60,000 per year.	0	0	60,000	60,000

Budget Account: 2691 AGRI - NUTRITION EDUCATION PROGRAMS

The U.S. Department of Agriculture (USDA) allots federal funds to Nevada for nutrition programs. The federal allotment for each program and/or program sponsor is based on a variety of factors including meal costs or budgets, the number of individuals served, and the income level/eligibility of those individuals/households. This budget also provides the funding needed to administer these programs including processing reimbursements, monitoring services to ensure compliance and program integrity, meal pattern compliance, providing technical assistance, statewide education and professional development to the sponsors and operators. Authority: P.L. 79-396; CFDA#'s: 10.553, School Breakfast Program; 10.555, National School Lunch Program; 10.556, Special Milk Program for Children; 10.558, Child and Adult Care Food Program; 10.559, Summer Food Service Program for Children; 10.560, State Administrative Expenses for Child Nutrition.

E225 EFFICIENCY & INNOVATION

This decision unit request authority to expend federal funds for the purpose of attending the Child Nutrition Access & Accountability through Technology training. This training is hosted by USDA for the benefit of States and their Child Nutrition feeding programs.

"The Food and Nutrition Division administers 13 of the 15 USDA Food and Nutrition programs, ensuring Nevada citizens, including children, seniors and families in need have access to food. This proposal will assist NDA in achieving the department goals of becoming a more customer focused organization by targeting the following goals: increase public trust and improve customer service, and the goal of creating a more cohesive organization.

	The purpose of the USDA Child Nutrition Access and Accountability through Technology and Training (CNAAT) conference is to empower Child Nutrition State Agency Staff with greater knowledge and skills in project management, IT procurement and contract management, data management, and best practices in the use of technologies to improve program access, program integrity, accountability, and operational efficiencies. The training also offers opportunities to collaborate with USDA Food and Nutrition Services (FNS) staff, other State Agencies and Child Nutrition Program state system IT industry partners on technology solutions from which FND can benefit."				
	This proposal will strengthen and improve services provided. Information and contacts provided through this training will enhance the training and technology utilized in the Food and Nutrition Division's education and nutrition programs, which in turn leads to better outreach, improved program integrity and public user interface.				
	The Food and Nutrition Division considers this to be an essential proposal. Currently FND has the 2019 Administrative Review Training (ART) grant. This three-year grant is heavily focused on technology and includes building a system to automate the Child Nutrition Review process. Information and ideas obtained by attending this training will enhance and grow the system being developed in this grant to ensure functionality for staff and sponsor/operators.				
	FND does not anticipate any impact on IT systems, facilities or infrastructure but because it is travel for training it will not need a TIN. Information and ideas brought back from this training we expect will lead to better programming and increased functionality within FND systems.

Budget Account: 2697 NDE - ASSESSMENTS AND ACCOUNTABILITY

Authority NRS Chapter 387, NRS Chapter 390; 2001 17th Special Session S.B. 2 and S.B. 13.

This budget account funds several testing programs, each described below, mandated by the Legislature and administered by the Department of Education. The budget account is primarily funded by the State General Fund.

The 2001 Legislature provided funds to support a contract with a nationally recognized testing company for the development, printing, scoring, and reporting of the Criterion-Referenced Tests (CRTs) in grades 3-8 (NRS 390.105). Using the CRT program for purposes of school accountability is required for Federal Title I compliance and by NRS 385.

As per NRS 390.105 and US PL 114-95, examinations measuring proficiency and achievement in reading, writing, and mathematics are to be administered in grades 3-8. These same laws require administration of examinations measuring proficiency and achievement in science in grades 5, 8, and high school prior to grade 11.

As per NRS 390.610 a College and Career Readiness assessment is required. This assessment also fulfills the requirement of US PL 114-95 to measure proficiency and achievement in reading, writing, and mathematics in high school.

Established in the 2015 Legislative session and updated in 2019, NRS 388.157 requires the assessment of all kindergarten through third grade students reading ability via a valid and reliable assessment selected by the State Board of Education. This assessment is to be developed, scored, and reported by a nationally recognized testing company according to NRS 390.105.

Academic Standards Council provides funding to support operational costs in support of the Council to Establish Academic Standards for Public Schools. The Academic Standards Council has been designated through NRS 390.115 as the sole entity within the state responsible for the establishment, periodic review, and prioritization of content and performance standards in the subject areas of English, mathematics, science, social studies, the arts, computer and technology education, health, and physical education.

Funding for the Student Accountability Information in Nevada data system and the public facing Report Card required by NRS 385 are part of this budget account. This state reporting system captures students via unique identifications and tracks their progress through the education system, including their test results on the above mentioned tests.

E924 Transfer Special Elementary Counseling to BA 2698

Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA
 This decision unit transfers Category 46 (Special Elementary Counseling) from the Other State Education Programs Account (BA 2699) to the School Safety Account (BA 2698). This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

E931	Transfer federal grant program from BA 2721				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This decision unit transfers multiple federal school safety grant from the Safe and Respectful Learning Environment Account (BA 2721) to the currently titled Bullying Prevention Account (BA 2704). This will result in GF and federally funded programs being budgeted in two separate accounts, in alignment with account structure identified in the PCFP. Ultimately, BA 2704 will be renamed to better reflect the intent of the budget account.

Budget Account: 2705 NDE - EDUCATOR LICENSURE

This fully fee-funded budget provides for all activities of the Offices of Educator Licensure and also includes the budget for the Commission on Professional Standards in Education (COPS). This account also funds the fingerprint clearance and background check processes, investigation of public and employer complaints of misconduct, and the statutorily mandated tracking, facilitation, and reporting of the licensure discipline process by the State Board of Education. Additionally, the Online Portal for Applications and Licensure (OPAL) is supported by this budget. OPAL will also allow for adherence to mandated data collection and reporting regarding the inequitable distribution of fully-certified, experienced, and effective educators serving all students in accordance with the federal Every Student Succeeds Act. Authority: NRS 391.031 - NRS 391.051; NRS 391.053 - NRS 391.059; NRS 391.320 - NRS 391.161; Assembly Bills 7, 77, and 362 (2017) and Senate Bill 287 (2017) NRS 385.175; NRS 385A.430 - NRS 385A.440.

Budget Account: 2708 PUBLIC CHARTER SCHOOL LOAN PROGRAM

The State Public Charter School Authority (SPCSA) provides loans at or below market rate to charter schools for the costs incurred in preparing a charter school to commence its first year of operations, and to improve the operations of existing charter schools. The lack of low-cost financing, or other capital, to support the operations of new and existing charter schools presents a significant hurdle to expanding and improving the quality of Nevada's charter schools. Statutory Authority: NRS 386.577.

	Section 642B of the Head Start Act, as amended December 12, 2007, states that the Head Start State Collaboration Office (HSSCO) shall assist Early Head Start (EHS) and Head Start (HS) agencies:				
	* Collaborate with entities involved in State and local planning processes to better meet the needs of low-income children from birth to school entry, and their families				
	* Assist EHS/HS agencies to coordinate activities with the State agency responsible for administering the State program carried out under the Child Care Development Block Grant Act and entities providing resource and referral services in the state to make full working day and full calendar year services available to children				
	* Promote alignment of curricula used in Head Start programs and continuity of services with the HS Child Outcomes Framework and, as appropriate, State early learning standards				
	* Promote better linkages between HS/EHS agencies and other child and family agencies, including agencies that provide health, mental health, or family services, or other child or family supportive services and carry out the activities of the State Director of Head Start Collaboration.

	The Division of Welfare and Supportive Services (DWSS) serves as the lead agency for the Child Care and Development Block Grant (CCDBG). Lead agencies are required to reserve and use a portion of their CCDBG funds for activities designed to improve the quality of child care services and increase parental options for, and access to, high-quality child care. DWSS sub-grants the quality set-aside funds to NDE as established by Executive Order #2013-16.				
	Support for continuous quality improvement is expected to cover the entire age span of children birth through age 12. States/Territories may provide these quality improvement activities directly, or through grants or contracts with local child care resource and referral organizations or other appropriate entities. The activities should be in alignment with a State/Territory-wide assessment of the State's/Territory's needs to carry out such services and care. These quality investments can align with, support and help sustain additional quality efforts developed under Pre-k Development Grants, Early Head Start/Head Start partnerships and other funding efforts which Nevada receives.

15	FEDERAL TITLE I, PART A				
Category 15, Title I, Part A, is funded by RGL 4661. The purpose of federal Title I (Improving the Academic Achievement of the Disadvantaged) funds are to "ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and State academic assessments." The Nevada State Public Charter School Authority subawards Title I funds to eligible sponsored schools so that such schools can implement Title I programs and support disadvantaged students in attaining proficiency on Nevada academic achievement standards and academic assessments.

18	PRESCHOOL DEVELOPMENT				
	Cat 18, Preschool Development Grant, is funded by RGL 4669. Competitive Federal Preschool Development Grant funds support Nevada schools to build or enhance preschool program infrastructure that would enable the delivery of high-quality preschool services to children. The Nevada State Public Charter School Authority distributes Preschool Development Grant funds to recipient schools so that such schools can implement Preschool Development programs. The Federal Preschool Development Grant program sunsets at the end of fiscal year 2019; however, the Nevada Department of Education Nevada has requested state funding to continue to competitively fund Preschool Development Grants for Nevada schools for this biennium.

	Category 19, New Nevada Education Funding Plan, is funded by RGL 4672. SB178 of 2017 Legislative Session provided additional funding for schools with certain at risk students who are not enrolled in a Zoom or Victory school or who do not have an Individualized Education Program (IEP). If this funding is continued this biennium, the State Public Charter School Authority will need authorization to receive this revenue and distribute these funds to eligible schools.

25 STATE ELL

Category 25, Nevada State ELL, is funded by RGL 4668. Since 2013, the Nevada State Legislature has supported the declaration that it is "the intent of the Legislature that children who are limited English proficient be provided with services and instruction which is designed to address the academic needs of such children so that those children attain proficiency in the English language and improve their overall academic and linguistic achievement and proficiency." The Nevada State Public Charter School Authority subawards Nevada State ELL funds in support of the above declaration to eligible sponsored schools so that such schools can implement Nevada State ELL programs and support ELL students in attaining proficiency in English and on Nevada academic achievement standards and academic assessments.

13 FEDERAL SPECIAL EDUCATION

Category 13, Special Education, is funded by RGL 4671. These federal funds are allocated as part of the Individuals with Disabilities Education Act (IDEA) to: 1) make available a free and appropriate public education to eligible children and youth with disabilities, 2) ensure special education and related services to those children and youth, and 3) ensure that the rights of those children and youth and parents of such children and youth are protected. The Nevada State Public Charter School Authority distributes federally-mandated IDEA funds to sponsored schools so that these schools can implement appropriate intervention and instructional services and thereby support a free and appropriate public education of enrolled children and youth with disabilities.

18	PRESCHOOL DEVELOPMENT				
	Cat 18, Preschool Development Grant, is funded by RGL 4669. Competitive Federal Preschool Development Grant funds support Nevada schools to build or enhance preschool program infrastructure that would enable the delivery of high-quality preschool services to children. The Nevada State Public Charter School Authority distributes Preschool Development Grant funds to recipient schools so that such schools can implement Preschool Development programs. The Federal Preschool Development Grant program sunsets at the end of fiscal year 2019; however, the Nevada Department of Education Nevada has requested state funding to continue to competitively fund Preschool Development Grants for Nevada schools for this biennium.

19	NEW NEVADA EDUCATION FUNDING PLAN				
	Category 19, New Nevada Education Funding Plan, is funded by RGL 4672. SB178 of 2017 Legislative Session provided additional funding for schools with certain at risk students who are not enrolled in a Zoom or Victory school or who do not have an Individualized Education Program (IEP). If this funding is continued this biennium, the State Public Charter School Authority will need authorization to receive this revenue and distribute these funds to eligible schools.

Category 24, Title III Immigrant, Part A, is funded by RGL 4662. The purpose of federal Title III Immigrant funds are to: 1) ensure that English Language Learner (ELL) immigrant students attain English proficiency and develop high levels of academic attainment in English, 2) assist all immigrant English learners to achieve proficiency (or higher) in academic subjects so that all immigrant English learners can meet the same challenging State academic standards that all children are expected to meet, and 3) promote parental, family, and community participation in language instruction educational programs for the parents, families, and communities of immigrant English learners. The Nevada State Public Charter School Authority subawards Title III Immigrant funds to eligible sponsored schools so that such schools can implement Title III Immigrant programs and support immigrant students in attaining proficiency in English and on Nevada academic achievement standards and academic assessments.

25	STATE ELL				
Category 25, Nevada State ELL, is funded by RGL 4668. Since 2013, the Nevada State Legislature has supported the declaration that it is "the intent of the Legislature that children who are limited English proficient be provided with services and instruction which is designed to address the academic needs of such children so that those children attain proficiency in the English language and improve their overall academic and linguistic achievement and proficiency." The Nevada State Public Charter School Authority subawards Nevada State ELL funds in support of the above declaration to eligible sponsored schools so that such schools can implement Nevada State ELL programs and support ELL students in attaining proficiency in English and on Nevada academic achievement standards and academic assessments.

E275	ELEVATING EDUCATION				
	This enhancement unit requests four new positions to provide essential capacity to account for a growing caseload of schools and to ensure that the agency can meet its obligations as a Local Educational Agency (LEA) and charter school sponsor. These positions include: PCN 300 - An Education Program Professional to monitor the academic impact of sponsored, public charter schools based on the SPCSA's academic framework and the Nevada State Performance Framework by conducting on-site school evaluations and assessing performance metrics on a regular basis. PCN 303 - An Education Program Supervisor to oversee the SPCSA's Local Education Agency program function for sponsored charter schools. This position will supervise the team tasked with oversight and support of state and federal programs to ensure the efficacy of these education programs. PCN 306 - An Education Program Supervisor to oversee the SPCSA's Local Education Agency grant-related fiscal function for sponsored charter schools. This position will supervise the expanded Grant Unit tasked with oversight, management and support for federal and state education grants to ensure compliance with Uniform Guidance (UGG), Education Department General Administrative Regulations (EDGAR) and other applicable federal and/or state grant program statutes. PCN 307 - A Grants and Projects Analyst II to provide fiscal oversight for federal and state grant programs by reviewing and processing subrecipient reimbursement requests. Specifically, this position is responsible for inspecting subrecipient budgets to ensure adherence to grant program objectives prior to reimbursement, and ensuring all expenditures meet the allowable costs/cost principles under Uniform Guidance (UGG), Education Department General Administrative Regulations (EDGAR) and other applicable federal and/or state grant program statutes. This enhancement unit represents critical capacity needs for the State Public Charter School Authority. At the end of the previous biennium (2018-2019 school year), the State Public Charter School Authority (SPCSA) sponsored 29 charter holders, with a total of 54 campuses, and served 42,333 students as of the October 1, 2018 count day. For the upcoming school year (2020-2021), the SPCSA sponsors 37 charter holders, with a total of 67 campuses, and anticipates serving approximately 51,500 students. The SPCSA also anticipates growth in the coming biennium with two new charter holders already approved to open in the fall of 2021. At a minimum, the SPCSA anticipates expanding to 39 charter holders, 71 campuses, and 56,000 students. In effect, this requires the staffing resources to accommodate a 34% increase in number of charter holders, a 31% increase in number of campuses, and an 34% increase in students served by the next biennium (using the 2018-19 school year as the starting point). As a sponsor, the SPCSA is tasked with oversight and accountability regard schools' financial, organizational, and academic performance. Additionally, at the end of the 2019 Legislative Session, the State Public Charter School Authority officially became the Local Educational Agency for all purposes for its sponsored schools. As the LEA, the SPCSA has substantial responsibilities regarding federal (ex. IDEA, Title IA, Title IIA, Title III, Title IVA) and state (ex. Zoom, Pre-k) education programs. This includes providing technical assistance and training and conducting risk assessment and monitoring of subrecipient schools to ensure compliance with laws and regulations. As the LEA, the SPCSA is responsible for pass-through of all federal and state categorical grant programs to sponsored charter schools. As a pass-through entity and LEA, the SPCSA must ensure school and agency compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds.

 2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	<p>These four positions are critical to addressing the caseload change and requirements of expanded LEA functions that were only partially addressed for the current biennium given the SPCSA's recent status change to an LEA and current caseload relative to that of the previous biennium. In addition, the SPCSA had significant findings for risk assessment and monitoring of subrecipients for federal education programs on the 2019 State Single Audit and is currently under a Corrective Action Plan. Three of these positions (PCNs 303, 306 and 307) are a critical need for the Agency to effectively implement ongoing corrective action and to develop and address continuing strategies for ensuring education program compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds.</p> <p>These four positions were prioritized after review of staffing data. Specifically, PCN 300 is requested due to the significant time investment required to conduct thorough site evaluations as required by AB 78 (2019). During the 2019-20 school year, SPCSA staff completed 42 site evaluations, and projects to conduct a similar or greater number of site evaluations each year in the coming biennium based on the new requirements, new operators, and the expansion of current charter schools. Currently, the SPCSA has one Education Program Professional (EPP) dedicated to this work. Each site evaluation is conducted by a team of at least two SPCSA staff members and, on average, takes a total of 50 staff hours based on data collected from 25 site evaluations conducted between January 2020 through May of 2020. During that five-month period, the EPP currently leading this work logged 756.75 hours or 94% of her time conducting charter school site evaluations and worked 45 hours of overtime. An additional FTE would assist in managing this caseload and meeting the necessary legal requirements. Moreover, it would provide added capacity to conduct additional site evaluations at schools based on prior performance.</p> <p>PCN 303 is requested to provide capacity to ensure strong programmatic monitoring, in line with the SPSCSA's responsibility as an LEA and to address the Single Audit Finding and implement changes as part of the Corrective Action Plan. Current programmatic support and oversight is conducted by two Education Program Professionals, each of whom currently manage a caseload of 33 or 34 school campuses. In the 2017-18 school year, these two EPPs each had a caseload of approximately 25 campuses. The growth in caseload coupled with the need for more expertise in federal and state grant monitoring establishes a need for an Education Program Supervisor to lead this work.</p> <p>PCNs 306 and 307 are requested to provide capacity to ensure strong fiscal monitoring, in line with the SPSCSA's responsibility as an LEA and to address 2019 Single Audit Findings and implement changes as part of the Corrective Action Plan. In addition, the volume of grant funds managed by the SPCSA has increased tremendously over the last biennium. For 10 grant programs and 37 charter holders, up to 164 subaward applications and subaward documents must be reviewed, processed, and managed to ensure sponsored schools can access grant funding passed through by the SPCSA. Additionally, for the same number of applications, application amendments (up to 4 per year in accordance with Nevada Department of Education guidance) need to be reviewed and processed, with associated updates to subaward documents completed. In FY2018, the SPCSA administered eight grants totaling approximately \$9.4 million. In FY2020, the SPCSA administered ten grants totaling approximately \$20 million. This significant increase has required the SPCSA to bring in contracted staff to enable the agency to keep up with this volume.</p> <p>These four positions represent the highest priority for the SPCSA in meeting the demands of an increased caseload and ensuring our ability to deliver on our responsibilities. E276 ELEVATING EDUCATION

This enhancement unit requests three new positions which will add capacity to account for a growing caseload of schools and to ensure that the agency can meet its obligations as a Local Educational Agency (LEA) and charter school sponsor. These positions include:

PCN 302	A Management Analyst II to serve as the Agency's legal analyst and assist the staff attorney with legal issues related to charter school authorization and related litigation in which the agency is engaged. This position will monitor Agency legal accountability in accordance with NRS, NAC and best practice for charter school authorizers. This position will also manage and coordinate all public information requests.				
PCN 305	An Administrative Assistant IV to provide administrative support for the SPCSA's function as a Local Education Agency. This position will manage a variety of records and stakeholder communications - including those for parent/stakeholder complaints and Safevoice school safety concerns. This position will assist with the collection, review and compiling of programmatic information and data related to Federal Title Programs (I-IV), IDEA, and state education programs for submission to NDE. This position will also coordinate education program monitoring activities to help ensure compliance with federal and state laws, regulations, and policies.				
PCN 308	A Management Analyst II to provide fiscal oversight for federal and state grant programs by (1) coordinating and conducting fiscal risk assessment and monitoring of subrecipients, (2) managing the collection, processing, and maintenance of education grant subaward applications, subaward records, and subrecipient data for the Agency, and (3) conducting fiscal audits of grant records. At the end of the previous biennium (2018-2019 school year), the State Public Charter School Authority (SPCSA) sponsored 29 charter holders, with a total of 54 campuses, and served 42,333 students as of the October 1, 2018 count day. As a pass-through entity and LEA, the SPCSA must ensure school and agency compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds. These three positions will provide added capacity to manage the increasing caseload and the requirements of expanded LEA functions that were only partially addressed for the current biennium given the SPCSA's recent status change to an LEA and current caseload relative to that of the previous biennium. In addition, the SPCSA had significant findings for risk assessment and monitoring of subrecipients for federal education programs on the 2019 State Single Audit and is currently under a Corrective Action Plan. One of these positions (PCN 308) will enable the Agency to effectively implement ongoing corrective action and to develop and address continuing strategies for ensuring education program compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds. These three positions were identified as a second-tier priority for the SPCSA. Specifically, PCN 302 is requested to support the Staff Attorney who was added to staff in 2017. While the Staff Attorney has been integral in handling litigation, providing legal advice, reviewing guidance and drafting legal documents, this work is substantial and frequently requires the support of other staff members to conduct research and prepare initial drafts of documents. In addition, the SPCSA has seen a substantial workload due to public records requests, one of which is the subject of current litigation. Currently, the process of reviewing communications and documents for public records requests is shared across many team members based on availability at the time. Public records requests frequently take several weeks to months to fulfill due to limited staff capacity. PCN 305 is being requested to provide administrative supports to ensure strong programmatic monitoring, in line with the SPSCSA's responsibility as an LEA and to address the Single Audit Finding and implement changes as part of the Corrective Action Plan. Currently, all administrative duties associated with the school support team are being managed by the Education Program Professionals. This includes fielding constituent calls, checking safevoice to ensure schools have taken action, checking for submission of grant program monitoring documents, following up with schools with incomplete documents, compiling data and information 37 charter holders into a single submission to NDE, and coordinating all aspects of training sessions and on-site monitoring. These tasks are in addition to their primary roles of providing support, technical assistance and monitoring related to state and federal programs. PCN 308 is being requested to provide capacity to ensure strong fiscal monitoring, in line with the SPSCSA's responsibility as an LEA and to address the Single Audit Finding and implement changes as part of the Corrective Action Plan. In addition, the volume of grant funds managed by the SPSCA has increased tremendously over the last biennium. For 10 grant programs and 37 charter holders, up to 164 subaward applications and subaward documents must be reviewed, processed, and managed to ensure sponsored schools can access grant funding passed through by the SPCSA. Additionally, for the same number of applications, application amendments (up to 4 per year in accordance with Nevada Department of Education guidance) need to be reviewed and processed, with associated updates to subaward documents completed. In FY2018, the SPCSA administered eight grants totaling approximately \$9.4 million. In FY2020, the SPCSA administered ten grants totaling approximately \$20 million. This significant increase has required the SPCSA to bring in contracted staff to enable the agency to keep up with this volume. These three positions represent the second highest priority for the SPCSA in meeting the demands of an increased caseload and ensuring our ability to deliver on our responsibilities. E277 ELEVATING EDUCATION

This enhancement unit requests three new positions which will add capacity to account for a growing caseload of schools and to ensure that the agency can meet its obligations as a Local Educational Agency (LEA) and charter school sponsor. These positions include:

PCN 301 - A Management Analyst II to serve as the Agency's coordinator for all charter school applications (new, amendment, and renewal). This position will provide ongoing, detailed review of charter school applications, including performance data in accordance with NRS and the SPCSA academic, organizational, and financial performance frameworks. This position will coordinate review teams tasked with rating applications and collect all information to inform the recommendation to the Authority Board.

PCN 304 - An Education Program Professional to support the Local Education Agency function of the SPCSA. This position will help ensure the efficacy of assigned federal and state programs, specifically assigned programs related to or supported by federal and/or state grant funding, for a specific caseload of SPCSA-sponsored public charter schools. Additionally, the EPP position will help oversee school compliance with federal and State requirements by (1) monitoring and reviewing program performance through desktop monitoring and communicating directly with schools; (2) assisting in the development and annual review of risk assessment and monitoring standards for various program areas; and (3) implement protocols to measure the performance of charter holders and charter school campuses regarding federal and State standards and indicators.

PCN 309 - A Business Process Analyst I to broaden support for SPCSA information technology, data management, and business process requirements as a result of expanding and improving Agency function as an LEA and mandated operations to accommodate increasing caseload.

At the end of the previous biennium (2018-2019 school year), the State Public Charter School Authority (SPCSA) sponsored 29 charter holders, with a total of 54 campuses, and served 42,333 students as of the October 1, 2018 count day. For the upcoming school year (2020-2021), the SPCSA sponsors 37 charter holders, with a total of 67 campuses, and anticipates serving approximately 51,500 students. The SPCSA also anticipates growth in the coming biennium with two new charter holders already approved to open in the fall of 2021. At a minimum, the SPCSA anticipates expanding to 39 charter holders, 71 campuses, and 56,000 students. In effect, this requires the staffing resources to accommodate a 34% increase in number of charter holders, a 31% increase in number of campuses, and an 34% increase in students served by the next biennium (using the 2018-19 school year as the starting point).

As a sponsor, the SPCSA is tasked with oversight and accountability regard schools' financial, organizational, and academic performance. Additionally, at the end of the 2019 Legislative Session, the State Public Charter School Authority officially became the Local Educational Agency for all purposes for its sponsored schools. As the LEA, the SPCSA has substantial responsibilities regarding federal (ex. IDEA, Title IA, Title IIA, Title III, Title IVA) and state (ex. Zoom, Pre-k) education programs. This includes providing technical assistance and training and conducting risk assessment and monitoring of subrecipient schools to ensure compliance with laws and regulations. As the LEA, the SPCSA is responsible for pass-through of all federal and state categorical grant programs to sponsored charter schools. As a pass-through entity and LEA, the SPCSA must ensure school and agency compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds.

These three positions will provide added capacity to manage the increasing caseload and the requirements of expanded LEA functions that were only partially addressed for the current biennium given the SPCSA's recent status change to an LEA and current caseload relative to that of the previous biennium. In addition, the SPCSA had significant findings for risk assessment and monitoring of subrecipients for federal education programs on the 2019 State Single Audit and is currently under a Corrective Action Plan. One of these positions (PCN 304) will enable the Agency to effectively implement ongoing corrective action and to develop and address continuing strategies for ensuring education program compliance with all federal, state, and local laws, regulations, and policies as related to educational grants supported by public funds.

These three positions were identified as a third-tier priority for the SPCSA. Specifically, PCN 301 is requested to coordinate the review of all new charter, amendment and renewal applications. Each year, the SPCSA oversees two new charter application cycles each year as well as two charter contract amendment cycles each year. In addition, when clear rationale is demonstrated, the SPCSA accepts both new charter and amendment applications out of cycle. The SPCSA also receives several charter school renewal applications each year, depending on when existing contracts terminate. The SPCSA is required to thoroughly evaluate each application against an established rubric and pertinent statutes and regulations to determine if the proposed plan meets the evaluative standards and that the proposed team has the capacity to implement the plan. In terms of new school applications, the SPCSA has received a total of 15 applications over the past 3 cycles (18 months), which have required significant staff time to review in detail. With regard to amendment applications, over the last 20 months, dating back to January of 2019, SPCSA staff have brought 32 charter amendment application recommendations to the Authority. Currently the SPCSA has two staff members, an Education Program Supervisor and Education Program Director, who coordinate this work in addition to a range of other duties. An additional FTE would take the lead in coordinating the review processes to ensure that all received applications continue to be evaluated effectively. This position would also be responsible for annual reviews and updates to the application forms and rubrics and ensure consistency between the applications, the agency's priorities and any changes in legislation and/or regulation.

PCN 304 is requested due to the increase in charter schools over the last biennium and expected increases in the coming biennium. Currently the SPCSA has two education program professionals (EPPs) who provide technical assistance and conduct monitoring related to state and federal programs. In the 2017-18 school year, the SPCSA sponsored a total of 28 charter holders, 49 charter school campuses. At that time, these two EPPs each had a caseload of approximately 25 campuses that they were responsible for. Since that time, their caseloads have grown to 33 or 34 campuses and are expected to grow beyond 35 in the coming biennium. In addition, as an LEA, the SPCSA is working to improve monitoring and technical support efforts to ensure full alignment with federal and state requirements.

	PCN 309 is requested to meet the increasing demand for technology and systems to fulfill our responsibilities. Specifically, with more schools the SPCSA has seen an increase in the need for systematic approaches to managing our work. In the last year, the SPCSA has brought several new solutions on board to support our management of day-to-day work. These include a complain management system to handle constituent complaints, a time tracking system to properly allocate employee time against grants, and a grant management system to handle the processing of subgrants to schools. In the upcoming biennium, the SPCSA anticipates using federal funds to implement a learning management system that will be used to provide training and technical assistance. The increase in platforms as well as the anticipated increase in staff, particularly in Las Vegas will require additional capacity. These three positions represent the third highest priority for the SPCSA in meeting the demands of an increased caseload and ensuring our ability to deliver on our responsibilities. 	This decision unit requests membership to the Nevada Association of School Superintendents (NASS). As a local educational agency focused on ensuring strong academic outcomes for students, school districts and the SPCSA share many similar responsibilities and face similar challenges. Though the SPCSA is not a school district, the closest parallel in the state are in fact school districts. Historically, the SPCSA has been allowed to attend parts of Nevada Association of School Superintendents (NASS) meetings as a guest. However, pending approval from NASS, the SPCSA seeks to join the organization to enable full access to the supports and benefits. These include regular monthly meetings and annual events focused on meeting the daily challenges of leading complex educational organizations. NASS offers a multi-tiered professional learning approach that includes conferences, workshops and online learning. Membership would allow for networking with colleagues, provide ongoing professional assistance for the SPCSA Executive Director and leadership team. Note that while NASS does have a lobbying component, the SPCSA will not participate in this component. Fees for lobbying are outside of the standard membership fees and the SPCSA would not contribute to the organizations lobbying efforts.

	This decision unit requests funding for a contract for special education legal advice to fulfill the State Public Charter School Authority's obligations as an Local Educational Agency. AB 78 from the 2019 legislative session clarified that the SPCSA is the Local Educational Agency (LEA) for its schools. As the LEA, the SPCSA is responsible for ensuring compliance with a range of federal laws and regulations, including the Individuals with Disabilities Education Act (IDEA). In an effort to ensure that the SPCSA and the schools we sponsor meet all obligations and responsibilities under IDEA, we are seeking funds to contract for Legal Advisory Services related to Special Education. While the SPCSA does have its own legal counsel, special education law is a very specific field. This would provide the SPCSA's School Support and Legal teams access to up to 10 hours per month of special education legal advice and expertise to enable strong implementation of special education programming.

Budget Account: 2712 NDE - STUDENT AND SCHOOL SUPPORT

Indian Education is under the Office of Inclusive Education, yet because the federal Elementary and Secondary Education Act (ESEA) provides support to students and schools deemed at risk, and to those students who live in poverty, as well as Native American Indians, it is intended to be continued and supported and monitored under ESEA under the direction of Indian Education.

"Title I-C, Migrant Education Program (MEP): The MEP is a State-administered program authorized by Part C of Title I of the Elementary and Secondary Education Act (ESEA) of 1965. It is a federal formula grant funded to the State Education Agency (SEA). A migratory child is defined as the child who has a parent, spouse or guardian working as a migratory agricultural worker or a migratory fisher, is not older than 21 years old, entitled to a free public education or below the age of compulsory school attendance, moved within 36 months in seek, obtain, accompany, or join the migratory agricultural worker, migratory fisher, or other move(s) identified as a qualified move.

3481	TITLE I PART A BASIC AID TO LEAS 84.010 The objective of Part A of Title I of Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind (NCLB), is to provide funds through State Education Agencies (SEAs), North Carolina Department of Public Instruction (DPI), to Local Education Agencies (LEAs) and Charter Schools to meet the special educational needs of educationally disadvantaged children in school attendance areas with high concentrations of children from low-income families. The objective is to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State Performance standards developed for all children. The Title I grant is a formula grant and the amount is calculated based on the President's proposed budget.	125,442,541	124,695,462	124,695,462	124,695,462
3482	MIGRANT EDUCATION 84.011 The purpose of the Migrant Education Program (MEP) is to expand, improve, and coordinate education programs for the children of the nation's migratory farm workers and fishers. The Migrant grant is a formula grant and the amount is calculated based on the President's proposed budget.	167,587	189,326	189,326	189,326
3483	NEGLECTED & DELINQ CHILD GRANT 84.013 The Neglected and Delinquent Program under Part D of the ESEA consists of 2 subparts. Subpart 1 is the State Agency Neglected and Delinquent formula grant program; subpart 2 is the Local Educational Agency (LEA) program. The Title I, Part D, Subpart 1, State Agency Neglected and Delinquent (N and D) program provides formula grants to the State Education Agency (SEA) for supplementary education services to help provide education continuity for children and youths in state-run institutions for juveniles and in adult correctional institutions so that these youths can make successful transitions to school or employment once they are released. Subpart 2 funds are awarded to LEAs with high proportions of youths in local correctional facilities to support dropout prevention programs for at-risk youths. The objectives are (1) to improve educational services for children and youth in local and State institutions for neglected or delinquent children and youth so that such children and youth have the opportunity to meet the same challenging State academic content standards and challenging State student academic achievement standards that all children in the State are expected to meet; (2) to provide such children and youth with the services needed to make a successful transition from institutionalization to further schooling or employment; and (3) to prevent at-risk youth from dropping out of school, and to provide dropouts, and children and youth returning from correctional facilities or institutions for neglected or delinquent children and youth, with a support system to ensure their continued education. The Neglected & Delinquent grant is a formula grant and the amount is calculated based on the President's proposed budget.	606,702	401,953	401,953	401,953
3484	MIGRANT EDUC. PROGRAM CONSORTIUM INCENTIVE 84.144 The purpose of the MEP Consortium Incentive Grants program is to provide incentive grants to State educational agencies (SEAs) that participate in high-quality consortium arrangements with another SEA or other appropriate entity to improve the delivery of services to migrant children whose education is interrupted. NDE is required to be a part of the Consortium and applies for these funds annually.	167,953	120,000	120,000	120,000

	The objective of the School Improvement Grant program is to provide funds to local education agencies (LEAs) with schools identified as being the state's persistently lowest-achieving. Under section 1003(g)(1) of the Elementary and Secondary Education Act (ESEA), the Secretary must award grants to States to enable the States to provide sub grants to local educational agencies for the purpose of providing assistance for school improvement consistent with section 1116. From a grant received pursuant to that provision, a State educational agency (SEA) must sub-grant at least 95 percent of the funds it receives to its local educational agencies (LEAs) for school improvement activities. In awarding such sub grants, an SEA must give priority to the LEAs with the lowest-achieving schools that demonstrate (A) the greatest need for such funds; and (B) the strongest commitment to ensuring that such funds are used to provide adequate resources to enable the lowest-achieving schools to meet the goals under school and local educational agency improvement, corrective action, and restructuring plans under section 1116. This grant is part of the President's proposed budget.				
3502	21ST CENTURY LRN CENTERS 84.287 The purpose of this part is to provide opportunities for communities to establish or expand activities in community learning centers that: Provide opportunities for academic enrichment, including providing tutorial services to help students, particularly students who attend low-performing schools, to meet State and local student academic achievement standards in core academic subjects, such as reading and mathematics; Offer students a broad array of additional services, programs, and activities, such as youth development activities, drug and violence prevention programs, counseling programs, art, music, and recreation programs, technology education programs, and character education programs, that are designed to reinforce and complement the regular academic program of participating students; and Offer families of students served by community learning centers opportunities for literacy and related educational development. This grant is part of the President's proposed budget.	10,477,062	6,051,473	6,051,473	6,051,473
3505	ENGLISH LANGUAGE ACQ 84.365 The purpose of this grant is to improve the education of limited English proficient (LEP) children and youth by assisting them to learn English and meet challenging State academic content and student academic achievement standards and provide enhanced instructional opportunities for immigrant children and youth. This is a formula grant and part of the President's proposed budget.	5,867,706	6,641,518	6,641,518	6,641,518

	The sub grant awards to Clark County and Washoe County are for International Baccalaureate (IB) testing fees. IB Test fees are for low-income students. The remaining federal funds are then paid to the College Board for AP test fees as the College Board does not charge the districts. This is strictly a pass through grant.

E933	Transfer federal Indian Ed grant to BA 2715				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This decision unit transfer the federal Indian Education Enhance grant from the Student and School Support Account (BA 2712) to the Individuals with Disabilities Education Account (BA 2715), which administered by the Office of Inclusive Education. This realignment allows similar expenditures to be included in a single BA and leads to the budgetary implementation of the PCFP.

Budget Account: 2715 NDE - INDIVIDUALS WITH DISABILITIES EDUCATION ACT

The Individuals with Disabilities Education Act (IDEA) provides funding to states through the United States Department of Education. Several federal grants are combined in this budget account. These grants are designed to assist states to provide FAPE and special education and related services, in the least restrictive environment. The services are provided to improve: inclusive practices, use of technology, student performance on statewide assessments including alternate assessments; transition from early intervention programs; behavioral success; graduation and drop-out rates; post-secondary outcomes; recruitment, retention, and professional development of special education personnel.

Authority: 20 USC 1400 et seq.

	Special Education for Students Ages 3-21 - The Special Education Grants to States program under Section 611 of Part B of the IDEA provides funding to local education agencies (LEAs), including school districts, charter schools, and other public agencies, to supplement and/or increase the level of special education and related services provided to eligible students with disabilities ages 3 through 21 who are enrolled in special education programs. An LEA is eligible for assistance under Part B when the LEA has approved policies and procedures on file with the Nevada Department of Education (NDE) that are consistent with the State policies and procedures established under Section 612 of IDEA. These policies and procedures include, but are not limited to, child find, procedural safeguards, confidentiality, personnel development, performance goals and indicators, participation in assessments, and suspension and expulsion. Part B funds may be used to supplement programs of special education for students with disabilities in areas which include, but are not limited to, assistive technology, extended school year services, personnel training, and parent training.

	Under Part D of the IDEA, the US Department of Education awarded the NDE a five-year State Personnel Development Grant (SPDG) effective October 2015. The grant is focused on two goals: GOAL 1: To increase the academic performance of students with IEPs who are in the general education classroom at least 80% of the day, through Instructional Consultation, Assessment, and Teaming (ICAT), using embedded professional development strategies. To support improved performance of third grade students with disabilities on statewide assessments of reading/language arts through building LEA capacity to strengthen the skills of special education teachers in assessment, instructional planning, and teaching.

Budget Account: 2718 NDE - TEACH NEVADA SCHOLARSHIP PROGRAM

The Teach Nevada Scholarship Program was created in the 2015 Legislative Session through Senate Bill 511 and slightly modified in 2017 through Senate Bill 544, continued funding with SB555 (2019). The purpose of the program is to provide grants to universities, colleges, and providers of alternative licensure programs to award scholarships to students entering teaching programs. Scholarships may be awarded to a recipient in an amount not to exceed \$3,000 per semester or \$24,000 in the aggregate. Programs will be awarded 75% of each scholarship granted by the State Board and will disburse funds in the amount of student tuition costs at the beginning of each semester. The State Board shall hold the remaining 25% in an account for distribution to the recipient upon program completion and after teaching in a Nevada public school for five consecutive years.

E931	Transfer federal grant program to BA 2704				
	Realignment of BA based on NDE organizational structure; consolidate similar expenditures in a single BA				
	This decision unit transfers multiple federal school safety grant from the Safe and Respectful Learning Environment Account (BA 2721) to the currently titled Bullying Prevention Account (BA 2704). This will result in GF and federally funded programs being budgeted in two separate accounts, in alignment with account structure identified in the PCFP. Ultimately, BA 2704 will be renamed to better reflect the intent of the budget account.

Budget Account: 2870 TOURISM - MUSEUMS & HIST-NEVADA HISTORICAL SOCIETY

The Nevada Historical Society collects and preserves Nevada's historically significant manuscripts, photographs, books, maps, newspapers, and other artifacts, making them available to the public through library/archives and through educational formats including on-site and off-site exhibit galleries, educational programs and publications, such as the Nevada Historical Society Quarterly. The agency provides researchers with the most comprehensive collections of Nevada related historical documents available in a single location and presents an active public events and exhibits schedule to include school, youth, adult, and family programs. Statutory Authority: NRS 381.

Budget Account: 2889 LAW LIBRARY

The Supreme Court's Law Library serves as a comprehensive, current, and archival legal research facility for the Supreme Court while also providing legal research services to the Office of the Attorney General, the Legislature, other state and local governmental agencies, the state bar and the public. It is the collection of last resort for legal materials in the state. Its website provides pro se information and forms. The budget is funded primarily through a General Fund appropriation. Statutory authority: NRS 2.410 through NRS 2.490.

	Requests authority to upgrade two librarian positions. The Law Library has need to make more of its collection digitally searchable, as well as performing more outreach in order to educate potential Library users on the Law Library's offerings and services. These upgrades will allow for the integration of these higher level duties without the need for additional positions.

	Requests authority to replace all aging IT infrastructure that will reach recommended end of life during the next biennium, and keep the replaced equipment as back up alternatives to ensure continuity of operations in the event of a disaster. Ties to all E250 decision units across the Court's budgets. Disaster recovery is a critical component of planned business continuity for the Court. This enhancement will add an additional element of redundancy and significant reduced downtime if a disaster were to occur. [See Attachment]

E365	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
	Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's.				
	Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised.

Budget Account: 2891 ADMINISTRATION - NSLA - STATE LIBRARY

The Nevada State Library, Archives, and Public Records (NSLAPR) is the institutional memory of the state, and is responsible for preserving and developing the state's most valuable assets: its heritage, the collective product of its people, resources, business endeavors, and government. The State Library provides governments, agencies, businesses, libraries, and citizens a full range of information services, including: reference, research materials, and support services; library planning and development; and services designed for citizens with disabilities. The State Library houses the State Data Center, which offers census information statewide. The library functions as a depository of U.S. government documents. The library operates the State Publications Distribution Center, which distributes official state government documents electronically statewide to ensure Nevada citizens have free access to state government publications. The State Library develops state information policies to ensure equal access to government information is available in all formats. Library development services provides leadership; grants and other assistance to Nevada's libraries; archives and literacy to communities to improve services for all Nevadans, including: general consulting; administration of funds for improvement of library services; collaboration with local, state, and federal agencies to develop and implement programs; and facilitation of statewide planning efforts. The Nevada Talking Book Services provides direct library services statewide to individuals who qualify due to visual and/or physical impairments. Statutory Authority: NRS 378.010 through 378.210.

7506	EITS PC/LAN SUPPORT The PC/LAN Tech Cost Allocation charge is budgeted in 739F. Agencies are unable to code to an alpha-numeric G/L in Advantage so 7399 is used on behalf of 739F. But 7399 is not tied to a schedule so an M150 is not generated by NEBS. Given this is to develop a budget, not delineate accounting, I transferred the actual amount from G/L 7399 to 739F in the Actual column in NEBS. This resulted in \$0 in all years for 7399 so I deleted the entry from B000. It also resulted in the amounts being properly reflected using 739F for all years and generated the correct M150 adjustment. I re-balanced accordingly.	14,325	14,325	14,325	14,325

Budget Account: 2894 TOURISM - NEVADA HUMANITIES

Nevada Humanities is a non-profit, nationally-recognized program that works in partnership with local communities to develop and fund humanity activities and educational programs. Established under provisions contained in the federal legislation creating the National Endowment for the Humanities, Nevada Humanities creates an environment conducive to economic development, heritage tourism, and quality education by fostering humanities activities such as lectures, exhibits, publications, book festivals, historic performances, teacher institutes, documentary films, interpreted art presentations, and a humanities grants program. After four consecutive biennia of legislative provisions of one-shot funding to support a southern Nevada office, the 2005 Legislature converted the one-shot funding request to an ongoing General Fund appropriation.

Budget Account: 2940 TOURISM - MUSEUMS & HIST - NEVADA STATE MUSEUM, CC

The Nevada State Museum, located in the state capital of Carson City, is the state's largest museum. Housed in the historic 1869 Carson City Mint building and listed on the National Register of Historic Places, the museum is an icon and historical artifact. The museum serves the public through extensive collections, education, and exhibition programs related to Nevada's rich heritage of prehistory, history, and natural history. The museum preserves collections at several locations, including the Marjorie Russell Clothing and Textile Research Center and the Indian Hills Curatorial Center. The museum also provides technical assistance for Nevada's non-state museums' public history support for a variety of reference and public program requests, and fosters occasional archaeological and natural history fieldwork. America's largest exhibited Imperial Mammoth; Dat So La Lee Baskets; "U.S.S. Nevada" silver service; a replica walkthrough mine and ghost town; and Coin Press No. 1 are all on exhibit. Statutory Authority: NRS 381.

7090	EQUIPMENT REPAIR Charges primarily are for the minor repairs for the operation of the museum's buildings & grounds, expenses include repairs for small power tools, elevator equipment, security cameras & monitors, and equipment used for maintenance & upkeep of the facility. It is anticipated that this GL will continue to be needed at this level of support in future years.	10,029	9,903	10,029	10,029
7140	MAINTENANCE OF BLDGS AND GRDS Proper maintenance of the 4 facilities require that there be a regular cycle of activities which address the appearance and structural care of the buildings and grounds. The U. S. Mint building is a 19th century historic structure that requires maintenance work and expertise beyond that of a normal state building. As a visible public institution located in the downtown area, the museum is sometimes subjected to vandalism and requires considerable repair and replacements of security cameras and alarm systems. Some areas in the building require painting, ongoing repairs, and replacement of such things as plumbing fixtures, toilets and sinks each year. The sprinkler systems must be maintained in order to sustain the landscaping and create a positive appearance for the thousands of annual visitors each year. In addition to the main museum in downtown Carson City, the agency encompasses 2 other buildings, the Marjorie Russell Research and Textile Center and the Indian Hills Curatorial Center. Both facilities have restrooms, heaters, and air conditioners that must be maintained. Each facility has an outdoor area requiring seasonal mowing of lawns and snow removal. It is anticipated that this GL will continue to be needed at this level of support in future years.	275	0	275	275

Budget Account: 2943 TOURISM - MUSEUMS & HIST - NEVADA STATE MUSEUM, LV

The Nevada State Museum, Las Vegas, located at the Las Vegas Springs Preserve, is a 70,000 square foot facility that serves the public through collecting, preserving, and interpreting artifacts, specimens, and historical documents representing southern Nevada, with emphasis on its relationship to the Mojave Desert. Long-term and short-term exhibit galleries feature prehistory, history, and natural history collections of interest to residents and tourists; public library and archives contain premier southern Nevada historical photographs and records for use by regional residents and researchers. The museum also has an education program that serves schools as well as residents and out-of-state visitors through programs, tours, workshops, and events. Statutory Authority: NRS 381.

Budget Account: 2977 NSHE - SPECIAL PROJECTS

The Special Projects account contains programs not directly related to any of the other Nevada System of Higher Education appropriations. These funds are used as required cost share on research and public service grants with a STEM component and to support administration of those grants. The major projects include the Established Program to Stimulate Competitive Research (EPSCoR) funded by the National Science Foundation (NSF) and National Aeronautics and Space Administration (NASA) as well as potential future Department of Energy (DOE) and Department of Defense (DEPSCoR) projects. The goal of EPSCoR is to stimulate sustainable improvements in the quality of academic science, research workforce, economic development and technology infrastructure of eligible states.

Budget Account: 2979 TOURISM - NEVADA ARTS COUNCIL

The Nevada Arts Council (NAC) is the sole and official agency of the state to receive and distribute funds from the National Endowment for the Arts. The NAC was established in 1967 to enrich the cultural life of the state through leadership and programs that preserve, support, strengthen and make accessible excellence in the arts for citizens and tourists alike. NAC accomplishes this through: (1) awarding grants that support a breadth of arts and cultural activities throughout Nevada; (2) designing and managing outreach programs and initiatives available to all geographic regions of the state; (3) providing professional development opportunities; and (4) maintaining active partnerships with communities and tribal organizations, schools and educators, arts organizations and artists, and nonprofit and for-profit businesses. The NAC manages six programs: Artist Services, Arts Learning, Community Arts Development, Folklife, Grants, and Public Information and Arts Initiatives. Statutory Authority: NRS 233C.

3341	LIVE ENTERTAINMENT TAX ALLOCAT During the 2015 Legislative Session, the Nevada State Legislature passed SB266. This authorized the augmentation of the NAC annual appropriation by \$150,000 from the Live Entertainment Tax, which states, "On or before October 1, of each year, the Department (Taxation) shall deposit \$150,000 from the taxes, interest and penalties it receives pursuant to this chapter in the State Treasury for credit to the Nevada Arts Council created by NRS 233C.025. The amount deposited in the State Treasury for credit to the Nevada Arts Council pursuant to this subsection is hereby authorized for expenditure by the Nevada Arts Council as a continuing appropriation." This funds 100 percent of salary costs for PCN 0013 and 50 percent for PCN 0016.	150,000	150,000	150,000	150,000
3501	FEDERAL RECEIPTS-A In FY 2020, CARES Act COIVD relief funds were awarded to the Nevada Arts Council by the National Endowment of the Arts (NEA) amending the 1856024-61-19 grant award. RGL 3501 and expenditure Category 44 were added to the NAC budget to track the funds separately. No state match was required for these funds. The NEA also extended the performance period for this grant through August of 2022 due to the difficulties in completing grant projects and program activities due to State and Federal office closures due to COVID-19 beginning in March of 2020.	392,250	0	0	0
3599	FED NEA GRANT The National Endowment for the Arts (NEA) State Partnership Agreement Grant directs federal dollars to 56 state and jurisdictional arts agencies to foster artistic excellence, preserve our cultural heritage, advance arts education and provide access to arts experiences for all Americans. As partners with the NEA, state arts agencies greatly extend the reach and impact of this federal funding by ensuring programming at the local level, making arts activities available and accessible for large and small communities in rural and urban localities. The NEA Partnership Grant is now composed of five components - Basic State Plan, Poetry Out Loud, Arts Education, Underserved Communities and Folklife Partnership. The funding for the NEA budget is reliant on approval by Congress each year. This funds 100 percent of category 15 - NEA Administration. This funds 100 percent of salary costs for PCN 0017, 50 percent for PCN 0016, and 55 percent for PCN 0007.	589,465	696,400	710,700	710,700
3700	REGISTRATION FEES Registration fees are collected at NAC workshops and events held throughout the year. Registration fees are kept as affordable as possible to encourage broad participation of our constituents (arts professionals, educators, volunteers, artists, and the general public from all areas of the state). Income from fees varies from year to year depending on agency programming. These funds are typically expended out of Category 29-Community Arts Development and Category 33-Public Information/Arts Initiatives. Fees generated by the Nevada Touring Initiative are collected to assist in the support of the administration of the Traveling Exhibition Program and are incurred and expended in Category 32-Artist Services.	3,580	6,765	6,765	6,765
3893	LICENSE PLATE CHARGE Pursuant to NRS 482.3792, revenue generated from the sales of Children in the Arts License Plates is distributed through Category 55 Arts Learning Program for grants and initiatives that support arts education programs and projects to expand arts learning for youth. Fifty percent of the sales are distributed to Arts for All Nevada (formerly VSA of Nevada).	46,343	50,470	50,470	50,470

03 IN-STATE TRAVEL

Most In-State Travel has been moved to Category 15 or to the specific NAC program categories. See category and travel spreadsheets for details. Category 03 is used for some administrative in-state travel.

Category 03 is used for Board Travel and administrative travel in state.

See Travel Log attached

6200	PER DIEM IN-STATE The statewide travel of Nevada Arts Council (NAC) staff ensures that Nevada communities have access to agency services and support without bias to geographic locality. In-state travel promotes active partnerships between the NAC and nonprofit organizations, municipalities, schools, tribal agencies and artists. This leads to the development of quality arts programming at the local level that is accessible and responsive to the distinctive needs of each community.	129	53	129	129

	<p>Clients are well served through the coordination of agency-scheduled workshops, consultations and community meetings during one trip. A several day "swing" through northeastern Nevada by staff representing the Grants, Community Arts Development and Arts Learning Programs is a good example of how the NAC plans in-state travel. For example: Grant writing workshops for individuals and nonprofit organizations are presented in Elko during the daytime and then workshops may be provided in the evening for educators and others who must travel some distance to attend. As well, staff meets with existing and potential grantees in Winnemucca and Lovelock to discuss NAC programs, learn about local activities, and perform grants management site visits. Site visits are used to monitor grant recipients for compliance, oversee specific agency projects, and to gather input from clients and residents for agency planning and evaluation.</p>

6100	PER DIEM OUT-OF-STATE To effectively administer the State of Nevada's programs, it is essential that NAC staff and, at times, Board Members maintain proficiency in issues relating to the professional field of arts administration and its specific discipline areas, as well as a familiarity with national trends. Regional/national meetings and conferences provide an efficient and cost-effective means by which staff learns best practices in program design and evaluation, audience development and new technologies. Topics addressed at these gatherings include new public/private funding and partnership opportunities, cultural tourism, economic diversification and educational reform. As well, these meetings offer a platform for the NAC to promote Nevada, its arts organizations and extensive cultural resources. Annual conferences and meetings include those of the National Assembly of State Arts Agencies, Americans for the Arts, Western Arts Alliance, American Folklore Society, National Arts Advocacy Day, and various workshops and symposia presented by the Western States Arts Federation. 27	ARTS GRANT AWARDS				
	During the 2013 biennium, the Budget Division and LCB fiscal requested a new category for grants awarded by Nevada Arts Council (NAC). Category 27 includes general funds, tourism funds and National Endowment for the Arts (NEA) grant funds, as well as Live Entertainment Tax (LET) funds. At the beginning of each fiscal year after the NAC receives its grant award letter from the NEA, a work program is prepared to reflect the increase or decrease from the budgeted amount of NEA funds to the actual amount of NEA funds. At this time, the dollar amounts to be awarded through NAC's grant categories is established.				
	NAC grant recipients are active throughout the state, creating and presenting a breadth of arts and cultural experiences for residents and visitors of all ages - from festivals and film series, to arts integration training for educators and artist residencies in health care facilities. NAC grants are awarded to dance and theatre companies, symphonies, chamber ensembles and choral groups; galleries and museums; local arts councils; tribal governments, schools and other public institutions; nonprofit organizations that use the arts to further their missions; artists and educators.				
8795	GRANTS GL8795 - GRANTS TO INDIVIDUALS: Individuals may receive funding through six NAC grant categories - Artist Fellowships, Arts Learning Express Grants, Folk Arts Fellowship Grants, Folklife Artist Grant, Fellowship Project Grant, and Project Grant for Artists. Applicants must prove Nevada residency and meet the eligibility requirements of the specific grant category. Artist Fellowships are highly competitive grants that support the state's professional artists working in the literary, performing, and visual arts. Arts Learning Express Grants support short-term artist residencies in school or community settings. Folk Arts Fellowship Grants and Folklife Artist Grant support Nevada's folk and traditional artists as they endeavor to sustain cultural traditions. The Fellowship Project Grant is awarded every other year to support individual artists from all disciplines who have received the maximum allowed number of NAC Fellowships (two). Project Grant for Artists support a breadth of "sudden opportunity" arts and arts education projects that occur within a six-month period. Professional Development Grants see general ledger #8798.	96,948	97,642	96,948	96,948
8796	GRANTS - A GL8796 - GRANTS TO NONPROFIT ARTS ORGANIZATIONS AND NON-ARTS ORGANIZATIONS: Nonprofit arts and non-arts organizations may apply to seven NAC grant categories - Arts Learning Project Grants, Arts Learning Express Grant, Community Impact Grants, Folklife Community Grants, Operating Support Grants, Project Grant for Organizations, and Professional Development Grants - if eligibility requirements are met. Grants to these entities support arts and cultural activities to build community quality of life, increase public access to and participation in the arts (through festivals, performances, exhibitions, lectures and public art projects, among other activities), enhance lifelong arts learning and increase cultural awareness, and stimulate both local and statewide economy and cultural tourism.	829,536	842,893	829,536	829,536
8797	GRANTS - B GL8797 - GRANTS TO GOVERNMENTAL AGENCIES, SCHOOLS K-12, LIBRARIES, PARKS AND RECREATION; TRIBAL GOVERNMENTS and COLLEGES and UNIVERSITIES: Public institutions and agencies, schools and tribal governments may apply to seven NAC grant categories - Arts Learning Project Grants, Arts Learning Express Grant, Community Impact Grants, Folklife Community Grants, Operating Support Grants, Project Grant for Organizations, and Professional Development Grants - if eligibility requirements are met. Grants to these entities support arts and cultural activities to build community quality of life, increase public access to and participation in the arts (through festivals, performances, exhibitions, lectures and public art projects, among other activities), enhance lifelong arts learning and increase cultural awareness, and stimulate both local and statewide economy and cultural tourism.	66,015	35,309	66,015	66,015

28	GRANTS PROGRAM				
	The Grants Program oversees the agency's grants management process and the electronic grant application system; monitors grantees for compliance; and coordinates review processes for the rolling grant categories, and the annual and quarterly grants review panels. NAC grants are awarded through an efficient and transparent process that utilizes a review system based on programming, accessibility, fiscal responsibility, and other factors that measure quality of product, planning and evaluation. The Grants Program provides workshops and webinars on grant writing and grant management to individuals and groups throughout the year. The workshops and webinars cover the process of crafting competitive applications, training on the online grant application and management system, and other pertinent topics. Other program responsibilities include the development of grant-making policy recommendations for the agency and producing the grant guidelines.

29	COMMUNITY ARTS DEVELOPMENT PRG The Community Arts Development Program (CAD) supports Nevada's nonprofit arts and culture organizations, municipalities, public institutions and communities with a variety of programs and services aimed to elevate the arts and culture infrastructure statewide. CAD develops topic specific professional development workshops, statewide convening and conferences, and peer learning networks to expand the skill set of Nevada's creative community. CAD assists municipalities in arts and cultural planning processes and long term infrastructure development through the facilitation of public strategic planning meetings, research to best inform planning processes, assistance with plan development and execution, and ongoing technical assistance. Additionally, CAD helps execute the agency's strategic planning process through the facilitation of a series of statewide Arts Town Meetings as well as the synthesis and analyses of the findings. Based on this regular outreach and analysis, CAD develops new and responsive programming to best address constituent needs statewide including the current development of a rural urban exchange program. CAD oversees special initiatives including the management of the Americans for the Arts' Arts and Economic Prosperity Impact study. CAD works with the Grants Program to facilitate and execute the grants designed for support activities in this category. Community Arts Development is collaborating with the Artist Services program to provide a series of professional development workshops for artists.

	The Artist Services Program provides resources, grant funding and career training support for Nevada's creative workforce working in all genres of the literary, performing and visual arts. The program recognizes exceptional artistic accomplishment of Nevada's artists through the Artist Fellowship and Fellowship Project grants. The program works with the Grants Program to create electronic grant applications; monitors grantees for compliance; and coordinates review processes for the Artist Fellowship review panels. The program also promotes opportunities for artists to engage statewide with residents through highly valued outreach programs, such as the Nevada Touring Initiative-Traveling Exhibition Program, the Fellows' Outreach Events and the OXS/LXS Exhibitions features in a gallery at the Carson City office and in a site in Legislative Building during the biannual session. The highly acclaimed NTI-Traveling Exhibition Program crisscrosses the state to deliver professionally curated exhibits to communities of all sizes-from Beatty to the Las Vegas metropolitan area. NTI provides quality original artwork at the low rental fee for eight-weeks, along with professional designed Gallery Notes and publicity materials. Each NTI-exhibition is delivered, installed and de-installed by NAC's professional staff, making the program cost effective especially in the rural communities where so many arts organizations are staffed by volunteers. As part of the agency's goal of educating a healthy citizenry, Artist Services is collaborating with the Community Arts Development Program to provide a series of professional development workshops for artists.

37 FOLKLIFE PROGRAM

The Folklife Program of the Nevada Arts Council seeks to discover, understand, document, and support folk traditions in Nevada, wherever they arise. We encourage folk artists to practice and share traditional art forms and lifeways. We support community engagement in festivals, celebrations, foodways, and performance. We collaborate with cultural communities to support hands-on arts learning for all ages. Through artist demonstrations, exhibitions, videos, publications, and grants, the Folklife Program encourages public engagement with the state's traditional arts and cultures. The program also manages the Nevada Folklife Archives, which contains 100 folk art objects, more than 40,000 images, and hundreds of recorded artist interviews.

	The Grants Program oversees the agency's grants management process and the electronic grant application system; monitors grantees for compliance; and coordinates review processes for the rolling grant categories, and the annual and quarterly grants review panels. NAC grants are awarded through an efficient and transparent process that utilizes a review system based on programming, accessibility, fiscal responsibility, and other factors that measure quality of product, planning and evaluation. The Grants Program provides workshops and webinars on grant writing and grant management to individuals and groups throughout the year. The workshops and webinars cover the process of crafting competitive applications, training on the online grant application and management system, and other pertinent topics. Other program responsibilities include the development of grant-making policy recommendations for the agency and producing the grant guidelines.

29	COMMUNITY ARTS DEVELOPMENT PRG The Community Arts Development Program (CAD) supports Nevada's nonprofit arts and culture organizations, municipalities, public institutions and communities with a variety of programs and services aimed to elevate the arts and culture infrastructure statewide. CAD develops topic specific professional development workshops, statewide convening and conferences, and peer learning networks to expand the skill set of Nevada's creative community. CAD assists municipalities in arts and cultural planning processes and long term infrastructure development through the facilitation of public strategic planning meetings, research to best inform planning processes, assistance with plan development and execution, and ongoing technical assistance. Additionally, CAD helps execute the agency's strategic planning process through the facilitation of a series of statewide Arts Town Meetings as well as the synthesis and analyses of the findings. Based on this regular outreach and analysis, CAD develops new and responsive programming to best address constituent needs statewide including the current development of a rural urban exchange program. CAD oversees special initiatives including the management of the Americans for the Arts' Arts and Economic Prosperity Impact study. CAD works with the Grants Program to facilitate and execute the grants designed for support activities in this category. Community Arts Development is collaborating with the Artist Services program to provide a series of professional development workshops for artists.

32	ARTIST SERVICES PROGRAM The Artist Services Program provides resources, grant funding and career training support for Nevada's creative workforce working in all genres of the literary, performing and visual arts. The program recognizes exceptional artistic accomplishment of Nevada's artists through the Artist Fellowship and Fellowship Project grants. The program works with the Grants Program to create electronic grant applications; monitors grantees for compliance; and coordinates review processes for the Artist Fellowship review panels. The program also promotes opportunities for artists to engage statewide with residents through highly valued outreach programs, such as the Nevada Touring Initiative-Traveling Exhibition Program, the Fellows' Outreach Events and the OXS/LXS Exhibitions features in a gallery at the Carson City office and in a site in Legislative Building during the biannual session. The highly acclaimed NTI-Traveling Exhibition Program crisscrosses the state to deliver professionally curated exhibits to communities of all sizes-from Beatty to the Las Vegas metropolitan area. NTI provides quality original artwork at the low rental fee for eight-weeks, along with professional designed Gallery Notes and publicity materials. Each NTI-exhibition is delivered, installed and de-installed by NAC's professional staff, making the program cost effective especially in the rural communities where so many arts organizations are staffed by volunteers. As part of the agency's goal of educating a healthy citizenry, Artist Services is collaborating with the Community Arts Development Program to provide a series of professional development workshops for artists.

37	FOLKLIFE PROGRAM				
	The Folklife Program of the Nevada Arts Council seeks to discover, understand, document, and support folk traditions in Nevada, wherever they arise. We encourage folk artists to practice and share traditional art forms and lifeways. We support community engagement in festivals, celebrations, foodways, and performance. We collaborate with cultural communities to support hands-on arts learning for all ages. Through artist demonstrations, exhibitions, videos, publications, and grants, the Folklife Program encourages public engagement with the state's traditional arts and cultures. The program also manages the Nevada Folklife Archives, which contains 100 folk art objects, more than 40,000 images, and hundreds of recorded artist interviews.

Budget Account: 2982 NSHE - UNR SCHOOL OF MEDICINE

The University of Nevada School of Medicine is currently the only public medical school in the State of Nevada. It is fully-accredited to provide a four-year instructional program in all biomedical and clinical sciences necessary for granting the Doctor of Medicine degree. The school is based in Reno for biomedical research, basic science instruction, and early clinical skills training, with a majority of clinical teaching in the third and fourth years occurring in medical offices and hospitals in Las Vegas.

5105	NSHE WAGES Supporting Narrative for Actual and Proposed Wage Expenditure: The budget for University of Nevada, Las Vegas for LOAs is to pay Visiting Academic Faculty and Part-Time Instructors within the current fiscal year, and is the majority of the LOA budget for UNLV. The budget for FY20-FY21 is consistent with prior years due to no expected changes in hiring practices of LOAs. - Visiting Academic Faculty are paid salaries negotiated with the University for the contracted term of their employment (no more than one academic year). - Part-Time Instructors are paid using the approved Board of Regents Part-Time Salary Schedules for Universities, based on per-credit targets. - Other LOA appointments are used in one-off situations where departments have determined an individual is needed to perform specific tasks and are paid for those responsibilities. The pays for these types of appointments can vary based on work to perform. Wages budgeted are for Student Workers hired in various areas including support departments like Finance & Business, Student Affairs, Libraries, etc. and many of the Colleges. Student Workers are tasked with completing administrative duties to assist their assigned areas in daily responsibilities. The students are paid an hourly wage determined by the area and is appropriate for the work being done.	1,878,288	1,582,735	1,878,288	1,878,288

Budget Account: 2991 NSHE - SYSTEM COMPUTING CENTER

System Computing Center (System Computing Services or SCS) is responsible for the provisioning and management of Nevada System of Higher Education (NSHE)-wide shared digital services, including strategic application, information, and communication technology services. SCS develops and maintains collaborative technology partnerships with a number of agencies for the State of Nevada and rural K-12 school districts.

2501	APPROPRIATION CONTROL Year 1 and Year 2 include FY 2020 base + 64% of 3% COLA (totaling \$204,959). To balance the Base Budget (B000), Appropriation Control (Cat 00, GL 2501) was increased above the two-times cap by \$689,827 in Year 1 and \$703,297 in Year 2. These increases were then reversed through an Appropriation Control M150 (Cat 00, GL 2501).	18,758,967	15,096,669	19,684,883	19,698,353

These part-time employees perform support tasks that may not require a full-time employee or allow permanent staff members to perform more complex/time consuming roles, resulting in a more efficient use of limited human capital resources. Typically, 10 UNR and UNLV students working at an hourly wage of \$10 to \$12.50 per hour staff the SCS help desk, assist with video conferencing and data center operations, and provide desktop computer support.	89,580	61,440	89,580	89,580

16	INSTITUTIONAL SUPPORT				
	System Computing Center (System Computing Services or SCS) provides shared digital services to every Nevada System of Higher Education institution, and Internet services to 12 of the 17 Nevada K-12 school districts and rural health facilities. The Institutional Support budget funds the general operations of SCS including the large scale high availability server, data storage, and backup infrastructure to host PeopleSoft Campus Solutions (student information system) and related software for all seven degree granting NSHE institutions, and operates the shared instance of the Campus Solutions software for five of the institutions. SCS maintains centralized computing and data warehouse resources for analysis of legacy financial data, and provides identity management for the services it provisions. SCS engineers and operates the statewide network, NevadaNet, which reaches every corner of the state, provides commodity Internet access to over 109,000 NSHE students and over 105,000 K-12 students, and provides access to the dedicated research Internet (known as Internet2) for UNR, UNLV and DRI. SCS provides video conference scheduling for NSHE institution video conference locations in support of long-distance instruction and meetings, and video conferencing for rural health. SCS provides NSHE-wide security analysis and proactive screening of network traffic to defend against information security threats. SCS provides audio-visual technology and event production for Board of Regent meetings and comparable System-wide meetings on behalf of System Administration and institutions. SCS also provides desktop device management and support for NSHE System Administration.

	System Computing Center (System Computing Services or SCS) manages the wide-area network for NSHE institutions and state agencies, aggregating the traffic in regional computing facilities in Reno and Las Vegas. These facilities contain environmentally controlled data centers for the network infrastructure. Computing systems are also stored in the data centers and the facilities include office space for SCS staff. The O&M budget is used for all expenses associated with the operation of these facilities including datacenter environment systems (cooling, uninterruptible power supplies, backup generators, security systems, etc.), utilities, janitorial, HVAC and lighting in office areas, and ongoing building and vehicle maintenance.

16	INSTITUTIONAL SUPPORT				
	System Computing Center (System Computing Services or SCS) provides shared digital services to every Nevada System of Higher Education institution, and Internet services to 12 of the 17 Nevada K-12 school districts and rural health facilities. The Institutional Support budget funds the general operations of SCS including the large scale high availability server, data storage, and backup infrastructure to host PeopleSoft Campus Solutions (student information system) and related software for all seven degree granting NSHE institutions, and operates the shared instance of the Campus Solutions software for five of the institutions. SCS maintains centralized computing and data warehouse resources for analysis of legacy financial data, and provides identity management for the services it provisions. SCS engineers and operates the statewide network, NevadaNet, which reaches every corner of the state, provides commodity Internet access to over 109,000 NSHE students and over 105,000 K-12 students, and provides access to the dedicated research Internet (known as Internet2) for UNR, UNLV and DRI. SCS provides video conference scheduling for NSHE institution video conference locations in support of long-distance instruction and meetings, and video conferencing for rural health. SCS provides NSHE-wide security analysis and proactive screening of network traffic to defend against information security threats. SCS provides audio-visual technology and event production for Board of Regent meetings and comparable System-wide meetings on behalf of System Administration and institutions. SCS also provides desktop device management and support for NSHE System Administration.

Budget Account: 2994 NSHE - GREAT BASIN COLLEGE

Great Basin College (GBC) serves ten of Nevada's most rural counties with the main campus in Elko and branch campuses in Battle Mountain, Ely, Pahrump, and Winnemucca. In the fall of 1999, the college initiated a Bachelor of Arts in Elementary Education. The Bachelor of Applied Science was implemented in the fall of 2001 and the Bachelor of Integrative and Professional Studies was implemented in the spring of 2002. Currently, GBC offers over 10 different baccalaureate degrees and several other degree programs are under consideration. Two-year degrees offered are the Associate of Arts, Associate of Science, and Associate of General Studies. Two-year Associate of Applied Science degrees are available in business administration, computer office technology, criminal justice, diesel technology, early childhood education, electrical/instrumentation technology, industrial plant maintenance, and welding technology. Distance education technology (i.e. two way interactive video and online modes) are utilized extensively to deliver programs throughout the service area. Students can complete over 15 degrees 100 percent through on-line education. The college has residential housing at the Elko campus for approximately 200 students.

M201	DEMOGRAPHICS/CASELOAD CHANGES				
	Synopsis - This request funds the formula funding for small institution factor at Great Basin College. This request is a companion to M201 in Western Nevada College, budget account 3012.				
	Justification - This decision unit requests funding for the small institution factor at GBC and WNC and represents the net difference between the amounts approved by the 2019 legislature in FY 2020 and FY 2021 and the amounts requested in FY 2022 and FY 2023. A reduction of \$341,760 is requested in each year for GBC and a reduction of \$23,595 is requested in each year for WNC and is based on the number of Weighted Student Credit Hours generated by each institution in FY 2020.				
REVENUE

Budget Account: 2995 WICHE ADMINISTRATION

The Nevada Western Interstate Commission for Higher Education (Nevada WICHE) carries out the goals and objectives as provided for by the Nevada Governor's Office, the Nevada WICHE Commission and the WICHE multistate regional compact. The agency operates two programs, both of which provide tuition assistance to individuals studying various allied health professions in exchange for employment commitments upon graduation. Employment commitments serve as a tool to increase Nevada's health profession workforce.

Budget Account: 3002 NSHE - UNLV DENTAL SCHOOL

The UNLV School of Dental Medicine (SDM) came into existence when key political, academic, and health leaders committed to addressing the state's shortage of dentists, particularly in rural areas, and the lack of oral health access for lower socioeconomic groups. The school was charged with preparing socially aware, clinically skilled dentists to address oral health needs in Nevada. The vision for the SDM is to provide world-class oral health education while providing for the dental needs of Nevada residents. The SDM has continually sought to provide excellence in patient-centered clinical care, patient education, and statewide community outreach programs.

Budget Account: 3005 NSHE - NEVADA STATE COLLEGE

Nevada State College is a comprehensive baccalaureate institution of higher learning. A member college of the Nevada System of Higher Education, Nevada State College is dedicated to providing quality educational, social, cultural, economic, and civic advancement for the citizens of Nevada. Through student-centered learning, Nevada State College emphasizes and values: exceptional teaching, mentoring, and advisement; scholarship; career and personal advancement; continuing education; and service to our community. The college helps address Nevada's need for increased access for students entering the higher education system and for students transferring from the state's community colleges. The college offers a wide range of baccalaureate programs and selected masters programs designed to meet the general needs of the State of Nevada and the specific needs of the southern region of the state. Special emphasis is placed on addressing the state's need for effective, highly educated, and skilled teachers and nurses. Commitment is made to developing and promoting partnerships with Nevada's public school system, the state's health care providers, and Nevada's colleges and universities. The curriculum of Nevada State College is based upon the community's needs, the needs of business and industry, and the desires and demands of the students.

	It appears that during the WD conversion, the job class codes for some NSC professional positions were inadvertently aligned with those utilized by community colleges. This discrepancy in position title does not impact the projected salary amounts for the various Professional positions; salaries for Professional FTE included in the 2019-2021 budget have been manually entered at the projected salary amount for each year of the upcoming biennium.				
	After adding the correct job class codes it was discovered that they were mapping to the incorrect ledger line in NEBS. The positions should be on 5101 NSHE University Salaries, not 5100 Salaries. [See Attachment]

Budget Account: 3010 NSHE - DESERT RESEARCH INSTITUTE

In 1959, the Nevada State Legislature created the Desert Research Institute (DRI) as a division of the University of Nevada specifically devoted to conducting research. DRI became an autonomous division of the University and Community College System of Nevada in 1969. From its beginnings, DRI has functioned as a nonprofit research campus uniquely blending academia with entrepreneurship. Approximately 500 research faculty and support staff generate more than \$35 million in research revenue each year with approximately 85 percent coming from the federal government or commercial entities. Research projects and programs are supported from the main campuses in Las Vegas and Reno with additional specialized laboratories in Boulder City, Nevada, and Steamboat Springs, Colorado. DRI's environmental research programs are directed from three core divisions (Atmospheric Sciences, Earth and Ecosystem Sciences, and Hydrologic Sciences) as well as interdisciplinary science centers. Grounded in fundamental research, DRI provides both sponsors and clients with innovative solutions to pressing environmental problems, balancing the need to develop resources while sustaining the environment.

Budget Account: 3011 NSHE - COLLEGE OF SOUTHERN NEVADA

Founded in 1971, the College of Southern Nevada (CSN) primarily serves Clark County, Nevada by providing educational and supporting services to address the social and economic needs of the community. Traditional and online programs leading to bachelor's degrees, associate degrees, certificates of achievement and selected skills certificates are offered in liberal arts as well as career and technical areas. Transfer agreements with the universities and the state college provide students with advanced learning opportunities. Additionally, the College works with the region's businesses and industry sectors to develop and facilitate training programs to meet the needs of Southern Nevada's Workforce.

Section A1: Line Item Detail by GL

Budget Account: 3101 HHS-DPBH - RADIATION CONTROL

The Radiation Control Program (RCP) protects public health, safety, and the environment by regulating sources of ionizing radiation and providing general information concerning ionizing radiation sources. The RCP: licenses and inspects radioactive material users; registers and inspects radiation producing machines; issues certificates of authorization to operate mammography equipment; inspects mammography radiation producing machines; educates the public on radon hazards; licenses and provides oversight of the closed low-level waste disposal site near Beatty, Nevada; coordinates with local counties and other agencies to provide radon training; and conducts statewide radiological emergency response activities. Statutory Authority: NRS 457, NRS 459 and NRS 653.

	This request funds two vehicles from Fleet Services to replace two agency owned vehicles that are at end of life. Radiation Control requires vehicles for travel, both intown and to remote locations, to conduct program activities such as inspections and investigations involving sources of radiation. The 2000 Ford Expedition agency owned vehicle is over 20 years old and needs to be replaced. The Chevy Trailblazer agency owned vehicle worn out and can only be used for nearby intown travel. The estimate to repair worn out parts on the Chevy Trailblazer is around \$6,000.00. The Toyota Rav4 and Chevy Trailblazer from Fleet Services are the least expensive vehicles that can meet the program needs. [See Attachment]

E225	EFFICIENCY & INNOVATION This request funds a Social Services Program Specialist I (SSPS I) for the Planning, Advocacy, and Community Services Unit within the Aging and Disability Services Division (ADSD). This position will be responsible for oversight and technical assistance to community partners who receive sub-awards from the Fund for a Healthy Nevada to provide transportation, caregiver support and other in-home services for older adults and their family caregivers. Companion decision unit to budget account 3266 E225. The Planning, Advocacy and Community Services (PAC) Unit is receiving direct service funding for older adults and family caregivers from the Fund for a Healthy Nevada (FHN) over the next biennium. With this funding, this Social Services Program Specialist I (SSPS I) position is necessary to build capacity among the community partner network. As the State Unit on Aging (SUA), our responsibility is to focus on promoting collaborations and innovations to meet the growing needs of Nevada's older adults and caregivers in order to increase access to services, while being conscientious of budgetary limitations. This position will enable ADSD to work with community partners, going beyond fiscal compliance, and to build an outcome driven model of service delivery that supports older adults in the community who are most in need. This position is necessary for ADSD to strengthen services across the state, ensuring a network of access for rural areas as well as urban areas. Having a subject matter expert overseeing these FHN funds brings this funding source in line with existing models under other funding sources that uses a team approach (one person as the subject matter expert and one person as the fiscal/regulatory support). Within other programs that have subject matter experts, we have seen greater collaborations, standardization of service delivery, and greater outcomes. This additional funding cannot be supported by existing team members whose primary functions are fiscal and regulatory compliance monitoring.

Budget Account: 3141 HHS-DCFS - WASHOE COUNTY CHILD WELFARE

This budget account provides funding for the Washoe County Human Services Agency (WCHSA) to operate child welfare programs. These programs include Adoption Assistance, Foster Care Assistance and Kinship Guardianship Assistance. Federal Title IV-E, Federal Title IV-B subpart 1, Child Support enforcement receipts and General Fund appropriations pass through this budget account to WCHSA.

The current block grant funding formula has been in place since it was passed by the 2011 Legislative session. The block grant has three major components; 1) A categorical grant for Adoption Assistance which is adjusted biennially for caseload growth; 2) A block grant for Foster Care maintenance payments and administrative expenditures; 3) An incentive payment tied to WCHSA's completion of specific performance targets set forth in the annual agency improvement plan. The amount of the Foster Care block grant also includes allotments for Specialized Foster Care and Respite care. The block grant is not restricted by traditional definitions and funding limitations but is driven by the needs of children and families in their community. WCHSA can retain locally all of the savings generated if the services provided by the county are less than the budgeted amount of the block grant. In addition, WCHSA must maintain a minimum Maintenance of Effort which is tied to the amount of local funds spent for child welfare and child protective services at a level equal to or greater than the amount appropriated for fiscal year 2011. Statutory authority: NRS 432B.2185 and 432B.219

E353 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This decision unit requests that the three child welfare jurisdictions be allowed to retain General Funds realized for adoption savings to reinvest those funds in adoption programs. BDR 21A4092629 is attached.

Pursuant to Public Law 110-351 and beginning in FFY 2015, each Title IV-E agency is required to annually calculate and report on adoption savings. The calculation must be in accordance with procedures established by the Office of Administration for Children and Families' Children's Bureau to show the amount of additional federal Title IV-E funds that were able to be drawn in due to changes in eligibility requirements. The report must identify the methodology used to calculate the savings, how savings are spent, and on what services. The savings are generally equal to the federal share of these claims since, in most instances, that amount would otherwise have been paid from non-federal Title IV-E agency funds (General Fund). If the ACF chooses to enforce the requirements of the Act, Nevada could be required to repay the amount of savings that have been realized but not yet reinvested back into the program.

This is a companion to decision unit E-353 in BA 3229, Rural Child Welfare and BA 3142, Clark County Child Welfare.

Budget Account: 3142 HHS-DCFS - CLARK COUNTY CHILD WELFARE

This budget account provides funding for the Clark County Department of Family Services (CCDFS) to operate child welfare programs. These programs include Adoption Assistance, Foster Care Assistance and Kinship Guardianship Assistance. Federal Title IV-E, Federal Title IV-B subpart 1, Child Support receipts and General Fund appropriations pass through this budget account to CCDFS.

The current block grant funding formula has been in place since it was passed by the 2011 Legislative session. The block grant has three major components; 1) A categorical grant for Adoption Assistance which is adjusted biennially for caseload growth; 2) A block grant for Foster Care maintenance payments and administrative expenditures; 3) An incentive payment tied to CCDFS' completion of specific performance targets set forth in the annual agency improvement plan. The amount of the Foster Care block grant also includes allotments for Specialized Foster Care and Respite care. The block grant is not restricted by traditional definitions and funding limitations but is driven by the needs of children and families in their community. CCDFS can retain locally all of the savings generated if the services provided by the county are less than the budgeted amount of the block grant. In addition, CCDFS must maintain a minimum Maintenance of Effort which is tied to the amount of local funds spent for child welfare and child protective services at a level equal to or greater than the amount appropriated for fiscal year 2011. Statutory authority: NRS 432B.2185 and 432B.219

Budget Account: 3143 HHS-DCFS - INFORMATION SERVICES

Information Services (IS), formerly UNITY/SACWIS, is the unit within the Division of Child and Family Services (DCFS) that supports the technology needs of the division and the county child welfare agencies. IS maintains three major computer applications: Unified Nevada Information Technology for Youth (UNITY), CaseloadPro and Avatar. UNITY is a federally mandated Comprehensive Child Welfare Information System that is required by child welfare agencies nationwide in order to submit adoption and foster care information electronically to the Administration for Children and Families. UNITY became fully operational statewide in September 2003 and has been modified extensively to help meet the changing business requirements of the organization. Implemented in 2018, CaseloadPro is the case management system for the Youth Parole Bureau. Operational since 2005, Avatar is the Health Insurance Portability and Accountability Act compliant case management and billing system that supports children's mental health. Additionally, IS provides helpdesk support and application training to the three Nevada child welfare agencies (Division of Child and Family Services, Clark County Department of Family Services, and Washoe County Human Services Agency) as well as division-wide network and desktop computer support.

14 CHILDREN'S MENTAL HEALTH POLICY

Funding supports the Regional Children's Mental Health Consortia which were created by the passage of Assembly Bill 1 of the 2001 Special Session of the Nevada Legislature to study the mental health needs of all children in Nevada and to develop recommendations for service delivery reform. Working in partnership, The Nevada Children's Behavioral Health Statewide Consortium, The Clark County Children's Mental Health Consortium, The Rural Children's Mental Health Consortium, and The Washoe County Children's Mental Health Consortium call for parents, policymakers, and professionals to come together to take action to support a change in approach to Children's Behavioral Health service delivery in Nevada. Each year the Regional Children's Mental Health Consortia create a strategic region-specific report that identifies priorities and recommends specific services necessary to produce the most needed, cost-effective system improvements for children with mental health needs and their families in Nevada. The identified priorities serve as building blocks for the required 10-Year Strategic Plan (NRS 433B.333), which is required to be submitted to the Director of the Department of Health and Human Services and the Commission on Behavioral Health on an annual basis.
