	The Promoting Safe and Stable Families Program is authorized under, Title IV, Part B, Subpart 2, of the Social Security Act. The funds were reauthorized under the Adoptions and Safe Families Act, PL 105-89. Title IV-B Subpart II has been renamed "Promoting Safe and Stable Families." The objectives and requirement of the Act requires states to fund direct services at 80 percent that fall into four categories (20 percent each): 1) Family Support Services, 2) Family Preservation Services, 3) Time-Limited Family Reunification Services, and 4) Adoption Promotion and Support Services. In addition, a portion of funds is reserved for a separate caseworker visit formula grant for states to support and improve the quality of monthly caseworker visits with children who are in foster care under the responsibility of the state. 79 CTF GRANT

The Children's Trust Fund (CTF) is dedicated to the prevention of child abuse and neglect, established in 1985 by the State Legislature (NRS 432.131). CTF is a special account that receives fees from Nevada birth and death certificates. To supplement the Fund, an annual application is submitted for federal Community-Based Child Abuse Prevention (CBCAP) grant funds.

The Community-Based Child Abuse Prevention grants (CBCAP) is authorized under the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L.111-320, enacted on December 20, 2010., 42 US Code 5116 et.seq. The program provides support to community-based effort to develop, operate, expand, and enhance, and coordinate initiatives, programs, and activities to prevent child abuse and neglect and to support the coordination of resources and activities to better strengthen and support families to reduce the likelihood of child abuse and neglect; and (2) to foster understanding, appreciation and knowledge of diverse populations in order to effectively prevent and treat child abuse and neglect. 14	CHILDREN'S MENTAL HEALTH POLICY Funding supports the Regional Children's Mental Health Consortia which were created by the passage of Assembly Bill 1 of the 2001 Special Session of the Nevada Legislature to study the mental health needs of all children in Nevada and to develop recommendations for service delivery reform. Working in partnership, The Nevada Children's Behavioral Health Statewide Consortium, The Clark County Children's Mental Health Consortium, The Rural Children's Mental Health Consortium, and The Washoe County Children's Mental Health Consortium call for parents, policymakers, and professionals to come together to take action to support a change in approach to Children's Behavioral Health service delivery in Nevada. Each year the Regional Children's Mental Health Consortia create a strategic region-specific report that identifies priorities and recommends specific services necessary to produce the most needed, cost-effective system improvements for children with mental health needs and their families in Nevada. The identified priorities serve as building blocks for the required 10-Year Strategic Plan (NRS 433B.333), which is required to be submitted to the Director of the Department of Health and Human Services and the Commission on Behavioral Health on an annual basis. E225	EFFICIENCY & INNOVATION This request funds a new Social Services Manager V position to better serve the needs of stakeholders and partners of the Division of Child and Family Services (DCFS). This position will manage the divisions growing section that supports Victims Services across the state. Over the past four years, DCFS has become the largest provider and funder of Victims Services in the state. DCFS has acquired the Confidential Address Program and the Victims of Crime Compensation Program, as well as additional Victims of Crime Assistance (VOCA) funding from the federal government. With all of these changes, it has become apparent to create a designated section within DCFS to ensure the states victim population unique needs are being met. This new position will be able to dedicate their time conducting outreach, meeting with stakeholders, ensuring victims of crime needs are being met, and seek out additional resources. E226 EFFICIENCY & INNOVATION

This request funds two new Biostatistician II positions to help the Division of Child and Family Services (DCFS) handle the increasing need for data and statistics to report to multiple partners, including the federal government. One Biostatistician will be dedicated to assisting the Juvenile Justice Program, while the other Biostatistician position will be dedicated to assisting the Victim Services unit.

This requests requests two new Biostatistician II positions to help the Division of Child and Family Services (DCFS) handle the increasing need for data and statistics to report to multiple partners, including the federal government. One Biostatistician will be dedicated to assisting the juvenile justice concerns (Juvenile Justice program and the Victims Services unit), while the other Biostatistician position will be dedicated to assisting the Children's Mental Health program. Both positions will be responsible for performing complex mathematical and statistical analysis on multiple complex, dynamic DCFS databases, as well as linking datasets to conduct population-based studies and prepare statistical reports, forecasts and models. Both positions will work with caseload data that is needed for multiple federal and local reports. All the data collected by these two positions will not only be used for federal reporting, but to also tracking efficiencies in agency services, reduction of response times, and overall agency performance.

E800 COST ALLOCATION

This requests funding for the cost allocated administrative cost from the DHHS Director's Office for the positions transferring to BA 3203.
This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

E902	TRANSFER FROM BA 3145 TO BA 1383 This request recommends transferring one Administrative Assistant II to the Juvenile Justice Programs Office, budget account 1383, from the Children, Youth & Family Administration, budget account 3145. This will properly align the position with associated work and funding. This position was originally requested in the Children, Youth & Family Administration budget account because it supported the Community Juvenile Justice Programs budget account but all staff associated with the Community Juvenile Justice Programs budget account were accounted for in the Children, Youth & Family Administration budget account. During the 2015 legislative session, the Community Juvenile Justice Programs budget account began a reorganization to better suite the needs of the clients served, including the transfer of some key positions. In the 2017 legislative session the entire budget account changed from Community Juvenile Justice Programs to Juvenile Justice Services. This request further enhances the ongoing changes by transferring the Accounting Assistant II To the rightful budget account where the associated work is performed. [See Attachment]

20	U. S. CRIME VICTIMS (VOCA)				
	Crime Victim Assistance is authorized under 42 U.S.C. 10603(a); The federal grant provides states with funds to support those services, activities, and costs that are directly related to the emotional healing and recovery of crime victims. Funds must be used to serve victims in three priority categories: 1) Sexual Assault, 2) Domestic Abuse, and 3) Child Abuse. Additionally, funds must be used to fund "Previously Underserved" priorities other than "priority" category victims. Victims of Crime funds are intended for direct services to victims and may be used to support personnel who serve as advocates or provide treatment. E907	TRANSFER DU E226 FROM BA 3145 TO BA 3203				
	This decision unit transfers two Biostatistician II positions from Children, Youth & Family Admin, budget account 3145 to HHS-HD Biostatistics & Epidemiology, budget account 3203.				
	This requests transfers two new Biostatistician II positions to help the Division of Child and Family Services (DCFS) handle the increasing need for data and statistics to report to multiple partners, including the federal government. One Biostatistician will be dedicated to assisting the juvenile justice concerns (Juvenile Justice program and the Victims Services unit), while the other Biostatistician position will be dedicated to assisting the Children's Mental Health program. Both positions will be responsible for performing complex mathematical and statistical analysis on multiple complex, dynamic DCFS databases, as well as linking datasets to conduct population-based studies and prepare statistical reports, forecasts and models. Both positions will work with caseload data that is needed for multiple federal and local reports. All the data collected by these two positions will not only be used for federal reporting, but to also tracking efficiencies in agency services, reduction of response times, and overall agency performance.

Budget Account: 3147 HHS-DCFS - YOUTH ALTERNATIVE PLACEMENT

The Youth Alternative Placement budget account was established to provide financial support to each regional facility for the detention of children who have been adjudicated as delinquent by Nevada courts. There are three regional facilities: two are located in Douglas County (China Spring Youth Camp and Aurora Pines Youth Camp), and one is located in Clark County (Spring Mountain Youth Camp).

The China Spring Youth Camp/Aurora Pines Youth Camp is dedicated to helping approximately 40 male and 16 female mid-level offenders between the ages of 12 and 18 develop skills, knowledge, and the experience necessary to promote health and resiliency, stop the progression of problems caused by delinquent behavior, and interpret and avoid high-risk behavior patterns in an emotionally safe, comforting, challenging, and nurturing environment. The facility provides structure and programs to assist juvenile offenders to overcome their delinquent behavior as well as opportunities to correct thinking errors, practice positive new social skills, and facilitate reintegration into the family and community.

The Spring Mountain Youth Camp and its community-based program provide residential treatment for approximately 112 youth between the ages of 12 and 18. The programs at Spring Mountain Youth Camp provide for therapeutic, educational, social, medical, and recreational needs. Counseling and therapy are provided to the youth as needed through Clark County's psychological services. Aftercare services are provided by a team, which includes probation officers and a mental health therapist who work with youth prior to placement and through completion of probation. This program operates in cooperation with, and is supported by, local law enforcement agencies, the Clark County School District, and various state agencies. Statutory Authority: NRS 62B.150

Budget Account: 3148 HHS-DCFS - SUMMIT VIEW YOUTH CENTER

Summit View Youth Center (SVYC) is a maximum-security youth correctional facility with a maximum capacity of 96 beds that provides programming and services to male juvenile offenders located near the Las Vegas urban center. During the 2010 Special Legislative Session, this facility was closed due to budget reductions. During the 2013 Legislative Session, funding was appropriated for the re-opening of the Summit View Youth Center under private contract. In the 2015 Legislative Session, the facility was approved for 48 state correctional beds for male youth between the ages of 12 and 20. SVYC is authorized and governed by NRS Chapter 63, State Facilities for Detention of Children, and those applicable statutes contained within NRS Chapter 62A, Juvenile Justice General Provisions. The physically secure nature of SVYC in comparison to the other two DCFS Juvenile Justice facilities allows DCFS to house the state's highest-risk youth in a secure environment. The programming at SVYC addresses delinquent youth who also may have been victims of abuse, abandonment, and neglect, working closely with both public and private agencies in accomplishing goals. Programs include educational services from Clark County School District, mental health services including individual and group counseling, and transition planning. Staff from SVYC coordinate with the Nevada Youth Parole Bureau and the Interstate Compact on Juveniles to ensure youth receive the best possible aftercare services once they are released from SVYC's jurisdiction. Youth who apply themselves to reach their goals in the shortest time possible typically achieve parole release within six to seven months. Statutory Authority: NRS Chapter 63.

7136	GARBAGE DISPOSAL UTILITIES This GL covers standard bulk garbage removal services for the entire facility through the sole vendor/provider in the city, Republic Silver State Disposal. The services are based on a fixed flat fee per pickup, plus an additional quarterly fee for services. Rates have increased on a regular basis. Agency is requesting to increase the budget by 8% of base year actuals to cover the projected shortfall. Please see attached Utilities Data spreadsheet indicating the shortfall in this line item over the past several years.	0	0	1,139	1,139
7137	WATER & SEWER UTILITIES This GL covers standard water and sewer services for the entire facility, which are combined and provided through the sole vendor/provider, the City of North Las Vegas. In addition, there is an annual water reclamation fee that is assessed by Clark County each July. The annual water reclamation fee cannot be controlled by the agency and is higher than originally projected in the budget. The standard water and sewer projections are based on the 8% monthly average increase compared to the same time last fiscal year. Summit View Youth Center is now at the maximum budgeted capacity of youth who are housed at the 24/7 facility and therefore overall water consumption has increased. In addition, through a recently completed deferred maintenance project, the facility now has additional grass that requires water, thereby increasing water consumption. And finally, through the new PBIS programming, youth are earning more privileges, one of which is that they are requesting additional showers daily, thereby increasing the overall water consumption of the facility. Agency is requesting to increase the budget by 8% of base year actuals. Please see attached Utilities Data Spreadsheet indicating the shortfall over the past several years.	0	0	4,842	4,842
7138	OTHER UTILITIES This GL covers Direct TV services, which are billed as a fixed flat fee on a monthly basis. Agency is requesting to increase the budget by 8% of base year actuals. Please see attached Utilities Data Spreadsheet indicating the shortfall over the past several years.	0	0	305	305

E353	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
	This decision unit requests that savings realized in the DCFS Juvenile Correctional Facilities due to vacancy savings and other cost savings due to reduced use by the counties to transfer to the Community Corrections Block Grant budget account for the next fiscal year for re-investment in prevention programs. This BDR would allow counties to report on the number of youth that are diverted from state custody to calculate the corresponding savings the state realized due to lower residential and staffing costs. Those savings would be reinvested into the county juvenile services departments to enhance their successful programs, thereby resulting in additional savings. This is a companion to Decision Units E-353 in BA 1383, Juvenile Justice Programs; BA 3179, Caliente Youth Center; and BA 3259 Nevada Youth Training Center. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 3149 HHS-DPBH - CHILD CARE SERVICES

Child Care Services ensures the health, safety, and proper treatment of children receiving out-of-home care. The Child Care Licensing program has the responsibility for licensing, monitoring, and providing technical assistance to child care facilities caring for five or more children not licensed by local entities. Statutory authority: NRS 432A.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for twenty-six positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR Balance forward is used to move reserve investigation fees and licensing fees into the available revenue for the preceding state fiscal year.	168,102	228,387	193,894	262,514
2512	BALANCE FORWARD TO NEW YEAR This is the remaining unspent funds from state fiscal year 2018 included to balance expenditures to revenues.	-228,387	0	0	0
3611	CHILD CARE FACILITY LICENSES Fees are collected for the licensing of all child care facilities. The program does not anticipate nor project that the number of facilities will increase or decrease and therefore we will use state fiscal year 2020 actuals. This revenue funds all categories except for category 10.	78,402	79,713	78,900	78,902
3704	INVESTIGATION FEES Fees are collected for the costs associated with performing background checks of employees in licensed child care facilities. It is anticipated that 7,860 background checks, at a cost of \$11.50 each, will be completed in each of state fiscal years 2022 and 2023 for a yearly revenue in the amount of \$90,465. These amounts come from the average number of background checks completed from 7/1/2018 through 4/29/2020. The NABS report is attached. [See Attachment]	57,344	78,269	91,392	91,393
4674	TRANSFER FROM DWSS The Child Care Licensing Program receives funding from the Division of Welfare and Supportive Services (DWSS) to provide licensing, monitoring, inspections and background checks to all licensed and non-licensed providers in the Child Care and Development Program (CCDP). Funding is provided through a sub-grant which is funded with DWSS's Child Care and Development Block Grant. The sub-grant helps reduce the risk of harm to children placed in childcare outside the home by ensuring the health, safety and proper treatment of children. Revenue projections are based on the attached sub-grant. All categories are funded by this revenue source. [See Attachment]	1,535,961	1,750,596	1,877,409	1,925,443

E801	COST ALLOCATION				
	This request realigns the Department Health and Human Service's Administration cost allocation to align with requested budget account transfers.				
	The Department of Health and Human Services proposed budget includes transferring the Office of Consumer Health Assistance, budget account 3204, to the Division of Aging and Disability Services.				
	Additionally, the proposal includes creating the office of Data Analytics, budget account 3203, in the Department of Health and Human Services Director's Office. This decision unit removes budget account 3204 from budget account 3150's cost allocation and adds budget count 3203 to it.

9044	TRANS TO WELFARE DIVISION This is to reimburse DWSS for the maintenance of the Master Client Index (MCI). This system contains client information for all DHHS Divisions. The original cost of this system was pre-paid by DWSS to receive a discounted price under the A-87 waiver. The A-87 waiver allowed states to pay for system development and maintenance if it benefited Medicaid without cost allocating to other benefiting programs. The waiver is no longer available, so DWSS is requesting Divisions reimburse them for the system maintenance beginning in July of 2023 to ensure costs are allocated properly to all benefiting programs. 	This request funds a Management Analyst 4 position to oversee the billing unit. The division has expanded from roughly 867 full time equivalent staff in fiscal year 2015 to 1,195 full time equivalent staff in fiscal year 2021 (38% growth) without adding additional fiscal staff. The number of fiscal staff to handle the growing demands of the agency has remained level for the same time period. In that time frame, the agency added or expanded insurance and Medicaid billing activity. This position will bring oversight and direction to billing staff to improve the billing rate and ensure the agency is capturing insurance revenue. The team is currently managed by an Administrative Services Officer 3 with oversight of cost allocation, grants, payroll and billing. The proposed Management Analyst 4 position will provide direct oversight and expertise to the billing team to improve efficiency and effectiveness of the billing process. [See Attachment]

E227	EFFICIENCY & INNOVATION				
<p>This request funds eight new positions to accommodate division growth over the last six years. In the 2013 Legislative Session, the Division of Aging and Disability Services (ADSD) merged with the Developmental Services budget accounts (3167, 3279 and 3280) to better serve clients of all age groups with disabilities. With approval of the merge, the division had 867.56 FTEs in FY14 and has grown every year to a current workforce of 1,195.82 FTEs in FY21, or a 38% increase in program staff. In 2015, the Legislature approved four additional IT staff but no other HR or fiscal staff was added. This decision unit will add the fiscal and IT resources necessary to support the additional program staff received over the past six years as well as manage the complex fiscal/accounting processes in the different budget accounts. The workload has shifted to managing the accounting basics such as accounts payable. The fiscal team needs additional staff to support the analysis of the accounting data, cost allocation data, improve processes, and provide oversight and training to technical accounting staff. The fiscal positions will manage, analyze, and provide support for nine budget accounts and cost allocation: 1006, 3140, 3151, 3206, 3207, 3208, 3209, and 3266. [See Attachment]</p>

E490 EXPIRING GRANT/PROGRAM
 This request transfers rent costs from budget account 3156-SeniorRx to budget accounts 3151, 3206, 3209, 3266 and 3280.
 Companion decision unit to BA 3156 E490
 The decision unit E490 in budget account 3156-SeniorRx eliminates the premium subsidy program. The allocated rent cost will not be eliminated with the program, and is therefore being allocated to the other budget accounts that share the same space based on the full-time equivalent count in each budget.

E902	TRANSFERS ONE POSITION TO BA 3204 This request transfers the Adult Protective Services and Long-Term Care units consisting of one Administrative Assistant 1 position into the newly formed Consumer Health Protection Unit (formerly called the Office of Consumer Health Assistance). Last biennium the agency transferred the federal grant programs from budget account 3151 to 3266 in order to make a more transparent administrative only budget. At that time, the agency needed to determine how best to separate the programs into self-contained budgets. That review process has resulted in a proposed split of budget account 3266 into two program types: Home and Community Based Services (HCBS) and Advocacy programs. This will be accomplished by transferring the Long-Term Care Ombudsman (LTCO) and the Adult Protective Services (APS) programs into a new budget called Community Health Advocacy Programs. The purpose of this new budget is to focus on advocacy over direct grant services. If budget account 3204 - Office of Consumer Health Assistance is transferred to this agency, LTCO and APS will be transferred to this budget to keep similar programs together. The main benefits of creating budgets that have similar goals is greater transparency and ease of tracking and reporting. For budgeting, tracking, and reporting the ability to contain costs for similar activities in a single budget makes it clear both internally and to the public the amount of resources dedicated to specific activities. The Administrative Assistant 1 position transferred from budget 3151 to 3204 provides support exclusively to the APS and LTCO units. It is appropriate to move this position into the new budget with the APS/LTCO staff as it is a direct support and cost to those activities. This decision unit is related to the E901 decision unit in budget 3266.

	This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

Budget Account: 3152 HHS-DPBH - LOW-LEVEL RADIOACTIVE WASTE FUND

The Low-Level Radioactive Waste Maintenance Fund provides a trust fund for the Radiation Control Program to conduct required post-closure activities at the state-owned, low-level radioactive waste disposal site near Beatty, Nevada. This program assures the closed Low-Level Radioactive Waste Disposal Site is maintained professionally and safely, creating a foundation of public confidence that encourages economic development in Nevada. Statutory Authority: NRS 459.

Budget Account: 3153 HHS-DPBH - NEVADA CENTRAL CANCER REGISTRY

The Cancer Control Registry collects, registers, and maintains a record of reportable cases of cancer in the state. The data is used to evaluate the appropriateness of measures for the prevention and control of cancer and to conduct comprehensive epidemiological surveys of cancer and cancer related deaths. Data is collected from: hospitals, medical laboratories, and other free standing facilities that provide screening, diagnostic, or therapeutic services; and from physicians who diagnose or provide treatment to patients with cancer. Statutory Authority: NRS 457.

	This request continues funding for twenty-six positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL Division of Public and Behavioral Health is requesting that General Fund Appropriations fund the cost of two Cancer Registry Specialist 2 in budget account 3153.	166,780	0	163,793	163,793
2510	REVERSIONS	-22	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR The balance forward is the unexpended fee revenue placed in reserve in the prior fiscal year.	155,222	119,345	75,904	34,981
2512	BALANCE FORWARD TO NEW YEAR This is the amount that will be carried forward to the work program year.	-119,345	0	0	0
3802	CLIENT CHARGE Fee collection for Budget 3153 was based on charging health care facilities a \$8 fee for the abstraction of their own cancer cases. In 2015, AB 42 passed which removed the abstracting fee and imposed an administrative penalty to health care facilities for non-reporting of cancer incidence cases. At this point no penalty fees have been collected for state fiscal year 2020. We request a minimal amount of authority for fees that might be collected in the future.	0	500	0	0
4251	TRANSFER FROM DMV These funds are provided through a DMV transfer for sales of the Childhood Cancer Awareness special license plates fees pursuant to Senate Bill 315, Section 7, Subsections 4 and 8, of the 2019 Legislative Session. This revenue funds special use category 17. State fiscal year 2020 was the first year these fees were collected; therefore, projected revenue will remain level with base. Original RGL that was set up, RGL 4721 was deactivated by Controller's Office in May 2020, when it was stated that the funds should be sent to this RGL.	3,738	0	3,738	3,738
4620	TRNS FRM BA3220 CANCER REGISTRY Federal grant funding is received from the Centers for Disease Control and Prevention for the Nevada Cancer Registry Program under CFDA# 93.898. The current grant award is for a project period of 06/30/2017 - 06/29/2022. The funding is awarded annually for the duration of the project. Budget account 3220 Cat20 is the main holder of the grant. BA 3220 transfers the National Program of Cancer Registries (NPCR) portion of the grant to BA 3153. Projected revenue is based on the attached NOGA (see page 2). This grant does not require Maintenance of Effort; however, match is required (see attached form). [See Attachment]	552,365	575,000	598,203	605,699
4721	TRANSFER FROM DMV These funds are provided through a DMV transfer for sales of the Childhood Cancer Awareness special license plates fees pursuant to Senate Bill 315, Section 7, Subsections 4 and 8, of the 2019 Legislative Session. This revenue funds special use category 17. This funding is moving to RGL 4251 per DMV request for SFY 21.	0	0	0	0

	The Nevada Central Cancer Registry (NCCR) exists to provide a comprehensive statewide cancer surveillance system for Nevada. The NCCR is the statutory (NRS 457) and regulatory (NAC 457) entity overseeing mandatory cancer reporting. Components of the surveillance system include collecting and maintaining patient demographic data and detailed clinical cancer data, monitoring state cancer rates, performing environmental health studies, providing data for and assisting with clinical and cancer epidemiology research, and identifying areas of the state in need of cancer control activities. NCCR is funded through the Centers for Disease Control and Prevention's (CDC) National Program of Cancer Registries (NPCR). New CDC-NPCR goals and strategies requires the registry to implement electronic cancer reporting and to adopt and utilize CDC-recommended data transmission standards for electronic data exchange. Qualified staff resources are required to meet national standards to secure continued federal funding and provide Nevada with quality cancer surveillance information. [See Attachment]

	This request increases licensure or registration of a radiation machine or other source of ionizing radiation in the amount of \$30 for credit to the system of reporting information on cancer and other neoplasm per NRS 457.230.				
	Until recently, complete and high-quality cancer cases were reported through hospital cancer registries because cancer cases were primarily diagnosed and treated in hospitals. With advances in medicine, patients are often diagnosed and treated outside the hospital setting.				
	Existing state law NRS 457.230 section 4 exempts a provider of health care who diagnoses or provides treatment from reporting if the patient is directly referred or previously admitted to a hospital, medical laboratory or other facility that provides screening, diagnostic or therapeutic services.				
	Existing state law NRS 457.250 outlines the reporting of cancer, fees, and administrative penalty from a health care facility. The definition of a health care facility ascribed in NRS 162A.740 does not include certain facilities and providers of health care outlined under NRS 457.230.				
	Individual providers and provider groups use the exemption to not report a cancer case to the registry. Cancer information should come from multiple sources to ensure all cancer cases within the State are captured and a complete cancer abstract is created to meet national reporting standards set by the Centers for Disease and Prevention's National Program of Cancer Registries (NPCR) as well as the North American Association of Central Cancer Registries (NAACCR). The issue is that cancer is under-reported in Nevada, which means the expected target of cancer incidence cases in Nevada set by NPCR and NAACCR are not met. The registry is funded through the NPCR with an expectation to meet 95% of completeness of the expected cancer target and certain national data quality indicators. Funding could be jeopardized, and Nevada data would not be included in the United States Cancer Statistics (USCS) data publication.

	This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

As long as the company maintains contracts with CMS, the state is obligated to offer a subsidy for their plan based on SPAP status even if a provider's state contract expires. Stale claims exist due to coordination of State and Federal licensing on different schedules. Additionally, there is a few-months lag time for all electronic systems to synchronize with current information, i.e. new eligibility enrollment with SRx/DRx, member designation of new/different coverage plan, member registration with CMS, plan registration with CMS, etc. which can cause delays with billing.

E490	EXPIRING GRANT/PROGRAM				
	This request eliminates the Senior Rx and Disability Rx program. The funding for this program has been reassigned to other programs within the agency and department.				
	The Nevada Senior and Disability Rx (SRx/DRx) Program provides Medicare Part D premium assistance for eligible individuals. Members who are enrolled in a Medicare Part D Plan or Medicare Advantage Plan with Part D coverage that participates with the SRx/DRx program receive a monthly subsidy toward their Part D Premium.				
	The agency is recommending that the funding for this program be reassigned to other programs.				
	With Nevada's current budget challenges due to COVID-19, an overall evaluation of the Senior and Disability Prescription (SRx/DRx) Program budget was performed. Through this evaluation, it was identified that administrative costs to operate the Senior and Disability Prescription (SRx/DRx) Program are high in comparison to the direct service provided through the program. In further examination of other services available under the Funds for a Healthy Nevada, ADSD determined that the SRx/DRx Program funds would be better allocated to assist a broader population of older adults and individuals with a disability in Nevada to live independently by providing other services as available under NRS 439.630. If future funding is available, ADSD would seek to reevaluate and develop services allowable under the SRx/DRx Program per NRS 439.665 and NRS 439.745.

Budget Account: 3157 HHS-HCF&P - INTERGOVERNMENTAL TRANSFER PROGRAM

The Intergovernmental Transfer (IGT) budget account collects payments from counties and other public entities to be used as non-federal share of Medicaid supplemental payments, thus reducing the need for General Fund appropriations. The IGT budget account collects payments from Clark and Washoe counties in support of supplemental Disproportionate Share Hospital (DSH) payments to hospitals. DSH payments support facilities that serve a disproportionate share of Medicaid, indigent, or other low-income patients. This reduces the burden of uncompensated costs for these facilities. The IGT budget account collects payments from counties, county hospital districts, and other public entities to support supplemental Upper Payment Limit (UPL) payments to providers for inpatient and outpatient hospital services, and Graduate Medical Education. The UPL program allows supplemental payments to certain providers to fill the gap in payments from what Medicaid reimburses compared to the upper payment limit of what the Medicare program would reimburse for the same services. In addition, the IGT collect payments from school districts and emergency para-transit transportation services to facilitate Medicaid payments for services to Medicaid recipients. All payments are deposited to this account and transferred as needed to Nevada Medicaid, budget account 3243, for medical payments; to Health Care Financing and Policy, budget account 3158, for related administrative costs; and Nevada Check Up (NCU), budget account 3178, for medical payments. The remainder, if any, is balanced forward to reserve.

Statutory authority: NRS 422.380 through 422.390 and the Nevada State Plan under Title XIX of the Social Security Act.

	This decision unit proposing to divert a 1.5 cent tax revenue from the IAF Supplemental Payment Program to assist the counties with their increased obligations of the Long-Term Care County Match program that has recently increased.				
	The county share of the Long-Term Care County Match program has recently increased. In response, the Board of Trustees of the Fund for Hospital Care to Indigent Persons is proposing to divert a 1.5 cent tax revenue from the IAF Supplemental Payment Program to assist the counties with their increased obligations. Diverting the 1.5 cent tax would give the counties approximately \$13.6 million in additional funds annually for the County Match program, but would also cause a reduction in the IAF Supplemental Payment program and decrease the payments issued to hospitals. Using the SFY 2020 IAF calculations, this change would have resulted in an overall reduction of \$38,185,684 in supplemental payments, \$32,049,910 of this reduction would be to private hospitals.

Budget Account: 3158 HHS-HCF&P - HCF&P ADMINISTRATION

This budget account represents administrative support for the Division of Health Care Financing and Policy. The division's mission is to purchase and provide quality health care services to low-income Nevadans in the most efficient manner; promote equal access to health care at an affordable cost to the taxpayers of Nevada; restrain the growth of health care costs; and review Medicaid and other State health care programs to maximize potential federal revenue. Statutory Authority: NRS 422, NRS 439B, Title XIX and Title XXI of the Social Security Act and Section 42 of the Code of Federal Regulations.

	<p>This revenue source represents receipts from the Federal Survey and Certification Grant that is transferred to the Division of Public and Behavioral Health at a 75% federal financial participation rate (FFP). CMS maintains oversight for compliance with the Medicare health and safety standards for laboratories, acute and continuing care providers (including hospitals, nursing homes, home health agencies (HHAs), end-stage renal disease (ESRD) facilities, hospices, and other facilities serving Medicare and Medicaid beneficiaries), and makes available to beneficiaries, providers/suppliers, researchers and State surveyors information about these activities. The survey (inspection) for this determination is done on behalf of CMS by the individual State Survey Agencies. The functions the States perform for CMS under the agreements in Section 1864 of the Social Security Act (the Act) are referred to collectively as the certification process. This includes, but is not limited to:</p> <ul style="list-style-type: none"> * Identifying Potential Participants - Payment for health services furnished in or by entities that meet stipulated requirements of the Act. Identification includes those laboratories seeking to participate in the CLIA program. * Conducting Investigations and Fact-Finding Surveys - Verifying how well the health care entities comply with the "conditions of participation" (CoPs) or requirements. This is referred to as the "survey process." * Certifying and Recertifying - Certifications are periodically sent to the appropriate Federal or State agencies regarding whether entities, including CLIA laboratories, are qualified to participate in the programs. * Explaining Requirements - Advising providers and suppliers, and potential providers and suppliers in regard to applicable Federal regulations to enable them to qualify for participation in the programs and to maintain standards of health care consistent with the CoPs and Conditions for Coverage (CfCs) requirements. <p>Grant ID#5-2005NV5001</p>

M514 MANDATE CHILD AND ADULT CORESET OF MEASURES
This request funds reporting of the Child Core Set and the Behavioral Health measures on the Adult Core Set that will become mandatory starting in 2024. The Division of Health Care Financing and Policy will be required to capture a core set of measures. The Core Sets are tools states use to monitor and improve the quality of health care provided to Medicaid and CHIP recipients. The goals for the reporting of the Child and Adult Core Set are to encourage national reporting by states on a uniform set of measures and to support states in using these measures to drive quality improvements. Reporting of the Child Core Set and the Behavioral Health measures on the Adult Core Set will become mandatory starting in 2024.

M517 MANDATE INTEROPERABILITY - ONC CURES ACT					
	This request funds contractual expenditures for system implementation of the Patient Access API (Application programming interfaces), Provider Directory API, Payer-to-Payer Data Exchange. The 21 Century Cures Act final rule was released on 03/09/2020. Patient Access API: Medicaid Fee-for-Service (FFS) programs, Medicaid managed care plans, CHIP FFS programs, CHIP managed care entities, are required to implement and maintain a secure, standards-based (HL7 FHIR Release 4.0.1) API that allows patients to easily access their claims and encounter information, including cost, as well as a defined sub-set of their clinical information through third-party applications of their choice. Implement beginning January 1, 2021 - this will require an enhancement to the interChange MMIS to build the API and process to extract and present the data. DXC does not currently have a solution. Provider Directory API: CMS-regulated payers noted above are required to make provider directory information publicly available via a standards-based API. Implement by January 1, 2021 - We do not currently have a true provider directory. This will require a solution either hosted by DXC, DHCFP, or an alternate vendor including an enhancement to interChange to build the API. Payer-to-Payer Data Exchange: CMS-regulated payers are required to exchange certain patient clinical data at the patient's request, allowing the patient to take their information with them as they move from payer to payer over time to help create a cumulative health record with their current payer. Implement beginning January 1, 2022 - this will require an enhancement to interChange to build the API and process to exchange the data Improving the Dually Eligible Experience by Increasing the Frequency of Federal-State Data Exchanges: This final rule will update requirements for states to exchange certain enrollee data for individuals dually eligible for Medicare and Medicaid, including state buy-in files and "MMA files" (called the "MMA file" after the acronym for the Medicare Prescription Drug, Improvement and Modernization Act of 2003) from monthly to daily. Implement starting April 1, 2022 - this will require an enhancement to the Buy-in module of interChange to change the frequency of the existing data exchange. https://www.cms.gov/Regulations-and-Guidance/Guidance/Interoperability/index [See Attachment]

M518	ENHANCMENT TO EXISITING ELECTRONIC VISIT VERIFICAT				
	This request funds additional Fiscal Agent support for system implementation. The 21 Century Cures act requires that Home and Community Based services are included in the Electronic Visit Verification solution by 01-01-2023. https://www.congress.gov/bill/114th-congress/house-bill/34/text Section 12006(a) of the 21st Century Cures Act mandates that states implement EVV for all Medicaid personal care services (PCS) and home health services (HHCS) that require an in-home visit by a provider. This applies to PCS provided under sections 1905(a)(24), 1915(c), 1915(i), 1915(j), 1915(k), and Section 1115; and HHCS provided under 1905(a)(7) of the Social Security Act or a waiver. SEC. 12006. ELECTRONIC VISIT VERIFICATION SYSTEM REQUIRED FOR PERSONAL CARE SERVICES AND HOME HEALTH CARE SERVICES UNDER MEDICAID. (a) In General.--Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by inserting after subsection (k) the following new subsection: “(l)(1) Subject to paragraphs (3) and (4), with respect to any amount expended for personal care services or home health care services requiring an in-home visit by a provider that are provided under a State plan under this title (or under a waiver of the plan) and furnished in a calendar quarter beginning on or after January 1, 2019 (or, in the case of home health care services, on or after January 1, 2023), unless a State requires the use of an electronic visit verification system for such services furnished in such quarter under the plan or such waiver, the Federal medical assistance percentage shall be reduced- [See Attachment]

	<p>This request provides funding for a vendor to review the managed care organizations' and dental benefit administrator's annual medical loss ratio (MLR) submissions for accuracy and compliance with guidance from the Centers for Medicare and Medicaid Services (CMS). Currently, the Division requires the managed care organizations to self report on an annual basis. The Division is requesting contractual assistance in reviewing and analyzing the submitted reports for accuracy. This would give the Division the opportunity to verify opportunities for the State to recover funds and significantly improve the monitoring of the program.</p> <p>¿438.602 State responsibilities.</p> <p>?</p> <p>(e) Periodic audits. The State must periodically, but no less frequently than once every 3 years, conduct, or contract for the conduct of, an independent audit of the accuracy, truthfulness, and completeness of the encounter and financial data submitted by, or on behalf of, each MCO, PIHP or PAHP.</p> <p>The May 15, 2020 CMCS Informational Bulletin added additional complexity to the Medical Loss Ratio calculation related to Third-Party Vendors. This additional complexity makes the MLR independent audit beyond the technical abilities of state staff.</p> <p>[See Attachment]</p>

E229	EFFICIENCY & INNOVATION				
	This request funds two positions to help improving data quality with regards to the Transformed Medicaid Statistical Information System (T-MSIS) to meet the Centers for Medicare & Medicaid Services (CMS) expectations and requirements. With the on-going changes to the national health care environment, the Centers for Medicare & Medicaid Services (CMS) has made significant investments to the organizational and information technology (IT) infrastructure to adequately represent CMS' role in the healthcare marketplace. The Transformed Medicaid Statistical Information System (T-MSIS) is a critical data and systems component of the CMS Medicaid and CHIP Business Information Solution (MACBIS). It is the priority of Nevada Medicaid to support CMS initiatives. These data quality initiatives are focused around Encounter data (CFR 438.818), beneficiary eligibility, provider enrollment, service utilization, claims data, and expenditures for Medicaid and CHIP. The DHCFP seeks approval to focus on establishing a data quality management team that will focus on the most critical data needed by the agency. CMS has been very clear in their communication that it is their expectation that states commit the necessary resources to make steady progress in improving their data quality with regards to Encounters and TMSIS. This new team will work closely with Sister Agencies as well as the Office of Data Analytics to offer support and resources towards program development and improvement. [See Attachment]

E900 TRANSFERS OUT FROM DHCFP 3158 TO ADSD 3279

This request transfer three audit positions (PCNs 355, 356, & 357) from the Division of Health Care Financing and Policy (DHCFP), budget account 3158, to Aging and Disability Services Division (ADSD), budget account 3279 to complete financial auditing of Regional Center Services.

These positions were originally approved in previous session to conduct Individuals with Intellectual Disability Waiver service audits. This request would transfer this to ADSD fiscal unit to ensure capacity to function across both waiver and state funded services, and create consistency in the fiscal accounting for providers and grantees.

Budget Account: 3160 HHS-HCF&P - INCREASED QUALITY OF NURSING CARE

The Increased Quality of Nursing Care budget account was established when the 2003 Legislature instituted a long-term care provider tax on freestanding long-term care facilities to increase the quality of long-term nursing care in Nevada. The tax rate is based on 6% of net patient revenues (42 CFR 433.68). The proceeds of the tax are deposited to this account and used as the non federal share of a supplemental payment to free standing nursing facilities in Nevada. The funds collected are transferred as needed to Nevada Medicaid, budget account 3243, to make supplemental payments to skilled nursing facilities caring for Medicaid recipients and to Health Care Financing and Policy, budget account 3158, for related administrative costs. The remainder, if any, is balanced forward to reserve.

Statutory authority: NRS 422.3755 through 422.379.

3337	LONG TERM CARE PROVIDER TAX NRS 422.3775 requires each nursing facility licensed in Nevada to pay a fee assessed by the Division of Health Care Financing and Policy (DHCFP) to increase the quality of nursing care. This fee becomes the non-federal funding of the Nursing Facility Supplemental Payment. All free standing nursing facilities in Nevada pay the Provider fee at one of two rates: 1) the Nominal fee is the smaller fee amount and is reserved for facilities who maintain a Medicaid Occupancy percentage of 65% or greater in the base quarter, and 2) the Uniform Fee which is higher and is paid by all nursing facilities whose Medicaid Occupancy percentage for the base quarter is less than 65%. 	The APS Energy Retrofit Project scope of work included various projects on the West Charleston Campus which will result in an overall decrease in expense and improve energy efficiency in operations. The project included all three campus agencies: SNAMHS, DRC and DCFS. The following projects were included for SNAMHS: 1. Lighting System Retrofit 2. Exit Sign Upgrade 3. Lighting Controls 4. Programmable and computerized controls retrofit 5. Economizer and controls integration for buildings 2 and 3A 6. HVAC Upgrade in building 1 7. Replacement of rooftop packaged units for buildings 2 and 3A 8. VFD for rooftop air handling unit for building 3 9. Low flow plumbing devices 10. Vending and office misers Current estimation is that the above has resulted in an additional 8% savings in electric and water costs to the agency. Preliminary review for final savings is currently in process. An adjustment is made to reflect the national city loan schedule by share agency: SNCAS: 41.87% DRC: 12.89% SNAMHS: 45.24% FY20 Total annual share lease costs: 239,188 FY21 Total annual share lease costs: 239,188 FY18 SNAMHS share: 108,209 less FY18 Actual: (108,209) Adjustment (0) FY19 SNAMHS share: 108,209 less FY18 actual: (108,209) Adjustment (0)

M802	COST ALLOCATION This request funds changes to cost allocation charges based on the Public and Behavioral Health Administration's cost allocation schedule. The share of cost allocation among the behavioral health accounts has increased for the upcoming biennium. In prior biennia, cost allocation was only partially allocated to the behavioral health budgets. This resulted in BH budgets providing little to no cost allocation fees to the administrative budgets. For SFY 22-23, DPBH proposes to allocate administrative costs utilizing the FTE-based methodology, in order for the BH accounts to appropriately share in funding the administrative accounts. 	This requests funds an increase to the budget amount for holiday pay, shift differential pay, overtime pay, and standby pay.				
	These items have not been adjusted to reflect additional positions after the Rawson Neal Hospital opened in 2007 or the Stein Psychiatric Hospital opened in 2015. They have also not been adjusted to reflect the increased cost of salaries over time. If this is not approved, Cat 01 will not be properly funded potentially leading to a budget deficit.

	This request funds an upgrade and maintenance of security cameras throughout SNAMHS' campus.				
	Current cameras are grainy and difficult to view clearly. The current systems experiences frequent outages and servicing the system is challenging due to the lack of a maintenance contract. The Stein system is critical for life safety as the control room operator requires visual confirmation before opening doors.

	This request funds 12 FTE Psychiatric Nurse 2 positions for the purpose of staffing the proposed addition of D-Pod to the Stein Forensic Facility.				
	Staffing the D-Pod unit at Rawson-Neal Hospital will allow for better use of space at Lake's Crossing (LCC) and Stein Forensic Facilities. D-Pod will then allow for housing close to all the long term (461 committed) clients from Clark County in appropriate space in their county of residence with special programming for long-term care. It will free up immediately at least 10 long term high security beds at LCC and allow for better management of length of stay at LCC and Stein in order to maintain compliance with the current consent decree. Additional beds may be used for competency restoration.

E228	EFFICIENCY & INNOVATION				
	This request funds 15 FTE Forensic Specialist 3 positions for the purpose of staffing the proposed addition of D-Pod to the Stein Forensic Facility.				
	Staffing the D-Pod unit at Rawson-Neal Hospital will allow for better use of space at Lake's Crossing (LCC) and Stein Forensic Facilities. D-Pod will then allow for housing close to all the long term (461 committed) clients from Clark County in appropriate space in their county of residence with special programming for long-term care. It will free up immediately at least 10 long term high security beds at LCC and allow for better management of length of stay at LCC and Stein in order to maintain compliance with the current consent decree. Additional beds may be used for competency restoration.

E550	TECHNOLOGY INVESTMENT REQUEST				
	This request funds the replacement of the current Unit Dose Packaging (UDP) Machine at the Rawson Neal Hospital.				
	The current UPD machine no longer interfaces with the pharmacy automated dispensing machines (Pyxis Medstations) packages for appropriate unit doses and dispensed medications. In addition, the current machine was initially installed, circa 2006, well over 14 years ago and has surpassed the useful life of depreciation. Old parts and canisters are breaking down on a regular basis.				
	The UDP solution must integrate with the pharmacy automated dispensing machine to increase efficiency of pharmacy services and store a minimum of 100 drugs/canisters. Due to limited pocket spaces in the Pyxis Medstation, more UDP doses can fit into each pocket compared to purchasing unit doses. The cost of purchasing a unit dose can exceed 4-5 times the bulk item. Replacing the UDP will allow the pharmacy to purchase more bulk item medications and repackage into unit dose more quickly and efficiently. Pharmacy is calculating the comparison costs of our current practice single dose packaging vs the savings of bulk purchasing of drugs."

	This request funds changes to cost allocation charges based on the Public and Behavioral Health Administration's cost allocation schedule. The share of cost allocation among the behavioral health accounts has increased for the upcoming biennium. In prior biennia, cost allocation was only partially allocated to the behavioral health budgets. This resulted in BH budgets providing little to no cost allocation fees to the administrative budgets. For SFY 22-23, DPBH proposes to allocate administrative costs utilizing the FTE-based methodology, in order for the BH accounts to appropriately share in funding the administrative accounts.

	Medications remain a cost-effective method of treatment that can lead to savings in other areas. However, despite continuous and ongoing efforts to contain expenditures, the cost of prescription medications continues to increase steadily. Our budget must mirror this increase in order to maintain our ability to provide the most appropriate agents to our clients. [See Attachment]

M102	AGENCY SPECIFIC INFLATION This request funds food inflation of 2.3% in fiscal year 2022 and an additional 2.3% in fiscal year 2023. This request is based on Moody's Economy.com March 2020 projections, the inflation rates attached. In particular, the stay-at-home order has shifted food demand to grocery stores. The Consumer Prices Index for food has increased since due to the fact the food supply chain is currently unable to deliver when and where food is needed due to the shortage of labor, particularly at farm level. M802	COST ALLOCATION				
	This request funds changes to cost allocation charges based on the Public and Behavioral Health Administration's cost allocation schedule.				
	The share of cost allocation among the behavioral health accounts has increased for the upcoming biennium. In prior biennia, cost allocation was only partially allocated to the behavioral health budgets. This resulted in BH budgets providing little to no cost allocation fees to the administrative budgets. For SFY 22-23, DPBH proposes to allocate administrative costs utilizing the FTE-based methodology, in order for the BH accounts to appropriately share in funding the administrative accounts.

E225	EFFICIENCY & INNOVATION				
	This request funds additional funding for the purpose of paying shift differential, and holiday pay. Shift differential and holiday pay are an integral and necessary expense at Northern Nevada Adult Mental Health Services (NNAMHS) per NAC 284.210 and NAC 284.255. The Dini-Townsend Hospital is a 24/7 operation, and the staff is working in a unit which provides services requiring multiple shifts within a 24-hour period all year round.				
	Dini Townsend Hospital has 30 inpatient psychiatric beds for adults. This setting requires that staffing remain at the level needed to care for the patients at all times. Management must ensure that staffing meets the acuity needs as well as cover for staff that cannot make it to their regular shift by authorizing overtime.

E710	EQUIPMENT REPLACEMENT				
	This request funds replacement computer hardware and associated software per Enterprise Information Technology Services' recommended replacement schedule.				
	Laptop computers with docking stations are being requested in order to improve efficiency and accuracy of data collection. As most of the Outpatient Program's services are provided in the community, service coordinators are currently taking written notes when they consult with providers and monitor clients while in the community. They then must bring the notes back to the office and input their progress notes, revised plans and other documentation into the clients electronic health record through the Avatar system. As the data input is delayed through the current process, it promotes increased risk of mistakes and inaccurate information. It also results in additional time in which the staff could be providing additional services. Therefore, by acquiring laptops, the service coordinators will be able to place their progress notes, plans, and other documentation directly into the system cutting down on both impute errors and time, increasing accuracy and efficiency.

Budget Account: 3166 HHS-ADSD - FAMILY PRESERVATION PROGRAM

The Family Preservation Program provides financial assistance on a monthly basis to low-income families residing in Nevada who are providing care in their home for family members with a profound or severe intellectual disability. Also covered are children under six years of age who have developmental delays that require support equivalent to that required by a person with profound or severe intellectual or developmental disabilities. The purpose of this assistance is to help offset expenses necessary to meet the special needs of the person with intellectual disabilities and to help strengthen and support families, thereby keeping families intact and reducing the need for out-of-home placement. Families use assistance payments to obtain specialized supplies or equipment (wheelchairs, clothing, diapers, therapy services, special diets, transportation services) and general income supplementation. Statutory Authority: NRS 435.365.

M200 DEMOGRAPHICS/CASELOAD CHANGES

This request funds an increase in projected caseload from 652 in fiscal year 2020 to 669 in fiscal year 2021 (2.6 percent increase over 2020) to align projected fiscal year 2021 caseload. This is a companion with decision unit M201.

This decision unit adjusts the base to reflect the people phased in during fiscal year 2020 and fiscal year 2021, as projected by the Department of Health and Human Services Data Analytics Unit (669 people by June 30, 2021) at the Legislatively-Approved monthly payment amount of \$374.00 per month. The Legislatively Approved fiscal year 2021 caseload for this program is 689 people by June 30, 2021. By statute (NRS 435.365), all eligible applicants must be included in the caseload and each participant must receive a monthly payment.

Budget Account: 3167 HHS-ADSD - RURAL REGIONAL CENTER

Rural Regional Center (RRC) has offices in nine sites that provide support services for people with intellectual and/or developmental disabilities and their families. RRC serves all Nevada counties except Washoe County and the Las Vegas area in Clark county. RRC provides services to residents of all ages. Most services are funded by Medicaid through the Home and Community Based Waiver and Targeted Case Management. Each individual eligible for services is assigned a Service Coordinator (TCM) that supports the individual with monitoring, assessing, referral and linkage to requested services through the person-centered planning process, with the goal of self-sufficiency, community inclusion and meaningful life. Additional services provided through RRC include respite; various levels of residential supported living arrangements to include 24 hour and intermittent; job training, day programming, and supported employment; psychological and behavioral assessments and intervention; nursing assessments and consultations; and quality assurance oversight. Statutory Authority: NRS 433 and 435.

B000	BASE				
	This request continues funding for 51.79 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.				
	Pursuant to NRS Chapter 435, ADSD is responsible for the development, administration, coordination and evaluation of state treatment and training programs for individuals with developmental disabilities and related conditions. The regional centers provide case management and service coordination, residential support, family support/respite and jobs and day training to individuals with developmental disabilities and related conditions who require assistance to live in the least restrictive community setting possible. Services are primarily funded with General Fund appropriations and federal Medicaid funds. Federal Title XX funds and county reimbursements for services provided to children also support this budget.

3861	TITLE XIX - WAIVER	8,785,556	9,880,467	8,303,467	8,403,083
	This represents the Federal portion of Title XIX - Medicaid reimbursement for community-based services (Supportive Living Arrangement and Jobs and Day Training) provided under the Home and Community Based Waiver. This Federal portion is based upon the Federal Medical Assistance Percentage (FMAP) rate after application of the utilization rate (number of individuals eligible for Medicaid) for each program. The General Fund match is contained in this budget account.				
	Supportive Living Arrangements support individuals to live in integrated community settings and participate in the life of the community. Providers are responsible to help individuals to live as independently as possible in safe environments of their choice.				
	Jobs and Day Training assist individuals in obtaining meaningful employments and living skills. Individuals have a choice of a full range of work options that allow for the development of work skills and consistent employment.				
	Funds are expended in special use category 11 (Supportive Living Arrangement) and special use category 36 (Jobs and Day Training). [See Attachment]				
3862	TITLE XIX - COMMUNITY SERVICES	409,467	535,199	576,723	583,642
	This represents the Federal portion of Title XIX - Medicaid reimbursement that Sierra Regional Center receives for providing authorized billable Targeted Case Management services to qualified individuals. This Federal portion is based upon the current Federal Medical Assistance Percentage (FMAP) rate. The General Fund match is contained in this budget account.				
	Targeted Case Management services are services which assist an individual in gaining access to needed medical, social, educational, and other supportive services. Allowable case management services and activities are: 1) Assessment of the eligible individual to determine service needs; 2) Development of a specific care plan; 3) Referral and related activities to help the individual obtain needed services; 4) Monitoring and follow-up; 5) Evaluation.

M201	DEMOGRAPHICS/CASELOAD CHANGES				
	This request funds an increase in projected Developmental Services caseload from 883 in fiscal year 2021 to 918 in fiscal year 2022 (4.0 percent increase over 2021) and 936 in fiscal year 2023 (6.0 percent increase over 2021). This request does not include any new positions. The agency is mandated to serve all individuals who qualify for services. All individuals in service receive targeted case management. This request includes staffing to bring actual caseload ratios in line with legislative approved ratios. These services are designed to serve individuals in their home community in community based programs. The majority of the funding for the community based programs is supported by Federal Medicaid funds which are matched by state general funds.

	Funding for projected growth in community based services is also included. These services help individuals live as independently as possible in their community and include: Supported Living, Jobs & Day Training, and Self-Directed Family Supports (Respite). Supported Living (SLA) - Caseload projections indicate an additional 26 individuals will need SLA services over the course of the 2021-2023 biennium. To balance out the workload the total increase is spread evenly over the entire biennium. Jobs & Day Training (JDT) - Caseload projections indicate an additional 18 individuals will need JDT services over the course of the 2021-2023 biennium. This increase is spread evenly over the entire biennium to balance out the workload. Self-Directed Family Supports (Respite) - Caseload projections indicate an additional 10 individuals will need Respite services over the course of the 2021-2023 biennium. This increase is spread evenly over the entire biennium to balance out the workload. Approval of this decision unit will provide sufficient staffing to manage the increased caseload and provide funding for community based services to help individuals live as independently as possible in their community. 2501	APPROPRIATION CONTROL This RGL is the State general fund appropriation. These funds will be used in combination with Medicaid funds and county reimbursement to provide services including Targeted Case Management, Respite, various levels of residential supported living arrangements (SLA) to include 24 hour and intermittent; job training, day programming, and supported employment; psychological and behavioral assessments and intervention; nursing assessments and consultations; and quality assurance oversight.	0	0	329,484	504,666
3861	TITLE XIX - WAIVER This represents the Federal portion of Title XIX - Medicaid reimbursement for community-based services (Supportive Living Arrangement and Jobs and Day Training) provided under the Home and Community Based Waiver. This Federal portion is based upon the Federal Medical Assistance Percentage (FMAP) rate after application of the utilization rate (number of individuals eligible for Medicaid) for each program. The General Fund match is contained in this budget account. Supportive Living Arrangements support individuals to live in integrated community settings and participate in the life of the community. Providers are responsible to help individuals to live as independently as possible in safe environments of their choice. Jobs and Day Training assist individuals in obtaining meaningful employments and living skills. Individuals have a choice of a full range of work options that allow for the development of work skills and consistent employment. Funds are expended in special use category 11 (Supportive Living Arrangement) and special use category 36 (Jobs and Day Training).	0	0	372,118	583,826

Budget Account: 3168 HHS-DPBH - BEHAVIORAL HEALTH ADMINISTRATION

Working in partnership with consumers, families, advocacy groups, agencies, and diverse communities, the Behavioral Health's Administration Office provides responsive services and informed leadership to ensure quality outcomes. The office's mission includes treatment in the least restrictive environment, prevention, education, habilitation, and rehabilitation for Nevadans challenged with behavioral health diagnoses, sometimes coupled with intellectual or developmental disabilities. These services are designed to maximize each individual's degree of independence, functioning, and satisfaction. Statutory Authority: NRS 433, 433A, and 433B.

3864	MEDICAID ADMIN CHARGES This is for revenue received from Medicaid Administrative services Budget Account 3158 Category 11. The Division of Public and Behavioral Health (DPBH) is reimbursed by Medicaid through a contract with the Division of Healthcare Financing and Policy (HCFP). Administrative services eligible for reimbursement are billed quarterly in accordance with DPBH's approved Cost Allocation Plan (CAP). The federal share of those costs and services allowable under the Title XIX program are reimbursed at the current rate of 50% for administrative claims per 42CFR 433.15(a)(7) and the Social Security Act section 1903(a)(7). See attached cost allocation. [See Attachment]	66,188	139,504	81,053	81,655
4231	BH COST ALLOCATION REIMBURSEMENT Cost Allocation calculated per the following Cost Allocation Schedules: DPBH Cost Admin (Cost Alloc) and BH Cost Allocation (3168). Administrative costs are identified and allocated by Full Time Equivalent (FTE) across the division. Seventy-five percent of the division's FTE reside in Behavioral Health; however, BH accounts provide only 4% in cost allocation funding for the administrative support they receive. Established in SFY11 prior to the merge of Mental Health and Public Health divisions, only the Medicaid portion, i.e. Medicaid revenue to total revenue, of the administrative cost allocation is budgeted in the BH budget accounts. Cost Allocation is paid from Cat 82 in Budget Accounts 3161, 3162, & 3648, while 3645 does not currently provide funding of the administrative cost allocation. For SFY 22-23, DPBH proposes to allocate the full cost of administrative support provided to the BH accounts to appropriately share in funding the administrative accounts. See attached cost allocation. [See Attachment]	150,151	211,589	3,850,957	3,884,447
4669	TRANS FROM WICHE NV-PIC RGL 4669 is used to receive funds from the Nevada Western Interstate Commission on Higher Education (NV WICHE) BA 2681 Cat 12 for the Nevada Psychology Internship Consortium (NV-PIC) program. This revenue funds special use category 10. This is expected to continue for FY22 & FY23. NV WICHE contributes \$112,500 to the Division of Public & Behavioral Health. \$37,500 x 3 NV-PIC interns = \$112,500. Please see attached contract, Attachment A (page 6 of attachment). 17	EARLY DIVERSION The purpose of this program is to establish or expand programs that divert adults with serious mental illness (SMI) or a co-occurring disorder (COD) from the criminal justice system to community-based services prior to arrest and booking. The funding will provide direct services through Carson Tahoe Health for case management of program participants and will work with treatment providers to ensure all participants have access to and receive the mental health, substance use treatment, health care and community resources necessary to ensure each person's success. Additionally, Assertive Community Treatment (ACT) will serve as a model for community outreach to support those with a SMI and COD who access crisis services repeatedly over a twelve-month period. ACT/Integrated Dual Disorder Treatment (IDDT) teams will provide wraparound services to ensure success of individuals being released. Wraparound services will include, but are not limited to: enrollment in medical insurance, transportation, housing assistance, and employment assistance.

19	SAPTA COVID19 The Substance Abuse and Mental Health Services Administration (SAMHSA) has awarded the state of Nevada emergency funds to address mental and substance use disorders during the COVID-19 pandemic. The current national crisis of COVID-19 will certainly contribute to the growth of Nevadans living with mental and/or substance use disorders. Nevadans across the State will struggle with increases in depression, anxiety, trauma, and grief. There is also anticipated increase in substance misuse as lives are impacted for individuals and families.

31	OPIOID RESPONSE GRANT SOR The program aims to continue to address the opioid crisis by increasing access to medication-assisted treatment using the three FDA-approved medications for the treatment of opioid use disorder, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including prescription opioids, heroin and illicit fentanyl and fentanyl analogs). The SOR requires the use of the strategic plan developed under the STR (State Targeted Response) grant to develop its activities and supplements activities pertaining to opioids currently undertaken by the Division and will support a comprehensive response to the opioid epidemic.

	Rural Clinics currently has a licensed psychologist position, PCN 0603, under the budget account. It is proposed that this Licensed Psychologist be moved under Behavioral Health Prevention and Treatment (BA 3170). This position would be better aligned under Behavioral Health Prevention and Treatment as this position holder is assigned duties specifically designed to provide technical assistance to county officials and health care providers in the communities across Nevada. (The position holder works closely with Substance Abuse Prevention program officials as well.) The technical assistance information is obtained through mentoring and training offered through the Behavioral Health Epidemiologist and SAPTA staff and resources. Rural Clinics has worked collaboratively with the psychologist but renders no supervisory guidelines or training to the position. The transition will allow for better planning, budgeting and workflow management thus increasing efficiency. The employee is already physically stationed with the SAPTA unit.

E901 TRANSFER SUICIDE PREVENTION TO 3170

This request transfers the Office of Suicide Prevention from the Maternal Child and Adolescent Services Budget Account 3222 to the Behavioral Health Prevention and Treatment budget account 3170. Move Office of Suicide Prevention under BA 3170. No cost included as this is cost neutral. The Bureau of Child, Family, and Community Wellness would like to pursue the possibility of transferring the Office of Suicide Prevention (and all fiscal management) to the Bureau of Behavioral Health Wellness and Prevention budget account or its own budget account.

	This request transfers one Health Program Specialist 1, one Health Program Specialist 2, and one Biostatistician 2 from Behavioral Health Prevention and Treatment, budget account 3170, to the office of Data Analytics, budget account 3203.				
	This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

M150	ADJUSTMENTS TO BASE This request adjusts base expenditures including eliminating one-time expenditures such as equipment, and adjusts for partial year costs for the continuation of programs. Included in this decision unit is the elimination of Category 74. Please see in justification for explanation. Category 74 was started to fund an NDEP-BISC lead contaminant investigation in the area of the Las Vegas Wash, this was independent of the Nevada Environmental Response Trust's (NERT's) investigation. The NERT front funded Category 74 in advance. The NDEP-BISC hired it's consultants AECOM, DRI (Desert Research Institute) and USGS (United States Geologic Service) to assist in this investigation. The investigation was very successful, information related to contaminant concentrations and transport was given to the NERT to support their Investigation and Remediation efforts. The investigation was completed in FY 2020, AECOM's contract expired on November 10, 2019. The NDEP-BISC decided to retain DRI and USGS but in a different capacity that would be funded out of Category 75. Since the investigation and the investigative activity portions of the contracts are complete, it was decided that Category 74 would be eliminated. [See Attachment]

This request funds an increase of \$498,325 in contract (Broadbent) authority in order to meet program goals. A contract for professional services with Broadbent & Associates provides professional services to NDEP to plan for and implement a Regional Groundwater Remedial Investigation to identify contributing sources and pathways of chemical loading to the Las Vegas Wash. The Bureau of Industrial Site Cleanup is requesting an increase in contract authority for FY22 and FY23 to satisfy the current contract needs as specified in RFP70CNR-S1051. The Broadbent contract has a revised Scope of Work (SOW) that includes additional programs and tasks. The projects are entering a new phase which will require a different skill set and we anticipate contract work to meet or exceed the \$1 million per year as was identified in the SOW. Work on this project done in the Base Year FY20 was significantly reduced due to Covid-19.

This request funds an increase of \$31,190 in authority for an interlocal agreement with the Desert Research Institute (DRI) in order to meet program goals. The Desert Research Institute (DRI) Interlocal Agreement assists NDEP with additional data collection and review to assist the effort of removing perchlorate from the Las Vegas Wash. DRI activities will increase due to new project phases. We anticipate DRI expenses to be \$45,000 in 2022 and 2023. Work on this project done in the Base Year FY20 was significantly reduced in FY20 due to Covid-19.

Budget Account: 3178 HHS-HCF&P - NEVADA CHECK UP PROGRAM

The Nevada Check Up Program budget account was established when Nevada initiated a Children's Health Insurance Program (CHIP) in 1998. Under Title XXI of the Social Security Act, CHIP provides options for states to cover health care costs for low-income, uninsured children not eligible for Medicaid, whose family income is at or below 200% of the federal poverty level. The Nevada Check Up Program is a stand-alone program. It is not an entitlement program nor is it part of the Medicaid Program. Families are assessed quarterly premiums based on family size and income. The Division of Welfare and Supportive Services and the Department of Health and Human Services, Office of Analytics provide recipient caseload forecasts. Cost-per-eligible recipient data is produced from the Medicaid Management Information System and is based on paid medical claims history. This data is factored with the caseload projections to produce budgeted medical expenditures. Statutory Authority: NRS 432A.300, NRS 422, Federal Title XXI of the Social Security Act, and Section 42 of the Code of Federal Regulations.

REVENUE

00 REVENUE

In 1998, Nevada initiated a Children's Health Insurance Program (CHIP) known as Nevada Check-Up. Under Title XXI of the Social Security Act, CHIP provides options for states to cover health care costs for low-income, uninsured children not eligible for Medicaid whose family income is at or below 200% of the federal poverty level (FPL). The Nevada Check-Up Program is a stand-alone program. It is not an entitlement program nor is it part of the Medicaid Program. Families are assessed quarterly premiums based on family size and income. Funding sources are General Fund appropriation, Federal Title XXI, and participant premiums. Statutory authority: NRS 432A.300, NRS Chapter 422, and Federal Title XXI of the Social Security Act (42 CFR).

The Revenue for Budget Account 3178 include, Title XXI (CHIP) Federal Receipts, Check-Up Participant Premiums, Transfer from IGT Account, Appropriation Control and Balance Forward.

Budget Account: 3179 HHS-DCFS - CALIENTE YOUTH CENTER

The Caliente Youth Center (CYC) is a secure juvenile residential facility located 150 miles north of Las Vegas in Caliente. There are seven housing units situated on 35 acres with a maximum capacity of 64 youth. CYC serves male and female clients between 12 to 19 years of age. CYC is authorized and governed by NRS Chapter 63, State Facilities for Detention of Children, and those applicable statutes contained within NRS Chapter 62A, Juvenile Justice General Provisions. The programming at CYC addresses delinquent youth who also may have been victims of abuse, abandonment, and neglect, working closely with both public and private agencies in accomplishing goals. Staff from CYC coordinate with the Nevada Youth Parole Bureau and the Interstate Compact on Juveniles to ensure the youth receive the best possible aftercare services once they are released from CYC's jurisdiction. Youth who apply themselves to reach their goals in the shortest time possible typically achieve parole release within six to seven months. Statutory Authority: NRS Chapter 63

	This decision unit requests that savings realized in the DCFS Juvenile Correctional Facilities due to vacancy savings and other cost savings due to reduced use by the counties to transfer to the Community Corrections Block Grant budget account for the next fiscal year for re-investment in prevention programs. This BDR would allow counties to report on the number of youth that are diverted from state custody to calculate the corresponding savings the state realized due to lower residential and staffing costs. Those savings would be reinvested into the county juvenile services departments to enhance their successful programs, thereby resulting in additional savings. This is a companion to Decision Units E-353 in BA 1383, Juvenile Justice Programs; BA 3148, Summit View Youth Center; and BA 3259 Nevada Youth Training Center. [See Attachment]

Budget Account: 3181 HHS-DCFS - VICTIMS OF DOMESTIC VIOLENCE

The Victims of Domestic Violence program awards grants to non-profit entities statewide to provide direct services to victims of domestic violence and sexual assault. Services include shelter, crisis phone access, emergency assistance, advocacy, hospital accompaniment, and counseling. Viable programs are sustained in all 17 Nevada counties with trained staff and volunteers. The Division of Child and Family Services has responsibility for monitoring domestic violence programs to ensure compliance with NRS 217.400 through 217.460 for granting funds from the domestic violence account, maintaining financial records, and evaluating services provided. Funding for this program comes from marriage license fees. The Victims of Domestic Violence account was established for the purpose of managing these funds.

Statutory Authority: NRS Chapter 217.

Budget Account: 3185 DCNR - DEP AIR QUALITY

The mission of the Bureaus of Air Pollution Control and Air Quality Planning (Air Program) is to achieve and maintain levels of air quality, which will protect human health and safety; prevent injury to plant and animal life; prevent damage to property; preserve visibility and scenic, aesthetic, and historic values of the state; and implement provisions at the facility level to prevent accidental chemical releases in the state. To accomplish this mission, staff assigned to these bureaus plan, direct, coordinate, and control air quality monitoring, permitting, and compliance assurance. This budget account is mainly funded by federal grants and fees. Statutory Authority: NRS 445B.100 - 445B.845, and 459.380 - 459.3874.

3501	CLEAN DIESEL GRANT The Nevada Division of Environmental Protection (NDEP) will use the Diesel Emissions Reduction Act (DERA) grant funds to effectively and permanently reduce NOx and PM2.5 emissions from diesel vehicles. NDEP will mostly provide pass through funding to public sector fleets in the state and retain a portion of the funds for cost recovery equivalent to approximately 30-40% of full-time employee (FTE). The successful projects will replace older diesel-powered equipment. The program will focus mainly on school district and municipal fleets and will replace several older vehicles with new vehicles meeting replacement criteria and early attrition requirements. Required match is met by the individual school districts and municipal fleets, there is not a maintenance of effort (MOE) required. This revenue is tied to Categories 01, 14 and 12. 4279	VOLKSWAGEN SETTLEMENT The settlement agreement between US-EPA and Volkswagen (VW) directed approximately \$25,000,000 to Nevada to be used for projects mitigating the NOx excess emissions from VW vehicles. NDEP will manage the disbursement of these funds by coordinating their disbursements between the national VW Trustee and Nevada recipients (public and private entities). As per the settlement, the NDEP is entitled up to 15% of the total amount of each project for cost recovery associated to the management of the program. Revenues are estimated using the expected funds that will be disbursed in coming biennium. This revenue is tied to category 01, 02, 03, 04, 14, 26, 30. 7960	RENTALS FOR LAND/EQUIPMENT The Monitoring Branch with the NDEP-Air Program started in 2018 to evaluate a new location for their permanent meteorological tower in Pahrump. This change may be necessary due to logistic limitations in the current location. In order to assess the new location, it is critical to compare meteorological observations between the two locations, which can only be done by setting a temporary meteorological tower in the proposed new location. The vendor equipment is for the rental of fencing around the temporary meteorological tower. Several months, and even a few years, of data collection are required for an appropriate comparison.	225	2,032	225	225

E255 INFRASTRUCTURE, ENERGY & ENVIRONMENT

This enhancement is requesting additional authority for travel that was not completed during the base year due to COVID-19 travel restrictions.
 OUT-OF-STATE TRAVEL - CAT 02

The Air bureaus are requesting additional authority for Out-of-State Travel, Category 02 for both fiscal year 22 and 23 to make up for base year travels that did not occur due to COVID-19 travel restrictions.

Early in the year the bureaus noticed that there were a few trips budgeted as Training, Category 30 which are better represented as Out-of-State Travel, Category 02. These trips included a training component, but the main goal was to allow Chiefs and Supervisors to interact, plan, and exchange information with peers from other states and federal agencies. Any Out-of-State Travel that was budgeted as Training and was not completed due to COVID-19 travel restrictions has been logged as Out-of-State Travel.

IN-STATE TRAVEL - CAT 03

The Bureau of Air Quality Planning (AQP) and Bureau of Air Pollution Control (APC) is requesting additional authority for In-State Travel, Category 03 for both fiscal year 22 and 23 to make up for base year travels that did not occur due to COVID-19 travel restrictions.

The Chemical Accident Prevention Program (CAPP) within the Air bureaus is required by NAC 459.9552 to conduct a site inspection at least once per year for each facility registered. Currently the CAPP has 57 facilities registered in Nevada.

The federal Clean Air Act delegates compliance and enforcement to the state, through the State Implementation Plan, and requires inspection of sites and facilities that hold an air quality operating permit issued by the bureaus. NRS 445B.240, NRS 445B.580 and NAC 445B.315, NAC 445B.3365, NAC 445B.3679, and NAC 445B.3685 authorize such inspections.

The federal Clean Air Act delegates compliance and enforcement, both of which require travel to facilities. In-State Travel to sites and facilities also allows the bureaus to fulfill their core mission of protecting the air quality of the State, public health, and the environment.

TRAINING - CAT 30

During the latter part of fiscal year 20, several training opportunities that were scheduled did not take place due to COVID-19 travel restrictions. Because of the complexity of the Air bureaus' programs, continued training is vital to our core mission. The authority being requested will allow the bureaus to continue to learn and train about, for instance, air related new technologies, compliance activities, and federal rules as they become available.

	The position change is requested as the duties align with the class specifications for an Environmental Scientist III. This position is a remnant of the previous bureau structure where Environmental Scientist II (ES II) positions were utilized for hiring staff with minimum qualifications that did not yet possess the required experience to qualify as ES III. This approach was ineffective for staff retention in the program; it is much more efficient that a candidate underfill a ES III position and auto-progress to ES III with a development plan appropriate for each individual situation. Section A1: Line Item Detail by GL

Budget Account: 3186 DCNR - DEP WATER POLLUTION CONTROL

The Bureau of Water Pollution Control ensures compliance with water pollution control laws by issuing permits to discharge to surface and/or ground water. Facilities are inspected to ensure compliance and enforcement actions are taken if necessary. Staff reviews the design of wastewater treatment plants and infrastructure. Subdivisions are reviewed to ensure that adequate systems are in place to treat wastewater. This budget account is funded by fees and federal grants. Statutory Authority: NRS 445A.300 to .730, portions of NRS 278.330 to .460.

E250 INFRASTRUCTURE, ENERGY & ENVIRONMENT

This enhancement creates a new Supervisor position in the Las Vegas office. The position will have direct supervisory responsibility over three individuals and indirect responsibility over a fourth. Creation of this position will allow for local and direct supervision of these staff in Las Vegas versus remote supervision from Carson City. This supervisor will make daily administrative decisions to ensure the smooth operation of the Bureau of Water Pollution Control (BWPC) staff in Las Vegas. This includes managing workflow and assignments, approving training and travel needed for staff, as well as daily office operations. This individual will also need to make decisions regarding questions from the public on permit requirements and applicability of state and federal regulations. This position will need to make decisions on priorities regarding inspections and enforcement to ensure inspection targets and grant deliverables are met and we are protecting the environment. This individual must be able to adaptively lead the BWPC program in Las Vegas to incorporate new policies adopted by the Nevada Division of Environmental Protection (NDEP) and BWPC upper management and the state as a whole.

There are four Bureau of Water Pollution Control positions within the Las Vegas office which are supervised by individuals located in the Carson City office. There are a substantial number of permits, both temporary and permanent, in the southern portion of the state. The high number of permits in the southern part of the state also increases the inspection needs and compliance issues. A supervisor position in the Las Vegas Office will help provide greater assistance with day to day issues, provide greater oversight and support for staff, and provide increased direct assistance with compliance issues in the southern part of the state.

E805	CLASSIFIED POSITION CHANGES				
	This position will monitor, assess and be the Bureau lead on development of the Bureau's biennial budget. This position will also be the primary individual to draft quarterly and annual program progress reports, draft contracts and grant applications and tracking grant and contract associated deadlines, deliverables and budgets. This position will help manage the overall operations for the bureau as well as supervising (directly and indirectly) the Bureau's administrative staff. Duties will also include managing, updating and documenting Bureau processes and procedures, and internal controls. Agency information resources and databases will be primarily managed by this position to assist staff needs as well as to provide necessary information to the public upon request.				
	Upon promotion, the incumbent in the Administrative Assistant IV (AA IV) position (PCN 0542) took on budgetary duties and functions while also maintaining the existing duties and functions of the Administrative Assistant III (AA III) position. The AA III position vacated by the incumbent upon promotion is now supporting new e-records management functions for the program, which the incumbent oversees. The Bureau Chief has identified additional duties that are needed from the position to improve efficiencies in bureau operations and to help ensure the mission and goals of the agency can be achieved. Performing these added duties will also relieve existing pressure on other technical and engineering program branch supervisors, as well as the Chief, and allow them additional time to focus on their program specific needs. This request includes a reclassification of the AAIV position to a Management Analyst I due to the additional duties of a more complex and/or fiscal nature. The incumbent would serve as an underfill for this position until such time as the incumbent could assume the additional duties outlined below

	In order to effectively evaluate and implement a new file transfer and management program BCA has identified the need for an additional Administrative Assistant II project management position. The increased need to efficiently transfer extensive physical files, correct current electronic files in order to meet ADA guidelines, maintain current case files and daily operations of the file room while working with team leaders to establish a cohesive bureau wide procedure are not tasks which our current Administrative Assistant II and Administrative Assistant III are capable of implementing due to current individual workloads. E251	INFRASTRUCTURE, ENERGY & ENVIRONMENT This request funds on Environmental Scientist III in the Bureau of Corrective Action. The new position would allow the program to spread the current workload among three staff and free up resources to implement the recommendations made in the June 2019 DIA report. Most importantly, a new field inspection program would be implemented to verify presence and inventory remediation equipment reimbursed by the Petroleum Fund. Additionally, this position would be responsible for the enrollment of approximately 1200 storage tank facilities (3800 tank systems), review of applications requesting Petroleum Fund coverage1 coordinating with a third party to implement and provide support for a storage tank operator technical assistance program (NAC 445C.255)1 and maintain/provide user management of BCA's multi-program database. Lastly, the time freed up by the new position would also allow the program to review current statutes, regulations, and policy resolutions (many of which were adopted in the 1990s) and make amendments as necessary [See Attachment]

E259 INFRASTRUCTURE, ENERGY & ENVIRONMENT

The EMAR contract provides environmental mitigation, assessment and remediation services on an as needed basis. This contract provides the division with the required specialized technical assistance to perform oversight of work performed by responsible parties at sites with environmental contamination

Mercury Cleaners: The NDEP has solicited cost estimates from our environmental contractor for implementation and operation of a final groundwater remedy to address PCE contamination originating at and emanating from the former Mercury Cleaners dry cleaning facility. Several remedial technologies and approaches for installation were considered in the cost proposals. Our current preferred remedy is Soil Vapor Extraction with targeted groundwater Pump & Treat, with full disassembly of the dry cleaner building to allow for access to contaminant source areas. The proposed budget numbers are based on those assumptions and include capital costs for system installation (excluding demolition costs which ideally will be completed prior to the upcoming biennium) and two years of operation & maintenance costs (out of 5 years estimated lifetime operation) from Table 1, column 2 of the attached cost proposal.

Altair Nanotechnologies: The NDEP will continue to perform quarterly groundwater monitoring at the former Altair Nanotechnologies site to evaluate concentrations and trends of chlorinated solvent contaminants after completion of soil abatement activities. The numbers are based on the previous Scope of Work for two years of quarterly monitoring (attached). The NDEP may pursue site closure after the one or two years of additional sampling. Additional costs associated with site closure include the abandonment of monitoring wells and closure documentation; estimates are based on the cost proposal submitted for a site with an equivalent number of monitoring wells, Mercury Cleaners.

This request includes a transfer of authority from category 07 to category 12 in order to establish a special use category not associated with the building of maintenance and grounds.

Budget Account: 3188 DCNR - DEP MINING REGULATION/RECLAMATION

It is the mission of the Bureau to ensure that Nevada's surface and groundwaters are not degraded by mining operations and that the lands disturbed by mining operations are reclaimed to safe and stable conditions to ensure a productive post-mining land use. Facilities utilizing chemicals for processing ores are generally required to meet a zero discharge performance standard. The Bureau works collaboratively with the mining industry and the public to achieve its mission. This budget account is fully funded by permitting fees. There are three technical branches: regulation, closure, and reclamation, which all perform plan review, permitting, inspection, compliance monitoring, and enforcement activities. The programs address the design, construction, operation, closure, and reclamation of mining and exploration operations. Operators must file a financial assurance/guarantee with the division or federal land manager to ensure that reclamation will be completed should an operator default on the project.

The regulation and closure branches regulate mining in Nevada under the authority of the Nevada Revised Statutes (NRS) 445A.300-NRS 445A.730 and the Nevada Administrative Code (NAC) 445A.350-NAC 445A.447. The reclamation branch regulates mining in Nevada under the authority of the Nevada Revised Statutes (NRS) 519A.010 - NRS 519A.280 and the Nevada Administrative Code (NAC) 519A.010 - NAC 519A.415.

<p>This decision unit is requesting authority so that the bureau can convert microfilm to pdf files. As custodian of these public records, it is critical for NDEP to convert old microfilm to a digital platform to avoid deterioration or permanent loss.</p> <p>The Bureau has previously embarked on a program to convert paper files to electronic files for storage in a permanent electronic record that can be viewed by the public on the internet. The retention schedules require that files be stored for 35 years after a mining project fully closes. The Bureau currently has projects that extend out for 300 to 500 years. The existing microfilm files are difficult to research and require a researcher to come into the office or the State Library to view them. Over extended periods of time the microfilm files can be damaged, lost or begin to naturally degrade. By converting the microfilm to PDFs they will be immediately accessible by both staff and public in the electronic format. The PDFs can then be indexed and placed into the electronic document viewer for the permanent electronic record. A quote is attached. [See Attachment]</p>

E255	INFRASTRUCTURE, ENERGY & ENVIRONMENT This decision unit is requesting authority for travel that was not able to be included in fiscal year 2020 base due to COVID-19 travel restrictions. In early March, the Bureau of Mining Regulation and Reclamation (BMRR) had begun a work program to request an increase for In-State travel authority because a shortfall was foreseen. The work program was withdrawn once the COVID-19 travel restrictions were implemented. These line items are requesting authority for In State Travel, Category 03 (CAT 03) for FY22 & FY23 for what would have occurred if the COVID-19 virus did not occur. This In-State Travel is required to meet the program goals while ensuring compliance with State and Federal regulations. The BMRR completes their in-state travel using Sstate vehicles and all costs are funded from fees. No airfare or fleet service expenses are expected to be incurred. This will allow the Mining Program to carry out the provisions of the NAC 445A. 350 to NAC 445A.447 and NAC 519A.010 to NAC 519A.415, State regulations related to Mining and for the Bureau to continue with the primary mission to protect waters of the State, public health and the environment. TRAINING: The purpose of this request is to increase authority for training gin category (CAT) 30. A variety of training opportunities did not happen due to COVID-19 travel restrictions. This authority will cover expenditures for Bureau staff training in FY22/23. Trainings bring mining facilities; scholars; industry leaders and educators from around the world to share their collective expertise and combined resources in an effective training atmosphere. It is a priority of BMRR to help staff to learn the technical and industry aspects of our program to enhance the ongoing success of our mission to protect the waters of the State. CONFERENCES OUT OF STATE TRAVEL: The purpose of this request is to increase authority for Out of State Travel (CAT02) so that staff may travel for a variety of workshops and conferences in FY22/23. These workshops and conferences were scheduled to occur in the later part of the year but were canceled due to COVID-19 travel restrictions. By attending these workshops and conferences, the Bureau will be able to stay connected to other partners, keep current on the evolving technical developments and better understand industry trends and associated environmental protection needs. Information sharing from these sessions will be implemented to assist the regulated community, engage stakeholders, and support collaborative efforts involved in protecting the environment and the waters of the State of Nevada. 	This decision unit is requesting a position reclassification for PCN 0511.				
	The Bureau has four Permit Writer in its Regulation Branch. All four Permit Writers have the exact same work performance standards. Three of the positions are classified as Professional Engineers with one position classified as a Staff 2 Associate Engineer. Since all four positions use the exact same work performance standards and are performing the exact same work, the Bureau would like to reclassify the Staff 2 Associate Engineer to the Professional Engineer level in order to align the class specifications with the work required and retain qualified staff.

Budget Account: 3189 DCNR - DEP STATE REVOLVING FUND - ADMIN

This budget account provides staff and administrative support for the State Revolving Loan Program, which provides low cost financing for wastewater, storm water, and drinking water infrastructure improvements that are needed to achieve compliance with applicable environmental standards. This budget account is funded by federal grants, Treasurer's interest income, and loan origination fees. Statutory Authority: NRS 445A.060 through 445A.160 and 445A.200 through 445A.295.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for five employee and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR This revenue GL accounts for funds balanced forward from previous fiscal years consisting of clean water service fees received in RGL 3855 and Treasurer's interest received in RGL 4326. Funds within the account must be used in accordance with NRS 445A.120.	819,202	956,726	692,853	803,189
2512	BALANCE FORWARD TO NEW YEAR	-956,726	0	0	0
3501	FED EPA CLEAN WATER SRF GRANT This revenue GL accounts for the Clean Water State Revolving Fund Federal Grant portion that is authorized for clean water administrative activities. Multiple grants may be open at one time and the program draws funds in a first-in, first-out basis. The federal grant requires a 20% match from state resources. Match money is provided through the issuance of general obligation bonds issued by the State Treasurers Office and are not subject to the Constitutional debt limit of 2% of assessed valuation. It is not required that bond proceeds be spent in a pro-rata share of grant money and a single bond can match multiple grants at once. Bond proceeds are spent in non-executive budget account 3183 towards loans of the clean water program. Bonds are issued as needed prior to receiving a grant to remain in compliance with match requirements. No maintenance of effort is required for the drinking water grant. Revenue calculations are based on clean water expenditures that are needed to maintain a two year reserve of loan origination fees. The grant authorizes reimbursements only; therefore, funds cannot be placed in reserves. See the NEBS fund map, Excel fund map, and the grant reconciliation.	0	0	265,247	273,602
3583	FED EPA DRINKING WATER SRF GRANT This revenue GL accounts for the Drinking Water State Revolving Fund Federal Grant portion that is authorized for drinking water administrative activities. Multiple grants may be open at one time and the program draws funds in a first-in, first-out basis. EPA authorizes the portion for administration to be "banked" for future years should the program require additional administrative funds in another fiscal year. Therefore, there is sufficient grant funds to cover requested expenditures within this budget request. The federal grant requires a 20% match from state resources. Match money is provided through the issuance of general obligation bonds issued by the State Treasurers Office and are not subject to the Constitutional debt limit of 2% of assessed valuation. It is not required that bond proceeds be spent in a pro-rata share of grant money and a single bond can match multiple grants at once. Bond proceeds are spent in non-executive budget account 3211 towards loans of the drinking water program. Bonds are issued as needed prior to receiving a grant to remain in compliance with match requirements. No maintenance of effort is required for the drinking water grant. Revenue calculations are based on drinking water expenditures. The grant authorizes reimbursements only; therefore, funds cannot be placed in reserves. See the NEBS fund map, Excel fund map, and the grant reconciliation.	2,818,821	3,013,462	2,840,544	2,850,811
3855	LOAN SERVICING The agency collects a 0.5% loan origination fee on Clean Water State Revolving Fund loans. The amount received fluctuates dramatically from year-to-year and is based on the dollar amount of loans awarded within the fiscal year. The base year actual amount of \$455,000 but the agency doesn't anticipated loans awarded at such a high level for the FY22-23 biennium. A five-year average was used for budgeting purposes. See attached spreadsheet. costs associated with Clean Water Program activities will be balanced against Reserve. See the NEBS fund map for details. [See Attachment]	455,000	54,990	179,407	179,407
4326	TREASURER'S INTEREST DISTRIB This revenue GL accounts for Treasurer's Interest earned on funds held in reserves. The requested budget authority is based on the fiscal year 2020 actual figure. All funds from this revenue source are placed in reserves and held for future expenditures. See the NEBS fund map for details.	13,274	12,793	13,274	13,274
4776	TRANSFER FROM ENVIRON PROTECT - B This revenue GL accounts for transfers from the Capital Improvement Grants Program Administration fund budget account 4155 to pay for salaries in category 01 and indirect costs in category 14 for PCN 509 and PCN 571 based on anticipated staff work levels. E255	INFRASTRUCTURE, ENERGY & ENVIRONMENT The purpose of this decision unit is to increase base year travel authority within fiscal years (FY)2022 and FY2023 due to COVID-19 shutdowns that occurred in the base year. Funding comes from federal grants and service fees. Service fees are required to be used for program activities per Nevada Revised Statutes (NRS) 445A.120. The Clean Water and Drinking Water State Revolving Fund Programs are required to travel as part of its normal operations. Current construction projects require periodic site visits to verify compliance to programmatic conditions. Future projects may require on-site meetings to walk the construction site, evaluate any potential environmental impacts that need to be addressed, and meet with administrative staff to work out loan details. It is also a requirement of the programs federal grants that Nevada participate in training and professional development activities integral to the effective implementation and management of the programs. This includes attending conferences and trainings sponsored by EPA and the Council of Infrastructure Financing Authority (CIFA). In base year 2020, the COVID-19 impacted the programs abilities to perform is required site visits and attend required summits. The attached support highlights trips that would have been taken to perform site visits on current projects had the Coronavirus not prevented travel. This enhancement will allow enough authority to resume travel under normal operations for planned projects within FY2022 and FY2023. Expenses are split between category 16 (service fees) and category 18 (federal grants) as noted on the attached worksheets. [See Attachment]

E256 INFRASTRUCTURE, ENERGY & ENVIRONMENT

The purpose of this decision unit is to request additional authority within fiscal years (FY)2022 and FY2023 for sub-grant services to provide technical assistance to drinking water systems. Funding comes from drinking water grant funds (100%).

The Drinking Water State Revolving Fund Program has requirements that systems maintain technical, managerial, and financial capability, or capacity, to operate their system. Nevada provides sub-grants to vendors who work with the systems to help them build capacity and understand their legal requirements in owning and operating a water system in Nevada. The Drinking Water Capitalization Grant has funds specifically set-aside to pay for this purpose.

Technical capacity development includes assisting systems to perform assessments and sampling to comply with safe drinking water standards and asset mapping. Managerial capacity development includes assisting systems to create operations and maintenance manuals, emergency response plans, cross-connection control plans, and updating water conservation plans. Financial capacity development includes helping systems assess water rates, develop fiscal sustainability plans (or asset management plans), understand internal controls, and establish budgets.

In addition to the capacity development work directly provided to drinking water systems, the capacity development program also supports training and outreach across every water system in the state. Training includes required operator certification training and governing board training. Outreach is meant to support workforce development that helps build a workforce of operators, managers, and system staff in the water industry.

In base year 2020, the program changed its approach to working with sub-grantees to broaden the scope of assistance to help meet water system needs. The program anticipates an increase in activities in future years as operations begin to return to normal following the Coronavirus shutdown in base year. An attached worksheet is included that shows the average cost of completing assistance in base year and the number of planned activities in each fiscal year to support the values in this decision unit.

E257	INFRASTRUCTURE, ENERGY & ENVIRONMENT The purpose of this decision unit is to request authority within fiscal years (FY)2022 and FY2023 for contract services to provide technical assistance to wastewater systems. Funding comes from service fees (100%). Service fees are required to be used for program activities per Nevada Revised Statutes (NRS) 445A.120. These funds are authorized for this purpose and readily available. The Clean Water State Revolving Fund Program has a requirement for systems to prepare a fiscal sustainability plan, or asset management plan, for all projects that are: 1) receiving principal forgiveness funding, and 2) are constructing a treatment works or any component to a treatment works. Fiscal sustainability plans, or asset management plans, evaluate the systems infrastructure, including the age of the infrastructure, its replacement cost, the criticality of the asset in the event of failure, develops a maintenance schedule to ensure the full useful life of the asset is achieved, and reviews the level of service a community wishes to provide to its users. Wastewater systems have a responsibility of ensuring health of the public and protection of the environment. The first step in preventing sewage spills, or causing health concerns to communities, would be understanding the condition and need to repair and replace wastewater infrastructure components. Currently, the Clean Water State Revolving Fund Program does not have a mechanism to provide assistance by nonprofit associations who are trained in preparing these reports. This enhancement would allow the program to establish a contract for services from a nonprofit entity to prepare fiscal sustainability plans and/or asset management plans, free of charge, for wastewater systems seeking funding from the program. A similar requirement exists in the Drinking Water State Revolving Fund Program. Technical Assistance providers performing this work under that program have been averaging \$17,500 per report. The amount requested in this enhancement would allow for up to (2) reports per year. [See Attachment]

	<p>This decision unit is to establish budgetary authority to receive fees from budget account (BA) 3198 through BA 4155 for salary and benefit expenses of the professional engineer to review plans for projects seeking funding from the program. This is a companion decision unit to E258 in budget account 4155.</p> <p>BA 4155 administers the Capital Improvement Grants Program. That budget account does not directly fund any staff positions so the program must rely upon other positions to perform program administration and project reviews. BA 3189 funds a full-time professional engineer who is charged with reviewing drinking water projects that seek funding from the Capital Improvement Grants Program. This enhancement would specifically provide funding for work the professional engineer performs in reviewing and monitoring project design, construction, and compliance to program requirements for projects that are anticipated within the FY22-23 biennium.</p> <p>Reasonable fees have been assessed and collected for carrying out the provisions of NRS 445.800 to NRS 445.955. Part of those provisions include the Legislature's declaration of state policy, "It is the policy of the State to provide for water which is safe for drinking and other domestic purposes and thereby promote the public health and welfare." (NRS 445A.800) The Capital Improvements Grant Program is a means that public water systems may utilize to help them meet their statutory requirements. Using fees for this purpose is consistent with the Division of Environmental Protections purpose for the fees and reduces the need for reliance on tax-exempt bond proceeds for administration purposes.</p> <p>Funds are needed to be transferred to BA 4155 prior to being transferred to BA 3189 so BA4155 can properly account for the activities associated with the program in accordance to accounting principles and internal controls. A companion decision unit E258 exists in BA 4155 to receive these funds and subsequently transfer them to this budget account to offset salary and benefits associated with the professional engineer. Payroll worksheets are attached for further support.</p> <p>[See Attachment]</p>

E712	EQUIPMENT REPLACEMENT				
	The purpose of this decision unit is to request authority in fiscal year (FY)2022 to purchase a vehicle that would replace the agency's current vehicle. Funding comes from federal grants (55%) and service fees (45%) that are available for this purchase. Service fees are required to be used for program activities per Nevada Revised Statutes (NRS) 445A.120.				
	The Clean Water and Drinking Water State Revolving Fund Programs are required to travel as part of its normal operations. Current construction projects require periodic site visits to verify compliance to programmatic conditions. Future projects may require on-site meetings to walk the construction site, evaluate any potential environmental impacts that need to be addressed, and meet with administrative staff to work out loan details. Many of the trips involve the use of a state vehicle to visit remote locations all across Nevada, depending on the systems and projects that are currently being funded.				
	The agency currently has a 2009 Chevy Tahoe that is over 10 years old with 159,037 miles. The vehicle has been used in rural areas and has endured extreme wear and tear. The current condition of this vehicle is detrimental to the agency because: 1) it is costly to upkeep and repair, 2) it is large and has poor fuel economy, and 3) may pose a safety risk to employees who travel in remote rural areas to carry out their responsibilities.				
	This request will allow the agency to purchase an all-wheel drive vehicle that would be safer for traveling to remote locations during any season within the year, save gas and maintenance costs, and reduce carbon emissions which protect the environment.

3601	LICENSES AND FEES This revenue is generated by the collection of a fee for furnishing a copy of a death certificate originating in a participating county for the support of the county coroner office under NRS 259.025. The funds collected are disbursed to participating counties under special use category 10. See attached for revenue projections. [See Attachment]	65,571	15,624	65,571	65,571
3605	OFFICE OF VITAL RECORD FEES This revenue is generated by the collection of fees pursuant to NRS 440.700. The revenue is used to support the Office of Vital Records. A portion of the fees collected are distributed to the Children's Trust Account, the Review of Death of Children Account pursuant to NRS 440.690 and the Grief Support Trust Account pursuant to SB 355. See attached for revenue projections. [See Attachment]	1,057,110	1,132,027	1,120,879	1,120,879
3801	FED NCHS CONTRACT This revenue is provided through a contract agreement for reimbursement by the National Center for Health Statistics (NCHS). NCHS is mandated to produce national vital statistics based on annually collected data from the nation's birth, death, and fetal death records. The contract agreement reimburses the Office of Vital Records for the state data in the format specified for NCHS. Indirect cannot be charged to this contract. Cat 12 is the special use category for these funds. [See Attachment]	506,209	398,560	502,367	502,367
3802	SOCIAL SECURITY ADMIN FEES This revenue is provided through two contract agreements for reimbursement by the Social Security Administration (SSA) for all births occurring in the State of Nevada for the purpose of assigning social security numbers to newborns through the Enumeration at Birth (EAB) process and for the registration of deaths occurring in the State of Nevada through the Electronic Death Registration (EDR) process. Revenue amounts are both contracts combined. Cat 13 is the special use category for these funds. [See Attachment]	148,846	248,218	192,365	192,375
3803	CONSUMER PRODUCT SAFETY COMMIS This revenue is provided through a contract agreement for reimbursement by the Consumer Product Safety Commission (CPSC). The objective of the death certificate project is to provide CPSC with timely information of deaths caused by or related to consumer products under the jurisdiction of the CPSC. The collection of such data is essential to analysis of the hazards of particular products, and in evaluating trends on product related deaths. Cat 14 is the special use category for these funds.	500	500	500	500

E550	TECHNOLOGY INVESTMENT REQUEST				
	This request funds the upgrade of the cloud-based Vital Records System to manage documents, processes and reporting requirements related to statewide births and deaths. The current Vital Records System (VRS) requires a PC Client-Side installation that is extremely difficult for end users to install successfully requiring Office of Vital Records (OVR) technical assistance. The current VRS is outdated and difficult to maneuver. Users experience great difficulty with logging into the system, and frequently are unable to log in at all.				
	There are over 2,000 users statewide that utilize the system. The limitation of using a Windows based PC with Microsoft Internet Explorer browser makes it difficult for many certifiers to complete a record in a timely manner. This causes many end users who have Apple devices and want the ability to use Safari or Chrome browser constant frustration. In addition, there is no mobile device access allowed in the current application. This is necessary to support physicians in the field who often move from facility to facility or when they are working away from their desktop PC.				
	The Point of Sale (POS) module is very complex and cumbersome. This slows down the process when dealing with the public and needs to be simplified to improve customer service. Currently Clark and Washoe Counties do not use the system and have developed their own POS solutions.				
	The various event modules require major overhauls to the functionalities. Often a record's status displays incorrect which causes a record to not appear in the correct work queue for processing. OVR is notified by the users regarding the errors and OVR must do a manual search to find it. Even though there are checks and balances, the current system will allow a record to be registered with a major error; a date of birth or death in the future as an example.				
	Without this upgrade, the OVR will not be able to meet the National Center for Health Statistics goal for all states is to receive 80% of all completed death records data within 10 days of death. [See Attachment]

E805	CLASSIFIED POSITION CHANGES This request reclassifies five (5) current Administration Assistant I positions to Administrative Assistant II positions. The Office of Vital Records (OVR) experiences high turnover in full time employees (FTEs). There are 13 FTEs in the Bureau, of which 10 FTEs are Grade 29 or below. Frequently OVR staff are promoting into higher pay grades within the State when the opportunity becomes available, creating turnover. This has impacted the ability of OVR FTEs to complete increasing demands from constituents. Therefore, contractor positions have been utilized to fill these demands. These positions provide training and orientation for new clerical staff. Responsibilities include processing of payments, receiving and processing birth and death record applications and requests for the Office of Vital Records, eligibility determinations based on established criteria, laws and regulations, contacts applicants and various entities such as courts and social security for additional information,

	<p>The Division of Public and Behavioral Health (DPBH), Office of Vital Records (OVR) is part of a Division reorganization to streamline programs and processes, enabling cost savings and efficiencies to be realized. As a result of the reorganization, many fiscal duties such as establishing, maintaining and monitoring financial and statistical information related to revenue and registrants fees, that were historically the responsibility of accounting and management analyst positions, have been transferred to the Administrative Assistant I (AA I) positions in the Program. These positions also have had increased tasks assigned to provide administrative support services to the program's technical, supervisory and management staff, as well as, the public and regulated community. The OVR AAI's are required to practice complex agency and program regulations, requirements, policies and regulation timelines. These tasks are currently being conducted at an increased independent level of responsibility and decision making. The incumbents will be utilizing the web based Netsmart system to process applications, registrations and electronic fee payments.</p> <p>These positions work independently without general supervision and assesses more effective and efficient ways to conduct OVR business. These positions develop new policies and procedures, to ensure consistency and compliance with NAC 440. These positions review applicant documents for program compliance, identifies discrepancies, and resolves problems. These positions workloads are diversified and intensified to meet program demands.</p> <p>The OVR continually changes to meet new health, safety and increased security requirements required by the National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC), technology development and changing standards and recommendations. Budget Account: 3193 DCNR - DEP WATER QUALITY PLANNING

The Bureau of Water Quality Planning (BWQP) is responsible for implementing programs to meet requirements of the Clean Water Act and Nevada water quality statutes and regulations that protect and/or improve the chemical, physical, and biological integrity of the waters of Nevada. Bureau staff conduct water quality testing; bio-assessment and physical habitat monitoring; develop and/or revise water quality standards for adoption by the State Environmental Commission; develop the impaired waters list; develop Total Maximum Daily Loads (TMDLs) and/or watershed implementation plans to address water quality impairments; issue certifications to ensure that proposed discharges meet applicable effluent limitations and water quality standards; assist in the development and review of area-wide waste management plans; mitigate the adverse effects from nonpoint source pollution through implementation of water quality improvement and public education projects; promote intra and inter-agency program coordination; and provide technical assistance. This budget account is funded solely by federal grants. Fees collected through the Bureau of Water Pollution Control National Pollutant Discharge Elimination System permit programs are used as the state match to the Federal Clean Water Act, Section 106 grant. Statutory Authority: NRS 445A.300 through 445A.730.

Specialized equipment for water quality monitoring. The current field monitoring equipment has reached a point where maintenance is required more frequently and the reliability of measurements is not assured due to each instrument's inability to maintain calibration.					
When conducting stream and lake monitoring and sampling, BWQP measures and records water field information such as dissolved oxygen, temperature, pH and conductivity of the water being sampled. This is done with advanced field instrumentation consisting of a hand-held meter equipped with different sensors (probes) to measure and record the desired water quality parameters. Multiple probes are required; one (1) for measuring temperature, pH and conductivity and one (1) for measuring dissolved oxygen.

Budget Account: 3195 HHS-DO - GRANTS MANAGEMENT UNIT

The Office of Community Programs and Grants consolidates the function and management of grant programs that pass funds through to community level and state sub-recipients. This unit was created to ensure the standardization of procedures, simplification of accounting, and co-location of staff. The efficiencies realized allow the department to use fewer funds for administrative purposes and to pass more funds to grantees providing direct services. Grantees have also benefited from the standardized procedures used to request funding.

E904	TRANSFERS TO BA 3204 FROM 3195				
This request transfers a part-time Social Services Specialist 2 position (PCN 0022) and related costs from the Grants Management Unit budget account 3195 to the Office of Consumer Health Assistance budget Account 3204. Transferring Nevada 2-1-1 to the Office of Consumer Health Assistance and then transferring to the Division of Aging and Disability Services will complement the array of consumer support and advocacy provided within ADSD. Creating a system that provides consumer support that includes; basic information and referral, consumer advocacy, ADSD Resource Centers, Consumer Health care Ombudsman, Long-Term Care Ombudsman and protective services. This will allow the division and it's community partners to utilize 2-1-1 database, enhance consumers ability to access needed information and provide data that will assist ADSD to improve service coordination across the aging and disability networks.

Budget Account: 3197 DCNR - DEP SAFE DRINKING WATER PROGRAM

The Bureau of Safe Drinking Water (BSDW) implements the Public Water System Supervision Program (PWSSP) and the Laboratory Certification Program (LCP). The PWSSP is authorized under the federal Safe Drinking Water Act (SDWA) and maintains primacy for the State of Nevada. State implementation of the PWSSP ensures Nevada's public water systems comply with state and federal drinking water standards by enforcing the sampling, monitoring and National Primary Drinking Water standards, including requirements for water quality, surface water treatment and corrosion control. The program assesses water sources (including identification of potential contaminant sources); assists communities and water systems in developing and implementing source water protection strategies; conducts sanitary surveys; certifies the qualifications of public water system operators; and requires public notification when systems are out of compliance. The bureau also reviews engineering plans for public water systems and the subdivision of land. Additionally, PWSSP provides training, information transfer, and regulatory update presentations at meetings of water industry associations. This program is funded by federal grants and fees. The LCP produces data used in regulatory decision-making by division programs in Safe Drinking Water, Water Pollution Control, Mining Regulation and Reclamation, Waste Management, and Corrective Actions. Pursuant to NRS 445A.428, 445A.863, and NRS 459.501, laboratories that perform analyses to meet requirements of the Clean Water Act, SDWA, and the Resource, Conservation and Recovery Act must be certified by the State of Nevada. The LCP program ensures that analyses are conducted according to Environmental Protection Agency (EPA) and state approved methods with accurate and reproducible results. This program is funded by fees. Statutory Authority: NRS 445A.800 through 445A.955, 445A.300 through 445A.730, and 459.400 through 459.600.

3502	FED EPA MULTIPURPOSE GRANT The Multipurpose Grant funds will support the Bureau of Safe Drinking Water to sample drinking water in schools, analyze for lead and replace fixtures to reduce lead exposure. This revenue is tied to expenditures in special use category 15. [See Attachment]	1,758	0	1,758	1,758
3505	FEDERAL RECEIPTS-E The Water Infrastructure Improvement Act (WIIN) grant will support the bureau to compliment the Schools Project in Nevada to address childcare facilities. This will enable the bureau to provide resources to childcare facilities where an elevated lead level is discovered. This will include the prioritization of facilities serving younger children (ages 6 and under), underserved and low-income communities, and facilities that are older and more likely to contain lead plumbing. This revenue is tied to special use category 20. The grant is scheduled to expire during fiscal year 22. No funds are being budgeted for fiscal year 23 [See Attachment]	0	0	0	0
3559	FED EPA PWSSP GRANT The purpose of the Public Water System Supervision Program (PWSSP) Grant program is to protect public health by ensuring public water systems provide safe drinking water through compliance with the national primary drinking water regulations. Bureau of Safe Drinking Water will utilize this grant for implementation activities such as regulation adoption, regulation implementation, enforcement, data management, etc. This revenue is tied to Categories 01, 10, and 14. 	This decision unit is requesting authority for travel related to the Source Water Protection Program and is integral to the success of the new focus areas in Clark and Lincoln counties. The travel is related to the implementation of CETS#23278 to implement the Integrated Source Water Protection Program. In FY20, contracted work was performed in Washoe County, which did not require in-state-travel funds travel. The new focus area will require travel to Las Vegas to work with Clark and Lincoln Counties. [See Attachment]

	This decision unit is requesting authority for travel that was not able to be included in fiscal year 2020 base due to COVID-19 travel restrictions. This enhancement is being requested to supplement the Bureau of Safe Drinking Water (BSDW) fiscal year (FY) 20 base authority for Out of State Travel, in category (CAT) 02, In-State Travel for special use CAT 11 and 16, and the Out of State training for CAT 11. In early March, the Bureau of Safe Drinking Water (BSDW) started a work program to request an increase for travel and training authority in category (CAT) 11 because a shortfall was foreseen. The work program was canceled once the COVID-19 travel restrictions were implemented. These travels will allow the Safe Drinking Water Programs to carry out its mission which is to protect public health and the environment by providing oversight, guidance, and support, while fostering collaboration with safe drinking water partners. E907 TRANSFER DU 226 FROM BA 3145 TO BA 3203

This decision unit transfers two Biostatistician II positions from Children, Youth & Family Admin, budget account 3145 to HHS-HD Biostatistics & Epidemiology, budget account 3203.

State of Nevada - Budget Division
 Line Item Detail & Summary
 2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This requests transfers two new Biostatistician II positions to help the Division of Child and Family Services (DCFS) handle the increasing need for data and statistics to report to multiple partners, including the federal government. One Biostatistician will be dedicated to assisting the juvenile justice concerns (Juvenile Justice program and the Victims Services unit), while the other Biostatistician position will be dedicated to assisting the Children's Mental Health program. Both positions will be responsible for performing complex mathematical and statistical analysis on multiple complex, dynamic DCFS databases, as well as linking datasets to conduct population-based studies and prepare statistical reports, forecasts and models. Both positions will work with caseload data that is needed for multiple federal and local reports. All the data collected by these two positions will not only be used for federal reporting, but to also tracking efficiencies in agency services, reduction of response times, and overall agency performance. E908 TRANSFERS ONE TEMP CONTRACTOR AND COSTS TO BA 3203

This request transfers one temporary contractor and associated costs to budget account 3203.

This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

	This request transfers one Management Analyst 2 from the Department of Health and Human Services Grants Office of Consumer Health Assistance, budget account 3204 to Data Analytics, budget account 3203.				
	This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

Budget Account: 3204 HHS-DO - CONSUMER HEALTH ASSISTANCE

The Office of Consumer Health Assistance, which includes the Bureau of Hospital Patients, a Workers Compensation Program, and the Office of Minority Health, provides a single point of contact for consumers statewide, including members of minority groups and injured workers regarding health care issues. The objective is to assist them in understanding their rights and responsibilities under various Nevada healthcare related laws and health care plans, including industrial insurance policies. In addition, the office disseminates information through outreach activities including counseling, education and advocacy to increase awareness of and access to health care services. Statutory Authority: NRS 223.550 and NRS 232.467.

E901	TRANSFER BA 3266 APS UNIT INTO BA 3204 This request transfers the Adult Protective Services and Long-Term Care units consisting of 104 positions into the newly formed Consumer Health Protection Unit (formerly called the Office of Consumer Health Assistance). Last biennium the agency transferred the federal grant programs from budget account 3151 to 3266 in order to make a more transparent administrative only budget. At that time, the agency needed to determine how best to separate the programs into self-contained budgets. That review process has resulted in a proposed split of budget account 3266 into two program types: Home and Community Based Services (HCBS) and Advocacy programs. This will be accomplished by transferring the Long-Term Care Ombudsman (LTCO) and the Adult Protective Services (APS) programs into a new budget called Community Health Advocacy Programs. The purpose of this new budget is to focus on advocacy over direct grant services. If budget account 3204 - Office of Consumer Health Assistance is transferred to this agency, LTCO and APS will be transferred to this budget to keep similar programs together. The main benefits of creating budgets that have similar goals is greater transparency and ease of tracking and reporting. For budgeting, tracking, and reporting the ability to contain costs for similar activities in a single budget makes it clear both internally and to the public the amount of resources dedicated to specific activities.

	This request transfers the Title III-B portion of the Long-Term Care Ombudsman (LTCO) salaries as an inter-agency transfer from budget account 3266 into the new budget account 3204. E501 is being used in budget account 3266 to adjust the revenue from RGL 3415 to special use category 09, general ledger 9041. The Title III award will still be housed with BA 3266, the funds will be expended using an inter-agency transfer. BA 3204 will need to adjust the revenue on their end using a corresponding E501 to show as an incoming inter-agency transfer revenue GL (TBD).

E902	TRANSFERS BA 3151 INTO BA 3204 This request transfers the Adult Protective Services and Long-Term Care units consisting of one Administrative Assistant 1 position from the ADSD Federal Programs and Administration budget account 3151 to the Office of Consumer Health Assistance budget account 3204. Last biennium the agency transferred the federal grant programs from budget account 3151 to 3266 in order to make a more transparent administrative only budget. At that time, the agency needed to determine how best to separate the programs into self-contained budgets. That review process has resulted in a proposed split of budget account 3266 into two program types: Home and Community Based Services (HCBS) and Advocacy programs. This will be accomplished by transferring the Long-Term Care Ombudsman (LTCO) and the Adult Protective Services (APS) programs into a new budget called Community Health Advocacy Programs. The purpose of this new budget is to focus on advocacy over direct grant services. If budget account 3204 - Office of Consumer Health Assistance is transferred to this agency, LTCO and APS will be transferred to this budget to keep similar programs together. The main benefits of creating budgets that have similar goals is greater transparency and ease of tracking and reporting. For budgeting, tracking, and reporting the ability to contain costs for similar activities in a single budget makes it clear both internally and to the public the amount of resources dedicated to specific activities. The Administrative Assistant 1 position transferred from budget 3151 to 3204 provides support exclusively to the APS and LTCO units. It is appropriate to move this position into the new budget with the APS/LTCO staff as it is a direct support and cost to those activities. This decision unit is related to the E901 decision unit in budget 3266.

E904 TRANSFERS TO BA 3204 FROM 3195
 This request transfers a part-time Social Services Specialist 2 position (PCN 0022) and related costs from the Grants Management Unit budget account 3195 to the Office of Consumer Health Assistance budget account 3204.
 Transferring Nevada 2-1-1 to ADSD will complement the array of consumer support and advocacy provided within ADSD. Creating a system that provides consumer support that includes; basic information and referral, consumer advocacy, ADSD Resource Centers, Consumer Health care Ombudsman, Long-Term Care Ombudsman and protective services. This will allow the division and it's community partners to utilize 2-1-1 database, enhance consumers ability to access needed information and provide data that will assist ADSD to improve service coordination across the aging and disability networks.

	This request transfers the reclassification of 34 Social Worker 2 positions and 8 Social Work Supervisor 1 positions from the Home and Community Based budget account 3266 to the Office of Consumer Health Assistance budget account 3204.				
	The Nevada Legislature passed legislation expanding Elder Protective Services to Adult Protective Services effective July 1, 2019. This expansion provided protective services to all vulnerable adults age 18 and older. Vulnerable adults include those with serious mental illness, intellectual and developmental disabilities, physical disabilities as well as cognitive impairments. The current class specification does not accurately reflect this change or many of the programmatic changes that have occurred since the last class specification update. This includes activities such as statutory authority to convene and conduct multi-disciplinary meetings, mental health capacity evaluations, geriatric psychiatric assessments, and guardianship activities.

This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

Budget Account: 3206 HHS-ADSD - COMMUNICATION ACCESS SERVICES

The Communication Access Services (CAS) program provides communication access to Nevadans who are deaf, hard of hearing or speech impaired. The program serves Nevadans of all ages and backgrounds, including late-deafened and older citizens. Programs include Relay Nevada, providing access to phone services; Communication Access Service Centers, providing information and education relating to language acquisition, access to education, employment, healthcare and social services, and assistive technology; Sign Language Interpreter and Communication Access Real Time Translation (CART) Registry, providing information on interpreters and CART providers who meet the minimum qualifications in this State; and Interpreting and Mentorship, providing sign language interpreting for the executive, judicial and legislative branches of state government, as well as mentoring for registered sign language interpreters to enhance their skills in providing quality interpreting services.
Statutory Authority: NRS 427A.797; NRS 656A; NAC 656A

4203	PRIOR YEAR REFUNDS Refunds from prior years from Deaf Centers of Nevada; this subgrantee was found to have used funds on unallowable costs during an audit. The findings were accepted by the subgrantee and a repayment plan was put in place. The attached shows the schedule of the repayment plan as well as amounts to be repaid. Funds are balanced forward at the end of the fiscal year. [See Attachment]	14,054	0	17,628	1,482
4275	TELEPHONE SURCHARGE Pursuant to NRS 427A.797(3) a surcharge of not more than 8 cents per month is imposed on each access line of each customer to the local exchange of any telephone company providing such lines in this State and on each personal wireless access line of each customer of any company that provides wireless phone services in this State. This surcharge is used to fund the program. The surcharge rate is set by the Public Utilities Commission (PUC) and is collected by the PUC then transferred into this budget account. The PUC does not provide any revenue projections for the surcharge. Revenue projections are based off the max rate allowable under NRS 427A.797 of \$0.08 per line multiplied by 39,227,009 million lines (FY20 actuals) totaling \$3,138,161 per year.	2,522,304	2,600,651	3,138,161	3,138,161

	This request funds interpreters and communication access real time translation services for the deaf and hard of hearing. The ADA requires that accommodations are made for those individuals who need the services of an interpreter or CART. Although the budget was not fully expended in the base budget year of SFY20, this GL budget must remain in place to meet ADA requirements for Deaf and Hard of Hearing, including for the two deaf individuals employed within the CAS program, BA 3206. Additionally, ADSD has no specific ADA funding in any other budget account to provide funding for these federally required accommodations. SFY20 legislatively approved base budget = \$48,911. Actual spend was \$4,957. Projected spend for SFY 22 = \$29,224 and SFY23 = \$29,224 (Interpreter 4 hours per week @ \$78 per hour = \$16,224; CART 4 hours bi-weekly @ \$125 per hour = \$13,000; Total per SFY = \$29,224).

E275	ELEVATING EDUCATION				
	This request establishes a professional development mentoring program to support expanded programming for individuals who are deaf, hard of hearing and speech impaired. This budget enhancement will support improved access to communication services, particularly increasing the quality of interpreters in Nevada. Access to quality interpreters is critical to meeting the needs of people who are deaf and hard of hearing, which will be accomplished through increased mentoring and peer support. Access to quality sign language interpreting is vital for individuals who are deaf. Nevada has only one interpreter training program at the College of Southern Nevada, which offers both an associates and a bachelor's degree. Other institutions may offer coursework in American Sign Language (ASL); however, these courses do not prepare students to professionally provide interpreting services. Nevada State College offers a minor in ASL Interpreting within the Deaf Studies bachelor's degree program. Western Nevada College offers some coursework in interpretation but does not have a full academic program leading to a degree. Through expanding outreach and partnerships with higher education institutions that offer interpreter education coursework, CAS interpreters can provide consultative services on the development of new interpreter training programs, curriculum guidance, workshops outside of the curriculum on specific interpreting-related topics, and in-class guest lectures. Additionally, Nevada is one of only six states that require a minimum score of 3.0 on the national Educational Interpreter Performance Assessment (EIPA), while other states require a minimum of 3.5 or 4.0. Additionally, Nevada only has two interpreters certified in the state qualified to interpret in the legal setting and no Certified Deaf Interpreters (CDI) or Qualified Mental Health Interpreters (QMHI), leaving Nevada with a large gap for needs in specialized interpreting. Mentoring will lead to improved scores on these national assessments and benchmarks thus increasing the quality of interpreting available throughout Nevada. This request includes additional funding needed for professional development related to relay services, interpreting and mentoring, and the provision of mentoring services.

Budget Account: 3208 HHS-ADSD - EARLY INTERVENTION SERVICES

Early Intervention Services are provided to children from birth to three years of age who have known or suspected developmental delays in the areas of cognition, communication, physical development (including vision and hearing), social and emotional development, and/or adaptive skills as required by Part C of the Individuals with Disabilities Education Act. Services may include, but are not limited to service coordination; occupational, physical and speech therapy; vision and hearing services; specialized instruction; parent support; assistive technology; pediatric diagnostic evaluations; nutritional services; and family training and counseling. Services are primarily provided in the home, childcare and preschool settings, and/or Early Head Start programs. In collaboration with local hospitals, early intervention state programs provide follow-up developmental and pediatric services for hospital neonatal intensive care nurseries and follow-up hearing evaluations for the newborn hearing screening program. Early intervention personnel provide administrative and physician support for specialty clinics for children in the areas of genetic disorders, metabolic disorders, and craniofacial anomalies. Nevada Early Intervention Programs provide early intervention services in all of Nevada's 16 counties. Regional offices are located in Reno, Carson City, Winnemucca, Elko, Ely, and Las Vegas.

Budget Account: 3209 HHS - ADSD- AUTISM TREATMENT ASSISTANCE PROGRAM

Autism Treatment Assistance Program (ATAP) assists parents and caregivers with the cost of providing Autism-specific treatments to their child with Autism Spectrum Disorder (ASD). ATAP provides a monthly allotment to pay for on-going treatment development, supervision and a limited amount of weekly intervention hours based upon a child's individual treatment plan, age and income. Within ATAP policy guidelines, the monthly allotment is intended to help parents pay for treatment. ATAP only funds treatments that have been proven by research to be evidence-based, including Applied Behavioral Analysis, Verbal Behavioral, and Pivotal Response programs. Covered services include parent training; program development and supervision; daily intervention hours; and essential tools and equipment. ATAP may also fund speech, occupational and physical therapy when other resources do not provide coverage. ATAP also provides targeted case management to assist the family with the coordination of community-based services. Statutory Authority: NRS 427A.871 through 427A-8803.

	This request converts one full time contracted Program Officer III position to one State full time Health Program Specialist I position. The Immunization Program has employed a contracted Program Officer III for the past three (3) years. The position has been taking on increasingly more and more complex responsibilities, as it was originally created to support a time-limited, competitive award to work on an adult immunization special project. 	This request is part of a Department initiative to standardize and centralize data analytic staff in one budget account located in the Department of Health and Human Services Director's Office. A centralized data analytic team will streamline much of the tabular/descriptive work done by each respective analytic group, allowing more time to be spent on inferential statistics and predictive analytics. A centralized data analytic team will allow for more peer-to-peer development leading to a consistent quality of analytic products produced by the Department of Health and Human Services.

Section A1: Line Item Detail by GL

Budget Account: 3214 HHS-DPBH - WIC FOOD SUPPLEMENT

The Special Supplemental Food Program for Women, Infants, and Children (WIC) provides nutritious foods to support the diets of pregnant, postpartum and breastfeeding women and infants and children under age five who have been determined to be at nutritional risk. Participants receive food instruments for healthy foods, nutrition education/counseling, breastfeeding education and support, health screenings, information on or referrals to health care services related, but not limited to immunizations, prenatal care, family planning, and family support services available in their community. Federal Authority: Code of Federal Regulations, Title 7, Chapter II, Part 246, Subparts A through G.

No Match or Maintenance of Effort (MOE) required for any funding.

B000	BASE				
	This request continues funding for 19 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
3503	WIC BREASTFEEDING GRANT The Women, Infants and Children (WIC) Program receives federal funding from the United States Department of Agriculture (USDA) to support and maintain effective breastfeeding peer counselor programs for Nevada participants. Combining peer counseling with on-going breastfeeding promotion efforts has a significant impact on breastfeeding rates among Nevada WIC participants. This is an ongoing multiple year grant (CFDA #10.557). Because the grant period for this funding overlaps fiscal years, the revenue amount is based on what was awarded in Federal Appropriation Year 2018. No MOE or Match required. This revenue funds special use category 42. [See Attachment]	562,812	524,796	563,324	563,324
3569	FED USDA WIC PROGRAM The majority of revenue received to operate the Women, Infants and Children (WIC) Program is received from a federal grant from the United States Department of Agriculture (USDA)(CFDA# 10.557). The grant funding is typically received quarterly and at level funding based on the previous year expenditures, to which are added, operation adjustment funds and reallocations. It is anticipated that Nevada will receive level funding totaling a maximum amount of \$_____ in state fiscal year 2022 & 2023. No MOE or Match required. [See Attachment]	38,998,214	48,096,754	39,327,204	39,384,095

3590	FED SEBTC PROGRAM The Women, Infants and Children (WIC) Program receives federal funding from the USDA Food and Nutrition Service to fund the Summer Electronic Benefits Transfer for Children (SEBTC) program. This program will not be funded for the 2021-2023 biennium.	0	3,021,889	0	0
3592	FARMERS' MARKET NUTRITION PROGRAM The Women, Infants and Children (WIC) Program receives federal funding from the USDA Food and Nutrition Service for Farmers' Market Nutrition Program (CFDA #10.572). The federal grant supports activities associated with providing fresh fruits and vegetables to WIC participants through a collaboration with local farmers' markets. The funding is estimated at the current level for no increase in 2021-2023 biennium. No MOE or Match required. Expenditures tracked in special use category 50. [See Attachment]	112,343	344,117	99,116	99,116
4218	REBATE Rebate revenue is received through an agreement between the Women, Infants and Children (WIC) Program and the manufacturer of infant formula purchased by program participants. Funding in 2022-2023 biennium projected using a three year trend. This revenue funds category 10. [See Attachment]	18,554,650	15,447,034	18,554,650	18,554,650
4254	MISCELLANEOUS REVENUE Miscellaneous revenue is received from a Welch's juice rebate based on the number of WIC participants who purchase Welch's juice products. The 2021-2023 biennium is projected using a three year trend analysis. This revenue funds category 16. [See Attachment]	7,506	8,335	7,506	7,506

Section A1: Line Item Detail by GL

Budget Account: 3215 HHS-DPBH - COMMUNICABLE DISEASES

This program works with local health authorities and the public to prevent and control Human Immunodeficiency Virus (HIV)/Acquired Immune Deficiency Syndrome (AIDS) in Nevada. The program includes: HIV Prevention & Surveillance, Substance Abuse Prevention and Treatment (SAPTA) HIV Testing, Ryan White Part B, AIDS Drug Assistance Program (ADAP), and Housing Opportunities for People with AIDS (HOPWA). The HIV Prevention & Surveillance program includes community planning and the development of an annual comprehensive prevention plan; training and technical assistance to organizations that offer screening and testing; soliciting, receiving, reviewing and filing HIV/AIDS case reports, determining if case reports meet the HIV infection and AIDS case definitions, and maintaining a complete and accurate HIV/AIDS Surveillance database; providing much needed HIV testing at drug treatment centers/providers and linking those who test positive to HIV core medical and supportive services. The Ryan White program includes access to core medical and supportive services, access to medications and assistance with premiums and co-pays for health insurance to individuals infected with HIV/AIDS. The HOPWA program includes housing assistance and supportive services to reduce the risk of homelessness to those infected and affected by HIV/AIDS. Statutory Authority: NRS 441A and NRS 439.

	340B drug rebates received from pharmaceutical companies. This funding is used to support the Ryan White Care Act program. Expenditures associated with this funding are tracked in special use category 24. Rebate projection are calculated using a three year average. In the past rebates have increased due to the pharmaceutical manufacturers proprietary criteria in determining the amount of each rebate, making rebate revenue difficult to project; therefore, the average of 3 years rebate revenues will be used for the SFY 22/23 need (see attached 3-year average).
