Section A1: Line Item Detail by GL

Budget Account: 1000 OFFICE OF THE GOVERNOR

The supreme executive power of the state is vested in the Governor of Nevada and he shall see that all laws are faithfully executed. The Governor serves as chairman of the State Board of Examiners, Board of Directors for the Department of Transportation, Board of Prisons Commissioners, Board of Pardons Commissioners, and Executive Branch Audit Committee. The Governor also serves as the Commander in Chief of the state military forces. The Governor is required to communicate by message on the condition of the state, recommend any legislation he deems necessary, and submit a proposed executive budget at each regular session of the Legislature. Authority: Article 5 of the Nevada Constitution, NRS 223.

Budget Account: 1002 AG - EXTRADITION COORDINATOR

The federal Uniform Criminal Extradition Act requires governors of each state to return any person charged in another state with treason, a felony, or any other crime and who has fled from justice, and is subsequently apprehended in a state in which the crime was not committed. The Interstate Agreement on detainers covers inmates who are imprisoned in another state penal institution and wanted by the demanding state to stand trial on criminal charges. The Extradition Coordinator, who also serves as Nevada's Agreement Administrator, is responsible for ensuring the ends of justice are promoted by effectuating the return and/or temporary transfer of fugitives who have taken asylum in this state to the requesting states; effectuating the return and/or temporary transfer to Nevada of fugitives who have taken asylum in other states within the statutorily prescribed methods, procedures and time limits; recovering the monetary costs to which the state is entitled by virtue of this undertaking; and providing high quality continuing legal education on all aspects of extradition and detainer laws. Statutory Authority: NRS Chapters 178 and 179.

4209	RECOVERIES The receipts deposited into this revenue account represent restitution payments made by fugitives returned to Nevada. This restitution is the result of a court ordering reimbursement of extradition costs at sentencing. Our office relies on the money collected by Parole and Probation during the probationer's supervision. Once Parole and Probation no longer have the legal responsibility to enforce collection of these costs, collection falls on this division. To this end, this division has developed a collection process in order to attempt to collect unpaid costs associated with extraditions. NRS 176A.850 and 176A.870. The General Fund supports the remainder of this budget. The projection for this funding source was based on the 5 year average. [See Attachment]	58,019	56,182	56,311	56,311
4668	TRANSFER FROM CONSERVATION Cares Act funding authorized \$120,130.00 in funding to help offset increased expenditures caused by COVID travel restrictions and safety implementations for State of Nevada Employees. E279 ELEVATING EDUCATION

This request reestablishes funding for the STEM Advisory Council. The Council was created by NRS 223.640.

The Advisory Council on Science, Technology, Engineering and Mathematics shall:

(a) Develop a strategic plan for the development of educational resources in the fields of science, technology, engineering and mathematics to serve as a foundation for workforce development, college preparedness and economic development in this State;

(b) Develop a plan for identifying and awarding recognition to pupils in this State who demonstrate exemplary achievement in the fields of science, technology, engineering and mathematics;

(c) Develop a plan for identifying and awarding recognition to schools in this State that demonstrate exemplary performance in the fields of science, technology, engineering and mathematics;

(d) Conduct a survey of education programs and proposed programs relating to the fields of science, technology, engineering and mathematics in this State and in other states to identify recommendations for the implementation of such programs by public schools and institutions of higher education in this State and report the information gathered by the survey to the State Board of Education and the Board of Regents of the University of Nevada;

(e) Apply for grants on behalf of the State of Nevada relating to the development and expansion of education programs in the fields of science, technology, engineering and mathematics;

(f) Identify a nonprofit corporation to assist in the implementation of the plans developed pursuant to paragraphs (a), (b) and (c);

(g) Prepare a written report which includes, without limitation, recommendations based on the survey conducted pursuant to paragraph (d) and any other recommendations concerning the instruction and curriculum in courses of study in science, technology, engineering and mathematics in public schools in this State and, on or before January 31 of each odd-numbered year, submit a copy of the report to the State Board of Education, the Board of Regents of the University of Nevada, the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature;

(h) Conduct surveys for and make recommendations as deemed necessary to the Office of Economic Development and the Governor's Workforce Investment Board; and

(i) Appoint a subcommittee on computer science consisting of at least three members to provide advice and recommendations:

(1) The State Board of Education, the Council to Establish Academic Standards for Public Schools, the boards of trustees of school districts and the governing bodies of charter schools and university schools for profoundly gifted pupils concerning the curriculum and materials for courses in computer science and computer education and technology and professional development for teachers who teach such courses; and

(2) The Commission on Professional Standards in Education concerning the qualifications for licensing teachers and other educational personnel who teach courses in computer science or computer education and technology.

Budget Account: 1005 GOVERNOR'S OFFICE HIGH LEVEL NUCLEAR WASTE

The Agency for Nuclear Projects: oversees the federal high-level radioactive waste disposal program; participates in the U.S. Nuclear Regulatory Commission's licensing proceeding for the proposed Yucca Mountain nuclear waste repository; carries out independent technical, socioeconomic, and other studies; coordinates with state agencies and local governments on matters relating to radioactive waste and transportation; provides information to the Governor, Legislature, Commission on Nuclear Projects, the public, and any interested parties; and provides technical and policy support with regard to other federal nuclear waste activities in Nevada. Statutory Authority: NRS 459.009 - 459.0098.

	The WGA Agreement with the Agency for Nuclear Projects for FY 2019 has been approved and executed in the amount of \$150,000 for the period 7/1/18 - 6/30/19. The agency expects the same level of funding for each year of the FY 2018 - 2019 biennium. These funds are used for emergency response preparations, training, and operational oversight for shipments of transuranic waste through Nevada. They are part of a western regional program through WGA whereby U.S. Department of Energy funds are provided to WGA for the program. WGA passes these funds on to individual western states as part of a coordinated program. In Nevada, the Agency for Nuclear Projects is the designated lead agency, and we pass the funds on to participating state agencies through a series of interlocal agreements that specify the work to be accomplished in connection with the transuranic waste shipments program. The Agency uses a small amount of the funds to plan, oversee, and coordinate the program. Supports category 14 Gov Association.

E225	EFFICIENCY & INNOVATION This request is to annualize and enhance travel and training, as the Department was not operational all of the base fiscal year. The Department must develop and provide continuing legal education programs for attorneys who provide indigent defense services. NRS 180.430(2). Such training is proposed to include an annual conference wherein all attorneys providing indigent defense services can attend in person and obtain necessary training. The Department is responsible to obtain information from attorneys relating to caseloads, salaries and the manner in which services are provided. NRS 180.440(1). The Department must conduct on-site visits of court proceedings through the State to determine the manner in which indigent defense services are provided. Such observation will require a significant amount of travel from Carson City to the various counties within the State. The observations may be completed within hours or days depending upon the status of indigent defense in the county. If necessary, the Department may institute a corrective action plan under NRS 180.450. Such a plan will require an increased amount of travel to that county to work with the county commissioners, build the corrective action plan, put the corrective action plan in place, and ensure compliance with the plan. The Department serves as the Secretary of the Board of Indigent Defense Services. NRS 180.410(b). Such a position requires travel to the two main locales for meetings: Carson City and Las Vegas. E805	CLASSIFIED POSITION CHANGES				
	This request reclassifies a Management Analyst II to an Administrative Services Officer III commensurate with the duties of the position.				
	The methods for performing the work require significantly higher levels of knowledge or skill than indicated in the class specification.				
	The position is assigned responsibility for making program recommendations and decisions with a degree of authority and independence not typical of other positions in the Management Analyst II class.				
	The duties required to fulfill the needs of the Department are consistent with the duties set forth as an Administrative Services Officer III. These include: responsibility for all fiscal and budgetary duties for the Department's two budget accounts, budget preparation and management. As this is a new department, the incumbent used his knowledge, which was higher than an MAII, to develop and implement policies (which were not in existence before), develop procedures and internal controls for the Department and the Nevada State Public Defender. The incumbent will be required to assist with any financial audit, if ordered by the Board of Indigent Defense Services. NRS 180.320(1)(c).

E225	EFFICIENCY & INNOVATION This request funds the expansion of the office space for the Las Vegas Hearings and Appeals office in order to provide three more courtrooms to address caseload. The attached white paper explains the need for the additional courtrooms. Caseload has been growing over the past several fiscal years and as a result, it is taking longer for Appeals Officers to hear cases in a timely fashion. Moving the Hearings Officers to another floor of the building and renovating the space for addition courtrooms provides the Division the ability to serve its customers faster. Also, the Division needs an ADA-accessible courtroom and this enhancement provides for one. [See Attachment]

3870	CHARGE FOR SERVICES 6.7% of the total of this enhancement unit is charged to agencies with MOUs for Appeals Officer services. Estimates of each Non Workers Comp Agency's increased charges have been provided for illustration. However, the amounts in the document attached do not tie to the decision unit since this enhancement reflects only the rent increase from the current lease cost to the proposed larger lease footprint. Budget Account: 1017 DEFERRED COMPENSATION COMMITTEE

The Nevada Public Employees' Deferred Compensation Program (NDC), a division of the Department of Administration, is a voluntary tax-deferred supplemental state retirement plan (IRC 457(b)), which provides participants and their beneficiaries with a valuable supplement to their Nevada Public Employees Retirement System pension, Social Security and any other retirement savings. The program operates solely in the interest of plan participants and beneficiaries. The NDC, appointed by the Governor pursuant to NRS 287.325, provides governance and oversight of the investment management and plan design of the program, and strives to provide quality investment options at minimal costs while maintaining high standards of customer service to participating employees. The NDC's Executive Officer is appointed by and serves at the pleasure of the Director of the Department of Administration. The NDC Executive Officer and administrative staff serve as the primary support to the NDC Committee and manage the program contractors, communicate and educate qualified employees on the importance of supplemental savings through seminars, newsletters and other educational efforts, and are responsible for administering the program in accordance with established state and federal guidelines. All program expenses are paid from revenue generated by an established fully transparent fee structure adopted and directed by the NDC Committee and implemented through the program's contracted record-keeper.

<p>This enhancement requests to revise the Deferred Compensation plan from an "opt-in" program to an "opt-out" Automatic Enrollment Policy. A Bill Draft Request has been submitted (BDR 21A9202673) to support this enhancement.</p> <p>The Nevada Public Employees' Deferred Compensation Program (NDC) desires to implement an Opt-Out Automatic Enrollment Policy. The NDC Administration has conducted five-years of research and compiled data establishing and concluding that government entities across the Country that have executed and implemented an automatic enrollment process within their respective supplemental retirement plans, significantly improve overall financial wellness for individuals and beneficiaries and supports fostering a Child and Family Centered Government now and in the future. Additionally, in conducting Plan Compliance audits over the past six-years, the NDC Program received a significant deficiency as it related to our employee engagement in a State Sponsored Retirement Plan. Adopting and executing this Opt-Out Automatic Enrollment Program will ensure that we are able to attain compliance to governing regulation and adopted Plan governance policies.</p> <p>[See Attachment]</p>

Budget Account: 1020 LIEUTENANT GOVERNOR

The Lieutenant Governor is elected for a four-year term. The Lieutenant Governor is the highest officer in the state after the Governor and serves as Acting Governor when the governor is out of state or temporarily incapacitated.

The Lieutenant Governor's executive duties include serving as Chair of the Commission on Tourism, Vice-Chair of the State Board of Transportation, a member of the Board of the Governor's Office of Economic Development, and a member of the Executive Branch Audit Committee. Additionally, the Lieutenant Governor serves as Chair of the Advisory Board on Outdoor Recreation and as an appointed member to the Governor's Commission on Homeland Security. In FY 20/21, the Lieutenant Governor also served as the Chair of the Nevada Complete Count Committee for the 2020 Census.

The Lieutenant Governor is the only elected official with specific duties and powers in two branches of state government, the executive and legislative branches. When the State Legislature convenes for its biennial sessions, the Lieutenant Governor serves as the President of the Senate. Although the Lieutenant Governor is the Senate's presiding officer, they are not a member and cannot vote on any question or legislative measure except to break a tie. The Lieutenant Governor can pursue up to three legislative initiatives during regular sessions. Constitutional Authority: Article 5, Section 17 and 18; Statutory Authority: NRS 224.

E226	EFFICIENCY & INNOVATION				
This decision unit requests reclassification of a Bureau Chief position to establish a second position of Assistant Attorney General. In the Office of the Attorney General, the Chief of Staff and the Assistant Attorney General perform duties comparable of Deputy Directors at other state agencies. Reclassifying this position would provide a sufficient number of leadership positions at the Attorney General's Office and align the organizational structure in a similar manner as other state departments. The Chief of Staff is responsible for Administrative Services; the current Assistant Attorney General oversees the units which provide legal assistance to customer agencies, boards, and commissions; while the position being requested for reclassification manages regulatory functions such as criminal/fraud investigations, prosecutions, and consumer protection.

E300 SAFETY, SECURITY AND JUSTICE

This decision unit requests replacement of some standard glass doors and windows with ballistic resistant glass and frames for a few strategic areas of the Carson City office location. The Carson City office is located near the Capitol and Legislative buildings, while also having convenient access on the main street. Replacement is proposed for the main public entrance, one office, and one conference room used by the Attorney General.

E806	CLASSIFIED POSITION CHANGES				
	Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business.				
	This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045.				
	The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions.				
	Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent.				
	Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances.

	Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Current research for comparable pay in the legal field, demonstrates the state pay schedule for these positions at the Attorney General's Office is approximately 18 percent lower than industry standard. In addition to the fiscal impact of recruitment, onboarding, and training costs being invested and lost when someone resigns, there is additional strain of workload on remaining staff which also contributes to turnover, especially when other opportunities for similar work are available with higher levels of compensation.

Section A1: Line Item Detail by GL

Budget Account: 1031 AG - SPECIAL LITIGATION FUND

The Attorney General Special Litigation Fund was established to pay expenses directly related to investigation, preparation, prosecution, and defense of suits unknown at the time of budget preparation. Certain expenses are reimbursable by other state or county agencies. The Nuclear Waste Litigation Category covers any costs of litigation against the United States. The General Fund supports the General Litigation Category and the state portion of Nuclear Waste litigation. Statutory Authority: NRS Chapter 228.

The Litigation Division, directed by the Solicitor General, is responsible for managing all of the litigation in the Office of the Attorney General. The nature of litigation is such that the number, complexity, and cost of cases cannot be predicted. The Solicitor General monitors all litigation and discovery costs. This account pays for the depositions, independent medical examinations, expert testimony, and witness testimony required for a proper defense in many of these cases.

The Construction Law Counsel represents the Public Works Board. The Construction Law Counsel maintains a part-time office at the Public Works Board office and works closely with them to negotiate and administer contracts; develop regulations, policies and procedures; and coordinates with local government and state agencies. The Construction Law Counsel also works closely with staff to provide early intervention on potential disputes to promote early resolution where appropriate to avoid costly litigation.

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 1033 AG - WORKERS' COMP FRAUD

The Workers' Compensation Fraud Unit (WCFU) is responsible for the investigation and prosecution of all workers' compensation fraud committed in the State of Nevada by employers, employees (claimants) or medical providers against companies providing insurance and any of Nevada's self-insured employers. The WCFU is also the sole government agency responsible for prosecuting any fraud committed in the administration of workers' compensation. Statutory Authority NRS Chapters 228 and 616D.

The Insurance Fraud Unit has the primary statutory responsibility to criminally prosecute those who make, or assist someone else in making, material misrepresentations on applications for insurance and/or submit false claims for benefits with private insurance companies. Statutory Authority NRS Chapters 228.412 and 686A.2815.

	This revenue represents 85% of the fees collected from the industry by the Insurance Division which are transferred to this budget to cover Insurance Fraud Unit expenditures. Any unspent funds are carried forward to the next fiscal year. These funds support nine full time equivalent positions and the operating and program costs for the Insurance Fraud Unit. Current projections received from the Insurance Division estimate Insurance Fraud Assessments of \$1,142,500 will be received in each year of the 2017-2019 biennium. The Office of the Attorney General will receive 85% of the Assessments for a total of \$971,125 in each year of the 2017-2019 biennium. [See Attachment]

E806	CLASSIFIED POSITION CHANGES				
	<p>Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business.</p> <p>This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045.</p> <p>The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions.</p> <p>Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent.</p> <p>Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances.</p> <p>Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Budget Account: 1036 AG - CRIME PREVENTION

The mission of the Crime Prevention/Missing Children Unit is to assist in locating missing children and to protect children from exploitation. The unit operates as a center for public education of state and federal laws pertaining to missing, exploited, and victimized children. This unit provides assistance in judiciary education to law enforcement agencies. Statutory authority: NRS 432.150-220. This budget is supported by the General Fund appropriations and fees generated by the sale of the missing children license plates and civil penalties received pursuant to NRS 217.260 & NRS 228.280.

E806	CLASSIFIED POSITION CHANGES Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business. This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045. The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions. Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent. Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances. Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Current research for comparable pay in the legal field, demonstrates the state pay schedule for these positions at the Attorney General's Office is approximately 18 percent lower than industry standard. In addition to the fiscal impact of recruitment, onboarding, and training costs being invested and lost when someone resigns, there is additional strain of workload on remaining staff which also contributes to turnover, especially when other opportunities for similar work are available with higher levels of compensation.

Budget Account: 1037 AG - MEDICAID FRAUD

The Medicaid Fraud Control Unit (MFCU) is responsible for investigating and prosecuting medical provider fraud in the Nevada Medicaid Program; neglect or abuse of patients in Medicaid-funded medical facilities; and misappropriation of patient trust funds at medical facilities receiving Medicaid funding. The MFCU jurisdiction was extended by act of Congress in 1999 to allow investigation of fraud in all federally-funded health care programs and to investigate resident abuse or neglect in non-Medicaid-funded board and care facilities. (42 U.S.C. 1396b(q)). In addition to criminal prosecutions, the MFCU may also seek civil monetary penalties as set forth in NRS 422.580. Statutory Authority: NRS Chapters 228 and 422.

E806	CLASSIFIED POSITION CHANGES				
	Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business. This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045. The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions. Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent. Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances. Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Current research for comparable pay in the legal field, demonstrates the state pay schedule for these positions at the Attorney General's Office is approximately 18 percent lower than industry standard. In addition to the fiscal impact of recruitment, onboarding, and training costs being invested and lost when someone resigns, there is additional strain of workload on remaining staff which also contributes to turnover, especially when other opportunities for similar work are available with higher levels of compensation.

E225	EFFICIENCY & INNOVATION This decision unit requests a transfer of settlement funding from the Attorney General Court Settlement Fund to cover ongoing costs for 3 staff in fiscal years 2022 and 2023. These positions have been funded through a previous settlement, which is projected to be fully depleted prior to the 2021-2023 biennium. These positions provide essential work on cases and have been successful in obtaining significant settlement funding on behalf of the state. Without approval for continued funding of these positions, the office of the Consumer Advocate may not have sufficient resources to participate in cases which result in these types of settlements, placing awards for future settlement funding at risk. Demonstration of these efforts was evident when the Attorney General's Office was able to offer over \$12.7 million dollars of settlement funding to assist with the fiscal emergency, resulting from the impacts of the COVID-19 pandemic.

E806	CLASSIFIED POSITION CHANGES				
	Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business.				
	This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045.				
	The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions.				
	Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent.				
	Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances.				
	Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Current research for comparable pay in the legal field, demonstrates the state pay schedule for these positions at the Attorney General's Office is approximately 18 percent lower than industry standard.				
	In addition to the fiscal impact of recruitment, onboarding, and training costs being invested and lost when someone resigns, there is additional strain of workload on remaining staff which also contributes to turnover, especially when other opportunities for similar work are available with higher levels of compensation.

Budget Account: 1040 AG - GRANTS UNIT

This budget account was renamed in the state fiscal year 2017 - 2019 biennial budget from the Violence Against Women Grants to the Grant Unit. This budget account was created in state fiscal year 2006 for recording domestic violence grants. This account does primarily contain Violence Against Women Grants, however, the name change recognizes this budget account now records various different grants received by the Office of the Attorney General. Two Violence Against Women formula grants are received annually; the STOP Violence Against Women Formula Grant and the Sex Assault Services Program Grant. In addition to these grants this office seeks supplemental awards to fund various projects for the Attorney General's office.

3585	SAKI GRANT	565,243	1,044,075	1,043,147	1,043,147
	The Sexual Assault Kit Initiative supports jurisdictional reform of approaches to sexual assault cases resulting from evidence found in sexual assault kits (SAKs) that have never been submitted to a crime laboratory. SAKI is administered by the Bureau of Justice Assistance and aims to create a coordinated community response that ensures just resolution to sexual assault cases through (1) a comprehensive and victim-centered approach, (2) jurisdictional capacity building to prevent high numbers of unsubmitted SAKs in the future, and (3) supporting the investigation and prosecution of cases for which SAKs were previously unsubmitted. See attached awards for SAKI 16, SAKI 17, SAKI 18 and SAKI 19 Grants. [See Attachment]				
3586	VAWA SASP GRANT	218,599	537,932	537,785	537,785
	The SASP Grant is an annual pass through formula grant to all states and territories awarded under the federal Violence Against Women Act to address sexual violence and sex trafficking. Funding is directed and administered by the Office of the Attorney General and sub-granted out statewide to community based victim service providers. [See Attachment]				
3587	VAWA RURAL GRANT	0	176,019	0	0
	These funds continued the Nye, Mineral and Esmeralda Counties project which provided specialized prosecution and victim services within coordinated community response to VAWA crimes development.				
3588	ICJR GRANT	69,911	0	0	0
	Dual County (Lyon and Churchill) project to support victims of domestic, sexual, dating violence and stalking as well as holding the offender accountable. [See Attachment]

	The purpose of the scholarships is to provide financial support to victim service providers to attend and participate in the Victim Assistance Academy of Nevada (VAAN). VAAN is hosted annually to provide fundamental knowledge of victim rights and resources to best serve individuals who have experienced various types of victimization. Continuation of this expenditure is necessary to better ensure that our victim service providers are equipped with the tools and knowledge they need, in order to best serve our victims.

Budget Account: 1041 AG - COUNCIL FOR PROSECUTING ATTORNEYS

The mission of the Advisory Council for Prosecuting Attorneys is to develop and implement a training program for prosecutors in the state; to coordinate the development of policies for conducting criminal and civil prosecutions; and to coordinate proposed legislation for submission to the Legislature. Statutory Authority: NRS 241A.010 to NRS 241A.090. In 2001, the Legislature enacted Assembly Bill 548, which authorizes the Advisory Council for Prosecuting Attorneys to be funded with administrative assessments. See NRS 176.059. In addition, the council is authorized to receive grant funding pursuant to NRS 241A.090.

Section A1: Line Item Detail by GL

Budget Account: 1042 AG - VICTIMS OF DOMESTIC VIOLENCE

The Victims of Domestic Violence budget encompasses programs relating to domestic violence, sexual assault, stalking, batterer treatment, and the Office of Ombudsman for Domestic Violence. The Domestic Violence Ombudsman, in conjunction with the Batterer's Certification Committee, is responsible for standardizing and overseeing the treatment of domestic violence offenders, as well as, assisting in the statewide coordination of domestic violence services and training.

The purpose of the Office of Ombudsman is to prepare reports relating to victims of domestic violence, provide necessary assistance to victims, and provide education to the public related to domestic violence, including prevention assistance available to victims and treatment available for persons who commit domestic violence. The Ombudsman administers the account for district court assessments collected as a result of domestic violence convictions. The district court assessment monies can be utilized to assist in training law enforcement, prosecutors, the judiciary, and the general public in the area of domestic violence. District court assessments also support the Committee on Domestic Violence activities and have been partially used in previous years to support the Ombudsman position itself.

The purpose of the Batterer's Certification Committee is to adopt regulations to evaluate, certify, and monitor programs that treat persons who commit domestic violence; review and evaluate existing domestic violence training programs provided to peace officers; and make recommendations to the Commission on Peace Officers' Standard and Training. Statutory Authority: NRS 228.440 and 228.470.

	This decision unit proposes to align the Ombudsman position with other positions of the same title in state service.				
	The Victims of Domestic Violence Ombudsman was one of the first established with this title in state employment. Over the years, as the Ombudsman series has evolved and become a recognized skill set, additional Ombudsman positions have been created with higher and more comparable pay, while this particular position was never adjusted accordingly.

Budget Account: 1043 AG - FORFEITURE

The Attorney General Forfeiture budget account was created in state fiscal year 2016 to receive funding from the Department of Treasury Equitable Sharing Program. The funds are for any federal, state, or local law enforcement agency that directly participates in an investigation or prosecution that results in federal forfeitures. The participating agency may request an equitable share of the forfeiture net proceeds.

	National Mortgage Settlement funding has supported this program over the past several years. By nature, this settlement funding was received at a point in time, and expenditures over time continue to reduce the available funds. These funds are projected to be fully depleted during the 2021-2023 biennium. This decision unit requests general funds to replace the depleted settlement funding in order to continue costs for this purpose at the same level as BASE expenditures realized in fiscal year 2020.

E806	CLASSIFIED POSITION CHANGES				
	Legal Secretary positions within the Office of the Attorney General often perform a different type of work than Legal Secretary positions in other state agencies. This primarily stems from the fact that the Office of the Attorney General is a legal office by nature of its business. This decision unit requests reclassification of various Legal Secretary positions and is a companion to E806 in Attorney General budget accounts 1030, 1033, 1036, 1037, 1038, and 1045. The Office of the Attorney General is faced with multiple challenges in hiring and retaining staff for various Legal Secretary positions. Office turnover rate is consistently averaging 46.6 percent throughout the four year period ending December 2019, while average turnover in the legal field is only at 11.5 percent. Vacant positions are difficult to fill, not only obtaining interest for eligible candidates to be interviewed, but also offers for employment are often rejected, resulting in additional delays and even multiple recruitment postings for the same position in some circumstances. Resignations and rejected offers of employment most often state the reason is due to compensation for the type of work being performed. Current research for comparable pay in the legal field, demonstrates the state pay schedule for these positions at the Attorney General's Office is approximately 18 percent lower than industry standard. In addition to the fiscal impact of recruitment, onboarding, and training costs being invested and lost when someone resigns, there is additional strain of workload on remaining staff which also contributes to turnover, especially when other opportunities for similar work are available with higher levels of compensation.

Budget Account: 1047 AG - STATE SETTLEMENTS

The state received a \$5.4 million settlement in February 2017, which was placed in the Attorney General Office's non-executive settlement budget. The funds shall be used according to terms of the settlement. The Attorney General's Office has testified that \$3.5 million of the \$5.4 million in Volkswagen settlement funds, or other available settlement funds, could be used by the state. The Governor supported using \$1.2 million of those funds over the biennium to continue the Consumer Affairs Unit within the Department of Business and Industry (B&I), contingent on approval of Senate Bill (S.B.) 501, which extends the sunset date for the unit to June 30, 2019.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	The sudden and rapid increase in COVID-19 cases across Nevada began in March 2020, but cases had been increasing across the United States as early as January 2020. As the risk of community spread increased and the looming fiscal impacts became more apparent, the Secretary of State directed a moratorium on all but the most dire and essential purchase orders. This resulted in a number of important but non-essential purchases, including this one, going unfunded. The requirements identified by this purchase order remain valid and will require funding in FY22 and FY23 in order to increase the efficiency and effectiveness of the services offered by the Office of Secretary of State.

	This software product enables us to much more efficiently and quickly deploy patches and products throughout the agency than we were ever able to with our legacy product				
	A common recommendation of the DHS HIRT and RVA teams as well as the advice from countless agencies, seminars, security classes and industry best-practice is that we keep our patching as current as possible to enhance the 'hardened' nature of our systems. This PDQ product has shown to be of value to us in performing patching tasks

7045	STATE PRINTING CHARGES Nevada is a member of the Electronic Registration Information Center (ERIC), which is a multi-state consortium dedicated to improving the accuracy of each state's voter rolls and increasing access to voter registration for eligible citizens. Through ERIC, election officials in Nevada have been able to ensure the state's voter rolls are accurate and up-to-date while simultaneously growing the voter rolls by encouraging eligible but unregistered citizens to register to vote. Pursuant to the ERIC membership agreement, the Secretary of State must, prior to each federal general election send a postcard to at least 95 percent of the eligible or potentially eligible citizens who are not currently registered to vote in Nevada. Failure to complete this requirement is grounds for dismissal from ERIC. The cost of printing and mailing the eligible but unregistered (EBU) postcards cannot be covered by federal HAVA grant funds because activities related to voter registration drives are not allowable HAVA expenditures. Accordingly, the cost of the EBU postcards must be transferred out of BA1051 [See Attachment]	0	0	0	2,418

E238	EFFICIENCY & INNOVATION These five new FTE positions will work closely together to ensure compliance with all state and federal elections laws, campaign contribution regulations, ballot harvesting / voter assistance regulations, and other elections related regulatory information. The Compliance/Audit Investigator II positions will receive formal and informal complaints and will determine possible violations and jurisdiction while gathering background information. They will conduct interviews with complainants, witnesses, and others who believe an elections related crime has been perpetrated. They will gather and review evidence such as records, reports, bank statements, and other data related to the violation in order to develop trends or patterns and will prepare investigative reports on the case; outlining suspected violations, statements of facts, documentation of evidence, violations committed, and will prepare all for potential criminal prosecution as applicable. These actions include the analysis of campaign finance records, quarterly Contributions & Expenses (C&E) reports, and Financial Disclosure Statements (FDS) in addition to acting as a liaison to the Administrative Office of the Courts. The incumbents in the Criminal Investigator III positions will execute normal functions as required by the SOS Securities Division, but will receive special training on elections law in order to prepare them to conduct criminal investigations into elections violations. No evidence of elections fraud was discovered during the 2016-2018 election cycles. However, many voters expressed concerns about voter fraud to the SOS Elections Division prior to the 2020 election cycle. These concerns focused on the lack of personnel dedicated to the identification and investigation of these crimes. Similar concerns were also raised during the 32nd Special Session, in which Assembly Bill 4 (AB4) was passed to modify the state election prior to the 2020 general election. As of FY20, the Office of the Secretary of State has only one Compliance Investigator II (Grade 32) position available to conduct elections-related investigations which is done in addition to investigating business license and commercial recording compliance. These five new FTE positions will work closely together to ensure compliance with all state and federal elections laws, campaign contribution regulations, ballot harvesting / voter assistance regulations, and other elections related regulatory information. Budget Account: 1051 SOS - HELP AMERICA VOTE ACT (HAVA) ELECTION REFORM

The Help America Vote Act of 2002 (HAVA) was enacted by Congress and signed into law by President Bush on October 29, 2002. HAVA was a response to the irregularities in voting systems and processes unveiled during the 2000 Presidential Election. This program provides for improving the administration of elections for federal office; educating voters concerning voting procedures, voting rights, and voting technology; improving, acquiring, leasing, modifying, or replacing voting systems and technology for casting and counting votes; establishing and maintaining the statewide voter registration list; provisional voting; and improving the accessibility and quantity of polling places, including providing physical access for individuals with disabilities, providing non-visual access for individuals with visual impairments, and providing assistance to Native Americans and individuals with limited proficiency in the English language. Statutory Authority: NRS 293.442.

Budget Account: 1052 ADMINISTRATION - NSLA - ARCHIVES & PUBLIC RECORDS

The State Archives and Records Management administers comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and disposition of state government executive branch records. Archives and Records program staff offer technical support to the Nevada Supreme Court, Legislative Counsel Bureau, Tribal and local governments, and the Nevada System of Higher Education. The State Archives preserves and makes accessible records that document the history, organization, and functions of Nevada state government, its influence and impact on the lives of its people, and protection of their civil rights. The Records Management program prepares records retention schedules, enabling all state agencies to reduce their record storage holdings and related costs. This department also operates the State Records Center, providing high-capacity, low-cost, secure storage for over 53,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. In addition, Imaging and Preservation Services (IPS) provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies of state and local governments. The program ensures government documents are preserved in accordance with NRS 239.070, 378.255, and 378.280. The program provides services for scanning, printing, and storage of large format maps and plans onto either microfiche or roll film. The program develops and duplicates film for state and local government agencies and District Courts. Statutory Authority: NRS 378.230 through 378.320.

Budget Account: 1080 TREASURER - STATE TREASURER

The State Treasurer's Office directs the management of financial transactions conducted on behalf of the state. Responsibilities include: investing state and local government funds; issuing and servicing debt on behalf of the state; managing the state's Collateral Pool Program; and distributing interest earnings to statutorily approved funds and budget accounts. The office is also responsible for managing the state's banking relationships, drawing federal funds, and the distribution of state checks. Authority: The Constitution of the State of Nevada Article. 5. Executive Department. Sec. 19. Other state officers: Election and term of office; eligibility for office. Sub Section 1. Treasurer.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 24 employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
2501	APPROPRIATION CONTROL This funding source is revenue received from General Fund appropriations. General Fund appropriations are budgeted in accordance with the Treasurer's Office approved appropriations limit projected at the statewide level by the Economic Forum pursuant to NRS 353.228. [See Attachment]	621,451	621,451	602,119	602,382
2510	REVERSIONS This funding source reverts unspent funds to General Fund appropriations.	-49,187	0	0	0
3305	BANK ASSESSMENTS This funding source is revenue received from amounts proportionality assessed against the banks that are required to participate in the Collateral Pool Program for public deposits. Bank Assessment revenue is assessed in arrears based on the previous year's Collateral Pool expenditures. Bank assessment revenue is authorized under NRS 356.370. This revenue source funds salary costs in expenditure category 01 (investment staff), 24 (collateral pool administrative costs) and 89 (partial funding of the Attorney General's cost allocation). (Please note, if there are salary adjustments or AG cost allocation changes that occur during GOV Rec, the salary allocation and AG cost allocation figures will affect the calculation of the bank assessment and the revenue amount will need to be adjusted).	103,119	125,569	125,569	125,569
3841	RECORDS SEARCH CHARGE This funding source is revenue received for staff time and copy charges for public record requests. Except for documents identified by specific statute or regulation as exempt from a charge (i.e. meeting minutes), a fee is charged for large public record requests as allowed pursuant to NRS 239.055. The fee is determined based on \$20 per hour for staff time plus \$0.50 per copy. The Treasurer's Office does not anticipate receiving public record request fees in fiscal year 2022 and 2023.	0	0	0	0
4233	COST ALLOCATION REIMBURSEMENT - D This funding source is revenue received from an intra-agency salary cost allocation. The allocation is based upon statutory requirements and percentage of time Treasurer's Office staff perform essential functions over multiple budget accounts and/or programs. This revenue source funds expenditure category 01 (salary costs for allocated staff). [See Attachment]	918,123	941,277	1,031,656	1,049,348
4254	MISCELLANEOUS REVENUE This funding source is revenue received as part of the Treasurer's Office contract with Ascensus for the administration of the ABLE (Achieving a Better Life Experience) Program. The ABLE Program provides eligible participants with disabilities a tax advantaged way to save and accumulate assets exempt from the means-tested Medicaid or Supplemental Security Income Programs. Participants in the Nevada ABLE Program who are not Nevada residents are charged an annual State administration fee of \$5.00 which is assessed by the contractor and remitted to the Treasurer's office. This revenue funds a portion of expenditure category 04 (operating). [See Attachment]	2,204	193	2,204	2,204
4330	TREASURER'S ASSESSMENT This funding source is from an assessment the Treasurer's Office receives from other State agencies for the administration of the State banking and merchant services contract, the investment of monies in the State General Portfolio, the Local Government Investment Pool, and the NVEST (Long Term Local Government Investment) Program. After the General Fund Appropriation-2501, Bank Assessment-3305, Cost Allocation-4233, Tobacco Fund Transfer-4669 and any other misc. revenue have been determined, the Treasurer's Assessment-4330 is designed to cover the remaining expenditures needed to operate the programs in BA 1080. There is not a set percentage or calculation to determine the assessment as this number can change depending on how much funding is received from other revenue sources received within this budget account.	1,303,270	1,275,275	1,357,932	1,390,349
4669	TRANS FROM OTHER B/A SAME FUND This funding source is a transfer from budget account 1090, the Trust Fund for Healthy Nevada. The Trust Fund receives tobacco settlement income to fund administrative costs associated with the Fund for Healthy Nevada. The Management Analyst IV (PCN 0023) provides administrative support and oversight for the tobacco settlement. This revenue source funds salary costs in Cat 01 (30 percent of the Management Analyst IV position, 20 percent of the Deputy State Treasurer - Cash Management, 5 percent of the Sr. Deputy State Treasurer, 2.5 percent of an Acct. Asst. 3, and 2.5 percent of an Acct. Tech 1) and Cat 23 (funds 100 percent of Tobacco Administration). This funding is authorized per NRS 439.620.	62,820	64,589	68,429	69,809

7130	BOTTLED WATER This funding request continues funding for bottled water. The State Capitol, as a public building and museum, receives a large number of visitors on a daily basis and there is no water fountain located on the first floor. If a visitor asks the Capitol Police officer stationed outside the STO office where water is, they direct them to our office. We also view this request as a courtesy to the Capitol Police stationed at the capitol building as many times there is only one officer stationed in the building and no other location available to them on the first floor to get water. REVENUE					
00	REVENUE				
2501	APPROPRIATION CONTROL This funding source is revenue received from General Fund appropriations. General Fund appropriations are budgeted in accordance with the Treasurer's Office approved appropriations limit projected at the statewide level by the Economic Forum pursuant to NRS 353.228.	0	0	4,321	4,321
3305	BANK ASSESSMENTS This funding source is revenue received from amounts proportionality assessed against the banks that are required to participate in the Collateral Pool Program for public deposits. Bank Assessment revenue is assessed in arrears based on the previous year's Collateral Pool expenditures. Bank assessment revenue is authorized under NRS 356.370. This revenue source funds salary costs in expenditure category 01 (investment staff), 24 (collateral pool administrative costs) and 89 (partial funding of the Attorney General's cost allocation).	0	0	-2	-2
4330	TREASURER'S ASSESSMENT This funding source is from an assessment the Treasurer's Office receives from other State agencies for the administration of the State banking and merchant services contract, the investment of monies in the State General Portfolio, the Local Government Investment Pool, and the NVEST (Long Term Local Government Investment) Program. After the General Fund Appropriation-2501, Bank Assessment-3305, Cost Allocation-4233, Tobacco Fund Transfer-4669 and any other misc. revenue have been determined, the Treasurer's Assessment-4330 is designed to cover the remaining expenditures needed to operate the programs in BA 1080. There is not a set percentage or calculation to determine the assessment as this number can change depending on how much funding is received from other revenue sources received within this budget account.	0	0	3,333	3,333

2501	APPROPRIATION CONTROL This request adjusts actual fiscal year 2020 revenues with anticipated revenues for the 2022-2023 biennium. This funding source is revenue received from General Fund appropriations. General Fund appropriations are budgeted in accordance with the Treasurer's Office approved appropriations limit projected at the statewide level by the Economic Forum pursuant to NRS 353.228.	0	0	-32,000	-32,000
3305	BANK ASSESSMENTS This request adjusts actual fiscal year 2020 revenues with anticipated revenues for the 2022-2023 biennium. This funding source is revenue received from amounts proportionality assessed against the banks that are required to participate in the Collateral Pool Program for public deposits. Bank Assessment revenue is assessed in arrears based on the previous year's Collateral Pool expenditures. Bank assessment revenue is authorized under NRS 356.370. This revenue source funds salary costs in expenditure category 01 (investment staff), 24 (collateral pool administrative costs) and 89 (partial funding of the Attorney General's cost allocation).	0	0	-23,001	-23,001
4330	TREASURER'S ASSESSMENT This funding source is from an assessment the Treasurer's Office receives from other State agencies for the administration of the State banking and merchant services contract, the investment of monies in the State General Portfolio, the Local Government Investment Pool, and the NVEST (Long Term Local Government Investment) Program. After the General Fund Appropriation-2501, Bank Assessment-3305, Cost Allocation-4233, Tobacco Fund Transfer-4669 and any other misc. revenue have been determined, the Treasurer's Assessment-4330 is designed to cover the remaining expenditures needed to operate the programs in BA 1080. There is not a set percentage or calculation to determine the assessment as this number can change depending on how much funding is received from other revenue sources received within this budget account.	0	0	-3,202	-549
4669	TRANS FROM OTHER B/A SAME FUND This request adjusts actual fiscal year 2020 revenues with anticipated revenues for the 2022-2023 biennium. This funding source is a transfer from budget account 1090, the Trust Fund for Healthy Nevada. The Trust Fund receives tobacco settlement income to fund administrative costs associated with the Fund for Healthy Nevada. This revenue source funds salary costs in expenditure category 01 (tobacco staff) and 23 (Tobacco Administration). This funding is authorized per NRS 439.620.	0	0	95	95

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	The Prepaid Tuition Program incurred additional operating expenditures in FY20 due to supplies needed for staff to be able to work from home during COVID-19 and the office closures. These expenditures will not be needed in FY22/23; therefore, this line item can be reduced from the FY20 base year expenditures of \$4,200 to the prior legislatively approved amount of \$1,875. A M150 adjustment has been added to reduce the amount needed.				
7030	FREIGHT CHARGES	0	1,182	0	0
	The Prepaid Tuition Program did not incur freight charges in FY20; therefore, the program is not requesting to fund freight charges in FY22/23.				
7040	NON-STATE PRINTING SERVICES	2,383	4,097	2,383	2,383
	This request continues funding for non-state printing services for the Prepaid Tuition Program. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount of \$4,097 for printing in FY22/23. The COVID-19 pandemic prevented the program from utilizing the prior approved budgeted amount as fliers and other printed items were not needed due to events being canceled. A M150 adjustment has been added to increase the amount needed.

	This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for operating supplies. In FY20 additional supplies were needed for staff to be able to work from home during COVID-19 and the office closures. These expenditures will not be needed in FY22/23; therefore, this line item can be reduced from the FY20 base year expenditures of \$4,200 to the prior legislatively approved amount of \$1,875. M150 = FY20 \$4,200 - \$1,875 = (\$2,325) adjustment for FY22/23

	This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for non-state printing services. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount of \$4,097 for printing in FY22/23. The COVID-19 pandemic prevented the program from utilizing the prior approved budgeted amount as fliers and other printed items were not needed due to events being canceled. M150 = FY20 \$1,154 - \$4,097 = \$2,943 adjustment needed for FY22/23

Although this contract will be expired during the next biennium, this will be an ongoing service. The Treasurer's Office will follow the procurement process to establish a new contract. The estimated increase is listed below. Please note, FY22 projections are based on the current contract and FY23 projections are based on the first 6 months of the current contract which expires 12.31.2022. M150 = FY20 \$51,000 - \$52,500 = \$1,500 adjustment needed for FY22 M150 = FY20 \$51,000 - \$54,000 = \$3,000 adjustment needed for FY23 [See Attachment]				
7070	CONTRACTS - J This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for temporary staff services for the Nevada Prepaid Tuition Program. Due to COVID-19, the Prepaid Tuition Program was unable to complete the legislatively approved database upgrade project in FY20. This disruption required the program to utilize temporary staff services longer than anticipated which increased the expenditures incurred in FY20. Although the database upgrade will be completed in FY21, temporary staff is still needed during the six months of Prepaid Tuition Open Enrollment. Staff need assistance with answering phones, processing payments and applications as a result of these six months of open enrollment. The Treasurer's Office will utilize the State's master service agreement for temporary services. The program anticipate a need for 25 hours per week for 24 weeks at the contracted rate of \$25.46 per hour. (25 hrs x 24 weeks x \$25.46 = \$15,276 needed for FY22/23) M150 = FY20 \$31,293 - \$15,276 = (\$16,017) adjustment needed for FY22 & FY23	0	0	-16,017	-16,017
7100	STATE OWNED BLDG RENT-B&G This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2020-2021 biennium for State owned building rent for the Nevada Prepaid Tuition Program. Please note, the program moved to a new space in FY20. M150 = FY20 \$25,067 - \$19,250 = (\$5,817) adjustment needed for FY22/23 [See Attachment]	0	0	-5,817	-5,817
7120	ADVERTISING & PUBLIC RELATIONS This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for advertising and public relations. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount of \$72,240 for marketing expenditures for FY22/23. The COVID-19 pandemic prevented the program from utilizing the prior approved budgeted amount as a result of the lack of interest in enrollment in the Prepaid Tuition Program due to the economic conditions. M150 = FY20 \$64,362 - \$72,240 = \$7,878 adjustment needed for FY22/23	0	0	7,878	7,878
7302	REGISTRATION FEES This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for registration to the National Association of State Treasurers (NAST) virtual Treasury Management Training Symposium. In FY20, under new administration, the College Savings Division had 7 staff attend the virtual conference to acclimate the new Treasurer's Office administration to the program. In FY22/23 however, the Prepaid Tuition Program would like to have 3 staff members attend. Please note, the 25% discount will not be applicable in FY22/23; therefore, we are asking for \$550 x 3 staff members = \$1,650.00 (please see attached email from NAST). In addition, registration for an IT and Excel training course are not needed in FY22/23. (IT training \$399 + Excel course \$34 = (\$433) adjustment needed) + 660 NAST registration + \$1,650 virtual training = \$2,310 needed for FY22/23 M150 = FY20 \$2,931 - \$2,310 = (\$621) adjustment for FY22 & FY23 [See Attachment]	0	0	-621	-621

This figure was based off of a five year average for equipment purchases. Please note, equipment purchased due to the FY20 office move was not included in the calculation below. 1,088/5=218 M150 = \$3,214 - \$218 = (\$2,996) adjustment needed for FY22/23 [See Attachment]	0	0	-2,996	-2,996
7465	EQUIP > \$1,000 LESS THAN \$5,000 - A This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for equipment needed for an office move in fiscal year 2020; therefore, this expenditure is not needed in FY22/23. Budget Account: 1086 TREASURER - MUNICIPAL BOND BANK REVENUE

The Municipal Bond Bank, administered by the State Treasurer, was created by the 1981 Legislature for support of certain municipal projects through a bond bank. The Bond Bank allows the state to sell its general obligation bonds to provide funds to purchase local bonds. The state's higher bond rating saves local entities substantial amounts of interest payments. Statutory Authority: NRS 350A.140.

REVENUE					
4285	NON CASH REVENUE This funding source is non-cash revenue from negotiated contractual items pursuant to the attached Ascensus (formerly known as UPromise) and Putnam Investment Management contracts. Under the approved contract, Ascensus provides two Ascensus staff positions (one in Northern Nevada and one in Southern Nevada), funding for college savings matching grants for Nevadans (up to \$100,000), and assistance with education and outreach. This revenue source funds expenditure categories 15 (UPromise Marketing), 16 (UPromise Matching Grant) and 17 (UPromise Field Representatives). Under the approved contract, Putnam provides non cash revenue for marketing services and funds category 18 (Putnam Marketing). [See Attachment]	413,664	547,018	413,664	413,664
4326	TREASURER'S INTEREST DISTRIB This funding source is from interest earnings received from the investment of assets in the State General Portfolio. This revenue source funds a portion of expenditure category 04 (operating costs).	5,206	3,807	5,206	5,206
4758	TRANSFER FROM TREASURER This funding source is a transfer from budget account 1094, the Endowment Account. The Endowment Account receives program manager fees associated with its contractual relationships with Ascensus (formerly known as UPromise) and Putnam Investments. Budget account 1094 funds administration costs associated with the Nevada College Savings Trust per NRS 353B.350. [See Attachment]	2,754,534	3,127,333	2,859,764	2,866,379

7121	ADVERTISING & PUBLIC REL - A This request continues funding for national marketing services from Ascensus. Non cash revenue from GL 4285 funds these services. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount for marketing expenditures in FY22/23. The new administration had a change in the College Savings Division leadership in FY20 which included a change in the marketing spend to include more social, internet tracking (clicks) and less giveaways (trinkets). In addition, the COVID-19 pandemic prevented the program from utilizing the total authority available as a result of the lack of interest in enrollment in the program due to the economic conditions. Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This request continues funding for advertising and public relations for the Financial Literacy Program which consists of sponsoring and participating in outreach events, in-class curriculums as well as other financial literacy services. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount for marketing expenditures for FY22/23. The new administration had a change in College Savings division leadership in FY20 which included a change in the focus in financial literacy from adult financial literacy (budgeting, debt ratios, etc.) and sponsorships to helping Nevada families plan, pay and save for college through assistance with financial aid applications, student loan applications and scholarship opportunities. This included conducting formal solicitations for vendors to host workshops across Nevada to assist families in completing financial aid applications (e.g., FAFSA) and create financial assistance guides. The COVID-19 pandemic delayed the start of these contracts and workshops (shift to web-based versus in-person) and prevented the program from utilizing the entire FY20 authority amount. This request will be made with a M150 adjustment.

Due to COVID-19 and the departure of the attorney under contract, the College Savings Program used outside counsel for fewer hours than prior fiscal years. The program anticipates the need for an average of 7 hours per week over an average of 22 weeks at an estimated cost of \$70,000 per fiscal year. Although this contract will be expired during the next biennium, this will be an ongoing service. The Treasurer's Office will follow the procurement process to establish a new contract. 7302	REGISTRATION FEES This adjustment recognizes the difference between the actual expenditures for fiscal year 2020 and the anticipated expenditures for the 2022-2023 biennium for the National Association of State Treasurers (NAST) virtual Treasury Management Training Symposium registration. In FY20, under new administration, the College Savings Program had six staff attend the virtual conference to acclimate the new Treasurer's Office administration to the program. In FY22/23 however, the College Savings Program would like to have four staff members attend. Please note, the 25% discount we received in FY20 will not be applicable in FY22/23; therefore, we are requesting \$550 x 4 staff members = \$2,200.00. In addition, this adjustment is also for IT training that will not be needed in FY22/23 in the amount of \$399. The Treasurer's Office is requesting to maintain the FY20 legislatively approved budget amount for marketing expenditures for FY22/23. The new administration had a change in College Savings division leadership in FY20 which included a change in the focus in financial literacy from adult financial literacy (budgeting, debt ratios, etc.) and sponsorships to helping Nevada families plan, pay and save for college through assistance with financial aid applications, student loan applications and scholarship opportunities. This included conducting formal solicitations for vendors to host workshops across Nevada to assist families in completing financial aid applications (FAFSA) and create financial assistance guides. The COVID-19 pandemic delayed the start of these contracts and workshops (shift to web-based versus in-person) and prevented the program from utilizing the entire FY20 authority amount. E226	EFFICIENCY & INNOVATION This requests funds the subscription of a lease application to comply with GASB 87 standard regarding leases. The Controller's Office has estimated that the agencies have a approximately 2,250 leases. The State's Comprehensive Annual Financial Statement follows the standards issued by the Governmental Accounting Standards Board (GASB). GASB Statement No. 87 - Leases is a standard which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. As a lessee, the State is required to recognize a lease liability and an intangible right-to-use asset; as a lessor, the State is required to recognize a lease receivable and a deferred inflow of resources. Every lease entered into by the State that meets certain criteria in the standard must be accounted for, with the lease liability being measured at the present value of payments expected to be made during the lease term and the lease asset measured at the amount of the lease liability and amortized over the life of the asset. In addition, a schedule of all future lease payments must be disclosed. This effort is likely to involve well over 2,250 leases for the State, each one of which must have calculations performed based on lease term, lease payments, interest rates, lease modifications and yearly amortization of the asset. Due to the complexity of the calculations, the risk of error, and time involved to perform and review the calculations, this cannot feasibly be done manually, and an application is needed to perform the calculation, summarize the adjusting journal entries and summarize future lease payment disclosures. In addition, without an application, the auditors may not be able to audit the manual calculations without extensive effort and potentially additional costs. In summary, this application is an essential element needed to prepare a CAFR with an unmodified opinion. DU E226 FY22 = \$108,213; FY23 = \$75,000 [See Attachment]

The Vendor Services section, comprised of 1 Program Officer 2 and 2 Administrative Assistant 3's, is the only Controller's Office staff in Las Vegas. This section is being moved from Las Vegas to Carson City, leaving no staff in Las Vegas. The Controller's Office does maintain a printer in Las Vegas for disaster recovery of the State check printing process. The Treasurer's Office is part of the disaster recovery process and has agreed to house the printer in their Las Vegas Office. The Controller's Office can control all of the disaster recovery operations from Carson City. This is an efficiency option as it reduces the Controller's Office footprint and building rent costs while continuing to provide the same level of service to State agencies and Nevada constituents. Budget Account: 1302 ADMINISTRATION - JUVENILE & FAMILY COURT JUDGES

The National Judicial College (NJC) and the Louis W. McHardy National College of Juvenile and Family Court Judges (NCJFCJ) are non-profit, nationally recognized leaders in judicial education and training. The NJC's mission is to improve justice by providing judge proficiency, performance and productivity training, and education. NCJFCJ provides meaningful assistance to judges, court administrators, and related professionals whose primary concerns are the care of children and their families.

E225	EFFICIENCY & INNOVATION				
	This request funds the restoration of pre-COVID support levels for the National Council of Juvenile and Family Court Judges for program development, training, and policy work.				
	The General Fund dollars appropriated to the National Council of Juvenile and Family Court Judges (NCJFCJ) over the years have helped support our ability to sustain and expand our work locally and nationally around issues facing children, families, and victims who come in contact with the court system. These dollars have also contributed greatly to our continued positive impact on the Nevada economy and diversifying our funding streams. Over the years, requests for training, technical assistance, and support from the field have increased and are more complex. This request for an increase in funding from the State of Nevada would allow the NCJFCJ to expand our program development, training, and policy work. In addition, increased funding will assist in expanding our capacity to be proactive and responsive to the needs of court professionals.

Budget Account: 1330 LEG - STATE PRINTING OFFICE

Nevada State Printing Office provides mission-critical and other offset and digital printing, copying, and related services to all three branches of state government and other government entities in a timely and cost-efficient manner. All work is done on a fee basis and these fees are intended to recover the State Printing Office's costs, and to allow replacement of equipment as needed. Examples of mission-critical material would be decisions of the Supreme Court; tax bills for the Department of Taxation; bills, histories, and journals for the Legislature; and sample ballots for the counties. The State Printing Office also produces all the forms, business cards, letterhead, envelopes, training material, and reports needed to make government function. Statutory Authority: NRS 344.021.

E600	BUDGET REDUCTIONS This request privatizes the Nevada Commission for Women. There is a Bill Draft Request (BDR 21A0872674) to remove the Nevada Commission for Women from Nevada Revised Statutes Chapter 233I. The Commission is planned to continue as a non-profit organization. In order to provide ongoing General Fund savings eligible to be re-directed to other services of state government, the Department requests the privatization of the operating costs of the Nevada Commission for Women (including the elimination of one Management Analyst II, PCN #0002). The Commission has a non-executive budget account (BA 1029) that contains license plate fee proceeds, as well as a private bank account. If this efficiency decision unit is approved, the non-executive account proceeds would be transferred to the Commission's existing private bank account to enable the continuation of the Commission's activities as a non-profit organization. 82	HRA RESERVE				
	Health Reimbursement Arrangement (HRA) Reserve (Category 82) covers liabilities associated with unused HRA contributions at the end of each fiscal year. The fiscal year 2018 balance reflects actual unused HRA funds. Fiscal year 2020 and 2021 amounts reflect an increase based on the difference of projected contributions less projected payments for fiscal year 2019, adjusted for 5% increases in unused contributions for each year thereafter. Increases to HRA contributions and the related liability for unused balances are a result of increases in HRA contributions during fiscal year 2018 and 2019 provided to participants in the Consumer Driven Health Plan as well as to retirees on the Medicare Exchange. Increases in HRA Reserve are funded through reductions in HSA/HRA contributions offset by projected needs for fiscal year 2020 and 2021.

EXPENDITURE					
82	HRA RESERVE				
	Health Reimbursement Arrangement (HRA) Reserve (Category 82) covers liabilities associated with unused HRA contributions at the end of each fiscal year. The fiscal year 2018 balance reflects actual unused HRA funds. Fiscal year 2020 and 2021 amounts reflect an increase based on the difference of projected contributions less projected payments for fiscal year 2019, adjusted for 5% increases in unused contributions for each year thereafter. Increases to HRA contributions and the related liability for unused balances are a result of increases in HRA contributions during fiscal year 2018 and 2019 provided to participants in the Consumer Driven Health Plan as well as to retirees on the Medicare Exchange. Increases in HRA Reserve are funded through reductions in HSA/HRA contributions offset by projected needs for fiscal year 2020 and 2021.

Budget Account: 1339 ADMINISTRATION - HRM - UNEMPLOYMENT COMPENSATION

The 1977 Session of the Nevada Legislature extended unemployment insurance protection to most public employees effective January 1, 1978. Payroll centers of those agencies within the payroll system of the Division of Human Resource Management participate along with elected and judicial officials. The Employment Security Division bills the account quarterly for actual benefits paid that are attributable to the eligible service time in participating agencies. Statutory Authority: NRS 612.

E350	PROMOTING HEALTHY, VIBRANT COMMUNITIES This request funds operating support for the Nevada Advisory Council on Federal Assistance (NAFCA). Members of NAFCA are entitled to per diem when engaged in the business of the Council pursuant to NRS 358.020 and this enhancement provides for a small amount of travel reimbursement to members. This enhancement creates a special use category within this account so that NACFA members may claim travel expenses as funds allow. This has been a problem since NACFA was created in 2015 without any budget for travel expenses, as allowed by NRS 358.020. NAFCA meetings are held in Carson City and teleconferenced to a second location in Las Vegas. Currently, the council members reside in Las Vegas, Carson City, and Reno. However, previous council members have been from rural areas of Nevada. The Council made a request at the March 5, 2020 meeting to investigate a path toward a small budget for the Council. The enhancement will also enable better tracking of council-related expenses. [See Attachment]

Budget Account: 1342 GOVERNOR'S OFC OF FINANCE- DIV OF INTERNAL AUDITS

The Division of Internal Audits conducts performance audits to help agencies identify ways to enhance their operational efficiencies and effectiveness. These audits are presented to the Executive Branch Audit Committee which is chaired by the Governor and includes the Lieutenant Governor, Secretary of State, State Treasurer, State Controller, Attorney General, and a representative of the public. The division also performs reviews of agencies' transactions and procedures to determine compliance with state and federal guidelines and assists agencies in maintaining and developing internal controls and financial practices that prevent and detect fraud and safeguards assets. Statutory Authority: NRS 353A and 353.090.

Budget Account: 1343 ETHICS - COMMISSION ON ETHICS

The Nevada Commission on Ethics is an eight member body appointed by the Governor and Legislative Commission to interpret and enforce the provisions of the Ethics in Government Law set forth in NRS Chapter 281A ("Ethics Law"). The Ethics Law establishes the public policy and standards of conduct necessary to ensure the integrity and impartiality of government, free from conflicts of interest between public duties and private interests of state, local public officers, and employees. The commission and its staff focus on four main functions: 1) interpreting and enforcing the provisions of the Ethics Law; 2) investigating and adjudicating public complaints alleging ethics violations by public officers and employees; 3) providing outreach and education to public officers and employees to enhance their awareness and understanding of ethics requirements and prohibitions under Nevada law; and 4) accepting and monitoring various filings required of certain public officers. Statutory Authority: NRS 281A.

Total Cost: 8 members x \$80/meeting x 12 meetings = \$7,680 FY22/23 M150: \$7,680 - \$5,920 (BASE) = \$1,940 The Commission meets to address every advisory request and complaint that is filed to issue an order regarding jurisdiction and investigation or to issue a decision. The Commission has statutory deadlines to issue such orders and decisions. The Commission meets informally (telephonically or via email deliberations; not subject to Open Meeting Law) nearly every week to address these complaint and advisory cases, including approval of final orders and all written opinions from prior meetings. The agency reserves the third Wednesday of every month for formal meetings to address matters that require more formal deliberations and for which it pays Commissioners. E225 EFFICIENCY & INNOVATION
This request funds one new unclassified Division Administrator for Mail Services in order to establish Mail Services as its own division in order to provide improved leadership and oversight. There is a Bill Draft Request to support this enhancement (BDR 21A3322686).

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	The Mail Services unit has been part of the NSLAPR since the 2011 Legislature approved its move from the former Buildings and Grounds Division. However, Mail Services does not get sufficient oversight being part of NSLAPR, and the program nexus between library and archive duties and mail delivery services is lacking. The Department of Administration views this as more of a central service and its centrality became very clear during the pandemic, given the volume of mail and printing jobs processed for DETR as part of the historic increase in unemployment. As such, this enhancement would create a new, separate agency code for Mail Services and add one new unclassified position to provide much needed leadership and oversight over this unique mission. This will include BA 1346 and 1347. [See Attachment]

Budget Account: 1348 AG - ATTORNEY GENERAL TORT CLAIMS FUND

The Tort Claim Fund is established to pay claims against the state, including those pursuant to NRS 41.0349 and 41.037. Typical claims include automobile accidents, injuries on the state's premises or highways, and damages claimed for violation of the civil rights of inmates incarcerated within the Nevada Department of Corrections, state employees, or the general population. The potential vehicle and general liability for the Tort Claim Fund for the biennium is calculated by an independent actuary every two years. The Tort Claim Fund is an internal service fund financed by assessments on state agencies based on the number of participating vehicles and positions. Statutory Authority: NRS 331.187.

Section A1: Line Item Detail by GL

Budget Account: 1349 ADMINISTRATION - SPWD - BUILDINGS & GROUNDS

The Buildings and Grounds section of the State Public Works Division (SPWD) provides physical buildings and grounds maintenance and housekeeping for most state-owned buildings in Carson City, Reno and Las Vegas. Services are provided by agency staff and contracted vendors ranging from general janitorial and maintenance to minor remodeling. The agency also provides office space for agencies in state-owned buildings, and when not available, locates, and negotiates leases in privately owned buildings. Additionally, the agency provides administrative oversight of the Marlette Lake Water System. The division also funds the Capitol Police section of the Department of Public Safety, which provides building security for the Capitol Complex in Carson City and the Grant Sawyer Building in Las Vegas. Statutory Authority: NRS 331.

3816	B & G LEASE ASSESSMENT	278,239	266,779	271,753	271,753
	Lease Assessment revenues are generated from a calculated lease assessment rate that is applied to agencies occupying leased space in non-state owned facilities. The rate applies to agencies that utilized B&G to facilitate the lease or use B&G services to manage and renegotiate their lease. The assessment is assessed on the value of the lease and is calculated to sufficiently recover the operating cost of the leasing section within the B&G division				
	Lease assessment revenues are used to recoup the direct/indirect cost of the leasing group's activities in expenditure category 01 to cover the personnel cost of the leasing group category 03 travel costs for the leasing group, category 04 operating cost for the leasing group, category 12 ADA inspections, category 26 IT services, and category 30 training.				
	Category 12 cost of ADA lease assessment is capped at \$35,000.				
3819	EXTRA SERVICES - TENANT IMPROVEMENTS	0	3,568	0	0
	Tenant Improvements are generated from a service request by State Agencies for tenant improvement projects or contracted needs. An estimate is prepared from a submitted service request form, and approved by SPW, B&G Facility Manager, Agency Fiscal Staff/Appointing Authority.				
	The revenues are actual cost plus a 10% overhead.				
	This revenue is directly associated with the category 13 expenditure category.				
3820	EXTRA SERVICES - RECURRING	179,014	181,433	181,433	181,433
	Agency needs are submitted on a service request form for identified routine or chargeback services. Routine services include plumbing, electrical repairs, irrigation, etc. Chargeback services are services provided to state agencies that are not considered routine maintenance such as installing a keyboard table/stands, hanging of whiteboards, pictures, TVs or other special equipment and office accessories, changing desk locks, etc.				
	Unlike routine building maintenance services, Chargeback services are a charged to the agencies for time and material plus a 10% overhead fee. This revenue is directly tied to expenditure category 12.				
	Since FY2011 this activity, or revenue, has been steadily declining at a rate of approx. 11 percent per year, but given the unpredictability of this activity, the agency feels that leaving the level of authority at the FY18 level would be the more prudent course of action to follow to ensure there is sufficient authority available to support this function through the coming biennium. The three year average for this revenue is \$201,511 and the 5-year average is \$253,613.				
3827	EXTRA SERVICES - AD HOC AGENCY REQUESTS	66,651	157,935	157,935	157,935
	These services are provided throughout the fiscal year and charged annually to requesting agencies in their own agency owned buildings, and leased buildings that B&G services are negotiated into the lease. We provide Janitorial, Grounds, etc. on scheduled maintenance and provide services via service request forms.				
	Costs are recouped by June 30th each year. Costs are associated with category 12. Our cap is charged at an admin fee of 10% to no more than \$635.				
4203	PRIOR YEAR REFUNDS	2,699	10,517	10,517	10,517
	Prior Year refunds are stale claim payments received after closing the previous fiscal year. These payments can be invoiced from RGL3819 Extra Services Reoccurring; RGL3827 Extra Services- AD Hoc; RGL4254 Miscellaneous Sales; RGL4301 Rental Income Non-Executive; RGL4304 Building Rent. This revenue is generally expensed through current years' Operating costs or placed into Reserves.				
4218	NV ENERGY HOOVER REBATE	1,670	3,454	3,454	3,454
	The Hoover D program is a contractual agreement (provided in the Vendor Schedule Category 59 GL7065) ; the Revenue 4218 request is FY18 Base as there is no historical information to submit a 3 to 5 year projection. Contract is also provided in this email.

	This request funds the replacement of six agency-owned vehicles. Six agency-owned trucks to be replaced for the Las Vegas, Carson City, and Reno areas to allow the agency to bring the needed building materials and supplies to fulfill work orders for necessary maintenance and preventive maintenance to state buildings. Approximately 55% of Buildings and Ground's fleet meets the requirements for the vehicle replacement policy in SAM 1316 (they are problematic). At times the vehicles breakdown and leave staff stranded on freeways in Las Vegas, Henderson, Carson City, or Reno. This inhibits B&G staff from providing the customer service to the building occupants and the repairs needed to state buildings. [See Attachment]

Budget Account: 1350 TOURISM - MUSEUMS & HIST - LOST CITY MUSEUM

The Lost City Museum in Overton, Nevada, located near the Moapa Paiute Indian Reservation, serves the public by studying, preserving, and protecting ancient Puebloan sites and artifacts found in the Moapa Valley area and interpreting these collections through exhibits, public programs, and publications. The Lost City Museum facility is itself an artifact, a Civilian Conservation Corps reproduction of an adobe pueblo dwelling complex, which has been preserved for future generations. An active archaeological program sponsors pottery workshops and other educational programs as well as occasional archeological digs. Interior and exterior exhibits on the grounds attract numerous tourists interested in topics relating to the Anasazi Pueblo complex, other early Native American cultures of southern Nevada, and the later history of the Moapa Valley, including Mormon settlement, mining, and railroads. The museum serves regional audiences of Native Americans, youth, students, families, adults, and a wide-reaching network of scholars and researchers interested in Native American cultures. Statutory Authority: NRS 381.

07	MAINT OF BUILDINGS & GROUNDS				
	Charges are for the regular maintenance supplies such as paint, wood plaster and adobe restoration supplies. The main adobe museum structure has been stabilized and plastered, in a reversible process, in order to preserve and protect it. Also, the adobe pueblo structures on the museum site have been re-roofed with new wood supports and adobe plaster replacing asphalt. It is extremely important that the maintenance be continued on a yearly basis. Adobe is a friable, organic material that needs regularly scheduled maintenance in order to retain its structural integrity. The Lost City Museum adobe building is one of Nevada's unique historic treasures. Using Civilian Conservation Corps work crews in 1935, a labor force of young men constructed a small museum to hold the treasures of the Lost City (Anasazi Pueblo) archaeological sites. This community effort and cooperative work force created a lasting cultural resource for the people of Nevada and the nation. The Lost City Museum was placed on the National Register of Historical Places in 1995, and the department's goal is to preserve, use cultural resources, and to encourage the use of historic buildings.

Budget Account: 1354 ADMINISTRATION - FLEET SERVICES

The division provides safe, dependable, and economical transportation solutions for state employees. Fleet Services operates a large, modern, and environmentally friendly fleet, and focuses on customer service, efficiency, and professionalism. The division's fleet is dispersed throughout the state, providing agencies short-term and long-term assigned vehicles, a statewide managed maintenance and repair program, vehicle acquisition and disposal services, registration, fuel, alternative fueled vehicles and fueling resources, accident management, cleaning and 24 hour roadside assistance. The division operates facilities in Carson City, Reno, and Las Vegas with each facility providing full administrative and operational support for both the short-term and long-term assigned vehicles. The operations division manages an extensive statewide maintenance program to support the fleet. The maintenance program is available for use by all state agencies and provides agencies that own their vehicles a cost effective solution for satisfying their vehicle maintenance needs. Statutory Authority: NRS 336.

E554	TECHNOLOGY INVESTMENT REQUEST				
	This request funds the installation of an electronic fleet management system (Telematics) on all Fleet Services owned vehicles. Fleet data monitoring, reporting and management has become a crucial technology for fleet management, both to increase efficiencies and to reduce risk. The proposed system supports core areas such as real time GPS tracking, trip reporting and productivity, in-vehicle coaching with risk and driver behavior reporting, accident notification, stolen vehicle location and other safety features; predictive maintenance and remote diagnostics with fuel management capabilities; electronic logging for hours of service and vehicle inspections.				
	State vehicles will directly benefit from direct smog savings, cost avoidance for reduced accidents and will be able to take advantage of the system's anti-fraud features. In accordance with NRS 486A.123/.130/.143 this system qualifies as an alternative fuel because of the technology to monitor emissions, idle time and speed, all of which are areas of wasted fuel consumption. This request also enhances and manages the statewide use of electric vehicles by providing the following information: State of Charge, High Voltage Battery Voltage, High Voltage Battery Current, Minimum Cell Voltage, Maximum Cell Voltage, Min Cell Voltage Position, Max Cell Voltage Position, Charge Status, Charge Current, Charge Voltage, Electric Motor RPM, Electric Motor Temp.

Budget Account: 1356 ADMINISTRATION - FLEET SERVICES CAPITAL PURCHASE

The vehicle purchase account serves as a holding account for the accumulation of funds realized from vehicle sales, insurance recoveries from vehicles totaled in accidents, depreciation allowances for fleet replacement, and appropriations used to purchase additional vehicles for agencies' use. Funds for depreciation expense in the division's operating budget, which is budget account 1354, are then transferred to the Capital Purchase account, budget account 1356, as revenue. Statutory Authority: NRS 336.

Budget Account: 1358 ADMINISTRATION - PURCHASING

The Purchasing Division is responsible for procuring services and obtaining supplies, materials, and equipment on behalf of state agencies and local governments in a timely and cost-effective manner. The Purchasing Division ensures the procurement process provides an equal opportunity for all vendors to do business with the state. Staff handles state property disposal and maintains an inventory of the state's fixed assets. Statutory Authority: NRS 333 and 334.

E225	EFFICIENCY & INNOVATION				
<p>This request funds the modernization of the State Purchasing Act by making the following changes: (1) creating a debarred vendor list; (2) deleting newspaper advertising in favor of online advertising; (3) clarifying the record keeping for purchase of prescription drugs; (4) exempting provider agreements from Board of Examiners approval; (5) raising the threshold of Board of Examiners approval for contracts from \$50,000 to \$100,000; and (6) giving the Board of Examiners greater flexibility in using the State Administrative Manual to address different types of contracts. The costs of newspaper advertising incurred in the base year are removed in this decision unit. This enhancement has an accompanying BDR (21A0832639).</p> <p>These modernizations of the Purchasing statute were stimulated by the issuance of Internal Audit 20-07, which was presented in February 2020. The audit recommended creation of a debarred vendor list, which most state have. Also, most state eliminated newspaper advertising quite a while ago. All bids and proposals are posted online in Nevada ePro. Also, the Department of Administration expects that the Internal Audits Division will recommend increasing the threshold for contracts to be approved by the Clerk of the Board of Examiners, rather than going to the full Board, from \$49,999 to \$99,999. These changes, as well as others suggested by the Attorney General's Office, are addressed in BDR 21A0832639.</p> <p>[See Attachment]</p>

Budget Account: 1362 AGRI - COMMODITY FOODS DISTRIBUTION PROGRAM

The Food Distribution Programs provide USDA Foods (US Department of Agriculture, formerly commodity foods) to schools, senior centers, childcare centers, Tribal communities, food banks, and other eligible agencies and individuals in Nevada. Low income senior citizens may also obtain food packages and coupons to buy fresh fruits and vegetables from local farmers' markets. The purpose of these programs is to supplement recipients' nutritional needs with nutritious USDA Foods. The food distribution program serves approximately 182 agencies/sponsors and 11 Tribal communities throughout the state. Statutory Authority: NRS 333 and Federal Regulations 7CFR part 247, 249 and 250-253.

E500	ADJUSTMENTS TO TRANSFERS				
<p>This request funds a new collective bargaining assessment to support the Division of Human Resource Management's efforts to provide structure and organization to collective bargaining processes, due to the passage of Senate Bill 135 during the 2019 Legislature. This enhancement has an accompanying Bill Draft Request (BDR 21A0702641).</p> <p>When S.B. 135 was enacted by the 80th Legislature, the bill contained an assessment for the Government-Employee Management Relations Board (located within the Department of Business and Industry) to support its new workload of adjudicating disputes and certifying exclusive representatives (please see NRS 288.139). However, no assessment was provided for supporting the work of the Division of Human Resource Management in coordinating the collective bargaining process, working with the Governor's designated representative (see NRS 288.565), keeping records of class codes with exclusive representation, putting together bargaining teams, and interfacing with various union personnel. The existing Personnel Assessment was expected to be utilized during the 2019-21 biennium, and the 2019 Legislature requested that Administration-DHRM return to the Interim Finance Committee to seek Personnel Assessment support of its operations. However, there are certain departments and budgets that pay the Personnel Assessment that do not have any employees that would be subject to collective bargaining. As such, there should be a separate assessment on those agencies that supports the cost, paid by budgets that have employees with representation (or the possibility of representation). This enhancement and its accompanying BDR establish a policy nexus between the assessment paid and the benefit to those agencies from having centralized bargaining services provided by DHRM. The assessment is per FTE, per year for each position that has an exclusive bargaining representative (or could, in the case of no exclusive representative having been duly certified yet).</p> <p>[See Attachment]</p>

E552	TECHNOLOGY INVESTMENT REQUEST				
	This request funds a General Fund loan to the Enterprise Information Technology Services Division for replacement of the statewide content management and portal platform. This request was approved during the 2019-2021 Legislative Session, however, funding was removed during the 2019-21 biennium's budget reductions and reverted to the General Fund due to the COVID-19 pandemic and the system was not replaced.				
	This request will retire the current Ektron platform that is approaching end of life, lacking mobility, and no longer receives enhancements or operational requests. The product is no longer lab tested by the vendor and is increasingly more difficult to support.

Budget Account: 1366 ADMINISTRATION - SPWD - MARLETTE LAKE

The Marlette Lake Water System was authorized for purchase by the 1963 Legislature from the Curtiss-Wright Corporation at a cost of \$1,650,000. The State Public Works Division of the Department of Administration administers the system. The adjoining lands are administered and controlled by the Department of Conservation and Natural Resources. The major objectives of this system are to preserve and protect local water sources, provide adequate supplies of water to the areas served, maintain the system in a condition sufficient to ensure dependable supplies of water to water customers, and sell water under equitable and fiscally sound contractual arrangements. This system is funded from water sales to Carson City and Storey County. Statutory Authority: NRS 331.160.

E230	EFFICIENCY & INNOVATION				
	This request funds the creation of an Information Technology Fund to enable EITS to fund future enterprise-level upgrades to state infrastructure without having to place the burden for those costs on the regular EITS cost pools. This enhancement is designed to provide a small amount of seed money via a contract surcharge to grow the fund over several years. The surcharge of 3% would be assessed on all contracts for goods and services utilized by EITS budget accounts. A Bill Draft Request has been submitted (BDR 21A1802640) to support this enhancement.				
	In the past, when EITS has needed to pay for large enhancements, it has received a General Fund loan and then incorporated the payback into the regular EITS rates. This is an expensive, cumbersome way to cover those costs, and leads to rate shock for EITS customers. The department proposes that like DMV, which has a technology fund, EITS creates a statutory technology fund to support enterprise level undertakings. This fund would be supported by surcharges on EITS' technology contracts for goods and services. Please see attached calculations. This enhancement proposes to start small, and grow this fund over the biennium, with the proceeds beginning to be used in the 2023-25 biennium, at the earliest. Please see attached summary of other states' dedicated funding streams for information technology undertakings. This proposal has been submitted as BDR 21A1802640.

	This request funds the Zero-Emission Vehicle priority initiative. There is a Bill Draft Request (BDR 21A0862694) to prioritize long-term operating costs and minimize carbon emissions for automobile purchases.				
	This enhancement and BDR would support the Governor's priorities of a child and family centered government by providing measurable state fleet GHG emission reductions and lowering the vehicle operating costs of agencies. Adoption of this enhancement unit and associated NRS and NAC changes would commit the state to lead by example in the implementation of the Nevada Climate Initiative, Executive Order 2019-22, and S.B. 254 (2019). This modernization of vehicle procurement priorities would also put Nevada in line with ZEV adoption policies of other states which prioritize GHG emission reductions.

Budget Account: 1373 ADMINISTRATION - EITS - OFFICE OF THE CIO

Office of the Chief Information Officer (CIO) provides services to coordinate efficient, effective and secure use of information, ensuring the economical use of information systems and personnel. The division provides cost effective enterprise-wide information technology solutions and assists state agencies and governing bodies by providing technical information and guidance. The Administrator of EITS is appointed by the Director of the Department of Administration and may also serve as the State Chief Information Officer if so appointed by the Governor. The Office of the CIO oversees EITS operational units. The CIO/Administrator of EITS is on the Attorney General's Technological Crime Advisory Board (NRS 205A.040); Nevada Commission on Homeland Security's Cyber Security Committee; Nevada Public Safety Communications Committee (NPSCC); Nevada Commission on Educational Technology (NRS 388.790-805), ex-officio/non-voting; and Nevada Broadband Task Force (representing EITS by Executive Order). Statutory Authority: NRS 242.

Budget Account: 1374 B&I - EMPLOYEE MANAGEMENT RELATIONS BOARD

The Government Employee Management Relations Board was created by the Government Employee Management Relations Act of 1969, to provide for collective bargaining between local government employers and the organizations representing their employees and, as necessary, to hear and decide disputes arising out of the interpretation of NRS 288. The act was substantially amended in 2019 to provide similar collective bargaining rights for certain State of Nevada Executive Branch employees. The board has jurisdiction over 190 city, county, school, hospital, and other special district employers engaged in collective bargaining with employee organizations representing 247 bargaining units and almost 107,000 employees. In addition, there are 11 State bargaining units, 6 of which are currently represented by labor organizations, and which total over 18,000 employees. Statutory Authority: NRS 288.

Section A1: Line Item Detail by GL

Budget Account: 1383 HHS-DCFS - JUVENILE JUSTICE SERVICES

The Juvenile Justice Program sub-grants funding to local units of government and private agencies for programs including: removing juveniles from adult jails, keeping juvenile offenders separate from adult offenders, de-institutionalizing status offenders, reducing the disproportionate incarceration of minority offenders, specialized programs for Native American youth, and community-based delinquency prevention programs. Statutory Authority: NRS Chapter 62 and the Federal Juvenile Justice Act.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE This request continues funding for 5 positions and associated operating costs. One-time expenditures have been eliminated and partial-year costs have been annualized. [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL General funds revenue	2,967,825	3,003,819	2,999,669	3,008,085
2510	REVERSIONS General fund reversions	-44,517	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR Carry forward from FY21 to FY22. RGL 3580 OJJDP \$ RGL 4157 Civil Fines \$ Total \$ Expected to expend in FY22.	1,500	1,450	0	0
2512	BALANCE FORWARD TO NEW YEAR Balance forward of Civil Fines from RGL 4157. Projecting \$2,000 to carry forward once final payment is received in August.	-1,450	0	0	0
3580	FED OJJDP GRANT Federal Office of Juvenile Justice and Delinquency Prevention Grant to provide evidence-based delinquency prevention program and maintain compliance with the four core requirements of the JJDP Act - CFDA #16.540. FY22/23 amounts are based on the amount expected to be received from current and future Formula Grants in this time period. Grants are good for four federal fiscal years. The amount used in each state fiscal year can vary. There are match requirements but not maintenance of effort requirements for this grant. The grant language states that the federal amount must not exceed 90% of the total amount spent. Therefore the match amount is roughly 11% per year. The match is met by using a percentage of salaries of DCFS staff working directly on the grant. [See Attachment]	107,254	423,230	128,101	128,500
3581	FEDERAL PREA GRANT Federal PREA education grant revenue. CFDA# 16.735. Special use category 11. DCFS received a one time grant in SFY20. There will be activity in this R/GL in SFY20, however Year 1 and Year 2 will be \$0 due to the grant not being awarded in future years. [See Attachment]	0	0	36,408	36,408
3583	FEDERAL PREA COMPLIANCE GRANT PREA Compliance grant given to States that are not in compliance with PREA standards. If States are not in compliance their Formula grant money is reduced and this PREA grant is awarded. Per Program staff, Nevada is not expected to receive this PREA grant in FY22-23, therefore the amount should be \$0. DCFS expects to be PREA compliant in the future. Both this revenue line item and the corresponding special use category 13 will not be required/used. There are no match or maintenance of effort requirements for this grant. CFDA# 16.735 & 16.540	0	11,880	0	0
4103	COUNTY REIMBURSEMENTS County reimbursement revenue for the Youth Level of Service / Case Management Inventory (YLS/CMI) risk and needs assessment tool. The State will pay the vendor for licensing fees for DCFS and the 9 rural judicial districts. The judicial districts will then reimburse the State for their portion annually. This was done to negotiate a lower rate with the vendor. These expenses are all incurred under Cat 19 (JJ Reform) [See Attachment]	20,000	0	20,000	20,000
4157	FINES Enforcement of Underaged Drinking Laws (EUDL) is paid quarterly to DCFS from the Department of Taxation, which is then sub-granted out to pay for alcohol programs in the community. Revenue is generated from businesses being fined for selling alcohol to minors. Projections are based on a 5-year average. This RGL corresponds with special use category 08. Budgeting based on 5 year average of revenue received in R G/L 4157. [See Attachment]	5,450	8,750	5,500	5,500

	For Cat 87 GL#7393 Purchasing Assessment. This inflation increase is funded 100% by general funds. The Formula grant pays for a small portion of the assessment, but such a large increase cannot be fit into the tight budget. Overall for the FY20.21 budget \$45 went to the Formula grant. The same amount will be applied this biennium, which is in B000. The M100 will be general funded.

	General fund revenue for M150				
3580	FED OJJDP GRANT	0	0	397,398	397,532
	Formula grant revenue for M150. Formula grant sub grants. The Formula grant has been frozen for an extended period leaving very few expenditures in SFY20 base. The sub grantees have not been paid during this time from past years grants. Once the grants become unfrozen, DCFS will have to pay these sub grantees back charges and would not have authority to do so. Increasing the average annual amount by 1.5x would help eliminate the need for a work program to be done each fiscal year to obtain authority to spend the awarded amount as planned. \$380,769 is the increase requested for the sub grants. Another \$16,824 is allotted for standard grant adjustments, including an overtime pay elimination for the single grant funded position. Making the total grant revenue line requested \$397,579 year 1 similar for year 2. These payments are 100% funded by federal grants and no state general funds are involved. [See Attachment]				
3581	FEDERAL PREA GRANT	0	0	-36,408	-36,408
	Federal PREA grant revenue. Grants are set to expire on 9/30/2021 and should be fully spent by the end of SFY21. It will then be eliminated. No revenue is requested for FY22-23

4757	TRANS FROM DPS CRIMINAL JUSTICE Sub-award from the Nevada Department of Public Safety through the Edward Byrne Memorial Justice Assistance Grant. Awarded in SFY20 this was used for body cameras for staff at the three juvenile justice facilities. DCFS expects to receive this award each year going forward to be spent with a vendor on an upcoming project. The amounts of future years awards are unknown so the request is to budget the amount on grant application for in SFY21 for year 1 and 2. Original award amount \$113,786 - FY20 portion spent \$54,930 = FY21 remaining balance \$58,856. <p>This decision unit requests that savings realized in the DCFS Juvenile Correctional Facilities due to vacancy savings and other cost savings due to reduced use by the counties to transfer to the Community Corrections Block Grant budget account for the next fiscal year for re-investment in prevention programs. BDR 21A4092618 is attached.</p> <p>This BDR would allow counties to report on the number of youth that are diverted from state custody to calculate the corresponding savings the state realized due to lower residential and staffing costs. Those savings would be reinvested into the county juvenile services departments to enhance their successful programs, thereby resulting in additional savings. This is a companion to Decision Units E-353 in BA 3148, Summit View Youth Center; BA 3179, Caliente Youth Center; and BA 3259 Nevada Youth Training Center.</p> <p>[See Attachment]</p>

<p>This request funds an increase of juvenile justice reform operating expenses to meet the requirements of NRS 62B.620 (quality assurance reviews of state facilities and county youth camps). AB472 of the 2017 Legislative Session resulted in the following statutory revision:</p>

2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	<p>NRS 62B:620: The Juvenile Justice Oversight Commission (NRS 62B.600) selected a quality assurance tool that is proprietary from a vendor, University of Cincinnati. The name of this tool is the Correctional Program Checklist (CPC). There is no way to purchase the tool and use the tool with fidelity without having certified reviewers trained and monitored by the vendor. In 2018/2019, the State paid (out of AB 472 funds) to train/certify 8 staff and since that time, two have left their positions, one has retired, and two have been reassigned, leaving only three certified reviewers. Three reviewers is not sufficient to review five facilities due to the nature of the review, which includes on site observations, on site interviews, review of policies and procedures and a comprehensive reporting mechanism where a facility has the opportunity to respond to a draft report before a final report is completed. In essence, it is best practice to have 2-3 reviewers per facility. It is imperative that the State maintain roughly 8 reviewers at a time which requires training and travel costs one time per biennium. In addition, this tool may be rolled out to county probation departments in the future, which would require additional reviewers. Note: Clark County is paying separately to train 4 of their own reviewers in 2020. However, it is unknown if other counties will be willing to absorb the cost of training in house reviewers to partner with the state to conduct quality assurance reviews of counties, if required down the road. This burden may rest on the state, and if county departments are included, the state may have to go up to 12 reviewers available at a time.</p> <p>This request would increase funding to pay for a contract in year 1 with the University of Cincinnati for the training mentioned above. It will also pay for travel costs associated for DCFS staff members not located in Las Vegas to attend. In addition to the contract and travel costs for the CPC training, an increase in travel funds is requested in year 1 and 2 for annual CPC reviews. These reviews are necessary for DCFS staff to ensure that the CPC tool is being utilized correctly.</p>

E805	CLASSIFIED POSITION CHANGES				
	This request reclassifies a Youth Parole Counselor III to a Criminal Investigator III position. BDR 21A4092628 has been submitted to allow for this reclassification (attached). A new Criminal Investigator for the Juvenile Justice Programs Office was approved for DCFS by the 2019 Legislature (BA 1383, Decision Unit M595). After the NPD-19 was submitted to the Division of Human Resource Management for review and approval in order to establish the position, it was discovered that a Criminal Investigator position, which requires POST II Certification, is not an allowable position within DCFS pursuant to NRS 289.470. A budgetary bill draft request has been submitted to address this issue. A Criminal Investigator was requested during the 2019 Session to function as the sole Nevada Juvenile Justice Prison Rape Elimination Act Investigator for the three juvenile justice facilities. In order to thoroughly investigate and enforce PREA requirements, the Criminal Investigator classification is needed to ensure the proper prerequisites and qualifications associated with these job duties are required of any candidate for the position. In order to hire an employee in the current biennium, the position was reclassified to a Youth Parole Counselor. The Youth Parole Counselor position classification does not fully meet the job requirements of a Criminal Investigator, and therefore, cannot have the fully investigatory and enforcement activities that are needed for PREA requirements. A Criminal Investigator would have the required prerequisites and qualifications needed to fully investigate and enforce PREA requirements within the divisions three juvenile justice facilities. A Criminal Investigator would have the required prerequisites and qualifications needed to fully investigate and enforce PREA requirements within the divisions three juvenile justice facilities.

E902	TRANSFER FROM BA 3145 TO BA 1383				
	This request recommends transferring one Administrative Assistant II to the Juvenile Justice Programs Office, budget account 1383, from the Children, Youth & Family Administration, budget account 3145. This will properly align the position with associated work and funding.				
	This position was originally requested in the Children, Youth & Family Administration budget account because it supported the Community Juvenile Justice Programs budget account but all staff associated with the Community Juvenile Justice Programs budget account were accounted for in the Children, Youth & Family Administration budget account. During the 2015 legislative session, the Community Juvenile Justice Programs budget account began a reorganization to better suite the needs of the clients served, including the transfer of some key positions. In the 2017 legislative session the entire budget account changed from Community Juvenile Justice Programs to Juvenile Justice Services. This request further enhances the ongoing changes by transferring the Accounting Assistant II To the rightful budget account where the associated work is performed.

	This requests funds the leverage of the state's current investment in Microsoft to obtain Microsoft Azure as subscription service to provide nearly enterprise-level Multi-Factor Authentication (MFA) services to the state.				
	Using MFA prevents unauthorized access by requiring a second piece of information that only the end-user has or knows. For this reason, security best practices and regulations are moving away from password complexity requirements and requiring MFA as a baseline for all end-user account security. This service supports authentication via a smartphone app, hardware token (generally, a key fob that displays a 6-digit number), voice phone call, or SMS message; providing a wide range of flexibility for end-users to authenticate. The planned MFA will integrate completely with SMART21. From multiple discussions and meetings between EITS, OPM and the SMART21 team, the current plan is to use the requested MFA solution for SMART21 rather than attempt to integrate separate MFA products. Pre-planning coordination has occurred regarding the MFA solution integrating with SMART21. For more detail, please see attached white paper.

	This request funds software and support costs of rolling out Office 365 to the Department of Corrections and the Department of Motor Vehicles as part of Phase III of the Office 365 implementation. The Department of Corrections has also requested funding for migrating to Office 365 in its Director's Office budget, and this enhancement is designed to complement that decision unit and reflect EITS' costs to roll-out O365 to Corrections. Please see attached white paper.				
	Please see attached white paper for the DMV migration to Office 365 as well. The DMV has requested an enhancement in its budget to complement this one.

This request funds a pilot program for Virtual Desktop Infrastructure for 100 users.					
In a previous biennium, EITS proposed an "office in a box" solution as a work from home solution to provide the ability to create a secure remote platform that would also relieve the office space scarcity experienced by some agencies. Since the onset of the COVID-19 pandemic, secure work from home capability has become even more important. The State would benefit from a mobile, efficient, and secure workforce. During the pandemic, methods to work from home have included VPN access and other remote access capabilities. Many of the methods used for remote access put the State at risk for data breaches and data leaks, and transfer control of State data to Work-From-Home (WFH) employees with limited IT support. Software and specialty equipment will be needed. There is a year one initial investment which requires initial software purchase and implementation services. Hardware will be acquired by operating lease and will be refreshed every four years. Quotes have been attached as well as an estimate of ongoing annual cost based on leasing and software maintenance.

Budget Account: 1386 ADMINISTRATION - EITS - DATA COMM & NETWORK ENGR

Data Communications and Network Engineering is one of three budget accounts in the Communications unit within the Enterprise IT Services Division. This unit is responsible for all tasks related to developing, operating, and maintaining statewide data; voice over internet protocol (VOIP); and video-communications infrastructure. Most of this effort is focused on the Wide Area Network (WAN), termed SilverNet, and maintaining "connectivity with the outside world" such as internet access for the state and dedicated purpose circuits including federal program connections. Staff tasks include installing and troubleshooting data circuits; installing, operating and maintaining routers, firewalls, event logging, and data switches that tie the circuits together; and engineering, analyzing, and troubleshooting the complex WAN itself. Staff supports over 8,500 network connections representing servers, and network devices (routers, firewalls and switches) in more than 150 locations throughout the state. Customers include all Executive Branch agencies, Constitutional Offices, the Judicial Branch, and to a limited extent, the Legislative Branch. Statutory Authority: NRS 242.

Budget Account: 1387 ADMINISTRATION - EITS - TELECOMMUNICATIONS

The Telecommunications Unit is one of three budget accounts in the Communications Division. This unit is responsible for developing, administering, and maintaining telecommunication services, primarily voice transport, and telephone equipment. This includes a statewide telephone network that integrates voice over internet protocol (VOIP) switches into SilverNet as well as commercial telephone service. Staff tasks include operation and maintenance of key systems; agency consultation, analysis, and basic design to meet their telecommunication needs; including call centers, building wiring design; development, negotiation, and implementation of contract telecommunication services, long distance service, local exchange service, and vendor services. Specific services provided include state phone lines and voice mail; long distance; 800-type toll free service; voice system administration; conference calls and private branch exchange (PBX) network access. Statutory Authority: NRS 242.

E550 TECHNOLOGY INVESTMENT REQUEST

This request funds Phase I of a multi-phase, multi-biennium modernization of the current legacy phone system. Phase I would include an enterprise-level study to establish the scope and investment requirements. The state's legacy telephony platform (Avaya) is end-of-life with the final support contract expiring during the FY 24/25 biennium.

Though the phone system has needed upgrade for a while, the pandemic made the challenges more visible. Critical challenges needing immediate attention are:

* Statewide Network/Voice Analysis - Capture systems and architecture of all executive branch network, telephony, conference, and video communications systems including: Cost Analysis and Historical data collection;

* Statewide Integration of Fixed Video Systems (Cisco) with the state's Business Productivity Suite (O365);

* Unified Communications Platform Pilot;

The complete replacement project would have four phases and take 2 or 3 biennia.

Biennium 1 - FY 22/23:

Budget Account: 1388 ADMINISTRATION - EITS - NETWORK TRANSPORT SERVICES

Network Transport Services (NTS) is the third of three budget accounts in the Communications unit within the Enterprise IT Services Division. This unit, through a combination of microwave, fiber optics, and other wireless technologies, provides transport of communications circuits for federal, state, and local government entities, with many responsible for public safety. NTS also provides large transport circuits for data communications and private branch exchange (PBX)/voice over internet protocol (VOIP) services to other communications units within EITS, such as SilverNet and PBX/VOIP telecommunications, thereby indirectly supporting nearly every state agency. Staff tasks include design and development of backbone microwave communication infrastructure; installation, operation and 24/7 maintenance of microwave and fiber optic communication equipment; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Staff is directly responsible for microwave circuits and transport equipment at state sites that carry public safety traffic. NTS communication sites also host other agency communications equipment and antennas on its towers, and provides commercial and emergency backup power for their equipment. Statutory Authority: NRS 242 & NRS 233F

Section A1: Line Item Detail by GL

Budget Account: 1389 ADMINISTRATION - EITS - IT SECURITY

The Office of Information Security (OIS) is independent from network and information technology operations and is managed by the Chief Information Security Officer (CISO), who reports directly to the CIO. OIS establishes and maintains the enterprise vision, strategy, and program to ensure information assets and technology are adequately protected. As part of the ongoing service delivery, OIS provides leadership and oversight of a comprehensive state information security program which includes continuous monitoring, vulnerability scanning, focused assessments, security incident response coordination, physical security access services, and other operational security services for the Executive Branch. The OIS staff identifies, develops, implements and maintains enterprise security processes to reduce information technology risk. The CISO directs response to incidents, establishes appropriate standards and controls, manages security technologies, and directs the establishment and implementation of policies and procedures. The CISO chairs the State Information Security Committee and is on the Nevada Commission on Homeland Security's Cyber Security Committee. Statutory Authority: NRS 242

E225	EFFICIENCY & INNOVATION				
	This request funds the Security Information and Event Management (SIEM) and Security Orchestration Automation and Response (SOAR) software to more quickly determine security breaches and remedy them as well as collect IT security information from many different places on the state's network to better anticipate cyber-threats.				
	The planned implementation for the SIEM/SOAR function would be as a multi-tenant service to all agencies, with each agency ISO having their own dashboard into their own logs. The Office of Information Security (OIS) would have a view into all logs to provide Enterprise-wide analysis and detection of threats that may be moving between agencies; this will also allow OIS to coordinate effort between agencies and provide general assistance, as needed.				
	Security monitoring and security breach response is currently fragmented and takes staff hours to find the source of breaches by going through security logs. Pursuing a cloud-based subscription service for EITS and agency ISOs will help the state to coordinate and speed up its reaction to security threats. Please see attached white paper.

Budget Account: 1400 SILVER STATE HEALTH INSURANCE EXCHANGE ADMIN

The Silver State Health Insurance Exchange (Exchange) was established pursuant to NRS 695I and the federal Affordable Care Act. The Exchange has been operational to consumers since October 1, 2013 facilitating the purchase of subsidized health insurance for Nevadans.

3510	5TH LEVEL ONE ESTABLISHMENT GRANT The Centers for Medicare and Medicaid Services (CMS) approved a no-cost extension through 12/31/2017 for the Cooperative Agreements to Support Establishment of State-Operated Health Insurance Exchanges. In state fiscal year 2018, these funds were used to provide outreach and education to unreached, and uninsured populations in Nevada per the budget revision request approved by CMS in December 2016. This revenue source is not expected to continue in the 2019-2021 biennium and is therefore eliminated in M150.	0	0	0	0
3601	PER MEMBER PER MONTH (PMPM) FEES This funding represents fees charged by the Exchange pursuant to 45 CFR Part 155.160. The Exchange is funded through a Carrier Premium Fee (CPF) assessed on carriers based on enrollment within the Exchange. The CPF is set annually by the Exchange board and beginning Jan. 1, 2021, will drop to 3.05% of the gross monthly premiums collected by Nevada's on-exchange insurance carriers. Premium projections reflect a 5.0% reduction in Plan Year 2020 (January 1, 2010 through December 1, 2010), and a 2.0% reduction year-over-year thereafter due to economic uncertainty from the COVID-19 pandemic and continued uncertainty of the ACA marketplace. Please see the attached spreadsheet for detailed calculations. [See Attachment]	12,841,468	14,565,168	12,184,245	11,940,560
3841	RECORDS SEARCH CHARGE This funding is for fees associated with public records requests. In June 2020, the Exchange received a records request from Bailey/Kennedy. Pursuant to NRS 239.052, state agencies may charge fees for duplication of records. Additionally, pursuant to NRS 239.052, state agencies may charge actual costs associated with direct costs of fulfilling the request. This public records request will be completed in state fiscal year 2021 and is not expected to continue.	600	0	0	0

7220	OTHER EDP COSTS (NON-EITS) This request adjusts Category 11, Payments to CMS, to fund costs incurred by the Exchange for Prior Plan Year Adjustments. In SFY 19, the Exchange transitioned away from the federal health insurance marketplace, HealthCare.gov, and is now operating as a fully autonomous SBE. In previous fiscal years, the Exchange's Category 11 was used to fund the cost to use healthcare.gov. As the Exchange has now fully transitioned to a State Based Exchange, Category 11 is used to process prior plan year adjustments for previous plan year premiums each month. These adjustments are final reconciliations of premiums that were either not reported by Carriers and the Exchange is responsible for paying the CMS User Fee, or the plan was never effectuated, but the Exchange paid the CMS User Fee on the reported premium amount. Even though the Exchange has fully transitioned to a SBE, adjustments from previous plan years, when the Exchange utilized healthcare.gov, will continue through Plan Year 2026, as CMS allows consumes a seven year look back period for appeals. These adjustments are passed along to Carriers as invoices or refunds due through Carrier Premium Fees. If a prior plan year adjustment results in a refund due to the Exchange from CMS for the User Fee, then a Carrier is entitled to a refund of the Carrier Premium Fee they paid for that premium. Likewise, if the Exchange is invoiced User Fees for Prior Plan Year Adjustments, the Carriers are also invoiced Carrier Premium Fees on the total of the premiums reported. Because the User Fee is less than the Carrier Premium Fee collected, this results in a net cash expense for the Exchange. Initial costs were approved in SFY 2021 through work program C51823. This request continues funding through SFY 23. Please see the attached spreadsheet for supporting calculations. [See Attachment]	0	0	-5,667,763	-5,667,763

E350	PROMOTING HEALTHY, VIBRANT COMMUNITIES This request funds the contract with GetInsured to provide additional call center capacity and expanded operating hours for the Consumer Assistance Call Center during the regular Open Enrollment Period, which is Nov. 11 to Dec. 15 of each year. Per 45 CFR 155.205(a) the Exchange must provide for the operation of a toll free call center that addresses the needs of consumers requesting assistance. The Consumer Assistance Call Center is operated by GetInsured (GI) on behalf of the Exchange, and provides technical support to consumers, enrollment professionals, and brokers in the processes of applying for, and enrolling in, health and dental insurance coverage on NevadaHealthLink.com. The initial contract with GI provided limited weekend operating hours during Open Enrollment. In Plan Year (PY) 2020 Open Enrollment, it became apparent that additional weekend and evening call center hours and capacity was necessary to effectively service Nevada consumers, enrollment professionals and brokers. The Exchange worked with GI to negotiate a favorable contract amendment, providing full weekend call center staffing and availability, and operating hours until midnight on key Open Enrollment dates, at a fixed cost through the duration of the contract. This improves the ability of the Exchange to meet the needs of Nevada consumers, enrollment professionals and brokers in the process of applying for and enrolling in health and dental insurance coverage and ensures access to services and opportunities to that build healthy, resilient communities. Initial costs were approved in state fiscal year 2021 through work program C51386. This request continues funding through state fiscal year 23. E351 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request funds extended consumer assistance call center functionality and weekend call center capacity related to Market Stabilization Special Enrollment Periods (MSSEPs) in state fiscal years 22 and 23 by maintaining Open Enrollment Period staffing levels as outlined in the contract with GetInsured (GI).

On June 29, 2020, the Board of the Silver State Health Insurance Exchange approved regulation EX-05 which provides the Board authority to establish a Market Stabilization Special Enrollment Period (MSSEP) to supplement the Federal Open Enrollment Period (OEP, Nov. 1 - Dec. 15) allowing additional time for Nevada consumers to shop, apply and enroll in coverage on the Exchange.

On July 21, 2020, the Board directed Exchange staff to create a MSSEP, effectively extending the OEP to Jan. 15. of each year.

The extended consumer assistance call center functionality and weekend call center capacity maintain OEP staffing levels through the end of each MSSEP, allowing the Exchange to meet the needs of Nevada consumers, enrollment professionals and brokers, and ensures the consumer assistance call center is fully and appropriately staffed to handle consumer inquiries.

Initial costs were approved in state fiscal year 2021 through work program C51387. This request continues funding through state fiscal year 2023. Please see the attached spreadsheet for supporting calculations and the attached Vendor Level of Effort for details on specific activities.

E352 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request maintains funding for Category 50, Marketing and Outreach, at FY 20 base year funding levels to continue existing marketing and outreach activities.

The Exchange utilizes a contracted marketing and outreach vendor, Penna Powers, who is responsible for strategizing, implementing, and overseeing statewide marketing, advertising and outreach efforts. Historically, Penna Powers has maximized budgeted funding to promote Nevada Health Link, the online enrollment and eligibility platform, enabling access to comprehensive, Affordable Care Act compliant, health insurance for qualified Nevadans.

In SFY 20, Penna Powers was unable to fully execute budgeted funds due to the COVID-19 pandemic and shelter-in-place emergency directives issued by Governor Sisolak beginning in March, 2020.

Between March 13 and June 30, 2020, 64 different outreach events, with a total estimated audience size of 16,558, were cancelled, creating a savings of \$55,819, when factoring costs such as event registration fees, community relations development, and printed materials. Another \$79,420 in savings was realized in the cancellation of planned display media, strategically placed in businesses such as laundromats, hair salons, convenience stores, etc, resulting in the loss of over 5.9 million Nevada Health Link impressions to consumers. Please see attached supporting documentation for further details.

The Exchange also contracts with a second vendor, KPS3, to provide and host an informational website (NevadaHealthLink.com), which serves as the access point for Nevada consumers to the online enrollment and eligibility platform. Due to the pandemic, fewer informational updates were needed, and many of the updates that were needed could be completed by existing Exchange staff, resulting in an overall savings of \$13,160 in SFY 20.

The contract with Penna Powers ends March 31, 2021, and a RFP for a new Marketing and Outreach vendor will be released on or around October 1, 2020. The contract with KPS3 ends March 31, 2022. A new RFP is not anticipated and these services and budgeted funding will be absorbed by the Marketing and Outreach Vendor, TBD.

Requested funding will be used towards marketing and outreach efforts agreed upon in the upcoming RFP. It is critical to maintain current funding to continue to promote awareness of Nevada Health Link and the availability low cost, comprehensive health insurance coverage. Economic forecasts and industry analysts indicate that effects of the COVID-19 public health emergency are likely to remain high for a period of 18-24 months. Therefore it is imperative for Nevada Health Link to continue with ongoing marketing and advertising efforts to reach eligible Nevada consumers to ensure they access comprehensive health insurance.

Total funding is requested at \$3,249,004 each year through SFY 23.

E353 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request funds one classified Health Resource Analyst 2 to absorb functions and/or responsibilities previously provided by the Centers for Medicare and Medicaid Services. In state fiscal year 2019, the Exchange transitioned away from the federal health insurance marketplace, HealthCare.gov, and is now operating as a fully autonomous State-Based Exchange (SBE). The transition required the Exchange to absorb functions and responsibilities previously provided by the Centers for Medicare & Medicaid Services (CMS). In the first year of operations as a SBE, the need for a Health Resource Analyst 2 was identified to concentrate on federally mandated data analysis, research, and reporting to CMS. CMS requires the submission of comprehensive enrollment data multiple times throughout the year, and weekly during the annual Open Enrollment period. The Exchange also receives multiple requests for data from other agencies, including: the Nevada Legislature; the Division of Insurance; other state and county government agencies; academia, the federal government; media; and local and national industry organizations. The Exchange has over 200 new internal data reports produced by its enrollment and eligibility vendor, GetInsured (GI). A Health Resource Analyst is needed to identify statistical trends so the the Exchange can leverage these reports into actionable decisions that ensure continued access to affordable, comprehensive health and dental insurance coverage. This will improve operational efficiency and provide the Exchange with the capabilities to conduct in-house data analytics and provide reporting to all internal and external stakeholders. Current staff are performing these duties where they can, but the number, frequency and complex nature of these requests, and the significant statistical analysis required, has become unmanageable. Current staff does not have the capacity to respond to requests or submit federally mandated reports in a timely manner. The HRA 2 is effective October 1, 2021. Please see attached NPD-19 for additional justification.

E354 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request maintains funding for Category 71, Navigators and Brokers, at state fiscal year 2020 base year funding levels to continue grant awards to navigator and In-Person Assister entities and brokers. Navigators and In-Person Assistants (IPAs) consist of public and private entities that communicate, educate, and enroll eligible individuals in Affordable Care Act (ACA) certified Qualified Health Plans (QHPs) and publicly funded health care through the multiple enrollment methods provided by the Exchange. The Exchange currently awards funds to eight (8) Navigator entities with 26 Full-Time Equivalent (FTE) IPAs.

In state fiscal year 2020, navigator/IPA entities were awarded a maximum of \$3,500 a month, per FTE IPA, reimbursable on a billable hour basis. If a Navigator/IPA entity had a reduction in billable hours they would have a subsequent reduction in reimbursements. Throughout the year, billable hours from IPAs would fluctuate depending on demand and consumer need. For instance, there were much higher billable hour reimbursements during the Open Enrollment Period (OEP), and lower billable hour reimbursements during the Special Enrollment Period (SEP).

This reimbursement methodology made it difficult for funded navigator/IPA entities to develop accurate cost projections and budgets.

The COVID-19 pandemic requiring the closure of non-essential businesses and shelter-in-place orders beginning in March, 2020, had a detrimental impact on navigator/IPA entities and billable hours were significantly reduced. This led to the Exchange realizing savings of over \$300,000 in the state fiscal year 20 Navigator and Broker category.

In an effort to stabilize funding for the Exchange's navigator/IPA entity partners, and to provide a more consistent and stable statewide pool of IPAs, in state fiscal year 2021, the Exchange realigned the reimbursement methodology to be consistent with grant management best practices and reimbursement guidelines as directed by the Office of Grants Procurement, Coordination and Management.

This realignment includes the development and implementation of mutually agreed upon goals and objectives, detailed work plans, and evidence based evaluation methods used to gauge the performance of Navigator entity partners. Reimbursement is based on the maintenance of FTE IPAs and progress towards the achievement of program goals. This provides navigator/IPA entities the ability to focus on broader, longer term goals to identify and assist eligible Nevada consumers with enrollment into QHPs. Supporting calculations are provided.

	<p>This request funds one classified Business Process Analyst 1 in the Security and Reconciliation unit to support increased workloads due to additional insurance carriers joining the marketplace. In state fiscal year 2019, the Exchange transitioned away from the federal health insurance marketplace, HealthCare.gov, and is now operating as a fully autonomous State-Based Exchange (SBE). The transition required the Exchange to absorb functions and responsibilities previously provided by the Centers for Medicare & Medicaid Services (CMS). The Exchange works closely with insurance carriers who offer health and dental coverage on the online marketplace, Nevadahealthlink.com. The Security and Reconciliation unit consists of two Full-Time-Equivalent (FTE) employees and is responsible for coordinating the activities of nine different insurance carriers. Based upon experience gained in calendar year 2020, each insurance carrier requires a minimum of 10-15 staff hours each week to meet the Exchange's service goals for the timely investigation and resolution of system discrepancies, many of which impact the eligibility and insurance coverage benefits of consumers enrolled in QHP purchased on the marketplace. This translates to an optimal staffing level of one FTE for every 3-4 insurance carriers. The Security and Reconciliation unit has been operating at a resource deficit since its inception. The Exchange is anticipating the entry of two new insurance carriers into Nevada's marketplace for 2021, and an additional two insurance carriers in 2022. While this is welcome news for consumers, the entry of new carriers will further strain the resources of the Security and Reconciliation unit. This position is requested to bolster the resources of the Security and Reconciliation unit and ensure that target service levels can be achieved. The Business Process Analyst 1 is effective October 1, 2021. Please see attached NPD-19 for additional justification. [See Attachment]</p>

Marketing, outreach, plan certification, carrier relations, stakeholder management, and broker/navigator functions are provided by the Exchange. The Communications Officer oversees the Exchange's marketing vendor and marketing and outreach campaigns. The current marketing vendor is responsible for strategizing, implementing, and overseeing all outreach efforts, including event organization, planning, and statewide community relations outreach for targeted populations. E358 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request funds one classified Program Officer 1 in the Consumer Assistance unit to support increased workloads due to additional insurance carriers joining the marketplace. In state fiscal year 2019, the Exchange transitioned away from the federal health insurance marketplace, HealthCare.gov, and is now operating as a fully autonomous State-Based Exchange (SBE). The transition required the Exchange to absorb functions and responsibilities previously provided by the Centers for Medicare & Medicaid Services (CMS). The Exchange works closely with insurance carriers who offer health and dental coverage on the online marketplace, Nevadahealthlink.com. The Consumer Assistance unit consists of three Full-Time-Equivalent (FTE) employees and is responsible for coordinating the tier 3 consumer assistance activities of nine different insurance carriers. The Exchange currently has one Program Officer 1, who is responsible for administering the Carrier Support program for all nine carriers and providing timely investigation and resolution of complaints many of which directly impact health insurance eligibility, enrollment and coverage functions of consumers. Delays in the resolution of these complaints has a negative impact on carriers and consumers alike and can result in the loss of benefits or health insurance coverage for consumers. Due to the complex and time consuming nature of the Carrier Support Program functions, current staff have struggled to consistently meet target service goals for complaint resolution. Further, the Exchange has confirmed the entry of two new insurance carriers into Nevada's marketplace in 2021, and an anticipated additional two carriers in 2022, resulting in 13 carriers total. This will further strain the resources of the Carrier Support program. This position is requested to ensure that service levels can be achieved in a timely manner and with positive outcomes for carriers and consumers alike. The Program Officer 1 is effective October 1, 2021. Please see attached NPD-19 for additional justification. [See Attachment]

E360 PROMOTING HEALTHY, VIBRANT COMMUNITIES

This request funds an interlocal agreement between the Silver State Health Insurance Exchange and the Division of Welfare and Supportive Services (DWSS) to satisfy compliance with 45 CFR 155.510 and 45 CFR 155.335

In state fiscal year 2019, the Exchange transitioned away from the federal health insurance marketplace, HealthCare.gov, and is now operating as a fully autonomous State Based Exchange (SBE). The transition required the Exchange to absorb functions and responsibilities previously provided by CMS.

Chapter 45 CFR 155.510 and 45 CFR 155.335 requires SBEs to enter into agreements with agencies administering insurance affordability programs regarding the appeals process for such programs as necessary to fulfill the requirements. In the 2019-2021 biennium, the Exchange estimated a monthly average of three appeals a month that would require appeal adjudication from the hearing's unit at the Division of Welfare and Supportive Services (DWSS). That estimate is revised for the 2021-2023 biennium.

As of July 31, 2020, the Exchange has been able to informally resolve 98% of appeals received. For the 2021-2023 biennium, the Exchange estimates 2% of appeals, or a monthly average of 1.31 appeals per month, will require a formal adjudication hearing utilizing DWSS hearings staff. Per DWSS, the average hourly rate for hearings staff is \$48.82 per hour, which the funds in this request pay for. Detailed calculations are attached.

	This request funds state printing and postage costs for outgoing correspondence to Exchange consumers and state printing costs for a partnership with the Division of Employment, Training and Rehabilitation (DETR), to include Exchange information in Unemployment Insurance mailers.				
	In state fiscal year 2019, the Exchange transitioned away from using the federal platform, Healthcare.gov, to autonomous operation as a State-Based Exchange (SBE) starting in Plan Year 2020 (January 1, 2020 - December 31, 2020).				
	As a result of this transition, the Exchange is required to generate outgoing 1095 tax forms, which must be printed and mailed to consumers. This function was previously provided by the Centers for Medicare and Medicaid Services (CMS). While these were a budgeted cost in the 2019-2021 biennium, the Exchange did not incur costs in state fiscal year 2020 (base) because annual tax forms covered the period of January 1, 2019 to December 31, 2019, and were provided to consumers by CMS. The Exchange will be responsible for providing these tax schedules for PY 2020 (Jan. 1 - Dec. 31) and will incur costs beginning in SFY 2021.				
	This request also funds state printing costs for a partnership with DETR to include information on enrolling in health insurance coverage through the Exchange in mailers that go out to Unemployment Insurance (UI) recipients, thus connecting Nevadans to health insurance.				
	Projected costs include one 1095 tax form mailer per year for 80,000 individual mail pieces consisting of one color page, one black and white page, and one envelope, and state printing and production charges for 350,000 mailer-sized flyers to include in UI recipients correspondence. Please see attached worksheet and quotes for detailed calculations.

	<p>This request funds required ongoing Centers for Medicare and Medicaid (CMS) Minimum Acceptable Risk Standards for Exchanges (MARS-E) Security and Privacy Control Assessment (SCA) and produce an accompanying Security Assessment Report (SAR). The SCA assists CMS information security and privacy staff with understanding the current security and privacy posture of the Affordable Care Act (ACA) information system and its potential impact on the broader ACA program. The SCA also provides the means to identify potential opportunities for supplying targeted technical security and privacy assistance.</p> <p>The CMS MARS-E Security Assessment Control requires all security and privacy controls attributable to a system or application be assessed over a three-year period. Additionally, the MARS-E Independent Assessor Control requires that this assessment be conducted by an "independent assessor," sometimes referred to as a "third-party" assessor. The first SCA was submitted in November 2019, prior to the Exchange's transition to a SBE. The Exchange will be required to submit the next assessment, covering Plan Years 2020, 2021 and 2022, no later than June 30, 2022. The Exchange plans to issue a RFP for the MARS-E SCA and SAR in SFY 22 with an anticipated contract start date no earlier than November 1, 2021. The previous contract, which expired in November 2019 for this service was \$97,500. The expired contract summary is attached. 	<p>This request maintains funding for Category 03, In-state travel, at state fiscal year 2020 base year funding levels to conduct necessary agency business.</p> <p>In state fiscal year 2020, the Exchange was unable to fully execute budgeted funds in Cat 03, In-state travel, due to the COVID-19 pandemic and subsequent cancellation of all scheduled and planned in-state travel by Exchange staff. Per All Agency Memo 2020-08, issued March 16, 2020, only mission-critical in-state travel was authorized for the purpose of performing essential duties related to the protection of life and property or to conduct inspections integral to the security, safety, or proper functioning of the mission. In an effort to contain the spread of COVID-19, protect agency employees and the general public, all planned in-state travel was immediately cancelled.</p> <p>As a result, no in-state agency travel occurred between March 2, 2020 and June 30, 2020, resulting in \$11,029 in unspent funding in Category 03. Though these funds were unspent, these funds were obligated, and had planned travel been conducted, the Exchange would have fully utilized these funds. As a state agency with offices both in Carson City and Henderson, and stakeholders, partners and carriers located both in the northern and southern parts of the state, it is necessary for Exchange staff to travel in-state to conduct agency business. This request maintains funding in Category 03, In-state travel, at base year funding levels in the 2021-2023 biennium. The attached spreadsheet shows actual and cancelled planned travel costs in SFY 20, and travel projections for SFY 22-23.</p> <p>[See Attachment]</p>

	This request maintains funding for Category 30, Training, at state fiscal year 2020 base year funding levels to ensure Exchange staff is adequately and appropriately trained.				
	In state fiscal year 2020, the Exchange was unable to fully execute budgeted funds in Cat 30, Training, due to the COVID-19 pandemic and subsequent cancellation of all scheduled and planned in-state travel by Exchange staff. Per All Agency Memo 2020-08, issued March 16, 2020, only mission-critical in-state travel was authorized for the purpose of performing essential duties related to the protection of life and property or to conduct inspections integral to the security, safety, or proper functioning of the mission. In an effort to contain the spread of COVID-19, protect agency employees and the general public, all planned training and training related travel was immediately cancelled.				
	As a result, training events and conferences scheduled to occur between March and June 2020, were cancelled, resulting in unspent funding in Category 30. Though these funds were unspent, most of these funds were obligated, and had planned training and travel been conducted, the Exchange would have utilized these funds. This request maintains funding in Category 30, Training, at base year funding levels in the 2021-2023 biennium. The attached spreadsheet shows actual and cancelled planned training and travel costs in state fiscal year 2020, and training and travel projections for the 2021-23 biennium.

	This request maintains funding for Category 02, Out-of-State Travel, at SFY 20 base year funding levels to conduct necessary agency business.				
	In state fiscal year 2020, the Exchange was unable to fully execute budgeted funds in Cat 02, Out-of-State Travel, due to the COVID-19 pandemic and subsequent cancellation of all scheduled and planned out-of-state travel by Exchange staff. Per All Agency Memo 2020-08, issued March 16, 2020, all out-of-state and international travel was cancelled unless a written exemption was obtained by the Governor's Office. In an effort to contain the spread of COVID-19, protect agency employees and the general public, all planned out-of-state travel was immediately cancelled.				
	As a result, travel scheduled to occur between March and June 2020, was cancelled, resulting in \$10,080 in unspent funding in Category 02. Though these funds were unspent, these funds were obligated, and had planned travel been conducted, the Exchange would have fully utilized these funds. This request maintains funding in Category 02, Out-of-State travel, at base year funding levels in the 2021-2023 biennium. The attached spreadsheet shows actual and cancelled planned travel costs in SFY 20, and travel projections for SFY 22-23.

E551	TECHNOLOGY INVESTMENT REQUEST				
	This request funds software licensing costs for the Exchange to maintain an existing Affordable Care Act compliant casework system.				
	In November 2019 the Exchange launched the Nevada Health Link State-Based Exchange platform, marking the completion of Nevada's transition away from reliance on Healthcare.gov as the eligibility and enrollment system of record for the state's Affordable Care Act consumers. With this transition came an increase in the Exchange's functional responsibilities, including the need to implement a secure, collaborative casework system for use in cooperation with Nevada's on-Exchange insurance carriers. This system had previously been provided by Healthcare.gov, but in June 2019, the Exchange was informed the Healthcare.gov system would no longer be provided. To maintain compliance with the Affordable Care Act, the Exchange was required to have a compliant casework system, modeled after the system used by Healthcare.gov.				
	Affordable Care Act (45 CFR 156.1010) requirements dictate this system's functionality, including custom management of case resolution deadlines. Various software options were considered and Salesforce was ultimately decided on as the solution was flexible enough to allow for the implementation of all required functionality in-house, without the need for contracted programmer resources. In August 2019, the Exchange purchased licenses for Salesforce, using Master Blanket Purchase order 99SWC-NV18-421, and developed the fully functional, ACA compliant casework system in house.				
	Initial costs were approved in state fiscal year 2021 through work program C50618. This request continues funding through state fiscal year 2023. Please see the attached vendor quotes for SFY 22 and SFY 23, and a copy of the submitted Technology Investment Notification for additional information.

E711	EQUIPMENT REPLACEMENT				
	This request funds the replacement of video teleconferencing equipment per the EITS recommended replacement schedule. Under NRS 6951, the Exchange holds quarterly board meetings. NRS 241 requires that all meetings of public bodies must be open to the public, and all persons must be permitted to attend any meeting of these public bodies. The current video teleconferencing equipment, which has been used by the Exchange Board of Directors to comply with and facilitate NRS 241, broke and became inoperable in the fall of 2019. The video teleconferencing equipment was originally purchased in 2013. The vendor who supplied the equipment notified the Exchange the operating software was no longer supported and recommended the equipment be replaced outright in January 2020. E815 UNCLASSIFIED POSITION CHANGES

This request funds the salary adjustment for the Communications Officer to commensurate with duties of the position.

In State Fiscal Year 2019, the Silver State Health Insurance Exchange (Exchange) transitioned off of the federal platform, HealthCare.gov to operate as a fully autonomous State Based Exchange (SBE). This transition required the Exchange to absorb the functions and/or responsibilities previously provided by the Centers for Medicare and Medicaid Services (CMS); as a result the Exchange added 9 FTEs in the 2019-2021 biennium to perform the functions necessary to support the Exchange's operation as a SBE.

As a result of the recent transition away from HealthCare.gov, the Exchange now has access to consumer enrollment and application data. The Communications Officer has absorbed the responsibility of analyzing that data for marketing and outreach purposes, compiling and sorting the data in order to develop and implement email marketing campaigns to targeted, eligible consumers which consist of existing enrollees of almost 78,000 Nevadans as of the end of plan year 2019 open enrollment. Targeted email messaging and strategy is developed for potential unenrolled consumers on an ad-hoc basis. Analyzing the consumer data includes running complex reports and filters used to target messages, analyze for accuracy, and track the performance metrics of communications being sent.

The Exchange offers Affordable Care Act (ACA) certified qualified health and dental plans to eligible Nevadans who are not covered by their employer, Medicaid, or Medicare through the online marketplace known as Nevada Health Link. The Exchange is the only entity that can facilitate premium subsidy assistance through coordination with consumers, insurance carriers, CMS, and the Internal Revenue Services (IRS). Through the end of open enrollment, the Exchange covers almost 78,000 Nevadans and operates on a solely self-funded revenue basis with an annual budget of over \$23 million.

The Exchange works year round with stakeholders and vendors in conquering its mission to reduce the uninsured and underinsured population throughout the state of Nevada. The Communications Officer oversees strategy and development of marketing, advertising & outreach concepts with the marketing vendor in order to develop messaging and communications to Nevada consumers who are in need of Nevada Health Link health and dental insurance resources and coverage options. The Communications Officer works closely with sister state agencies to develop communications via email or direct mailers to message to Nevadans that Nevada Health Link is a resource to gain and access health coverage. For example, this position works in developing coordinated and strategic messaging and educational resources for the public in partnership and collaboration with the Division of Healthcare Finance and Policy (DHCFP), the Division of Welfare & Supportive Services (DWSS), Department of Employment, Training and Rehabilitation (DETR). This position develops and finalizes messaging and educational resources to over 150,000 unique individuals who are eligible for health coverage in the state.

This request is prompted by the newly adopted responsibilities and staff supervision that the Communications Officer of the Exchange has taken on during, and after, the transition to a SBE. New responsibilities include: identifying, analyzing, interpreting and developing complex creative and effective communication strategies; analyzing, interpreting complex data reports to develop messaging for specific populations, public relations designed to inform and elicit public support; education to consumers for Exchange projects; and data analysis and complex reporting.

Along with the traditional marketing campaign coordination and strategy development, further enhanced duties of the Communications Manager as a result of transitioning to an SBE include analysis of Exchange plan and demographic data to accomplish the following objectives: establish and maintain a recognized brand, promote a positive public image in conjunction with federal, State and local agency programs; maintain the current identity of the state agency and Nevada Health Link by utilizing and abiding by the brand standards set forth; and continually build brand awareness to existing consumers and educate potential new consumers about the importance of enrolling in comprehensive coverage through Nevada Health Link and the benefits of a qualified health plan.

Additionally, this position now plays an even larger role in community relations by encouraging community partners and stakeholders or influencers to advocate to their audiences on behalf of Nevada Health Link. Strategy and development to design and implement a creative, flexible, cost-effective and integrated open enrollment and off season marketing and outreach campaign is done at the direction to and in collaboration with the marketing vendor as approved by the Exchange Communications Officer. This position develops and oversees all communications plans and marketing resources to support the advertising campaign.

E816	UNCLASSIFIED POSITION CHANGES				
	This request funds the salary adjustment for the Information Systems Manager commensurate with duties of the position.				
	In state fiscal year 2019, the Exchange transitioned away from the current model as a State-Based Exchange using the Federal Platform (SBE-FP) towards autonomous operation as a State-Based Exchange (SBE). This transition required the Exchange to absorb functions and responsibilities previously provided by CMS.				
	This request is prompted by additional responsibilities and staff supervision that the Information Systems Manager of the Silver State Health Insurance Exchange has taken on over the course of the transition from an SBE-FP to an SBE. Additional responsibilities, and corresponding staff, include shared management of a technology vendor, a new Reconciliation Specialist Lead, and Reconciliation Specialist. These new responsibilities and staff are a result of functions inherited from healthcare.gov as a result of the transition from an SBE-FP to an SBE. 	This request funds the salary adjustment for the Finance and Research Officer commensurate with duties of the position.				
	In state fiscal year 2019, the Exchange transitioned away from using the Federal Platform, healthcare.gov, towards autonomous operation as a State-Based Exchange (SBE). This transition required the Exchange's Finance and Research Officer to absorb complex functions and responsibilities previously provided by CMS, including carrier billing and reconciliations for approximately 78,000 consumers across eight carriers averaging \$411 million a year. Additionally, as a result of the transition, the Finance and Research Officer oversees and manages nearly \$30 million in total vendor contracts and oversees the supervision and expansion of several key programs critical to the Exchange's success including fiscal and programmatic audits, external reporting and revenue rate setting. This position reclassification request is modeled off the Public Employee's Retirement System (PEBP) Chief Financial Officer position as both agencies are comparable in size, population served, and scope and responsibility of job duties. Additional reporting, shared project management, data analysis, audit assistance, and corresponding staff responsibilities include shared management of a technology vendor, three new quality analysts, and oversight of a 50+-person contracted call center. These new teams - and growth of existing Broker and Navigator teams - are a result of functions inherited from healthcare.gov as a result of ending our business relationship with them and taking these responsibilities in-house at a fraction of the cost and savings to the State.

	This request is prompted by additional responsibilities and staff supervision that the Executive Director of the Silver State Health Insurance Exchange has absorbed as a result of the transition to a state based marketplace from a state based marketplace using the federal platform. Additional responsibilities, and corresponding staff, include a security and reconciliation team, a policy and compliance team, expansion of the communications team responsibilities, expanding the consumer assistance and quality assurance team, and growing the fiscal team. These teams and growth of existing teams are a result of functions inherited from healthcare.gov as a result of ending our business relationship with them and taking these responsibilities in-house at a fraction of the cost and savings to the State.				
	The Exchange offers Affordable Care Act (ACA) certified qualified health and dental plans to eligible Nevadans who are not covered by their employer, Medicaid, or Medicare. The Exchange is the only entity that can facilitate premium subsidy assistance through coordination with consumers, insurance carriers, the Centers for Medicaid and Medicare Services (CMS), and the Internal Revenue Services (IRS). The Exchange is governed by a seven (7) member board; five (5) members are appointed by the Governor, one (1) from the Senate Majority Leader, and one (1) from the Assembly Speaker. The Exchange covers over 78,000 Nevadans and operates on a solely self-funded revenue basis with an annual budget of \$23 million.

	This requests funding to migrate the Court's physical phone system to a virtual format housed on servers, rather than having a physical phone switch. The Court's phone system is aging and is getting increasingly costly to maintain. The existing Avaya system will soon no longer be supported, which will make finding technicians to service it more difficult and more costly. Migrating to a virtual format will ensure sustained service and reduced maintenance costs over the long term. [See Attachment]

	Requests authority to send two IT staff to the OnBase Tech Quest conference to maintain their certifications. The OnBase system is the Court's document management system. In order to comply with maintenance requirements, those who work on adjusting the system must maintain their certifications. The Court has two IT Professionals who work on this system. Attendance at this conference is less expensive and less time consuming than going through the full training and re-certification exam.

	Requests authority to purchase additional licenses for the Court's document management and document routing system (DMS), OnBase. These additional licenses will ameliorate slow downs that have occurred in accessing the OnBase DMS system. As the licenses the Court has are concurrent, the Court can have as many users as needed, however, only as many users as there are paid licenses can access the system at the same time. This has caused delays in employees accessing the system when needed as they await one of the concurrent licenses to be freed up. Additionally, the Court is automating more processes, which will require more licenses for the workflow portion of the system so documents can be routed appropriately and efficiently.

E365 PROMOTING HEALTHY, VIBRANT COMMUNITIES

Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's.

Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised.

Budget Account: 1484 JUDICIAL PROGRAMS AND SERVICES DIVISION

The Judicial Programs and Services Division manages programs and projects to assist trial courts in providing access to justice throughout the Nevada judiciary. The primary functions of the division include: administering the Court Interpreters Program for certification of court interpreters (NRS 1.500-1.560, NRS 50.054); assisting rural courts with requests related to forms, grants, security assessments/risks, etc.; assisting the Supreme Court in studying and making improvements to policies, processes, and procedures in the Court System; administering the Uniform System for Judicial Records, which includes collecting, analyzing, and reporting statewide court and judicial statistics [NRS 1.360 (4, 8, 10), NRS 38.255]; administering the Juvenile Dependency Mediation Program; and administering Federal Court Improvement Program grants. The budget is funded primarily from a General Fund appropriation.

	Reclassifying the positions would align the employees more appropriately with their abilities and skill set which they have exhibited since hiring. PCN 0015 started the position without a supervisor and exhibited the ability to work well above the current classification of Admin Assistant III. This position provides a supportive role for federal grants and the program would be well served to upgrade the position, allowing the individual to work at a higher level. With regard to PCN 0014, the Judicial Programs and Services Unit has evolved in its scope to the point of needing a higher level position. This upgrade to an Admin Assistant III will allow for continued improvements of processes, and will more closely align the salary to these needed elevated job duties.

Requests an upgrade for PCN 0022 from a grade 33 to a grade 35.
The Court has need of higher duties from this position in order to assist the trial courts with proper reporting through the Uniform System for Judicial Records, as well as review and certification of trial courts' case management systems. These activities will help to ensure efficient gathering of court data and compliance with case management standards across the state.

E249 EFFICIENCY & INNOVATION

Requests authority to upgrade the Windows Server software from the 2012 and 2016 versions to the 2019 version. Ties to E249 across multiple budget accounts. Microsoft will discontinue support for Windows Server 2012 on January 10, 2023. The Court currently uses both Windows Server 2012 and 2016. This upgrade to Windows Server 2019 will allow for continuity of maintenance, and also consistency in software, as the Court would then only have one version.

	Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's. Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised. [See Attachment]

Budget Account: 1486 UNIFORM SYSTEM OF JUDICIAL RECORDS

The Uniform Systems of Judicial Records (USJR) standardizes, advances and supports technology in all 74 trial courts throughout the state. USJR staff work directly with local, state and federal criminal justice agencies and courts to provide technological solutions to manage judicial caseloads and records and to improve and address statistical reporting requirements. Major projects include the Nevada Court System (a centralized case management system that distributes case information to multiple courts via secured wide area networks), and the Multi-County Integrated Justice Information System (a secured data exchange system interfacing various criminal justice agencies, such as law enforcement, prosecuting offices, Public Safety and the courts). The budget is funded primarily from administrative assessments collected pursuant to NRS 176.059.

	Request funding for travel related costs for AOC staff to travel to Mesquite Municipal Court to implement a new case management system (JWorks) as the court is scheduled to go live January 2023. A project was approved and contract was signed to migrate to a new web-based case management system (JWorks). The implementation of JWorks will include updating the relevant Multi-County Integrated Justice Information System (MCIJIS) data exchanges. This request is to accommodate the travel of AOC staff related to the onsite work necessary to migrate each NCS court to the new case management software, JWorks. Successful implementations have historically included a minimum of one to two weeks of training, one week of live support, and one to two days of end-of-month financial support, all of which require staff to be onsite at each NCS court location. Some courts will be unable to close for an entire week of training and we have limited training equipment. Planning for two weeks will allow the court to rotate staff and still operate day to day business and allow each court staff to have their own training laptop for hands on learning. The AOC staff will be responsible for setting up the training location, this includes 10 training laptops, printer, network cables, etc. JWorks is a completely new system and will be a significant change to the business of NCS courts, therefore the onsite support and training is needed. This request is to accommodate outbound calls for the 30 NCS courts by funding a license of eCourtDate software which will replace the current Phone Tree software. Reminder messages show an increase in compliance to various due dates including court appearances and court payments. The NCS staff will be responsible for configuring this software after the initial training for each court. [See Attachment]

	Request funding to purchase 5 additional user licenses for the Crystal Server that the courts on the Nevada Court System program utilize. Currently the courts participating in the NCS program use the Crystal Server to generate necessary reports for their day to day processes. The reports include USJR, disposition reporting, court calendar, etc. There are 10 user licenses shared by 30 courts. When all 10 licenses are in use, other court users are not able to sign-in and run their reports. The court user has to wait until someone signs out of the Crystal Server. Adding an additional 5 user licenses will assist the courts in completing their day to day work without delay. [See Attachment]

	Requests funding to purchase a load balancer which will be used to enhance the Multi-County Integrated Justice Information System (MCIJIS) broker software and the JWorks project. Currently, there is a single point of failure with the current MCIJIS broker environment. There is only one server providing CourtView Broker and one providing AOC Exchange services and JLSOAP services. The CourtView broker primarily interfaces with the CourtView Database. Another broker will be added to interface with the JWorks database. The AOC broker interfaces with outside partners, vendors, and JusticeLink. High availability allows for load balancing of traffic, it can send traffic to the broker that has the least amount of work. It also can provide for seamless updates to stop traffic to one broker and do the monthly maintenance/updates, then switch machines and do maintenance/updates on the next machine. In the end, all machines are up-to-date and no down-time is incurred. The vendor for MCIJIS, Equivant, will need to make the modifications. This equipment is also needed for the Jworks project. As the number of courts using Jworks increases, there will be a need to balance the load on the application servers to ensure proper resources for all courts using the program. This equipment will be needed when a large number of courts are using the program. This piece of equipment has been specified as required for the production environment by Equivant.

	Requests funding to enhance the current Multi-County Integrated Justice Information System (MCIJIS) to add capability for additional justice partners to send new warrants and warrant clears electronically through MCIJIS to the Department of Public Safety (DPS). Currently, MCIJIS can only be configured to receive and process warrants and warrant clears for one justice partner. The NCS team has received multiple requests from additional courts to process their warrants electronically. A quote was requested from the vendor, Equivant, to enhance the MCIJIS interface to allow additional justice partners to process their warrant information electronically through MCIJIS to DPS. 	Requests authority to upgrade the Windows Server software from the 2012 and 2016 versions to the 2019 version. Ties to E249 across multiple budget accounts. Microsoft will discontinue support for Windows Server 2012 on January 10, 2023. The Court currently uses both Windows Server 2012 and 2016. This upgrade to Windows Server 2019 will allow for continuity of maintenance, and also consistency in software, as the Court would then only have one version. [See Attachment]

E365	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
	Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's.				
	Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised.

Budget Account: 1487 JUDICIAL EDUCATION

Judicial Education provides for the continuing education of district court judges, justices of the peace, and municipal court judges pursuant to NRS 3.027, 4.035, and 5.025, respectively, and Supreme Court Order. Judicial Education also may provide for the continuing education of quasi-judicial officers such as masters, and for trial court personnel if funding permits. The budget is funded from administrative assessments collected pursuant to NRS 176.059.

E250	INFRASTRUCTURE, ENERGY & ENVIRONMENT				
	Requests authority to replace all aging IT infrastructure that will reach recommended end of life during the next biennium, and keep the replaced equipment as back up alternatives to ensure continuity of operations in the event of a disaster. Ties to all E250 decision units across the Court's budgets. Disaster recovery is a critical component of planned business continuity for the Court. This enhancement will add an additional element of redundancy and significant reduced downtime if a disaster were to occur. [See Attachment]

	Requests funding to increase the budgeted amount for elective judicial continuing education, providing the first increase since the process was initiated. General jurisdiction and limited jurisdiction judges will be able to continue to access substantive and targeted continuing education that will contribute to the mission of promoting the competency and professionalism of the Nevada Judiciary through a comprehensive system of continuing education and training. The number of trial court judges has been increased without additional training funds.

	Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's. Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised. [See Attachment]

Budget Account: 1489 COURT OF APPEALS

Article 6 of the Nevada Constitution, as amended in November 2014, created the Court of Appeals. The Court of Appeals hears categories of cases assigned to it by Supreme Court as authorized by Court Rule. Case types assigned include appeals of administrative agency decisions, foreclosure mediation, venue challenges, and injunctive relief, among others, as outlined in NRAP 17. The budget is funded from a General Fund appropriation.

E238 EFFICIENCY & INNOVATION

Request funding to increase the job requirements and pay level of the court of appeals judicial court administrator positions to allow for the positions to perform judicial chambers' related legal work. Currently, each court of appeals chambers has two law clerks and a judicial chambers administrator (JCA). The current position of JCA does not require a licensed attorney. The current job description does not contemplate complex legal work such as conducting extensive legal research and writing in resolving appeals. The purpose of this request is to allow the JCA position in each chambers to also perform complex legal work, thereby assisting in resolving appeals and increasing the efficiency and quality of the work product of chambers. This allows for additional legal work to be completed in each chambers with minimal cost increase, as no new staff attorney positions, work spaces, or equipment will be necessary. The amount of cases transferred to the court of appeals each year has increased significantly from when the court was first established. This change would allow for three additional attorney-based positions in the court without adding three new staff attorney positions, but rather by enhancing the three existing judicial administrator positions.

E239 EFFICIENCY & INNOVATION

Request funding to reclassify a current unclassified Supervisor Staff Attorney to a Supervisor Staff Attorney II to create an additional level of supervision among staff currently employed and avoid the creation of a new position. This request would take one of two existing supervisor staff attorney positions and increase it to a higher position that supervises the other supervisor as well as all central staff attorneys. This request is made so that the court of appeals central staff organization resembles that of the supreme court, where one person is over all central staff attorneys. This would allow for better coordination of efforts between all central staff. Instead of two separate staffs, this would create one unified central legal staff, overseen by the supervisor staff attorney II, and assisted by the other supervisor staff attorney. The workload can be more easily managed/tracked, and the organization of central legal staff will be more unified and with a clear chain of command. This requires only a minimal increase in expenses because it is using one of the existing supervisor positions and increasing it, rather than having two supervisor positions and then creating a new position that oversees all of central staff and both supervisors. This not only saves in salary and other benefits, but saves in other costs because no new work space or equipment is needed.

	Requests authority to replace all aging IT infrastructure that will reach recommended end of life during the next biennium, and keep the replaced equipment as back up alternatives to ensure continuity of operations in the event of a disaster. Ties to all E250 decision units across the Court's budgets. Disaster recovery is a critical component of planned business continuity for the Court. This enhancement will add an additional element of redundancy and significant reduced downtime if a disaster were to occur. [See Attachment]

	Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised. [See Attachment]

	Requests funding for scanners for the Guardianship Compliance Office in both locations to accommodate efficient storage and retrieval of their case files.				
	The Guardianship Compliance Office (GCO) uses a document management system, OnBase, to store and retrieve its case file documents. The current process to upload them into OnBase, when considering the amount of documents that go into each case file, is inefficient and requires significant staff time. These scanners will upload the documents directly into OnBase, savings staff time and allowing them to spend more time investigating and processing cases.

	Requests funding for continued enhancements to the Supreme Court's e-filing system, including modifications to accommodate increased usage from self-represented litigants.				
	The Supreme Court's e-filing system, Eflex, continues to need modification to accommodate changes in the needs of its customers. This funding will allow nominal changes as needs arise, including making the system more accommodating to self-representing litigants who may not be completely familiar with the appeals process.

	Requests funding to redo the Court's websites in order to maintain compatibility with the State's IT infrastructure since the state is replacing the current platform, Ektron. This will allow the Supreme Court to modify its website in accordance with requirements that will result from the state discontinuing usage of its current website vendor, Ektron. The amount is an estimate only as the work that will actually be needed is not entirely known. The Court will also need the authority to move any or all of this funding from the first year to the second year in the event the state's replacement of Ektron lags.

	Funds the beginning of implementation of a statewide case management system in the trial courts. This request replaces funding taken during budget reductions as a result of the COVID-19 slowdown. This funding was originally appropriated to the IFC Contingency Account in the 2019 Legislative Session in the Appropriations Act (AB 543), Section 78. This request is contingent upon an unsuccessful implementation with a vendor that has been previously engaged by the Court. The Court will know whether this funding is needed by January 2021. Should the funding be needed, the Court will need to be able to spend all or a portion of these funds in either year of the biennium, though an exact timeline is not known at this time.

	Requests funding to begin implementation of a statewide E-filing solution for local trial courts. The 2019 Legislature approved funding for a study to determine the scope and costs of a statewide E-filing solution for the State's trial courts. The consultant hired finished the study in May 2020. This request asks for funding to begin the implementation of the project as outlined in the consultant's final report. Additional funding would be needed in subsequent biennia to finish the project. A statewide E-filing system would allow for standardization of the case filing process and more efficient processing of case documents with any court that wishes to use the system. A portion of the costs for this system will be offset by user fees charged to the end user. The Supreme Court will need the authority to move any or all of this funding from the first year to the second year of the biennium to ensure no delays in the project. [See Attachment]

	Requests authority to purchase additional licenses for the Court's document management and document routing system (DMS), OnBase. These additional licenses will ameliorate slow downs that have occurred in accessing the OnBase DMS system. As the licenses the Court has are concurrent, the Court can have as many users as needed, however, only as many users as there are paid licenses can access the system at the same time. This has caused delays in employees accessing the system when needed as they await one of the concurrent licenses to be freed up. Additionally, the Court is automating more processes, which will require more licenses for the workflow portion of the system so documents can be routed appropriately and efficiently. This decision unit requests authority for the Guardianship Compliance Office to purchase workflow licenses. [See Attachment]

	Requests funding for detachable backup drives to maintain copies of backup data that are not susceptible to cyber attack. Courts around the country are seeing increased cyber attacks, particularly of the ransomware nature. These backup drives will be used to maintain data in a form that is detached from the network, and therefore will not be vulnerable to ransomware and other malware attacks. The Georgia Supreme Court was recently down for six months due to a ransomware attack, which attacked their networked backups first. Once the backups were compromised, the rest of the network was seized. These detached backups we are requesting will be used periodically by temporarily plugging them into the network, making a copy of all the Court's data, and then again being unplugged and placed in a firesafe, allowing the Nevada Supreme Court to continue operations with minimal interruption in the event such a ransomware attack occurs. 	Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's. Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised. [See Attachment]

Budget Account: 1495 SPECIALTY COURT

Specialty Courts are judicial problem-solving processes designed to address the root causes that contribute to criminal behavior. Specialty Courts facilitate testing, treatment and oversight of certain persons over whom the court has jurisdiction and whom the court determines suffers from a mental illness or abuses alcohol or drugs. This includes, without limitation, Specialty Courts established pursuant to NRS 176A.250, 176A.280, 484C.340 and 453.580. The Specialty Court Funding & Policy Committee, comprised of justices and general and limited jurisdiction judges, authorizes distribution of funds to Specialty Courts and other program expenditures.

E250	INFRASTRUCTURE, ENERGY & ENVIRONMENT				
	Requests authority to replace all aging IT infrastructure that will reach recommended end of life during the next biennium, and keep the replaced equipment as back up alternatives to ensure continuity of operations in the event of a disaster. Ties to all E250 decision units across the Court's budgets. Disaster recovery is a critical component of planned business continuity for the Court. This enhancement will add an additional element of redundancy and significant reduced downtime if a disaster were to occur. [See Attachment]

E365	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
Requests authority for a remote desktop server solution to allow for secure remote access to the Court's network from any device using a court issued vpn account. Similar decision units are contained across the Court's budgets which contain FTE's.					
Even prior to the COVID-19 slowdown, the Court had been piloting a secure solution for its employees to access the Court's network remotely as part of its Continuity of Operations Plan. As a result of the slowdown, many court employees were expeditiously granted vpn access in order to work from home; however, the vpn account in many instances only linked the employee to their work desktop computer, which would then access the network. While acceptable in the short term to keep operations going during this extraordinary time, a more secure, single-entry point solution is needed in order to safeguard the Court's data. Courts around the country have increasingly been under cyber-attack, and in some cases this has resulted in lengthy shutdowns of court operations and costly steps to recovery. In order to ensure sustained operations and administration of justice, secure access to the Court's network is vital. As mentioned previously, many court employees were issued vpn accounts during the slowdown in order to maintain operations, with access directly to their work desktop computer, and then by extension into the network. With each vpn account that was issued under these circumstances, the risk to the Court increased as it created more and more entry points to the network. This request would allow the Court's data to be accessed through a single server, thus limiting the number of entry points and the risk of the network being compromised.

Budget Account: 1496 SENIOR JUSTICE & SENIOR JUDGE PROGRAM

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars, and act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" that are recalled and assigned temporary duty. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs of funding full-time judicial positions and from having to provide additional courtroom facilities and staff. This program is funded primarily through a General Fund appropriation and administrative assessment revenue collected pursuant to NRS 176.059.

B000	BASE				
	This request continues funding primarily for coverage of district courts when judges are unavailable for a myriad of reasons, and continues funding for senior judges to participate in other matters such as settlements and specialty courts.

Budget Account: 1497 JUDICIAL DISCIPLINE

The Nevada Commission on Judicial Discipline (Commission) was created by constitutional amendment on November 2, 1976 and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct, or disability of judges. The seven-member Commission receives and investigates complaints against full-time and part-time judges, judicial officers and aspirants to judicial office. For a time, the Commission's proceedings were governed by administrative and procedural rules of the Nevada Supreme Court. However, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its rules and the Commission has since adopted its own procedural rules to govern its proceedings. Constitutional Authority: Nevada Constitution, Art. 6, Section 21.

The Standing Committee on Judicial Ethics (Standing Committee) was created in 1998 by Supreme Court Rule to resolve ethical disputes arising in the course of campaigns for judicial office. It also provides judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. In 2011, the Nevada Supreme Court repealed a section of the rule and eliminated the need for the Standing Committee to resolve ethical disputes arising in the course of campaigns for judicial office. The Standing Committee continues to consider opinion requests regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. The Standing Committee also assists the Nevada Supreme Court by studying and recommending additions to, amendments to, or repeal of provisions of the Revised Nevada Code of Judicial Conduct or other laws governing the conduct of judges and judicial candidates. Statutory Authority: NRS 1.425 to 1.4695, inclusive. Rule Authority: Nevada Supreme Court's Inherent Power to Make Rules.

E225 EFFICIENCY & INNOVATION

This decision unit requests travel funds that were approved during the 2019 legislative session but were not utilized due to COVID-19 and related travel restrictions. Judicial Discipline is requesting the base be adjusted in the in-state travel category. The commission was forced to cancel its biannual in-person meeting, as well as one in-person discipline hearing. Therefore, we are requesting to maintain the legislatively approved travel fund (\$35,534) as fiscal year 20 base did not reflect the actual needs/demands of the Commission due to the COVID and related travel restrictions. If the two meeting/hearing mentioned above took place we would have spent all of the legislative approved funds. See attached log for how much it cost to attend discipline hearing. [See Attachment]

Budget Account: 1498 JUDICIAL SELECTION

Article 6, Section 20, of the Nevada Constitution created the Commission on Judicial Selection. The commission's role is to select three nominees for any Supreme Court justice, Court of Appeals judge, or District Court judge vacancy that might occur before the expiration of any term of office. The commission's workload depends on the number of mid-term vacancies that occur out of the 92 judicial elected officials seats and the number of applicants per vacancy. This budget funds the costs associated with the commission and the judicial selection process through a General Fund appropriation. See NRS 1.380 through 1.410.

Budget Account: 1499 PUBLIC DEFENDER

The Public Defender's Office provides equal protection under the law in accordance with the United States Constitution and the Nevada Constitution by representing indigent adults and juveniles accused of committing crimes in certain rural counties of Nevada. This representation is performed from arrest through trial, sentencing, and appeal. In addition, the office also handles appeals for denial of post-conviction habeas corpus petitions for state prison inmates accused of a crime. Statutory Authority: NRS Chapters 180 and 260.

Budget Account: 1521 GOED - NEVADA SSBCI PROGRAM

The Small Business Jobs Act of 2010 (the Act) was created to help increase credit availability for small businesses. The Act created the State Small Business Credit Initiative (SSBCI) and appropriated \$1.5 billion to be used by the US Department of the Treasury to provide direct support to states for use in programs designed to increase access to credit for small businesses. Nevada's allocation was \$13.8 million. Participating states use federal funds for programs that leverage lending to help finance small businesses and manufacturers that are creditworthy, but have not been able to access loans they need to expand operations and create jobs. In 2017, the US Treasury transferred the program to state ownership. The program currently consists of two initiatives:

1. Collateral Support Program - allows cash collateral up to 35% of a loan to a qualified business to be placed on account at the lending institution. This collateral may be drawn upon on a proportional risk basis in the event of default.
2. Battle Born Venture Capital Program - provides equity and equity-like funding to start-up and growing companies. Companies must have sales to qualify.

Budget Account: 1522 TOURISM - TOURISM DEVELOPMENT FUND

The primary mission of the Nevada Division of Tourism is to generate revenue for the State of Nevada through tourism activities that encourage overnight stays. Tourism accomplishes this through administering a strategic integrated marketing plan that consists of a robust research program measuring visitation and identifying salient consumer purchase behavior; public relations, public affairs and social media outreach; traditional and digital advertising and customer engagement programming including customer relationship management, fulfillment and call center operations; web and mobile application development; domestic and international sales, including a presence at key consumer and travel trade shows; and grants and educational programs and conferences designed to enhance business opportunities for Nevada's tourism industry. Statutory Authority: NRS 231.160 to NRS 231.360.

Budget Account: 1526 GOED - GOVERNOR'S OFFICE OF ECONOMIC DEV

The Governor's Office of Economic Development (GOED) works to diversify and strengthen the state's economy by: attracting companies to Nevada; assisting in the retention and expansion of existing Nevada companies; providing support to start-ups; and developing the workforce that will fill the jobs of Nevada's future. In addition, GOED partners with higher education to increase the research and development/commercialization opportunities for targeted Nevada industries, including: Aerospace & Defense; Health Care; Information Technology; Manufacturing & Logistics; Mining; Natural Resource Technologies; and Tourism & Gaming. The office works closely with local, regional and statewide entities to achieve the goals that were first identified in the 2012 GOED State Plan for Excellence in Economic Development, which also includes expanding global exports and increasing foreign investment in Nevada. Statutory Authority: NRS 231.

Budget Account: 1528 GOED - RURAL COMMUNITY DEVELOPMENT

The Rural Community Development budget houses the state's Community Development Block Grant (CDBG) Program on behalf of small cities and rural counties in Nevada. The goal of the CDBG Program is to build rural Nevada communities where current and future generations can choose to live healthy, productive, and prosperous lives. Through collaboration with various government agencies, businesses and non-profit groups, the CDBG Program assists rural communities to remain economically viable by improving living conditions and providing economic opportunities through the administration of Nevada's share of the federal Community Development Block Grant, as well as providing training and technical assistance. The CDBG Program helps provide communities with adequate infrastructure, suitable housing and living environments, and encourages sustainable community and economic development. Activities are focused primarily for the benefit of low-to-moderate income persons. Statutory/Regulatory Authority: NRS Chapter 231, 24 CFR Part 570, 24 CFR Part 91.
