 This Decision Unit will acquire a new dump trailer for the Las Vegas nursery to enhance the capability of transporting materials critical to the operation's plant production. This request would replace an NDF dump truck with a dump trailer for use in NDF's plant material program. The Las Vegas nursery uses a dump truck in its daily operations to pick up, drop off and move soil and aggregate, plant materials, yard waste, heavy pots/plants, irrigation supplies, and other materials necessary for production of conservation plant materials. The dump truck being replaced is 31 years old and has become unsafe to operate, expensive to maintain and has not been operating since 2019. The lack of a reliable piece of equipment to perform the necessary operational tasks at the nursery hinders operations while staff wait for repairs. The dump truck will be replaced with a dump trailer that will cost less and be more versatile for the nursery operations.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
00	REVENUE				
	Resources available to finance expenditures.				
2511	BALANCE FORWARD FROM PREVIOUS YEAR	0	0	0	-7,000
	Balance forward funds include unexpended Seedbank revenues received for the sale of seed stock as well as unused revenue from the Forest Products program. These fees are collected, used for the current year expenditures, and when excess funds are collected in the current year, they are carried forward to future years to cover the initial purchase of seed and other operational costs. These balance forward funds are also utilized to support the funding of the forestry nursery program. The total fiscal year nursery plant sales revenues have been insufficient to fully support the salary and operating expenditures of the nurseries. Therefore, as this is an inclusive Enterprising Fund, a portion of the excess cash on hand, which is balanced forward each fiscal year, assists in supporting the nursery expenditures when current year plant sales are insufficient to support current year costs incurred.

E721 NEW EQUIPMENT
 This Decision Unit will acquire 2 new soil mixers for use at the Washoe and Las Vegas nurseries to increase efficiency and quality of soil mixing through mechanization. Both the Washoe and Las Vegas nurseries rely on inmate labor to hand mix the soil and planting media used for growing plants. Mixing the planting media by hand is inefficient with the production rate of approximately three person hours to produce one cubic yard of media. The soil mixing is often uneven which leads to poor drainage and plant growth and other associated problems. Evenly mixed soil has drainage materials and fertilizer mixed throughout, leading to better plant vigor and evenly sized crops. Soil mixing machinery contains an auger that evenly rotates and blends the media, and a conveyor belt that will deposit the media on the planting bench. It is estimated that this machine would save 2 person-hours per planting day. This time savings can be used for transplanting seedlings with an estimated additional 3,000 transplants produced per year, with an estimated value of \$20,600.00.

Budget Account: 4285 DCNR - ACCOUNT FOR OFF-HIGHWAY VEHICLES (OHV)

The Nevada Commission on Off-Highway Vehicles was established on July 1, 2011, to promote the responsible use of recreational off-highway vehicles pursuant to NRS 490. The Commission has granting authority for OHV registration fee proceeds with grants awarded in accordance with approved regulations. Grants are provided for law enforcement, education/public awareness, and OHV trail management and development. The Nevada Commission on Off-Highway Vehicles was placed within the Nevada Department of Conservation and Natural Resources (DCNR) in May 2016. This was done in part through an Interim Finance Committee action that created an initial Executive Budget for the OHV Commission within the Department of Conservation and Natural Resources fiscal structure as Agency 703. AB29 of the 2017 Legislature officially created the Off-Highway Vehicles Program within the Department of Conservation and Natural Resources.

E251 INFRASTRUCTURE, ENERGY & ENVIRONMENT

The Off-Highway Vehicles Program requires funds for maintenance and covered storage to accommodate equipment added to the program over the past year. The Program purchased an Off-Highway Vehicle (OHV) with support from a Yamaha Outdoor Access Initiative grant. This OHV is currently stored outdoors, open to the elements at the Washoe Valley Forestry Yard (885 Eastlake Blvd, New Washoe City, NV 89704) at no cost to the program. Sun exposure to tires, plastics, rubber hoses, belts, and greased points on the OHV lead to dry rot resulting in unsafe operating conditions and premature failure. The OHV and support equipment as a resource is one of the most valuable assets in the program. It is used around the state for OHV grant audits and public facing events. The OHV is used in extreme conditions and is susceptible to silt, water, and rocks. Because of these operating conditions, the machine should be serviced regularly. \$2000 per year will cover maintenance costs of the OHV. A covered trailer that holds the OHV, support equipment, and outreach materials is estimated to cost \$7233. Informational items including banners, registration handouts, OHV summit materials, OHV Tourism materials increase clutter in the work environment and are used mostly during public outreach events. While these materials are necessary, they should be inventoried and stored in the trailer until public meetings and events resume. An enclosed trailer and OHV Maintenance cost estimates total \$9233. This mobile unit will be stored at the current facility, at no charge and provides protection from the elements. A general quote for the trailer is attached.

E252 INFRASTRUCTURE, ENERGY & ENVIRONMENT

The Off-Highway Vehicles (OHV) Program will need to travel to multiple destinations outside Nevada to better understand OHV management strategies implemented with longer standing programs in neighboring states. An out of state travel budget is requested to help in growing the OHV program.

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	Funds to attend the annual NOHVCC conference, a meeting of OHV managers, community groups, and industry are requested. The Nevada OHV Program has attended this conference since 2018 and helped to host the event in Reno during fall of 2019. The 2020 conference has been delayed but will tentatively occur in Tennessee. Attendance at this conference helps the program to understand and resolve issues that arise across jurisdictions, because of the variety of attendees. Annual attendance to the neighboring California OHV Commission Meeting is requested, as our programs have interconnected projects within the Tahoe Basin and south to the Bishop Ranger District on the Inyo National Forest. A separate tour to audit two NV OHV grant projects along the Nevada- California border is also included. Both trail projects (19-08 & 19-15) involve maintenance of Forest Service facilities and trails designated for OHV Recreation, so this audit requires a motor pool vehicle capable of towing the program OHV. Three scouting trips to Utah, Arizona, and Idaho are requested. These states have an Annual OHV Decal that is proposed to be emulated in Nevada. Travel is requested to observe implementation of the decal program and tour OHV recreation sites funded by decal revenue. A supplemental goal of the Arizona trip is to observe their OHV Stewards Program, where enthusiasts volunteer time each month to host training rides, cleanups, and trail maintenance events. Tour sites in Utah and Idaho may include the need for 4wd or an OHV so travel to both states will require a state vehicle capable of towing the program OHV. The importance of the out of state budget request stems from the changes occurring in Nevada OHV registrations and grants. Growing quality and quantity of OHV grant projects require consultation with other states to make sure we get it right the first time. While majority of this travel was delayed from 2020 due to the Coronavirus Pandemic, the trips are necessary for staff to gain an understanding of how OHV projects are managed in neighboring states. [See Attachment]

	Office supplies and printing needs				
	The Off-Highway Vehicles (OHV) Program requires funding to maintain outreach materials and office operations. \$1000 is requested for an order of ink cartridges for a large format plotter printer. Another \$500 could be used for office supplies to include highlighters, pens, and notebooks commonly required in an office setting and for hosting public meetings.				
	Additionally, the program seeks funding to cover outreach materials associated with OHV registrations and grant projects in Nevada. Materials that require quality printing include rack cards, posters, and stickers that promote program messaging and are used regularly at public events, registration drives, and displayed at local OHV dealerships around the state. The purpose of these materials is to educate OHV users about safe operation, the registration program, and examples of how OHV registration dollars are used for grant projects. \$2500 is requested for these materials.

E226	EFFICIENCY & INNOVATION In addition to Engineering's typical yearly expenditures such as license renewals, code books, office supplies, phones, and training, etc., a budget enhancement is being requested to cover big ticket items. In the past, the engineering budget, which is typically around \$7,000, was not sufficient to cover many of the items listed on this itemized budget. In addition to Engineering's typical yearly expenditures such as license renewals, code books, office supplies, phones, and training, etc., a budget enhancement is being requested to cover big ticket items such as an annual State Public Works Division building permit to cover most of the department's projects, engineering consultant contracts for special projects and software fees for annual usage licenses. Changes in NDOW's administrative structure justify this budget enhancement request. With the change in NDOW's administrative structure, the Operations division, which included the engineering section, was eliminated. In place of the Operations division, a new division was created, Data and Technology Services, and at that time the engineering section was placed under the Director's Office. With that change, funding was eliminated for items required by the engineering section. These items include, but are not limited to, software updates, professional licensing, telephone, and office supplies, etc. In addition to the items listed above, the engineering section recently began utilizing Nevada State Public Works annual permit. The permit, which costs NDOW \$3,000, helps streamline minor construction and maintenance permitting processes, allowing the engineering section to be more efficient. Contracts for engineering consulting services which are not associated with an NDOW office facility, wildlife management area, or fish hatchery are also funded by the maintenance of buildings and grounds category. The engineering section is planning on contracting with consultants to complete similar type projects in the upcoming budget cycle. [See Attachment]

E234	EFFICIENCY & INNOVATION This is for the automated external defibrillators (AEDs) maintenance cost and associated expenditures. This decision unit is tied to decision unit E710, Equipment Requests. This is for the automated external defibrillators (AEDs) maintenance cost and associated expenditures. This decision unit is tied to decision unit E710. This enhancement will provide authority for the AED safety coordinator to travel to different facilities for safety committee meetings and a risk management conference and to complete safety inspections at all facilities. This enhancement will also allow for AED repairs and refurbishing older units that cannot be warranted. [See Attachment]

E236	EFFICIENCY & INNOVATION The Nevada Department of Wildlife is requesting an annual budget enhancement for maintenance of state-owned Wildlife Management Area (WMA) and Fish Hatchery staff residences. The department's WMAs and Hatcheries include 26 staff residences and support structures. The budget enhancement requested will be used to address annual maintenance items at these facilities that have been neglected due to budget limitations. Some of these annual maintenance items include but are not limited to pest control, HVAC service and repair, septic service and repair, interior and exterior paint, and flooring. The budget allotted for some of these items would be amortized so that funds could be used to address items incrementally. For example: a budget enhancement for flooring would be used for replacing flooring in one to two residences per year. The department would continue with this model until the deteriorated flooring at all the staff residences had been replaced. As the costs associated with staff housing maintenance have continued to rise, the department's housing maintenance budget has remained relatively unchanged. It is understood that all state agencies have been encouraged to do more with less however the department has reached a tipping point. The Nevada Department of Wildlife's maintenance budget has become insufficient with respect to the number of facilities and the extent of maintenance required at those facilities. Regular maintenance items have been deferred at these facilities for years due to budgetary constraints. Further deferral could potentially render some department staff residences unsuitable for occupancy. [See Attachment]

E730	MAINTENANCE OF BUILDINGS AND GROUNDS This request funds deferred maintenance for office facilities. Department facilities include three regional offices, four field offices, and 28 associated office support structures/facilities, 16 hatchery employee residences and 53 hatchery support structures/facilities, 10 Wildlife Management Area (WMA) employee residences and 95 WMA support structures/facilities. The budget enhancement requested will be used to address maintenance items at these facilities that have been set aside in favor of other projects or programs over numerous budget cycles, contributing to an accelerated state of degradation and potential decrease in intended life span of said facilities. These maintenance items have been deferred. As the costs associated with facility maintenance have continued to rise, the Nevada Department of Wildlife's facility maintenance budget has remained relatively unchanged. The department's maintenance budget remains insufficient with respect to the number of facilities and the extent of maintenance required at those facilities. Further deferral could potentially render some facilities inoperable and/or unsalvageable. The department continually reviews the condition of its facilities and along with the State Public Works Division Facility condition analysis reports to develop a prioritized list of deferred maintenance items and associated costs. The department's current priority classifications 1 & 2 encompass deferred maintenance items including building envelope, carpet, facilities deep cleaning, HVAC, water treatment, and roofing, all of which fall within the deferred maintenance decision unit guidelines. These priority 1 & 2 classifications projects consist of the remaining priority 2 & 3 classification projects from the last biennia that have been upgraded due to their age and natural course of progression. The department's remaining priority classification 3 projects may have to be considered in alternate budget enhancements as they do not fall within the deferred maintenance guidelines. [See Attachment]

E901	TRANSFER 1 PCN FROM BA4461 TO BA4460 This request transfers one Administrative Assistant II position from budget account 4461, Data and Technology Services, to budget account 4460, Director's Office as a Maintenance Repair Worker II. In August 2019, Department of Wildlife's Southern Region office moved into a new building which is state-owned, not leased. The new building has regular maintenance needs that are more than current staff can handle in terms of time and skill. The previous incumbent retired from state service in November which allowed the department to analyze the options and needs for the maintenance tasks to be completed. The position will be responsible for performing semi-skilled repair, construction, and/or building maintenance tasks on southern region buildings and facilities, as well as other regions of the state if required. Tasks may include, but are not limited to basic plumbing, repair valves, fixtures, sinks, toilets, drinking fountains, drains; basic carpentry framing, sheetrock, door repair, flooring, locks/keys, roof repair, painting; basic electrical work; instruct and supervise janitorial contractor; building exterior groundskeeping. 3527	FED COMPREHENSIVE CARE GRANT Annual U.S. Fish and Wildlife Service Sportfish Restoration grant for the Boating Access program. The objective of the Boating Access program is to coordinate and administer the Boating Access component of the Sport Fish Restoration funds for Nevada. This program benefits recreational boaters by facilitating the development of many new and rehabilitated public boat access sites in Nevada, improving and expanding the ability of boaters to enjoy Nevada's waterways.	0	91,314	0	0
3580	FED COAST GUARD GRANT Annual U.S. Coast Guard Recreational Boating Safety grant for Boating Safety Enforcement and Boating Safety Education programs. The Recreational Boating Safety (RBS) Federal financial assistance program was first established by the Federal Boat Safety Act (FBSA) of 1971 to "encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities." The trust fund receipts consist of Federal excise taxes attributable to motorboat and small-engine fuel use and on sport fishing equipment, along with import duties on fishing equipment, yachts and pleasure craft. The Boat Safety Account is funded solely from motorboat fuel taxes. The Sport Fish Restoration Account receives a portion of the motorboat fuel tax as well as all other trust fund receipts.	263,003	249,760	334,290	345,429
4235	COST ALLOCATION IC FOR DEPT IT SRVS Indirect costs that are charged to the Department of Wildlife's other divisions to fund the Data and Technology Services' indirect cost activities.	1,256,335	1,764,423	833,548	952,270
4301	RENTAL INCOME - NON-EXECUTIVE BUDGETS Monthly rent charged to the department employees who live in state-owned housing at the fish hatcheries or the wildlife management areas. The rental calculation is \$50 dollars per pay period multiplied by the number of occupied residences each pay period.	0	31,590	0	0
4661	TRANSFER RESOURCE ENHANCEMENT STA Transfer of Resource Enhancement Stamp revenues from Budget 4458 Wildlife Fund. This funding source pays for expenditures related to marketing and outreach of the Dream Tag program.	0	87	0	0
4669	TRANS FROM OTHER B/A SAME FUND Transfers in from another budget account, within the same fund.	37,295	0	0	0

E225	EFFICIENCY & INNOVATION				
	This request eliminates an Administrative Aid position and a seasonal Administrative Assistant II position to add one permanent full-time IT Professional II position.				
	The Department of Wildlife currently has a very small Technology unit with only three designated positions to support over 250 full-time staff, plus contracted and seasonal staff. The current industry median for IT staff to total employees is 1:18 - NDOW has 1:83. This means the existing IT staff can only keep up with servicing computers and the department's infrastructure. Currently, there is no expertise or available time to do application development.				
	The Department has an overwhelming need to have application development in order to help the biologist store and automate analyzing the data that is collected to conserve the 892 species of animals that call Nevada home. There are currently 10 different projects waiting for resources to assist with development. Without dedicated staff to work on them, the Department will be forced to use external vendors to develop these small projects.

E230	EFFICIENCY & INNOVATION Two technician-level State FTE positions are critically needed and will replace contracted staff through a temp agency. This request, in 4461 is for the computer costs needed for the new FTE's and is companion to E230 in Budget Account 4465, where the request for the staff is being made. The absence of two technician-level FTE positions at Lake Mead has significantly impacted the ability of the Technician III position and program manager to continue operating the 4 watercraft inspection stations while implementing other key elements of the AIS Program at Lake Mead. This is due to the extremely high turnover rate of temporary contract employees performing job duties that NDOW FTE positions would be assigned to, resulting in a constant and ongoing loss of acquired job skills and constant training requirements for new contract staff. The time and competency level required to manage and implement the in-town watercraft inspection program for auction houses and dealers, the mechanic wash program for repair companies, fish tournament initiative, and AIS training program is not sustainable using contract staff. Two technician-level State FTE positions are critically needed to provide continuity of program skills and knowledge, year-round management and support functions for the AIS Program at Lake Mead and to continue containment measures of preventing the spread of quagga mussels statewide outside of Clark County. [See Attachment]

2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	One technician-level State FTE position is critically needed and will replace a contracted staff through a temp agency. This request in 4461 is for a computer for the new FTE and is companion to E231 in Budget Account 4465, where the request for the new position was made. The new position will provide permanent full-time staffing at the Alamo Roadside Station located on the northbound lane of US Highway 93 approximately 10 miles south of the town of Alamo in Lincoln County, Nevada. The station is a key location that allows interception of north-bound trailered watercraft from quagga mussel-infested waters in southern Nevada and the lower Colorado River Basin before they reach destination waters in eastern and central Nevada and northern states. The roadside station provides watercraft users free-of-charge vessel inspection and decontamination services and important educational outreach including the Clean, Drain and Dry (CDD) methodology and AIS prevention outreach. Station operations are labor-intensive and require significant staff time for continued year-round operation and equipment maintenance. The absence of a permanent technician-level FTE position at Alamo Roadside Station has significantly impacted the ability to operate the station year-round, 7 days a week. One technician-level FTE position is needed to provide year-round free-of-charge inspection and decontamination services to watercraft users. A State FTE position is critical to provide operational stability and for oversight of contract staff when available to address peak use periods. Supervision for the State FTE position will be provided by the existing AIS FHT III position at Lake Mead. [See Attachment]

E300	SAFETY, SECURITY AND JUSTICE This request is companion to Bill Draft Request (BDR E300). The Nevada Department of Wildlife has not modified registration fees since 2003. The proposed BDR would modify power-driven vessel registration fees. If approved this request will replace Sportsmen Revenue with the new registration fees. Currently, the Nevada Department of Wildlife spends resources on education, boating access, and search and recovery for human-powered vessels but does not have any way of tracking data for these vessels. The BDR would provide for registration for human-powered vessels at a low cost. Lastly, the BDR matches terminology to revised Coast Guard Code of Federal Regulation. 50 percent the Department's motorized vessel registration fees is directed to education. Those monies are deposited to the respective county school districts. [See Attachment]

E901	TRANSFER 1 PCN FROM BA4461 TO BA4460				
	This request transfers one Administrative Assistant II position from budget account 4461, Data and Technology Services, to budget account 4460, Director's Office as a Maintenance Repair Worker II. In August 2019, Department of Wildlife's Southern Region office moved into a new building which is state-owned, not leased. The new building has normal and anticipated maintenance needs that are above and beyond the skill set of current staff. The previous incumbent retired from state service in November which allowed the department to analyze the options and needs for the maintenance tasks to be completed. The combining of two locations reduced the need for the administrative assistant 2. The position will be responsible for performing semi-skilled repair, construction, and/or building maintenance tasks on southern region buildings and facilities, as well as other regions of the state if required. Tasks may include, but are not limited to basic plumbing, basic carpentry framing, roof repair, painting, basic electrical work, instruction and supervision of janitorial contractor, and exterior groundskeeping. E902	TRANSFER BOATING REG FROM BA4461 TO BA4463				

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This request transfers all budget authority in Category 18: Boating Registration and Titling from Budget Account 4461, Data and Technology Services to Budget Account 4463, Law Enforcement. This request intends to realign the boating registration and titling aspect of NDOW's duties under the Law Enforcement division. The Law Enforcement division is responsible for enforcing boating laws, and as such, boating registration and titling expenses are better suited to fall under the Law Enforcement budget account.				
REVENUE					
00	REVENUE				
4761	TRANS BOATING REVENUE Transfer of boating fee revenues from Budget 4458 Wildlife Fund to provide the required state match for the U.S. Coast Guard Recreational Boating Safety grant and the U.S Fish and Wildlife Service Boating Access grant.	0	0	-21,075	-21,075
4776	TRANS FROM 4458-MBF TAX ASSESS In accordance with NRS 365.535, this is annual revenue received from the Department of Motor Vehicles. It is excise tax paid on motor vehicle fuel used in watercraft for recreational purposes which is to be used for improvement, operation and maintenance of boating facilities and other outdoor recreational facilities associated with boating.	0	0	-31,913	-31,913

E227	EFFICIENCY & INNOVATION This request eliminates two 30-hour seasonal Conservation Aid volunteer positions and adds two permanent full-time Conservation Educator III positions. Volunteer support enables agency personnel to fulfill the agency mission by completing projects in a cost efficient and timely manner. Volunteer labor and mileage contributions provide match required to access federal money that makes up the bulk of the department's annual budget. To count as match, however, donated hours must be reported using a timesheet similar to that used by state employees. Following up on timesheets and other documentation can be demanding on the biologists and take them away from their field duties. As the department's expert on the use of volunteers, the Volunteer Program Coordinator will shoulder the load for recruiting and scheduling volunteer assistance, thus enabling biologists to focus on the scientific aspects and details of each project. Moreover, the coordinators will ensure that each volunteer is properly registered, for their protection and that of the agency, that all required paperwork is properly completed, timesheets are completed properly and meet federal standards, and volunteers are properly trained for the project on which they are working. With the increased human population also comes an increased need for public education programs on a community level as well as within the local school districts. Human-wildlife conflicts or issues are a daily occurrence. Some people are concerned for wildlife and others are concerned about having a negative interaction with wildlife. These positions will increase department capacity to provide the necessary educational programming to proactively address some of those concerns. Similarly, demands from within the education realm is far more than we can currently accommodate. These positions will add additional capacity in this area, as well as community education and public information/relations. [See Attachment]

Budget Account: 4463 WILDLIFE - LAW ENFORCEMENT

The Law Enforcement Division's mission is to: oversee wildlife protection; boating safety enforcement and education; implement the Operation Game Thief Program; investigate major wildlife crimes; provide law enforcement dispatch services and radio communications for the department; mediate human-wildlife conflicts; administer guide licensing; investigate wildlife attacks on humans; and investigate hunting-related shooting incidents.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 52 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]

3500	WILDLIFE RESTORATION 15.611 Annual U.S. Fish and Wildlife Service Wildlife Restoration grant for the Wildlife Restoration program	1,111	0	0	0
3580	FED COAST GUARD GRANT Annual U.S. Coast Guard Recreational Boating Safety grant for Boating Safety Enforcement and Boating Safety Education programs. The Recreational Boating Safety (RBS) Federal financial assistance program was first established by the Federal Boat Safety Act (FBSA) of 1971 to "encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume the greater share of boating safety education, assistance, and enforcement activities." The trust fund receipts consist of Federal excise taxes attributable to motorboat and small-engine fuel use and on sport fishing equipment, along with import duties on fishing equipment, yachts and pleasure craft. The Boat Safety Account is funded solely from motorboat fuel taxes. The Sport Fish Restoration Account receives a portion of the motorboat fuel tax as well as all other trust fund receipts.	677,366	1,138,631	1,044,599	1,065,017
3590	ALL FEDERAL SMALL GRANTS These are opportunity grants that arise each year from several different federal agencies such as the Bureau of Land Management, U.S. Fish and Wildlife Service and Natural Resource Conservation Service.	0	0	73,448	74,941
3801	FED BLM CONTRACT DISPATCH These annual revenues are received from the U.S. Fish and Wildlife Service, Bureau of Land Management and U.S. Forest Service to provide them with law enforcement dispatch services in northern Nevada. The Agency's revenue and expenditure fund mapping is an estimate of how the budgets might be funded in FY22 and FY23.	36,750	47,903	0	0
4274	BOATING PARTNERSHIP PROGRAM Annual transfer of funds from Clark County for boating safety programs in the county that serve the Lake Mead National Recreational Area and the Nevada side of the Colorado River system.	30,000	40,926	29,905	29,905
4669	TRANS FROM OTHER B/A SAME FUND Transfers in from another budget account, within the same fund.	24,034	0	8,565	8,555
4757	TRANS FROM DPS CRIMINAL JUSTICE Transfers from the Department of Public Safety.	3,248	177	0	0
4760	TRANS FROM 4458 - SPORTMENS REVENUE Transfer of Sportsmen revenues from Budget 4458 Wildlife Fund to fund wildlife law enforcement activities.	4,157,099	5,177,827	5,576,507	5,799,752
4761	TRANS FROM 4458 - BOATING REVENUE Transfer of boating fee revenues from Budget 4458 Wildlife Fund for boating safety activities associated with the annual U.S. Coast Guard's Recreational Boating Safety grant.	630,726	610,998	366,814	242,095
4770	TRANS FROM 4458 - GUIDE FEES Transfer of guide fees from Budget 4458 Wildlife Fund to fund the oversight of the guide application process.	55,340	126,059	61,390	62,882
4775	TRANS FROM 4458 - OPERATION GAME THIEF Transfer of Operation Game Thief donations and civil penalties from Budget 4458 Wildlife Fund to fund the Operation Game Thief program.	45,129	92,880	29,140	29,140
4776	TRANS FROM 4458-MBF TAX ASSESS In accordance with NRS 365.535, this is annual revenue received from the Department of Motor Vehicles. It is excise tax paid on motor vehicle fuel used in watercraft for recreational purpose which is to be used for improvement, operation and maintenance of boating facilities and other outdoor recreational facilities associated with boating.	938,530	1,101,827	-31,913	-31,913
4777	TRANS FROM 4458 - AIS FEES Transfer of boating Aquatic Invasive Species (AIS) fee revenues from Budget 4458 Wildlife Fund for the department's Aquatic Invasive Species (AIS) program. This funding source is also used as state match on federal grants under this program.	0	0	-7,226	-7,226

E229	EFFICIENCY & INNOVATION				
	We are requesting to eliminate two seasonal Game Warden III positions and add one permanent full time Game Warden III position.				
	The population and use of the Lake Tahoe area has seen significant increase and, naturally there has been a growth in public demand for Game Warden services in the area, both on land and water. This measurable increase in applicable duties, coupled with the difficulty of finding eligible and interested seasonal Game Warden candidates is prompting this request. The current staffing framework with Lake Tahoe being covered by two seasonal Warden positions no longer works, and is creating an issue wherein the Department has been largely unable to perform adequate RBS patrol on Lake Tahoe as required by the United States Coast Guard. The Department seeks to discontinue both seasonal Game Warden 3 positions in favor of the creation of this permanent Game Warden 3 position assigned primarily to RBS patrol on Lake Tahoe, so as to better ensure constant and adequate RBS patrol, as well as assist our other area Game Wardens by supplementing coverage of land duties in the area, and decreasing the amount of time they are called away from duties in land areas to cover duties on the water.

E300	SAFETY, SECURITY AND JUSTICE This request is companion to Bill Draft Request (BDR E300). The Nevada Department of Wildlife has not modified registration fees since 2003. The proposed BDR would modify power-driven vessel registration fees. If approved this request will replace Sportsmen Revenue with the new registration fees. Currently, the Nevada Department of Wildlife spends resources on education, boating access, and search and recovery for human-powered vessels but does not have any way of tracking data for these vessels. The BDR would provide for registration for human-powered vessels at a low cost. Lastly, the BDR matches terminology to revised Coast Guard Code of Federal Regulation. 50 percent the Department's motorized vessel registration fees is directed to education. Those monies are deposited to the respective county school districts. [See Attachment]

E301	SAFETY, SECURITY AND JUSTICE This decision unit will create the necessary authority to provide services related to body-worn camera systems for game wardens across the state of Nevada. The use of body cameras was a major topic of discussion during the 80th Legislative Session. Since then, there has been a subsequent legislative special session to address peace officer use of force and other law enforcement issues. With these changes in law enforcement, body cameras are now considered best practice and a public expectation. The Department would like to initiate the process of obtaining body cameras in order to meet public expectation and new changes to law enforcement practices.

E805	CLASSIFIED POSITION CHANGES				
	This request represents the Law Enforcement Division's to reclassify a position from an Administrative Assistant II, Grade 25 to an Administrative Assistant III, Grade 27. The incumbent researches all information for program expenditures relating to boating equipment from internal and external sources. Boating equipment and needs are highly specialized and unique, and the incumbent currently excels at contacting various vendors and distributors to determine which engines and boat equipment are technically the best for purchase given the needs of the particular boat hull and body of water upon which the equipment will be deployed. All of this information is communicated when the incumbent provides these findings to supervisors and managers responsible for making these purchasing decisions. The trust and level of autonomy required to make the decisions and maintain the critical databases and financial business of the Division in this program, is large, and clearly falls within the AA III class specifications. [See Attachment]

	The department's pilot flight hours have produced an increase over the last several years. Currently, NDOW pilots are flying between 475 - 525 hours annually. The industry standard is 350 hours flown. An additional pilot will result in increased safety and reduced hours of comp-time paid to current pilots. NDOW pilots each fly wildlife biologists and others on various wildlife surveys throughout Nevada. Additional duties include slinging materials into remote locations or slinging water into remote water developments. NDOW pilots may also be tasked with assisting Nevada Department of Forestry with wildfire fighting operations. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4465 WILDLIFE - FISHERIES MANAGEMENT

The mission of the Fisheries Division is to manage, protect, and enhance Nevada's native aquatic species; to promote fishing in Nevada through a system of strategically located hatcheries and by managing Nevada's waters to their highest end use for anglers; to provide anglers with information essential to the sport; and to prevent the introduction of additional aquatic invasive species to Nevada and minimize the impacts to established fisheries and aquatic habitats.

E230	EFFICIENCY & INNOVATION Two technician-level State FTE positions are critically needed and will replace contracted staff through a temp agency. The absence of two technician-level FTE positions at Lake Mead has significantly impacted the ability of the Technician III position and program manager to continue operating the 4 watercraft inspection stations while implementing other key elements of the Aquatic Invasive Species (AIS) Program at Lake Mead. This is due to the extremely high turnover rate of temporary contract employees performing job duties that NDOW FTE positions would be assigned to, resulting in a constant and ongoing loss of acquired job skills and constant training requirements for new contract staff. The time and competency level required to manage and implement the in-town watercraft inspection program for auction houses and dealers, the mechanic wash program for repair companies, fish tournament initiative, and AIS training program is not sustainable using contract staff. Two technician-level State FTE positions are critically needed to provide continuity of program skills and knowledge, year-round management and support functions for the AIS Program at Lake Mead and to continue containment measures of preventing the spread of quagga mussels statewide outside of Clark County. [See Attachment]

E231 EFFICIENCY & INNOVATION

One technician-level State FTE position is critically needed and will replace a contracted staff through a temp agency.

The new position will provide permanent full-time staffing at the Alamo roadside station located on the northbound lane of US Highway 93 approximately 10 miles south of the town of Alamo in Lincoln County, Nevada. The station is a key location that allows interception of north-bound trailered watercraft from quagga mussel-infested waters in southern Nevada and the lower Colorado River Basin before they reach destination waters in eastern and central Nevada and northern states. The roadside station provides watercraft users free-of-charge vessel inspection and decontamination services and important educational outreach including the Clean, Drain and Dry (CDD) methodology and AIS prevention outreach.

Station operations are labor-intensive and require significant staff time for continued year-round operation and equipment maintenance. The absence of a permanent technician-level FTE position at Alamo Roadside Station has significantly impacted the ability to operate the station year-round, 7 days a week. One technician-level FTE position is needed to provide year-round free-of-charge inspection and decontamination services to watercraft users. A State FTE position is critical to provide operational stability and for oversight of contract staff when available to address peak use periods. Supervision for the State FTE position will be provided by the existing AIS Fish Hatchery Technician III position at Lake Mead.

Budget Account: 4466 WILDLIFE - DIVERSITY DIVISION

The Wildlife Diversity Division is dedicated to the protection, preservation, management, and restoration of Nevada's diverse wildlife heritage. Through sound science, data management, and synergistic partnerships, the division will maintain healthy wildlife populations and habitats. Thereby fulfilling Nevada's responsibility to maintain local, regional and global species diversity. Through the division's efforts, the scientific, educational, recreational, and economic values of Nevada's wildlife will be enhanced and preserved for future generations.

The Wildlife Diversity Division is responsible for sensitive species management and surveying; Endangered Species Act consultation and recovery work; implementation of the Nevada Wildlife Action Plan; habitat restoration; and the Department of Wildlife's portion of the Tahoe Environmental Improvement Program.

01	PERSONNEL SERVICES				
5170	SEASONAL This adjustment is for seven seasonal positions within the Habitat Division which work at four different wildlife management area locations, Mason Valley, Key Pittman, Kirch and Steptoe Valley. These seasonal employees are an extremely valuable tool in the operation and safety of the wildlife management areas. Many projects on those areas such as culvert installation, road maintenance, and building repairs cannot be done safely and efficiently with current staffing. These positions also help with noxious weed control, restoration projects, planting food plots, ditch cleaning, irrigation, and equipment maintenance. The projected seasonal salary cost is based on the grade, step, productive hourly rate, and length of employment by seasonal position. [See Attachment]	0	0	89,560	89,560
5440	PERSONNEL SUBSIDY COST ALLOCATION This adjustment was automatically generated from the statewide Personnel Subsidy Cost Allocation Schedule.	0	0	-2,396	-2,396

70	TRANSFER TO STATE LANDS				
9094	TRANS TO DIV STATE LANDS One State Lands Agent position located in the Division of State Lands is utilized and funded by the Department of Wildlife. The salary for this position is paid through State Lands and reimbursed with transfers to the Department of Conservation and Natural Resources through Budget Account 4467, category 70. The position was under filled and is expected to be at full cost during the 2022 and 2023 fiscal years. This adjustment is to account for the difference between state fiscal year 2020 amount and the projected need for the state fiscal year 2022 and state fiscal year 2023 base amounts. The M-150 adjustment amount for both fiscal years is \$78,783 projection in 2022 and an \$82,020 in 2023 minus \$53,888 base amount = M-150 adjustment of \$24,895 and \$28,132 in years one and two respectively.	0	0	24,895	28,132

Section A1: Line Item Detail by GL

Budget Account: 4470 AGRI - DAIRY FUND

The Food and Nutrition Dairy Program is dedicated to assuring the availability of wholesome and nutritious dairy products, and to promoting a business climate that is economically viable for those who produce, process, and market dairy products in the State of Nevada.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR NRS 584.053 - Dairy Fund	834,627	718,476	547,602	404,147
2512	BALANCE FORWARD TO NEW YEAR	-718,476	0	0	0
3310	YOGURT ASSESSMENTS Per NRS 584.648, an assessment on yogurt distributed by distributors is assessed at the rate of \$0.02 cents per pound. Revenue is projected based on average of prior three years. (See attachment for all revenue.)	724,949	786,450	796,346	796,346
3312	ICE CREAM ASSESSMENTS Per NRS 584.648, an assessment on ice cream/novelties distributed by distributors is assessed at the rate of \$0.01 cent per gallon. Revenue is projected based on average of prior three years.	137,265	130,010	129,399	129,399
3313	COTTAGE CHEESE ASSESSMENTS Per NRS 584.648, an assessment on cottage cheese distributed by distributors is assessed at the rate of \$0.01 cent per pound. Revenue is projected based on average of prior three years.	61,089	58,090	58,982	28,982
3326	PRIOR YEAR ASSESSMENTS Prior Year Assessments are directly tied to the audit program, and are generally found to be filing errors by licensees, either in calculation or omission of store information. Both these circumstances are discovered in audits, and are corrected at the close of the audit by payment of any assessments due to Dairy. Revenue source will be reduced to zero in Base due to the intermittent nature of these fees. Any fees received for this purpose can be added through a work program during the fiscal year received.	0	0	0	0
3558	FED TRAINING GRANT	2,255	0	2,255	2,255
3722	DAIRY PERMIT FEES Dairy permit fees are administered and billed by the Dairy Inspection Program. Fees charged to dairies and haulers are based upon volume of milk produced and/or transported. Revenue is projected based on average of prior three years.	12,802	15,270	14,617	14,617
3723	DISTRIBUTOR FEES Per SB 80, Chapter 173, Pages 614 & 615, a distributor shall pay an assessment to Dairy on or before the 20th of the month after the month in which the product was distributed. Revenue is projected based on average of prior three years.	5,300	5,500	5,292	5,292
4326	TREASURER'S INTEREST DISTRIB Interest earned on funds deposited with the State of Nevada Treasury and credited back to the agency. Revenue is projected based on average of prior three years.	13,804	7,910	11,183	11,183
4669	TRANS FROM B/A 4545 Transfer from Registration Enforcement budget account 4545 for medical marijuana testing.	0	0	0	0
4672	TRANSFER FROM HCFP	19,836	0	0	0
4761	TRANSFER FROM BA 2691 Transfer from Food and Nutrition budget account 2691 to fund auditor's work on grant funded nutrition programs.	0	50,010	0	0

E275	ELEVATING EDUCATION This request funds costs to adding additional temporary positions in the Las Vegas office as a program manager for education outreach, as well as add a new community instructor position. The proposal supports the Governor's vision to "Create a Child & Family Centered Government" as these are the target audiences for the program and promotion of Nevada's dairy industry as well as promoting local agribusinesses and educating youth about career opportunities available in the dairy food supply chain. Currently, two temporary positions serve as Community Instructors (one in the south and one in the north) to support the Healthy Nevada Dairy Program by attending educational events with the mechanical cows (Moolissa and Moolinda). This request adds a new Program Manager position and a new community Instructor position to help further support the Governor's vision to "Create a Child & Family Centered Government" as these are the target audiences for the program as well as promote of Nevada's dairy industry as well as promoting local agribusinesses and educating youth about career opportunities available in the dairy food supply chain.

E712	EQUIPMENT REPLACEMENT				
	This request funds the replacement of six (6) agency owned vehicles that have met the criteria of replacement.				
	Agency owned vehicles will be replaced with long term leases from the Fleet Services Division. Under the purview of NRS 584 and NACs 584 and 583, Food Safety ensures NDA upholds its mission by inspecting, licensing and regulating all segments of the production and sale of dairy products to Nevada consumers and the processing and production of milk.

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4490 CRC - COLORADO RIVER COMMISSION

The Colorado River Commission is empowered to acquire, manage, and protect all of Nevada's allocation of water and hydropower resources from the Colorado River (allocated to Nevada from the federal government) for the residents of Nevada. In addition, it is to provide electric power resources to certain customers from any available source for needs over and above the hydropower allocations. These resources are primarily centered in and benefit Southern Nevada. The Colorado River Commission Fund acts as the general fund for all commission activities. All personnel costs for commission staff and all of the basic activities and functions performed in fulfilling the commission's legislative mandate are recorded in this account. The commission is entirely funded by its customers and receives no state or federal funds in carrying out its activities. The Colorado River Basin states are in constant contact regarding the issues of the lower basin; the bulk of commission travel occurs in California and Arizona. In addition, the commission has extensive involvement with a number of agencies of the federal government, including the Department of Interior, Department of Energy, Bureau of Reclamation, Western Area Power Administration, U.S. Fish and Wildlife Service, Environmental Protection Agency, Bureau of Land Management, National Park Service, and others. Statutory Authority: NRS 538.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for forty-one positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	1,932,745	2,126,542	2,131,487	2,414,035
2512	BALANCE FORWARD TO NEW YEAR	-2,126,542	0	0	0
4022	RAW WATER SALES	28,381	30,000	30,000	30,000
	Sales of untreated lake water to small water users. Other water users (small water) administrative and usage charges. This revenue stream is used to decrease the amount required to be funded by the water purveyors. (NRS 538)				
4041	POWER ADMIN CHARGE	1,576,120	2,302,294	2,350,000	2,550,000
	Power administrative charge on Hydropower sales. Charge to hydropower customers for agency operating and administrative costs. This charge is a mil charge which is associated with all hydropower customer sales (on all power resource purchases). The mil rate is reviewed and changed as needed each year based on budgetary and anticipated actual costs. The rate will be increased during FY 2019; base projections include the effect of the increase.				
4102	WATER ADMIN CHARGE	1,294,419	2,162,263	1,800,000	2,100,000
	Water administrative charge. Charge to the agency's water purveyors (primarily the Southern Nevada Water Authority - SNWA) for water related agency operating and administrative costs. This is a quarterly pass through billing based on approved budgeted and anticipated actual costs. Base revenues include full billings for the biennium for all budgeted water costs.				
4235	COST ALLOC REIMBURSEMENT FROM B/A 4501 & 4502	2,845,123	2,666,443	2,845,123	2,845,123
	Reimbursements for salary and overhead costs related to the Silver State Energy Association (SSEA) and for power marketing, operation and maintenance of the Power Deliver Project (PDP) transmission system providing resources for water pumping. Paid for by budget account 4501 and 4502. Increase to accommodate base position mapping.				
4236	COST ALLOC REIMBURSEMENT FROM B/A 4502	44,459	50,000	50,000	50,000
	Revenues to provide for salary and related costs from BA 4502 for level of effort on behalf of that fund activity. Base increase to accommodate base position mapping.				
4252	EXCESS PROPERTY SALES	2,806	0	0	0
4326	TREASURER'S INTEREST DISTRIB	36,934	80,202	36,934	36,934
	Estimated earnings based on prior years actual receipts. Actual earnings ratio computed by the Treasurer's Office.				
4510	CREDA MEMBERSHIP PASS-THROUGH	52,788	59,347	65,000	65,000
	Pass-through revenue based on the costs charged to the Commission by Colorado River Energy Distributors Association (CREDA). The charges are passed along to the Commission's power customers through monthly billing and assessed using GL 9498.				
	TOTAL REVENUES FOR DECISION UNIT B000	5,687,233	9,477,091	9,308,544	10,091,092

10	WATER PURCHASES				
Category 10 records the charges for the raw water from the Colorado River for the small water users whose contracts the Commission administers. The charges come from the USBR based on meter readings at the small water user facilities that the Commission is responsible for reporting. The category is associated with revenue G/L 4022 Raw Water Sales (the revenue G/L also records our administrative charge for these contracts). The category is used to segregate the transactions for the small water users from the bulk of our transactions that have nothing to do with those contracts, and so that we can segregate the reporting of meter reads and collections for reporting purposes to the USBR.

E225	EFFICIENCY & INNOVATION This request restores travel budget request to a five-year average for agency travel. The agency travels routinely to other states and to some extent within the state to conduct the business of the Colorado River. Due to the COVID pandemic, agency travel was restricted early in January of 2020, and totally discontinued beginning in March. Thus the usual travel required for operations of the Colorado River for the year is much less than normally conducted. The travel of the agency for River programs and projects will resume in the biennium and this decision unit will reinstate an average level of travel to conduct this business. Note that the business of the Colorado is not conducted in Nevada. Most of the meetings are conducted in other Colorado River Basin states, most notably in California, Arizona (for hydropower related meetings), Colorado, the Republic of Mexico (occasionally), Utah, and other surrounding states. The meetings are not scheduled by the Commission, and are not routinely predictable. Much of the business depends upon topics that will become critical and need addressing one year, and then another topic replaces that the next year. We anticipate that there will be travel needed to address the continued basin drought, and concerns over the salinity of the River, and funding of various project for conservation, and to allow water banking and other needed backstops to Nevada's water needs. In state travel generally revolves around Legislative and other administrative needs, and some interaction with water entities in southern Nevada. For examples of travel related locations and costs see the travel tracking spreadsheets supporting base expenditures. [See Attachment]

E227	EFFICIENCY & INNOVATION				
<p>This decision Unit funds a proposed contract for assistance with the agency's electric billing processes.</p> <p>The agency uses Microsoft programs and other off-the-shelf software to collect electric power purchase, transmission and delivery information for billing to its' customers. The billing procedures are very labor intensive and data tracking, storage and retrieval is not as timely or accessible as would be desired. The agency has recently begun to revamp the procedures and streamline the processes using existing tools. This process will generate great benefits to the agency and its' customers if done correctly. Agency staff has determined that outside consulting services to review our systems, provide guidance and correction will greatly speed up this system revamp and will provide for efficiencies that would not otherwise be seen. The contractor is not expected to provide software systems or customization of software, but only to assist with the process and review. This concept was presented to the agency's customers as part of the budget workshop during this budget cycle and is supported by the customers.</p>

Budget Account: 4497 CRC - RESEARCH AND DEVELOPMENT ACCOUNT

The Research and Development Fund provides for engineering studies, analyses, negotiations, and other efforts in protecting the interests of the state in the development of any of the resources under the control of the Colorado River Commission. The fund is currently utilized as a pass-through account for the Lower Colorado River Multi-Species Conservation Program (MSCP) costs. The program is a 50-year program to address the biological needs of mammals, birds, fish amphibians, reptiles, invertebrates, and plants to comply with the Endangered Species Act. Funding is provided to the Commission by its water and power contractors in accordance with the multi-species funding contracts. The Federal Bureau of Reclamation is the implementing agency for the program and the Commission staff participate on the steering Committee that provide oversight and input to Reclamation regarding the implementation of the program. The program assures continuation of the Colorado River operations, including Nevada's diversions of Colorado River water from Lake Mead and continued generation of power at the federal hydropower generating facilities while complying with the Endangered Species Act. Statutory authority: NRS 538.191

B000	BASE				
	This request continues funding for ongoing programs. One-time expenditures have been eliminated and partial year costs have been annualized.				
	This request continues funding for ongoing programs. This fund has not experienced any one-time expenditures nor are there any partial year costs to be eliminated or annualized. Should the Bureau of Reclamation call on the reserves for an extraordinary item, that would be a one-time expenditure. This type of item is budgeted for in the M150 unit, but to date has never been done.				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR This account holds the reserve funds for the Lower Colorado River Multi-species Conservation Program in accordance with the funding contract between the State, the federal government, Arizona, and California. This cash is available for program use when called upon by the federal parties to the contract. Only the federal agencies can use these funds. The two reserve funds are (1) Habitat Maintenance Fund & (2) Remedial Measures Fund.	11,184,879	11,704,255	11,659,376	12,143,569

M150	ADJUSTMENTS TO BASE				
	Adjust base expenditures to the contractually scheduled payments to the United States Bureau of Reclamation (USBR) for regular program activities, and for a possible draw on the LCRMSCP reserve dollars pursuant to the funding contract. The reserve dollars are required pursuant to the Federal funding agreements and can only be used by the USBR for program purposes as identified in the agreements.				
	Regular billings as calculated in the funding schedules require additional budget authority. In addition, in the event of a USBR reserve dollar request the agency must remit the dollars within 30 days of the request. No request was made on the reserve funds in the base year so this decision unit will allow for the potential draw during any year of the biennium. Note that the USBR request could be in excess of the budgeted amount, but this will allow for an initial remittance while seeking additional budget authority if necessary.

Section A1: Line Item Detail by GL

Budget Account: 4501 CRC - POWER DELIVERY PROJECT

The Power Delivery Project budget accounts for all of the costs associated with the Colorado River Commission's high voltage transmission, transformer, and distribution system designed and tied into the Southern Nevada Water Authority's (SNWA) water delivery system (the PDP). The system provides for a power transmission system from the Lake Mead substation at Hoover Dam to the SNWA water treatment facility. This fund accounts for power market related power purchases for any Commission customer as requested and needed for load requirements. The funding for all activities related to this budget account are provided by the SNWA and other customers under funding contracts. The contracts related to the operation of the PDP require detailed line item budget projections at the beginning of each year which must be approved by the SNWA. In addition, this fund provides for activity related to the Silver State Energy Association (SSEA) of which the agency is a member. The SSEA provides market electric power resources to its members and, through the commission, to certain of its customers. The agency provides most of the required personnel resources to the SSEA under contract. SSEA activity is also subject to annual budget approval by the SSEA board. Statutory Authority: NRS 538.

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4502 CRC - POWER MARKETING

The Power Marketing fund was created to comply with the requirements of the bond resolution authorizing the financing of Nevada's share of the cost of upgrading the generating facilities at Hoover Dam. It is used to record purchases and sales of hydroelectric power, debt service related to all Hoover Powerplant Bonds, and operational costs of the Basic Substation project. This fund accounts for all hydropower related activities dedicated to the Southern Nevada Water Authority system and all other hydropower customers. All transactions related to the customers of the Colorado River Commission, including the new Hoover Dam schedule "D" customers, are recorded in this account. All hydropower allocations to the State of Nevada, administered by the commission, are recorded in this account. Statutory Authority: NRS 538.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for ongoing programs. One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	1,322,502	1,150,838	2,651,057	2,476,846

	Increase in power costs based on projected increases in costs of the power resources as estimated by the Western Area Power Authority (WAPA), the United States Bureau of Reclamation (USBR) and power market estimates for supplemental power requirements. Estimates are determined based on customer projections of power consumption during the biennium as projected by the agency hydro-power division. Power costs are passed through to the agency customers (at cost in this fund) based on contracts for the delivery of power with each customer. See attached information on detail of estimated resource costs. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4540 AGRI - PLANT HEALTH & QUARANTINE SERVICES

The Plant Health and Quarantine Services budget supports plant pathology, entomology, the agriculture representative on the Sagebrush Ecosystem Technical Team, and the drought program staff. Plant pathology and entomology staff support the statewide quarantine programs that prevent the entry and establishment of economically damaging pests and plant diseases. Survey, identification, and quarantine work protects agriculture commodities and other important ecosystems. The division is responsible for the identification, monitoring, surveillance, early detection, and rapid response activities. Drought Program staff identify and report state drought conditions and coordinate with agricultural producers in identifying projects and or strategies in response or anticipation of drought conditions. Statutory Authority: NRS 561, 552, 554, 555.

7393	PURCHASING ASSESSMENT NRS 333.450 Payment of claims for supplies, materials, equipment and services; annual assessment of fee for procurement and inventory services; regulations. 1. Except as otherwise provided in NRS 227.185, claims for supplies, materials, equipment and services purchased pursuant to the provisions of this chapter must, when approved by the Administrator, be paid in the same manner as other claims against the State are required to be paid. 2. The Administrator shall annually assess each using agency a fee for the procurement and inventory services provided by the Purchasing Division to the using agency. The fee must be based on the using agency's use of the procurement and inventory services of the Purchasing Division during preceding years. The Administrator shall adjust the formula for calculating the fee each biennium. 3. If an agency is not a using agency, the Administrator shall assess a fee of not more than the cost to the Division to process the order for the agency. 4. The Administrator may adopt regulations to carry out the provisions of this section.	124	169	124	124

E350	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
	This request funds for a state-funded food purchasing program.				
	A budgetary Bill Draft Request is being introduced to promote a state-funded food purchasing program which will purchase food products from Nevada farmers, rancher and processors, and provide them to regional food banks for distribution to food insecure individuals and families in the community. The program will be successful in providing food banks with high-quality, nutritious food products produced in Nevada while also supporting the local economies.

E805	CLASSIFIED POSITION CHANGES				
	This request reclassifies an State Entomologist position to an unclassified State Entomologist commensurate with the duties of the position. The Chief of the Office of Grant Procurement position is being used in place of a new naming structure, as none currently exists.				
	This position has increased in responsibility to include all educational and outreach functions where a subject matter expert is required. It acts as the lead for all pest-related state and federal quarantines as well as being named the State Survey Coordinator by the USDA. The technical knowledge required of this position is critical to ensuring immediate and appropriate responses are executed as harmful pests are identified. This requires multi-state and federal coordination to protect domestic and foreign crops. Critical pests have increased in recent years due to the establishment and expansion of shipping companies, a major contributor to the distribution of pests. This has increased this position's role in rapidly assessing state needs and survey strategies in addition to establishing collaborative state and federal efforts that are effective. This position makes critical decisions that impact Nevada agriculture involving state quarantines and multi-state treatment strategies for pests that could devastate the industry and food supply. The technical knowledge and experience required of this position is extensive and this is the only position that serves in this capacity for the entire state.

E806	CLASSIFIED POSITION CHANGES				
	This request reclassifies an State Pathologist position to an unclassified State Pathologist commensurate with the duties of the position. The Chief of the Office of Grant Procurement position is being used in place of a new naming structure, as none currently exists.				
	This position has increased in the skills required as well as consequence of error. The Plant Pathologist continues to identify rarely seen diseases on plants in Nevada. The skill and knowledge required to identify and DNA code these outbreaks and samples are becoming more important to the agriculture industry and the health of Nevada ecosystems.				
	Enacting federal quarantines for plant diseases is the sole responsibility of this position, along with enacting and enforcing state quarantines and ordering confiscation of shipments via rail, truck and air. These are significant responsibilities and additions to the position that, if performed in error, could have negative consequences both economically and environmentally. This position performs research on new diseases and reports findings to other states to facilitate rapid identification and treatment strategies. The position makes critical determinizations on disease response for the state and in collaboration with other states and federal partners. This position's responsibilities for coordinating a state survey program has increased, requiring strategic budget planning through federal grants. These changes have been made to the position as a result of changing regulations and diversification of agriculture in Nevada. This position is also the subject matter expert that makes decisions independent of their supervisor. Reports are made quarterly to the supervisor or as requested.

Section A1: Line Item Detail by GL

Budget Account: 4541 AGRI - COMMERCIAL FEED

The Division of Commercial Feed is authorized to establish a program to carry out federal regulations concerning certain animal remedies, veterinary biologic, and pharmaceuticals for veterinary purposes. Existing law establishes certain requirements for the labeling of commercial feed for livestock in the state. Recently passed Senate Bill 28 declares that it is unlawful for a person to manufacture, distribute, or act as a guarantor of commercial feed without a license issued by the State Department of Agriculture. NRS 587.690

Budget Account: 4545 AGRI - AGRICULTURE REGISTRATION/ENFORCEMENT

The Agricultural Registration and Enforcement account supports the registration, inspection, sampling, and laboratory analysis of fertilizers and pesticides; inspection, certification, and licensing of nursery stock dealers, hemp production and limited handling, producers and vendors, export producers and processors, seed producers, pest control operators, restricted use pesticide applicators, and weed-free forage producers. Noxious weeds education and compliance services are also provided. Under a U.S. Environmental Protection Agency cooperative agreement, the following duties are conducted: pesticide product inspection, monitoring pesticide application, ground water sampling, worker protection, and pesticide disposal. Statutory Authority: NRS 561, 555, 556, 576, 586, 587, 588.

	There were many required changes to regulations for Plant Industry in FY16, many of which related to Medical Marijuana and Hemp Seed, resulting in increased Legal and Court fees. Plant Industry anticipates continued Regulation changes (Nursery, Food Safety Modernization Act, Pest Control Operators, Noxious Weeds) into the next Biennium.

E226	EFFICIENCY & INNOVATION				
	This request funds increases to the Shipping Point Inspection Program.				
	This proposal is essential. Additional staff is needed as current staff are often working extensive overtime to accommodate industry requests for export inspections, which has resulted in turnover in the past. Exports of allium crops have been increasing since 2018 and the top exporters in the state have reported intentions to significantly increase production for 2021 and 2022 (approximately 30%). This business is currently increasing production and constructing additional onion sheds that will hold thousands of pounds of onions. If additional staff are not proactively secured and trained, the department will be unable to support industry with further growth which is why this position is essential to the program. Current staff are unable to fulfill the needs of industry much the less supporting any further growth. Due to the current deficit occurring within the program, an increase in fees are needed and will be pursued in SFY 2021 through revising NAC.

E227	EFFICIENCY & INNOVATION				
	This request funds a budget increase for the Hemp Program.				
	These budget increases reflect the departments mission in meeting the needs of a growing industry and in ensuring we can proceed with a program that complies with federal requirements. The Department does not have the staff needed to sustain the growth experienced within this program. In order to proceed with a state hemp program, certification must be closely evaluated, crops must be tested and analyzed, and compliance action must be taken to prevent the distribution of illegal crops. Certification and crop sampling are incredibly time sensitive for the industry in that they cannot proceed with production until approval is received and crops cannot be harvested and sold until their compliance is verified. Further, there is a short window prior to harvest where the crop needs to be sampled and analyzed so sufficient staff need to be available to complete this activity since the THC levels (<0.3% THC determines compliance) of the crop tend to increase as the crop further matures. With these enhancements the department can provide more timely and efficient government services and regulatory activities. With the approval of this proposal, the HEMP sample analysis will have a significantly improved turn around time. ISO accreditation of the lab is required per federal requirements and will provide further verification that lab practices are precise and consistent.

E280	ELEVATING EDUCATION				
	This request funds a new position for the Pest Control Operators program.				
	It is essential that the pest control program receives an additional inspector to assist with staff workload and address increased violations. Currently there are three inspectors that perform pesticide license compliance in the state which included 1787 licensees in 2018 and 1809 in 2019. Annually staff are able to complete approximately 150 inspections as they also assist with annual pest-control relicensing and Continuing Education Unit evaluations for these companies and proctoring approximately 200 exams per month. An additional position is needed to support compliance oversight and to provide technical assistance to industry in meeting program requirements which are critical to public and environmental health. The department is continuing to see non-compliance in the following areas: 1) Unlicensed pesticide application activity; 2) pest control companies working outside the scope of their licensed category; 3) pesticide label violations (such as wrong missing rate, missing personal protective equipment and applying the product to the incorrect site); 4) missing record keeping requirements and 5) companies improperly training staff on pesticide application procedures. [See Attachment]

	Seed certification and disease quarantine promotes Nevada crop commodities and also preserves sustainable production of allium crops in Nevada. The addition of a fleet services vehicle will help the program to achieve annual inspection goals. Field work can be done on time and will mitigate the distribution of contaminated crops that would compromise other allium crops. [See Attachment]

E901	TRANSFERS				
	This request transfers 50% of the salary and fringe costs of four Agricultural Enforcement Officers and the associated operating costs for all Nevada Department of Agriculture (NDA) Agricultural Enforcement Officers (5 officers) from budget account 4546. Transferring the expenditures of the Agricultural Enforcement Officers to general fund appropriations would ensure that the fee based budget accounts, 4546 and 4545, are only responsible for covering the actual specific program expenses incurred with generated program revenue. The core functions performed by enforcement staff benefits all citizens and visitors of the state, not only those with a vested interest in budget accounts 4546 or 4545. NDA law enforcement positions are in place to enforce the rules and regulations of state agricultural laws as well as state rules and regulations in general.

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)**

Section A1: Line Item Detail by GL**Budget Account: 4546 AGRI - LIVESTOCK INSPECTION**

The Division of Livestock Inspection is responsible for protecting livestock owners from theft or loss of livestock, the introduction of diseased animals, and unfair business practices. This is accomplished by enforcing the mandated statutes of inspection and registration of brands; returning estrays; licensing livestock and agricultural dealers, agents, buyers, and public sale yards. The division also provides certified peace officers whose function is to investigate livestock thefts and enforce all livestock laws with a road interdiction program to prevent the ingress/egress of livestock that have not met the mandated requirements of both animal health and livestock identification. Additionally, the division cooperates with other states to help with the enforcement of their livestock laws. Statutory Authority: NRS 561, 564, 565, 575, 571, 554, and 587.

E722	NEW EQUIPMENT				
	This request funds the long term lease of a law enforcement vehicle from Fleet Services.				
	This request is for a law enforcement vehicle which is used in the protection of public safety, public health, and fair business practices. It is necessary for Agricultural Enforcement Officers to have reliable vehicles to perform critical program functions, which assures division customers that services scheduled with the division will not be delayed or cancelled due to an unreliable vehicle.

 2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4547 HHS-DPBH - MARIJUANA HEALTH REGISTRY

The Nevada Marijuana Registry is a state registry program within the Nevada Department of Health and Human Services, Division of Public and Behavioral Health. The role of the program is to administer the provisions of the Medical Use of Marijuana law as approved by the Nevada Legislature for registry of cardholders and caregivers (adopted in 2001). Statutory Authority: NRS 453A & NRS 678C.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for four employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR The balance forward represents the unexpended balance of revenues collected, which are carried forward from year to year. Per NRS 453A.730(1.c) and NRS 678C.840, revenue collected into this budget do not revert at the end of any fiscal year.	2,154,100	2,341,873	2,150,801	2,246,119
2512	BALANCE FORWARD TO NEW YEAR	-2,341,873	0	0	0
3601	PATIENT LICENSES AND FEES This revenue represents fees assessed for Medical Marijuana Patient Registry application requests, and patient registrations for initial and subsequent years. Fees are set in NRS 453A.740 and a revenue projection worksheet is attached. The revenue projected worksheet is in the process of being done. [See Attachment]	841,600	569,800	813,650	817,063
4326	TREASURER'S INTEREST DISTRIB This is the amount of interest earned on the fee revenue, and is determined and distributed by the State Treasurer's Office. [See Attachment]	43,022	29,584	16,960	16,960

 2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4550 AGRI - VETERINARY MEDICAL SERVICES

The Veterinary Medical Services account is responsible for the implementation of regulatory veterinary programs and disease surveillance programs. The division establishes protective health requirements for domestic and wild animals moving into and within the state; monitors regulatory compliance; tests specimens and animals for diseases of economic and public health significance; and conducts animal disease surveillance for known and emerging diseases in domestic and wild animals. Statutory Authority: NRS 561, 571, 576, and NAC 441A.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	Fiscal year 2020 travel logs. [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL General Fund Appropriation	1,184,885	1,150,878	1,447,234	1,460,343
2510	REVERSIONS	-11,812	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR	174,084	0	0	0
2520	FEDERAL FUNDS FROM PREVIOUS YEAR Adjustment due to this RGL amount reflected in 2511.	0	0	0	0
2521	FEDERAL FUNDS TO NEW YEAR	0	0	0	0
3514	USDA APHIS GRANTS Revenue is received from the USDA/APHIS under Cooperative Agreements for Animal Disease Traceability and Animal Health Umbrella. Awards are applied for and awarded each year. Projections are based on a five year average of past awards. The revenue from these agreements funds program expenditures in Category 01 - Personnel and Category 54 - USDA/APHIS/V.S. CFDA 10.025 Projections are attached and include all RGL's. [See Attachment]	56,381	77,217	77,220	77,220
3722	SWINE FEEDER FEES This revenue is for the single license issued for a swine dealer. \$25.00	25	25	25	25
3827	AGENCY SERVICES Funds category 25 Diagnostic Lab Services. The lab receives requests from the public or other governmental agencies to test samples on a variety of diseases. Many of the tests can be performed by the Animal Disease Lab (ADL), however, some tests must be sent to other states/labs because ADL is not equipped for those tests. Persons or other entities requesting samples are required to pay for the testing costs; Category 25 pays for the referral lab costs and then passes them on to the requestor. The requestor pays these fees and they are deposited into RGL 3827 - Agency Services. Projections are based on a five year average. See worksheet attached to RGL 3514.	10,532	14,092	11,056	11,056
4052	BOOK AND PAMPHLET SALES This revenue is for the collection of Certified Veterinary Inspections book sales. Revenue projection is based on a five year average. See worksheet attached to RGL 3514	2,137	2,963	2,946	2,946
4230	TRANSFER FROM LIVESTOCK INSPECTION (4546) This request funds a portion of microbiologist salaries paid to the Veterinary Medical Services from account 4546 category 84. 15% of 2 FTE - Microbiologist 3 and Microbiologist 4. Projections attached. [See Attachment]	23,151	24,185	26,046	27,157
4620	TRANS FROM NV HEALTH DIV (WEST NILE) This revenue is a sub grant received from the Division of Public and Behavioral Health budget account 3219 for West Nile Surveillance. The sub grant funds Category 01 - Personnel and Category 42 - West Nile Virus to use these funds to complete West Nile Virus and other Arboviral surveillance activities in Nevada. Projections based on five year average. See worksheet attached to RGL 3514.	25,125	60,876	53,602	53,602

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4551 AGRI - CONSUMER EQUITABILITY

The powers and duties of the Division of Consumer Equitability are established in NRS Chapters 581, 582, and 590. The State Sealer of Consumer Equitability is directed to license, test, and deem correct all commercially used weighing and measuring equipment. The responsibilities of the division include the inspection of packaged goods to determine whether the stated amounts, sizes, and pricing are correct and verification of advertised pricing at the point of sale. If violations are noted during the inspection of devices, packaged goods or pricing, action is taken to obtain compliance. Persons who install, adjust or repair weighing or measuring devices for a fee are required to register with the division. Licensed public weighmasters certify weight information for a fee. The division audits certificates of weight issued by public weighmasters for compliance with the provisions of NRS Chapter 582.

The division operates the Nevada Metrology laboratory, which houses and maintains the state's physical standards for mass, length, and volume. Metrologists certify field standards used in the installation, adjustment, repairs and certification of weighing and measuring devices.

Program inspectors obtain samples of motor fuels sold at retail throughout the state and deliver the samples to the division's petroleum laboratories for analysis. This analysis determines if the fuels meet standards adopted by the State Board of Agriculture to ensure clean burning, high quality motor fuel. If the fuels are found to be out of compliance with standards, the division takes action to require the violation(s) be remedied. Retail motor fuel stations are inspected by division personnel to confirm compliance with the requirements of NRS Chapter 590 pertaining to the advertising of petroleum products and proper labeling of motor fuel dispensers and storage tanks.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 24 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Travel and training logs are attached. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	846,391	1,288,217	1,177,951	932,399
2512	BALANCE FORWARD TO NEW YEAR	-1,288,217	0	0	0
3601	REGISTERED SERVICE AGENT FEES Fees are collected for registered service agents (RSA). An RSA can make repairs on a weighing & measuring device and then place the device in service for commercial trade. The fee in NAC 581.340 per each service agency is \$200 and \$20 for each service person. Service agencies and persons register annually in December. Revenue projection is based on the average of prior fiscal year actuals for 2015 through 2019. Authority: NRS 581.072, NRS 581.103 [See Attachment]	19,643	18,662	18,650	18,650
3602	METROLOGY FEES Projected revenue in State Fiscal Year 2022 and 2023 is based on prior biennium budgeted revenue amounts. Revenues in odd numbered years have historically been higher than even numbered years due to the schedule for certification standards requiring standards for measuring mass only having to be certified every other year.	29,093	43,001	37,342	43,001
3616	PUBLIC WEIGHMASTER LICENSES Public weighmasters, third party weighers, are appointed by the State Sealer of Consumer Equitability. Under NAC 582.025 an original license is \$120 and a renewal is \$100. License fees are due annually by December. Revenue is based on the average percentage change from FY14 to FY19. Authority: NRS 582.040	7,900	7,527	7,527	7,527
3701	DEVICE TESTING FEES The agency licenses devices used for commercial trade that measure mass, volume, or length. Devices are licensed in August of each year. The agency has a policy of inspection frequency of devices based on risk to the integrity of Nevada's commercial marketplace if the device were to be out of tolerance. When a device fails an inspection, a recheck inspection is performed and charged accordingly. Reliability of newer devices has increased, and over time, recheck inspections have declined. Special inspections are performed at the request of the customer to insure accuracy. Fees for inspections are authorized by NRS 581.075 and set by NAC 581.210 and NAC 581.220. Device inventory tends to increase relative to population growth. Revenue is based on revised fee schedule (NRS 581.295) applied to current device inventory, plus 8% for rechecks and special revenues.	1,770,639	1,703,798	1,809,413	2,264,260
3799	PETROLEUM INSPECTION TAX This revenue item is a transfer from the Department of Motor Vehicles (DMV) of 0.055 cent per gallon of gasoline or lubricating oil imported into Nevada for sale, for the purpose of fuel inspection. Funds carry out the provisions of the Nevada Petroleum Products Inspection Act (NRS 590.010 through 590.150) which is administered by the agency. Revenue projections are based on State Fiscal Year 2019 actuals plus one percent.	731,953	759,981	779,088	779,088
4252	EXCESS PROPERTY SALES	6,445	0	0	0
4326	TREASURER'S INTEREST DISTRIB Interest projected based on estimated beginning cash balances plus 0.63 percent based on average percent return on beginning cash from FY15 to FY19.	27,979	3,726	3,345	3,345
4672	TRANSFER FROM GFO-CRF	118,454	0	0	0

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	Funds transferred from the Department of Motor Vehicles, budget account 4722, category 20 Pollution Control, are used to carry out the provisions of the Nevada Petroleum Products Inspection Act (NRS 590.010 through 591.150) which is administered by the division. The transfer is authorized by NRS 445B.830 2(c). As authorized by the act, the division inspects fuels and motor oils to ensure they comply with labeling and branding requirements. Additionally, the State Board of Agriculture is responsible for setting standards for fuel. Activities in this account generally consist of collecting fuel samples and oversight of the air quality program by the Division's senior petroleum chemist.

E225	EFFICIENCY & INNOVATION				
	This request removes expenses associated with the operation of the Las Vegas Metrology laboratory, including the elimination of one position. The laboratory is scheduled for closure in December 2020. This proposal is consistent with the department's goal to increase financial stability by aligning revenues with expenditures. The expense reductions will allow fees currently being expended to support excess capacity in the metrology program to be reallocated to other division programs which have a capacity shortfall. The division considers this proposal essential. Fee funds currently being expended to support operation of the Las Vegas Metrology lab can be put to higher and better use in supporting ongoing operational costs of the Sparks Metrology lab and the inspection activities of the Weights and Measures program.

E227	EFFICIENCY & INNOVATION				
	This requests funds contracted services for the installation and replacement of humidifier systems in the Metrology Small Mass Laboratory and the Metrology Large Mass Laboratory. This proposal is consistent with the department's goals of improving financial stability and becoming a customer focused organization. By replacing aging equipment that frequently fails, the division will avoid increasing the costs to maintain and repair the existing equipment. While new equipment isn't foolproof, reducing the amount of laboratory downtime due to equipment maintenance and failure will significantly increase the assurance the division can provide its Metrology customers that their service orders will be completed on time, increasing customer satisfaction. By ensuring that the division's laboratory facilities maintain the environmental conditions necessary to perform the full scope of program services according to NIST and NVLAP quality standards, the division's customers can be assured that the certificates of calibration issued for their standards are accurate and valid. [See Attachment]

E228	EFFICIENCY & INNOVATION				
	This requests funds the addition of a permanent Administrative Assistant II position to be assigned to the Las Vegas office.				

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	Due to the workload demands on the existing Administrative Assistant III, the division's Weights and Measures Inspectors have taken on certain administrative/clerical tasks that could otherwise be performed by an Administrative Assistant. In particular, the division's supervisory Weights and Measures Inspector IV in Southern Nevada currently spends approximately 40 percent of his time on administrative/clerical tasks that could otherwise be completed by an Administrative Assistant. The administrative duties currently being performed by Inspectors include responding to device owner requests to schedule inspections, responding to in-person and telephone inquiries made directly to the division's Southern Nevada office, processing/filing of hard-copy documentation related to the division's Southern Nevada inspection activities, and processing/filing of documentation related to the division's Southern Nevada consumer complaint investigations. Given the technical subject matter knowledge and expertise of the division's Weights and Measures Inspectors, the highest and best use of their time is performing inspections and investigating consumer complaints. Seventy percent of the commercial weighing and measuring devices licensed by CE are in Southern Nevada (32,345 of 45,976). Inspection/testing of these devices is assigned to the division's Weights and Measures Inspectors stationed in Southern Nevada (eleven FTEs as of 7/1/2020; ten field inspectors and one supervisory inspector). The number of licensed commercial weighing and measuring devices located in Southern Nevada grew by four percent in FY17, four percent in FY18, and another six percent in FY19. Seventy percent of the consumer complaints filed with the division in FY19 were for businesses located in Southern Nevada. The division anticipates that an average of 30 hours per week spent on administrative tasks by the division's Southern Nevada-based Weights & Measures Inspectors would be freed up to perform device inspections/testing, package inspections and price verification activities. The additional hours available to be spent on field inspections would result in approximately 1,500 additional devices inspections/tests conducted annually. This capacity will help address the growth in the number of licensed devices in Southern Nevada; the total number of licensed devices in Southern Nevada grew by 2,079 in FY19 and similar growth is expected in FY20 and FY21. [See Attachment]

E229 EFFICIENCY & INNOVATION

This request funds contracts for ongoing preventative maintenance and calibration of existing laboratory instruments in the division's two Petroleum Technology laboratories. This proposal supports the department's goals of increasing financial stability and creating a cohesive organization. By performing regular preventative maintenance on the division's laboratory instruments the division will realize the maximum usable lifetime of the instruments and can avoid costly repairs that could have been prevented by performing regular maintenance, allowing program funds that would have to be spend on avoidable repairs to be allocated to other purposes. Performing routine preventative maintenance on owned equipment is a best practice, and supports the agency strategy of improving employee satisfaction by investing in the tools the division's employees use to perform their daily duties.

E230 EFFICIENCY & INNOVATION

This request funds a monthly subscription for Sample Master Pro Workstation (Laboratory Information Management System/LIMS) for the division's Petroleum Technology program laboratories. This request funds annual services and support for a cloud based software system used to manage laboratory data. The subscription supports updates to the division's existing LIMS scheduled for implementation in FY21. This proposal is consistent with the Department's priority to modernize its business operations and the strategic goal of becoming a cohesive organization by creating effective, efficient business processes. The software subscription funded through this proposal is necessary to provide a reliable, secure software system for the Petroleum Technology program's laboratories. By ensuring that division data is available, secure and supported the division can provide quality services to industry and the public.

E550	TECHNOLOGY INVESTMENT REQUEST				
	This request funds the cost to acquire and implement a new software system intended to streamline, modernize and automate the majority of the division's processes relating to licensing, inspection, certification and regulatory activities of the Weights and Measures program. This proposal supports the department's strategic goals of becoming a customer focused organization and creating a cohesive organization. The new software system will replace an outdated legacy system with one that allows customers to interface with the division through modern technology. A contract will be executed with a vendor for the software system. Eighteen wireless printers will be purchased for use by Weights and Measures Inspectors in the field. See attached TIN for additional information. Also attached are Request for Information responses/quotes. [See Attachment]

E711	EQUIPMENT REPLACEMENT				
	This request funds replacement of agency owned vehicles that have reached the end of their useful life.				
	This proposal supports the department's goal of increasing financial stability. By replacing vehicles that have reached the end of their useful life with leased units, the division will be able to more accurately estimate and track the costs of operating vehicles necessary to perform critical program functions. By replacing vehicles that, due to age and condition, are subject to frequent breakdown or require frequent maintenance/repair and therefore prevent division personnel from performing their core duties, the division will recognize an increase in productivity of division personnel. Reliable vehicles are also essential for the division to meet existing performance measures related to number of licensed devices inspected and number of retail motor vehicle fuel station inspections.

E712	EQUIPMENT REPLACEMENT				
	This request replaces a Freightliner truck that has reached the end of its useful life. Replacement will be agency owned and a used-newer truck will be purchased. By replacing this vehicle (EX53390, asset #295848) which has reached the end of its useful life, the division will be able to avoid the high cost of maintenance and repairs required to keep the vehicle operable. Over the course of the last year, this vehicle has been inoperable approximately thirty-percent of the time, prohibiting the division's timely performing the inspection of large capacity scales. Additionally, replacing this vehicle will allow the division to be more reliable when scheduling inspections of scales which require this vehicle, improving our level of customer service. The division currently has 346 licensed large-capacity scales in locations serviced by the southern Nevada weights and measures inspection team. The cost estimate for this proposal is based upon purchasing a used vehicle and is based on current market price of representative vehicles available for purchase in the marketplace. The cost of a new vehicle which meets the division's specifications is outside of the funding resources currently available. (See attached quotes.) [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4552 AGRI - PEST, PLANT DISEASE NOXIOUS WEED CONTROL

This program provides for the survey and control of species that cause detrimental economic, environmental, and public health effects. This budget houses multiple federal grants that provide funds for plant pest surveillance, detection, biocontrol, and noxious weed control. Federal and state cooperative agreements provide support for pest surveys that allows for early detection of pest species, mostly those not yet found in the state. Many of these pests, if allowed to establish, would cost Nevada millions of dollars in eradication efforts, environmental damage, and control costs in crops, livestock and to homeowners. Another serious impact of these pests would be the loss of revenues due to the restriction of trade, by other states and countries quarantining Nevada commodities.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023

2521	FEDERAL FUNDS TO NEW YEAR	0	0	0	0
3222	EXCESS PROPERTY SALES	4,325	0	0	0
3500	USDA AMS-FNS AGREEMENTS The United States Department of Agriculture(USDA) provides funds to manage the USDA Specialty Crop Block Grant-Farm Bill. The purpose of the Specialty Crop Block Grant program is to enhance the competitiveness of specialty crops in the state. Catalog of Federal Domestic Assistance(CFDA) is 10.170. Revenue based on five year average and are attached. [See Attachment]	195,336	244,890	268,140	268,140
3506	USDA USF AGREEMENTS There are two agreements from the United States Forest Service (USFS). The first is a Cooperative Agreement (CA)to facilitate the creation of Cooperative Weed Management Areas (CWMA) across Nevada, and to support the department's weed free hay and forage certification program. The CFDA number is 10.664. The second is the CA to enhance, restore and protect the habitat of the greater sage grouse through the management of invasive, non-native plants. Revenue based on five year projections. Projections and awards are attached. [See Attachment]	261,036	75,000	126,847	126,847
3510	FDA PRODUCE SAFETY This Cooperative Agreement (CA) with the Food and Drug Administration (FDA) is to protect public health through growing practices that minimize microbial, physical and chemical contaminants, and to assist growers in Nevada by establishing a state education and enforcement program. The CFDA number is 93.103. Revenue based on five year projections and attached to note on RGL 3500. Current award attached; new award anticipated for the upcoming biennium. [See Attachment]	221,219	472,946	235,801	235,801
3512	USDA APHIS AGREEMENTS This cooperative agreement provides funds to continue to increase the electronic infrastructure in Nevada (as it relates to the Western Regional Cooperative Agricultural Pest Survey guide) to handle exotic and other pest finds. CFDA is 10.025. Includes the Grasshopper/Mormon Cricket Suppression. PPQ's are awarded each fiscal year. The Mormon Cricket award has been extended through 2023. Revenue projections are based on a five year average - see spreadsheet attached to RGL 3500. [See Attachment]	371,826	481,361	383,688	383,688
4200	INSURANCE RECOVERIES One time revenue from total loss recovery of vehicle due to auto accident.	9,841	0	0	0
4201	REIMBURSEMENT The revenue for this RGL is fee based - the Department of Agriculture sells strychnine to producers for the purpose of vertebrate rodent control. Fees in FY18/19 = \$91 per 100 ounce bottle sold. Revenue projections are based on five year average. See spreadsheet attached to RGL 3500.	50,413	43,332	42,937	42,937
4265	UC DAVIS - WPDN The University of California, Davis (UC Davis) awards a sub grant to Plant Industry with a federal award from the National Institute of Food and Agriculture/USDA - CFDA 10.304, and its purpose is to expand the capability of the pathology and entomology lab relating to rapid plant disease and insect identification. Revenue based on five year average - see spreadsheet attached to RGL 3500. [See Attachment]	21,318	13,931	17,299	17,299
4672	TRANSFER FROM HCFP	4,113	0	0	0

E125 ECONOMIC OPPORTUNITY & SKILLED WORKFORCE

This requests funds a new Grants and Projects Analyst position to assist the Division of Plant Industry with the application and management processes for their many federal awards :A federally funded Grants and Projects Analyst 1 is needed to support the coordination of the Specialty Crop Block Grant Program (SCBGP) (75%) and the Food Safety Modernization Act (FSMA) grant (20%) with some general program assistance in submitting applications and reports for the Mormon Cricket and Plant Protection and Quarantine program (5%). The SCBGP limits indirect costs to 8% of the total award which previously could not be used to cover program administration costs, however they are now allowing for increased funds for direct program coordination. This position will perform outreach and education on the SCBGP which provides research, education, and promotion opportunities for specialty crops in Nevada. It will review applications for eligibility, draft sub-contracts, and ensure expenditures meet program requirements. It will manage sub-grants issued over a three year period which can range from 20-40 concurrent sub-grants. The program restrictions are extensive for these programs and the application and reporting requirements are incredibly time intensive. In addition, applicants and sub-grantees are in need of technical assistance to ensure activities are appropriate for the program, reports and applications are completed per federal requirements, and projects are meeting state-specific needs.

E126	ECONOMIC OPPORTUNITY & SKILLED WORKFORCE				
	This request is for the re-classification of an Agricultural Inspector IV to an Agriculturist II.				
	The state entomologist has managed the PPQ cooperative agreements in the past, however the position has since been assigned the state nursery program to ensure there is consistency among survey and quarantine decisions. As a result, the entomologist needs additional assistance in completing grant proposals for state survey coordination, federal reporting, and in developing state-wide survey strategies. This includes coordinating seasonal staff and in completing year round surveys as seasonal staff are only secured during peak pest life cycle phases. The entomologist also needs assistance in providing outreach and education on pests of significance to Nevada that can impact public health and safety in addition to agricultural crops. This position will require more independent work involving program coordination, supervision and education services. This will then allow the state entomologist to dedicate the time needed for pest identification and multi-program coordination in addition to collaboration with state and federal partners in responding to critical pests identified.

E275 ELEVATING EDUCATION

This request is to create a plant disease survey coordinator performing field surveys and associated coordination duties under the cooperative agreements between USDA-APHIS-PPQ and NDA. The disease survey coordinator performs exotic and quarantine disease surveys, detection and monitoring in agricultural fields, nurseries, and greenhouses so that Nevada agriculture is protected through rapid response and multi-agency collaboration. Survey data are used to promote Nevada agricultural commodities for export to international markets. Annual quarantine disease surveys in Nevada allow for early identification and response strategies to be applied, helping to preserve the industry. Disease surveys are long-term and ongoing efforts for every state government. This proposal is to enhance our survey quality by adding a well-trained FTE to the program. Services will be provided in a more timely manner as annual training needs previously required by seasonals will be minimized. Further, the accurate identification of target pests are critical and failure to have dedicated full time staff in the past has resulted in inadequate sampling procedures which delays the identification of diseases that are harmful to Nevada's industry.

Section A1: Line Item Detail by GL

Budget Account: 4554 AGRI - AGRICULTURE ADMINISTRATION

The Administration for the Department of Agriculture acts as the foundation for all programs addressing food security, food production, commercial oversight and public safety. By housing the budget, payroll, IT, community education, communication and economic development functions, it is the hub of all work done by the NDA. The Division also houses the Board of Agriculture whose responsibilities include communicating Policy to the Director and representing facets of the industry. The Division, through the Director, provides oversight to all Department functions and objectives. Statutory Authority: NRS 561.

E226 EFFICIENCY & INNOVATION

This request funds a new Information Technology Professional position which will provide onsite support to the Las Vegas and Elko offices. This position would be located in the Las Vegas office and also provide onsite support to the Elko office. There is a severe shortage of on-site help desk and infrastructure support for the NDA Las Vegas and Elko offices. Lack of timely onsite assistance to resolve issues with network, computers, security camera, lab and audio video equipment has led to prolonged security vulnerabilities, inefficiencies with employee work production (too much down time waiting for a technology issue resolution) and additional cost to the agency to ship broken and replacement equipment between the Sparks and Las Vegas/Elko offices. This position would work under general supervision, independently, and as a high-level IT help desk support, network operations, audio video and additional server support person located in the Las Vegas office. This position would also routinely travel to Elko office several times a month to provide onsite support and issue resolution. This position would report to the current IT Professional Help Desk / Network & Server Administrator position in Sparks and also provide backup for Help Desk supervision, network and to the Sparks IT support workload.

E231 EFFICIENCY & INNOVATION

The NDA requests a Personnel Analyst 2 position to support and advise the Department on all personnel issues, while also assisting employees on training opportunities and HR questions. With support of the Department of Administration, it was determined that the NDA's human resource needs are vast and complicated due to the specialized nature of many of the NDA's positions (46% of the positions are unique to the Department). The goal of this position will be to address the Department's strategic plan by creating a cohesive organization and become a customer-focused organization.

E722 NEW EQUIPMENT

This request funds the purchase of a Laboratory Management System.

In order to create efficient processes, improve quality control, meet accreditation requirements, and provide for better customer service and consumer safety to adults, children, and families in Nevada, a Laboratory Information Management System (LIMS) is a necessary component for a modern laboratory. This initiative is intended to combine business process re-engineering and technology as it relates to the design, development and implementation of a replacement solution for managing sample and laboratory testing that better meets the strategic goals of the agency and Nevadans. The NDA Laboratory Information Management System (LIMS) Project will be undertaken by the NDA with the goal to streamline workflow and gain economy in numbers by combining disparate systems and contracted vendor systems into a cohesive and standardized LIMS for NDA's current and future laboratories information management needs.

The NDA labs within the scope of this project are Animal Disease and Microbiology Lab, Chemistry Lab, Food & Dairy Lab, Plant Pathology Lab, Entomology Lab, Petroleum Lab, and Metrology Lab.

E802 COST ALLOCATION

This request replaces computer hardware and associated software per the EITS recommended replacement schedule, the purchase of a Laboratory Management System for NDA laboratories in the Animal, Plant and Consumer Equitability divisions, and transfers one janitorial and one landscaping contract to BA 4554 for cost allocation to all NDA budget accounts.

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This request combines three enhancement decision units. Decision Unit E710 requests the replacement of computer hardware and associated software per the EITS recommended replacement schedule. Decision Unit E722 requests funding for the purchase of a Laboratory Management System for the purpose of creating efficient processes, improving quality control, meeting accreditation requirements, and providing better customer service and consumer safety to adults, children and families in Nevada. Decision Unit E910 requests the transfer of Category 07 (Maintenance of Buildings and Grounds) janitorial and landscaping expenses to BA 4554, where they will be cost allocated across all divisions rather than distributed unequally to budget accounts 4546 and 4551. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4557 AGRI - LIVESTOCK ENFORCEMENT

The Division of Livestock Enforcement is comprised of Nevada Police Officers Standards and Training certified sworn peace officers that serve the Nevada Department of Agriculture (NDA), as well as the citizens and visitors of the state. The Agricultural Enforcement Officers are the regulatory arm of the NDA. The division's peace officers' primary focus is the protection of public safety, protection of livestock owners from theft or loss of livestock through roadway patrol and detailed investigation, and enforcement of all agricultural laws with a road interdiction program to prevent the ingress and egress of agricultural products that have not met the mandated requirements of plant or animal health, and livestock identification. Along with regulating the livestock identification and inspection division, these officers are also tasked with testing, inspection, and regulatory compliance for the NDA Commercial Feed Registration Program. The NDA Agricultural Enforcement Officers also assist the department's other divisions when law enforcement or regulatory compliance is required. This includes the divisions of Animal Industry, Plant Industry, Consumer Equitability, and Food and Nutrition. The division works in cooperation with local, state, and federal law enforcement and regulatory agencies statewide and across the U.S. to ensure the protection of public safety and the agricultural industry. Statutory Authority: NRS 289, 554, 561, 564, 565, 569, 571, 573, 575, 576, and 587.

Section A1: Line Item Detail by GL

Budget Account: 4600 AGRI - PREDATORY ANIMAL & RODENT CONTROL

NRS 567.010-090 authorizes the State Predatory Animal and Rodent Committee (PARC) to cooperate with the U.S. Department of Agriculture (USDA) for the control of predatory animals and crop-destroying birds and rodents within the State of Nevada. PARC and the USDA collectively form the Nevada Wildlife Services Program (WS). The WS also works cooperatively with the Nevada Department of Wildlife to conduct predation damage management projects to protect Nevada's natural resources, such as, mule deer, sage grouse, and bighorn sheep. These projects also help protect the public from large predators such as mountain lions, black bears, and coyotes.

The mission of the WS is to provide leadership in managing problems caused by wildlife. WS recognizes that wildlife is an important public resource highly valued by the people of Nevada. Wildlife is a highly dynamic and mobile resource that can damage agricultural and industrial resources, pose risks to human health and safety, and affect other natural resources. The program carries out the state and federal responsibility for helping to solve problems that occur when human activity and wildlife are in conflict with one another. Statutory Authority: The Animal Damage Control Act of March 2, 1931, as amended (46 Stat. 1486; 7 U.S.C. 426-426b) and the Rural Development, Agriculture and related agencies Appropriation Act, 1988 (P.L. 100-202) authorizes the USDA's Wildlife Services program to form cooperative programs with state agencies.

7053	RISK MGT MISC INS POLICIES Risk Management Miscellaneous Insurance Policies. This object code is not schedule-driven and, therefore, is being used to request funding for insurance coverage for the Hoover Dam Bridge Policy. NDOT is responsible for all Hoover Dam bridge maintenance, including maintenance performed on the Arizona side of the bridge. The State of Nevada has a cap on tort liability, however, Arizona has unlimited liability. Therefore, in the event of a problem due to our action or inaction in bridge maintenance, a lawsuit could be brought to court and settled in Arizona, exposing the State of Nevada to a potentially large liability. Additional liability insurance is necessary since our current liability insurance is insufficient to cover this exposure. Arizona is being billed separately. See attached e-mail from Risk Management. Risk Management calculated a 10% increase each year. This object code also includes insurance policies for heavy equipment and radio sites.	384,755	318,988	384,755	384,755

09	O/S INSPECTION AUDIT This category is used to record both training-related travel as well as for travel expenses related to the Department's Audit and Inspection Program: Out-of-State Audit/Inspection Travel enables departmental engineers to travel to manufacturing sites to observe a manufacturing process for quality control purposes, and to coordinate design work with engineering firms hired to do specialized work. It is also used when transporting mobile test equipment to the factory for periodic calibration, and for non-discretionary travel associated with right-of-way negotiations and legal depositions. Out-of-State Training Travel is reserved for necessary training that is not available in-state. Some examples of this type of training are: the Highways and Traffic Management Institute for senior engineers at the University of Indiana, OSHA Safety Management courses, and mandatory periodic pilot proficiency training.				
6103	PER DIEM OUT-OF-STATE-C Training Per Diem - Out of State - Travel for employee training for lodging and meals while traveling out of state.	26,078	66,573	26,078	26,078

20 TRANSPORTATION BOARD EXPENSES

The 1989 Legislature created a seven-member board of directors to oversee operations of the Department of Transportation (AB123). The Board is comprised of the Governor, Lieutenant Governor, Attorney General, State Controller, and three persons knowledgeable in engineering, finance, or construction, appointed by the Governor. All board expenses are charged to this category.

5200	WORKERS COMPENSATION This line item is for workers compensation relating to bike path planning.	0	0	0	0

36	TRAFFIC MANAGEMENT CENTER (TMC) The Traffic Management Center (TMC) is a focal point for traffic monitoring, incident management, road condition reporting, traveler information dissemination, and advisory communications. The TMC contains the control consoles, computer terminals, map displays, TV monitors and radio consoles for the regional, multi-jurisdictional, intelligent transportation system for the Las Vegas Valley area known as the Freeway and Arterial System of Transportation (FAST) system. The TMC is occupied by Regional Transportation Commission (RTC) staff who manage freeway and arterial operations, perform incident management and control traffic. The center also contains equipment areas for control and communications devices, electrical and mechanical rooms and conference rooms. At the TMC, real time information is gathered from many sources such as electronic sensors in the pavement, video cameras, officers on patrol, and ramp meter sensors. FAST helps manage traffic during fluctuating periods of vehicle demand on freeways and arterials and provides enhanced incident response capabilities. The goal of the FAST system is to maximize the return on public investment in the highway system. Ideally, the FAST system improves overall transportation mobility to better serve the rapidly growing travel demand. Based on the information received, decisions are made by FAST staff to provide rapid, intelligent and coordinated responses to changing traffic conditions. From the TMC, traffic is re-routed, tow trucks are dispatched, and motorists are alerted through the use of changeable message signs and traffic reports to the media.				
7023	OPERATING SUPPLIES-C First aid and safety supplies.	0	718,234	0	0

36	TRAFFIC MANAGEMENT CENTER (TMC)				
	The Traffic Management Center (TMC) is a focal point for traffic monitoring, incident management, road condition reporting, traveler information dissemination, and advisory communications. The TMC contains the control consoles, computer terminals, map displays, TV monitors and radio consoles for the regional, multi-jurisdictional, intelligent transportation system for the Las Vegas Valley area known as the Freeway and Arterial System of Transportation (FAST) system. The TMC is occupied by Regional Transportation Commission (RTC) staff who manage freeway and arterial operations, perform incident management and control traffic. The center also contains equipment areas for control and communications devices, electrical and mechanical rooms and conference rooms.

2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	At the TMC, real time information is gathered from many sources such as electronic sensors in the pavement, video cameras, officers on patrol, and ramp meter sensors. FAST helps manage traffic during fluctuating periods of vehicle demand on freeways and arterials and provides enhanced incident response capabilities. The goal of the FAST system is to maximize the return on public investment in the highway system. Ideally, the FAST system improves overall transportation mobility to better serve the rapidly growing travel demand. Based on the information received, decisions are made by FAST staff to provide rapid, intelligent and coordinated responses to changing traffic conditions. From the TMC, traffic is re-routed, tow trucks are dispatched, and motorists are alerted through the use of changeable message signs and traffic reports to the media.

9089	TRANS TO PARKS This M-150 is to keep funding available for the 2 new state parks created in the FY19/20 budget for gravel road maintenance as NDOT doesn't have experience maintaining gravel roads.	0	0	37,300	37,300
TOTAL FOR CATEGORY 06		0	0	67,118,900	64,657,256
09	O/S INSPECTION AUDIT This category is used to record both training-related travel as well as for travel expenses related to the Department's Audit and Inspection Program: Out-of-State Audit/Inspection Travel enables departmental engineers to travel to manufacturing sites to observe a manufacturing process for quality control purposes, and to coordinate design work with engineering firms hired to do specialized work. It is also used when transporting mobile test equipment to the factory for periodic calibration, and for non-discretionary travel associated with right-of-way negotiations and legal depositions. Out-of-State Training Travel is reserved for necessary training that is not available in-state. Some examples of this type of training are: the Highways and Traffic Management Institute for senior engineers at the University of Indiana, OSHA Safety Management courses, and mandatory periodic pilot proficiency training.				
6103	PER DIEM OUT-OF-STATE-C On March 16, 2020, the Governor's Finance Office (GFO) instituted travel guidance in response to COVID-19. Only mission-critical travel was authorized and all out of state and international travel is to be cancelled unless a written exemption has been obtained by the Governor's Office. Three and a half months of out of state travel and training was cancelled due to COVID-19 to minimize the spread of the pandemic. This M-150 is being requested to keep NDOT's out of state inspection and training travel budget established as base in FY20 as hopefully it will be business as usual by 2021. Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	On March 16, 2020, the Governor's Finance Office (GFO) instituted a work from home order and ask people of the state of Nevada to stay home. With board members working and meeting from home no travel was needed as meetings weren't held in person due to Covid-19. This M-150 is being requested to keep NDOT's Transportation Board meetings established at base as hopefully it will be business as usual by 2021. [See Attachment]

36	TRAFFIC MANAGEMENT CENTER (TMC)				
<p>The Traffic Management Center (TMC) is a focal point for traffic monitoring, incident management, road condition reporting, traveler information dissemination, and advisory communications. The TMC contains the control consoles, computer terminals, map displays, TV monitors and radio consoles for the regional, multi-jurisdictional, intelligent transportation system for the Las Vegas Valley area known as the Freeway and Arterial System of Transportation (FAST) system. The TMC is occupied by Regional Transportation Commission (RTC) staff who manage freeway and arterial operations, perform incident management and control traffic. The center also contains equipment areas for control and communications devices, electrical and mechanical rooms and conference rooms.</p> <p>At the TMC, real time information is gathered from many sources such as electronic sensors in the pavement, video cameras, officers on patrol, and ramp meter sensors. FAST helps manage traffic during fluctuating periods of vehicle demand on freeways and arterials and provides enhanced incident response capabilities. The goal of the FAST system is to maximize the return on public investment in the highway system. Ideally, the FAST system improves overall transportation mobility to better serve the rapidly growing travel demand. Based on the information received, decisions are made by FAST staff to provide rapid, intelligent and coordinated responses to changing traffic conditions. From the TMC, traffic is re-routed, tow trucks are dispatched, and motorists are alerted through the use of changeable message signs and traffic reports to the media.</p>

E380 SAFE AND LIVABLE COMMUNITIES

This request continues funding for replacement of the Nevada Shared Radio System (NSRS) project.
Page 4638 of 5232

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	The Nevada Shared Radio System (NSRS), reached end of support by the manufacturer in December 2017. The Department of Transportation, as the lead agency on behalf of the State of Nevada, is working to replace the existing Land Mobile Radio (LMR) system in partnership with the two other infrastructure owners, Washoe County and NV Energy. This radio system is vital to ongoing operations and emergency response and provides coverage where/when cellular coverage is unavailable. The NSRS has nearly 12,000 users (defined as portables, mobiles, consoles, and fixed data locations) and is utilized by state, federal, and local government agencies for emergency services and in support of their daily operations. [See Attachment]

E710	EQUIPMENT REPLACEMENT				
	As required by the Budget Instructions, expenses associated with the routine replacement of existing equipment are included as an enhancement decision unit. Purchases such as trucks, automobiles and large graders are referred to as licensed equipment. Each year the department replaces a portion of the licensed mobile and fleet based on cumulative miles or hours (meter reading), age, cost of repairs, parts availability, life cycle cost analysis, condition and district equipment needs. Attached is a detailed list of licensed equipment needing replacement. [See Attachment]				
00	REVENUE				
2507	HIGHWAY FUND AUTHORIZATION	0	0	7,920,000	7,920,000
	This line item is for replacing 10% of the MHz Radios annually and \$7,500,000 worth of Heavy Duty Replacement Equipment.				
TOTAL REVENUES FOR DECISION UNIT E710		0	0	7,920,000	7,920,000

EXPENDITURE					
05	EQUIPMENT				
	The Department's equipment budget consists of two components: Mobile Equipment - Purchases such as trucks, automobiles, large graders, and mobile lab trailers are classified as major mobile equipment. Operational Equipment - This covers a wide variety of equipment such as maintenance station tools, computer equipment, CADD workstations, office furniture, radio communications equipment, and laboratory test equipment.				
8277	SPECIAL EQUIPMENT <\$5,000 - G	0	0	420,000	420,000
	This decision unit requests budget authority for the replacement of approximately ten percent (10%) of the 800 MHz radios owned and utilized by the Department of Transportation (NDOT). The type of radios to be replaced reached their end of service for parts support in 2009 and 2010. 200 radios x \$4,200 estimated replacement cost per unit = \$840,000 (see attached list of NDOT radios to be replaced). The replacement radios are compatible with any P25 radio system and are vender neutral.				
8280	HEAVY DUTY TRUCKS - NEW	0	0	7,500,000	7,500,000

E720	NEW EQUIPMENT				
	EFFICIENCY MEASURE: This efficiency measure requests the addition of 16 Front End Loaders (four in District 1, four in District 2, and eight in District 3). Loaders are one of the primary maintenance tools used to move materials short distances, and they are frequently used by every maintenance crew to complete a variety of tasks. The Department currently has to rent loaders, which is expensive. Given the amount of time spent using loaders and the length of time each loader is kept on average, it is much more cost-effective and efficient to purchase loaders than to rent them. The additional loaders will save NDOT over \$330K per year in Cat 04 operating costs and pay for themselves in less than 9 years. The lifespan of a loader is 20 years or 5,000 hours, and in many cases they can be rebuilt for additional life.				
	Includes the following:				
	IT = \$1,335,000				
	ITS = \$250,000				
	Non-Rental = 1,250,000				
	16 Front Loaders = \$2,880,000				
	3 lab trailers each FY = \$555,000				
	Reduction to Cat 04 rental = \$-330,467

E805	CLASSIFIED POSITION CHANGES				
	In August 2019, two divisions, the Environmental Services Division and the Stormwater Division, were merged into a single Environmental Division. To facilitate the continued efficient administration and operations associated with this new division, the Department proposes the new division be administered by a single Administrator II, Professional Engineer (6.221) with the assistance of two separate Environmental Chief (6.809) positions. The new classification will open the administration of the Environmental Division to reflect the unique nature of the environmental planning and analysis performed by the division.

Budget Account: 4663 NDOT - BOND CONSTRUCTION

Authority is requested for budget account 4663 to accept and expend bond proceeds to fund the construction of project NEON in Clark County as a design-build project. Bond principal payments are planned to be reimbursed with federal funds at 95% and 5% state match. Per NRS 408.273 Transportation Board and Board of Finance approval is required to complete the bond sales. The issuance of bonds will allow the Department of Transportation to accelerate the delivery of project NEON in the most cost-effective manner.

Budget Account: 4678 B&I - NEW MARKETS PERFORMANCE GUARANTEE

Pursuant to NRS 231A the Nevada New Markets Job Act (NMJA), relating to economic development, through the oversight of the Department of Business and Industry allow certain business entities to receive tax credit against the premium tax imposed on insurance companies in exchange for investing in a qualified community development entity. A qualified community development entity that seeks to have an equity investment or long-term debt security designated as a qualified equity investment and eligible for tax credits under this chapter must pay a fee in the amount of 0.5 percent of the amount of the equity investment or long-term debt security requested to be designated as a qualified equity investment to the Department. The fee that is deposited in the New Markets Performance Guarantee Account will either be returned to the applicant or reverted to the General Fund based on performance.

Section A1: Line Item Detail by GL

Budget Account: 4680 B&I - DIVISION OF INDUSTRIAL RELATIONS

The Division of Industrial Relations includes the Administrator's Office, the Workers' Compensation Section (WCS) and the Legal Section. The WCS regulates Nevada's workers' compensation programs to ensure that injured workers receive timely and accurate delivery of wage loss compensation, physical impairment compensation, medical compensation and rehabilitation benefits through a comprehensive program of training, auditing, investigation and enforcement. The WCS is also responsible for the regulation of private insurers, self-insured employers, associations of public and private self-insured employers, private workers' compensation carriers, third-party administrators, managed care organizations and health care providers. The WCS Compliance Unit enforces the statutory requirement that all employers with one or more employees maintain a policy of workers' compensation. In a non-regulatory capacity, WCS oversees the administration of uninsured claims. The Administrator's office and legal section provide general administration and legal support services to the operating units of Division of Industrial Relations.

STATUTORY AUTHORITY: NRS 616 and 617

Conducts statutory, follow-up, high-risk and other audits:NRS 616A.400, NRS 616B.003.

Conducts insurer, health care provider and employer investigations: NRS 616A.400, NRS 616A.410, and NRS 616A.485.

Investigates complaints and benefit penalty requests, in addition to employer and health care provider complaints: NRS 616A.400, NRS 616A.475, and NRS 616D.130.

Issues notices, orders, fines, benefit penalties and premium penalties: NRS 616D.120-145 and NRS 616D.200.

Issues stop work orders: NRS 616D.110.

Evaluates and provides determinations for Subsequent Injury Account requests by private workers' compensation insurers: NRS 616B.584-590.

Issues annual payments to eligible permanent total disability claimants: NRS 616C.453.

Provides recommendations to the Subsequent Injury Account Boards for self-insured and associations of self-insured employers: NRS 616B.545-560, NRS 616B.563-581.

Collects data, conducts research and reports on workers' compensation issues: NRS 616B.006 and NRS 616B.009.

Investigates and makes referrals to claims administrator for uninsured claims to determine compensability: NRS 616C.220.

Administers statutes and regulations pertaining to occupational disease: NRS 617.160.

Collects and monitors data on specified occupational diseases (heart/lung, cancer, infectious) and makes annual report available to the public: NRS 617.357.

23	ASSOCIATION SUBSEQUENT INJURY BOARD				
This category pays for the attorney and other legal fees used by the Subsequent Injury Board when they meet and review and approve Subsequent Injury claims. In fiscal year 2020, DIR did not renew its contract with the attorney providing these services and began utilizing services through the Attorney General's Office. These changes will eliminate contract payments in this category, but DIR will need to provide authority for document storage and transcription costs which were not previously included.					
7060	CONTRACTS This is a schedule driven M-150 adjustment.	0	0	-14,787	-14,787
7080	LEGAL AND COURT This category pays for the attorney and other legal fees used by the Subsequent Injury Board when they meet and review and approve Subsequent Injury claims. In fiscal year 2020, DIR did not renew its contract with the attorney providing these services and began utilizing services through the Attorney General's Office. These changes will eliminate contract payments in this category, but DIR will need to provide authority for document storage and transcription costs which were not previously included. This requests annualizes legal transcription expenditures for the Association Subsequent Injury Board. Due to COVID-19 and other complications, the Board only met in six months of fiscal year 2020. Six meeting expenditure total: \$963.85 * 2 = \$1,927.70 total for Cat/GL Additionally, the Board needs to allow for transcription costs for two full hearings per year. Costs to transcribe a full Board Hearing are approximately \$500. \$500 / Hearing * 2 Hearings = \$1,000 \$963.85 + \$1,000 = \$1,963.85	0	0	1,964	1,964

Section A1: Line Item Detail by GL

Budget Account: 4681 B&I - BUSINESS AND INDUSTRY ADMINISTRATION

The Director is responsible for the administration of all of the provisions of law relating to the jurisdiction, duties, and functions of the 12 divisions of the Department of Business and Industry. The Director's Office establishes or approves divisional goals, objectives, and priorities; oversees the carrying out of statutory responsibilities; establishes uniform policies and procedures; provides for coordination between divisional programs and business processes within the department; approves division budgets, legislative proposals, and contracts; and provides oversight of the staff development functions to encourage the achievement of department objectives and the development of new ideas and approaches that encourage teamwork, professionalism and increased productivity. Statutory Authority: NRS 232.505 through 232.548.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 52.6 full-time equivalent positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE

E900	TRANSFER FROM 4130 TO 4681				
This request transfers vacant PCN 0302 IT Professional 2 from budget account 4130 Taxicab Authority (TA) to budget account 4681 Department of Business and Industry Administration (B&I Admin). The Taxicab Authority currently has a vacant PCN 0302 IT Professional 2. This position was vacated by the incumbent in October 2019 and has been left unfilled due to declining TA revenues and the COVID related hiring freeze. The original purpose of this position was to navigate the TA through the process of defining, procuring, implementing, and supporting a new enterprise information system. The position also provides day-to-day IT support to the TA, including desktop software, mobile devices (for investigators and inspectors working in the field), the TA court system (For The Record), background check system, and support of peripheral devices (e.g. printers, scanners, etc.). The TA has determined that the current workload does not support the need for a full-time position. The new system, Accela, has been implemented through Phase 2 with the support of existing B&I Admin IT staff. The new Accela System supports licensing, medallion management, inspections, investigations, dispatch, enforcement, and the TA court (case management). The department IT staff is stretched thin not only supporting the TA, but supporting the overall department needs. By transferring the position to B&I Admin, where it would serve as an IT resource supporting the Department's 12 Las Vegas agencies, inclusive of the TA and 439 staff. Currently, there is only one dedicated overburdened IT position. The increasing reliance on video conferencing and telecommuting further impacts the workload. Additionally, the support will aid with the Department's multiple IT projects (e.g. new system implementations, system upgrades, deployment of new technology), where the B&I Admin IT staff have a critical role. Additionally, the transfer of this position enables the distribution of the associated costs and financial burden from one agency to 12 that will benefit. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4682 B&I - OCCUPATIONAL SAFETY & HEALTH ENFORCEMENT

The Nevada Occupational Safety and Health Administration (NVOSHA) is the OSHA-approved State Plan to ensure safe and healthful working conditions for workers by setting and enforcing standards and by providing training, outreach, education and assistance. A State Plan is required to be at least as effective in protecting workers and preventing work-related injuries, illnesses, and deaths as stated in the Federal Occupational Safety and Health (OSH) Act of 1970. NVOSHA works closely with the Area Director for the Federal OSHA to ensure the State program is diligent in its efforts in protecting workers within the State of Nevada. Within NVOSHA, the Nevada Bureau of Labor Statistics (NVBLS) unit collects and publishes statistics on Nevada workplace injuries, illnesses, and fatalities. NVBLS works closely with the federal Bureau of Labor Statistics (BLS) regional office.

With the Occupational Safety and Health Act of 1970, Congress created the Occupational Safety and Health Administration (OSHA) to ensure safe and healthful working conditions for workers by setting and enforcing standards and by providing training, outreach, education and assistance.

The Mechanical Compliance Section (MCS) provides oversight and direction, as well as adherence to policies and procedures and compliance with regulations and codes governing all elevators, escalators, moving walks, boilers, and pressure vessels. Safety of the public and the employees of all who use these pieces of equipment is the primary goal.

The mission of MCS is to safeguard Nevada citizens and visitors by promoting elevator, boiler, and pressure vessel safety through education, enforcement, permitting, and emergency response.

Statutory Authority: NRS 618.175, NRS 618.185, NAC 618 and NRS 455C.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 111 employees, 9 board members, and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Travel requests are based on actual costs in 2018 in an effort to restore travel funding to 2021 levels due to significant impact of COVID-19 on travel in the 2020 base year. [See Attachment]				
REVENUE					
2505	ALLOCATION FROM FUND Allocation from Workers Compensation and Safety Fund. This is the main revenue source for the division and comes from an assessment on all self-insured employers, associations of self-insured employers and private carriers per NRS 616A.425.	10,259,014	10,780,098	12,928,976	13,267,812
3406	FED LABOR STATISTICS GRANT US Dept of Labor-Bureau of Labor and Statistics. This grant covers the cost of soliciting, collecting and formulating the Occupational Injury and Illness and Statistics and the Census of Fatal Occupational Statistics for the State of Nevada. The amount is set by federal formula. CFDA# 17.005. The amount is set by federal formula. Per Public Law 91-596, Section 24, there is a 1:1 match requirement. Projections are based on total award amount in 2020 base year. [See Attachment]	80,985	75,700	88,100	88,100
3407	FED DEPT OF OCUP HEALTH & SFTY US Dept of Labor Occupational Safety and Health Administration 23g Grant. This grant is for the cost to administer the federal OSHA program within the State of Nevada. The amount is set by federal formula. The 23 grant is split between budget account 4682 (85%) and 4685 (15%). Projections are based on actual amount awarded in 2020 base year (\$1,602,700 times 85% = 1,362,295).  2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4683 B&I - PRIVATE ACTIVITY BONDS

The Director's Office administers the Private Activity Bond program to improve access to capital and promote business development and expansion in the state. The Director is also responsible for the allocation of bonding authority (known as Volume Cap) between competing state and local interests. Fees from this program are used to support the operations of the Director's office which are in connection with the bond programs administered pursuant to NRS348A and NRS349.

Section A1: Line Item Detail by GL

Budget Account: 4684 B&I - SELF INSURED - WORKERS COMPENSATION

The Self-Insured Workers Compensation Program establishes financial solvency requirements for self-insured employers and regulates the self-insured programs. NRS 616B.300 provides that qualified employers and groups of employers may self-insure their workers' compensation programs for industrial insurance and occupational diseases in lieu of participation in the private insurance market. Statutory Authority: NRS 616B.300.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 4 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2505	ALLOCATION FROM FUND Pursuant to NRS 616A.425(3)(b) an allocation from the Worker's Compensation and Safety fund for salary and administrative expenses associated with the self-insurance program.	361,890	369,643	373,625	381,189
2510	REVERSIONS	-162,936	0	0	0
3717	APPLICATION FEES Employers requesting authority to self-insure for the purposes of workers' compensation pay a non-refundable application fee (NAC 616B.430). Projections reflect actual base amount. [See Attachment]	400	600	400	400
3730	EXAMINATION FEES Pursuant to NRS 616B.336, the Commissioner of Insurance shall examine the claim records of Self-Insured employers once every three years. Per statute, the cost of the examination is paid by the self-insured employer. In addition, pursuant to NRS 616B.395, the Commissioner of Insurance shall examine the books and records of Associations of Self-Insured Employers. The expense of any examination conducted pursuant to this section must be paid by the association. Projections reflect agency's estimated examination schedule for fiscal year 2022 and fiscal year 2023. [See Attachment]	176,012	298,994	176,012	176,012
4157	FINES Fines are levied against self-insured employers and associations for failure to comply with statutory and regulatory requirements. Collections are used to offset the Division of Industrial Relations (DIR) allocation from Fund 210. Projections reflect actual base amount. [See Attachment]	1,500	13,200	1,500	1,500

Section A1: Line Item Detail by GL

Budget Account: 4685 B&I - SAFETY CONSULTATION AND TRAINING

The Safety Consultation and Training Section (SCATS) manages all functions of the Occupational Safety and Health Administration Consultation program within the State of Nevada. SCATS helps Nevada's small businesses by offering professional safety and health consultation services and training to improve the safety culture of Nevada employers and employees, at no charge.

The Safety Consultation and Training Section (SCATS) assists Nevada's employers at no cost to develop and implement effective safety and health programs and reduce workplace hazards by identifying unsafe or unhealthy working conditions through on-site safety and health consultations and formal classroom safety and health regulatory awareness training.

Statutory Authority: NRS 618.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 30 employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Travel requests are based on actual costs in 2018 in an effort to restore travel funding to 2021 levels due to significant impact of COVID-19 on travel in the 2020 base year. [See Attachment]				
REVENUE					
2505	ALLOCATION FROM FUND Allocation from Workers Compensation and Safety Fund. The funds revenue comes from an assessment on all self-insured employers, associations of self-insured employers, and private carriers.	2,746,731	2,772,257	3,366,766	3,442,607
3407	FED DEPT OF OCUP HEALTH & SFTY US Dept of Labor Occupational Safety and Health Administration 23g Grant. This grant is for the cost to administer the federal OSHA program within the State of Nevada. The amount is set by federal formula. The 23g grant is split between budget account 4682 (85%) and 4685 (15%). Projections are based on actual award amount in 2020 base year (\$1,602,700 times 15% = \$240,405). [See Attachment]	224,354	227,340	240,405	240,405
3580	FEDERAL GRANT 21D US Dept of Labor Occupational Safety and Health Administration 21d Grant. This grant is for the cost to administer the federal Safety Consultation and Training program with the State of Nevada. The amount is set by a federal formula. Projections are based on actual awarded amount in 2020 base year. [See Attachment]	651,943	625,200	650,700	650,700
3601	LICENSES AND FEES The agency no longer charges participants in OSHA 10-hour classes and OSHA 30-hour classes the \$6 fee for an OSHA card. This was done to reduce the costs of staff time to collect and process cash payments.	0	6,828	0	0
4669	TRANS FROM OTHER B/A SAME FUND This request is associated with funds received in conjunction with the Coronavirus Aid, Relief, and Economic Act received in fiscal year 2020.	298,817	0	0	0

Section A1: Line Item Detail by GL

Budget Account: 4686 B&I - MINE SAFETY & TRAINING

The Mine Safety and Training Section provides mine inspection, technical assistance, consultation and safety training to protect Nevada's miners. The section's mission is to reduce the frequency and severity of accidents, and to assist Nevada's mining industry in complying with state and federal standards. Statutory Authority: NRS 512.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	[See Attachment]				
REVENUE					
2505	ALLOCATION FROM FUND Allocation from Workers Compensation and Safety Fund. This is the main revenue source for the division and comes from an assessment on all self-insured employers, associations of self-insured employers and private carriers per NRS 616A.425.	1,320,508	1,372,348	1,271,553	1,308,464
2510	REVERSIONS	-193,637	0	473	473
3408	FED MINE SAFETY & HEALTH GRANT This grant is for the administration of the Federal Mine Safety and Health training program. This amount is set by federal formula. The Federal MSHA grant is awarded with an 80/20 matching requirement that has been in effect since the middle 1970's. The State of Nevada's 20% match consists of the Workers' Compensation and Safety Fund assessments paid by Nevada businesses. The State Mine Safety and Training Section (MSATS) provides 24-hour surface and underground mine safety training classes for new inexperienced miners attempting to enter the mining profession. We also provide 8-hour refresher classes annually for surface and underground miners currently working in the mining community. Additionally, we offer 40+ specialty classes such as abandoned mines awareness, first-aid and CPR, Industrial Hygiene practices, explosives safety, cyanide training, rope rescue and ergonomics. [See Attachment]	392,011	377,346	395,768	395,768
4252	EXCESS PROPERTY SALES Revenue resulting from the sale of excess property sold at auction. This was a one-time source of revenue. This revenue source is being transferred to non-executive account BA6021, however, as the agency has determined it is more appropriate for all revenue to be received directly into Fund 210 for disbursement in future budget years.	0	0	0	0

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4687 DPS - TRAFFIC SAFETY

The Office of Traffic Safety (OTS) was established to secure the full benefits available through the Federal Highway Safety Office programs. Funds are authorized by Congress at or near the beginning of each federal fiscal year. Funds are expended on a reimbursement basis to local and state agencies that were awarded grants based upon the merit of their proposals, to mitigate traffic safety problems in their jurisdictions. Proposals that are chosen for a grant award are plans that promote public information and awareness through the use of effective education campaigns, fund innovative traffic enforcement programs and other community-based countermeasures to improve traffic safety. Statutory Authority: NRS 223.200

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues to award and administer grants to state agencies, local agencies, and non-profit organizations in Nevada. Grant awards are based on the annual Highway Safety Plan approved by the National Highway Transportation Safety Administration (NHTSA). One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
3423	FED TRAFFIC SAFETY GRANT Funding received from the NHTSA to support Section 402 State Highway Safety Programs. Funds categories 32 - Aid to State Agencies and 35 - Aid to Local Agencies. [See Attachment]	1,869,097	2,378,612	1,869,097	1,869,097
3581	FED ALCOHOL INCENTIVE GRANTS Funding received from the NHTSA to support impaired driving countermeasures. Funds category 36 - Impaired Driving Grant Funds. [See Attachment]	973,546	971,181	973,546	973,546

E225	EFFICIENCY & INNOVATION This request is for adjustments in the special use categories in budget account #4687 - DPS - Traffic Safety to align with the special use categories in budget account #4688 - Highway Safety Plan & Admin. It is challenging to have a different special use category in two different budget accounts for the same federal funding source (i.e. - 405B funding, #4687, Category 38, #4688, Category 25). Federal funds are drawn into #4687 and a portion of this funding is then transferred out to #4688. This change will be helpful in the processing of work programs for grant award alignments and balance forward of grant awards. Based upon conversations with the Governor's Finance Office budget analyst, it was determined that this alignment will aid current and new OTS fiscal staff, OTS program staff, DPS Director's Office staff, GFO staff and LCB staff in being able to follow multiple federal funding sources from one budget account to the other.

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4688 DPS - HIGHWAY SAFETY PLAN & ADMIN

The Department of Public Safety (DPS), Office of Traffic Safety (OTS) obtains and administers funds from the U.S. Department of Transportation (DOT) and sub-grants to state and local government entities and non-profit agencies. The mission of the office is to influence the driving behavior of Nevada's citizens through educational programs and the enforcement of traffic laws. The funding is also used to purchase limited equipment for emergency medical response and conduct first responder training. Statutory Authority: NRS 223.200.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for twelve positions and associated operational costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE

Section A1: Line Item Detail by GL

Budget Account: 4691 DPS - MOTORCYCLE SAFETY PROGRAM

The Department of Public Safety (DPS), Office of Traffic Safety (OTS), Motorcycle Safety Office plans and administers a safety program that includes motorcycle training for new and experienced riders. The program administrator consults regularly with the Governor's Motorcycle Advisory Board concerning the content and implementation of the program, approves course instruction programs, and adopts rules and regulations necessary to carry out the program. The program also includes education of the driving public to increase awareness of motorcycles on Nevada highways. Statutory Authority: NRS 482.480 and 486.372-377

	TOTAL EXPENDITURES FOR DECISION UNIT E227	0	0	12,000	12,000

E228 EFFICIENCY & INNOVATION

This request will provide funding for the instruction and certification for two motorcycle safety program instructors to become certified to instruct a "Circuit Rider Course" in Nevada. At this time Nevada does not have any instructors who are certified to instruct this coursework in Nevada. The agency have placed a projected cost in its budget as the Motorcycle Safety Foundation who provide this certification has not identified registration costs at this time.

Nevada does not currently have any instructors who are certified to teach a Circuit Rider Safety Course to students. Having the ability to provide additional motorcycle safety courses to the public is in line with outreach and the programs goals.

Budget Account: 4701 DPS - EVIDENCE VAULT

The Department of Public Safety (DPS) has three dedicated evidence vaults statewide to support all of its divisions. As a law enforcement operation, sworn officers regularly seize property, money, and contraband from individuals for evidentiary, safekeeping, or destruction purposes. This program secures and manages the evidence seized by DPS sworn staff. This budget is cost allocated to the participating divisions.

Section A1: Line Item Detail by GL

Budget Account: 4702 DPS - RECORDS COMMUNICATIONS AND COMPLIANCE

The General Services Division functions as the Communications Bureau under the Records, Communications and Compliance Division (RCCD) within the Department of Public Safety (DPS) and provides critical support services to the divisions of the department and outside criminal/user agencies. The division enables the department to efficiently use available resources, provide greater transparency, and support improved customer service.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for sixty three employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized [See Attachment]

E225	EFFICIENCY & INNOVATION				
<p>This request funds one Program Officer I position for administration of the Spillman Records Management System. Spillman is the State of Nevada's Records Management System (RMS) and tracks information for myriad tasks such as Computer Aided Dispatch Mapping, Fleet Maintenance, Mobile Arrest Forms, Traffic Information and many more as outlined in the attachment that affect all divisions in the Department of Public Safety as well as local governmental agencies.</p> <p>The division employs one Program Officer III position to administer this RMS to ensure its functionality on a daily basis for not only the Department of Public Safety users, but also for other local governmental agencies across the state. This includes: maintaining system security, adding/modifying/deleting users, adjusting user privileges, configuring login parameters, tailoring user login scripts, maintaining system application parameters, maintaining code tables, data audits, defining data entry standards, maintaining narrative and text outlines, establishing incident reporting methods, providing first level support, and suggesting and implementing enhancements to the system. The PO3 acts as the point of contact for the agency as it relates to the Spillman system and all of its components. The PO3 writes and adjusts policies and/or procedures utilized within the confines of the system. The PO3 must travel the state often to meet with stakeholders and provide training services on this system and maintain the training database. No other positions are trained and/or available to assist this position with the administration, auditing and training. When the PO3 is out of the office, either the vendor must provide assistance for a cost on any technical issues that arise or problems are not addressed until the PO3 returns.</p> <p>The division seeks to employ a Program Officer I position to provide the necessary coverage and services to 2,000+ users from over 40 agencies statewide, and provide an avenue for successful succession training for the administration of the system. There are currently no positions available that may assume the duties, certification requirements and training necessary to provide the coverage and assistance with this system. Having only one position administering the Spillman RMS on behalf of 2,000+ active users and over 40 agencies statewide places the state's system at great risk of not having a subject matter expert to manage it.</p> <p>[See Attachment]</p>

Budget Account: 4704 DPS - NEVADA OFFICE OF CYBER DEFENSE COORDINATION

The Nevada Office of Cyber Defense Coordination (OCDC) is responsible for the protection and security of information systems and the coordination of efforts to promote the protection and security of information systems, that are essential to protecting the health, safety, and welfare of the people of the State of Nevada. Additionally, OCDC performs several other functions to include: review of information systems that are operated or maintained by state agencies; identification of risks to the security of information systems that are operated or maintained by state agencies; develop and update, as necessary, strategies, standards and guidelines for preparing for and mitigating risks to, and otherwise protecting the security of information systems that are operated or maintained by state agencies; coordination of performance audits and assessments of the information systems of state agencies to determine, without limitation, adherence to the regulations, standards, practices, policies and conventions of the Division of Enterprise Information Technology Services (EITS) of the Department of Administration, that are identified by the division as security-related; establish various partnerships, consult and coordinate with various entities and agencies, as it relates to cybersecurity; and appoint cybersecurity incident response teams. Statutory Authority: NRS 480.900

Budget Account: 4705 DPS - NHP K-9 PROGRAM

The Nevada Department of Public Safety, Highway Patrol Division, Canine (K-9) Program is a multi-disciplinary effort to: (1) remove contraband from Nevada's highways and reduce the amount of drugs that circulate through our communities (2) support allied Department of Public Safety agency missions through the detection of firearms, explosives, and/of other forensic evidence, and (3) provide public safety support as requested through the unique capabilities provided by the units in the program. Criminal intelligence gathered by the K-9 teams is utilized to keep the highways, interstates, secondary streets and communities of Nevada safe. The K-9 Program is prepared to assist all allied and departmental agencies throughout the state anytime K-9 drug or other forensic evidence detection assistance is requested. Statutory Authority: NRS 480.360.

Budget Account: 4706 DPS - DIRECTOR'S OFFICE

The Department of Public Safety (DPS) provides for the safety and security of the citizens of Nevada by: enforcing traffic laws and providing assistance on the public roadways; conducting investigations of criminal and narcotics-related activities; responding to natural and human-caused disasters; training peace officers; training fire and disaster response officers; assisting local governments in emergency preparedness; and monitoring and supervising parolees and probationers within the criminal justice system. The Director's Office establishes policy and provides leadership for the department, and oversees the operations and administration of the eight legislatively created divisions of the department, and five offices. Statutory Authority: NRS 480.100.

This request funds two Electronic Technician 2's, one in each Nevada Highway Patrol's (NHP) Commands. With the rapid improvements and increased use of technology the DPS/Highway Patrol utilizes the need for fulltime staff to assist with the development, implementation, and analysis of related technology applications is a necessity. Currently, the DPS/Highway Patrol utilizes sworn staff in Southern Command and Northern Command to complete these tasks. Based on sworn staffing needs, the DPS/Highway Patrol would like to replace two DPS Officer II's with two Electronics Technician II's, one in Southern Command and one in Northern Command. This move will allow the DPS Officer II's to return to their Sworn Duties. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4707 DPS - OFFICE OF PROF RESPONSIBILITY

The Nevada Department of Public Safety (DPS) considers the professional conduct of its employees to be paramount. The Office of Professional Responsibility (OPR) conducts administrative investigations of department employees and provides investigative assistance to all DPS divisions. Additionally, OPR provides training on conducting administrative investigations, evaluation and documentation of misconduct versus job performance, and instructs agencies on best practices and misconduct prevention measures.

E350	PROMOTING HEALTHY, VIBRANT COMMUNITIES				
	This request funds a salary adjustment of 5 percent for complex investigative responsibilities for the four DPS Sergeant positions.				
	The Investigators who are assigned to the Office of Professional Responsibility (OPR) are responsible for complex investigations, which is noted in their Work Performance Standards (WPS). Many of these investigations take several months, which includes conducting interviews and interrogations, collecting and preserving evidence, adhering to investigative due dates and following mandates set forth in NRS, NAC and Department Polices and Procedure, but most importantly keeping sensitive information confidential in the Department. The primary focus of the investigative work is administrative in nature, but can have a criminal aspect to it.				
	The Investigation Division (NDI), State Fire Marshal (SFM), the Highway Patrol Major Incident Reconstruction Team (MIRT) and the State Fusion Center are all receiving special adjustment pay of 5% for complex investigations per the Class Specifications.

Section A1: Line Item Detail by GL

Budget Account: 4708 DPS - JUSTICE ASSISTANCE ACT

The Department of Public Safety (DPS) - Justice Assistance Act budget is a pass-through account for several grants received from the U.S. Department of Justice (DOJ). Grant funds are distributed to state and local government agencies which contribute to the efforts of reducing and preventing crime, violence, and drug abuse, and improving the functioning of the criminal justice system while maintaining the integrity of the federal funds. Administrative funds are passed through to the Office of Criminal Justice Assistance (OCJA), budget account 4736. The OCJA was designated by the Governor as the State Administrative Agency (SAA) for Nevada in 1987. In November 2000, the OCJA was designated by the Governor as the state point of contact for the 1033 Department of Defense Excess Property Program, and the State Coordinator for the 1122 General Services Administration Purchasing Program.

REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	0	5,157	3,201	3,206
2512	BALANCE FORWARD TO NEW YEAR	5,924	0	0	0
3582	COPS GRANT The FY2019 COPS Anti-Heroin Task Force Program (AHTF) advances public safety by providing funds in investigate illicit activities related to the distribution of heroin or unlawful distribution of prescriptive opioids, or unlawful heroin and prescription opioid traffickers, through statewide collaboration. AHTF provides funding directly to state law enforcement agencies in states with high rates of primary treatment admissions for heroin and other opioids. Based on available statistics, the State of Nevada has seen a 17% increase in opioid related overdose deaths since 2014. The Department of Public Safety believes that a multidisciplinary approach to narcotics enforcement is vital to break the cycle of addiction. Through this funding DPS will be able to expand their enforcement activities to the benefit of the state. There is no match required for these funds. The Office of Criminal Justice assistance expects to receive this grant in FY22-23. This grant corresponds to Cat 17. [See Attachment]	3,891	0	3,891	3,891
3583	RSAT GRANT The Nevada Department of Corrections (NDOC)'s Residential Substance Abuse Treatment for State Prisoners (RSAT) Program focuses on evidence-based strategies designed to provide Nevada's inmate population with successful substance abuse treatment prior to release. This grant is anticipated to continue and, therefore, budget authority equal to actual revenues and expenditures for fiscal year 2020 is requested. Corresponds to expenditure category 10. [See Attachment]	122,131	33,781	122,131	122,131
3584	SMART GRANTS The Sex Offender Sentencing, Monitoring, Apprehending, Registering and Tracking (SMART) grant assists jurisdictions with developing and enhancing programs to implement the Sex Offender Registration and Notification Act (SORNA). SORNA was enacted to protect the public by establishing a comprehensive national system of standards for the registration and notification of convicted sex offenders. DPS requests budget authority equal to the projected expenditures for fiscal year 2022/23. A portion of this funding is passed through to BA 4709 for the Records, Communications and Compliance Division. Corresponds to expenditure category 11. [See Attachment]	76,709	101,447	76,709	76,709
3585	NCSX National Crime Statistics Exchange (NCS-X) grant program enables states to transition crime data reporting to the Federal Bureau of Investigations (FBI) National Incident-Based Reporting System (NIBRS). The grant program funds states to conduct research to determine necessary actions and costs to support and assist with transition implementation. Nevada law enforcement agencies currently report crime statistics to the Federal government using a Summary Reporting System which is being phased out in lieu of NIBRS. Corresponds to expenditure category 12. This grant is not expected to continue into FY22/23.	965,810	4,546	965,810	965,810
3586	FSI GRANT The Paul Coverdell Forensic Science Improvement Grant Program (FSI) grant provides states and local units of government with tools needed to meet the challenges of forensic science and medical examiner services, including services provided by laboratories operated by states and local units of government. This is an ongoing formula grant that receives funding each year. DPS requests budget authority equal to a three year average. Corresponds to expenditure category 15. 2017 108,332.00 2018 271,960.00 2019 272,275.00 217,522.00 [See Attachment]	108,683	66,366	108,683	108,683

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
3588	<p>Project Safe Neighborhoods originally had two components, the anti-gun component and the anti-gang component. They have been combined into this single Project Safe Neighborhoods grant award. This grant funds programs through law enforcement agencies and non-profit organizations directed towards crime prevention.</p> <p>This grant is expected to continue into FY22-23. [See Attachment]</p> <p>NCHIP GRANT</p> <p>The National Criminal History Improvement Program (NCHIP) grant program aims to improve Nevada's safety and security by enhancing the quality, completeness, and accessibility of criminal history record information and by ensuring the nationwide implementation of criminal justice and noncriminal justice background check systems. This grant provides the State of Nevada direct financial and technical assistance to improve criminal records systems in an effort to support background checks. The funding helps to connect criminal history records systems to the state record repository, so that all records are accessible through the FBI records systems. The funding assists with training and technical assistance needed to ensure that records systems are developed and managed to conform to FBI standards and appropriate technologies, while ensuring that contributing agencies adhere to the highest standards of practice with respect to privacy and confidentiality. Statutory Authority: Appropriations for the NCHIP program have been made pursuant to the Crime Identification Technology Act of 1998. DPS requests initial budget authority equal to actual revenues and expenditures for fiscal year 2020. Corresponds to expenditure category 16.</p> <p>[See Attachment]</p>	572,739	153,707	572,739	572,739
3589	<p>PREA GRANT</p> <p>The Prison Rape Elimination Act (PREA) grant reallocation funds assists designated PREA contact agencies, such as the Department of Corrections, in their efforts to become compliant with the PREA Act through implementing comprehensive approaches to address the detection, prevention, and response to sexual abuse within confinement environments. DPS requests budget authority equal to the grant award for fiscal year 2019. Corresponds to expenditure category 25.</p> <p>2019 23,326.00</p> <p>[See Attachment]</p>	3,093	0	3,093	3,093
3590	<p>NICS BACKGROUND INVESTIGATIONS GRANT</p> <p>The National Instant Criminal Background Check System grant funds projects which focus on moving the state towards full compliance with federal procedures regarding background checks and reporting. This grant is anticipated to continue and, therefore, initial budget authority equal to a three year award average is requested. Corresponds to expenditure category 18.</p> <p>2017 565,870.00</p> <p>2018 635,009.00</p> <p>2019 32,892.00 411,257.00</p>	310,352	309,926	310,352	310,352
3591	<p>BULLETPROOF VEST GRANT</p> <p>The purpose of the Bulletproof Vest Grant is to provide state law enforcement officers with a vital piece of safety equipment (a bulletproof vest) which in a confrontational situation dealing with firearms could potentially save the officer's life. There is a 50% cash match required for all participating agencies. OCJA acts as the State approving office for all State Law Enforcement agencies (e.g. Investigations, Gaming Control, Wildlife), while local law enforcement agencies apply directly to the Bulletproof Vest Partnership Office. This grant is anticipated to continue and, therefore, initial budget authority equal to 2020 work program authority is requested. Corresponds to expenditure category 20.</p>	0	0	0	0
3889	<p>ASSESSMENT FEES- 1122 PROGRAM</p> <p>The 1122 program allows agencies and entities that qualify to purchase products using preferred U.S. General Services Administration (GSA) pricing. OCJA collects a 4 percent fee to help defray office expenses. Corresponds to expenditure category 22.</p>	99	3,486	866	866
4201	<p>REIMBURSEMENT</p> <p>OCJA is the state's point of contact for the 1122 program. The 1122 program provides General Services Administration (GSA) pricing to qualified agencies and entities. Once products ordered through OCJA are delivered to the end user, the invoice is paid to OCJA who then reimburses the vendors. This is authority only to pass through expenses. Corresponds to expenditure category 14.</p>	2,690	108,365	2,690	2,690

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4709 DPS-CENTRAL REP FOR NV RECORDS OF CRIMINAL HISTORY

The Central Repository for Nevada Records of Criminal History is administered by the Department of Public Safety (DPS) Records Bureau and administers the Nevada Criminal Justice Information System (NCJIS), which serves as the state's clearinghouse for criminal history record information and crime statistics. The system provides information and activities that support a wide variety of public safety interests and functions as the information portal through which law enforcement agencies statewide accesses criminal history record information from the Federal Bureau of Investigation (FBI) and other national and state criminal history databases. The bureau is a member of the Western Identification Network (WIN), a regional consortium of eight western states that share fingerprint images and criminal history record information and participates in the FBI's Interstate Identification Index and in the National Crime Prevention and Privacy Compact for the release of criminal history record information for non-criminal justice purposes. The bureau is further designated as the Chief Law Enforcement Official for the purposes of administering the Brady Handgun Violence Prevention Act of 1993.

The repository includes the Uniform Crime Reporting program; the Point-of-Contact firearms program (Brady); the Nevada Domestic Violence Protection Order Registry; the Nevada Sex Offender Registry; the Civil Name Check Program and the Program Development and Compliance Unit. Statutory Authority: NRS 179A and 179D.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 129 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2501	APPROPRIATION CONTROL \$100 of this revenue each year allows the Criminal History Repository to have access to the Interim Finance Committee's Contingency Fund in times of economic downturn. The balance of the revenue will fund a position and allocated expenditures, including contract costs for Stac DNA, in order to provide project management and reporting of the Sexual Assault Forensic Evidence kits per AB97 of the 2017 Legislative Session. The division was named the designated agency to oversee this project. Year One = \$100 + \$122,750 = \$122,850 Year Two = \$100 + \$122,750=\$122,850 Stac DNA contract estimate Yr 1= \$153,875 Yr 2=\$153,875	269,495	276,725	276,725	276,725
2510	REVERSIONS	0	0	0	0
2511	BALANCE FORWARD FROM PREVIOUS YEAR	12,276,424	13,577,688	9,132,831	8,704,481
2512	BALANCE FORWARD TO NEW YEAR	-13,577,688	0	0	0
3749	COURT ASSESSMENT Provides operating and program funding for the NCJIS and interfaces to the FBI's National Crime Information Center (NCIC), the NCJIS Compliance Unit, the Uniform Crime Reporting program, State Sex Offender Registry, Protection Order Registry, Electronic Warrant Program, and the Criminal History Arrest and Administration System. The increase is based upon the need of the agency per the allocation of positional and programmatic costs.	4,277,927	4,551,977	4,437,874	4,408,320
3750	ADMINISTRATION FEE Rap Back elective enrollment fee implemented in state fiscal year 2015, however, this electronic application program continues to be in development status pending Enterprise Information Technology Services (EITS) programming availability. Estimated enrollment 4,251 X \$10.50 = \$44,636.	0	44,638	44,638	44,638
3751	CIVIL APPLICANT/FINGERPRINT FEES Fees collected in support of the Civil Applicant fingerprint-based criminal history background check program and the criminal history database and ancillary applications. The increase to this revenue reflects a 3 percent increase in year one and 3 percent in year two, based upon the average growth over the past three years. The projection also includes an increase to the fees collected by the division that are passed through to the FBI. This increase began January 1, 2019, which increased the FBI fee to a revised amount of \$13.25. This is a \$1.25 increase, per fingerprint card processed, that is passed through to the FBI, under this budget account Category 12 - FBI Fingerprint. The fingerprint fee was also increased on the state side by \$3.50 from \$23.50 to \$27.00.	8,721,241	11,050,921	10,524,687	10,524,687
3752	BRADY/POINT OF CONTACT (POS) FEES Fees collected for background checks performed on the purchasers of firearms, to fund the Brady Point of Contact Firearms Program, the criminal history database, and ancillary applications. The increase of 2.2 percent of base revenues collected for both year one and year two, reflect a projected growth in processing of background checks for gun purchases. Base backgrounds performed = 102,566 x 2.167% = \$104,789 Year One and Two = \$104,789 x 25 = \$2,619,725	3,651,150	2,619,725	2,619,725	2,619,725
3753	CIVIL NAME CHECK FEES Fees collected from the Civil Name Check (CNC) customers for applicant name based background checks. Fees received, fund the CNC program, criminal history database. The division anticipates a steady decrease in civil name checks due to recent clarification provided to customers regarding the proper allowable dissemination of third party information.	804,560	753,657	753,657	753,657

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
E225	EFFICIENCY & INNOVATION				
	<p>This request adds one Program Officer I position for the POC Firearms Program.</p> <p>The Point of Contact Firearms Program currently has the following positions: Administrative Assistant III (AIII)-11; Administrative Assistant IV (AAIV)-4; Program Officer II (POII)-2.</p> <p>Currently, the POII position is responsible for CCW Outreach Training and Outreach training for Criminal Justice Agencies. These trainings have to be done separately since they are geared toward different agencies. When the POII is out of the office training all supervisor tasks are put onto the MAI. With 15 employees, evaluations, training and daily workload develops a back log.</p> <p>The MAI does a yearly CCW project that requires communication to every state to determine the laws for that state regarding their permits. Once all information is compiled it needs to be analyzed and then a report is created. This is an extensive project every year that takes a lot of time. When the MAI is doing this project all supervisor tasks are put onto the POII. With 15 employees, evaluations, training and daily workload develops a back log.</p> <p>The AAIV's are the researchers and leads when the supervisor's aren't available. During the busy time, which is from Thanksgiving through February, the work volume is so high they are unable to complete all of their mandated work to stay complaint within Federal Law.</p> <p>The MAI and the POII are currently working supervisors stepping in during times to complete a task and keep the unit in compliance. This is prevents them doing the supervisor tasks of writing/reviewing policies, evaluations, auditing, being available for legislature session, and available for management.</p> <p>Lastly, there is no bridge for the AAIV to become the supervisor of the unit. The unit is a very specific unit with a lot of regulations and laws that need to be followed. The staff that are in the AAIV positions have the basics of this knowledge, but have no way of becoming supervisors within the unit.</p> <p>By adding a POI this will take the task of training and the CCW project away from the supervisors. It will also be available to help the AAIV's when the work load is too much for them to handle.</p> <p>This will free up the supervisors to track law changes, legislative changes, be available to help management when needed, conduct employee evaluations in a timely manner and keep all procedures current so they can be relied upon by staff.</p> <p>This will also help prevent one supervisor for having to cover for another supervisor for extended periods of time throughout the year.</p> <p>This will also create a bridge that we can use to take our current staff that is knowledgeable within the unit and laws to step into a roll that will help them qualify for a supervisor position when it becomes available.</p> <p>[See Attachment]</p>

E226	EFFICIENCY & INNOVATION				
	<p>This request adds one Program Officer I position for NABS.</p> <p>Currently, in the Fingerprint Support Civil Unit the AAIV, which is funded by Department of Health and Human Services (DHHS), handles all Nevada Automated Background Check System (NABS) related items including, but not limited to, troubleshooting the more difficult employment determinations as required under NRS 449.174, employment determination challenges, auditing, account establishment and maintenance, staff training, unit lead and the DPS system administrator for NABS. As the administrator for NABS the AAIV is responsible for system access and maintenance for DPS staff, liaison between DPS and DHHS, link all NABS accounts for billing purposes, account maintenance, testing and attending NABS related conference calls and meetings.</p> <p>The NABS program is a standalone program and requires critical decisions to be made that impacts program direction, which includes system functionality, and staffing resources and needs. Specialized information and services are provided within this position that are better suited under the classification of a program officer.</p> <p>RCCD proposes to move the current AAIV out from under the DHHS budget and place it into the RCCD budget account within the civil unit and add a Program Officer I into the NABS position, which would continue to be funded under the DHHS budget account, to administer the NABS Program. This POI position would be responsible for all of the duties as mentioned above however it will have the added responsibility of supervisory duties. The PO I will supervise the existing Administrative Assistant IIIs who perform the duties within the NABS program.</p> <p>The AAIV position duties would then change under the civil unit to include a unit lead, trainer, backup to the Civil Applicant Account Establishment and Maintenance (backup to POI duties) and updating manuals related to all functions under this side of the house. This position would undertake most of the current trainer/lead functions into AAIV. Then shifting the AAIII duties that is currently performing this function to processing the more complicated civil submissions, such as reprints, name checks, expedites, and CCWs.</p> <p>The benefit to the proposed shifting of duties would allow a better balance of workloads and program administration within the unit.</p> <p>Due to the growth, nature and complexity of the program and work performed, there is a requirement for this position to be able to work independently with minimal supervision and take action as well as make decisions that the current AAIV is not classified to handle.</p> <p>If this is not approved, the complexity of the program will continue to grow and not having qualified personnel administering a program of this nature could impact the quality of program and work performed. [See Attachment]</p>

E227 EFFICIENCY & INNOVATION

This request adds two Administrative Assistant II positions for the Criminal Records Unit. Increased workloads in all program areas of the Criminal Records Unit is not allowing staff to consistently remain current in disposition entry. The average volume of dispositions received over the last biennium was 63,130 per year. That is an average of 5,261 dispositions received monthly, with current staff of 12 AAls processing approx. 4,675 dispositions each month into the state Computerized Criminal History (CCH) system and 4,877 dispositions into the FBI's Triple I database. Manual dual data entry is required into both databases for each disposition received. The dispositions not completed rollover to the next month creating a backlog of entry. Based on these averages the backlog continues at an average of 1,170 dispositions each month.

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	<p>As a result of the increased workloads, the vault in which the manual criminal fingerprint cards are indexed has also seen an increase in staff pulling fingerprint cards for various purposes. This requires the fingerprints to be refiled. There have been errors discovered inside the vault where criminal fingerprint cards have been misfiled. This is of critical concern because a majority of these records are the "original" records of arrest. These records are used to make critical identifications, copies are provided to our criminal justice partners around the nation for investigative purposes and they may be subpoenaed for court testimony. In addition to misfiled fingerprint cards, cards are being damaged because staff are in a hurry to get the cards back into file. Additional staffing is needed to help regulate the access to the vault to ensure the integrity of the fingerprints filed within.</p> <p>Adding two additional Administrative Assistant II positions will maintain a more current balance of entry without creating further backlog.</p> <p>Additional staff will also help to ensure that staff access to the vault is better regulated. The unit would be able to streamline access to the information by having a dedicated staff member pull the fingerprints from file based upon a request from staff and refile the prints when staff is finished with them. This will help ensure the integrity of the files by making sure they are properly filed in sequential order and that they are not damaged. Today, with not knowing who is going in and out of the vault, it is difficult to pinpoint who is responsible for the misfiling and damage of the records and therefore cannot address the issue.</p> <p>The current system requires dual entry for dispositions with the state system and the FBI's III. This entry is done manually each day. While some dispositions are easy to enter, other dispositions can be lengthy with multiple offenses and each disposition to that offense requires individual entry into both state and FBI systems. Some dispositions received require additional research and contact to the court, law enforcement agency or the district/city attorney because the disposition is unclear or information is missing. Some courts within the state maintain public websites that this information may be obtained, if not then contact via phone, fax or email is made. Response time varies based on the agency being contacted.</p> <p>Dispositions received fluctuates regularly based on criminal activity and the adjudication process. Outreach and Education is conducted annually on the importance of reporting dispositions and the result has been, additional dispositions being discovered and reported.</p> <p>Currently, there are approximately 45 staff members that may access the vault at any given time and several hundred fingerprint cards may be pulled out of file each week. Due to the ongoing erroneous filing and damage to the records, management has limited the number of staff who can directly access the vault. Due to this change in procedure, fingerprint cards needing to be refiled pile up for weeks at a time which then requires staff to reprioritize workloads to address the filing backlog in the vault. Because of this, other workloads suffer for days on end to ensure that the records are properly refiled. It should also be noted that space within the vault is limited.</p> <p>If this is not approved, a backlog of dispositions will continue grow, negatively effecting the timely entry of dispositions into criminal history. This impact can effect officer safety, employment/licensing determinations, firearm background checks, as well as sentencing decisions and investigations.</p> <p>Additionally, a backlog of fingerprint cards needing to be refiled will continue to accumulate every few weeks requiring staff to be pulled from other duties to get caught up on the refileing and maintenance of the vault. There have been instances where it has taken staff weeks to months to reorganize the vault in an orderly fashion. This is not conducive to a productive work environment. It is critical to ensure that the criminal fingerprints are refiled timely to ensure that record access is available at all times. If the records are not filed or have been misfiled, there is a possibility that critical identifications cannot be made, we would be unable to provide copies of the records to our criminal justice partners or unavailable for court testimony in the event of a subpoena.</p> <p>[See Attachment]</p>

E228 EFFICIENCY & INNOVATION

This request adds one Administrative Services Officer II position for the Fiscal Unit. The current organizational structure of the Division consists of a Division Administrator who has seven direct reports. The Division is made up of two Bureaus - the Records Bureau and the Communications Bureau. Additionally, the Division has a Fiscal Office, an Information Security Office, along with a few disparate positions assigned to Department level activities. The Division administers three budget accounts (4702, 4709 and 4710) and employs a comprised FTE total of 200 with an additional 22 temporary positions and eleven contracted positions.

The ASO3 (Grade 41) manages three budget accounts totaling nearly \$40 million annually. Additionally, the ASO3 oversees nine staff in the Fiscal section. The next supervisory level of responsibility in the Fiscal section is a Management Analyst 2 (Grade 35) whose primary function has been in the capacity of a Contracts Manager and more recently as a Facility Manager to handle building issues for three locations, Nye Lane and College Parkway in Carson City as well as Flamingo Road in Las Vegas. The next level of responsibility falls to an Accountant Technician 1 (Grade 30) and an Accountant Technician 2 (Grade 32). These two positions supervise and manage the Accounts Payable and Accounts Receivable transactions respectively.

While all three of these positions manage the day-to-day transactions of the division's accounting and contract functions, their positions do not provide adequate backup or assistance for the fiscal and budget management and oversight necessary for a division of this size and complexity.

With the division's growth in programs, personnel and locations over the years, the size and class specification of the fiscal unit has remained the same and is incongruent with the responsibilities and oversight it has gained. The division does not have an adequate succession plan or backup for the division's ASO3 in assuming responsibilities as Chief Financial Officer of the division.

	The proposed solution will add an ASO2 position to not only provide a successor with the essential institutional knowledge of the vast programs and complexities of the RCCD, but to also provide higher level backup and assistance to the ASO3 in the proper classification. This will not only benefit the division, but also the department, stakeholders and citizens with consistency in processes and adequate knowledge base with little-to-no training gap. E243	EFFICIENCY & INNOVATION This requests funding to subscribe to GovQA software. 80% 4711 Records Division 20% 4744 Director's Office The GovQA tool was designed specifically for public agencies to fulfill records requests and has built-in functionality that current Excel spreadsheets don't capture. The Department would like to subscribe to the GovQA software-as-a-service platform for a centralized Internet portal through which all records requests are submitted. With centralized tracking through the GovQA platform, it will allow the Department to better monitor the number of records requests received, the staff time spent on fulfilling records requests, the revenue received from such requests, and the timeliness and accuracy with which the Department fulfills the requests. Currently the Department is only able to guess at such metrics and runs the risk of requests falling through the cracks because of different channels through which the requests are received and the manual method of responding. On the customer/requester side, the centralized portal allows customers to track the progress of their records request and see the fees (if any) associated with their request up-front rather than waiting for correspondence in the mail with any potential fees. Customers can also see similar requests that others have made through the portal and the Department's response. This may eliminate their need to request information altogether if they can see the Department has already provided similar information to someone else. GovQA can work with DMV staff to create standard responses for certain types of requests, which will save staff time in trying to re-create a response for every type of request. Allowing DMV staff to respond to requesters through the portal, as opposed to fax or mail, will result in timelier responses to our customers and potential cost savings in mailing supplies and postage. DMV will continue the manual process of tracking records requests. At an average of 154,000 records requests per year in Central Services, continued manual tracking is time consuming, inefficient, and antiquated. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4712 DMV - LICENSE PLATE FACTORY

The License Plate Factory is operated by the Central Services and Records Division of the Department of Motor Vehicles (DMV). Formerly known as the "Tag Plant," the License Plate Factory is charged with designing, manufacturing, and distributing Nevada's license plates to DMV and State Assessor's Offices for issuance to vehicle owners and operators in Nevada. Statutory Authority: NRS 482 and 706.

Section A1: Line Item Detail by GL

Budget Account: 4715 DMV - AUTOMATION

The Motor Vehicle Information Technology Division (MVIT) provides the digital support to help facilitate the functionality of the Department of Motor Vehicles (DMV). MVIT supports the DMV by working closely with the business units of the department to provide the best possible solutions for the DMV. MVIT accomplishes this by exploring and implementing IT solutions to assist the business units to accomplish their functions and duties. The activities of this budget are primarily supported by Highway Fund revenues. NRS 481.0473

02	OUT-OF-STATE TRAVEL				
6100	PER DIEM OUT-OF-STATE Adjustment to establish projected expenditures for one employee to travel to the Region IV and International conferences for American Association of Motor Vehicle Administrators (AAMVA). Estimated per diem is \$2,347 for fiscal year 2022 and \$2,396 for fiscal year 2023. M150 amounts are estimates minus fiscal year 20 actual of \$1,125. Projected expenditures for AAMVA travel in this category are attached. [See Attachment]	0	0	1,222	1,271
6130	PUBLIC TRANS OUT-OF-STATE Adjustment to establish projected expenditures for one employee to travel to the Region IV and International conferences for American Association of Motor Vehicle Administrators (AAMVA). Estimated public transportation is \$557 for fiscal year 2022 and \$563 for fiscal year 2023. M150 amount is estimate minus fiscal year 20 actual of \$36.	0	0	521	527
6140	PERSONAL VEHICLE OUT-OF-STATE Adjustment to establish projected expenditures for one employee to travel to the Region IV and International conferences for American Association of Motor Vehicle Administrators (AAMVA). Estimated personal vehicle expense is \$204 for fiscal year 2022 and \$204 for fiscal year 2023. There were no expenditures in this GL for fiscal year 2020.	0	0	204	204
6150	COMM AIR TRANS OUT-OF-STATE Adjustment to establish projected expenditures for one employee to travel to the Region IV and International conferences for American Association of Motor Vehicle Administrators (AAMVA). Estimated airfare is \$1,650 for fiscal year 2022 and \$2,400 for fiscal year 2023. M150 amount is estimate minus fiscal year 20 actual of \$514.	0	0	1,136	1,886
	TOTAL FOR CATEGORY 02	0	0	3,083	3,888
03	IN-STATE TRAVEL				
6200	PER DIEM IN-STATE Due to the COVID-19 Declaration of Emergency Directive 004, DMV experienced a shutdown March 18, 2020 through June 15, 2020 wherein all offices were closed. To account for the unique circumstances resulting in a reduction of standard expenditures, the department requests an adjustment to base of \$7,180. A partial adjustment of \$580 will restore funding to the fiscal year 2020 budgeted amount. An additional adjustment of \$6,600 will increase funding to the level of approved work program C49537. The work program was needed for an anticipated shortfall in this category to continue necessary travel for staff to travel to rural offices to replace and repair computer equipment, and for supervisory staff to perform evaluations for Las Vegas staff, review upcoming projects and assess processes related to office management.	0	0	7,180	7,180
6211	FS MONTHLY VEHICLE RENTAL IN-STATE	0	0	2,745	2,745

E553	TECHNOLOGY INVESTMENT REQUEST				
	This request funds additional licenses to backup Virtual Machines, ie. server, providing for servers to be restored should a failure occur. Currently DMV has 134 Virtual Machines, with only 99 Virtual Machines having backup via available licenses. Additional licenses will provide backup for all Virtual Machines and allow for reasonable growth during the biennium. Software \$10,312.50 plus Maintenance \$2,371.88=\$12,684.38. If there is a catastrophic failure, DMV will have to recreate the unprotected servers. This creates a backlog to an already full workload. Costs associated with recreating unprotected servers far exceed the cost for a license. Servers with back up licenses are restored if a failure occurs. [See Attachment]

E605	BUDGET REDUCTIONS STAFFING & OPERATIONS				
	This request removes various vacant position(s).				

State of Nevada - Budget Division
Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
In order for DMV to comply with budgetary limits, various vacant positions were identified in this reduction. Restoration of the position(s) are requested in Items For Special Consideration E605. These positions are necessary to provide DMV services to customers, however with the reduction in projected revenue, elimination of vacant positions is a cost savings measure.

E729	NEW EQUIPMENT				
	This decision unit requests Office 365 software licenses for all staff within the budget account per EITS' initiative to have all agencies on the same platform. Costs are per year, representing renewals in the second year of the biennium. DMV is implementing Office 365 for all staff. Additional software such as Visio and Pro are necessary to complete day to day job duties. [See Attachment]

E805	CLASSIFIED POSITION CHANGES				
	<p>This requests funding to reclassify one ITM II position to ITM III and five IT Professional IV positions to ITM II. Technology complexity and work responsibilities are ever changing. These reclasses will adjust the positions to meet the actual job duties performed by our Management Team. The Class Concepts list Motor Vehicles Information Technology Division of the Department of Motor Vehicles as one of the examples of ITM II and ITM III. Due to ever-increasing changes in technology, our ITM II and ITP IV responsibilities have increased in technical level, complexity and difficulty. This enhancement request will align our team classifications to address this. Currently, five of our ITP IV Supervisors are each supervising an ITP IV Programmer. It creates an inequity when the same title is supervising the same level. Therefore, we are requesting to upgrade five positions and their Manager.</p> <p>The majority of work accomplished by ITT III PCN CA5292 does not align with the ITT Series. PCN CA5292 is highly specialized in developing, testing and implementing changes to the DMV Application process as well as analyzing impact on other areas of the DMV Application not directly involved in those changes. The intent of PCN CA5292 is to work as liaison between the Department's Divisions and MVIT to ensure proper application of business rules during programming with a focus on preventing negative impact to areas outside of those requesting the change, ensuring changes requested are in line with all current or proposed regulations and laws and to apply recognized data processing concepts to business process planning and analyses.</p> <p>PCN CA5292 is critical in keeping DMV MVIT function running smoothly and efficiently. Also necessary position to ensure stable business processes is in place with the DMV Application and procedures. Position deals with highly sensitive and secure data. Position prepares test plans and tests new enhancements to ensure new functionality is working correctly prior to Production Builds. [See Attachment]</p>

E877	SUPPLEMENTAL APPROPRIATIONS				
	This request funds an unanticipated increase in EITS Mainframe expenditures.				
	The Motor Vehicle Information Technology Division (MVIT) provides data processing support for the Department of Motor Vehicles. It maintains application systems and the necessary infrastructure for systems data and provides technical and operating support. When DMV enters the testing phase for IT projects, significant increase to the mainframe frequently occurs.				
	If this request is not approved, the Department will have insufficient funding to cover the EITS Mainframe costs which prohibits the Department's ability to service the public needs.

Section A1: Line Item Detail by GL

Budget Account: 4716 DMV - SYSTEM TECHNOLOGY APPLICATION REDESIGN

This budget account is funded with a \$1 technology fee authorized by NRS 481.064 and funds the costs for the Department's system modernization project. The project will take a logical and fiscally responsible approach to business improvement and system modernization which may include full or partial replacement and/or enhancement of the existing and aging Common Business Oriented Language mainframe and PowerBuilder applications running on disparate platforms. The modernized solution will run on a consolidated platform, improve the efficiency of operations and service delivery, provide flexibility, increase efficiencies and reduce transaction time, improve customer service, and provide enhanced security and disaster recovery.

E235 EFFICIENCY & INNOVATION

This request continues the collection of the Technology Fee in SFY23.

Extension of the technology fee is a continued need for the implementing, upgrading and maintaining of the agencies platform of information technology. The Department completed the Baseline Assessment and received the Roadmap from the vendor as outlined in the previous legislative session. The Roadmap defines the enhancements and upgrades needed to support the Departments Strategic Plan and Goals. The Department will need to receive funding from the technology fee to continue these enhancements and upgrades as an alternative to a direct appropriation from the Highway Fund.

E550	TECHNOLOGY INVESTMENT REQUEST				
	This requests funding for the continuation of the DMV System Modernization Project. In FY 2020 DMV took a revised approach to its modernization project. It contracted with MTG Management Consultants, LLC, to conduct an independent baseline assessment and develop a Roadmap to guide the department toward system and business modernization. DMV has an important vendor demonstration on August 25th, after which time the DMV Executive Steering Committee for the project will make a decision on the best path forward. The path forward will involve a request for additional staff, MSAs, and software/potential hardware to support the effort, the exact magnitude of which will become apparent after the vendor demonstration. Implementation of the future DMV environment is estimated at \$112 million over 4-years. The following estimates are intended for planning purposes only and represent the high-level projected costs associated with the overall project. The projected totals includes capital, financing, program staffing, maintenance costs, quality assurance, assistance, system training and tools, as well as general program overhead costs. MTG recommends a 4-year modernization plan with seven initiatives. MTG's costing sheets and most recent roadmap draft are attached for further details for a commercial, internal or Salesforce type path. The commercial path has been used for this budget placeholder. E877	SUPPLEMENTAL APPROPRIATIONS				
	This request funds in SFY21 that were reverted in SFY20, due to experiencing project delays.				
	The project was funded in part by grant funds which had an expiration date of September 30, 2020. The project was initially set to go live in June 2020 so the remaining \$400,000 in highway funds were allocated to FY20. Due to contract negotiations and other project delays, the project didn't get started until November 2019. This has pushed the Go-live date for the first phase of the project to September 2020. Since the first phase is the portion of the project that puts the Division in compliance with Federal PRISM requirements and the purpose of the awarded grant, the grant funds were used to pay for the first phase.				
	Phase 2 is expected to go live in the Spring of 2021 and includes the commercial registration for Intrastate carriers and the audit functionality. A difference in the original decision unit of \$1,200,000 less the \$800,000 grant funding leaves a highway fund appropriation of \$400,000. The Division was able to pay \$73,000 of the \$400,000 during FY20, but the remaining project deliverables will not be received until FY21.				
	Since the unexpended balance of \$327,000 could not be carried forward in BA4717 to FY21, the Department is requesting permission to supplement FY21 by the \$327,000 in order to pay the remaining balance of the contract to the vendor, Explore Data Services.

Section A1: Line Item Detail by GL

Budget Account: 4721 DPS - HIGHWAY SAFETY GRANTS ACCOUNT

The Department of Public Safety (DPS), Highway Patrol Division receives federal grants administered through this budget account. The granting agency is the U.S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), whose focus is accident, fatality, and injury reduction of commercial motor vehicle (CMV) related crashes. These reductions are accomplished through consistent, uniform, and effective CMV safety programs. The federal grants include the Motor Carrier Safety Assistance Program (MCSAP) and the High Priority (HP) grant programs.

The MCSAP grant is a formula distribution made available to state and local entities that conduct traffic safety programs and activities. These federal funds are used for qualifying programs designed to support the enforcement of CMV regulations, CMV inspections, and CMV/non-CMV traffic enforcement. The management and oversight of the MSCAP grant is supported by 15 positions and requires a 15 percent soft match, which is provided by Highway Patrol trooper time spent on MCSAP eligible activities.

The High Priority is a discretionary grant program that provides support for a number of different initiatives including information technology deployment, safety data improvements, and CMV safety enforcement. State match is based on the type of activity proposed. For example, media activities are 100 percent federal funds eligible. Statutory Authority: NRS 480.300, 480.330, 480.340, and 480.360.

E350	PROMOTING HEALTHY, VIBRANT COMMUNITIES This request funds on-going budgeted holiday pay, shift differential overtime pay and call back pay related to the sworn officers housed in this budget account. In State Fiscal Year 2018, three DPS Officer 2 positions were added to this budget account. There operational shifts sometimes required them to work on holidays, at different hours of a day than standard and are sometimes called back to work after their shifts had ended. As such, this decision unit requests to budget, on a three year average, costs anticipated for these activities. [See Attachment]				
EXPENDITURE

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4722 DMV - MOTOR VEHICLE POLLUTION CONTROL

The purpose of the Emissions Control Program is to ensure that vehicles in Clark and Washoe counties comply with Nevada's laws and regulations regarding emission standards. The division carries out its duties by licensing and regulating emissions stations and inspectors, as well as, providing training and certification of applicants seeking employment as Emission Inspectors. Staff conducts audits and inspections at licensed emission stations; investigates potential program evaders; and applies appropriate sanctions against program violators. The division cooperates with the various planning agencies involved in the Air Quality Program to evaluate air quality standards. The division is also a core member of the Inspection and Maintenance Advisory Committee. Statutory Authority: NRS 445B, 481.0473, 481.0475, 481.0481, 482.461, and 482.465.

Due to the COVID-19 Declaration of Emergency Directive 004, DMV experienced a shutdown March 18, 2020 through June 15, 2020 wherein all offices were closed. To account for the unique circumstances resulting in a reduction of standard expenditures, the department requests an adjustment to base of \$1,500 to establish funding at the fiscal year 2021 legislatively approved amount.

E300	SAFETY, SECURITY AND JUSTICE				
	This request funds the replacement of 11 portable and 11 vehicle radios to be compatible with the NDOT Radio Project implemented in FY22.				
	Currently, the Pollution Control Account (Emission Control Program) has a total of eleven sworn law enforcement officers. Each sworn law enforcement officer is assigned a vehicle equipped with a vehicle radio. The Nevada Department of Transportation (NDOT) is completing a project to upgrade the Nevada Shared Radio System. This upgrade converts the Nevada Shared Radio System from an analog system to a digital system. Currently, sworn law enforcement officers within the Pollution Control Account (Emission Control Program) utilize analog vehicle and portable radios, which will not be compatible with the new digital system, resulting in all vehicle and portable radios being utilized by sworn law enforcement officers as being nonfunctional. Sworn law enforcement officers within the Pollution Control Account (Emission Control Program) are required to communicate with each other and other agencies to perform law enforcement functions when responding to incidents that occur at DMV offices throughout the state along with providing assistance to other agencies. Maintaining functional vehicle and portable radios utilized by these sworn law enforcement officers provides the sworn law enforcement officers with the essential tools that are imperative to the safe completion of their official duties.				
	The Pollution Control Account (Emission Control Program) is proposing to obtain funding in CAT 05 to allow sufficient authority to equip eleven sworn law enforcement officers with upgraded vehicle and portable replacement radios.				
	Approval of this funding would benefit the Pollution Control Account (Emission Control Program) by providing essential replacement of eleven vehicle and portable radios for utilization by sworn law enforcement officers, allowing these sworn law enforcement officers to continue utilizing functional vehicle and portable radios for communication with each other and other law enforcement agencies while performing law enforcement functions or responding to security incidents at various DMV locations throughout the state and when providing response assistance to other law enforcement agencies in emergency situations. Maintaining functional vehicle and portable radios will allow these law enforcement officers the tools imperative to staying in communication with law enforcement agencies and aware of changing circumstances when responding to security incidents and providing assistance to other law enforcement agencies in emergency situations. This communication allows the sworn law enforcement officers to remain safe while conducting their official duties.

E720	NEW EQUIPMENT				
	This requests funding to purchase 6 flashlights and 6 knives for sworn law enforcement.				
	The Pollution Control Account (Emission Control Program) requests to obtain funding in CAT 29 for the purchase of eleven flashlights for utilization by Pollution Control Account (Emission Control Program) sworn law enforcement officers. The Pollution Control Account (Emission Control Program) has a total of six sworn law enforcement officers that do not have the ability to utilize a flashlight during the course of an investigation nor have a knife to use in the course of their duties. In the event that a sworn law enforcement officer is conducting an investigation in a poorly lit area or at night, the ability to utilize a flashlight to verify Vehicle Identification Numbers and vehicle documentation, would provide the sworn law enforcement officers with the ability to accurately verify all necessary information and ensure officer safety. 5 sworn positions are funded to have knives. This request provides for all sworn positions to have knives.				
	If funds are not approved to purchase six flashlights and six knives for utilization by sworn law enforcement officers within the Pollution Control Account (Emission Control Program), the sworn law enforcement officers will not have the equipment necessary to effectively perform duties.

	This requests funds to purchase two (2) laptops for the Management Analyst II and Program Officer III.				
	The Pollution Control Account (Emission Control Program) Management Analyst II and Program Officer III are required to attend meetings away from assigned work stations as a part of their job duties. The purchase of two laptops provide accessibility to create, modify and revise project documents working at various locations.				
	If funds are not approved to purchase two new laptops, the Management Analyst II and Program Officer III will continue to utilize the borrowed laptops until such time that a Compliance Enforcement Division employee requires utilization of such equipment. At which time, the Management Analyst II and/or Program Officer III would no longer be able to create, modify or revise project documents when working away from their assigned work stations.

E722	NEW EQUIPMENT				
	This request funds 1 Crystal Reports license for the DMV Services Manager III.				
	DMV Services Manager III within the Pollution Control Account (Emission Control Program) requests Crystal Reports run by the Management Analyst III within the Compliance Enforcement Division when a statistical report obtained through Crystal software is necessary to complete a statistical review of the funds received by the Pollution Control Account. The purchase of a Crystal software license for the DMV Services Manager III with the essential software required to generate Crystal Reports provides efficiency and another staff member with the capabilities to run reports for the Division.				
	If funds are not approved to purchase one Crystal software license, the DMV Services Manager III will not have the necessary software for utilization when running program reports, resulting in the DMV Services Manager III requesting the statistical reports from the Management Analyst III within the Compliance Enforcement Division.

E723	NEW EQUIPMENT				
	This request funds the replacement of 1 existing simulator with 2 simulators to increase efficiency.				
	The Pollution Control Account (Emission Control Program) requests funding for the purchase of two (2) simulators for utilization by the Environmental Scientist II within the Pollution Control Account (Emission Control Program).				
	Environmental Scientist II utilizes a simulator device when certifying new and testing existing Emission Control equipment and software used within the State of Nevada. The existing simulator is out dated and software upgrades are not available. The purchase of a new simulator will allow the Environmental Scientist II to continue to certify new and the second simulator can test existing Emission Control equipment and software used within the State of Nevada, simultaneously.				
	If funds are not approved to purchase a new simulator, the Environmental Scientist II will continue to utilize the out dated simulator until such time that the equipment fails. Upon simulator failure, the Environmental Scientist II will not have the equipment necessary to complete certifications for new and testing of existing Emission Control equipment and software used within the State of Nevada.				
	Additionally, if funds are not approved to purchase a second simulator, the Environmental Scientist II will not be able to conduct certification and testing of Emission Control equipment and software simultaneously. The inability to conduct certification and testing of Emission Control equipment and software simultaneously, results in a delay of equipment certification and testing.

	This requests funding to purchase 18 digital cameras for all sworn law enforcement officers.				
	Compliance Enforcement Division has a total of eighteen sworn law enforcement officers that do not have a digital camera to obtain photographic evidence during the course of an investigation. The equipment requested will greatly improve evidence contained in an investigation and may at a later date, provide the evidence necessary to prevail in a court of law, rather than relying on memory and will reduce the time to substantiate the case.				
	Without the digital camera, sworn law enforcement officers are unable to take photographic evidence during an investigation.

Section A1: Line Item Detail by GL

Budget Account: 4727 DPS - CAPITOL POLICE

The mission of Capitol Police (CP) is the protection of life and property by providing proactive law enforcement services, empowering employees through training and education, and enhancing the safety of Nevada's citizens and visitors, in and around designated state lands and facilities. CP provides a constant security presence at the State Capitol, Attorney General's Office, Grant Sawyer building, and Governor's Mansion. In addition, the CP also provides recurring regular active patrols of state-owned facilities in the Carson City, Reno/Sparks, and Las Vegas areas. Statutory Authority: NRS 289.270; 331.140; 480.130; 480.140; 480.150.

E225	EFFICIENCY & INNOVATION				
	This request is to fund a new Administrative Assistant II (AAll) position in the Carson City office of CP to replace the current AAll who was hired through the good of the state contract with HAT Manpower, Inc.				
	In the 2011 Legislative Session, the Division's position of Management Analyst II was transferred to the DPS Director's Office and certain services were consolidated as part of a centralized fiscal unit within headquarters. Since the transfer of the position, common administrative duties such as answering the telephone, handling incoming inquiries, arranging travel, purchasing, answering correspondence, records maintenance, filing, Records Management System (RMS) entry, inventory of both division and each officers' assigned equipment along with key inventory, monthly Unified Crime Reporting (UCR) required reporting, quarterly OSHA reporting, etc., have fallen to the responsibility of the chief and sergeant positions, which in 2015 were also reduced from three sergeant positions to two sergeant positions, Division wide. The division chief and officers are unable to dedicate sufficient time and effort to manage these administrative duties. It is not cost-effective, nor efficient, to use personnel funds to employ and pay peace officers to perform duties more appropriately suited for an Administrative Assistant. Please note that the Division has 21 sworn full-time and part-time officers, and have since been able, through salary savings and cost cutting, to obtain a contract employee through Manpower to fulfill these duties.

E710	EQUIPMENT REPLACEMENT This request funds replacement computer hardware and associated software per EITS recommended replacement schedule, of five years. Based on the replacement schedule, the division is requesting to replace two laptops computer in year one, one laptop computer and three desktop computers in year two. Officers are required to complete case reports timely and accurately for all incidents, to which they respond. Having up to date technology, not only when they are in the field on patrol, but in the office as well, has provided them with the ability to complete reports for submission. Having a laptop in the patrol vehicles allows the officer the ability to run a suspect through the state return, to verify the suspects identity. [See Attachment]

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4729 DPS - STATE EMERGENCY RESPONSE COMMISSION

The mission of the State Emergency Response Commission (SERC) is to protect the citizens of the State of Nevada against the negative effects of hazardous materials. The SERC is the executive agency for Nevada's compliance with the federal Superfund Amendment Reauthorization Act, Title III, also known as the Emergency Planning and Community Right-to-Know Act. As mandated by this Act, SERC is responsible for collecting information from fixed facilities regarding the use and storage of hazardous materials. The information is provided to the public and first responders for both planning and reference purposes through a combined database coordinated with the State Fire Marshal's Office. Pursuant to NRS, fees are collected on the reports submitted. These funds support the Local Emergency Planning Committees and state agencies with equipment, training, and planning activities needed to prevent and respond to hazardous material incidents. Statutory Authority: 42 U.S.C. 11001; NRS 459.735 through NRS 459.744.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for two employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]

17 **USDOT/HMEP GRANT**

This federal Hazardous Materials Emergency Preparedness (HMEP) reimbursement grant is received annually from the USDOT. The federal funding is 80% and the grant is matched 20% by the SERC with miscellaneous fees, GL 3722. This grant provides funding to emergency responders throughout the state through Local Emergency Planning Committees and state agencies for planning and training in the hazardous materials field. This grant is related to Revenue GL 3580.

Budget Account: 4731 DMV - VERIFICATION OF INSURANCE

The Insurance Verification Program, known as Nevada Liability Insurance Validated Electronically (NVLIVE), verifies that owners of motor vehicles registered in Nevada maintain Nevada liability insurance. Revenue is generated from reinstatement fees and fines after suspensions for failing to maintain insurance. Statutory Authority: NRS 485.185, 485.313, 485.314, 485.317, 482.480, 482.4805 and 482.557.

Section A1: Line Item Detail by GL

Budget Account: 4732 DMV - HEARINGS

The Department of Motor Vehicles, Hearings Office provides due process hearings to any person aggrieved by a decision of the department. Generally, these hearings concern the suspension, revocation, or cancellation of a privilege license issued by the department, such as a driver's license or a license to conduct business involving motor vehicles. The decisions of the administrative law judges assigned to the office may impact the lives and property of thousands of Nevadans. For this reason, the office strives to conduct all hearings in a timely, fair and impartial manner, and in accordance with the provisions in the Nevada Administrative Procedures Act, Chapter 233B. The office is supported primarily from Highway Fund revenues. Statutory Authority for these hearings is found in NRS 366, 445B, 481, 482, 483, 484, 485, 487, and 706.

Budget Account: 4734 DPS - JUSTICE ASSIST GRANT TRUST ACCOUNT

The Department of Public Safety (DPS) - Justice Assistance Grant Trust Account is a pass-through budget account for grants received from the U.S. Department of Justice. Grant funds are distributed to state and local government agencies that contribute to the effort of reducing and preventing crime, violence, and drug abuse, and improving the functioning of the criminal justice system, while maintaining the integrity of federal funds. Statutory Authority: NRS 480.800.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding Justice Assistance Grant programs to state and local law enforcement agencies. One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
2520	FEDERAL FUNDS FROM PREVIOUS YEAR	1,760,908	9,049,444	0	0
2521	FEDERAL FUNDS TO NEW YEAR	-9,049,444	0	0	0
3585	JUSTICE ASSISTANCE GRANT	2,165,007	2,132,227	2,302,619	2,302,619
	Justice Assistance Grant (JAG) supports a broad range of activities to prevent and control crime and to improve the criminal justice system. JAG grants are ongoing and are anticipated to continue in approximately the same amount each year of the 2022-2023 Biennium. Projected award is based on a three-year average. 2,134,288.00 + 2,228,738.00 + 2,165,007.00= 6,528,033/3 = 2,176,011.00				
3592	CESF FEDERAL GRANT	7,385,200	0	0	0
	This is a new grant for Coronavirus Emergency Supplemental Funding, (CESF). It is an interest bearing grant. Funds awarded under the CESF Program will be utilized to prevent, prepare for, and respond to the coronavirus. Allowable projects and purchases include, but are not limited to, overtime, equipment (including law enforcement and medical personal protective equipment), hiring, supplies (such as gloves, masks, sanitizer), training, travel expenses (particularly related to the distribution of resources to the most impacted areas), and addressing the medical needs of inmates in state, local, and tribal prisons, jails, and detention centers.				
4326	TREASURER'S INTEREST DISTRIB	51,473	10,525	10,525	10,525
	A.B. 165 modified Chapter 480 to create and administer a separate Justice Assistance Grant Trust Account. The money in the Trust Account may only be expended in accordance with the provisions of the Edward Byrne Memorial Justice Assistance Grant or the FY20 Coronavirus Emergency Supplemental Funding Grant. The interest and income earned on the funds in the Trust Account, after deducting any applicable charges, must be credited to the Trust Account. Projected interest based on a three-year average. 12987+47458+51473=111918/3=37306

Budget Account: 4735 DMV - FIELD SERVICES

The Department of Motor Vehicles, Field Services Division is responsible for direct customer service operations for the driver licensing and vehicle registration functions. Field Services assures that only safe and knowledgeable drivers receive the privilege to drive on the highways. It also registers and titles vehicles, collects appropriate fees and taxes imposed upon the owners and operators of vehicles, and provides service in the insurance verification program and provide a form to decline voter registration or indicate a political party affiliation after concluding certain transactions. This budget is funded primarily from Highway Fund revenues, governmental services tax commissions, and penalties. Statutory Authority: NRS 108, 293, 366, 481, 481A, 482, 483, 484, 485, 486, 487, and 706.

E227	EFFICIENCY & INNOVATION This request funds the purchase of American Flag and Nevada State Flag for DMV locations at State Owned Buildings. In SFY2020, DMV received notification from Buildings and Grounds the cost to replace flags is the responsibility of the occupying agency. This request is to provide for the purchase of 2 flags of each type, twice yearly. Weather and vandalism contribute to the need for replacement. Flags are located at the following DMV State Owned Buildings: Carson City, Reno, Decatur, Donovan, Henderson Flamingo, Sahara. [See Attachment]

E902	TRANSFERS				
	This request funds the transfer of five (5) Appraisers and nineteen (19) Inspectors from BA 4735-Field Services to BA 4740-Compliance Enforcement.				
	Positions better align with the Compliance Enforcement Division based on duties, compliance responsibilities, and enforcing compliance requirements monitoring/working with tow yards, wrecking yards, and law enforcement. Appraiser and Inspector positions will receive more recognition as compliance enforcement activities within CED rather than FSD.				
	Additional efficiencies from this initiative may result in the automotive industry acknowledging sooner the compliance and enforcement outcomes resulting from inspections before the case is elevated to sworn law enforcement.

Section A1: Line Item Detail by GL

Budget Account: 4736 DPS - JUSTICE GRANT

The Department of Public Safety (DPS), Office of Criminal Justice Assistance (OCJA) obtains, administers, and sub-grants to state and local government agencies grant funds from the U.S. Department of Justice for programs that address illegal drug use, trafficking, violent crime, and improvement of the functioning of the criminal justice system. The objective is to coordinate education, prevention, treatment, and law enforcement to achieve a comprehensive solution to the problems of drug abuse and violent crime. Funding for this budget comes primarily from federal grants with a partial match from General Fund appropriations. Created by the Anti-Drug Abuse Act of 1986, Section 1308 states that the chief executive of each state shall designate a State Administrative Agency (SAA). In 1987, the OCJA was designated by the Governor as the SAA for Nevada. In November of 2000, the OCJA was designated by the Governor as the state coordinator for the 1033 Department of Defense Excess Property Program and the state point of contact for the 1122 General Services Administration Purchasing Program. Statutory Authority: NRS 480.800.

02	OUT-OF-STATE TRAVEL				
6100	PER DIEM OUT-OF-STATE OCJA requests additional travel funds (from \$3,126 to \$12,997.88) to provide attendance for a second grant manager at the annual combined National Criminal Justice Association (NCJA) Forum and Residential Substance Abuse Treatment (RSAT) Administrators Meeting. In state fiscal year 2020/2021 due to staff shortages, increased federal reporting and an increased workload for all OCJA staff, OCJA was only able to send one representative (OCJA's new Administrator) to the Forum. Now that OCJA is fully staffed, the Forum attendance will be especially important for OCJA's ability to effectively manage federal grants.	1,366	1,602	1,366	1,366

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	<p>The NCJA Forum on Criminal Justice showcases top performing programs, research and policies that help justice practitioners and decision makers in states, local communities and tribal nations address pressing public safety issues and incorporate best practices into Nevada's criminal justice programs. New grant opportunities and partnerships are often introduced at the national Department of Justice (DOJ) forums, so it is critical to attend more sessions during the forum to obtain additional grant funding for multiple purpose areas such as Law Enforcement, Corrections, Parole & Probation, Courts, Technology, and re-entry programs. One attendee cannot attend enough sessions as they are running concurrently.</p> <p>At the 2019 Forum, the OCJA Administrator discovered that the Project Safe Neighborhood grant became a formula grant a couple years ago after several years as a competitive grant. OCJA was the fiscal agent to manage the federal grant from 2008 through 2011 and was selected to do so for 2020.</p> <p>The NCJA Forum plans to continue incorporating the annual RSAT Administrators Meeting for administrators and subgrantees. There are multiple workshops of interest during the Forum as well as a stand-alone RSAT meeting on the final day. These partnerships reflect the understanding that only by bringing together various parts of the justice system can real progress be made. Workshops feature promising and innovative programs and strategies to address crime around the country; examine new research and evaluation on priority issues, and highlight available resources within the Department of Justice.</p> <p>OCJA requests an increase in funding authority to send the OCJA Administrator or representative to NCJA Strategic Planning seminar. The Justice for All Reauthorization Act, passed in 2016, requires all applicants for the Justice Assistance Grant (JAG) to include a statewide strategic plan with the JAG application. To help with the planning and creation of the strategic plan, NCJA offers strategic planning sessions throughout the year. The training is vital to ensure that state strategic plans align with Nevada's federal funding needs.</p> <p>OCJA requests an increase in funding authority for the OCJA Administrator and DPS Director or Deputy Director to attend the NCJA sponsored "Summit on the Hill" as in previous years. With the new challenges facing Nevada's law enforcement agencies with Police Reform and the threat of police defunding, it is more important than ever to make sure Nevada's voice is heard, along with other state agencies. This opportunity is vital to help assure that our law enforcement agencies are represented.</p> <p>[See Attachment]</p>

6200	PER DIEM IN-STATE	1,380	4,277	1,380	1,380
	<p>OCJA is requesting additional funding authority (from \$7,329 to \$16,474) for in-state travel. OCJA is federally mandated to complete on-site monitoring for all sub-grantees. This is to ensure that all sub-grantees are completing or have completed the project that was awarded, to inspect any equipment purchased, and to check all financial documentation. Due to COVID-19, OCJA is now administering an increased amount of federal grant awards. Each one of those awards has a staff member that works with the sub-grantee and is required to travel to the agencies they are assigned to. This increase in need for travel, and the increase in staff that are required to travel, has increased the need for more funding. Due to COVID 19 Our travel funds were unable to be spent in FY20 [See Attachment]</p>

	<p>OCJA requests an increase in funding authority (from \$43,076 to \$220,083) to help handle the large influx of grant applications, for our CESF funding due to COVID 19. Many of our new applicants are also new to the grant process, the need for more guidance, technical assistance, as well as more financial claims to process and reporting to do for each grant awarded. Our office will be hiring two contract employees for a total of \$156,024.80 per year. We will also be implementing a new electronic grants management system, zoom grants, that will cost roughly \$6,500/year. This includes the yearly subscription, the per program fee (CESF is the only program that is using this system) and the estimated cost of changes to paperwork, reporting, and changes in grant management, as it is directed to us by the Department of Justice. Due to the amount of Admin fees our office is receiving to manage the CESF grants, these amounts will all be federally funded.</p>

	There is also an increase in our non-state-owned office rent. This is due to the fact that CAT 13, which is expended from our revenue that is generated from our 1122 program admin fees collected, no longer has the funds in its account to sustain these expenses, due to the decline in that program. In CAT 04, the rent can be paid out of General fund, JAG funds, and CESF funds. Other increases, such as phone, office supplies, printing, etc., are the price for doing business with the increase of grants, and staff to help administer those grants. [See Attachment]

13 **PROCUREMENT PROGRAM**

In November 2000, the Governor appointed the OCJA Administrator as the State Coordinator for the Law Enforcement Purchase Program under the authority of the National Defense Authorization Act, Section 1122 as well as the Defense Logistics Agency's Excess Property Program. These funds are used to support the administrative budget for these programs. Funds to support this category are from a 4 percent assessment fee charged on the 1122 program purchases.

6200	PER DIEM IN-STATE OCJA is requesting a decrease in the Program procurement category, due to the decline in the program. This program brings in a revenue of 4 percent per item sold. Due to the competition of online competitors, the discount that was once able to apply to purchases, has decreased. This has drastically decreased the revenue. The program cannot sustain expenditures that were once charged to this category.	0	652	0	0

30	TRAINING				
6100	PER DIEM OUT-OF-STATE OCJA is requesting an increase in funding in training (from \$5,229 to \$7,147). OCJA operates the 1033 Department of Defense (DOD) Military Surplus Property Program in Nevada. This program assists law enforcement agencies to obtain new and used military equipment at no costs (other than shipping or delivery expenses). This program has provided millions of dollars' worth of equipment and supplies to Nevada, at no cost other than occasional delivery fees. Nevada averages savings of over a million dollars a year and up to ten million dollars a year on DOD equipment for local law enforcement agencies.	1,382	2,760	1,382	1,382

 2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	This program requires that the State Point of Contact, as well as the Agency Administrator attends the National LESO Training Conference. However, in 2019, we were informed that LESO will no longer pay for those travel expenses to attend. That travel was never incorporated into the budget. In 2019 the conference was held at the LESO headquarters in Grand Rapids Michigan, and it will most likely be held at that location if future years. (\$1,240 per traveler= \$2,480.00) The 1122 National Defense Authorization Act Procurement Program in Nevada is housed and operates within OCJA. Law enforcement agencies, first responder agencies, and Homeland Security agencies are able to take advantage of discounts available to the Federal Government due to its large volume purchases and contracts, thereby maximizing their budgets. General Services Administration (GSA) holds a national conference (FAST Conference) to share best practices and how states are better utilizing the 1122 program. We are requesting that the State Point of Contact attends this training to better help all agencies in utilizing this program. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4737 DPS - ACCOUNT FOR REENTRY PROGRAMS

The Fund for Re-entry Programs was created during the 2009 Legislative Session with the passage of Senate Bill 236. The Office of Criminal Justice Assistance (OCJA) is the designated agency to accept donations, gifts, bequests, grants, and other sources of funds to carry out service programs for the re-entry of persons into the community, upon their release from incarceration. Programs may include, but are not limited to, transitional housing, training in life skills, vocational rehabilitation, access to self-help groups, social services for families and children, preventing domestic violence, maintaining emotional and physical health, and preparing for and obtaining employment. Statutory Authority: NRS 480.810.

Section A1: Line Item Detail by GL

Budget Account: 4740 DMV - COMPLIANCE ENFORCEMENT

The Compliance Enforcement Division (CED) is the regulatory arm of the Department of Motor Vehicles (DMV). Regulation of the auto industry provides consumer protection through the licensing and regulation of businesses related to the manufacture, transport, sale, and disposal of vehicles. The purpose of the fraud investigation section is to investigate and resolve fraudulent activity. The division also investigates all complex and criminal complaints filed against licensees. Staff conducts audits, monitors, inspects, and provides investigative services on the internal and external entities related to the DMV core programs. Statutory Authority: NRS 481.0473, 481.0475, 481.048, Chapters 108, 482, 483, 487, 490.

E300	SAFETY, SECURITY AND JUSTICE				
	Provide portable radios for nine (9) radios to equip all sworn law enforcement officers and the maintenance associated with 18 portable and 18 vehicle radios. To be compatible with the NDOT Radio Project implemented in FY22, BA 4740 will be responsible for the purchase of 9 new portable radios as NDOT/NHP will pay for the 18 replacement vehicle radios and 9 portable radios that Budget Account 4740 currently has . This request provides for all sworn law enforcement officers to each have a portable radio for communication when outside the vehicle. Frequent communication occurs with each other, law enforcement entities, and other agencies while responding to emergencies, maintaining awareness of changing circumstances and providing assistance to other law enforcement agencies. Without sufficient portable radios, sharing of the existing radios will have to continue. This solution leaves 9 sworn law enforcement officers the inability to quickly and safely communicate during incidents and remain safe while conducting official duties. [See Attachment]

E605	BUDGET REDUCTIONS STAFFING & OPERATIONS				
	This request eliminates various vacant position(s). In order for DMV to comply with budgetary limits, various vacant positions were identified in this reduction. Restoration of the position(s) are requested in Items For Special Consideration E605. These positions are necessary to provide DMV services to customers, however with the reduction in projected revenue, elimination of vacant positions is a cost savings measure.

 2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
E720	NEW EQUIPMENT				
	This requests funding to purchase 13 flashlights and 13 knives for sworn law enforcement.				
	The Compliance Enforcement Division (CED)) requests to obtain funding in CAT 29 for the purchase of thirteen flashlights and thirteen knives for utilization by CED sworn law enforcement officers. CED has a total of thirteen sworn law enforcement officers that do not have the ability to utilize a flashlight during the course of an investigation nor have a knife to use in the course of their duties. In the event that a sworn law enforcement officer is conducting an investigation in a poorly lit area or at night, the ability to utilize a flashlight to verify Vehicle Identification Numbers and vehicle documentation, would provide the sworn law enforcement officers with the ability to accurately verify all necessary information and ensure officer safety. Five sworn positions are funded to have a flashlight and a knife. This request provides for all sworn positions to have a flashlight and knife.				
	If funds are not approved to purchase thirteen flashlights and thirteen knives for utilization by sworn law enforcement officers within CED, the sworn law enforcement officers will not have the equipment necessary to effectively perform duties.

	This request funds 18 new digital cameras for 18 sworn officers.				
	There are 18 sworn law enforcement officers in Compliance Enforcement Division that conduct investigations. Currently there is one digital camera requested within the replacement schedule. This requests 18 new digital cameras for each sworn officer to utilize a digital camera to obtain photographic evidence during the course of an investigation.				
	This budget account has one digital camera, requested to be replaced. This camera is used by non sworn law enforcement staff.				
	If funds are not approved to purchase seventeen digital cameras to be used by sworn officers, they will not have the ability to utilize a digital camera to obtain photographic evidence.

	This decision unit requests Office 365 software licenses for all staff within the budget account per EITS' initiative to have all agencies on the same platform. Costs are per year, representing renewals in the second year of the biennium.				
	DMV is implementing Office 365 for all staff. Additional software such as Visio and Pro are necessary to complete day to day job duties.

E902	TRANSFERS This request funds the transfer of five (5) Appraisers and nineteen (19) Inspectors from BA 4735-Field Services to BA 4740-Compliance Enforcement. Positions better align with the Compliance Enforcement Division based on duties, compliance responsibilities, and enforcing compliance requirements monitoring/working with tow yards, wrecking yards, and law enforcement. Appraiser and Inspector positions will receive more recognition as compliance enforcement activities within CED rather than FSD. Additional efficiencies from this initiative may result in the automotive industry acknowledging sooner the compliance and enforcement outcomes resulting from inspections before the case is elevated to sworn law enforcement. [See Attachment]

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4741 DMV - CENTRAL SERVICES

The Central Services and Records Division safeguards the records and statistical reports for State officials while providing alternatives to in-person processing methods for Nevada motor vehicle customers regarding drivers' licenses, registrations, titles, and license plates. This division is also responsible for conducting registration transactions, processing titles, ensuring data integrity, and issuing drivers' license sanctions. Statutory Authority: NRS 108, 233B, 371, 482, 483, 484, 487 and 490.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 130 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Fiscal year 2020 travel training log and projections for category 02 AAMVA travel are attached. [See Attachment]

7060	CONTRACTS	0	0	73,871	80,772
7074	HARDWARE LICENSE/MNT CONTRACTS	0	0	-16,805	-16,805
7091	EQUIPMENT REPAIR-A Adjustment to eliminate equipment repair from base year. This is considered a one-time expenditure.	0	0	-777	-777
7100	STATE OWNED BLDG RENT-B&G	0	0	7,790	7,790
7222	DATA PROCESSING SUPPLIES Due to the COVID-19 Declaration of Emergency Directive 004, DMV experienced a shutdown March 18, 2020 through June 15, 2020 wherein all offices were closed. To account for the unique circumstances resulting in a reduction of standard expenditures, expenditures were annualized as follows: July-January expenditures \$20,086.52 divided by seven months equals \$2,869.50 per month; times 12 months equals \$34,434 per year. M150 amount is \$34,434 - \$20,086.52 (FY20 actual) = \$14,347.48	0	0	14,347	14,347
7250	B & G EXTRA SERVICES Adjustment to eliminate B&G extra services from base year. These are considered one-time expenditures.	0	0	-253	-253
7280	OUTSIDE POSTAGE Expenses are renewal fees for post office box and postage costs only for mailing registration decals. Due to the COVID-19 Declaration of Emergency Directive 004, DMV experienced a shutdown March 18, 2020 through June 15, 2020 wherein all offices were closed. As a result, printing of registration decals transferred to an outside vendor with whom DMV has an existing contract. The vendor printed and mailed decals remotely, and passed through actual postage costs. Upon evaluation, the department has decided to continue this process for registration decals that can be printed and mailed remotely as it also provides a cost savings. As a result, there will be an increase to outside postage costs and a corresponding decrease to postage paid to the State mailroom (GL 7285). Expenditures for outside postage are annualized as follows: Total fiscal year 2020 ITI postage is \$145,985.50 (for March 15th through June 30th) divided by 3.5 months equals \$41,710.14 per month times twelve months equals \$500,521.68 annually. [See Attachment]	0	0	500,522	500,522
7285	POSTAGE - STATE MAILROOM Postage charges paid to the State Mail Room for registration renewal notices, titles, traffic safety school notices, driver license renewal notices, handicapped placards, general correspondence and address change stickers. Expenses for postage costs related mailing registration decals were transferred to GL 7280 effective March 18, 2020. Due to the COVID-19 Declaration of Emergency Directive 004, DMV experienced a shutdown March 18, 2020 through June 15, 2020 wherein all offices were closed. As a result, printing of registration decals transferred to an outside vendor with whom DMV has an existing contract. The vendor printed and mailed decals remotely, and passed through actual postage costs. Upon evaluation, the department has decided to continue this process for registration decals that can be printed and mailed remotely as it also provides a cost savings. As a result, there will be an increase to outside postage costs and a corresponding decrease to postage paid to the State mailroom (GL 7285). The reduction to postage for mailing decals is annualized as follows: Total expenses paid to vendor are \$145,985.50 (for March 18th through June 30th) divided by 3.5 months equals \$41,710.14 per month times twelve months equals \$500,521.68 annually.	0	0	-500,522	-500,522

In order for DMV to comply with budgetary limits, various vacant positions were identified in this reduction. Restoration of the position(s) are requested in Items For Special Consideration E605. These positions are necessary to provide DMV services to customers, however with the reduction in projected revenue, elimination of vacant positions is a cost savings measure.

Section A1: Line Item Detail by GL

Budget Account: 4742 DMV - DIVISION OF MANAGEMENT SERVICES & PROGRAMS

The Management Services and Programs Division (MS&P) is a resource to help achieve the department's strategic plan. MS&P is responsible for developing regulations, drafting legislation, preparing fiscal notes, completing and conducting surveys, creating and updating forms and desk reference manuals, and development of requests for proposals. MS&P also manages projects related to vehicle, driver, occupational, motor carrier and business programs of the Department of Motor Vehicles (DMV). This division develops policies and procedures for all DMV divisions to ensure consistent and uniform program delivery. Responsibilities also include support for the other divisions in the areas of strategic planning and research, regulation and statutory changes, and legislative interaction.

Statutory Authority: NRS 481.019, 481.035, 481.0473, and 481.051.

Section A1: Line Item Detail by GL

Budget Account: 4744 DMV - DIRECTOR'S OFFICE

The mission of the Department of Motor Vehicles (DMV) is to modernize and reinvent DMV services through technology, innovation, customer service, and training while guarding against fraud, and protecting the driving public through licensing and intervention practices while ensuring privacy protection of DMV records. The office establishes policy for the department and directs and controls the operations of the agency. The office handles all media inquiries through the Public Information Officers. Additionally, department policies and procedures, information security, and the personnel and training units fall under the responsibility of this office. Statutory Authority: NRS 481.031; 481.035; 481.047; 481.0473; 481.051; 481.052; and 481.055.

E243	EFFICIENCY & INNOVATION This requests funding to subscribe to GovQA software. 80% 4711 Records Division 20% 4744 Director's Office The GovQA tool was designed specifically for public agencies to fulfill records requests and has built-in functionality that current Excel spreadsheets don't capture. The Department would like to subscribe to the GovQA software-as-a-service platform for a centralized Internet portal through which all records requests are submitted. With centralized tracking through the GovQA platform, it will allow the Department to better monitor the number of records requests received, the staff time spent on fulfilling records requests, the revenue received from such requests, and the timeliness and accuracy with which the Department fulfills the requests. Currently the Department is only able to guess at such metrics and runs the risk of requests falling through the cracks because of different channels through which the requests are received and the manual method of responding. On the customer/requester side, the centralized portal allows customers to track the progress of their records request and see the fees (if any) associated with their request up-front rather than waiting for correspondence in the mail with any potential fees. Customers can also see similar requests that others have made through the portal and the Department's response. This may eliminate their need to request information altogether if they can see the Department has already provided similar information to someone else. GovQA can work with DMV staff to create standard responses for certain types of requests, which will save staff time in trying to re-create a response for every type of request. Allowing DMV staff to respond to requesters through the portal, as opposed to fax or mail, will result in timelier responses to our customers and potential cost savings in mailing supplies and postage. DMV will continue the manual process of tracking records requests. At an average of 154,000 records requests per year in Central Services, continued manual tracking is time consuming, inefficient, and antiquated. [See Attachment]

E605	BUDGET REDUCTIONS STAFFING & OPERATIONS				
	This request eliminates various vacant position(s). In order for DMV to comply with budgetary limits, various vacant positions were identified in this reduction. Restoration of the position(s) are requested in Items For Special Consideration E605. These positions are necessary to provide DMV services to customers, however with the reduction in projected revenue, elimination of vacant positions is a cost savings measure.

Section A1: Line Item Detail by GL

Budget Account: 4745 DMV - ADMINISTRATIVE SERVICES DIVISION

The Administrative Services Division is charged with providing professional, timely, and accurate support services to the Director, all divisions of the department, and other associated agencies. Support services include fiscal accounting, budgeting, internal/external auditing, travel arrangements, payroll, warehousing, inventory control, mail services, purchasing services, contract management, facilities management, telecommunication support, revenue collection, revenue distribution, and revenue recovery services. Through its centralized functions, the department is able to ensure consistency, accuracy, and compliance with laws and regulations for all divisions in these service areas.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 50 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. Fiscal year 2020 travel training log and projections for category 02 AAMVA travel are attached. [See Attachment]

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4770 DETR - WORKFORCE DEVELOPMENT

The mission of the Workforce Development (WD) Programs is to provide a statewide labor exchange and provide training and re-employment services to Nevada workers and recruitment services for Nevada employers. WD programs include Wagner Peyser/Public Labor Exchange, Career Enhancement Program (CEP), Re-employment Services and Eligibility Assessment (RESEA) program, Foreign Labor Certification (FLC), Work Opportunity Tax Credit (WOTC), Rapid Response, Trade Adjustment Assistance (TAA), Migrant Seasonal Farm Worker (MSFW), and Veterans Employment and Training Service (VETS). WD programs provide job placement services and labor market information to employers and job seekers. These programs are designed to assist employers in meeting their workforce needs and aid job seekers in returning to work through job referrals, short-term skill enhancement training, and career guidance. The division is also responsible for the administration and oversight of Workforce Innovation and Opportunity Act (WIOA) funds. Statutory Authority: Nevada Revised Statutes Chapter 612; U.S. Code, Title 26 (Internal Revenue Code), Subtitle C (Employment Taxes); Chapter 23 (Federal Unemployment Tax Act); Wagner-Peyser Act of 1933; Trade Act of 1974/2002 (Public Law 93-618/107-210); U.S. Code, Title 38, Chapter 41 (Veterans Programs), Personal Responsibility and Work Opportunity Tax Act of 1996 (42 USC 653) (New Hire Directory); and the Workforce Innovation and Opportunity Act of 2014 (Public Law 113-128).

3540	FED ADMIN COST ALLOWANCE-RESEA This item represents federal grant funding received from the U. S. Department of Labor/ Employment and Training Administration to fund the Unemployment Insurance (UI) RESEA program. Reemployment Services and Eligibility Assessment (RESEA) grant funds have been annualized to include grant carry forward. Base amounts are adjusted so the budget account ends with the total available amount.	1,358,542	2,357,604	1,358,542	1,358,542
3544	FED ADMIN COST ALLOWANCE-D	83,374	144,224	83,374	83,374
3545	FED ADMIN COST ALLOW-EMPLOYMENT SERVICES (ES) This item represents federal grant funding received from the U.S Dept. of Labor/Employment and Training Administration to fund Employment Services (ES) which consists of the Wagner-Peyser Base Allocation (Notice of Obligation (NOO) attached). The grant is split according to the Wagner-Peyser Act with 90 percent of the allotment going to the ES Program and 10 percent is set aside according to section 7(b) of the Wagner-Peyser Act as a reserve to be used by the Governor to provide performance incentives, services for groups with special needs, and for the extra costs of exemplary models for delivering job services. Base amounts are adjusted so the budget account ends with the total available amount according to the NOO.	5,690,111	6,021,374	5,690,111	5,690,111
3546	FEDERAL GRANT- VETS This item represents federal grant funding received from the U.S Dept. of Labor/Employment and Training Administration and the U.S. Dept. of Labor/Veterans' Employment and Training Service to fund employment services for veterans with significant barriers to employment throughout the state. Base amounts are adjusted so the budget account ends with the total available amount.	2,029,419	2,287,281	2,029,419	2,029,419
3547	FEDERAL GRANT - FLC This item represents federal grant funding received from the U.S Dept. of Labor/Employment and Training Administration to fund Foreign Labor Certification activities throughout the state. Base amounts are adjusted so the budget account ends with the total available amount.	129,402	164,248	158,782	158,782
3548	FEDERAL GRANT - WOTC This item represents federal grant funding received from the U.S Dept. of Labor/Employment and Training Administration to fund the Work Opportunity Tax Credit (WOTC) for the processing of WOTC applications received from employers throughout the state. WOTC is a Federal tax credit available to employers for hiring individuals from certain target groups who have consistently faced significant barriers to employment. WOTC joins other workforce programs that incentivize workplace diversity and facilitate access to good jobs for American workers.	89,355	91,245	91,381	91,381
3549	FEDERAL GRANT - TRADE - TAA/TRA This item represents federal grant funding received from the U.S. Dept. of Labor/Employment and Training Administration to fund the Trade Adjustment Assistance (TAA) Program. TAA is a federal program that assists US workers who have lost their jobs as a result of foreign trade. The TAA program seeks to provide these trade-affected workers with opportunities to obtain the skills, resources, and support they need to become reemployed. The revenue (RGL) includes funding for the Alternate Trade Adjustment Assistance Program (ATAA), Trade (TAA) Administration Benefits (TRA), and Trade Case Management. Base amounts are adjusted so the budget account ends with the total available amount. The ATTA Grant has been discontinued in this budget account, the remaining balance has been transferred in E911 to budget account 4772.	35,726	0	0	0

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	Adjustment to federal grant funding received from the U.S. Dept. of Labor/Employment and Training Administration to fund the Workforce Innovation and Opportunity Act (WIOA) through the strategic guidance and oversight of the Governor's Workforce Development Board (GWDB) and the Governor's Office of Workforce Innovation. WIOA grant funds support statewide workforce activities to two Local Workforce Development Boards (LWDB) designated to provide these activities locally with the objectives of increasing employment, retention, earnings, and occupational skill attainment of participants, resulting in improved workforce quality, reduction of welfare dependency, and enhanced productivity and competitiveness. The grant funds also support the operation of two local One-Stop service delivery systems in which mandatory and optional system partners collaborate to provide job seekers and employers with enhanced and seamless access to numerous workforce investment, educational, and other human resource services, activities, and programs at the "street level." Base amounts are adjusted so the budget account ends with the total available amount.				
3583	APPRENTICESHIP GRANTS This item represents federal apprenticeship grant funds to provide funding for the Technical Readiness and Apprenticeship Nevada (TRAIN) project, a statewide effort to align programs, effectively utilize and interpret data, and reduce barriers to education, literacy, and training through registered apprenticeships. The goal of the registered apprenticeship program is to produce highly skilled Nevada workers who can meet the needs of employers in a competitive and global economy. In Nevada, this includes leveraging apprenticeship programs to address the needs of these hardest to serve to help reduce unemployment. Nevada's program will serve apprentices in the industries of health care, information technology, manufacturing, logistics, mining and materials, natural resources, tourism, gaming and entertainment.	421,154	134,690	421,125	421,154
3585	FEDERAL GRANT - WIOA SARA	0	0	0	0
3739	FILING FEE - DISPLACED HOMEMAKER This item represents filing fees collected by the Counties through the District Courts for each divorce in Nevada (\$30). These fees are used to fund counseling and education activities under the Displaced Homemakers Program in accordance with NRS 388.605. Base amounts are adjusted so the budget account ends with the total available amount.	378,612	277,395	276,823	276,823

 Line Item Detail & Summary
 2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4771 DETR - EMPLOYMENT SECURITY - SPECIAL FUND

The Employment Security Special Fund is created as a special revenue fund to cover expenditures for which federal funds have been requested, but not yet received, and covers costs to administer employment security laws that may not be charged against federal grants. The revenue sources for this fund are interest and forfeitures collected from employers for non or late payment of unemployment taxes. All monies in the fund are continuously available to the Division Administrator and do not lapse at any time. The division uses the fund to support and maintain agency-owned buildings and pay for technological enhancements to programs for which federal funds are not available. Statutory Authority: NRS 612.615

E238	EFFICIENCY & INNOVATION				
	This request funds Master Service Agreement contract staff for Information Development and Processing (IDP), budget account 3274, to provide UInv knowledgeable programmers to maintain and support critical applications. Retirement, staff departures, and federal mandates have affected the current number of available positions for this function. Agency estimates the need for 5,000 hours in the 2022-2023 biennium. 5,000 hours x \$100 per hour = \$500,000 each fiscal year. DETR has a need of augmenting current MSA staff to allow for enhancement/defect resolution in UInv, currently MSA staff are averaging resolution of one defect per month. MSA hours will also be used to address the IRS Corrective Action Plan (CAP), DOL State Quality Service Plan (SQSP), Unemployment Insurance Data Validation (UIDV) population reporting, and other concerns for the system.

Section A1: Line Item Detail by GL

Budget Account: 4772 DETR - UNEMPLOYMENT INSURANCE

The mission of the Unemployment Insurance Program is to promptly provide temporary financial assistance to eligible workers who have lost their jobs through no fault of their own, to improve the well-being of Nevada's workforce and families by promoting economic stability and to administer an efficient, effective tax system.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 199 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR This Balance Forward includes Child Support Intercept Funds.	93,484	2,955	2,957	2,957
3540	FED ADMIN COST ALLOWANCE-UI This request represents funding received from the U. S. Department of Labor/ Employment and Training Administration to fund Unemployment Insurance (UI). As of Federal Fiscal Year 2018, Modification 07, the total grant for UI State Administration was \$23,743,363 including expected base restoration of \$242,258 The total amount of available RGL 3540 funding is \$23,847,777. Base amounts are adjusted so the budget account ends with the total available amount.	30,634,823	24,547,507	27,844,831	28,184,761
3541	FED ADMIN COST ALLOWANCE-A	17,054	0	0	0
3542	FED ADMIN COST ALLOWANCE-B	1,596,949	0	0	0
3543	FED SCHOOL LUNCH PROGRAM	29,797	0	0	0
3549	FEDERAL GRANT - TRADE - TAA/TRA	0	0	0	0
3803	CHILD SUPPORT INTERCEPT/WORK HISTORIES The Employment Security Division receives revenues for employer wage information provided to the IRS for investigative purposes. Employment Security Division also receives revenues for Child Support intercepts performed on behalf of the Nevada State Welfare Division.	198,580	226,067	311,411	317,229
3871	NEW HIRE The Employment Security Division receives payments from the Nevada State Welfare Division for the operation of the State's New Hire Unit. This unit was established by Welfare reform legislation requiring all employers to report certain information for all newly hired or re-hired employees. The unit collects the information and processes a continuous State Directory of New Hires which is transmitted to the Welfare Division and the National New Hire Directory. The directories are used to locate non-custodial parents who are not paying court-ordered child support.	3,414	742,209	1,036,455	1,046,646
3873	CHARGES FOR SERVICES - C This revenue was received as miscellaneous revenue for subpoenas and witness fees. It is not anticipated to be reoccurring and is not requested for fiscal year 2020 and 2021.	40	0	0	0
4203	PRIOR YEAR REFUNDS This revenue was refunded from invoice over payments that occurred in the prior year. This is not being requested as it is not anticipated to be an ongoing revenue source.	744	0	0	0
4286	BOND PROGRAM INCOME This represents collection of allowable reimbursement for administrative costs for the billing, collection and processing of the Unemployment Insurance (UI) Bonding Principal and Interest Assessments per Senate Bill 515 passed during the 2013 legislative session. These funds were used to fund approximately ten full time equivalents in state fiscal year 2018 and are being eliminated in this biennium.	0	1,778	0	0
4353	MISCELLANEOUS REFUNDS	322	0	0	0
4653	TRANSFER FROM EMPLOYMENT SECURITY This transfer is from the Workforce Development Account 4770, Career Enhancement Program (CEP) funds, to assist with expenses incurred to collect the CEP tax.	2,127,084	2,588,912	3,583,407	3,622,954
4670	TRANSFER FROM ES SPECIAL FUND Transfer was from Penalties and Interest Reserve of Budget Account 4771, Employment Security Special Fund, to assist with funding Unemployment Insurance operations. Base amounts are adjusted so the budget account ends with the total available amount.	472,522	8,848	0	0
TOTAL REVENUES FOR DECISION UNIT B000		35,174,813	28,118,276	32,779,061	33,174,547

E234	EFFICIENCY & INNOVATION				
	This decision unit requests one Deputy Staff Attorney (Unclassified).				
	A new position is needed to support the Employment Security Division's legal team. Historically, increases in volume of cases in the legal unit were handled through augmenting ESD's legal unit with limited hours from a contracted attorney. Due to the exponential increase in case volume coinciding with the COVID-19 pandemic, and the expectation that the case load will remain high for the foreseeable future, relying on limited hours for a contract attorney is no longer sufficient to support the needs of the Department or the populations it serves. Indeed, historically the legal team handles Petitions for Judicial Review at a rate of about 2% of all denied UI claims. The most cases handled by the office in one year historically pre-COVID was 300. If historical numbers hold the denied UI claims as of the date of this request exceed 200,000 meaning 2% is approximately 4,000 petitions. This number would not include Petitions for Judicial Review filed for the PUA created by the Cares Act, which currently has close to 400,00 total claims. This deputy staff attorney will report directly to ESD's senior attorney and act in support of new and ongoing cases.

E239	EFFICIENCY & INNOVATION				
	This decision unit requests funding for 1 new permanent position (formerly intermittent). Per Emergency Directive 019, ESD needs to quickly and efficiently ramp up positions to provide an effective level of service to Nevadan's. This new position is needed to support the Employment Security Division's legal team and replaces an existing intermittent position of the same grade. There has been a transition in workload from basic clerical work to legal-specific clerical work. The amount of work being performed and the knowledge of legal standards, terms, and pleading cause additional difficulties with staff retention for an intermittent position. In order to maintain and improve service delivery through ESD's Office of Legal Counsel, the division is requesting this position to be permanent. The consequence of not increasing staff expertise and retention is monumental. If this position remains intermittent, the division will continue having difficulty with staff retention and recruitment, which puts ESD's Office of Legal Counsel at risk of increasing backlog. [See Attachment]

E240	EFFICIENCY & INNOVATION				
This decision unit requests one position in ESD's office of legal counsel be reclassified (downgraded) from a Legal Research Assistant 1 to a Legal Secretary 2. Per Emergency Directive 019, ESD needs to quickly and efficiently ramp up positions to provide an effective level of service to Nevadan's. The duties of this position do not rise to the level of a Legal Research Assistant 1. Previously, the incumbent was responsible for drafting briefs, researching case law, drafting attorney responses, deciding if the case warranted a motion to dismiss and drafting the documents if required. The position also previously determined which matters were required to be set forth for oral arguments or other hearings and before which judge. The current role of this position is more geared toward proofreading and verifying the work of the attorney, rather than creating original documents. The position does not do legal research or compiling of legal records and there is not any paralegal work being done. The amount of judgment required in the current version of this position has been greatly reduced, but does still require the ability to understand legal terms and processes. There is an increasing need for properly classified support because case loads have risen dramatically and are expected to increase based on the unprecedented increase in UI claims due to the COVID-19 pandemic. The failure to reclassify this position will result in not being able to properly distribute work to employees of ESD Legal. The consequence of not correcting the position classification is that ESD will continue to face workload distribution, recruitment, and retention challenges related to the incorrectly classified position. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 4821 PERS - PUBLIC EMPLOYEES' RETIREMENT SYSTEM

The purpose of the Public Employees' Retirement System of Nevada is to provide public workers and their dependents with a retirement program that provides a reasonable base income for retirement or for periods where a disability has removed a worker's earning capacity. Additionally, it is to encourage those workers to enter into and remain in government service for such periods of time to give public employers and the people of the State of Nevada the full benefit of their training and experience. Statutory Authority: NRS 286.110.

03	IN-STATE TRAVEL				
	PERS staff members travel within the state to meet with agency representatives as well as members of PERS. The purpose of these types of meetings is to train agency personnel and give information to our members about the Retirement System. Other in-state travel consists of items such as PERS Board meetings (five to six Executive staff attend all meetings), conferences, member counseling, Police/Fire Coverage interviews and agency audits.

26	INFORMATION SERVICES				

The information management strategy of this agency is an integrated system supporting PERS business objectives as outlined in the agency's Strategic Plan. PERS' Information Technology (IT) division supports two Carson City offices, one Las Vegas office, and one Disaster Recovery site. All the locations are interconnected with dedicated fiber and interfaced in a way that all users in Carson City and Las Vegas have connectivity to the PERS computer system. PERS IT also provides Data, Help Desk, Networking/Security, and Programming services to the internal staff and other stakeholders.

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4862 HHS-WELFARE - ENERGY ASSISTANCE PROGRAM

The mission of the Energy Assistance Program (EAP) is to assist eligible Nevada citizens in meeting their heating and cooling needs. The EAP provides payments for eligible households, which can be applied to either their heating or cooling providers, or split between the two. In addition, the EAP program provides arrearage assistance to eligible households affording them the opportunity to use their annual EAP benefit allotment as a subsidy to meet monthly heating/cooling costs. EAP payment funding is provided by the Low Income Home Energy Assistance block grant and through the Fund for Energy Assistance and Conservation (budget account 6031), which was created as a result of legislation approved during the 2001 Legislative Session to collect a Universal Energy Charge from certain electric/gas utilities.

Statutory Authority: NRS Chapters 422A and NRS 702.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for 47 employees and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
3340	UNIVERSAL ENERGY CHARGE The Universal Energy Charge is collected by the Public Utilities Commission (PUC) from gas and electric companies via a tax established to assist low income Nevadan's with their energy needs. The Division is appointed as the administer of the fund in budget account (BA) 6031, Universal Energy. The Division is allowed 75% of the total funding available in BA 6031. The other 25% is distributed to the Housing Division, Weatherization Program. This revenue allocates funding to budget accounts 3228, and 3233 based on the Division's federally approved Public Assistance Cost Allocation Plan (PACAP) and to budget account 4862 based on a split between UEC and LIHEA block grant funds ensuring at least 90% of the LIHEA funds are expended each year. This revenue funds all categories within this budget account. See attached for the Public Utility Commission's projected UEC collections through SFY 2023. Statutory Authority: NRS 422A and NRS 702. [See Attachment]	8,566,381	8,294,365	8,443,089	8,470,678
3580	FEDERAL GRANT This represents the Federal Corona-virus Aid, Relief, and Economic Security Act, Low-Income Home Energy Assistance grant (CFDA# 93.568) awarded through the Department of Health and Human Services, Administration for Children and Families. This funding is being used to assist eligible households with their increased energy burden during stay-at-home orders which have occurred or are occurring through the COVID 19 pandemic. This grant is 100% federal funding used to fund category 17. See attached for the current Notice of Grant award. [See Attachment]	3,039,410	0	3,039,410	3,039,410
3581	LIHEA GRANT The Federal LIHEA block grant (CFDA 93.568) is received annually from the Federal Department of Health and Human Services, Administration for Children and Families. These funds help low-income households pay for heating and cooling costs, crisis assistance, and weatherization assistance for households with incomes at or below 150% of poverty. Up to 15% of the funds can be allocated to the Weatherization program under Business and Industry (B&I) if the Division of Welfare and Supportive Services is meeting the intent of the program to get all households as close to the median energy burden as practicable; historically, the Division has allocated 5% to B&I. LIHEA funding can be applied to eligible households' heating, including oil and propane, or cooling providers or split between the two. The Division can carry forward up to 10% of the block grant to the next grant year. This revenue funds all categories within this budget based on a split between LIHEA and UEC funds ensuring at least 90% of LIHEA funds are expended each year. See the Notice of Grant Award attached to this line item. [See Attachment]	15,330,592	13,260,161	15,066,202	15,079,185

E805	CLASSIFIED POSITION CHANGES This request funds the reclassification of two Program Officers to Family Services Supervisors and two Administrative Assistants to Family Service Specialist commensurate with the duties of the positions. The Energy Assistance Program (EAP) is requesting to reclassify two Program Officer I positions to two Family Services Supervisor I. This request is to align the positions more closely with the job duties the position performs. These positions are responsible for planning, organizing and directing the daily activities of eligibility and clerical staff, ensuring the eligibility decisions are made accurately and within the established time frames, supervising and evaluating the performance of the assigned staff, adjusting and assign workloads, and compiling and reviewing statistical data for their units. The Energy Assistance Program (EAP) is requesting to reclassify two Administrative Assistant IV positions to two Family Service Specialist II. The EAP has grown in complexity and size. These reclassification will fill the need to have positions that will train, evaluate and monitor the progress of the Administrative Assistant IV eligibility caseworkers to ensure consistent and efficient case management. [See Attachment]

2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4865 B&I - WEATHERIZATION

The Weatherization Program works in combination with the Federal Department of Energy's Weatherization Grant Program, the state's Universal Energy Charge (tax), other state agencies and the private sector to help low-income families improve energy efficiency for their homes, minimizing utility costs. Most funds are expended through sub-grantees who are carefully trained and monitored in their efforts to test for weather-related air and water leakages in homes and multi-family projects of low income families. Once a dwelling unit is determined to need specific assistance, insulation, windows, doors, heaters or water heaters are procured and installed by licensed contractors. The staff conduct quality control audits, training programs and assist in outreach efforts. Statutory authority: NRS 702.250.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for three positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized. [See Attachment]				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	2,372,776	3,109,145	3,094,812	5,045,118
2512	BALANCE FORWARD TO NEW YEAR	-3,109,145	0	0	0
2520	FEDERAL FUNDS FROM PREVIOUS YEAR	0	0	0	0
3340	UNIVERSAL ENERGY CHARGE The Fund for Energy Assistance and Conservation was created by NRS 702.250, and is administered by the Welfare Division. NRS 702.270 authorizes the Housing Division to receive twenty-five percent of the money in the fund to provide energy conservation as well as weatherization and energy efficiency programs to eligible households. The UEC revenue worksheet we are provided is an estimate based on projected energy usage. Vacancies and actual energy use will cause the variance between what is projected and the actual revenue received. There is also a timing factor, as illustrated on the worksheet, for when the revenue is actually dispersed by the awarding entity. [See Attachment]	3,295,025	3,373,744	3,593,474	3,632,444
3500	DOE GRANT FUNDS Department of Energy (DOE) Federal grant for weatherization and energy conservation. The Division has been receiving these grant funds each year since 1976. While it's impossible to predict what the federal budget might entail, it is reasonable and expected to continue to receive these funds in the next biennium. [See Attachment]	889,431	1,016,157	1,509,219	1,509,219
4668	TRANSFER FROM CONSERVATION CARES Act transfer for reimbursement.	432	0	0	0
4669	GOE HERO FUNDS Grant received from the Governor's Office of Energy to fund an inter-local energy efficiency program for senior citizens as per NRS 701a.450. 4,910,000 (Current amend) - 1,950,000 (previous amend) = 2,960,000/4yrs (7/1/18-6/30/21) = 740,00 [See Attachment]	456,242	750,000	750,000	750,000
4670	GOE EMPLOYEE ENERGY FUNDS State Employee Energy Efficiency Loan Program. Interlocal agreement expired 6/30/20 and will not be renewed per the Governor's Office of Energy. [See Attachment]	32,909	350,000	0	0

Budget Account: 4867 GOED - PROCUREMENT OUTREACH PROGRAM

The Procurement Outreach Program budget houses the Nevada Procurement Technical Assistance Center (PTAC), which provides assistance to Nevada businesses to enable them to identify potential contractual opportunities with federal and/or state and local governments and government prime contractors and to obtain or perform under contracts with these entities. Specialized assistance from the PTAC may include: locating marketing opportunities for Nevada businesses; educating clients about electronic commerce with government entities; assisting with various registrations and certification requirements; and bid/proposal preparation for submission to government entities. The result is creating jobs for Nevadans through businesses successfully contracting with the government. This will bring federal funding to the state and keep local tax dollars in Nevada. Statutory Authority: NRS Chapter 231 and Title 10 USC Chapter 142.

	The program covers the entire state and staff must travel to call on clients and present seminars throughout the state. Travel costs are for professional staff to call on clients, federal procurement offices and prime contractors, conduct seminars, workshops and make presentations on federal procurement in compliance with our cooperative agreement with the Defense Logistics Agency. Close contact and coordination between POP offices in Northern and Southern Nevada must be maintained in order to assist Nevada firms who wish to bid and perform federal contracts.

Budget Account: 4868 GOE - OFFICE OF ENERGY

The mission of the Governor's Office of Energy is to ensure the wise development of the state's energy resources in harmony with local economic needs and to position Nevada to lead the nation in renewable energy production, energy efficiency, and the exportation of energy. The office implements the laws of the state as defined in Nevada Revised Statutes 701 and 701A; manages energy-related programs; facilitates cooperation between key stakeholders; advises the Governor on energy policy; and collaborates with our local, regional, and federal partners to ensure a reliable and sustainable clean energy system.

Line Item Detail & Summary
2021-2023 Biennium (FY22-23)

Section A1: Line Item Detail by GL

Budget Account: 4869 GOE - RENEWABLE ENERGY ACCOUNT

The Renewable Energy Fund was established in 2009 to receive from Nevada counties 45 percent of property taxes paid where an abatement had been granted to qualified renewable energy projects. In 2013, the transfer from the counties of the 45 percent of the property taxes paid was eliminated. This funding source will continue to be available until the associated abatement projects (13 projects) expire. This account shall be interest-bearing and the interest and income earned on the money must be credited to the fund. Statutory Authority: NRS 701A.300 through 701A.450.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

Budget Account: 4875 GOE - RENEWABLE, EFFICIENCY, CONSERVATION LOAN

The Renewable Energy, Efficiency and Conservation Loan account was established in 2009 for the purpose of providing short-term, low-cost loans to developers of renewable energy projects, renewable component manufacturers, energy efficiency, and energy conservation projects. These loans serve as a bridge financing option to provide funding for various startup costs associated with a project. Statutory Authority: NRS 281.129.

20	U. S. CRIME VICTIMS (VOCA)				
Crime Victim Assistance is authorized under 42 U.S.C. 10603(a); The federal grant provides states with funds to support those services, activities, and costs that are directly related to the emotional healing and recovery of crime victims. Funds must be used to serve victims in three priority categories: 1) Sexual Assault, 2) Domestic Abuse, and 3) Child Abuse. Additionally, funds must be used to fund "Previously Underserved" priorities other than "priority" category victims. Victims of Crime funds are intended for direct services to victims and may be used to support personnel who serve as advocates or provide treatment. 20	U. S. CRIME VICTIMS (VOCA)				
Crime Victim Assistance is authorized under 42 U.S.C. 10603(a); The federal grant provides states with funds to support those services, activities, and costs that are directly related to the emotional healing and recovery of crime victims. Funds must be used to serve victims in three priority categories: 1) Sexual Assault, 2) Domestic Abuse, and 3) Child Abuse. Additionally, funds must be used to fund "Previously Underserved" priorities other than "priority" category victims. Victims of Crime funds are intended for direct services to victims and may be used to support personnel who serve as advocates or provide treatment. Section A1: Line Item Detail by GL

Budget Account: 4895 HHS-DCFS - VICTIMS OF CRIME

The Victims of Crime Program (VOCP) provides financial assistance to eligible victims who sustain injuries in a violent crime committed in Nevada. The VOCP pays hospital bills, medical and dental treatment, mental health counseling, lost wages, funeral costs, and other crime-related expenses. Program revenues are derived from fines and penalties imposed by the courts in criminal proceedings.
Statutory Authority: NRS 217.010.

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
B000	BASE				
	This request continues funding for seven positions and associated program operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.				
REVENUE					
2511	BALANCE FORWARD FROM PREVIOUS YEAR	6,659,411	4,293,898	2,442,180	2,889,256
2512	BALANCE FORWARD TO NEW YEAR	-4,293,898	0	0	0
3460	FED CRIME VICTIMS Crime Victim Compensation Grant, DFSA 16.576. Up to five percent of each year's grant award can be used for administrative expenses such as travel, operating, and equipment. The remaining 95 percent is associated with payments to victims (category 10). This grant is a formula grant based on what the state spent on behalf of crime victims two federal fiscal years previously. Department of Justice (DOA) collects data regarding what the state has paid on behalf of crime victims less grant funds and any recoveries and/or refunds. Approximately 60 percent of the balance will fund the grant. The grant award for state fiscal year 2020 is \$2,252,000 and is projected for FY22-23. [See Attachment]	0	1,068,000	2,252,000	2,252,000

Item No	Description	Actual 2019-2020	Work Program 2020-2021	A00 Year 1 2021-2022	A00 Year 2 2022-2023
	The AEAP grant from the Department of Justice, Office for Victims of Crime, allows direct service providers to respond to the emotional and physical needs of crime victims, assist primary and secondary victims of crime to stabilize their lives after a victimization, assist victims to understand and participate in the criminal justice system, and provide victims of crime with a measure of safety and security. The Division of Child and Family Services (DCFS) is the State's Victim of Crime Act (VOCA) grant recipient with collaborative relationships with VOCA recipients including the Nevada Victims of Crime Program (VOCP), that provides crime victim compensation. The AEAP funding was subawarded to VOCP to support victims' claims and administrative expenses associated with the Las Vegas Route 91 tragedy. [See Attachment]

Section A1: Line Item Detail by GL

Budget Account: 5030 DCNR - HISTORIC PRES - COMSTOCK HISTORIC DISTRICT

The Comstock Historic District Commission's mandate is to encourage preservation of the Comstock Historic District, one of the nation's largest and most significant historic landmarks. It is also one of the most visited historic sites in the state, second to Hoover Dam. The commission issues construction permits, educates the public, and promotes special programs. The commission considers requests for Certificates of Appropriateness, which property owners are required by statute to obtain before initiating exterior changes to existing structures or constructing new ones. The commission gives guidance to federal agencies working within the district and provides public education focused on historic resources. Statutory Authority: NRS 384.

E720 NEW EQUIPMENT
This request is for a Cisco Meraki router to be installed at the Virginia City (VC) State Historic Preservation Office (SHPO), which will allow the computer equipment at that facility to be connected to the State network.
This connectivity will provide the VC SHPO staff direct access to SHPO's file servers and printers located in the Carson City and Las Vegas offices. It will also provide IT staff additional capabilities for remote support as well as ensuring PCs meet IT security policies such as confirming up to date antivirus software is installed and running, operating system and software patches are being applied and known malicious web sites are being blocked. Having the Virginia City computer equipment on the State's network will also ensure that the PCs are standardized, meaning that they will have all the same settings, web filtering and file access as all other SHPO staff PCs located in both the Carson City and Las Vegas offices.
