January 16, 2019

Honorable Members of the Senate and Assembly:

Transmitted herewith is the 2019-2021 Executive Budget for the State of Nevada.

The State of Nevada is resilient. Our economy has rebounded significantly over the past decade, following a prolonged period of challenging economic downturn. We continue to attract new businesses, and our rate of job growth exceeds the national rate, making us one of the fastest growing states in the nation. Nevada's unemployment rate continues to decline, and General Fund revenues are projected to increase over the next biennium. My Executive Budget builds on this momentum and reflects the priorities of my administration in multiple areas, including education, health care and public safety, to ensure we are serving the needs of all Nevadans.

The FY 2019 ending fund balance will provide significant amounts for funding of necessary supplemental and one-shot appropriations, as well as the Capital Improvement Program. I am recommending a total of $64.1 million in supplemental appropriations which are necessary for state agencies to have sufficient funds to complete the current fiscal year, the largest of which is a $36.5 million appropriation to the Distributive School Account. A total of $159.8 million in one-shot appropriations is also recommended in FY 2019 and $4.5 million in FY 2020. And finally, an $88.7 million one-shot appropriation is recommended to support the Capital Improvement Program.

The Economic Forum forecasts a 2.8 percent increase in General Fund revenue in FY 2020 and 3.4 percent in FY 2021. Tax revenues in general increase across the board, including sales and gaming tax collections. Even though the state's revenue sources are growing, significant needs have been identified which must be addressed. My budget retains Nevada's existing revenue structure and recommends continuing two revenue sources as they currently operate. First, a portion of the Governmental Services Tax that is scheduled to sunset on June 30, 2019, is recommended to continue supporting General Fund activities through June 30, 2021. Second, it is recommended that rates under the Modified Business Tax that otherwise are scheduled to decrease on July 1, 2019, be retained at their current levels. In addition, Nevada's Rainy Day Fund is critical to our ability to weather future economic downturns that likely are not a question of if, but when. My budget transfers one percent of projected General Fund revenues to the Rainy Day Fund, totaling approximately $45 million in each year of the upcoming biennium, to implement this statutory requirement going forward. The projected balance for the Rainy Day Fund on June 30, 2021, at the end of the biennium, is approximately $415 million.

The budget also recommends that the 10 percent retail tax on marijuana, which is currently directed to the Rainy Day Fund, be utilized to fund educational-related programs, including a number of school safety initiatives and to serve as an ongoing revenue source for the Governor Guinn Millennium Scholarship program.

Highlights of my Executive Budget include the following:

- A three percent salary increase for all employee groups, including K-12 employees. In addition, there is funding recommended for the employer's share of increased retirement contribution rates effective July 1, 2019;

- Increased funding in K-12 from $36 million per year to approximately $70 million per year to support a weighted funding model under which all students in need of added support are funded and that ensures all schools with students performing within the bottom quartile receive additional funding, regardless of income or zip code;

- Investing $45 million in state support for pre-kindergarten programs to ensure access to quality pre-school development programs;

- State support of $13.5 million in each year of the biennium for Career and Technical education in K-12 to serve an additional 2,000 students;

- State support of $4.5 million per year for teaching supplies, representing an 80 percent increase and increasing the reimbursable amount per teacher from $100 to $180 each year;

- Increased funding for higher education, including $22 million per year for student enrollment growth, a new health and sciences building at the College of Southern Nevada at a cost of $76.7 million, and a new education building at Nevada State College at a cost of $61.9 million;

- Funding for the UNLV Medical School totaling an additional $4.2 million in FY 2020 and $10.1 million in FY 2021 over the base funding of $10.6 million;

- Additional state support of approximately $52.9 million in FY 2020 and $79.5 million in FY 2021 is included for Medicaid and Check-up programs to finance the decreasing percentage of costs paid by the federal government;

- The Executive Budget projects that almost 687,000 individuals will be enrolled in Medicaid by the end of the 2019-2021 biennium, an increase of approximately 5.4 percent over the current population. The budget includes $47 million in FY 2020 and $60 million in FY 2021 for caseload growth in the Medicaid program;

- General Fund support for a Medicaid 1915i waiver of $621,000 in FY 2020 and $1.3 million in FY 2021, which will generate additional federal and other funding totaling $2.6 million in FY 2020 and $5.2 million in FY 2021. These funds will be utilized to provide tenancy support services for vulnerable individuals;

- General Fund support for a Medicaid 1115 waiver of $3.9 million in FY 2020 and $4.9 million in FY 2021, which will generate additional federal funding of $14.2 million in FY 2020 and $17.5 million in 2021. These funds will be utilized to continue growth in the continuum of care to improve health outcomes through Certified Community Behavioral Health Clinics;

- Increases in Medicaid rates for providers in Neonatal and Pediatric Intensive Care Units recommended at $9.8 million in state support and $17.9 million in federal funds over the biennium to make sure we are taking care of our youngest, most vulnerable citizens;

- Approximately $823,000 in additional General Fund support for the Meals on Wheels program in each year of the upcoming biennium to address waiting lists and increase the funding by 50 cents per meal.

- An additional $5.3 million in state and federal funding over the biennium to address waiting lists for services related to the Autism Treatment and Assistance program;

- $3 million per year in state funds to support enhanced family planning services statewide;

- For the Silver State Health Insurance Exchange, additional funding for the state to contract for an integrated online health insurance exchange to allow Nevada to move off the federal facilitated exchange;

- A new program to make $10 million available per year in state tax credits for the creation or preservation of affordable housing in Nevada. Tax credits are anticipated to be granted beginning in FY 2021;

- Funds for 52 new positions in the Department of Corrections to support transportation and out of institution medical supervision, and an additional five percent in compensation to support staff recruitment and retention at Ely State Prison and conservation camp;

- Expansion of the pilot program created in 2017 to enhance education and training of offenders utilizing the College of Southern Nevada to include Truckee Meadows Community College and Western Nevada College at a cost of approximately $375,000 in each year of the biennium;

- Provide two additional positions in the Office of Veterans Services to expand support services to veterans;

- Increase funding from approximately $1.3 million per year to approximately $4.6 million per year to support the problem gaming program; and

- Establish the Office for New Americans under the Governor's Office.

The Executive Budget represents a strong approach to serving our state's needs in key areas, including education, health care, public safety, and job growth, without any new taxes. However, there remains a great deal of work to do to ensure that Nevada is providing the essential services and opportunities for its citizens. I look forward to working with the Nevada Legislature and citizens throughout Nevada on these issues.

Sincerely,

Governor Steve Sisolak

# Tax Abatements Programs Fiscal Years 2017 and 2018

## Nevada Governor's Office of ECONOMIC DEVELOPMENT

### Summary of Programs:

*Abatement of Taxes on Business:*

The Nevada Governor's Office of Economic Development (GOED) was created during the 2011 Session of the Nevada Legislature through a collaboration of the Nevada Governor's Office and the Leadership of the Nevada State Senate and State Assembly. GOED promotes a robust, diversified and prosperous economy in Nevada, attracting new business and facilitating community development, stimulating business expansion and retention, encouraging entrepreneurial enterprise. In an effort to incentivize business development in Nevada, GOED administers multiple tax abatement programs.

The programs outlined below reflect the requirements and the abatements offered to eligible businesses. GOED reviews the abatement applications, conducts public hearings to determine eligibility, and reviews annual compliance reports after abatements have been granted.

The Executive Director and the GOED Board have approved 81 tax abatement applications in the last two fiscal years. Companies approved represent a variety of companies in multiple sectors and reflect the goals of the office as set forth in the State Plan for Economic Development. Those companies testify before the GOED Board that the incentive programs are an important factor in the company's decision to locate or expand their business in the State.

### Summary of Each Incentive:

*Local Sales and Use Tax Abatement (NRS 374.357, NRS 360.750):*

A partial abatement of sales and use taxes is available to qualified companies that locate or expand their business in Nevada. The tax abatement is on the gross receipts from the sale, and the storage, use or other consumption, of eligible capital equipment. The sales and use tax rates vary by county within Nevada. The abatement reduces the sales and use tax rate to 2%. The approved business is eligible for tax abatements for a two-year period beginning the date the abatement becomes effective.

*Modified Business Tax Abatement (NRS 363B.120, NRS 360.750):*

A partial abatement of the Modified Business Tax is available to qualified companies that locate or expand their business in Nevada. The current tax imposed on each employer is at the rate of 1.475% on taxable wages over $50,000 in a quarter. A business may qualify for a partial abatement of up to 50% of the amount of the business tax due during the first four years of operations.

For a new company, the abatement of the Modified Business Tax applies to the number of new employees stated in its application. For an expanding business, the abatement does not apply to existing employees of the business, but does apply to the number of new employees directly related to the expansion.

### *Personal Property Tax Abatement (NRS 361.0687, NRS 360.750):*

A partial abatement from personal property tax is available to qualified companies that locate or expand their business in Nevada. This tax abatement can be up to 50% of the tax due for 10 years beginning from when the abatement becomes effective. The applicant must apply for abatement not more than one year before the business begins to develop for expansion or operation in Nevada.

A partial abatement of personal property taxes applies only to the same list of machinery and equipment eligible for the sales and use tax abatement allowed under NRS 374.357. Property tax rates vary by taxing district within Nevada.

### *Real Property Tax Abatement for Recycling (NRS 701A.210, NRS 360.750):*

A partial abatement of real property (land and buildings) tax is available for businesses and facilities using recycled material that have as a primary purpose the conservation of energy or the substitution of fossil sources for other sources of energy. To qualify, the business must be in the primary trade of recycling at least 50% of raw material or an intermediate product onsite; or converting the energy derived from recycled material (specifically, industrial, domestic, agricultural or municipal waste) into electricity. Qualifying businesses can receive a partial abatement of up to 50% of the tax due on real property for not more than 10 years beginning from when the abatement becomes effective.

### *Aviation Tax Abatement (NRS 360.753):*

Partial abatements from Personal Property and Sales & Use Taxes are available to companies that locate or expand their business in Nevada. The personal property tax abatement can be up to 50% for 20 years on the taxes due on tangible personal property, and the sales & use tax abatement reduces the applicable tax rate to 2% for a similar 20 year period, a near 75% reduction in most jurisdictions.

Note: The Sales & Use tax abatement excludes aircraft purchase.

Eligible Goods: for sales & use tax imposed on the purchase of tangible personal property used to operate, manufacture, service, maintain, test, repair, overhaul or assemble an aircraft or any component of an aircraft. For personal property tax imposed on an aircraft and the personal property used to own, operate, manufacture service, maintain, test, repair, overhaul or assemble an aircraft or any component of an aircraft.

### *Data Center Tax Abatement (NRS 360.754):*

A partial abatement from personal property tax and sales and use tax are available to data center companies that locate or expand their business in Nevada. The personal property tax abatement can be up to 75% of the taxes due for 10 or 20-year abatement periods. Abatements for sales and use tax are for taxes imposed on the purchase of eligible machinery or equipment. The abatement reduces the applicable tax rate to 2% for a period of 10 or 20 years, a near 75% reductions in most jurisdictions. Abatements apply to collocated businesses of the data center.

Note: for fiscal year 2015-2016 any partial abatement must not include an abatement of the local school support tax imposed by chapter 374 of NRS.

Eligible Goods: personal property located at the center. From the tax imposed in the gross receipts from the sale, and the storage, use or other consumption, of eligible machinery or equipment for use at a data center. Machinery or equipment necessary to and specifically related to the business of the data center or collocated business. The term does not include vehicles, buildings or the structural component of buildings.

### *Tax Abatements for a Capital Investment of at least 1 Billion (NRS 360.893):*

A partial abatement from personal property tax, modified business tax, real property tax, and a full abatement from sales and use tax are available to companies that locate or expand their business in Nevada and have a minimum capital investment of 1 billion dollars within 10 years. The personal property, modified business tax, and real property tax abatement can be up to 75% of the taxes due for a 10-year abatement period. Full abatements for sales and use tax are for taxes imposed on the purchase of eligible personal property and construction materials for a 15-year period. As a condition of approving a partial abatement of taxes pursuant to NRS 360.880 to 360.896, inclusive, the Executive Director of the Office of Economic Development, if he or she determines it to be in the best interests of the State of Nevada, may require the lead participant to pay at such time or times as deemed appropriate, an amount of money equal to all or a portion of the abated taxes into a trust fund in the State Treasury to be held until all or a portion of the requirements for the partial abatement have been met. Interest and income earned on money in the trust fund must be credited to the trust fund. Any money remaining in the trust fund at the end of a fiscal year does not revert to the State General Fund, and the balance in the trust fund must be carried forward to the next fiscal year.

### *Tax Abatements for a Capital Investment of at least 3.5 Billion (NRS 360.965):*

A full abatement from personal property tax, modified business tax, real property tax, and sales and use tax are available to companies that locate or expand their business in Nevada and have a minimum capital investment of 3.5 billion dollars within 10 years. The personal property, modified business tax, and real property tax abatement can be up to 100% of the taxes due for a 10-year abatement period. Full abatements for sales and use tax are for taxes imposed on the purchase of eligible personal property and construction materials for a 20-year period.

### *Catalyst Fund/ Transferable Tax Credits (NRS 231.1577):*

Created in 2011, Nevada's Catalyst Fund incentivizes the expansion or relocation of businesses that will quickly result in the creation of high-quality, primary jobs in Nevada. This fund offers a tool to Regional Development Authorities to assist their efforts to close deals with viable companies that will enhance the state's economic sectors and offer stable jobs with good pay and benefits.

The new program will involve the issuance of Transferable Tax Credits to companies approved via NRS 231.1577.

### *Transferable Tax Credits for Film and Other Productions (NRS 360.758 - 360.7598):*

A transferable tax credit is available to production companies producing a film, television series, commercial, music video or other qualified production in Nevada. A production may qualify for a transferable tax credit of up to 25% of the qualified direct production expenditures incurred in Nevada if at least 60% of the total qualified expenditures are incurred in Nevada. The applicant must spend at least $500,000 in Nevada and apply for the transferable tax credit not more than 90 days before the commencement of principal photography.

### *Workforce Innovations for a New Nevada (WINN) (NRS 231.141 – 231.152):*

The Workforce Innovations for a New Nevada (WINN) Account was established as a result of the approval of Assembly Bill 1 of the 29th Special Session of the Nevada Legislature. The legislation requires the

Governor's Office of Economic Development (GOED) to develop and implement programs to provide customized workforce development services (defined in the bill as workforce recruitment, assessment and training) to companies that create and expand businesses in the state and relocate businesses to the state. The legislation was inspired by the need for customized workforce training in advanced manufacturing and related skills to serve the needs of emerging industries in the state. Statutory Authority: NRS 231.141 through NRS 231.152.

# Tax Abatements Programs
# Fiscal Years 2017 and 2018

## Nevada Governor's Office of ENERGY

The mission of the Governor's Office of Energy is to ensure the wise development of Nevada's energy resources in harmony with local economic needs and to position Nevada to lead the nation in renewable energy production, energy conservation, and the exportation of energy.

### Summary of Programs:

*Renewable Energy Tax Abatements:*

The Governor's Office of Energy administers Nevada's Renewable Energy Tax Abatements (RETA) program in an effort to incentivize the development of renewable energy in Nevada. Renewable energy development is a way to utilize Nevada's domestic energy resources, create jobs, and bring large investments into the State. The renewable energy projects in the program must make a capital investment of at least $3 million or $10 million, dependent on the location of the project, and employ a minimum of 50 Nevadans during project construction.

The RETA program awards partial sales and use tax and partial real and person property tax abatements to eligible renewable energy facilities. The partial abatement of real and personal property taxes is for a duration of the 20 fiscal years immediately following the date of approval of the application equal to 55% of the taxes on real and personal property payable by the facility each year. The partial abatement of local sales and use taxes is for a duration of 3 fiscal years immediately following the date of approval of the application at the rate of 2.6%. The partial abatement taxes must not apply during any period in which the facility is receiving another abatement or exemption from taxes.

The Governor's Office of Energy reviews the partial tax abatement applications, conducts public hearings to determine eligibility, and reviews annual compliance reports after tax abatements have been granted.

The Governor's Office of Energy has approved a total of 37 tax abatement applications since 2011, for large scale solar photovoltaic, solar thermal, biomass, geothermal, and wind projects throughout the State, including one in fiscal year 17 and five in fiscal year 18. To date, the total benefit to the State of Nevada including capital investment, payroll and taxes paid, is $7.2 billion. The total amount abated in property taxes and sales and use taxes is $817 million. This represents approximately a 9 to 1 return on investment for the State of Nevada.

## Nevada Governor's Office of ENERGY

### Summary of Programs:

*Green Building Tax Abatements*

The Governor's Office of Energy (GOE) administers the Green Building Tax Abatement (GBTA) program based on criteria set forth in the Leadership in Energy and Environmental Design (LEED) or Green Globes rating systems from the U.S. Green Building Council (USGBC) or the Green Building Initiative (GBI). The LEED and Green Globes rating systems are based on a set of standards for the environmentally sustainable design, construction, and operation of buildings.

The program began in 2007 as an incentive for business owners to improve the energy efficiency of new and existing buildings. In 2013, the State established new standards for how the program is administered and partial abatements are awarded.

To qualify for the partial tax abatement, applicants must earn a minimum number of points for energy conservation, which is determined by the Energy Star score or equivalent score, to meet the Silver Level or higher through the LEED rating system or two globes or higher through the Green Globes rating system.

The partial tax abatements range from 25% to 35% for a period of 5 to 10 years (depending on the certification level) on the portion of the taxes (other than taxes for public education) imposed pursuant to Chapter 361 of the Nevada Revised Statutes. The percentage and term of the partial tax abatements can be found in Nevada Administrative Code 701A.280.

There are 124 buildings in Nevada that are currently receiving a partial tax abatement from the GBTA program. The buildings range from existing, new construction, and core and shell. These structures include a wide range of building types: hotel casino resorts, retail shopping centers, health care facilities, manufacturing and distribution centers, and restaurants. Of the 124 buildings currently in the program, 27 achieved LEED Silver, 1 achieved 2 Green Globes, 55 achieved LEED Gold, 12 achieved 3 Green Globes, 1 achieved LEED Platinum, and 28 achieved 4 Green Globes.

# Executive Budget Overview

The executive budget is presented in two formats: activities and line-item. The activities format provides some distinct differences from the older line-item presentation and shows an alternative format based on the strategic priorities set by the Governor.

The activities portion of the budget is structured at the core function of government level. Services provided by departments and divisions are aligned to objectives which tie into broader level goals which are tied directly to the eight core functions of government. Work levels and achievements for each activity are assessed using performance measures. Where appropriate, information on the specific populations served by, or generating the need for, the budgeted activity is provided.

The traditional line-item budget has a three-part format with revenue and expenditure detail for each component of Base, Maintenance and Enhancements. This portion of the budget is structured at the department and division level, and this format uses the traditional budget accounts instead of activities.

- Base expenditures are historical amounts, adjusted to reflect current costs of operations.
- Maintenance expenditures are incremental costs of conducting state business to keep pace with increasing demands such as caseload changes or inflation.
- Enhancements are new or expanded programs which seek to increase or improve service levels.

Comparable information for this portion of the budget is demonstrated for last year (Fiscal Year 2017-2018), the work program for the current year (Fiscal Year 2018-2019) and the Governor's recommendations for Fiscal Years 2019-2020 and 2020-2021.

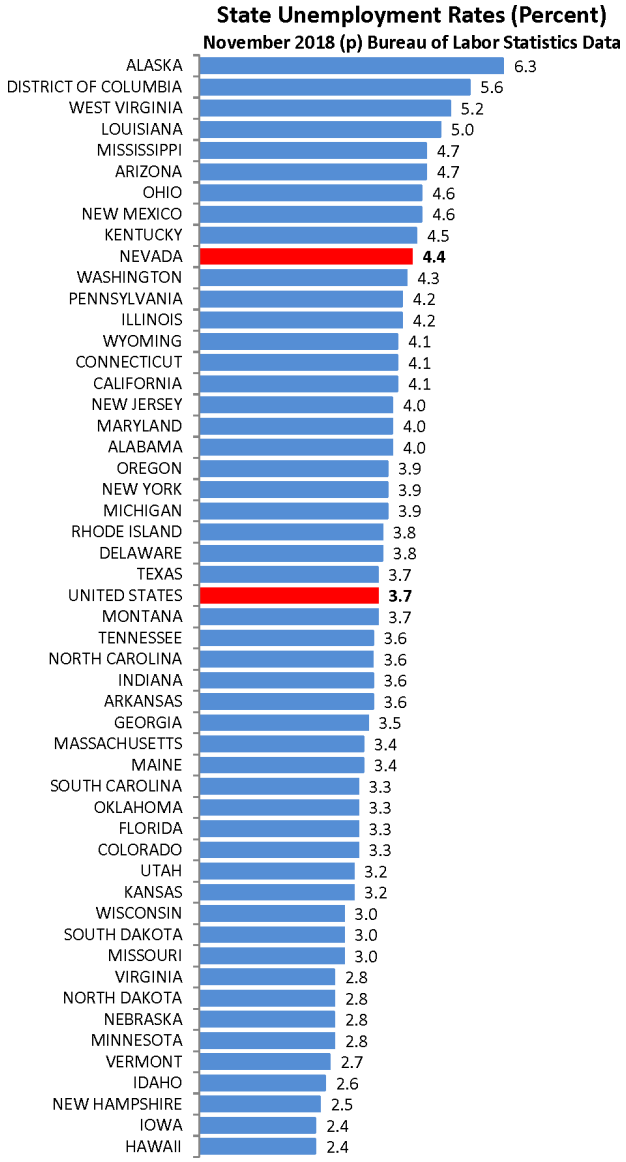
# Economic Overview

## The U.S. Economy at a Glance

- The U.S. economy has seen a lengthy period of growth. The current economic expansion is on track to become the longest ever in U.S. history. The past year's economic growth has been around three percent. The federal tax cuts and increased government spending have created a large economic stimulus in the economy. The U.S. economy is on track to grow at a moderate pace in the near term as it moves toward its natural pace. The economy is facing some uncertainties. The impact of federal tax cuts and spending increases are set to fade toward the end of 2019. The large scale fiscal stimulus has significantly widened the federal budget deficit. Trade disputes, tighter financial conditions, rising corporate debt, and slowing global economic growth continue to be risk factors.
- The strengthening domestic economy has allowed the Federal Reserve to continue the process of normalizing the monetary policy by gradual interest rate increases. The Federal Reserve has signaled a slightly slower path of future short-term interest rate increases, indicating a more data dependent strategy with its future path.
- As of November 2018, the U.S. economy has added 20.2 million jobs since the depths of the recession and the U.S. labor market is on track to generate 2.5 million jobs in 2018. The U.S. average job growth remains solid, near the average for the current recovery and expansion. Since the U.S. first hit a post-recession 12-month average job gain of 200,000 in January 2012, gains have averaged 203,000 jobs per month. Recently, we have seen a rebound from weaker numbers in 2017 and earlier in 2018. The pace of job growth is expected to slow in 2019. The jobless rate, at 3.7 percent, indicates a fairly tight labor market and subsequently, wage gains have accelerated. An unemployment rate this low is indicating the labor market is nearing full employment. In November 2018, wages grew at pace of 3.1 percent from a year ago. Wage growth has increased faster than inflation, increasing consumers' real spending power.
- The national housing market has improved in tandem with the economy. The Federal Housing Finance Agency reports that as of the third quarter of 2018, home prices are up 6.3 percent compared with the same quarter last year. A major constraint in the housing market has been the low inventory level of homes. Home prices have been rising faster than inflation and wages. While this trend has helped bring millions of homeowners back from negative equity, it has also reduced housing affordability. The pace of growth in home prices seems to be stabilizing in many parts of the country. Higher mortgage interest rates have caused some concern for the housing market.
- Consumer confidence is an important indicator of near-term economic growth because consumer spending accounts for about two-thirds of U.S. economic activity. Consumer confidence remains high and has risen to pre-financial crisis levels; this is a sign consumers continue to support economic growth. In the near term, increased wage growth will support a steady pace of spending. In the third quarter of 2018, consumer spending expanded at a 3.5 percent clip according to the Bu-

reau of Economic Analysis' December report. Recent volatility in the financial markets and growing economic uncertainties are potential headwinds for consumer sentiment.



## Overview of the Nevada Economy

- The Silver State has seen a significant turnaround from the economic landscape witnessed eight years ago. Our state has seen widespread improvement in its economy and the outlook is positive. In many ways, Nevada's economy has recovered better than many other states.
- Nevada is highly sensitive to the health of the national economy because the state's economy is very reliant on consumer driven sectors. If domestic and global headwinds were to become a concern and less supportive of growth in the U.S. economy, those could have potential negative impacts on our state.
- Even though gaming, hospitality and retail-oriented sectors will continue to support the state's economic growth going forward, other industries are starting to play a greater role, proven by a diverse group of companies either relocating or opening operations in Nevada. The Tesla Gigafactory is just one of several examples of development in our state. Significant growth is seen in advanced manufacturing, logistics, technology, and e-commerce.
- Gaming revenue was up 2.9 percent through the first eleven months of calendar year 2018. Growth in gaming revenue has been less robust since the Great Recession. As gaming has become more available throughout the U.S., the Southern Nevada tourism industry has diversified its offerings by expanding its amenities beyond gaming with world class entertainment, dining and high-end shopping. In fact, non-gaming revenue now makes up about two thirds of all gaming industry revenue. Trends in gaming revenue are highly dependent on visitation. Visitor volume has softened a little. Some of that has been attributed to a lower room inventory on the Las Vegas

strip mostly due to several remodeling projects. In 2018, Las Vegas is on pace to receive nearly the same amount of visitors as in 2017. Nevada is a major tourism destination and people will continue to visit our state as long as they have disposable income to spend and consumer confidence remains high.

- Taxable sales have increased 100 straight months and are up 5.0 percent through the first ten months of calendar year 2018. Growth in taxable sales has been weaker than what it was prior to the Great Recession. Part of the explanation is that Nevada's taxable sales base is eroding due to reduced spending on taxable goods vs. increased share of spending on services that are not captured by this statistic. In addition, low overall inflation and periods of lower energy prices combined with slower recovery in wages probably have kept retail prices lower as well.
- On the employment front, we have seen consistent and widespread growth. Nevada's employment growth continues to outpace not just the nation but many other states. As of the second quarter 2018, payroll employment growth in the private sector is the third fastest in the country. As of November 2018, the unemployment rate is at 4.4 percent. Even though Nevada's unemployment rate is the 10th highest in the nation, it is the lowest rate in nearly eleven years and is lower than our state's long-run average.
- Nevada continues to show momentum in overall economic performance reflected in the value of final output produced within our state. Nevada's nominal gross domestic product (GDP) grew at a faster clip than the nation according to the latest second quarter of 2018 data. Nevada's nominal GDP grew at 4.1 percent compared to 2.9 percent in the nation as a whole. Among other states, Nevada's second quarter nominal GDP growth ranks fourth best in the nation.
- Nevadans have seen improvement in their personal income and wage growth. In the third quarter of 2018, personal income was up 5.6 percent relative to a year earlier, the third fastest growth nationwide. Wage and salary disbursements are up 5.3 percent relative to a year ago, ranked sixth in the country.
- Nevada's population growth reflects the overall health of the economy. According to the Census Bureau, Nevada's population crossed the three million mark in 2018, a 2.1 percent increase and the fastest growth in the nation along with Idaho. Increased population is just another sign that Nevada continues to recover from the recession. Over the next biennium, the state demographer projects Nevada's total population to increase by about 120,900, 60 percent of which will come from net migration. The state demographer estimates that Nevada's population will approach 3.2 million by the end of the 2019-2021 biennium.
- Constrained housing supply and steady housing demand aided by solid job growth have been some of the major drivers behind double-digit growth in home price appreciation over the prior year. The Federal Housing Finance Agency Home Price Index showed that in the third quarter of 2018 home prices were up 15.0 percent in Nevada compared to the same quarter in 2017, the second largest increase in the nation. Going forward, home price inflation is expected to stabilize and eventually increase more in line with income growth. There is some worry about rising interest rates and how it may crimp housing affordability, becoming a headwind for the real estate market.
- The state's General Fund revenues have increased along with the improving economy. After accounting for the effect of the estimated tax credits that may be taken against certain General

Fund revenues, total net revenue in FY 2018 was $4,018.7 million, up 3.6 percent from the previous fiscal year. Year-to-date in FY 2019, net revenue is up 1.7 percent.

## Sources of Funding

Nevada's General Fund is the major operating fund of the state. The state also has access to federal funds, the State Highway Fund, and various other resources to support services. However, most specialized funds, such as the State Highway Fund, may be spent only on specific activities. By contrast, there are few restrictions on how money in the General Fund is spent.

The Governor's Executive Budget must be balanced to revenue projections made by the Economic Forum, a group of private economic and financial experts appointed by the Legislature and the Governor. The Forum's General Fund revenue forecasts are binding on the Governor's Executive Budget and on the Legislature's approved budget. On December 3, 2018, the Economic Forum set the revenue projections that the Governor used to construct his recommended 2019-2021 biennial budget. The Economic Forum will reconvene on or before May 1, 2019 to prepare the forecast that must be used for the Legislature's approved budget.

General Fund resources represent 35 percent of total state revenues. Federal funds continue to be increasingly significant in the 2019-2021 biennium and will comprise 39 percent of revenues. The primary driver of federal fund increases remains related to changes and growth in the Medicaid program, as discussed in the Spending Summary Section that follows. State Highway Fund represents 5 percent of revenues and the balance comes from other funding sources.

General Fund sources include taxes; licenses; fees and fines; return of unspent funds, including use of money and property; and transfers from other funds. During the 2019-2021 biennium, sales and use, gaming, modified business and insurance taxes are projected to comprise about 74 percent of total General Fund revenues.

The state's General Fund revenues have increased along with the improving economy. After accounting for the effect of the estimated tax credits that may be taken against certain General Fund revenues, total revenue in Fiscal Year 2017-2018 was $4,018.7 million, up 3.6

percent from the previous fiscal year. Through November 2018, net revenue year-to-date is $1,070.1 million, an increase of 1.3 percent.

Following the significant decline in General Fund revenues starting in the 2007-2009 biennium, the State of Nevada implemented a succession of spending reductions, one-time funding mechanisms and temporary revenue enhancements. Many of the revenue enhancements were extended through actions of the 2011 and 2013 Legislatures to fund needed social service and educational needs of Nevadans. The 2015 Legislature fundamentally restructured the State's taxes by broadening the base and creating new revenue streams to align better with the economy. The Legislature made permanent changes to the business license fee, the commercial recording fee, the modified business tax and the cigarette tax as well as a change to the structure and rate for the live entertainment tax for both gaming and non-gaming establishments.

The 2015 Legislature also implemented two new taxes. The Commerce Tax applies an industry-specific rate on businesses whose Nevada gross revenue in a fiscal year exceeds $4 million. The Commerce Tax generated $143.5 million in Fiscal Year 2015-2016, $197.8 million in Fiscal Year 2016-2017 and $201.9 million in Fiscal Year 2017-2018 and is expected to generate $210.2, $218.1 and $226.9 million in Fiscal Year 2018-2019, Fiscal Year 2019-2020 and Fiscal Year 2020-2021, respectively. The Transportation Connection Tax applies a three percent tax on fares of transportation network companies, common carriers, and taxicabs. The Transportation Connection Tax generated $11.9 million in Fiscal Year 2015-2016, $23.1 million in Fiscal Year 2016-2017 and $21.8 million in Fiscal Year 2017-2018 and is expected to generate $30.6, $29.0, $36.7 million in Fiscal Year 2018-2019, Fiscal Year 2019-2020 and Fiscal Year 2020-2021, respectively. The first $5.0 million in each biennium is committed to the Highway Fund.

The Commerce Tax provides that in an even-numbered fiscal year, if the combined revenues from the taxes imposed by the Modified Business Tax (MBT) and the Commerce Tax exceed the anticipated revenues for those taxes projected by the Economic Forum by more than 4 percent, as adjusted by any legislation enacted by the Legislature that affects state revenue for that fiscal year, the Department of Taxation shall determine the MBT rate for both financial and mining and non-financial entities which would have generated a combined revenue of 4 percent more than the amount anticipated. In Fiscal Year 2017-2018, combined collections came in 10.1 percent above forecast, triggering the MBT rate buy-down for the MBT rates for Fiscal Year 2019-2020, which is scheduled to begin July 1, 2019.

Finally, the 2017 Legislature extended the additional revenue to the General Fund generated from the 10 percent increase in the depreciation rate schedules for autos and trucks used to calculate the Governmental Services Tax (GST). In Fiscal Years 2017-2018 and 2018-2019, 25 percent of the total GST revenue will be deposited into the General Fund. In Fiscal Year 2017-2018 the amount deposited into the General Fund equaled $20.3 million, and in Fiscal Year 2018-2019 the revenue is expected to be $20.9 million.

In order to support the Governor's goals, the Governor recommends the following:

## Previously Enacted Revenue Diversions

- The diversion to the General Fund of the Governmental Services Tax revenues resulting from the 10 percent depreciation schedule should continue with 25 percent of the revenue to be allocated to the General Fund and 75 percent to the State Highway Fund. The transfer to the General Fund sunsets on June 30, 2019. The Executive Budget recommends extending the sunset to June 30, 2021.

## Additional Revenue Reforms

- The MBT rates remain the same, keeping the tax rate for mining and financial institutions at the current 2.0 percent and the tax rate for all other businesses at the current 1.475 percent.
- A new program is recommended utilizing $10 million per year in state tax credits to be used in the creation or preservation of affordable housing in Nevada. Tax credits are anticipated to be taken beginning in Fiscal Year 2021.
- The 10 percent retail excise tax on the sale of recreational marijuana is recommended to be diverted to the new School Safety program and the Governor Guinn Millennium Scholarship.
- The Quarterly Slot Tax will be diverted to the General Fund as unrestricted revenue.
- 0.6 percent of the Gaming Percentage fees will be diverted to programs for prevention and treatment of Problem Gambling.

The actual amounts of previously enacted revenue enhancements and the proposed revenue reforms are listed in the "Statement of Projected Unappropriated General Fund Balance."

# Spending Summary

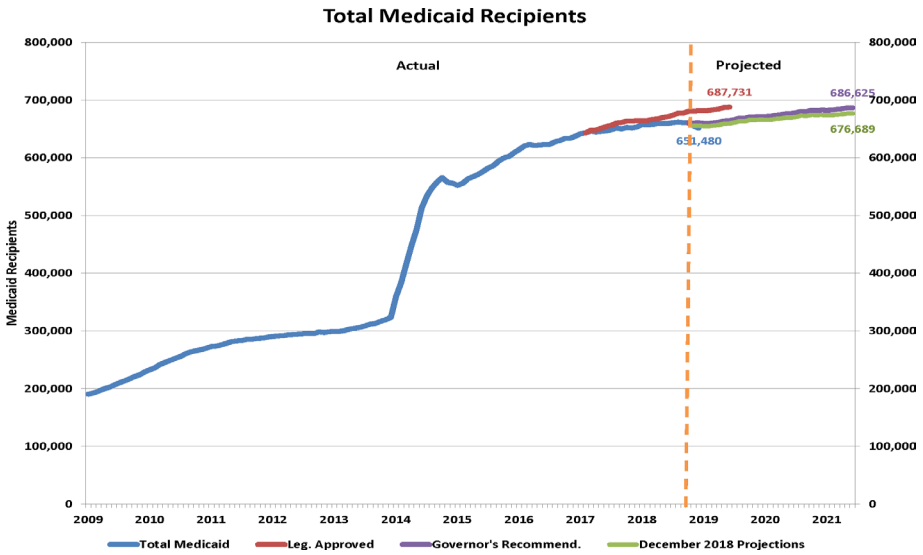
Expenditures for the 2019-2021 biennium total $25.7 billion. This is an increase of approximately $2.5 billion, or 10.89 percent, over the current biennium.

When compared to the 2017-2019 Legislatively Approved budget, General Fund appropriations increase by $898 million or 11.2 percent, while federal funds increase by $490 million or 5.2 percent.

The budget building process was approached with a focus on providing those services necessary to protect the health and safety of our citizens and our natural resources, while making necessary investments to improve education and strengthen our workforce for the Nevada economy.

Caseload measures the change in demand for services based on population. For example, the Department of Education caseload is the number of students enrolled in school districts, charter schools and university schools, while caseload for the Nevada Department of Health and Human Services is the number of Nevadans participating in one or more social service programs.

Medicaid caseloads have been lower than anticipated during the 2017-2019 biennium. As of December 2018, over 651,000 Nevadans are covered by Medicaid compared to the 681,627 projected when the Legislature approved the current budget in 2017. The Executive Budget projects that almost 687,000 individuals will be enrolled in Medicaid by the end of the 2019-2021 biennium, an increase of approximately 5.4 percent over the current population.



The Executive Budget continues the Governor's commitment to economic development by investing in the Knowledge Fund to encourage start-up enterprises in Nevada, and the Workforce Innovations for the New Nevada (WINN) account to develop and implement customized workforce development services for companies that expand in or relocate to Nevada.

The Governor is dedicated to providing and the Executive Budget includes additional resources for elementary and secondary education initiatives relating to English Learners; at-risk students. The budget provides funding for school safety programs; School Resource Officers; Facility Enhancements, Social Emotional and Academic Development

strategic planning; and additional licensed mental health workers in schools. The budget also provides additional funding for Teacher School Supply Reimbursements and increased funding for Career and Technical Education. The budget also provides continued funding for low performing schools; early learning and literacy; technology in the classroom; greater access to social workers and mental health services in schools; professional development; and pathways to improve the teacher pipeline.

In response to the environment we live in, the Executive Budget includes funding for water conservation incentive and monitoring programs to inventory and protect this vital natural resource throughout the state. The budget also provides additional funding for fire suppression activities.

In order to promote the health and well-being of Nevadans, the Executive Budget provides funding for several health and human services initiatives while recognizing efficiencies gained through automation of processes. The budget includes an increase in funding for Family Planning and Women's Health to improve access to services for underserved populations. The budget includes rate changes for providers in Neonatal and Pediatric Intensive Care Units to align to the market and also identifies areas where changes to service delivery creates Medicaid eligible reimbursements to maximize federal funding.

The Executive Budget includes continued funding to implement several reforms relating to the state's parole system to focus on alternatives to incarceration and to align with nationally recognized evidence-based practices. This funding includes efforts to streamline the parole process while insuring adequate supervision of parolees. The budget also includes additional funding for prison inmate education and employability programs.

The Executive Budget includes funding to operate the National Guard Youth Challenge program for high school dropouts to gain life skills, education and self- discipline necessary to succeed.

The Executive Budget also contains significant investments in capital improvements throughout the state as well as the replacement of outdated and unsupported technology systems and upgrades to the technology security infrastructure.

After six years of pay reductions and furlough days, the 2015 Legislature eliminated the last of the furlough days for state employees and provided a one percent cost of living increase effective July 1, 2015 along with a two percent increase effective July 1, 2016. Acknowledging the sacrifices made by state employees during the Great Recession and the impact of current salary levels on recruiting and retaining a qualified staff, the Executive Budget provides for a three percent cost of living adjustment effective on July 1, 2019 for all state/Nevada System of Higher Education and K-12 employees. Recognizing salary disparities in certain key areas, the budget also provides for a two grade increase for Forensics Technicians and a 5 percent differential for Correctional Officers at Ely State Prison and Conservation Camp. In addition, the budget funds increased health insurance contribution rates to cover medical inflation and an increase in retirement contribution rates.

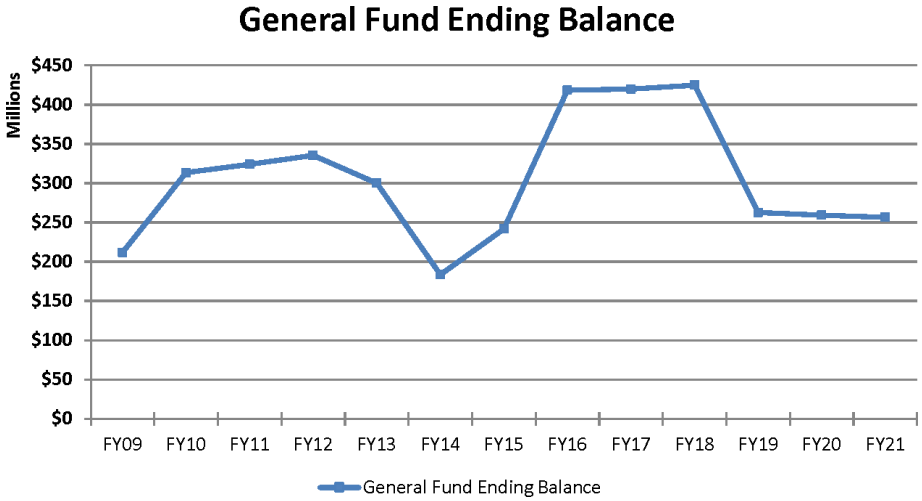
# Fund Balances

## General Fund

The Governor's Executive Budget must have a General Fund reserve for each fiscal year of between 5% and 10% of proposed General Fund appropriations for the operation of state government. The General Fund balance at the end of Fiscal Year 2017-2018 was $424.8 million. The ending balances for Fiscal Years 2018-2019, 2019-2020 and 2020-2021 are projected to be $262.5 million, $259.3 million and $256.4 million, respectively. The Fiscal Year 2018-2019 fund balance represents an approximate ending fund balance of 6%. The 5% minimum ending balance is calculated as a percent of that year's operating expenses. The Governor's Executive Budget exceeds this requirement for each of the budget years as detailed in the supporting schedules.



## Rainy Day Fund

The State of Nevada's "Rainy Day Fund" — formally known as the Account to Stabilize the Operation of State Government — is a financial reserve distinct from the General Fund reserve that exists to cover revenue shortfalls. Revenues are allocated to the Rainy Day Fund per NRS 353.288:

- When the ending General Fund balance is greater than 7% of General Fund operating appropriations, 40% of the amount in excess of 7% of General Fund operating appropriations is allocated to the Rainy Day Fund.
- Beginning July 1, 2017, one percent of the revenue projected for each fiscal year of the biennium by the Economic Forum at their May meeting in each odd-numbered year, as adjusted by any legislation enacted by the Legislature that affects state revenue for that fiscal year, shall be appropriated from the General Fund to the Rainy Day Fund at the beginning of each fiscal year.
- The maximum balance allowed in the Rainy Day Fund is 20% of the total of all General Fund appropriations made for the operation of the government, the funding of schools, and the regulation of gaming.

After using the Rainy Day Fund to cover the General Fund shortfall in Fiscal Year 2014-2015 resulting from the significant shortfall in Net Proceeds of Minerals and a projected shortfall in Gaming Taxes as well as increased K-12 enrollment during the 2013-2015 biennium, the balance in the Rainy Day Fund was zero entering Fiscal Year 2015-2016. Based on the General Fund ending fund balance for Fiscal Year 2017-2018 of $424.8 million, a transfer of $55.8 million was made in Fiscal Year 2018-2019.

Pursuant to NRS 353.213, the Executive Budget shall include a transfer to the Rainy Day Fund of one percent of the revenue projected for each fiscal year of the biennium by the Economic Forum at their December meeting from the previous even-numbered year, adjusted for any changes or adjustments to state revenue recommended in the proposed budget. The Executive Budget includes transfers to the Rainy Day Fund in the amount of $44.1 and $45.5 for Fiscal Years 2019-2020 and 2020-2021 respectively.

Based on the projected transfers, the Rainy Day Fund balance at the end of the 2019-2021 biennium will be $415.2 million.

# Expenditure Limitation

The limit on total proposed expenditures provided by NRS 353.213 was added to the budgeting process in 1979. It caps General Fund spending per Nevadan at the 1975-1977 biennium level adjusted for inflation and population growth. The budget submitted by the Governor cannot exceed the amount appropriated for the 1975-1977 biennial budget multiplied by the percent change in population from July 1974 and the percent change in the Consumer Price Index (CPI) from the same month. Construction expenditures are exempt from this limit, as are deposits to the Rainy Day Fund and payments to reduce the unfunded liability for retirees' health insurance.

Since 1974, the state's population has grown approximately 412 percent and the CPI has increased more than 410 percent. Starting with the base 1975-1977 biennium budget of slightly less than $390 million, calculating the increase for population and CPI places the spending cap for the 2019-2021 biennium at $10.167 billion which is $1.141 billion more than the revenue projected by the Economic Forum for the 2019-2021 biennium at its December 3, 2018 meeting. The Executive Budget does not meet or exceed the spending cap.

The corresponding table shows the calculation of the expenditure limit and the chart shows the Legislatively Approved Operating Appropriations compared to the spending cap from the 1981-1983 biennium to current. In compliance with NRS 353.213, the Executive Budget appropriation amount in the chart includes all proposed expenditures for the 2019-2021 biennium except those for construction or for transfer to the Rainy Day Fund.

# NEVADA P20 WORKFORCE REPORTING

## 101-3270

**PROGRAM DESCRIPTION**

The Nevada P20 Workforce Reporting (NPWR) system links the various data systems, automating the exchange of data and facilitating the assignment of unique IDs that will de-identify the data and enable the participating agencies and stakeholders (e.g. Executive Office, Nevada Legislature, Nevada policy makers) to augment their access, research, and reporting capabilities. NRS 386.650 mandates an automated system of accountability for Nevada that includes a system of identification that allows for identifying a student in both the public schools and Nevada System of Higher Education. Legislation enacted during the 2011 Legislative Session of the Nevada State Legislature requires linking data for workplace purposes (Senate Bill 449, NRS 397). NRS 612.265 defines the circumstances under which the Administrator of Department of Employment, Training and Rehabilitation-Employment Security Division may share employment information.

**BASE**

This request continues funding for one position and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

The conduct and regulation of unarmed combat in Nevada are governed by NRS Chapter 467 and Chapter 467 of the Nevada Administrative Code. The Commission administers the state laws and regulations governing unarmed combat for the protection of the public and to ensure the health and safety of the contestants.

# AG - SPECIAL LITIGATION FUND

## 101-1031

**PROGRAM DESCRIPTION**

The Attorney General Special Litigation Fund was established to pay expenses directly related to investigation, preparation, prosecution, and defense of suits unknown at the time of budget preparation. Certain expenses are reimbursable by other state or county agencies. The Nuclear Waste Litigation Category covers any costs of litigation against the United States. The General Fund supports the General Litigation Category and the state portion of Nuclear Waste litigation. Statutory Authority: NRS Chapter 228.

The Litigation Division, directed by the Solicitor General, is responsible for managing all of the litigation in the Office of the Attorney General. The nature of litigation is such that the number, complexity, and cost of cases cannot be predicted. The Solicitor General monitors all litigation and discovery costs. This account pays for the depositions, independent medical examinations, expert testimony, and witness testimony required for a proper defense in many of these cases.

The Construction Law Counsel represents the Public Works Board. The Construction Law Counsel maintains a part-time office at the Public Works Board office and works closely with them to negotiate and administer contracts; develop regulations, policies and procedures; and coordinates with local government and state agencies. The Construction Law Counsel also works closely with staff to provide early intervention on potential disputes to promote early resolution where appropriate to avoid costly litigation.

**BASE**

This request continues funding for eight and one half positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# AG - GRANTS UNIT

## 101-1040

**PROGRAM DESCRIPTION**

This budget account was renamed in the state fiscal year 2017 - 2019 biennial budget from the Violence Against Women Grants to the Grant Unit. This budget account was created in state fiscal year 2006 for recording domestic violence grants. This account does primarily contain Violence Against Women Grants, however, the name change recognizes this budget account now records various different grants received by the Office of the Attorney General. Two Violence Against Women formula grants are received annually; the STOP Violence Against Women Formula Grant and the Sex Assault Services Program Grant. In addition to these grants this office seeks supplemental awards to fund various projects for the Attorney General's office.

**BASE**

This request continues funding for five positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# AG - VICTIMS OF DOMESTIC VIOLENCE

## 101-1042

**PROGRAM DESCRIPTION**

The Victims of Domestic Violence budget encompasses programs relating to domestic violence, sexual assault, stalking, batterer treatment, and the Office of Ombudsman for Domestic Violence. The Domestic Violence Ombudsman, in conjunction with the Batterer's Certification Committee, is responsible for standardizing and overseeing the treatment of domestic violence offenders, as well as, assisting in the statewide coordination of domestic violence services and training.

The purpose of the Office of Ombudsman is to prepare reports relating to victims of domestic violence, provide necessary assistance to victims, and provide education to the public related to domestic violence, including prevention assistance available to victims and treatment available for persons who commit domestic violence. The Ombudsman administers the account for district court assessments collected as a result of domestic violence convictions. The district court assessment monies can be utilized to assist in training law enforcement, prosecutors, the judiciary, and the general public in the area of domestic violence. District court assessments also support the Committee on Domestic Violence activities and have been partially used in previous years to support the Ombudsman position itself.

The purpose of the Batterer's Certification Committee is to adopt regulations to evaluate, certify, and monitor programs that treat persons who commit domestic violence; review and evaluate existing domestic violence training programs provided to peace officers; and make recommendations to the Commission on Peace Officers' Standard and Training. Statutory Authority: NRS 228.440 and 228.470.

**BASE**

This request continues funding for one position and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**PROGRAM DESCRIPTION**

The state received a $5.4 million settlement in February 2017, which was placed in the Attorney General Office's non-executive settlement budget. The Governor supported using $1.2 million of those funds over the biennium to continue the Consumer Affairs Unit within the Department of Business and Industry (B&I), contingent on approval of Senate Bill (S.B.) 501, which extends the sunset date for the unit to June 30, 2019.

This program provides for improving the administration of elections for federal office; educating voters concerning voting procedures, voting rights, and voting technology; improving, acquiring, leasing, modifying, or replacing voting systems and technology for casting and counting votes; establishing and maintaining the statewide voter registration list; provisional voting; and improving the accessibility and quantity of polling places, including providing physical access for individuals with disabilities, providing non-visual access for individuals with visual impairments, and providing assistance to Native Americans and individuals with limited proficiency in the English language. Statutory Authority: NRS 293.442.

**BASE**

This request continues funding for four positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# COURT OF APPEALS
## 101-1489

**PROGRAM DESCRIPTION**

Article 6 of the Nevada Constitution, as amended in November 2014, created the Court of Appeals. Comprised of three judges, the Court of Appeals hears categories of cases assigned to it by Supreme Court as authorized by Court Rule. Case types assigned include appeals of administrative agency decisions, foreclosure mediation, venue challenges, and injunctive relief, among others, as outlined in NRAP 17.

**BASE**

This request continues funding for the operation of the Court of Appeals based on revenues and expenditures in fiscal year 2018, including continuing support of this budget's 22 existing positions. In fiscal year 2018, as part of the establishment of the Court of Appeals, three positions budgeted under the Supreme Court were transferred from Budget Account 1494 to the Court of Appeals budget. These positions were included in the current budget request under budget account 1489 Court of Appeals.

# JUDICIAL SELECTION

## 101-1498

**PROGRAM DESCRIPTION**

Article 6, Section 20, of the Nevada Constitution created the Commission on Judicial Selection. The commission's role is to select three nominees for any Supreme Court justice, Court of Appeals judge, or District Court judge vacancy that might occur before the expiration of any term of office. The commission's workload depends on the number of mid-term vacancies that occur out of the 92 judicial elected officials seats and the number of applicants per vacancy. This budget funds the costs associated with the commission and the judicial selection process through a General Fund appropriation. See NRS 1.380 through 1.410.

**BASE**

This request continues funding for the operation of Judicial Selection based on revenues and expenditures in fiscal year 2018.

## SENIOR JUSTICE & SENIOR JUDGE PROGRAM

### 101-1496

**PROGRAM DESCRIPTION**

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars, and act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" that are recalled and assigned temporary duty. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs of funding full-time judicial positions and from having to provide additional courtroom facilities and staff. This program is funded primarily through a General Fund appropriation and administrative assessment revenue collected pursuant to NRS 176.059.

**BASE**

This request continues funding primarily for coverage of district courts when judges are unavailable for a myriad of reasons, and continues funding for senior judges to participate in other matters such as settlements and specialty courts.

# UNIFORM SYSTEM OF JUDICIAL RECORDS

## 101-1486

**PROGRAM DESCRIPTION**

The Uniform Systems of Judicial Records (USJR) standardizes, advances and supports technology in all 74 trial courts throughout the state. USJR staff work directly with local, state and federal criminal justice agencies and courts to provide technological solutions to manage judicial caseloads and records and to improve and address statistical reporting requirements. Major projects include the Nevada Court System (a centralized case management system that distributes case information to multiple courts via secured wide area networks), and the Multi-County Integrated Justice Information System (a secured data exchange system interfacing various criminal justice agencies, such as law enforcement, prosecuting offices, Public Safety and the courts). The budget is funded primarily from administrative assessments collected pursuant to NRS 176.059.

**BASE**

This request continues funding for the operation of the Uniform System of Judicial Records based on revenues and expenditures in fiscal year 2018, including continuing support of this budget's ten positions.

# JUDICIAL DISCIPLINE

## 101-1497

**PROGRAM DESCRIPTION**

The Nevada Commission on Judicial Discipline (Commission) was created by constitutional amendment on November 2, 1976 and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct, or disability of judges. The seven-member Commission receives and investigates complaints against full-time and part-time judges, judicial officers and aspirants to judicial office. For a time, the Commission's proceedings were governed by administrative and procedural rules of the Nevada Supreme Court. However, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its rules and the Commission has since adopted its own procedural rules to govern its proceedings. Constitutional Authority: Nevada Constitution, Art. 6, Section 21.

The Standing Committee on Judicial Ethics (Standing Committee) was created in 1998 by Supreme Court Rule to resolve ethical disputes arising in the course of campaigns for judicial office. It also provides judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. In 2011, the Nevada Supreme Court repealed a section of the rule and eliminated the need for the Standing Committee to resolve ethical disputes arising in the course of campaigns for judicial office. The Standing Committee continues to consider opinion requests regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. The Standing Committee also assists the Nevada Supreme Court by studying and recommending additions to, amendments to, or repeal of provisions of the Revised Nevada Code of Judicial Conduct or other laws governing the conduct of judges and judicial candidates. Statutory Authority: NRS 1.425 to 1.4695, inclusive. Rule Authority: Nevada Supreme Court's Inherent Power to Make Rules.

## ADMINISTRATION - EITS - DATA COMM & NETWORK ENGR

**721-1386**

**PROGRAM DESCRIPTION**

Data Communications and Network Engineering is one of three budget accounts in the Communications unit within the Enterprise IT Services Division. This unit is responsible for all tasks related to developing, operating, and maintaining statewide data; voice over internet protocol (VOIP); and video-communications infrastructure. Most of this effort is focused on the Wide Area Network (WAN), termed SilverNet, and maintaining "connectivity with the outside world" such as internet access for the state and dedicated purpose circuits including federal program connections. Staff tasks include installing and troubleshooting data circuits; installing, operating and maintaining routers, firewalls, event logging, and data switches that tie the circuits together; and engineering, analyzing, and troubleshooting the complex WAN itself. Staff supports over 8,500 network connections representing servers, and network devices (routers, firewalls and switches) in more than 150 locations throughout the state. Customers include all Executive Branch agencies, Constitutional Offices, the Judicial Branch, and to a limited extent, the Legislative Branch. Statutory Authority: NRS 242.

**BASE**

This request continues funding for 18 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

## ADMINISTRATION - EITS - NETWORK TRANSPORT SERVICES

**721-1388**

**PROGRAM DESCRIPTION**

Network Transport Services (NTS) is the third of three budget accounts in the Communications unit within the Enterprise IT Services Division. This unit, through a combination of microwave, fiber optics, and other wireless technologies, provides transport of communications circuits for federal, state, and local government entities, with many responsible for public safety. NTS also provides large transport circuits for data communications and private branch exchange (PBX)/voice over internet protocol (VOIP) services to other communications units within EITS, such as SilverNet and PBX/VOIP telecommunications, thereby indirectly supporting nearly every state agency. Staff tasks include design and development of backbone microwave communication infrastructure; installation, operation and 24/7 maintenance of microwave and fiber optic communication equipment; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Staff is directly responsible for microwave circuits and transport equipment at state sites that carry public safety traffic. NTS communication sites also host other agency communications equipment and antennas on its towers, and provides commercial and emergency backup power for their equipment. Statutory Authority: NRS 242 & NRS 233F

## ADMINISTRATION - NSLA - ARCHIVES & PUBLIC RECORDS

**101-1052**

**PROGRAM DESCRIPTION**

The State Archives and Records Management administers comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and disposition of state government executive branch records. Archives and Records program staff offer technical support to the Nevada Supreme Court, Legislative Counsel Bureau, Tribal and local governments, and the Nevada System of Higher Education. The State Archives preserves and makes accessible records that document the history, organization, and functions of Nevada state government, its influence and impact on the lives of its people, and protection of their civil rights. The Records Management program prepares records retention schedules, enabling all state agencies to reduce their record storage holdings and related costs. This department also operates the State Records Center, providing high-capacity, low-cost, secure storage for over 53,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. In addition, Imaging and Preservation Services (IPS) provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies of state and local governments. The program ensures government documents are preserved in accordance with NRS 239.070, 378.255, and 378.280. The program provides services for scanning, printing, and storage of large format maps and plans onto either microfiche or roll film. The program develops and duplicates film for state and local government agencies and District Courts. Statutory Authority: NRS 378.230 through 378.320.

Statutory Authority: NRS 338, 341, 393 and 444.

# ADMINISTRATION - SPWD - MARLETTE LAKE

## 712-1366

**PROGRAM DESCRIPTION**

The Marlette Lake Water System was authorized for purchase by the 1963 Legislature from the Curtiss-Wright Corporation at a cost of $1,650,000. The State Public Works Division of the Department of Administration administers the system. The adjoining lands are administered and controlled by the Department of Conservation and Natural Resources. The major objectives of this system are to preserve and protect local water sources, provide adequate supplies of water to the areas served, maintain the system in a condition sufficient to ensure dependable supplies of water to water customers, and sell water under equitable and fiscally sound contractual arrangements. This system is funded from water sales to Carson City and Storey County. Statutory Authority: NRS 331.160.

**BASE**

This request continues funding for three positions and associated operating costs. Non-recurring expenditures and adjusts partial year costs for the continuation of programs.

# DEPARTMENT OF TAXATION

## 101-2361

**PROGRAM DESCRIPTION**

The department is responsible for providing fair, efficient, and effective administration of tax programs in accordance with applicable statutes, regulations, and policies, and serves taxpayers and state and local government entities. The department collects approximately $6.5 billion a year in taxes and distributes those revenues to the state General Fund, other state agencies, and local government entities. Taxes administered by the department include all sales and use taxes, modified business tax, insurance premium tax, commerce tax, and a variety of excise taxes. In addition, the department is responsible for appraising property of an interstate or inter-county nature as well as mining property. It establishes guidelines for county assessors, recorders, and treasurers; monitors appraisal and assessment performance; and ensures statewide compliance with assessment standards established by the Nevada Tax Commission (NTC). The department reviews local government budgets and audits, prepares ad valorem tax rates for certification, and advises local governments on Budget Act compliance and financial management matters. Additionally, the department provides certified annual population estimates for the state, counties and incorporated cities.

The department serves as staff to five boards and commissions, including the NTC, which, as head of the Department, adjudicates contested cases, adopts regulations, and ensures fair and equitable treatment of taxpayers across tax types. The State Board of Equalization hears and determines property tax appeals and equalizes property tax values. The Committee on Local Government Finance provides financial accounting standards for local governments and oversight to financially troubled local government entities. The Mining Oversight and Accountability Commission ensures various state agencies maintain compliance over environmental, safety and training, and taxation issues related to the mining industry. The Appraiser Certification Board ensures all property tax appraisers in the state are certified and maintain continuing education requirements. # TAXATION - MARIJUANA REGULATION AND CONTROL ACCT

## 101-4207

**PROGRAM DESCRIPTION**

The Department of Taxation administers Nevada's legal medical and adult-use marijuana programs, ensuring the protection of public health and safety through a strict and rigorous regulatory scheme. The department's responsibilities include licensing, regulation, and taxation of Nevada marijuana establishments. The department was assigned responsibility of the adult-use marijuana program with the voter-passed Regulation and Taxation of Marijuana Act in November 2016, which legalized adult-use marijuana in Nevada. The Nevada Legislature transferred responsibility of the state's medical marijuana program to the department on July 1, 2017.

The department administers nine marijuana license types and is responsible for establishing licensing qualifications; determining the need to license additional establishments in the state; reviewing applications for licensure; issuing initial and annual renewal of licenses; tracking licenses; reviewing and making determinations on transfers of ownership; and suspending, revoking, and reinstating licenses. The department establishes standards and procedures for the cultivation, production, testing, distribution, and sale of marijuana in Nevada. As a critical part of its regulatory oversight, the department inspects marijuana establishments to ensure compliance with state laws and regulations around issues such as security, testing, inventory tracking, labeling, and packaging. Additionally, the department reviews all proposed marijuana establishment advertising and design and approves if they meet regulatory criteria.

There are two tax types specific to marijuana that the department is responsible for administering and collecting: wholesale marijuana tax and retail marijuana tax. Revenues from the wholesale marijuana tax, as well as revenues from fees, penalties, and assessments, will first pay the department's administrative and enforcement costs. $5 million per year is then distributed to counties, cities, and towns, and the remainder is distributed to the state Distributive School Account. Every six months, the department reviews and sets the fair market value at wholesale rates for multiple categories of marijuana product, upon which the wholesale marijuana tax is calculated. The department distributes revenues from the retail marijuana tax to the Account to Stabilize the Operation of State Government. Statutory Authority: NRS 372A, 453A, 453D.

# NDE - DISTRIBUTIVE SCHOOL ACCOUNT

## 101-2610

**PROGRAM DESCRIPTION**

The Distributive School Account (DSA) provides direct state financial aid to school districts and charter schools for K-12 public education in Nevada. The funding formula, identified by NRS 387.121 as the "Nevada Plan," provides school districts a guaranteed dollar amount of basic state support per student. School districts and charter schools receive either monthly or quarterly apportionments from the DSA on the basis of student enrollment. Each school district is guaranteed a specific amount per student, which is developed through a formula that considers the demographic, economic, and wealth characteristics of the district. Allotments of licensed employees and related costs are determined from tables that recognize the differences in costs between rural and urban school districts as well as small and large districts. Transportation costs are incorporated into the allocation process.

For purposes of calculating basic support, enrollment includes students enrolled in grades K-12, and students in ungraded special education classes and six-tenths of the count of students enrolled in preschool programs for children with special needs. Special education is funded on an amount-per-unit basis as established by each session of the Legislature.

Pursuant to NRS 387.1233, school districts and charter schools are partially protected from decreases in enrollment through a one-year "hold harmless" statutory provision, which guarantees a payment at the enrollment level of the corresponding quarter of the prior year if enrollment drops 5% or more versus said corresponding quarter.

The DSA is funded by a General Fund appropriation, sales taxes on out-of-state sales, income from federal mineral land leases, interest from the Permanent School Fund, and a portion of the state taxes on slot machines. In addition to the state funds received by the school districts through the DSA, the school districts receive: the 2.60% local school support sales tax that is part of the DSA guarantee; the abated $0.75 per $100 of assessed valuation property/mining tax, one-third of which is part of the DSA guarantee; governmental services taxes; franchise taxes; and various other local and federal revenues. Statutory Authority: NRS 387.

# NDE - INCENTIVES FOR LICENSED EDUCATION PERSONNEL

## 101-2616

**PROGRAM DESCRIPTION**

NRS 391.166 creates the Grant Fund for Incentives for Licensed Educational Personnel to be administered by the department. The Board of Trustees of each school district in Nevada is required to establish a program of incentive pay for licensed teachers, school psychologists, school librarians, school counselors, and administrators employed at the school level which are designed to attract and retain those employees.

This budget contains the funding for remaining provisions of the 1/5th retirement credit purchase program (previously NRS 391.165). Personnel participating in the 1/5th purchase program in fiscal year 2007 could elect to continue until they had received five 1/5th credit purchases at which time they would be eligible to participate in the incentive program mentioned above.

# NDE - ASSESSMENTS AND ACCOUNTABILITY
## 101-2697

**PROGRAM DESCRIPTION**

This budget account funds several testing programs, each described below, mandated by the Legislature and administered by the Department of Education (Department). The budget account is primarily funded by the State General Fund.

As per NRS 389.015, examinations measuring proficiency and achievement in reading, writing, mathematics, and science designed as a comparison to national reference groups, are to be administered before the completion of grades 5, 8, and high school.

NRS 389.015 also requires that examinations measuring achievement and proficiency in reading, mathematics, and science be administered to all students before the end of grade 11.

The 2001 Legislature provided funds to support a contract with a nationally recognized testing company for the development, printing, scoring, and reporting of the Criterion-Referenced Tests (CRTs) in grades 3-8 (NRS 389.550). Using the CRT program for purposes of school accountability is required for Federal Title I compliance and by NRS 385.

Academic Standards Council provides funding to support operational costs in support of the Council to Establish Academic Standards for Public Schools. The Academic Standards Council has been designated through NRS 389 as the sole entity within the state responsible for the establishment, periodic review, and prioritization of content and performance standards in the subject areas of English, mathematics, science, social studies, the arts, computer and technology education, health, and physical education.

Effective with the 2010-2011 biennium, funding for the Student Accountability Information in Nevada data system has been moved to this budget account from budget account 2699 because these funds are expended on a statewide system of student accountability and are not included in the funds passed through to the school districts and charter schools. This system captures students via unique identifications and tracks their progress through the education system, including their test results on the above mentioned tests. Because of the system's interaction with student testing, the Department felt it was proper to account for these funds in this budget account.

Authority: NRS 387 and 389; 2001 17th Special Session S.B. 2 and S.B. 13.

**BASE**

# NDE - OFFICE OF EARLY LEARNING AND DEVELOPMENT

## 101-2709

**PROGRAM DESCRIPTION**

The focus of the Office of Early Learning and Development is to coordinate birth-3rd (B-3) grade state level work to improve the access and quality of early childhood programs across a variety of settings. The office coordinates state level B-3 reform efforts which are part of a national initiative to transform how children ages 0 to 8 learn. The initiative focuses on building strong connections between learning experiences across these critical years. This approach necessitates that educational standards, curricula, assessment, instruction, and professional development are strongly aligned across programs starting in infancy through 3rd grade.

Authority: 42 USC 9801 et seq. and 9858, et seq., Executive Order #2013-16

**BASE**

This request continues funding for 12 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# NDE - CAREER AND TECHNICAL EDUCATION

## 101-2676

**PROGRAM DESCRIPTION**

The Department of Education administers career and technical education programs that meet the requirements of the Nevada State Plan for Career and Technical Education (CTE). The plan is based on the needs of students within the state and serves as the application for the federal funds authorized by the Carl D. Perkins Career and Technical Education Act of 2006. The primary mission of the federal program is to develop and improve CTE programs, focusing on high quality programs aligned to economic and workforce development priorities of the state.

Revenue received through the Carl D. Perkins Basic Grants to States has funding set asides including 5% or $250,000, whichever is greater, for state administration; 10% for statewide leadership; and 85% for basic grant aid to school districts, charter schools, and community colleges. Federal funds administration must be matched by state funds. In addition, the maintenance of effort provision requires the state to maintain funding at least at prior year levels. Authority: NRS 388.340(2a), 388.360(3) and the Carl D. Perkins Vocational and Technical Education Act of 1998, as amended.

**BASE**

This request continues funding for 15 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# NDE - CONTINUING EDUCATION

## 101-2680

**PROGRAM DESCRIPTION**

The Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education (ABE) and English as a Second Language (ESL) services in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations on a competitive basis to carry out the purpose of the act. Students enrolled in the programs must be over 18 years of age, must not have a high school diploma or its equivalent, and must be withdrawn from high school and not required to be in a school. A federally required 25% match is partially met by state funding for instruction; the local instructional programs contribute the balance of the match. Authority: P.L. 105-220. Workforce Investment Act, Title II, Adult Education and Family Literacy Act; NRS 387.1233.

**BASE**

This request continues funding for four positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

# NSHE - UNLV DENTAL SCHOOL

## 101-3002

**PROGRAM DESCRIPTION**

The UNLV School of Dental Medicine (SDM) came into existence when key political, academic, and health leaders committed to addressing the state's shortage of dentists, particularly in rural areas, and the lack of oral health access for lower socioeconomic groups. The school was charged with preparing socially aware, clinically skilled dentists to address oral health needs in Nevada. The vision for the SDM is to provide world-class oral health education while providing for the dental needs of Nevada residents. The SDM has continually sought to provide excellence in patient-centered clinical care, patient education, and statewide community outreach programs.

# NSHE - DESERT RESEARCH INSTITUTE

## 101-3010

**PROGRAM DESCRIPTION**

In 1959, the Nevada State Legislature created the Desert Research Institute (DRI) as a division of the University of Nevada specifically devoted to conducting research. DRI became an autonomous division of the University and Community College System of Nevada in 1969. From its beginnings, DRI has functioned as a nonprofit research campus uniquely blending academia with entrepreneurship. Approximately 500 research faculty and support staff generate more than $35 million in research revenue each year with approximately 85 percent coming from the federal government or commercial entities. Research projects and programs are supported from the main campuses in Las Vegas and Reno with additional specialized laboratories in Boulder City, Nevada, and Steamboat Springs, Colorado. DRI's environmental research programs are directed from three core divisions (Atmospheric Sciences, Earth and Ecosystem Sciences, and Hydrologic Sciences) as well as interdisciplinary science centers. Grounded in fundamental research, DRI provides both sponsors and clients with innovative solutions to pressing environmental problems, balancing the need to develop resources while sustaining the environment.
