3. Approval of the July 14 and August 11, 2020 Minutes (For possible action)

Governor: Item 3 - Approval of the July 14 and August 11, 2020 Minutes. Do we have a motion on the minutes?

Attorney General: I move for approval.

Governor: We have a motion for approval of the July 14 and August 11 Minutes. Is there any discussion on that motion? Hearing and seeing none. All in favor, signify by saying aye. The motion passes.
4. Authorization to Contract with a Current and/or a Former State Employee (For possible action)

Board action under this item only grants permission to the employing agency. Current and former employees are still subject to all ethical requirements of Nevada Revised Statute (NRS) Chapter 281A, specifically including subsection 550 which restricts certain former employees and state agencies.

Department of Administration – Purchasing Division

Pursuant to NRS 333.705, subsection 1, the Department of Administration, Purchasing Division requests authority to contract with former employee Brian Bracken to perform administrative duties through Master Service Agreement #18404 with HAT Limited Partnership, dba Manpower.

Governor:  Item number 4, Authorization to Contract with a Current and/or a Former State Employee.

Clerk of the Board:  This request is from the Department of Administration, Purchasing Division on behalf of the Department of Employment, Training and Rehabilitation to contract with a former employee to perform administrative duties for the Pandemic Unemployment Assistance program. This individual will be employed by Manpower through MSA #18404. Any questions?

Governor:  Do we have any discussion?  Do we have a motion?

Attorney General:  I move for approval.

Governor:  We have a motion for approval. Is there any discussion on the motion? All in favor, signify by saying aye. The motion passes.

5. Approval of Master Lease Agreements (For possible action)

The Department of Administration, Division of Enterprise Information Technology Services, seeks approval for the seventh amendment to the existing master lease agreement with International Business Machines. This amendment extends the termination date from May 31, 2022 to September 30, 2023 and increases the maximum amount from $12,045,136.35 to $12,244,220.35 due to the purchase/lease of hardware and software for the mainframe server.

Governor:  Item 5, Approval of Master Lease Agreements. I won’t read the whole thing but it’s about the IBM contract.

Clerk of the Board:  Item 5 is a request from the Department of Administration, Enterprise IT Services Division to amend a master lease agreement with IBM for mainframe storage equipment, software and services. This amendment increases the cost of the lease by
$199,084 and extends the termination date to September 30, 2023 for upgrades to hardware and software support. Are there any questions on this item?

**Governor:** You helped me a lot and you gave me some background on this one and I just got more this morning. The concern I have is this is already the seventh amendment to this lease and I don’t know how much it’s been extended out, the termination date, if this is the first time there’s been an extension on it or there have been other extensions on the agreement but I hope that we don’t continue with this.

**Clerk of the Board:** For your information, Governor, this is the third amendment to the time to the extension, the termination date of this lease.

**Governor:** What was the original time?

**Clerk of the Board:** The original timeframe was the lease was not to extend beyond August 31, 2017. The second amendment extended that to June 30, 2021.

**Governor:** I don’t know where General Ford and Secretary Cegavske stand but at some point this has got to go out for rebid and now it’s extended six years past its original scheduled termination date. So, I would hope this would be the last one. I don’t know if either of you have any concern on that or any comments.

**Secretary of State:** I am somebody who is very skeptical after working with a vendor for a couple of years and hearing from other states that’s there’s issues so I think this is one that you need explanations and that we need to get some background as to why and what the extensions are about. So, I think we need a little more on that one based on your comments.

Again, I do want to thank your staff for getting back to our staff as diligently as they do. They come back to us and give us the information that we’ve asked for. So, I want to thank them for that. Thank you.

**Governor:** I appreciate your comments and this is kind of the way I feel on this one - this is getting dragged out so long; who is making these recommendations that it just keeps getting extended, added on and increased the amount?

**Dave Haws:** Yes, thank you and good morning, Governor and Members of the Board. The lease that you’re looking at in front of you, it’s a little bit unusual from perhaps other leases in that it’s the mainframe equipment that is used to support some of our largest agencies including Department of Motor Vehicles (DMV), Division of Welfare, Department of Public Safety and a little bit of Department of Employment, Training and Rehabilitation as well.

The reason why this amendment and this lease extends the way that it does is that when we support those particular applications for DMV, Welfare and the other agencies that use the mainframe, keeping in mind that their particular programs and software that they use has to run on the mainframe; and they’re specific to that type of environment; and so the amendments that you see and extensions are, in essence, to support those particular business programs.
We would be able to go out to renew the lease and rebid this but it also would require us to work with those agencies and make sure that their applications are ready to either upgrade or migrate to another environment. So, the whole process would take quite a bit of coordination and time – which is not to say that it couldn’t be done but it would be fairly extensive to make sure that whatever hardware or software environment that was brought back in through a new lease would still continue to support that business side of things.

The amendments that we’ve been putting into place typically, is to refresh the equipment and to upgrade to newer versions of the operating software and so on, in order to keep the environment viable to support the business applications.

The amendment that we’re working on right now is to replace some equipment that’s at end-of-life. As that equipment starts to age, maintenance cost goes up and so you are going to pay a lot more money in maintenance or you improve the equipment, which then lowers the maintenance cost and so right now we’re estimating that we’ll save approximately $77,406 per year by this particular amendment. So, I think, in response, yes, we agree that sometimes it’s difficult to see this lease keep amending and keep extending but it is a much larger effort to coordinate that with the software that’s being used in some of these large agencies and making sure that the two are meshed together so that when you do replace this equipment or you go with another vendor, that all of the applications continue to work. I hope that explains a little bit about what’s going on there.

Secretary of State: I’m just curious as to why, when this originally was contracted, they didn’t know about the infrastructure issues and why this is something that’s new to everybody. Everybody knows that your infrastructure is old and so I’m just curious as to why that wasn’t part of the vendor’s agreement to make sure that the hardware, the software and the mainframe server were all working and what you needed. That wasn’t determined beforehand?

Dave Haws: In response to that, Secretary, this is a fairly complex environment and includes not only the mainframe but also the supporting disk storage that’s required to go into it, disk drives, also, you have tape drives that are associated with it and all of these pieces of equipment, they have different lifespans and so they reach different end-of-life at different times.

The lease that we’re managing, we have to keep that environment going and that’s a different side. So, as these things start to age out and to keep our maintenance cost down, that’s why we end up replacing them as part of the lease. Again, this is a lease, it’s not a capital purchase. In order to keep that environment going and making sure that these applications are going to run, we need to refresh the software and hardware from time to time.

Secretary of State: I totally understand and get what you’re going through because we’re going through one of those in one of our divisions but it’s very frustrating to sit and listen to this and the increase of money, the timing. We have eight divisions and one of our divisions, it’s been like pulling teeth and the vendor has you hooked and there’s nothing you can do.
You can’t get out of it and I understand that but it is very, very frustrating and I think legislature, governor, are going to have to look deeply at any of these contracts in the future and put in these requirements and deadlines.

Ours is going into the third year and it shouldn’t have gone that long. So, with this, that’s the only reason I’m saying anything and I feel pain for you because I know what we’re going through. I don’t think we have a choice but to approve this but I do have concerns about going forward and what needs to be looked at with these vendors.

**Governor:** I appreciate your comments and I couldn’t agree with you more. These all, as you described the complex environment, it was a complex environment when this was approved. I’m looking back at the information Susan provided me and I appreciate it. What I’m seeing, amendment number two, increased this maximum amount from $90,000 to a little over a million dollars back in 2017. Then, later it was increased that year from $1 million to $10 million. Then, it was increased to $11.7 million. Now, we’re well over $12 million with this lease that started as less than $100,000. Now, I don’t know what the checks and balances are but what we have now is not what we bid back in 2017.

**Dave Haws:** Yes, I understand what you’re saying. These leases are a little bit different when you start off with them because of, I believe, and this predates me, but I believe that the way that this occurred was that as you start the lease, there was only a certain piece of equipment or a portion of it that moved into a lease. Then as time went by and as equipment aged that was owned, we moved more and more of it into the lease and so, over time, yes, it built up from $90,000 to 12 million but the reality is that it was probably a $10 million investment when we owned the equipment and as we moved into the lease and added more and more to the lease and brought more and more of it into the lease, it increased to what it typically would have been had it been a capital purchase type of thing.

So, the lease has grown and it’s not that the environment grew from a $90,000 to a $12 million environment – it was a large environment to start off with but as we moved into the lease, more and more structure and equipment moved into the lease as it aged out of the capital purchases.

I completely agree. I don’t disagree. I think that we do need to take a look at it. It will be a coordinated effort between ourselves and our largest customers to make sure that whatever decision we go with, that we have everything lined up so that if we went with a new vendor or new equipment or new environment, that it would continue to support these large agencies.

**Governor:** I don’t disagree and agree with the Secretary that we need to approve this to keep things moving forward but when we originally bid this, if I understand, back in 2016 or whenever it was, much before most of us here, it was $90,000 and that was something we bid that was different than this. As you’re saying, we added things on and we increased it and it’s different than the $12 million contrast – I fully understand that but the RFP that we put out there that was awarded was based on $90,000 and I want to make sure we’re getting the best value when suddenly the term of this is now 100 times what it was back when this lease was originally approved, the scope of this contract.
This is problematic for me because that’s not what was bid. There are so many amendments and changes and adds on that I still want to make sure that we’re not held hostage here like when this got increased from $100,000 to 10 million or from one million and then to 10 million back in 2017, I guess.

I can support extending it but I need this thing totally evaluated and I don’t want this extended anymore without this going out for at least an analysis with your biggest customers, how we’re going to deal with this moving forward, what’s the best way to handle this is and a plan so that we don’t find ourselves in the same position when this one expires.

Do we have any other comments or is there a motion on this one?

**Attorney General:** Mr. Governor, I can make the motion to approve. Contingent upon everything that you and Secretary Cegavske have indicated you’d like to see on a going forward basis, that’ll be satisfactory.

**Secretary of State:** I do know that they need to go forward with what they’re doing. It’s unfortunate that they have the “gotcha,” that’s the way that it is so, I’ll support this but I do think we need more details and more information and a discussion with the leaders in the legislature about these vendors and what’s been going on.

**Governor:** I agree. This is something that’s fallen upon us and it’s unfortunate that we’re owning it right now but I agree wholeheartedly that we have to have this evaluated and be able to have a better plan moving forward. So, with that said, we have a motion on the floor. Is there any further discussion? All in favor, signify by saying aye. The motion passes.

6. **Approval of Proposed Leases (For possible action)**

**Governor:** Item 6, *Approval of Proposed Leases*.

**Clerk of the Board:** Item 6 includes 9 leases for approval by the Board this morning. Are there any questions on any of these items?

**Governor:** Not from me. Again, Susan, thank you for providing the backup that I asked for on this. Do we have a motion?

**Attorney General:** I move approval.

**Governor:** We have a motion for approval on the floor. Is there any discussion on the motion? All in favor, signify by saying aye. The motion passes.

7. **Approval of Proposed Contracts (For possible action)**

**Governor:** Item 7, *Approval of Proposed Contracts*. 
Clerk of the Board: There are 47 contracts for approval by the Board this morning. Are there any additional questions on these items?

Governor: The only one that I had was for the Attorney General, contract number 1 went from $85,000 to $400,000 - plus potential. I understand the complexity of this case, especially in light of our ruling from Judge Gonzales and moving forward, I assume, Attorney General, somebody is watching this contract closely, right?

Attorney General: Yes, Rachel Anderson from our office did submit some answers to questions raised about this particular contract.

Governor: Yes.

Attorney General: The complexity of this, as well as the individual lawsuits that caused conflicts are those that led to the necessity of retaining outside counsel on these and that’s why you see the number potential increase. And some litigation remains on these still, and that’s why we have the estimate here.

Governor: I do understand that.

Do we have a motion?

Attorney General: I move approval.

Governor: We have a motion for approval on item number seven. Is there any discussion on the motion? Hearing and seeing none. All in favor, signify by saying aye. The motion passes.

8. Approval of Work Plan (For possible action)

Governor: Item 8, Approval of Work Plan.

Clerk of the Board: There is 1 work plan for approval by this Board this morning.

Governor: Do we have any questions on this item?

Attorney General: None here.

Governor: I assume this is a work plan that we have to use an out of town company again? Did we have any Nevada companies bid on this? Are there any Nevada companies that do this work? I don’t even know.

Clerk of the Board: I don’t know the answer to that question. This did go out to bid so it’s possible that others did bid on this but I don’t have that information available right now.
Governor: If you could just reiterate to all of our departments that when we seek bids, that we do whatever we can to make sure that we try to get Nevada bids from companies. That being said, do I have a motion on item number eight?

Attorney General: Move approval.

Governor: We have a motion for approval. Is there any discussion? All in favor, signify by saying aye. The motion passes.

9. Approval of Proposed Master Service Agreements (For possible action)

Governor: Item 9, Approval of Proposed Master Service Agreements.

Clerk of the Board: There are 6 master service agreements for approval by the Board this morning. Are there any questions on any of these items?

Governor: I do not have any questions. Do we have any questions on this?

Secretary of State: None.

Attorney General: None here. I move approval.

Governor: Well, 4 of the 6 are from Nevada so that's a good thing. At least we have two-thirds of them.

We have a motion for approval. Is there any discussion on the motion? All in favor, signify by saying aye. The motion passes.

10. Information Item – Clerk of the Board Contracts

Pursuant to NRS 333.700, the Clerk of the Board may approve all contract transactions for amounts less than $50,000. Per direction from the August 13, 2013 meeting of the Board of Examiners, the Board wished to receive an informational item listing all approvals applicable to the new threshold ($10,000 - $49,999). Attached is a list of all applicable approvals for contracts and amendments approved from July 21, 2020 through August 17, 2020.

Governor: Item 10, Clerk of the Board Contracts.

Clerk of the Board: There were 36 contracts under the $50,000 threshold that were approved by the clerk between June 21, 2020 and August 17, 2020. Are there any questions on any of these informational items?

Governor: Yes, my question to you regarding item 1, Wayne State University, the sturdy on the weight of boxing gloves – the funding source is really not correct on this, is that right?

Clerk of the Board: That is correct. This is funded with fees, not with the general fund.
Governor: I just want to make that notation for the record so the athletic commission pays this and not general fund. This is an information item.

11. Information Item Reports

A. Statewide Quarterly Overtime Report – Fiscal Year 2020 4th Quarter

Pursuant to NRS 284.180, the Department of Administration, Division of Human Resource Management must prepare and submit quarterly to the Budget Division of the Office of Finance a report regarding all overtime worked by employees of the Executive Department during the quarter. The Budget Division shall transmit quarterly to the Board of Examiners the report and the analysis of the Budget Division regarding the report. The Budget Division submits the 4th Quarter Overtime Report and analysis for Fiscal Year 2020.

B. State Claims Account, Emergency Accounts, Statutory Contingency Accounts

Pursuant to NRS Chapter 353, the Governor’s Finance Office, Budget Division presents a reconciled fund balance report for the TORT Claim Fund, Statutory Contingency Account, State Claims Account, Emergency Account, Disaster Relief Account, Interim Finance Committee (IFC) Unrestricted Contingency Funds and IFC Restricted Contingency Funds as of August 27, 2020.

The TORT Claim Fund is the State Treasury Fund for Insurance Premiums. The Statutory Contingency Account, State Claims Account, Emergency Account, Disaster Relief Account, IFC Unrestricted Contingency Funds and IFC Restricted Contingency supplement funding for eligible agencies within statutory authority.

Below is the available balance for each account prior to any projected outstanding claims. The below numbers were updated on September 2, 2020.

Governor: Item number 11.

Clerk of the Board: Agenda item 11 contains 2 items. The first is a report on overtime and accrued compensatory leave for the fourth quarter of fiscal year 2020. My staff summarized the report into a two-page summary. I’m not going to read the details but I’ll hit a couple of highlights.

For fiscal year 2020, overtime pay and compensatory (comp) leave account for a total of approximately $48.05 million or 4.25% of total pay. This is a 3.9% increase from fiscal year 2019. The Department of Corrections had the highest amount of overtime and comp time at $3.77 million or 8.3% of their base pay; followed by the Department of Health and Human Services at $1.97 million or 3.03% of base pay; and the Department of Public Safety at $1.96 million or 7.7% of base pay.

For the fiscal year ending June 30, 2020, the Department of Corrections incurred $15.3 million in overtime and comp time or 9.11% of base pay; while Department of Health and Human Services has incurred $10.2 million in overtime and comp time or 3.17% of base pay. Those two agencies account for 53.3% of overtime and comp time for fiscal year 2020. I would also note that as a percentage of base salary, the Department of Veteran’s Services had the highest overtime at 10.39%; followed by the Department of Corrections; and then the Department of Public Safety.

Are there any questions on this overtime report?

Governor: I do not have any questions. Do we have any questions on this?

Attorney General: None here.

Secretary of State: None.

Clerk of the Board: The second item, 11-B, is an informational report on the available balances in the various contingency accounts managed by the Board of Examiners or the Interim Finance Committee as of August 27, 2020. These accounts are available to cover various contingencies through the 2019-2021 biennium and I’m happy to answer any questions you may have on this item.

Governor: Any questions on item 11-B?

Attorney General: None here.

Secretary of State: None.

Governor: That concludes item number 11.
12. **Public Comment** (This public comment period is for any matter that is within the jurisdiction of the public body. No action may be taken upon a matter raised under public comment period unless the matter itself has been specifically included on an agenda as an action item. The Chair of the Board will impose a time limit of three minutes.

**Governor:** Item number 12 is *Public Comment*. This is the second time set aside for public comment. Anyone wishing to address the Board on any item, please step forward and identify yourself for the record. Comments will be limited to three minutes. We have no one in Las Vegas. Do we have anyone in Carson City?

**Clerk of the Board:** We do not.

**Governor:** Do we have any written comment?

**Clerk of the Board:** No, we don’t.

13. **Adjournment (For possible action)**

**Governor:** Do I have a motion for adjournment?

**Attorney General:** So moved.

**Governor:** We have a motion on the floor. Is there any discussion? All in favor, signify by saying aye. The motion passes, we are adjourned. Thank you all very much.

SUBJECT: BOARD OF EXAMINERS ACTION ITEM

The following describes an action item submitted for placement on the agenda of the next Board of Examiners’ meeting.

PEACE OFFICER STANDARD TRAINING - POST

Agenda Item Write-up:

Pursuant to NRS 334.010, the department requests approval to purchase two replacement vehicles and one additional vehicle for a total cost not to exceed $9,452.08.

Additional Information:

This request is to purchase two vehicles to replace current vehicles that comply with the Vehicle Replacement Policy of SAM 1316. The department plans to replace one 2001 Dodge 2500 truck with a 2009 Ford F-150 truck and one 2003 Ford Crown Victoria with a 2015 Ford Utility SUV and add a 2008 Ford F-250 pickup for a total not to exceed $9,452.08. The three vehicle acquisitions are from State Purchasing Surplus. The two existing agency vehicles being replaced cannot be repaired or the repairs required are too costly to absorb. Replacement costs were included in the FY20 budget and the department balanced forward the authority with no change of purpose to FY21 on WP C51620.

/ Contract is with a former State employee (contractor) or a temporary employment agency providing a former employee.

Contract is with an entity (contractor) other than a temporary employment agency that employs a former State employee who will be performing any or all of the contracted services.

A Summarize scope of contract work.

The position is needed to provide leadership, coordination, and direction necessary for Unemployment Insurance program, and for the federally mandated Pandemic Unemployment Assistance Program (PUA) enacted by law (CARES Act). Additionally, the contractor is responsible for ensuring achievement of mandated program goals and objectives pursuant to DOL and CARES Act requirements.

B Document former job description.

Under administrative direction of the Administrator or Deputy Administrator, ESD, incumbents plan, organize, coordinate and manage multiple services, programs and activities associated with the operation of workforce investment offices and unemployment insurance programs. Responsibilities include all facets of service delivery for re-employment and training programs, employer services and unemployment insurance services.

Incumbents provide overall supervision to managers in assigned offices, programs and services; identify parameters under which offices function and optimum methods of operation; ensure appropriate methods for
resolving problems; review operational status of programs in each office, identify performance deficiencies, and implement corrective action plans that ensure compliance with policies, directives and procedures.

They also analyze and evaluate the impact of mandated program changes and make recommendations for successful implementation; facilitate and direct implementation of new programs; request information and analysis from support services sections to assist in problem identification and resolution; allocate staffing resources, training and capital to provide optimal service throughout the region; publish directives regarding goals, program objectives, minimum work standards and work processes to ensure compliance with laws, regulations and requirements.

Positions with the additional responsibility of managing a program support services unit establish, implement and monitor the accomplishment of program goals and objectives statewide; direct the development of statewide plans, policies, procedures, and support systems for the program; analyze changes required to computer and accounting systems and establish priorities for system work requests; oversee the development of new or revised policies and procedures and secure administrative approval; render decisions on exceptional cases or unusual operational issues; monitor program quality and compliance through results of on-site visits.

This level is distinguished from the ESD Manager III by supervision of subordinate managers and either regional responsibility for all facets of program implementation and service delivery for multiple large, complex programs comparable to the size, complexity and scope of both unemployment insurance benefit and workforce investment programs, or statewide responsibility for development, implementation and service delivery which includes management of the program’s support services for a large, complex program comparable to the unemployment insurance tax contributions program.

- **C** Is the former employee being hired because of their specialized knowledge of the agency’s operations? Is there a clause in the contract for transfer of the specialized knowledge of the contracting agency and a timeframe for the transfer?
  - Yes, the contractor has 25 years of experience in the Nevada UI Program which included 10 years of experience in management level positions with oversight responsibilities for program operations.

- **D** Explain why existing State employees within your agency cannot perform this function.
  - Scott Kennedy left ESD as an ESD Manager IV with more than 5 years’ experience in that position on 5/16/20. Mr. Kennedy was one of only two position incumbents holding that title and the only such incumbent in the Carson City area except for Mr. Jeffrey Frischmann. Further, Mr. Kennedy previously held the titles of ESD Program Chief, PGR 40, from 11/26/12 – 7/20/15, and ESD Manager III, PGR 39, from 4/6/09 – 7/11/11.
  - No single person in the ESD organization has held the senior ESD job titles that this gentleman has held for the past decade or so. The familiarity he possesses having been senior level manager is not just remarkable but highly sought after while DETR negotiates its way through the crisis.

- **E** Document if the individual overseeing or establishing the contract is related to the contractor. If so, explain the relationship and why this would not affect independence and why this would not violate NAC 284.750.
  - N/A

- **F** List contractors’ hourly rate.
  - $52.61

- **G** List the range of comparable State employee rates.
  - $34.90 - $52.61

**X** Contract is with a former State employee (contractor) or a temporary employment agency providing a former employee.

Contract is with an entity (contractor) other than a temporary employment agency that employs a former State employee who will be performing any or all of the contracted services.

**A** Summarize scope of contract work.

To achieve the governor’s mission, the State Joint Information Center (JIC) produces numerous deliverables surrounding the response, recovery and mitigation efforts implemented statewide by the governor’s office. PIOs assigned to the JIC play a crucial role of preparing and disseminating the overarching mission set in motion by the governor. PIOs work with government departments and agencies (such as local, state, tribal, and Federal), as well as for jurisdictions, nongovernmental organizations, private sector organizations, and other cooperating agencies and organizations that work with the JIC. A primary task is to build strategic communications campaigns with the governor’s staff, subject matter experts, partnering agencies and pertinent organizations. To be successful, you must showcase strong organizational skills and a willingness to take initiative to establish relationships, create deliverables, address issues, and solve conflicts.

**B** Document former job description.

Work with and respond to inquiries from international, national, regional, and local media, as well as representatives of natural resource publications, trade journals and nontraditional media outlets. To include development of media statements, interview, and news conference arrangements/special events. Serve as the department spokesperson.

Revised: January 2020

OFFICE OF THE SECRETARY OF STATE

Agenda Item Write-up:

Pursuant to NRS 333.705, subsection 4, the Office of the Secretary of State (SOS) seeks a favorable recommendation regarding the SOS determination to use the emergency provision to contract with former employee Delaina Marzullo to perform Administrative Assistant duties for the Commercial Recordings Las Vegas Office on a part-time, intermittent basis as needed through Master Service Agreement #18405 between Department of Administration, Purchasing Division and Marathon Staffing Group.

Additional Information:

Ms. Marzullo retired from the Office of the Secretary of State as an Administrative Assistant 3 on July 23, 2019. She worked in this same capacity for 20 years and participated in the development and implementation of multiple SOS processing systems. The Secretary of State’s Office made the determination to contract with her to assist in eliminating the backlog of documentation archiving created by the Pandemic staffing shortages and will remain to train the new employee in her former position due to her historical knowledge and expertise, from September 8 through December 25, 2020.

Not only does she possess expert knowledge about the current systems in place, but also the historical knowledge about data issues and anomalies. Until her retirement this past July, she worked closely with the business process analysts and state micrographics on answering questions and developing an inventory of SOS microfilm, microfiche and paper records leftover from the prior implementations that will be converted to electronic file format and migrated into this new system. All remaining issues and data anomalies after the new system is launched will be documented for future reference.

Agenda Item Write-up:

Pursuant to NRS 333.705, subsection 1, the Nevada Department of Transportation (NDOT) requests authority for Atkins North America, Inc. to engage Ms. Jessica Biggin to be a Right of Way Utilities Specialist on their staffing team to augment NDOT's management of statewide projects via the design services provided from the Design On-Call Master Agreements.

Additional Information:

There are insufficient staff and expertise to successfully manage the workload, size and scope of the Statewide Design On-Call within NDOT’s Design and Project Management Divisions. In June of 2020, NDOT issued a Request for Proposals (RFP) to engage service providers to perform professional and technical engineering, and support services to provide design services for statewide projects on an on-call basis. This agreement, one of seven, includes providing Project Managers, Design Leads, Technical Leads and
support personnel, to ensure the design of the statewide projects are accomplished in conformance with the polices, guidelines, manuals and standards.

Ms. Biggin retired from the Department of Transportation as the Chief Right-of-Way Agent on November 1, 2019. Ms. Biggin had been employed by the Department for 26 years with 22 of those years, Ms. Biggin worked within the Right-of-Way Division. She was responsible of ensuring successful relocation of utility facilities and the timely certification of NDOT utility projects. Additionally, she was responsible for the Division's compliance with State and Federal rules and regulations pertaining to utility relocations.

Ms. Biggin will be utilized 20 to 40 hours per week for the duration of the Agreement which expires on October 12, 2023.

MEMORANDUM

September 4, 2020

To: State of Nevada Board of Examiners
From: Kristina Swallow, P.E., Director
Subject: Authorization to Contract with a Former Employee – Jessica Biggin

SUMMARY

Pursuant to the Administrative Manual Section 0323, the Nevada Department of Transportation (NDOT) requests the authority to contract with retired state employee, Ms. Jessica Biggin. Ms. Biggin retired from state service in November of 2019. She is now employed by Atkins North America, Inc., who is proposing to utilize Ms. Biggin to fill a Right of Way Utilities Specialist position in the On-Call for Design Services for Statewide projects on NDOT Agreement P375-20-015.

BACKGROUND

There are insufficient staff and expertise to successfully manage the workload, size and scope of the Statewide Design On-Call within NDOT’s Design and Project Management Divisions. In June of 2020, NDOT issued a Request for Proposals (RFP) to engage service providers to perform professional and technical engineering, and support services to provide design services for statewide projects on an on-call basis. This agreement, one of seven, includes providing Project Managers, Design Leads, Technical Leads and support personnel, to ensure the design of the statewide projects are accomplished in conformance with the polices, guidelines, manuals and standards.

Ms. Biggin had been employed by the Department for 26 years. For 22 of those 26 years, Ms. Biggin worked within the Right-of-Way Division and retired as Chief Right-of-Way Agent. She served as the Assistant Chief Right-of-Way Agent, Utilities, Supervisory Right-of-Way Agent, Utilities and as the Division’s Staff Specialist, Utilities. In those roles she was responsible to ensure successful relocation of utility facilities and the timely certification of NDOT utility projects. Additionally, she was responsible for the Division’s compliance with State and Federal rules and regulations pertaining to utility relocations.

Ms. Biggin has had no influence or authority over the consultant procurement for this Design On-Call agreement.

RECOMMENDATION

We respectfully request your consideration for approval for Atkins North America, Inc. to engage Ms. Jessica Biggin to be a Right of Way Utilities Specialist on their staffing team to augment NDOT’s management of statewide projects via the design services provided from the Design On-Call Master Agreements.

Kristina Swallow, P.E., Director
Attachment A
Scope of Services

This Scope of Services is to assist the Roadway Design and Project Management Divisions as needed in delivering projects or performing various tasks needed to help deliver Roadway Design's and Project Management's annual construction projects and additional construction projects that may be accelerated as a result of an anticipated Federal Stimulus Bill. Services may be required in any of the DEPARTMENT's engineering disciplines.

The final scope shall be identified as part of the Request for Approach (RFA) for a project, and the tasks may include, but are not limited to:

- Project Management services, Project Management Plan, Quality Assurance/Quality Control, coordination and meetings, progress reporting, and project scheduling
- Field reviews, data collection, and project scoping
- General environmental services, studies, and surveys
- Roadway design and engineering services
- Plan, specification, and cost estimate preparation and development
- Right-of-way survey services, engineering, and acquisition support
- Subsurface utility exploration and utility coordination
- Structural design
- Traffic operations and modeling/forecasting
- Traffic signal, Intelligent Transportation Systems (ITS), and lighting design
- Traffic pavement marking and signing design
- Traffic Control Plans, Maintenance of traffic (MOT) analysis, and Transportation Management Plan
- Pavement design
- Drainage and storm water design
- Landscape/aesthetics design
- Mapping and surveying
- Geotechnical investigation and analysis
- Construction Engineering and support services during construction
- Transportation engineering studies, Cost Risk Assessments, Value Engineering Studies, Benefit/Cost Analysis, and constructability reviews and construction schedules
- Public relations, outreach, and meetings
- Partnering

Projects will be delivered via the Design-Bid-Build project delivery method and may include but are not limited to:

- District betterment projects
- Hydraulic projects
- Preservation projects
- ADA and pedestrian ramp improvement projects
- Bridge/structure projects
- Safety projects
- Pedestrian safety projects
- Traffic operations projects
- Bike projects
- Capacity and interchange projects
- Landscape and aesthetic projects

The SERVICE PROVIDER shall produce biddable and buildable construction plans, specifications, and cost estimates to DEPARTMENT standards, and provide support as needed for the projects during advertising and construction. Designs and drawings shall be prepared to meet the DEPARTMENT's current policies, manuals, standards, and design criteria, utilizing the 2019 NDOT Road Design Guide, 2014 NDOT Standard...
Specifications for Road and Bridge Construction, and 2020 Standard Plans for Road and Bridge Construction (or the most current versions). All design efforts will be prepared in English units using the latest DEPARTMENT approved versions of Microstation (V8i) and Inroads software. Converted AutoCAD files will not be accepted.

Any Project Management assistance tasks need to conform with the NDOT Project Management Guidelines Second Edition 2010 working draft, NDOT Risk Management and Risk-Based Cost Estimation Guidelines, current NDOT Pioneer Program Guidelines, and current FHWA project management guidance. The FHWA Project Management Plan guidance can be found at this link and the FHWA Financial Plan guidance can be found at this link. The DEPARTMENT has endeavored to provide the most recent link to the FHWA guidance, but proposers will need to check FHWA’s website for the most current guidance.

Services provided in any of the engineering disciplines will conform to the most current policies, manuals, standards, and design criteria in that discipline.

Right-of-Way services will conform to the Uniform Act and current Right-of-Way policies, manuals, standards and criteria.

The current DEPARTMENT manuals for many of the disciplines can be found at: https://www.nevadadot.com/doing-business/documents-and-publications.

Subject: Authorization to Contract with a Former Employee – Casey Connor

SUMMARY

Pursuant to the Administrative Manual Section 0323, the Nevada Department of Transportation (NDOT) requests the authority to contract with retired state employee, Mr. Casey Connor. Mr. Connor retired from state service in May of 2020. He is now employed by Horrocks Engineers, Inc., who is proposing to utilize Mr. Connor to fill a Project Manager and/or Quality Control/Quality Assurance Engineer position in the On-Call for Design Services for Statewide projects on NDOT Agreement P375-20-015.

BACKGROUND

There are insufficient staff and expertise to successfully manage the workload, size and scope of the Statewide Design On-Call within NDOT’s Design and Project Management Divisions. In June of 2020, NDOT issued a Request for Proposals (RFP) to engage service providers to perform professional and technical engineering, and support services to provide design services for statewide projects on an on-call basis. This agreement, one of seven, includes providing Project Managers, Design Leads, Technical Leads and support personnel, to ensure the design of the statewide projects are accomplished in conformance with the polices, guidelines, manuals and standards.

NDOT intends to award an Agreement to Horrocks Engineers, Inc. as one of seven qualified firms responding to the RFP for Statewide Design On-Call RFP. Horrocks has proposed utilizing Mr. Connor to fill the role of Project Manager and/or Quality Control/Quality Assurance Engineer, a key role in overseeing the management of the design of statewide projects. Mr. Connor is very qualified and experienced in overseeing highway design project activities, he had thirty (30) years of experience with the NDOT prior to retiring from State Service.

Mr. Connor has had no influence or authority over the consultant procurement for this Design On-Call agreement.

RECOMMENDATION

We respectfully request your consideration for approval for Horrocks Engineers, Inc. to engage Mr. Casey Connor to be a Project Manager and/or Quality Control/Quality Assurance Engineer on their staffing team to augment NDOT’s management of statewide projects via the design services provided from the Design On-Call Master Agreements.
Attachment A
Scope of Services

This Scope of Services is to assist the Roadway Design and Project Management Divisions as needed in delivering projects or performing various tasks needed to help deliver Roadway Design’s and Project Management’s annual construction projects and additional construction projects that may be accelerated as a result of an anticipated Federal Stimulus Bill. Services may be required in any of the DEPARTMENT’s engineering disciplines.

The final scope shall be identified as part of the Request for Approach (RFA) for a project, and the tasks may include, but are not limited to:

- Project Management services, Project Management Plan, Quality Assurance/Quality Control, coordination and meetings, progress reporting, and project scheduling
- Field reviews, data collection, and project scoping
- General environmental services, studies, and surveys
- Roadway design and engineering services
- Plan, specification, and cost estimate preparation and development
- Right-of-way survey services, engineering, and acquisition support
- Subsurface utility exploration and utility coordination
- Structural design
- Traffic operations and modeling/forecasting
- Traffic signal, Intelligent Transportation Systems (ITS), and lighting design
- Traffic pavement marking and signing design
- Traffic Control Plans, Maintenance of traffic (MOT) analysis, and Transportation Management Plan
- Pavement design
- Drainage and storm water design
- Landscape/aesthetics design
- Mapping and surveying
- Geotechnical investigation and analysis
- Construction Engineering and support services during construction
- Transportation engineering studies, Cost Risk Assessments, Value Engineering Studies, Benefit/Cost Analysis, and constructability reviews and construction schedules
- Public relations, outreach, and meetings
- Partnering

Projects will be delivered via the Design-Bid-Build project delivery method and may include but are not limited to:

- District betterment projects
- Hydraulic projects
- Preservation projects
- ADA and pedestrian ramp improvement projects
- Bridge/structure projects
- Safety projects
- Pedestrian safety projects
- Traffic operations projects
- Bike projects
- Capacity and interchange projects
- Landscape and aesthetic projects

The SERVICE PROVIDER shall produce biddable and buildable construction plans, specifications, and cost estimates to DEPARTMENT standards, and provide support as needed for the projects during advertising and construction. Designs and drawings shall be prepared to meet the DEPARTMENT’s current policies, manuals, standards, and design criteria, utilizing the 2019 NDOT Road Design Guide, 2014 NDOT Standard...
Specifications for Road and Bridge Construction, and 2020 Standard Plans for Road and Bridge Construction (or the most current versions). All design efforts will be prepared in English units using the latest DEPARTMENT approved versions of Microstation (V8i) and Inroads software. Converted AutoCAD files will not be accepted.

Any Project Management assistance tasks need to conform with the NDOT Project Management Guidelines Second Edition 2010 working draft, NDOT Risk Management and Risk-Based Cost Estimation Guidelines, current NDOT Pioneer Program Guidelines, and current FHWA project management guidance. The FHWA Project Management Plan guidance can be found at this link and the FHWA Financial Plan guidance can be found at this link. The DEPARTMENT has endeavored to provide the most recent link to the FHWA guidance, but proposers will need to check FHWA’s website for the most current guidance.

Services provided in any of the engineering disciplines will conform to the most current policies, manuals, standards, and design criteria in that discipline.

Right-of-Way services will conform to the Uniform Act and current Right-of-Way policies, manuals, standards and criteria.

The current DEPARTMENT manuals for many of the disciplines can be found at: https://www.nevadadot.com/doing-business/documents-and-publications.

Please check which of the following applies:

- □ Contract is with a former State employee (contractor) or a temporary employment agency providing a former employee. Please complete steps a-l below.
- □ Contract is with an entity (contractor) other than a temporary employment agency that employs a former State employee who will be performing any or all of the contracted services. Please complete all steps a-l below.

  a. **Summarize scope of contract work.**

  RFP 231-20-019 On-Call Design Services. Scope consists of providing professional civil engineering and support services to NDOT’s Roadway Design and Project Management Divisions on an “as needed” basis. Depending on the project task order, Mr. Connor will serve as either a Project Manager or a Quality Control reviewer.

  b. **Document former job description.**

  Assistant Chief Road Design Engineer. Direct the activities of fifty employees pertaining to preliminary and final design of various roadway design projects.

  c. **Is the former employee being hired because of their specialized knowledge of the agency’s operations? Is there a clause in the contract for transfer of the specialized knowledge of the contracting agency and a time frame for the transfer?**

  No, the employee is not being hired for their specialized knowledge of the agency’s operations, but is being hired as part of a larger consultant team providing expertise to successfully manage the workload, size and scope of the State-wide Design, due to the anticipated staffing shortfall at NDOT. Mr. Connor’s role in this project is to serve as one of two Project Managers listed in the Horrocks proposal.

  d. **Explain why existing State employees within your agency cannot perform this function.**

  The anticipated volume of design work will exceed the capacity of the existing NDOT staff. This contract is an on-call contract, which will allow NDOT to adapt the amount of work given to the consultant team (including the former employee) based on the availability of current employees.
e. Document if the individual overseeing or establishing the contract is related to the contractor – if so, explain the relationship and why this would not affect independence and why this would not violate NAC 284.750.

No, there is not a familial relationship between the contracting individuals and Casey Connor.

f. List contractor’s hourly rate.

$55.29 direct

g. List the range of comparable State employee rates.

Grade 45 Step 1 hourly rate is $33.49/hr, - Grade 45 Step 10 hourly rate is 50.66/hr

h. Justify contract rate if it exceeds the maximum employee/employer rate for a comparable State position by more than 10 percent. Additionally, has the contract term been limited as a result?

The proposed rate is less than 10% of the equivalent NDOT rate and well within the standard rates for engineering consultants with this level of experience. The Design On-call contract is term limited with an expiration date of October 12, 2023.

i. Document justification for hiring contractor.

There is insufficient staff available for the anticipated volume of design work in the next several years as a result of proposed federal stimulus funding. This former employee, as a part of a larger consultant team, will assist in the delivery of new project designs.

j. Will the employee be collecting PERS at any time during the contract?

Casey Connor fully retired from NDOT after 30 years of service, so he will be collecting PERS while working on this project.

k. What is the duration of the contract with the former employee? (include start and end date)

The term of this Agreement if executed shall be from the execution date through and including October 12, 2023.

l. Will the former employee be working FT/PT? If PT how many hours

Currently Casey works part-time. The amount of time spent on the Design On-call cannot be projected at this time but will be based on Horrocks Engineers being selected for individual task orders. Casey’s engagement will be based on the location and type of work for any given task order, but the number of hours per week could be 20-40 for the duration of any given task order.

DEPARTMENT OF CONSERVATION & NATURAL RESOURCES – NEVADA DIVISION OF WATER RESOURCES

Agenda Item Write-up:

Pursuant to NRS 353.268, the Nevada Division of Water Resources requests an allocation of $389,902 from the Interim Finance Committee Contingency Account to fund a geotechnical investigation into the cause of foundation seepage occurring at the South Fork Dam located approximately 20 miles south of Elko.

Additional Information:

Inspections conducted in 2019 and 2020 revealed that foundation seepage and conditions at the toe of the dam could be indicative of a progressing internal erosion failure mode.

The Nevada Division of Water Resources is requesting the funding to implement this study following receipt of the inspection report and subsequent slope stability model and geotechnical exploration plan developed by the engineer.

This work is needed to protect public safety and ensure the continued stability of this high hazard dam. The associated non-IFC work program for this request is #C52458.

Subject: IFC Contingency Fund Request of $389,902 – B/A 4171, Work Program C52458

The Nevada Division of Water Resources (NDWR) is requesting an allocation from the Interim Finance Committee (IFC) Contingency Fund for a geotechnical investigation into the cause of foundation seepage occurring at the South Fork Dam (B/A 4171). Inspections conducted in 2019-2020 revealed that foundation seepage and conditions at the toe of the dam could be indicative of a progressing internal erosion failure mode.

NDWR is requesting an allocation of $389,902 to complete this investigation. This amount is supplemental to $76,874 that is available for dam repair and maintenance in FY21. The total amount of $466,776 is the engineer’s cost estimate plus 10% owner contingency. NDWR requested the proposal and cost estimate to implement this study following receipt of the inspection report and subsequent slope stability model and geotechnical exploration plan developed by the engineer.

This work is needed to protect public safety and ensure the continued stability of this high hazard dam. If this request is approved, then the project can be completed in Spring 2021. NDWR is concurrently requesting a budget enhancement request of the 2021 Legislature to authorize construction costs.

Agenda Item Write-up:

Pursuant to NRS 353.268, the Nevada Department of Corrections (NDOC) requests an allocation of $10,491,564 in Fiscal Year (FY) 2021 from the Interim Finance Committee Contingency account to provide treatment of patients infected with the Hepatitis C Virus (HCV) in accordance with the proposed consent decree.

Additional Information:

Parties reached a proposed resolution of the HCV class action lawsuit filed against the Nevada Department of Corrections. This resolution provides that: all inmates in the custody of NDOC will be tested for HCV by the end of 2020 calendar year; all of the highest-priority inmates will receive Direct-Acting Antiviral (DAA) treatment within six months of the approval of the Consent Decree; 1,200 inmates with HCV will receive DAA treatment within the first year of the Consent Decree approval date which is anticipated to be October 27, 2021; an additional 600 inmates will be treated within two years of the approval date which would be October 27, 2022; and the final 600 (of the original 2,400)
inmates will be treated within the first three years of the Consent Decree approval date which would be October 27, 2023. The estimated total cost to treat 2,400 patients is approximately $41,966,256.
NDOC is seeking the minimum amount of funding during FY2021 that is needed to comply with the term of the Consent Decree to treat 1,200 patients by October 27, 2021.

The Nevada Department of Corrections (NDOC) is seeking a favorable recommendation from the Board of Examiners (BOE) to request State Fiscal Year (SFY) 2021 funding in the amount of $10,491,564 from the Interim Finance Committee (IFC) Contingency Fund to provide treatment of patients infected with the Hepatitis C Virus (HCV) in accordance with the proposed consent decree. The NDOC has submitted Work Program #C52454 in support of this request.

In February 2020, the US District Court granted a Motion for Class Certification in the HCV lawsuit filed against the NDOC (IN RE: HCV Prison Litigation Case No: 3:19-cv-00577-MMD-CLB). On July 9 and 10, 2020 the NDOC and Plaintiffs’ counsel participated in a two-day long settlement conference. In addition to NDOC representatives participating in the settlement conference, then Interim General Counsel Kyle George was present in his official capacity as counsel to the Governor. After significant negotiations that continued through the rest of July and into August, the parties reached a proposed resolution of this class action. This resolution provides that: all inmates in the custody of NDOC will be tested for HCV by the end of 2020; all of the highest-priority inmates will receive Direct-Acting Antiviral (DAA) treatment within six months of the approval of the Consent Decree; 1,200 inmates with HCV will receive DAA treatment within the first year of the Consent Decree approval date which would be October 27, 2021; an additional 600 inmates will be treated within two years of the approval date which would be October 27, 2022; and the final 600 (of the original 2,400) inmates will be treated within the first three years of the Consent Decree approval date which would be October 27, 2023.

The Consent Decree states in paragraph 53 that “…the Governor’s Office for the State of Nevada has agreed to present and recommend the terms of this Consent Decree to the IFC and/or Legislature for approval at the next possible opportunity.” Due to this agreement, it is critical that this request be placed on the agenda for consideration by the IFC during its October 22,
2020 meeting as opposed to future meetings. NDOC is seeking the minimum amount of funding during SFY 2021 needed to comply with the term of the Consent Decree to treat 1,200 patients by October 27, 2021. Therefore, this funding request is based on the resources necessary to treat 600 of the 1,200 patients agreed to be treated in the first year. NDOC's current contracted providers have indicated the ability to treat patients at this rate but NDOC also continues to pursue arrangements with additional providers to ensure the sustainable capacity for treatment.

Approval of this request enables NDOC to adhere to the terms of the resolution to a significant class action lawsuit brought against the State of Nevada. Without this resolution, further litigation will most likely result in significantly more attorneys' fees and an order to treat all patients in a more condensed time frame. The estimated total cost to treat 2,400 patients is approximately $41,966,256. Approval of this funding request will allow NDOC to comply with the Consent Decree that spreads that cost over the next four fiscal years. For HCV treatment, this will effectively resolve any further challenges to NDOC's Medical Directives pertaining to HCV and allow those resources to be used to address a major public health crisis facing the community should inmates not be treated before release. If left untreated, HCV can spread widely through the prisons and, if not treated in prison, will allow the spread to extend to the community. A large percentage of inmates are eligible for Medicaid upon release and treatment later in the disease lifecycle is more costly than treatment in the early stages. As a result, treating inmates while in prison is less costly to the State and guards against further community spread upon release.

In closing, the NDOC has pursued and continues to pursue all efforts to reduce the cost of DAA treatment. These efforts include negotiations with covered entities to maximize discount pricing through the federal Health Resources and Services Administration (HRSA) drug pricing program; negotiations with pharmaceutical companies directly for reduced pricing opportunities; and applications to partner with Sexually Transmitted Disease (STD) programs to obtain HRSA eligible organization status for NDOC's in-house pharmacy. While NDOC continues to seek the least expensive ways to meet its obligations to provide health care, NDOC does not have the ability to fund treatment in its legislatively approved budget in accordance with the Consent Decree without the additional funds requested.

Thank you for your time and consideration of this matter.

SILICOSIS & DISABLED PENSIONS ACCOUNT

Agenda Item Write-up:
Pursuant to NRS 353.268, the Office requests an allocation of $16,949 from the Interim Finance Committee Contingency Account to replenish the Silicosis & Disabled Pensions account to continue payments through the end of fiscal year 2021.

Additional Information:
The Silicosis & Disabled Pensions account was created pursuant to NRS 617.1675. In 2017 the Silicosis & Disabled Pensions Account received a Legislative Appropriation in the amount of $80,000 through Assembly Bill 502. The appropriation and interest after pension and benefit payments have been made carry forward from year to year. Without contingency funds the account will be depleted within two months.

ACTION ITEM: _______
Pursuant to NRS 353.268, the Treasurer’s Office requests an allocation of $16,949 for fiscal year 2021 from the Interim Finance Committee (IFC) Contingency Account to fund the budget account (1089) which provides silicosis and disabled pension fund benefits for diagnosed employees, their dependents, widows, widowers, surviving children or surviving parents pursuant to NRS 617.1675.

This budget account did not receive funding during the 2019 Legislative Session and the monies needed for benefit payments will exceed the current General Fund authority by the end of October 2020 for fiscal year 2021. We will work with the Governor’s Finance Office to ensure a request for this account is included in the Governor’s Recommended budget for the FY22/23 biennium.

We respectfully request this agenda item be considered for the upcoming October State Board of Examiners meeting and the IFC October meeting. Please contact me with any questions or concerns. Thank you.

DEPARTMENT OF EMPLOYMENT, TRAINING AND REHABILITATION – EMPLOYMENT SECURITY SPECIAL FUND

Pursuant to Article 5, Section 21 of the Nevada Constitution, the State Board of Examiners may approve, settle or deny any claim or action against the state, any of its agencies or any of its present or former officers, employees, immune contractors or State Legislators.

Agenda Item Write-up:

The Department has been ordered to pay the fees for professional services and administrative costs related to the work performed by the Special Master related to court case CV20-00755. The Department requests approval to pay the Interim Order Awarding Special Master’s Fees and Costs in the amount of $68,646.17.

Additional Information

The Second District Court of The State of Nevada in and for the County of Washoe appointed a Special Master on July 7, 2020 to respond to a dispute concerning public interest – unemployment compensation to eligible unemployed Nevadans. The Court notes that both parties have similar goals: to pay eligible claimants. The Court finds this factor neutral and then considers whether the parties have the resources to pay for the services of the Special Master. The Court finds the weight of the responsibility for the litigation rests on the State’s shoulders. The Court finds an allocation of the entirety of the Special Master’s fees for the first billing cycle should be the responsibility of the State.

INTERIM ORDER AWARDING
SPECIAL MASTER'S FEES AND
COSTS: GRANTING JOINT MOTION
TO STAY; AND SETTING STATUS
HEARING
INTERIM ORDER AWARDING SPECIAL MASTER’S FEES AND COSTS; GRANTING JOINT MOTION TO STAY; AND SETTING STATUS HEARING

On September 10, 2020, the Court held a hearing to address the following matters:

I. Special Master’s Fees

The Court finds the Special Master’s fees to be fair and reasonable and for the benefit of the Court. No parties objected to this determination. The issue centers around the allocation of payment for the Special Master’s services.

In determining the allocation of payment among parties, the Court weighs the following factors:

The Court must allocate payment among the parties after considering [1] the nature and amount of the controversy, [2] the parties’ means, and [3] the extent to which any party is more responsible than other parties for the reference to a master. An interim allocation may be amended to reflect a decision on the merits. Nev. R. Civ. P. 53(g)(2). The Court is unaware of any guiding Nevada case law, but as the Nevada Rule is similar to Fed. R. Civ. P. 53(g), the Court will look to interpretation of the federal law for guidance. Las Vegas Novelty, Inc. v. Fernandez, 106 Nev. 113, 119 (1990) (“These cases [regarding federal interpretations of the Federal Rules of Civil Procedure] are strong persuasive authority because the Nevada Rules of Civil Procedure are based in large part upon their federal counterparts.”).

A. The nature of the amount of controversy

The Court finds this factor to be neutral. Whether the matter is of public interest receives considerable weight in the determination of this factor. Chevron Corp. v. Donziger, 2017 U.S. Dist. LEXIS 212826, at *19 (S.D.N.Y. Dec. 8, 2017); Morgan Hill Concerned Parents Ass’n v. Cal. Dep’t of Educ., 2015 U.S. Dist. LEXIS 86909, at *5 (E.D. Cal. July 2, 2015). Here, the
dispute’s nature concerns the public interest—unemployment compensation to eligible unemployed Nevadans. The Court notes that both parties have similar goals: to pay eligible claimants. Plaintiffs-Petitioners represent Nevadans who have or continue to seek benefits. Defendants-Respondents are the State, which has made progress to ensure qualifying Nevadans receive unemployment compensation, as noted by the Special Master. Having found this factor to be neutral, the Court then considers whether the parties have the resources to pay for the services of the Special Master.

B. The parties means

The Court finds this factor militates in favor of the State paying the Special Master’s fees. Although the State faces unprecedented financial shortfalls, Plaintiffs-Petitioners are indigent persons seeking unemployment compensation during these challenging times. This is further evidenced by the declarations of poverty filed by Plaintiffs-Petitioners pursuant to Nev. Rev. Stat. §12.015. Having found this factor to weigh against the State, the Court then considers whether either party is more responsible for the reference to the Special Master.

C. Extent to which a party is more responsible for the reference to the Master

Where reference to the Special Master is on the Court’s own motion and the Master’s work benefits both sides as well as the Court, it is reasonable to apportion cost of the Master’s service on an equal basis. Dore Energy Corp. v. Prospective Inv. & Trading Co., 270 F.R.D. 262, 268 (W.D. La. 2010); Carter v. Shop Rite Foods, Inc., 503 F.Supp. 680, 691 (N.D.Tex.1980). However, pursuant to Nev. R. Civ. P. 53(g)(2), the Court may vary from an equal allocation if one side shares a greater responsibility for the reference to the Master.

Here, the Court appointed the Special Master within the Court’s power to raise Sua Sponte. The appointment was made with knowledge and acquiescence from both sides. Furthermore, the parties collaborated on the Court’s Order of appointment, and no objection thereto was filed.

In weighing this factor, the Court considers several facts. First, Plaintiffs-Petitioners waited months after the Coronavirus Aid, Relief and Economic Security (CARES) Act became law before seeking a writ of mandate. This shows Plaintiffs-Petitioners’ recognition of the
challenges facing this State and thus, showing due restraint under the circumstances. Plaintiffs-Petitioners did not rush to seek judicial relief. Rather, they hoped the State would move forward with unemployment benefits. Nonetheless, Plaintiffs-Petitioners brought this suit as a last resort.\(^1\)

Next, the Court granted the writ in part, evidencing a level of success by Plaintiffs-Petitioners. Third, the Special Master’s report not only assisted the Court and benefited the parties, but drew several implicit conclusions that there were interminable delays occasioned by the State’s response to the administration of the Unemployment Insurance and Pandemic Unemployment Assistance benefit programs.

Thus, on balance, the Court finds the weight of the responsibility for the litigation rests on the State’s shoulders.\(^2\)

In conclusion, the Court finds an allocation of the entirety of the Special Master’s fees for the first billing cycle should be responsibility of the State.

II. Joint Motion for Stay of Proceedings

On July 22, 2020, the Court issued an Order of Mandate wherein Plaintiffs-Petitioners’ *Writ of Mandamus* was granted in part and denied in part. The Order of Mandate also reserved several issues for further consideration by the Court at a July 30 hearing.

Plaintiffs-Petitioners filed an appeal to the Nevada Supreme Court and the State cross-appealed on August 6, 2020. Both appeals were dismissed.

On August 28, 2020, the Court issued a final Order of Mandate and the parties filed respective appeals with the Nevada Supreme Court; Plaintiffs-Petitioners on September 4, 2020 and the State on September 8, 2020.

On September 4, 2020, the parties filed *Defendants’ and Plaintiffs’ Joint Motion for Stay of Proceedings* in an attempt to settle the matter through mediation.

\(^1\) The Court recognizes the original *Petition for Writ of Mandamus* was filed May 12, 2020, but Plaintiffs-Petitioners ultimately sought judicial relief on June 6, 2020 with the filing of the *First Amended Petition for Writ of Mandamus*.

\(^2\) As stated in prior orders, the Court recognizes and has taken into consideration the State’s unenviable task of standing up these new programs under extremely challenging circumstances.
While the Court is divested of jurisdiction by virtue of the pending appeals and cross-
appeal, the Court retains jurisdiction over ancillary matters. Foster v. Dingwall, 126 Nev. 49, 52-
53 (2010); Mack-Manley v. Manley, 122 Nev. 849, 855, 858 (2006) (providing that the district
court has the authority to resolve matters that are ancillary of the issues on appeal, “i.e., matters
that in no way affect the appeal’s merits,” and explaining that a “district court has the power to
enforce” its order being challenged on appeal.).

The Court notes the following constitute ancillary matters over which the Court retains
jurisdiction: (1) the allocation of payment to Special Master; (2) any timely and properly
submitted motions for fees and costs by either party; and (3) to determine whether there has been
compliance with the Court’s prior writ of mandate.

Subject to the above, the Court grants the Plaintiffs’ Joint Motion for Stay of Proceedings for
a minimum of thirty (30) days to allow the parties to mediate.

III. Status Hearing

The Court sets the next status hearing for October 20, 2020, at 2:00 p.m. to determine the
allocation of the Special Master’s second payment among parties, discuss the results of
mediation, and any pending ancillary matters that are briefed and submitted.

IT IS HEREBY ORDERED that Defendants-Respondents compensate Special Master
Jason D. Guinasso, Esq., for the first months billing, on or before November 15, 2020, as
follows:

1) Administrative costs in the amount of $3,053.67; and
2) Fees for professional services rendered in the amount of $65,592.50.

The Defendants’ and Plaintiffs’ Joint Motion for Stay of Proceedings is GRANTED for a
minimum of thirty (30) days to allow the parties to mediate.

Finally, the next status hearing is scheduled for October 20, 2020, at 2:00 p.m.

IT IS SO ORDERED.

DATE OF LOSS: December 9, 2019, Date complaint filed
AGENCY: Nevada Department of Corrections

DISCUSSION

In multiple lawsuits filed against the Nevada Department of Corrections, the involved inmates alleged 8th Amendment violations regarding medical deliberate indifference in the treatment of Hepatitis C. The court certified these cases as a class action and appointed counsel to represent the class.

A Consent Decree was reached during several court sessions. This decree will avoid the protracted costs and uncertainty associated with continuing to litigate both the injunctive relief regarding medical treatment and declaratory relief.

It is possible that opposing counsel attorney fees request could have been in excess of $350,000 had the case not resolved. Settlement of the attorney fees portion of this case in the amount of $160,000 was cost effective for the State.

This consent decree is being submitted to the BOE and the IFC under separate cover by the NDOC.

Please note that TC 19511 will be processed for agreed upon hard costs in the amount of $21,045.53. Please also note that the individual inmates involved in this class still have the option to litigate any alleged damages due to the prior NDOC medical policy regarding treatment.

RECOMMENDATION

It is recommended that the claim be paid in the amount of $160,000.00 (One Hundred Sixty Thousand Dollars and no/100).

IN RE: HCV PRISON LITIGATION

Case No: 3:19-cv-00577-MMD-CLB

JOINT MOTION FOR PRELIMINARY APPROVAL OF CONSENT DECREE

Class Representatives Marty Scott Fitzgerald, Elizabeth Carley, Donald Savage, Howard White, Carl Olsen, Scott Bedard, Stephen Ciolino and Mitchell Fields ("Class Representatives") and Defendants the State of Nevada ex rel. Nevada Department of Corrections, Director Charles Daniels, former Acting Director and current Deputy Director of Operations Harold Wickham, former Director James Dzurenda, former Medical Director Romeo Aranas, M.D., current Medical Director, Michael Minev, M.D. (collectively referred to as "the NDOC" or "Defendants") (Class Representatives and Defendants are collectively referred to herein as the "Parties" or individually as a "Party"), respectfully request that this Court to preliminarily approve the Consent Decree submitted with this Motion, Exhibit 1, as well as the form of notice provided to the Class Members,
Exhibit 2. This Motion is made and based upon the following Memorandum of Points and Authorities, the exhibits attached hereto, the pleadings and papers on file, and any oral argument of counsel at a hearing on this matter.

**MEMORANDUM OF POINTS AND AUTHORITIES**

I. INTRODUCTION

The Parties have reached a proposed resolution of this class action whereby 1) all inmates in the custody of NDOC will be tested for Hepatitis C ("HCV") this year; 2) effectively all of the highest-priority inmates will receive Direct-Acting Antiviral ("DAA") treatment within six months of the approval of the Consent Decree; 3) 1,200 inmates with HCV will receive DAA treatment within the first year and a total of 2,400 inmates with HCV will receive this cure within the first three years after the approval of the Consent Decree. Exhibit 1, Proposed Consent Decree. The Parties have also agreed upon a revised set of policies and practices through the amendment of MD 219 and its related documents. As many of these timelines are triggered by the effective date of the final approval of the Consent Decree, there is significant urgency. However, there are complexities and procedural formalities that need to be addressed and thus, the Parties respectfully suggest the following framework should be adopted upon preliminary approval of the Consent Decree by the Court.

First, the Parties’ request that after preliminary approval, the Court set a fairness hearing ("Fairness Hearing") as soon as possible after October 22, 2020 (the date of the next Interim Finance Committee), at which the final approval of the Consent Decree will be presented and resolved in accordance with Fed. R. Civ. P. 23(e). The period between the preliminary approval of the Consent Decree and the Fairness Hearing will be referred to as the "Interim Period."

Second, within ten (10) days after preliminary approval, the Parties will notify ascertainable Class Members of the proposed Consent Decree ("Notice"), Exhibit 2, and inform them that they have the opportunity to provide input to the Court and/or object to the Consent Decree during the Interim Period. The Notice will also inform the Class Members, including Class Representatives, that they are entitled to an additional opt-out period during the Interim Period.
Third, during the Interim Period, Defendants will seek approval of the Consent Decree from the Board of Examiners, the Interim Finance Committee, and/or the Nevada Legislature. The Consent Decree is expressly contingent upon certain governmental approvals; however, the Parties anticipate that the matter will be presented and approval hopefully obtained prior to the Fairness Hearing. In the event that the governmental approvals are not received, the Parties will notify the Court and schedule a status conference.

Fourth, in advance of the Fairness Hearing, the Parties will submit supplemental briefing as needed to inform the Court of the status of the governmental approvals, respond to any objections to the Consent Decree, and further support the basis for entry of the Consent Decree.

Based on the foregoing, this Joint Motion respectfully requests that the Court (1) preliminarily approve the Consent Decree, Ex. 1; (2) approve the form of the Notice, Ex. 2; (3) set a date for the Fairness Hearing; and (4) set a date by which Class Members must seek exclusion from the Class or file objections to the proposed Consent Decree.

II. LEGAL STANDARD

"The Court’s review of the proposed consent decree is informed by the public policy favoring settlement." Sierra Club v. McCarthy, No. 13-CV-03953-SI, 2015 WL 889142, at *5 (N.D. Cal. Mar. 2, 2015). A district court may approve a consent decree when the decree is "fair, reasonable and equitable and does not violate the law or public policy." Sierra Club, Inc. v. Elec. Controls Design, Inc., 909 F.2d 1350, 1355 (9th Cir. 1990). "If the decree was the product of ‘good faith, arms-length negotiations,’ it is ‘presumptively valid and the objecting party has a heavy burden of demonstrating the decree is unreasonable.’ McCarthy, 2015 WL 889142, at *5 (quoting United States v. Oregon, 913 F.2d 576, 580 (9th Cir. 1990)).

Further, pursuant to the Prison Litigation Reform Act, 18 U.S.C. § 3626 ("PLRA"), a consent decree containing injunctive relief in a case involving "prison conditions" may not be approved unless the district court finds that the injunctive relief is (1) narrowly drawn, (2) extends no further than is necessary to correct the asserted violation of the federal right, and (3) is the least intrusive means necessary to correct the asserted violation of the federal right.

//
III. ARGUMENT

This Court should preliminarily approve the Consent Decree because it is (1) fair, adequate, and reasonable; (2) not illegal or the result of collusion, and in the public interest. Moreover, it is (1) narrowly drawn, (2) extends no further than necessary to correct the asserted violation of a federal right, and (3) is the least intrusive means necessary to correct the asserted violation of a federal right.

This class action relates to the policies and practices for testing and treatment of inmates in NDOC custody. Plaintiffs sought declaratory and injunctive relief, and to certify a class seeking the same, from the State of Nevada’s practice of withholding or delaying curative treatment to inmates with chronic Hepatitis C Virus (“HCV”) without medical justification. This curative treatment is commonly referred to as DAA Treatment. While Defendants do not admit liability, the proposed Consent Decree will expand and accelerate the testing and treatment of inmates with HCV. Defendants have agreed to revise MD 219 and the related documents to remove non-medical barriers to testing and treatment. Ex. 1. Defendants have also agreed to definitive timelines by which a set number of inmates with HCV must be provided with DAA Treatment and this rate of treatment is exponentially greater than the existing rate. Id.
IV. CONCLUSION

For all of the foregoing reasons, the Parties request that the Court (1) preliminarily approve the Consent Decree, Ex. 1; (2) approve the form of the Notice, Ex. 2; (3) set a date for the Fairness Hearing; and (4) set a date by which Class Members must seek exclusion from the Class or file objections to the proposed Consent Decree.

IN RE: HCV PRISON LITIGATION  Case No: 3:19-cv-00577-MMD-CLB

PROPOSED CONSENT DECREE

I. INTRODUCTION

A. The Parties:

1. Plaintiffs: Class Representatives Marty Scott Fitzgerald, Elizabeth Carley, Donald Savage, Howard White, Carl Olsen, Scott Bedard, Stephen Ciolino and Mitchell Fields ("Class Representatives") who filed a Class Action Complaint ("Complaint") on December 9, 2019 (ECF No. 10) individually and on behalf of a class of similarly situated persons ("Class Members"), by and through their undersigned counsel ("Class Counsel").

2. Defendants: The STATE OF NEVADA ex rel. NEVADA DEPARTMENT OF CORRECTIONS ("NDOC"), on behalf of itself and all of its officers, directors, employees, former employees, agents, predecessors, divisions, correctional facilities, successors, administrators, and assigns, including, but not limited to Director Charles Daniels, former Acting Director and current Deputy Director of Operations Harold Wickham, former Director James Dzurenda, former Medical Director Romeo Aranas, M.D., current Medical Director, Michael Minev, M.D., and any other persons named (or could have been named) in the Complaint who are or were NDOC or State of Nevada employees (collectively referred to as "the NDOC" or "Defendants").

3. Plaintiffs and Defendants are collectively referred to herein as the "Parties" or individually as a "Party."

B. DISPUTES/LITIGATION

4. This action relates to the testing and treatment of inmates with the chronic Hepatitis C Virus ("HCV") who are or will be in NDOC custody.
5. On October 9, 2019, this Court issued Pre-Trial Order #1: Initial Case Conference (ECF No. 1). Through that Order, the Court consolidated fourteen (14) cases, which presented similar issues related to HCV:

6. On December 9, 2019, Class Counsel filed an Amended Class Action Complaint ("Complaint") and Motion to Certify Class. (ECF Nos. 10, 11). The Complaint was filed on behalf of eight named plaintiffs, the Class Representatives, whose individual cases were stayed during the pendency of the class action proceedings. The other consolidated cases were also stayed, even for those plaintiffs who did not serve as Class Representatives.

7. Defendants answered the Complaint on January 21, 2020 and filed a Response to Motion to Certify Class on the same day. (ECF Nos. 18, 19).

8. On February 18, 2020, the Court granted the Motion to Certify Class. (ECF No. 21). Adam Hosmer-Henner, Margaret A. McLetchie, and their chosen litigation teams were appointed as Class Counsel. *Id.* The Court certified a class of "all persons: (a) who are or will be in the legal custody of NDOC; (b) who have been incarcerated for at least 21 days and have at least 12 weeks remaining on their sentence; (c) who have been diagnosed with chronic HCV and are candidates for DAA treatment pursuant to the proper medical standard of care; and (d) for whom DAA treatment has been or will be denied, withheld, or delayed based on policies or considerations that deviate from the proper medical standard of care." *Id.*
9. The Court further ordered that the following issues were certified for class litigation: "(1) whether HCV is a serious medical need; (2) whether NDOC’s policy and practice of not providing HCV treatment constitutes deliberate indifference to serious medical needs in violation of the Eighth Amendment; (3) whether NDOC has knowingly failed to provide the necessary staging of HCV patients in accordance with the prevailing medical standard of care, including the pretreatment testing to determine the severity of the disease; (4) whether NDOC has knowingly employed policies and practices that unjustifiably delay or deny treatment for HCV; (5) whether NDOC has permitted cost considerations to improperly interfere with the treatment of HCV; (6) whether HCV is a disability under the ADA (Americans with Disabilities Act); (7) whether medical services in prison are a program or service under the ADA; and (8) whether Defendant has discriminated against NDOC inmates with HCV on the basis of their disability by categorically denying them medical treatment, while providing treatment for other diseases and conditions." (ECF No. 21).

10. The Parties submitted a Proposed Stipulated Discovery Plan and Scheduling Order on April 2, 2020 (ECF No. 32) and the Court entered a Scheduling Order on April 3, 2020 (ECF No. 34).

11. The Parties engaged in written discovery throughout the first phase of the discovery plan. Although the Parties did not disclose expert reports prior to settlement, both sides also engaged experts and consulted with them extensively.

12. The Parties participated in a telephonic pre-settlement conference on June 24, 2020 with Magistrate Judge Cobb and the entered into a stipulation to stay further discovery and discovery deadlines pending the outcome of settlement discussions. (ECF Nos. 45, 46).

13. The Parties participated in a settlement conference with Magistrate Judge Cobb on July 9, 2020 and July 10, 2020. (ECF Nos. 54, 55). Thereafter, the Parties continued settlement discussions on August 6, 2020 (ECF No. 59) with Magistrate Judge Cobb, in addition to additional numerous hours spent on videoconferences and teleconferences in between and after the formal settlement conferences.
C. Proposed Resolution

14. This Parties recognize the need to test inmates in NDOC custody for HCV and the need to
provide DAA treatment for HCV. At an April 14, 2020 meeting of the State of Nevada
Board of Examiners, Governor Sisolak remarked: “Treating [HCV inmates] in prison is
critical for two reasons. First, if left untreated, this disease can spread widely through the
prisons. Second, if not treated in prison, treatment will most likely occur after the inmate
has been released. A large percentage of inmates are on Medicaid and treatment later in the
disease lifecycle is more costly than treatment in the early stages. As a result, treatment in
prison is less costly to the State.”

15. Defendants agree that the Consent Decree meets the requirements of 18 U.S.C. §
3626(a)(1)(A) & (e)(1) and they will not seek to terminate or otherwise challenge the
Consent Decree based on a contention that it is inconsistent with the Prison Litigation
Reform Act. In reviewing the claims raised in the Complaint, the State of Nevada, NDOC,
and all individually-named Defendants deny that the NDOC and its employees engaged in
any culpable conduct. The NDOC’s legal position was at all times, and remains, that the
HCV Inmate Patients’ rights were not violated as all versions of (previous and current)
Medical Directive (MD) 219 promulgated by NDOC do not violate the Eighth Amendment
and that the HCV Treatment provided to HCV Inmates was and is medically appropriate
and in conformity with all state and federal laws, including the ADA.

16. By agreeing to entry of this Consent Decree, the Parties make no admission of law or fact
with respect to the allegations in the Complaint. For the purposes of avoiding litigation
among the Parties, however, the Parties agree to the requirements of this Consent Decree.

17. The Parties recognize, and the Court by entering this Consent Decree finds, that this
Consent Decree has been negotiated at arms-length by the Parties in good faith and will
avoid litigation among the Parties, and that this Consent Decree is fair, reasonable, and in
the public interest.
NOW THEREFORE, it is hereby ADJUDGED, ORDERED, AND DECREED as follows:

II. DEFINITIONS

18. “HCV” refers to chronic Hepatitis C.

19. “DAA” refers to direct-acting antiviral medications.

20. “MD 219” refers to the medical directive adopted by Defendants related to the testing and treatment of HCV by NDOC. MD 219 has been revised several times from the first version relevant to this litigation, which was adopted on May 17, 2017. MD 219 was then revised again in November 2019 and January 2020.

21. “HCV Consent Agreement” refers to the agreement signed by an inmate pursuant to MD 219.

22. “Effective Date” refers to the date on which the Court grants final approval to the Consent Decree after the Parties, the State of Nevada Board of Examiners (if necessary), the State of Nevada Interim Finance Committee (“IFC”) and/or the State of Nevada Legislature, have all agreed to the Consent Decree. Should this Consent Decree be agreed to by the Parties, the Court and IFC or Legislature on different dates, the Effective Date shall be the date in which the last necessary entity (IFC, Legislature, Court) has agreed to the terms of the Consent Decree.

23. “Class Members” or “HCV Inmate Patients” refers to all current or future inmates within NDOC custody who were identified by the Court as inmates (a) who are or will be in the legal custody of NDOC; (b) who have been incarcerated for at least 21 days and have at least 12 weeks remaining on their sentence; (c) who have been diagnosed with chronic HCV and are candidates for DAA [Direct Acting Antiviral] treatment pursuant to the proper medical standard of care; and (d) for whom DAA treatment has been or will be denied, withheld, or delayed based on policies or considerations that deviate from the proper medical standard of care.\(^1\)

As the determination of which inmates would fall under categories (c) and (d) has not been litigated and decided, and the Parties continue to dispute what “the proper medical standard of care” is for treating incarcerated individuals with HCV, for purposes of this Consent

\(^1\) See Order, In re: HCV Litigation, ECF No. 21.
Decree, the Parties agree that all individuals incarcerated within an NDOC facility now or in the future who meet the description of the class definition set forth in ¶ 25 (a)-(c) shall be considered an HCV Inmate Patient making them eligible for DAA treatment, if medically indicated, without regard to whether DAA Treatment for each and every HCV positive inmate is constitutionally required.

III. JURISDICTION AND VENUE

24. This Court has jurisdiction over the subject matter of this action and over the Parties pursuant to 28 U.S.C. § 1331 and 28 U.S.C. § 1343(a)(3). Venue is proper under 28 U.S.C. § 1391(b)(1) and (2), because the events that gave rise to this cause of action—the formulation and execution of the versions of MD 219—occurred in Nevada and the Defendants reside in Nevada. For purposes of this Consent Decree and any action to enforce this Consent Decree, Defendants consent to the Court’s jurisdiction over this Consent Decree and any such enforcement action and consents to venue in this judicial district.

IV. CLASS DEFINITION

25. The Court certified a class of all current or future inmates within NDOC custody who (a) who are or will be in the legal custody of NDOC; (b) who have been incarcerated for at least 21 days and have at least 12 weeks remaining on their sentence; (c) who have been diagnosed with chronic HCV and are candidates for DAA [Direct Acting Antiviral] treatment pursuant to the proper medical standard of care; and (d) for whom DAA treatment has been or will be denied, withheld, or delayed based on policies or considerations that deviate from the proper medical standard of care. (ECF No. 21)

26. For the purposes of this Consent Decree, the Parties agree that all individuals with HCV incarcerated within an NDOC facility now or in the future shall be considered a member of the class making them eligible for DAA treatment, if medically indicated.

V. APPLICABILITY

27. The obligations of this Consent Decree apply to and are binding upon the Parties, including any successor agencies or other entities or persons otherwise bound by law.
28. Within ten (10) days of the Effective Date, Defendants shall provide a copy of this Consent Decree to all officers, employees, physicians, and agents whose duties might reasonably include compliance with any provision of this Consent Decree. Defendants shall also provide a copy of this Consent Decree to any third parties retained by Defendants to implement this Consent Decree. In any action to enforce this Consent Decree, Defendants shall not raise as a defense the failure by any of its officers, directors, employees, agents, or physicians to take any actions necessary to comply with the provisions of this Consent Decree.

VI. SUBSTANTIVE PROVISIONS

A. HCV Policies and Procedures

29. Defendants agree to adopt and follow the revised version of MD 219, attached and incorporated as Appendix A, and the revised version of the HCV Consent Agreement, attached and incorporated as Appendix B.

30. Defendants agree not to use any nonmedical reason to deny class members DAA Treatment, or delay DAA Treatment except as specified in Appendix A or Appendix B.

31. Defendants will not modify or replace MD 219 or the HCV Consent Agreement during the time frame in which this Consent Decree is in force, without approval of the Court.

B. Testing

32. Defendants agree to test all inmates in the custody of NDOC for HCV by December 31, 2020.

33. Defendants will continue to test all inmates for HCV during the intake process, unless an inmate refuses or choose to opt-out of the testing.

34. By January 11, 2021, Defendants will screen and prioritize all Class Members using the criteria in the revised version of MD 219, attached as Appendix A.

C. Treatment

35. Defendants represent and warrant that, to the best of their current knowledge, as of the Effective Date there are fewer than 2,400 inmates in NDOC custody who have chronic HCV.
36. Within six (6) months from the approval of this Consent Decree by the IFC or Legislature, Defendants will provide DAA Treatment to all inmates who are prioritized as Priority One, as that term is further defined and described in MD 219, so long as there is no medical contraindication as set forth in MD 219. Appendix A.

37. Within three (3) years from the Effective Date, Defendants will provide DAA treatment to a minimum of 2,400 Class Members based on the following timeline:
   a. A minimum of 1,200 Class Members within the first twelve (12) month period after the Effective Date (for purposes of this provision any inmates treated under Paragraph 36 shall be considered as part of the 1,200 inmates);
   b. A minimum of an additional 600 Class Members within the second (12) month period after the Effective Date; and
   c. A minimum of an additional 600 Class Members within the third (12) month period after the Effective Date.

38. After the above timeline is completed, thirty-six (36) months after the Effective Date, Defendants agree to provide DAA treatment to Class Members within NDOC’s custody at a rate that, at a minimum, exceeds the HCV infection rate of new inmates who test HCV positive, or who are confirmed to be HCV positive, during the intake process. For the avoidance of ambiguity, if an additional 600 inmates tested positive for HCV during intake in one calendar year, then Defendants agree to provide DAA treatment to at least 600 Class Members in the same calendar year.

D. Monitoring

39. Class Counsel agree to be appointed as Monitors for the purposes of this Consent Decree.

40. For the duration of the Consent Decree, Defendants agree to timely provide Monitors and the Court, in accordance with the Stipulated Protective Order and filed under seal or redacted as necessary, with copies of Minutes of the HCV Committee within fourteen (14) days of each meeting and comprehensive quarterly reports containing the following categories of information:
   a. The number of inmates tested/screened during the reporting period;
b. The number of inmates who tested positive for HCV during the reporting period (including the date on which each inmate tested positive for HCV);

c. The number of inmates who began receiving DAA Treatment (with an indication of which type of DAA Treatment was provided and the date on which DAA Treatment was initiated) during the reporting period;

d. The number of inmates who concluded their course of DAA Treatment (with an indication of which type of DAA Treatment was provided and the date on which DAA Treatment was concluded) during the reporting period;

e. The number of inmates who obtained SVR (cure) after completion of DAA treatment during the reporting period.

f. The number of inmates who were tested after receiving DAA treatment but did not obtain SVR (cure) after completion of DAA treatment during the reporting period.

g. The number of inmates for whom DAA Treatment was denied or delayed (with information and explanations for each denial/delay) during the reporting period.

41. Defendants agree to cooperate with Class Counsel to ensure that the above information is provided in a reasonably usable and accessible format on a timely basis.

E. Attorney’s Fees

42. Subject to separate approval by the Board of Examiners, the Parties agree Defendants will provide an attorney’s fees award of $160,000 to Class Counsel ("Award"), which is a discounted amount that Class Counsel has agreed to accept. The Consent Decree, without the Award, can be separately approved by the IFC and/or Legislature even if the Board of Examiners does not approve the Award. Should approval be provided to the Consent Decree but not the Award, the Parties agree that Class Counsel may seek the non-discounted amount of their attorney’s fees as provided herein. The Award also includes attorney’s fees for ongoing monitoring to which Class Counsel may otherwise be entitled, and, if approved, precludes a separate request by Class Counsel for the same. Upon approval of the Award, apart from the Award and except as otherwise specified herein, the
Parties agree to bear their own attorney’s fees arising from the litigation prior to the Effective Date.

43. If the Award is not approved by the Board of Examiners, then the Parties agree this Consent Decree does not resolve the issues of whether Class Counsel are entitled to attorney’s fees or the amount of those fees should they be awarded. The Parties agree to submit the matter of whether attorney’s fees are appropriate and the amount of those fees should they be awarded, to Magistrate Judge Baldwin for a Report and Recommendation.

44. If the Award is not approved, the Parties agree that this Consent Decree shall not be deemed to be an acknowledgement or admission that either Party is deemed to be a prevailing party due to the Consent Decree. Plaintiffs assert they are the prevailing party in this action and reserve the right to seek attorney’s fees. Defendants do not agree and reserve the right to contest that Plaintiffs are the prevailing parties in this action, that Class Counsel is entitled to any attorney’s fees, and the amount of attorney fees requested by Plaintiffs. Each Party may rely on this Consent Decree and Appendix A in order to make their respective arguments as to whether either party is a prevailing party and to argue the appropriateness of attorney’s fees being provided to either Party.

45. Any Party who is successful in any future motion or proceeding to enforce the terms of the Consent Decree, will be entitled to seek and collect reasonable attorney’s fees and costs of suit incurred in prosecuting or defending such motions.

F. Costs

46. Defendants agree to reimburse the Federal Pro Bono Program and Class Counsel for costs and expert witness fees in an amount not to exceed $25,000. Class Counsel agrees to provide NDOC’s counsel with receipts, invoices, or other documentation needed to support the reimbursement of the Federal Pro Bono Program and Class Counsel for these amounts not to exceed $25,000 in total. Apart from this reimbursement, and except as otherwise specified herein, the Parties agree to bear their own costs arising from the litigation prior to the Effective Date.
G. Incentive Awards

47. The Parties agree that this Consent Decree shall not be deemed to be an acknowledgement or admission that any Class Representative is entitled to an Incentive Award due to the Consent Decree. Should any Class Representative with an existing case related to HCV seek an Incentive Award, NDOC agrees to not oppose such requests on the grounds that they are made in the separate action rather than the class or consolidated action, but reserves the right to challenge whether any Class Representative is entitled to Incentive Fees or monetary damages.

H. DISPUTE RESOLUTION

48. Any dispute shall be submitted to the Court for a hearing on the issues.

I. NOTICE TO THE CLASS

49. Prior to a fairness hearing, and early enough to provide practicable notice, the Parties will provide Class Members with notice of the proposed Consent Decree and provide a mechanism for ascertainable Class Representatives and Class Members to provide input prior to or at the fairness hearing. The Parties also will provide ascertainable Class Representatives and Class Members with an additional opt-out period prior to the fairness hearing.

50. Defendants shall ensure that written notice to the Class Members is made known by posting in conspicuous places throughout the NDOC institutions a notice to be jointly drafted by the Parties’ counsel following approval of this Consent Decree. The notice will be posted within ten (10) days of it being agreed to by the Parties (and the Court should the Court require its approval) and shall be posted for a minimum of thirty (30) days. Defendants may also choose—but are not obligated to—place a copy of the notice in any medical file of any identifiable HCV Inmate Patient.

J. ACCESS TO RELEVANT DOCUMENTS

51. The Parties agree that Class Counsel and the Court shall have access to all documents necessary and relevant to the implementation of this Consent Decree subject to the terms
of the Stipulated Protective Order in this action and in a manner consistent with HIPAA’s protections regarding Protected Health Information.

K. EFFECT OF SETTLEMENT/RESERVATION OF RIGHTS

52. The Consent Decree shall be deemed to serve as a final judgment and resolution of claims for prospective relief concerning Defendants’ policies and practices for testing and treatment of HCV, including MD 219 and the Consent Agreement. The Parties agree that nothing in this Consent Decree precludes the Class Representatives or any other Class Member from continuing their current individual lawsuits, or bringing future lawsuits, seeking monetary damages. The Parties also agree that nothing in this Consent Decree precludes any plaintiff from asserting other claims that do not pertain to the general prospective relief issues addressed in the Consent Decree; further, a plaintiff may seek injunctive relief for their individual claims based on the application of the revised policies to that individual. The Consent Decree is not to be construed and shall never at any time for any purpose be considered an admission of liability on the part of Defendants who reserve all rights to defend themselves against any current or future claims, including for monetary damages claims, without waiving any potential defenses, including sovereign immunity, Eleventh Amendment Immunity, qualified immunity, discretionary acts immunity, and any other common law, statutory defense, or affirmative defense that may be applicable as a defense against any claim brought by a Class Member against the State, NDOC, or any individual state employee in the future.

53. Notwithstanding the Parties’ mutual promise to amicably resolve these issues, this Consent Decree is contingent upon approval by the Board of Examiners, the IFC, and/or the Legislature. While the Parties cannot bind these decisionmakers regarding whether to approve or disapprove of this Consent Decree, the Governor’s Office for the State of Nevada has agreed to present and recommend the terms of this Consent Decree to the IFC and/or Legislature for approval at the next possible opportunity.

54. This Consent Decree is contingent upon the approval of the Court as required under the Federal Rules of Civil Procedure regarding class action settlements.
VII. MISCELLANEOUS

55. Mitigating Factors - This Consent Decree is based upon the unique circumstances and mitigating factors relating to Class Action Lawsuit and shall not be considered in any separate legal or administrative proceeding involving any other person, excluding the Parties, for any purpose whatsoever.

56. Counterparts - This Consent Decree may be executed simultaneously in one or more counterparts, each of which shall be deemed an original.

VIII. RETENTION OF JURISDICTION

57. The Court (Judge Du and Magistrate Judge Baldwin) shall retain jurisdiction to enforce the terms of this Consent Decree.

IX. MODIFICATION

58. This Consent Decree shall not be modified in any way absent Court approval.

X. SIGNATORIES

59. Each undersigned representative certifies that he or she is fully authorized to enter into the terms and conditions of this Consent Decree and to execute and legally bind the Party he or she represents to this document.

XI. FINAL JUDGMENT

60. Upon approval and entry of this Consent Decree by the Court, this Consent Decree shall constitute a final judgment of the Court in Case No. 3:19-cv-00577-MMD-CLB.
61. This Consent Decree will terminate four years from the Effective Date, but the Court may extend this Consent Decree and/or any of its provisions for good cause in the event that Defendants have failed to substantially comply.

SO ORDERED THIS _______ DAY OF _______ 2020

_________________________
UNITED STATES DISTRICT JUDGE
APPENDIX A

Medical Directive 219

APPENDIX A
EFFECTIVE DATE: 07/2020

MEDICAL DIRECTIVE

NUMBER: 219
TITLE: HEPATITIS C, TREATMENT OF

PURPOSE:

These guidelines represent the treatment of Hepatitis C in the Nevada Department of Corrections. These guidelines assist medical practitioners in evaluating patients. However, nothing in these guidelines take precedence over a case-by-case determination of the medical needs of the patient. The goal of treatment of Hepatitis C-infected persons is to reduce Hepatitis-C transmission and associated morbidity and mortality by the timely achievement of a virologic cure as evidenced by a sustained virologic response.

AUTHORITY:

AR 621, NRS 209.381, NAC 441A, NAC 441A.570

RESPONSIBILITY:

Medical Division staff has the responsibility to have knowledge of and comply with this procedure.

DEFINITIONS:

HEPATITIS C - A blood borne pathogen transmitted primarily by way of percutaneous exposure to blood.

HCV – Chronic Hepatitis C as diagnosed by a qualified medical practitioner

DAA – Direct Acting Antiviral treatment in the form of an FDA-approved treatment for HCV, which may include, without limitation, Epclusa (sofosbuvir/velpatasvir) or Mavyret (glecaprevir/pibrentasvir)

PRACTITIONER - Physician, Physician Assistant, or Advanced Practice Registered Nurse

PROCEDURES:

219.01 TESTING FOR HEPATITIS C AT INTAKE

1 Unless an inmate refuses or chooses to opt out of Hepatitis C testing, all inmates will be tested for Hepatitis C during the Intake process and all inmates who have not previously been tested will be tested. Inmates who refuse Hepatitis testing must sign a DOC 2523 at the point of refusal. If at any time in the future the State of Nevada requires Hepatitis C to be a mandatory test (e.g., TB), then inmates will not be provided the opportunity to opt...
out of testing, and any inmate who previously opted out will be required to cooperate in testing.

The following are CDC identified risk factors for a possible Hepatitis C infection to guide whether an inmate should be re-tested for Hepatitis C:

a. Ever injected illegal drugs or shared equipment (including intranasal use of illicit drugs)

b. Received tattoos or body piercings while in jail or prison, or from any unregulated source

c. HIV or chronic Hepatitis B virus (HBV) infection

d. Received a blood transfusion or an organ transplant before 1992, received clotting factor transfusion prior to 1987, or received blood from a donor who later tested positive for HCV infection

e. History of percutaneous exposure to blood

f. Ever received hemodialysis

g. Born to a mother who had HCV infection at the time of delivery

h. Born between 1945 and 1965

219.02 EVALUATION FOR HEPATITIS C TREATMENT

Institutional procedure:

a. All inmates who have tested positive for HCV are candidates for treatment with DAAs.

b. All inmates with HCV will receive DAA treatment unless there are medical reasons indicating treatment with DAAs is not medically appropriate or necessary. Inmates with HCV will be prioritized in accordance with the medical priorities outlined in MD 219.04.

c. All candidates must be enrolled in the Infectious Disease Chronic Clinic for Hepatitis C using DOC 2689 Chronic Disease Clinic Enrollment Form and the enrollment entered into NOTIS.

d. NDOC will maintain an HCV Committee which shall consist of the Medical Director or designee and at least two (2) institutional practitioners. The HCV Committee shall meet at least once per month.

e. The HCV Committee shall be presented with a DOC 2698 Hepatitis C Patient Data Form with all backup documentation for each case to be discussed during the
f. In accordance with this Medical Directive, the Committee will discuss medical cases of HCV inmate patients related to prioritization, classification, and evaluation and shall make referrals to an outside provider for DAA treatment.

g. Medical staff will initiate Hepatitis C Treatment protocol orders per DOC 2518 Physician Orders – Hep C.

h. Inmate patients will be scheduled with a provider to review and sign DOC 2730 Hepatitis C Treatment Consent-Agreement.

   i. The inmate patient will be informed that noncompliance with DOC 2730 Hepatitis C Treatment Consent-Agreement will result in the inmate patient being responsible for all future costs of HCV treatment if they become re-infected after successfully completing the DAA Treatment and obtaining SVR.

   ii. The inmate patient will be informed that noncompliance with DOC 2730 Hepatitis C Treatment Consent-Agreement may result in the delay of HCV treatment for medical reasons based on the Practitioner’s medical opinion. Any possible delay in treatment will not occur if the delay in treatment would cause the inmate patient’s medical condition to worsen or would result in patients in a lower priority level (as defined in MD 219.04) being sequenced for treatment before the inmate patient per MD 219.04. Instead, any delay may result in the inmate patient being placed after similarly situated medical patients but still within the same priority level for treatment.

   iii. The inmate patient’s prior six-month disciplinary history will be reviewed for evidence of high-risk behaviors for HCV infection. The inmate patient will be provided with necessary resources to educate the patient as to the dangers of high-risk behaviors (fresh tattoos, drug use, possession of controlled substances or alcohol, assaultive behavior, and any sexual activity) and provided with resources to overcome any potential addiction. The disciplinary history review will not be used to deny or delay DAA Treatment unless a Practitioner identifies medical reasons indicating that treatment with DAAs is not medically appropriate or necessary at the time.

   i. Any inmates with HCV who have not been treated with DAAs will be evaluated every six months (including obtaining a new APRI score), per Medical Directive 447, Attachment A.

**219.03 TREATMENT OF HEPATITIS C**

a. All inmates who have tested positive for HCV are candidates for treatment with DAAs so long as they have sufficient time remaining on their sentence. Sufficient
time is defined for the purposes of this section as 120 days remaining on the sentence from the beginning date of the DAA Treatment.

b. Treatment will be conducted in conformity with MD 219.04 and MD 219.05.

219.04 PRIORITY CRITERIA FOR HEPATITIS C TREATMENT

Treating patients during incarceration saves lives and reduces the transmission of HCV among people with high-risk behaviors. Although almost all patients with HCV will benefit from treatment, certain patients are at higher-risk for disease progression. Treatment of inmate patients shall be sequenced based on the below priority levels for more urgent administration of treatment. The following criteria have been established to ensure those with the highest need and greatest likelihood of achieving a sustained viral response (cure) are identified and treated first.

<table>
<thead>
<tr>
<th>Priority Level</th>
<th>Criteria</th>
</tr>
</thead>
</table>
| Priority Level 1
Highest Priority for treatment | • Advanced hepatic fibrosis: APRI ≥2.0, Metavir or Batt's/Ludwig stage 3 or 4 on liver biopsy, cirrhosis (FibroSure is not required to be (but may be) drawn if the APRI score is 2.0 or greater).
• APRI score is between 0.7 and 1.9 AND Fibrosure Score of F3 or F4
• Liver transplant recipients
• Hepatocellular carcinoma (HCC)
• Comorbid conditions associated with HCV, e.g. cryoglobulinemia with renal disease or vasculitis and certain types of lymphomas or hematologic malignancies or porphyria cutanea tarda
• Immunosuppressant medication
• Continuity of care: when started on treatment prior to incarceration |
| Priority Level 2
Intermediate Priority for treatment | • Evidence for progressive fibrosis: APRI score ≥ 0.70, stage 2 fibrosis on liver biopsy
• APRI score is less than 0.7, but constitutional signs and symptoms (i.e. bleeding or bruising easily, ascites and/or jaundice) are present (FibroSure is not required to be (but may be) drawn if the APRI score is 0.69 or less). If an inmate patient's APRI score is less than 0.7, but constitutional signs and symptoms (i.e. bleeding or bruising easily, ascites and/or jaundice) are present, the inmate patient may be evaluated further
• Comorbid Medical conditions such as co-infection with HBV or HIV, comorbid liver diseases (autoimmune hepatitis, hemochromatosis, steatohepatitis)
• Diabetes mellitus
• Chronic kidney disease (CKD); GFR ≤ 59 mL/min |
| Priority Level 3
All other candidates | • Stage 0 to stage 1 fibrosis on liver biopsy
• APRI <0.70 with no constitutional signs and symptoms (i.e. bleeding or bruising easily, ascites and/or jaundice) present (Fibrosure is not required to be (but may be drawn if the APRI score is 0.69 or less))
• All other cases of HCV infection meeting the eligibility criteria for treatment as noted below under Other Criteria for Treatment |
*EXCEPTIONS* to the above criteria for PRIORITY LEVEL 1-3 will be made on an individual basis and will be determined primarily by a compelling or urgent need for treatment, such as evidence for rapid progression of fibrosis, or deteriorating health status from other comorbidities.

219.05 POSSIBLE CONTRAINDICATIONS FOR TREATMENT:

Below are issues that could possibly lead to a contraindication for DAA Treatment. Therefore, should any of these conditions be present, medical evaluations may be necessary as per MD 219.03 and 219.04. The medical evaluations will be performed by Practitioner examining the inmate patient as part of the inmate patient’s enrollment in the Chronic Care Clinic. These contraindications include:

a. Insufficient time remaining on the sentence to complete DAA treatment. Insufficient time is defined as fewer than 120 days remaining on the sentence in NDOC.

b. Contraindications to any component of the treatment regimens (including other medications that may be necessary in conjunction with DAA Treatment).

c. Failure to complete the pretreatment evaluation process, or an unwillingness to commit or consent to HCV treatment.

d. Severe decompensated liver disease.

e. Any other end stage disease process that would cause a contraindication to the DAA Treatment.

g. Life expectancy of less than twelve (12) months.

h. Uncontrolled seizures.

i. Failure to maintain compliance with signed Hepatitis C Treatment Consent/Agreement (DOC 2730), which may result in a medical need to delay treatment on a case-by-case basis as determined by the medical provider. Any possible delay in treatment will not occur if the delay in treatment would cause the medical condition to worsen or would result in patients with a lower priority level (as defined in MD 219.04) being sequenced for treatment before the patient in question per MD 219.04. Instead, any delay may result in the patient in question being placed after similarly situated medical patients but still within the same priority level for treatment.

j. Boarders from other political subdivisions of the State of Nevada will be considered for treatment based on their priority level, but after all non-boarders within the same priority level as referenced in 219.04 receive treatment.

THIS PROCEDURE SUPERSEDES ALL PRIOR WRITTEN PROCEDURES ON THIS SPECIFIC SUBJECT.
APPENDIX B
HCV Consent Agreement

APPENDIX B

Treatment of Hepatitis C is available to all patients but is prioritized to patients who understand the commitment to therapy, will tolerate and comply with the course of treatment, and agree to avoid all activities that may worsen their liver disease or infect themselves or others with the Hepatitis C virus or other bloodborne pathogens. Every patient must complete this consent/agreement before initiation of therapy.

(Please initial each statement and sign below to indicate your understanding of all parts of this document)

_____ I understand that there is a possibility that the therapy may be of no benefit to me and that it may not get rid of my Hepatitis C infection.

_____ I have been informed that side effects of treatment of Hepatitis C may include fatigue, body aches, and other serious side effects that may continue through my treatment with the medication.

_____ I understand that I may be tested for HIV before beginning treatment as the presence of the HIV virus could seriously affect my Hepatitis C infection and its treatment.

_____ I understand that the treatment with medication typically lasts between 8-12 weeks, but may continue for up to 36 weeks and that frequent blood testing may be needed to check for side effects or other problems. To the extent your treatment is not completed before the expiration of your sentence (which will only occur in the rare instance that you begin treatment within 120 days of your expiration date), you will be responsible for ensuring that the treatment is completed upon release from NDOC custody because any interruption in the treatment could result in the treatment being unsuccessful.

_____ I understand that treatment for Hepatitis C may, in certain patients, cause mental health side effects, especially depression.

_____ I understand that I should avoid becoming pregnant while receiving treatment, and that I should use two forms of birth control during heterosexual activity while taking medication, and for six months after, in an effort to avoid pregnancy.

_____ I understand that my failure to comply with the medication, blood testing, or regular appointments may result in a medical need for my provider stopping the therapy.

_____ I understand that alcohol injures the liver and that drinking alcohol is forbidden.

_____ I understand that I must abstain from any activity that may transmit the Hepatitis C virus or other bloodborne pathogens. This includes tattooing, sexual activity in NDOC custody, IV drug use, and intranasal drug use.

_____ If I become reinfected after the completion of the course of treatment due to my decision to engage in tattooing, sexual activity, IV drug use, intranasal drug use, or other prohibited behaviors, I may be charged for the cost of future treatment.

_____ I understand that I may be required to undergo random blood or urine testing for illegal substances.

_____ I understand that failure to comply with this agreement, including but not limited to testing positive for illegal substances or engaging in other prohibited behaviors, could increase the likelihood of re-infection or could reduce the likelihood of successful treatment. I understand that should I engage in any of these prohibited activities my medical provider may (but is not required to) delay treatment if that provider believes the medical benefits of treating other medical conditions (that would lead me to becoming more susceptible to re-infection or other health consequences) prior to initiating treatment outweigh the risks of delaying treatment. However, I also understand that any possible delay in treatment will not occur if the delay in treatment would cause my medical condition to worsen or would result in patients in a lower priority level (as defined in MD 219.04) being sequenced for treatment before me per MD 219.04. Instead, any delay may result in me being placed after similarly situated medical patients but still within the same priority level for treatment.

_____ My initials above and my signature below signify my understanding of, and agreement to comply with, the requirements.

MEMORANDUM

Date: August 25, 2020

To: State Budget Division – The Clerk of the Board of Examiners
From: State Controller’s Office
Subject: Request for Designation of Bad Debt

NRS 353C.220 delegates authority to the State Controller to request, on behalf of state agencies, that the State Board of Examiners (or Clerk of the Board) designate certain debts as bad debts. This includes the uncollectible accounts receivable submitted to the Controller’s Office for collections from all state agencies and departments.

Enclosed is a summary of delinquent accounts that have been referred to the Controller’s Office for collections and to write off. Our private collection agency has been unable to recover any of the outstanding debts listed. Please review these accounts and write them off accordingly if you concur.

0324 Independent Contract Review Procedure

The following procedures should be adhered to when submitting a contract for review:

1. Contracts should be submitted to the Clerk of the Board of Examiners by the deadline established by the Clerk and disseminated to State agencies via agency memorandums.

2. Each contract must include a clause that specifically states that the State is not obligated under the agreement before approval by the Board of Examiners.

3. The contract should consist of the Attorney General’s approved contract form for independent contractors, the State’s solicitation and the successful vendor’s proposal. Any negotiated items or clarifications should be reduced to writing and incorporated into the contract document as a separate attachment. It is important, when listing the order of the attachments within a contract, to give consideration to the order of precedence to prevent potential conflict in the terms.

4. Three copies of the contract must be submitted; each copy must include signatures of the Attorney General or representative, the responsible agency representative and the contractor. The signature requirement may be met in counterparts and with facsimile and/or electronically scanned copies of the signature page with the use of electronic symbols to substitute or supplement the handwritten or facsimile signature of an authorized signer. Contract distribution is as follows: one copy for the Fiscal Analysis Division of the Legislative Counsel Bureau; one copy to be returned to the agency; and one copy for the independent contractor. Access to all submitted proposals shall be made available by the soliciting agency and will be retained for the life of the contract or six (6) years, or for a period of time as determined by the soliciting agency’s records retention schedule, whichever is longer.

5. The Board of Examiners requests agencies to substantiate all contracts entered into with former employees who would perform work similar to their State employment.

6. Bidding requirements for contracts are outlined in NRS Chapter 333, NAC Chapter 333, and SAM 0338.

7. Board of Examiners’ policy is to review and approve contracts prior to the services being rendered. Agencies are to present contracts in a timely manner and prior to the obligation of State funds. Contracts with a retroactive effective date, e.g., work commenced prior to the Board of Examiners’ approval date, must be accompanied by a memorandum clearly justifying the circumstances.

8. All contracts involving information systems must be reviewed and approved by the Department of Informational Services prior to submittal to the Board of Examiners.

9. All applicable contracts placed on the agenda for Board approval or the Clerk of the Board approval must provide satisfactory proof from the Secretary of State’s Office (SoS) that the contractors have a current Nevada State Business License (SBL), and if they are a Nevada corporation, LLC, LP, LLP, or LLLL, or non-profit corporation, that their corporation is active and in good standing. Satisfactory proof may include one of the following: from the contractor; a copy of the certificate of good standing or of an unexpired business license or a print-out from the SoS free Business Entity Search showing active status. Additionally, if they are a corporation, LLC, LP, LLP, or LLLL, or non-profit corporation based out of state, they must be registered as a foreign equivalent in Nevada, in active status and in good standing. Any business, except non-profit organizations organized pursuant to NRS Chapters 82 Non Profit Corporations and Chapter 84 Corporations Sole that qualifies for an exemption from the business license requirement must file a notice of exemption which will be on record with the SoS’s Office.

REQUEST FOR CHANGES TO THE STATE ADMINISTRATIVE MANUAL (SAM)

Agency Code: 015/1342
Department: Governor’s Finance Office
Division (if applicable): Division of Internal Audits
Appointing authority: Warren K. Lowman
Agency contact (name, phone and e-mail): Vita Ozoude, 775-233-9576, vcozoude@finance.nv.gov
Budget Division Analyst (name, phone and e-mail): Michael Rankin, 775-684-0203, mjrankin@finance.nv.gov
Proposed BOE date: September 8, 2020
Proposed effective date: October 1, 2020

1. Reason/purpose for requested change:

Per DIA Audit Report No. 20-12, SAM needs to be revised to reflect IRS treatment of cell phone stipends. Although SAM states a “stipend will be taxable income to the employee and will be reported on their W-2, Wage and Tax Statement”, IRS guidelines and OAG indicate cell phone stipends are non-taxable and non-reportable. Revising SAM to reflect IRS guidelines on cell phone stipends will ensure SAM is properly updated and aligned with federal guidelines.

2. Explain how the recommended change(s) will benefit agencies or create consistencies or efficiencies, etc. (provide examples if applicable):

The recommended change will ensure SAM is properly updated and is aligned with federal guidelines regarding non-taxability of cell phone stipends.

3. Will recommended change have a fiscal impact (if yes, explain):

No. The recommended change will have no fiscal impact.

4. Existing and recommended language in SAM (blue bold italics is new language being proposed and red-strikethrough is deleted language being proposed). (please provide requested change as an attachment):

BOARD OF EXAMINERS APPROVAL DATE: 

(for BOE use only)
1616 Cellular Telephones

Each department of the State of Nevada must develop a cellular telephone, portable tablet, or other mobile device policy that meets the department’s specific needs regarding the necessary use of such devices for work-related activities while operating within budget authority, addressing the potential legal issues regarding access to the record of the devices’ use, and being compliant with the State’s personnel rules associated with requiring employees to be available for contact after their regular working hours.

The departmental policy must fully address security issues and must specifically identify criteria to determine eligibility to receive a cellular telephone, portable tablet, or other mobile device at state expense or a stipend for the use of a personal device. There must be a compelling reason directly related to efficiencies to be gained and the employee’s job duties and responsibilities that necessitates a cellular telephone, tablet or other mobile device for business purposes.

There are 3 acceptable methods to provide for employee use of a cell phone, tablet, or other mobile device:

1. State issued device – the agency provides the employee with an approved State device pursuant to the state contract for such services and pays the monthly charges directly to the service provider. The device remains the property of the Stater and the employee must comply with all policies regarding personal use of state devices. If the employee’s personal use of the device results in additional costs to the State, the employee must reimburse the State for such charges at least monthly. Agencies must take care to choose the appropriate plan level for the needed use for State purposes. This may include prepaid phones that only include voice services. Upon separation from the agency that issued the device, the employee shall return the device. Departmental policy must include acknowledgement of receipt of device and terms and conditions of use that should be retained in employee file.

2. Stipend paid by State for employee using personal device for State purposes – the State pays an employee a monthly stipend to use their personal device to conduct State business. The base plan cost is understood to include cellular telephone, internet, and/or data services. The stipend amount will remain the same regardless of the amount of State business conducted on the personal device. The employee is responsible for contracting with a service provider, paying for any initial plan charges, the cost of the device, and paying the monthly bills. The State is not responsible for any penalties should the employee terminate the contract with the service provider.

Because the cellular telephone, tablet or other mobile device is owned personally by the employee, the employee may use the device for both
personal and business purposes as needed. Use of the device in any manner contrary to local, state or federal laws will constitute misuse and will result in immediate termination of the stipend. *The stipend will not be taxable to the employee and will not be reported on their W-2, Wage and Tax Statement.* The stipend will be taxable income to the employee and will be reported on their W-2, Wage and Tax Statement. The stipend amount will be established by each Department director when they develop the policy for their respective Department.

3. Employee voluntarily uses personal device to conduct State business without compensation.

Employees must be aware that it is possible the record of use for any device used for State business, could be considered a public record. Regardless of the reimbursement method used, each employee using a device for State business or connected to the State’s IT infrastructure must sign an “Acceptable Use Agreement” and an Agreement for Use of a Mobile Device.” The respective Department policy must be attached to each Acceptable Use Agreement” and Agreement for Use of a Mobile Device” and shall be retained in the employee’s file.

An agency may rescind a state issued device or stipend any time if the business necessity or budget authority no longer exists. Employees are expected to comply with all applicable laws regarding the use of cellular devices while operating a motor vehicle. Each department policy shall include a reference to SAM 420 1307.
1616 Cellular Telephones

Each department of the State of Nevada must develop a cellular telephone, portable tablet, or other mobile device policy that meets the department's specific needs regarding the necessary use of such devices for work-related activities while operating within budget authority, addressing the potential legal issues regarding access to the record of the devices' use, and being compliant with the State's personnel rules associated with requiring employees to be available for contact after their regular working hours.

The departmental policy must fully address security issues and must specifically identify criteria to determine eligibility to receive a cellular telephone, portable tablet, or other mobile device at state expense or a stipend for the use of a personal device. There must be a compelling reason directly related to efficiencies to be gained and the employee's job duties and responsibilities that necessitates a cellular telephone, tablet or other mobile device for business purposes.

There are 3 acceptable methods to provide for employee use of a cell phone, tablet, or other mobile device:

1. State issued device – the agency provides the employee with an approved State device pursuant to the state contract for such services and pays the monthly charges directly to the service provider. The device remains the property of the State and the employee must comply with all policies regarding personal use of state devices. If the employee's personal use of the device results in additional costs to the State, the employee must reimburse the State for such charges at least monthly. Agencies must take care to choose the appropriate plan level for the needed us for State purposes. This may include prepaid phones that only include voice services. Upon separation from the agency that issued the device, the employee shall return the device. Departmental policy must include acknowledgement of receipt of device and terms and conditions of use that should be retained in employee file.

2. Stipend paid by State for employee using personal device for State purposes – the State pays an employee a monthly stipend to use their personal device to conduct State business. The base plan cost is understood to include cellular telephone, internet, and/or data services. The employee is responsible for contracting with a service provider, paying for any initial plan charges, the cost of the device, and paying the monthly bills. The State is not responsible for any penalties should the employee terminate the contract with the service provider.

Because the cellular telephone, tablet or other mobile device is owned personally by the employee, the employee may use the device for both personal and business purposes as needed. Use of the device in any
manner contrary to local, state or federal laws will constitute misuse and will result in immediate termination of the stipend. The stipend will not be taxable to the employee and will not be reported on their W-2, Wage and Tax Statement. The stipend amount will be established by each Department director when they develop the policy for their respective Department.

3. Employee voluntarily uses personal device to conduct State business without compensation.

Employees must be aware that it is possible the record of use for any device used for State business, could be considered a public record.

Regardless of the reimbursement method used, each employee using a device for State business or connected to the State’s IT infrastructure must sign an "Acceptable Use Agreement" and an Agreement for Use of a Mobile Device." The respective Department policy must be attached to each Acceptable Use Agreement" and Agreement for Use of a Mobile Device" and shall be retained in the employee’s file.

An agency may rescind a state issued device or stipend any time if the business necessity or budget authority no longer exists.

MEMORANDUM

DATE: September 8, 2020

TO: Richard Jacobs, Budget Officer 1, Executive Branch

THROUGH: Charles Donohue, Administrator, Division of State Lands

FROM: Andre Emme, Land Agent II, Division of State Lands

SUBJECT: BOE Agenda Item for November 10, 2020 – CSN Daycare Lease

Pursuant to NRS 322.007 and 322.050, we are requesting the attached Lease Agreement as issued by the Nevada Division of State Lands (NDSL) on behalf of the Department of Health and Human Services (DHHS) to the College of Southern Nevada (CSN) for continued use as a daycare facility be placed on the agenda for the Board of Examiners meeting as scheduled for October 13, 2020. The lease will also need to go to the December 2020 Interim Finance Committee meeting (IFC). The deadline to submit for consideration on the December IFC is October 12, 2020.

NDSL and CSN entered into a new lease to replace a lease that expired on June 30, 2020. The lease is for an existing daycare facility that was authorized under a license with several time extension and fee re-evaluation amendments from July 12, 2001 until October 21, 2016 when it was determined that a lease was a more appropriate authorizing document.

The Lease will retroactively become effective on July 1, 2020 after approval of the Board of Examiners and the Interim Finance Committee for a FIVE (5) year term, terminating on June 30, 2025.

Both NRS 321.007 (1) and 321.335 (1) provide for an exemption of securing two appraisals when leasing to a state of local government.

Pursuant to NRS 321.003 (2) and 322.060 (2), a monthly rental fee of $1,760.00 is being assessed based upon fair market value of the land as determined in the appraisal report prepared by Southwest Property Consultants dated May 5, 2020. The appraisal report was reviewed and accepted by State Lands on May 11, 2020.

If you have any questions or require additional information, please do not hesitate to contact Andre Emme at 684-2733 or via email at aemme@lands.nv.gov.

Thank you.

Projected BOE Date: October 13, 2020

Lessor: VISTA BUENA HOLDINGS, LLC
Tenant: GFO, OFFICE OF PROJECT MANAGEMENT (Smart 21)
Property Location: 1886 E College Parkway, Carson City

This retroactive seven year lease was negotiated based on a current lease with DMV for the same space. DMV has vacated their space and Smart 21 will now hold the lease for themselves and DPS. Rent will be paid by DPS directly to Smart 21. The Lessor has agreed to accept the new rate and square footage in lieu of holdover for the entire space, thus creating a savings for the agencies.

The current cost per square foot is $1.73, which will be the cost for the first year of the new lease, increasing by 3% every other year.

LoopNet’s ‘grossed up’ advertised average market rate for this area, without improvements, is $1.79 per square foot. There is no state space available to accommodate these agencies.

Thank you,

Jennifer Zampanti

Heather Field
Governor’s Finance Office, Budget Division
209 East Musser Street, Room 200
Carson City, NV 89701-4298

Dear Ms. Field,

Thank you for presenting our packets of information to the Board of Examiners (BOE) at their upcoming meeting. We are renewing an existing lease at the Kietzke Office Complex, LLC. This lease is effective August 1, 2020 and is therefore in retroactive status as it was implemented prior to BOE approval.

As Executive Director and Certified Contract Manager for our Board, I have had to work from a home office since March 2020 due to COVID-19. To help contain the spread of COVID-19, the Board of Examiners for Social Workers staff has arranged to work remotely until it is determined safe to resume regular on-site business operations based on guidance provided by local authorities and the State of Nevada.

As my VPN application did not go through EITS in a timely fashion, we resubmitted a VPN application in May 2020 so that I could access CETS to work on contracts as well as other matters necessary to my position. The VPN was successfully installed for my home office on July 22, 2020. At that time, I proceeded to work on contracts with our budget liaison as rapidly as I possibly could. I apologize for the delay in submitting this lease in a timely fashion.

If you have additional questions, please do not hesitate to contact me at the Board. I will be responding to all inquiries as quickly as possible. Thank you for your understanding and patience as we work to assist you and others while maintaining a safe working environment for our staff team.

Best regards,

Karen Oppenlander, LISW, MSW

Hi Kevin,

The Governor’s Office of Economic Development respectfully requests the approval of another emergency purchase pursuant to NAC 333.114 in order to be able to contract with a vendor to administer the Nevada COVID-19 Emergency Small Business Recovery Grant Program for the State. This program will be funded with $20,000,000 in CARES Act funds that have been designated by the Governor for the purpose of providing operational support to small businesses, non-profit organizations, arts and culture organizations, and local Chambers of Commerce.

Attached for your information is a document that outlines how the program will work. The full $20,000,000 will be contracted to a vendor with 6% of the actual approved grant payments payable to the vendor to administer the program (accept, review, and approve applications, and also to process the payments to the grantees). The maximum amount to be paid for administrative costs is $1,132,075 and the maximum to be paid to grantees is $18,867,925 with the payment schedule provided in the screen shot below.

This new program needs to begin as soon as possible in order to ensure that the funds are disbursed by December 30, 2020. Please let me know if you have any questions.

To: Susan Brown, Director
   Clerk of the Board of Examiners
   Governor’s Finance Office, Budget Division

From: Michael Brown
       Executive Director
       Governor’s Office of Economic Development

Re: Request for Retroactive Contract with the Kenny Guinn Center for Policy Priorities

This memorandum serves as a request for retroactive approval to October 1, 2020 for contract 23617 with the Kenny Guinn Center for Policy Priorities anticipated to be on the agenda for the October 13, 2020 Board of Examiner’s meeting.

This contract between the Governor’s Office of Economic Development (GOED) and the Kenny Guinn Center for Policy Priorities is being funded by CARES Act funding that was awarded to develop a workforce study that identifies the effects that COVID-19 has had on Nevada’s workforce and develop strategies to retrain workers displaced due to COVID-19 for new career pathways.

Thank you in advance for your consideration of this request.

Hi Kevin,

The Governor's Office of Economic Development respectfully requests the approval of another emergency purchase pursuant to NAC 333.114 in order to be able to contract with a vendor to administer the Nevada COVID-19 Emergency Small Business Recovery Grant Program for the State. This program will be funded with $20,000,000 in CARES Act funds that have been designated by the Governor for the purpose of providing operational support to small businesses, non-profit organizations, arts and culture organizations, and local Chambers of Commerce.

Attached for your information is a document that outlines how the program will work. The full $20,000,000 will be contracted to a vendor with 6% of the actual approved grant payments payable to the vendor to administer the program (accept, review, and approve applications, and also to process the payments to the grantees). The maximum amount to be paid for administrative costs is $1,132,075 and the maximum to be paid to grantees is $18,867,925 with the payment schedule provided in the screen shot below.

This new program needs to begin as soon as possible in order to ensure that the funds are disbursed by December 30, 2020. Please let me know if you have any questions.

II. JUSTIFICATION

7. What conditions require that this work be done?

   Jobs for America's Graduates (JAG) is a state-based national non-profit organization dedicated to preventing dropouts among young people who are not at-risk. This contract will enable the Department of Education to fulfill its obligation to this program.
8. Explain why State employees in your agency or other State agencies are not able to do this work:

The Jobs for America's Graduates model requires the state to contract with a qualified non-profit organization to administer this program. Jobs for America's Graduates operates in school districts throughout the state and includes funding from private partnerships.

9. Were quotes or proposals solicited?  No
   Was the solicitation (RFP) done by the Purchasing Division?  No
   a. List the names of vendors that were solicited to submit proposals (include at least three):
      Not Applicable
   b. Solicitation Waiver: Not Applicable
   c. Why was this contractor chosen in preference to other?
      Pursuant to SB 555, an allocation has been made directly to JAG therefore no waiver is required and no other vendors were solicited.
   d. Last bid date: Anticipated re-bid date:

10. Does the contract contain any IT components?  No

Hi Kelli,

Pursuant to NAC 333.114, you are authorized to proceed with the contract with Quality Healthcare Management.

Kevin

Kevin D. Doty
Administrator
Purchasing Division
Nevada Department of Administration
(775) 684-0183
kddoty@admin.nv.gov

Good morning Mr. Doty.

I am requesting an emergency contract with Quality Healthcare Management. The Bureau of Health Care Quality and Compliance (HCQC) has an immediate need to enter into a contract with a temporary healthcare management company due to an immediate serious threat to residents in order to mitigate the immediate danger at the facility and provide for the safe transfer of residents. This is the result of a complaint investigation in which an immediate jeopardy was identified. HCQC will need to pay for the costs of the temporary management company through 3216 Health Facility Fees (RGL 3601). The costs will be repaid by the facility (Reno Valley.)

NAC 449.0044 “Immediate and serious threat” and “immediate jeopardy” defined. (NRS 449.0302) “Immediate and serious threat” or “immediate jeopardy” means a situation in which corrective action within 48 hours is necessary because the failure by a facility to comply with a requirement for licensure, certification or participation in Medicare or Medicaid has caused, or if uncorrected is likely to cause, serious injury or harm, or even death, to a recipient.
(Added to NAC by Bd. of Health, eff. 8-1-91)

NAC 449.99841 “Temporary management” defined. (NRS 449.0302) “Temporary management” means the temporary appointment by the Bureau or by a court of competent jurisdiction of a manager or administrator with authority to operate the facility and to hire, terminate or reassign staff, obligate money of the facility, alter
procedures and manage the facility to correct the deficiencies found during a survey or visit identifying the deficiencies.

**NAC 449.99855 Imposition in emergencies: Authority; notice.** *(NRS 449.0302, 449.165)*

1. If necessary to protect the public health and safety, the Bureau may impose such sanctions as are necessary without notice to the facility or by oral notice to the facility.

2. If there is an immediate and serious threat to the health and safety of recipients served by a facility, the Bureau may appoint a temporary manager to remove the threat. A temporary manager may also be appointed without prior written notice on an emergency basis if a facility violates any ban on admissions. If there is an immediate and serious threat to the health and safety of recipients, the times provided for notice contained in this subsection govern. In all other respects, the provisions governing temporary management found in NAC 449.99915 to 449.99921, inclusive, apply.

3. The Bureau may, in an emergency, impose a ban on admissions, a limitation on occupancy of a residential facility or may suspend the license of a facility without notice or upon oral notice as provided in this section.

4. In any case where sanctions are imposed without written notice, the Bureau shall provide written notice that complies with the requirements of NAC 439.345 within 48 hours after the imposition of the sanctions.

*(Added to NAC by Bd. of Health, eff. 8-1-91; A by R044-97, 10-30-97)*

**NAC 449.99921 Payment of costs and expenses.** *(NRS 449.0302, 449.165)* The costs and expenses of temporary management, including the compensation of the manager, must be paid by the facility through the Bureau while the temporary manager is assigned to the facility.

Thank you for your consideration.

MEMORANDUM

TO: Aaron Frantz, Budget Officer
    Governor’s Finance Office

THROUGH: Christina Hadwick, Administrative Services Officer IV
    Division of Public and Behavioral Health

FROM: Kelli Quintero, Administrative Services Officer III
    Division of Public and Behavioral Health

SUBJECT: REQUEST FOR RETROACTIVE APPROVAL—Quality Healthcare Asset Management CETS 23546

This memorandum requests that the following Contract 17719 be approved for a retroactive start.

The following information is required:
- Name of Vendor: Quality Healthcare Asset Management
- Services to be provided: Temporary management and/or relocation of residents to ensure safety
- Funding source and expenditure category: BA 3217, BA# 3216- CAT 04; Fees.
- Requested start date of work: September 1, 2020
- Expected execution date of agreement: October 13, 2020
- Detailed explanation as to why a retroactive agreement is necessary, including:
  - Reason(s) why the agreement was not submitted timely:
    - This is an emergency management takeover of an unsafe residential facility for groups by Order of Summary Suspension of License issued on August 21, 2020.
  - Describe the impact to the program/services if this work is not started prior to the execution of the agreement:
    - Unsafe conditions for individuals living in the residential facility for groups with the potential for serious harm, injury or death as evidenced by the violations noted in the order of summary suspension of license.
  - Explain how the program/bureau will prevent future retroactive requests: This was an unexpected emergency.

If you have any questions, please contact Leticia Metherell at (775) 684-1045 or lmetherell@health.nv.gov.

**Total Estimated Value of this Service Contract, Amendment or Purchase:**

$120,000

**Provide a description of work/services to be performed or commodity/good to be purchased:**

Chapin Hall will provide information on an Internet-based reporting system that will be used by DCFS, the Nevada judicial system and other authorized entities to obtain state specific and nationwide child welfare data and the ability to generate reports relevant to federal outcomes such as time of adoption, time to reunification, placement stability, time to permanency and foster care reentry. Chapin Hall will provide technical assistance on extracting, interpreting and using information from the database to analyze child welfare system performance. The Nevada Supreme Court is a significant user of this information and will be reimbursing the Division for half of the expense.

**What are the unique features/qualifications required for this service or good that are not available from any other vendor:**

Chapin Hall specializes in compiling child welfare data and provides a flexible longitudinal database from Nevada’s records. Data on child welfare case processing and outcomes are not easily accessed. Specific data points are provided to the federal government and is made available to the public. However, the scope is limited and includes only the large jurisdictions in the State. Chapin Hall specializes in compiling the data in a meaningful way through the Foster Care Data Archive. The Nevada judicial system, Nevada child welfare, other judicial districts and Community Improvement Council Members have been offered training by the Supreme Court to access this data.

Chapin Hall data center membership provides the following benefits:

- A state-of-the-art, longitudinal child welfare database: For each member state, the Data Center designs, builds, and provides a copy of a sophisticated, flexible, longitudinal database built from the state’s own administrative child welfare records. Member states receive semianual updates of this database.

- Access to the Multistate Foster Care Data Archive (FCDA) web tool: The FCDA web tool is an online portal to states’ longitudinal databases. The web tool is a high-powered, user-friendly, decision support instrument that enables a wide variety of users to answer critical questions about systemic trends and outcomes. It includes a comprehensive User Guide as well as Recipes—a blog designed to orient users to the concepts behind longitudinal analysis and guide them step-by-step through the kinds of analyses that the web tool can produce.
Technical assistance and educational opportunities: Data Center members receive five hours of general technical assistance on installation and use of the longitudinal database and web tool. Additionally, members enjoy access to a variety of web-based and in-person training opportunities provided throughout the year. These general trainings focus on using the FCDA web tool and developing sound analytic queries pertaining to outcomes for children in foster care. Other training opportunities can be negotiated on a case-by-case basis.

The Data Center is a partnership of state child welfare agencies, Chapin Hall at the University of Chicago, the American Public Human Services Association, and the Center for Social Services Research, University of California at Berkeley. Because of this partnership, it is possible to analyze admission, discharge and caseload trends, as well as permanency outcomes such as length of stay in foster care, placement stability, and re-entry not only within Nevada, but in comparison with other states. The Multistate portal of the web tool standardizes variables across states in order to enable apples to apples comparisons between them. In addition to contributing the data available on this platform, member states may elect to establish a state-specific portal that enables intrastate analyses of variables that may be customized according to state coding requirements. The current active states are: Arizona, California, Connecticut, District of Columbia, Illinois, Kentucky, Maryland, New Jersey, New York, Oklahoma, South Carolina, Tennessee, Texas, Virginia and Washington.

Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

Chapin Hall is the only entity that specializes in the collection and analysis of this data that has worked with Nevada and has a longitudinal database of Nevada records. This information is used in Nevada to improve outcomes for children subject to dependency proceedings. Chapin Hall has conducted research for multiple states and is relied upon by Congress to help shape child welfare public policy. The service is not a commercially viable service and is conducted by a non-profit entity to achieve a public good.

Were alternative services or commodities evaluated? Check One.  Yes:  No:  X

a. **If yes**, what were they and why were they unacceptable? Please be specific about features, characteristics, requirements, capabilities and compatibility.

b. **If not**, why were alternatives not evaluated?

Chapin Hall is the only vendor identified that provides these services. Additionally, this vendor possesses the necessary expertise and capabilities to continue to assist Nevada in achieving timely permanency for children subject to child welfare proceedings though data collection and reporting. Chapin Hall has a unique ability to provide this service and it receives funding support from a variety of private foundations and governments.
Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

If Chapin Hall is not engaged to continue providing service, Nevada’s child welfare system will no longer have access to crucial longitudinal data to use to continue improving outcomes for children. Lack of access to the data and reports could potentially contribute to backsliding in terms of the substantial gains we have seen in child welfare outcomes such as the over one-hundred-day reduction in the average time to permanency.

What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

Internet searches were done to attempt to identify another vendor that provides this service. Chapin Hall and the Federal Government are the only entities that collect, report, and analyze this type of child welfare data, often in partnership. Thus, no other competitor can be identified through research or consultation. As a non-profit entity, Chapin Hall charges rates necessary to provide service not return a profit.
The Statewide and Tribal Automated Child Welfare Information Systems (SACWIS/TACWIS) is a federally funded data collection system that is used by a majority of the states. However, state systems are in various stages of development and use. Additionally, each State has the latitude to establish its own format and functionality. Thus, the longitudinal information on children and families in these systems is limited and unique to each state. As described above, Chapin Hall’s solution provides the child welfare data in a format that is useful to the Nevada judicial system and other users to improve child welfare outcomes.

Will this purchase obligate the State to this vendor for future purchases? **Before selecting your answer, please review information included on Page 2, Section 9 of the instructions.**

a. If yes, please provide details regarding future obligations or needs.

Although there is no obligation to the State for future purchases, the entity already has the format and import/export capability of the records. Additionally, the participation of many other states makes this a service that will likely be desirable in the future.

FROM: Katrina Nielsen, Administrative Services Officer IV
Division of Child and Family Services

DATE: August 3, 2020

SUBJECT: Retroactive Contract Request

A retroactive effective date of October 1, 2019 is requested for the Contract between the Department of Health and Human Services - Division of Child and Family Services (DCFS) and Chapin Hall Center for Children in order to provide information on an internet-based database and reporting system which will be used by DCFS to generate reports.

These services were initially submitted as a subaward but were later determined to be more appropriately acquired through a contractual agreement. An individual contract and scope of work has been developed to facilitate the necessary work. However, the vendor took exception to several elements within the state’s standard contract terms and conditions and the scope of work and have undergone an extensive negotiation process with our assigned Deputy Attorney General. Further, it was believed that the vendor would not be required to obtain a State Business License (SBL) since they are a web-based, foreign corporation not entering into or conducting business in Nevada. It has since been verified that a SBL is required.

A detailed timeline follows:

**Contract Period 10/1/2018 – 9/30/2019**

- **10/30/2018** – Email sent from Chapin Hall to Jan Fragale notifying DCFS of our membership to the Data Center expiring on 9/30/2018.
- **12/4/2018** – Email forwarded to DCFS Grants Management Unit (GMU) and Fiscal.
- **3/11/2019** – GMU forwarded a prior year subaward to Contracts for review.
- **5/13/2019** – Contracts Unit evaluated the scope of the services and determined it to be a data sharing agreement and not appropriate to be subawarded. Requested a decision whether DCFS should sign the vendors data sharing agreement or initiate a state contract.
- **5/16/2019** – The decision was made to draft a state contract. It was believed the provision in SAM 0326(8) not requiring Board of Examiners’ Review was applicable. In addition, it was believed a State Business License (SBL) would also not be required because they were conducting business outside the State of Nevada.
- **6/12/2019** – Requested GMU provide an updated Data Sharing Agreement from Chapin Hall.
- **7/3/2019** – An initial draft of the contract was sent to program staff for review.
- **7/18/2019** – The contract draft was sent to the DAG for review and signature. The DAG responded with a signed contract the same day. The contract was sent to Chapin Hall for review and approval.
- **7/24/2019** – The Contracts Unit requested additional Chapin Hall contacts as no vendor response had been received. GMU responded with the additional contact information.
• 8/6/2019 – The contract was reissued to Chapin Hall using the additional contact information. Chapin Hall responded that the initial contact information used was incorrect.
• 8/9/2019 – A follow up email was sent to Chapin Hall requesting an expedited review.
• 8/12/2019 – Chapin Hall requested information regarding if federal funding would be used for the project.
• 8/13/2019 – Chapin Hall issued a notification that they needed additional time to review the state’s contract form as they had not had a contract with Nevada since 2011 and much of the contract language had changed.
• 8/26/2019 – Chapin Hall responded with extensive changes requested to the contract and scope of work and suggested having a conference call.
• 9/4/2019 – The contract language changes were sent to the DAG for review.
• 9/5/2019 – The DAG responded with concerns regarding the revised contract language and was not in agreement with the revisions requested. The DAG’s concerns were sent to Chapin Hall and a conference call was scheduled.
• 9/10/2019 – A conference call was held between DCFS, Chapin Hall and the DAG to conduct contract negotiations.
• 9/11/2019 – Chapin Hall emailed their agreement to the negotiated contract revisions.
• 9/12/2019 – The revised contract was sent to the DAG for review and approval. Additional revisions were requested.
• 9/13/2019 – The revised contract was sent to Chapin Hall.
• 9/16/2019 – Chapin Hall requested additional contract revisions. The DAG agreed with the contract language changes. Chapin Hall signed the contract. GMU sent a retroactive memo to support the contract.
• 9/18/2019 – Based upon emailed discussions on 8/16/2019 with the GFO regarding the National Youth Screening and Assessment Partners (NYSAP) contract, it was determined that the Chapin Hall would also be required to obtain a SBL. Chapin Hall was sent information regarding how to register with the Secretary of State.
• 9/23/2019 – Chapin Hall obtained a SBL.
• 9/23/2019 – The contract was routed to the DHHS Director’s Office and they disagreed that the contract qualified as being exempt from the BOE process (see 5/16/2019)
• 9/24/2019 – It was determined that DCFS had not obtained a sole source exemption as required for all contracts over $25,000 and it would not be possible to obtain this as well as all of the required contract signatures prior to the contract’s expiration date. The contract was abandoned, and the vendor was issued payment through the data sharing agreement as had been done in the recent past.

Contract Period 10/1/2019 – 9/30/2019

• 10/8/2019 – DCFS had taken no action to reinitiate a contract. Previously it had been discussed that the Administrative Office of the Courts (AOC) would contract directly with Chapin Hall in the future to avoid delays. However, we received an email from the AOC requesting we continue to contract with Chapin Hall.
• 11/5/2019 – Chapin Hall emailed asking for contact information with the AOC to contract directly.
• 11/21/2019 – It was confirmed that DCFS would be the entity to continue to contract with Chapin Hall since DCFS provided the data used by Chapin Hall to provide reports to the AOC. The AOC would reimburse DCFS for half of the contract cost through an interlocal agreement.
• 11/22/2019 – DCFS requested a new quote for the contract period.
• 12/4/2019 – Chapin Hall responded with a quoted price.
• 1/9/2019 – The Contracts Unit began working on the solicitation waiver.
• 2/11/2020 – The solicitation waiver was submitted to the Purchasing Division for approval.
• ~3/2/2020 – The Purchasing Division called and requested more information along with several changes to the solicitation waiver.
• 3/3/2020 – The Fiscal Unit emailed the AOC and GMU requesting additional information.
• 3/10/2020 – A follow-up request was sent.
• **4/17/2020** – The revised solicitation waiver was received by GMU.
• **4/22/2020** – The solicitation waiver was submitted for internal approval.
• **5/5/2020** – The solicitation waiver was reissued to the Purchasing Division for approval and the signed solicitation waiver was received.
• **5/12/2020** – The Contracts Unit requested an unlocked version of the contract to make the negotiated contract changes to the new contract that were previously agreed upon.
• **5/14/2020** – The contract was sent to the AOC and DAG for review. Additional revisions were requested.
• **6/17/2020** – The contract was sent to program staff for review, which was approved. The contract was sent to the DAG.
• **6/23/2020** – The DAG returned the signed contract.
• **6/25/2020** – The new contract was sent to Chapin Hall for signature.
• **7/24/2020** – Chapin Hall returned the signed contract.
• **8/3/2020** – The contract was submitted to ASO IV for review and approval. Approval was applied in CET.
• **8/4/2020** – The Contract was submitted to Deputy Administrator and DHHS Director’s Office for review and signatures. The signed copy was returned.
• **8/4/2020** – Contract submitted to the GiO for approval.

It is anticipated that future contracts will go smoother and more expeditiously now that the Division has worked through the contract language and state business license issues with this vendor.

If you have any questions, please do not hesitate to contact me at (775) 684-4414.

      Division of Child and Family Services

DATE: August 28, 2020

SUBJECT: Retroactive Contract Request

A retroactive effective date of October 1, 2019 is requested for the interlocal agreement between the Department of Health and Human Services - Division of Child and Family Services (DCFS) and the Nevada Supreme Court. This agreement provides for sharing the expense for the contract with Chapin Hall Center for Children in order to provide information on an internet-based database and reporting system which will be used by DCFS and the Supreme Court for child welfare data. The retroactive approval is requested to correlate with the term of the Chapin Hall contract that has been submitted for the October 13th, 2020 Board of Examiner’s meeting.

If you have any questions, please do not hesitate to contact me at (775) 684-4414.

To: Bridgette Mackey-Garrison, Executive Branch Budget Officer, Governor’s Finance Office

Subject: Retroactive Contract / CETS# 23428 Interlocal-White Pine County Sheriff’s Office

Nevada Department of Corrections (NDOC) respectfully requests approval for the retroactive interlocal Revenue contract between NDOC and White Pine County Sheriff’s Office. NDOC is requesting a retroactive effective date of July 1, 2020 to allow NDOC to provide ongoing inmate meal services for White Pine County Sheriff’s Office. This contract has been under review and was delayed due to time necessary to properly calculate meal cost increases due to dietary menu changes and COVID related cost increases.

Should you have any questions please contact me at (775) 977-5550 or by email at sewart@doc.nv.gov.

Thank you.

II. JUSTIFICATION

7. What conditions require that this work be done?
Food Nutrition Division administers USDA federal feeding programs for a variety of populations and recipients statewide. Based on the federal requirements, NDA needs a system to process and approve applications, sites, meal reimbursement counts and claims, access federal reports, and document and complete program sponsor compliance reviews. The current system is obsolete and nonfunctioning; staff are unable to track data, create required reports and review for compliance as it is manual and paper based. Code of Federal Regulations: 7 CFR Part 225, Part 226, Part 235, Part 240, Part 250 and Part 252.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

State workers do not have the expertise or time available to complete these specific software builds.

9. Were quotes or proposals solicited? Yes
   Was the solicitation (RFP) done by the Purchasing Division? No
   a. List the names of vendors that were solicited to submit proposals (include at least three):

   b. Solicitation Waiver: Not Applicable
   c. Why was this contractor chosen in preference to other?

   NRS 333.475 and 332.195 allows the State of Nevada to join or use contracts of local governments located within or outside the State along with the authorization of the contracting vendor.

   d. Last bid date: Anticipated re-bid date:

10. Does the contract contain any IT components? Yes

III. OTHER INFORMATION

11. Is there an Indirect Cost Rate or Percentage Paid to the Contractor? No
    If "Yes", please provide the Indirect Cost Rate or Percentage Paid to the Contractor Not Applicable

12. a. Is the contractor a current employee of the State of Nevada or will the contracted services be performed by a current employee of the State of Nevada? No
    b. Was the contractor formerly employed by the State of Nevada within the last 24 months or will the contracted services be performed by someone formerly employed by the State of Nevada within the last 24 months? No
    c. Is the contractor employed by any of Nevada’s political subdivisions or by any other government? No If "Yes", please explain Not Applicable

13. Has the contractor ever been engaged under contract by any State agency? Yes
    If "Yes", specify when and for which agency and indicate if the quality of service provided to the identified agency has been verified as satisfactory:

   NDA has had this vendor's software for use in our Food & Nutrition division since 2014. They have been a satisfactory vendor with excellent customer service.

14. Is the contractor currently involved in litigation with the State of Nevada? No
    If "Yes", please provide details of the litigation and facts supporting approval of the contract:

SUBJECT: TIN Update Review Completed – NDA - NDA-FND CACFP/SFSP/FDP Modules – T2691134

DATE: September 21st, 2020

We have completed the review for the submitted update to the Nevada Department of Agriculture’s (NDA) – NDA-FND CACFP/SFSP/FDP Modules TIN.

The submitted TIN update, adds $247,000 to support the addition of the USDA Foods/Commodities module in the previously reviewed solution. This addition brings the total value of this investment to $1,675,726. This investment is funded by Federal Grant.

If there are to be any changes to enterprise services, including: network, server, telecom etc. please notify EITS as soon as possible.

It is expected that this solution will continue to follow state security standards and policies.

A copy of this memo has also been attached to the TIN.

If I can be of further assistance, please feel free to contact me.

Proposed SCORP Project Scope of Work September 2020-December 2021

Background and Overview

The Blueprint Collaborative (TBC) is pleased to submit this two-phase proposal to the Nevada Division of State Parks (NDSP). Phase 1 will constitute the collaborative development of a comprehensive Statewide Comprehensive Outdoor Recreation Plan (SCORP) to submit to the National Park Service by Thanksgiving 2021.

An optional Phase 2 extends the reach of the SCORP by developing a public on-line, interactive database that hosts the inventory of statewide outdoor recreation resources collected during Phase 1. The optional Phase 2 would also evaluate the SCORP process and convene a series of community conversations that engage the public to create momentum for the utilization of Nevada’s SCORP and outdoor recreation.

Phase 1, which extends from the execution of the contract to November 30, 2021, utilizes the following categories as outlined in the Department of Health & Human Services Master Service Agreement (MSA):

1) Project Management
2) Needs Assessment:
3) Data Analysis & Report Development
4) Marketing Services
5) Facilitation

Phase 2, pending funding, would extend from December 1, 2021 through December 31, 2022, and utilize the following categories as outlined in the MSA:

1) Project Management
2) Marketing Services
3) Community Building
4) Program Evaluation
5) Facilitation

The work represented in these categories includes:

1) Project Management: ensure effective processes are in place, including planning, day-to-day coordination, tracking, successful execution, fiscal contract management, and project closeout.
2) Needs Assessment: develop survey instruments (inventory, public opinion, one-on-one interviews and town hall meetings), distribute and collect results.
3) Data Analysis & Report Development: identify data-driven trends and priorities through analysis of existing surveys and community input resulting in a summary report.
4) Marketing Services: create two concepts for design for the SCORP, design and final layout.
5) Facilitation: prepare for and facilitate meetings and data collection activities/events needed to complete the scope of work. This includes SCORP Core team meetings as well as community events.
6) Community Building: **identify opportunities and convene conversations** to strengthen partnerships between the Nevada Division of State Parks and state agencies as well as county and city entities, as well as the public.

7) Program Evaluation: **create and utilize a variety of engagement and satisfaction tools/strategies to evaluate the process, progress and satisfaction of the overall work of developing and presenting the SCORP.**

**A Phased Approach**

**PHASE I: Deliver the Nevada State Comprehensive Outdoor Recreation Plan by November 30, 2021**

Phase I of this project includes:

a) review existing outdoor recreation data and documents from identified key sources;

b) collect/update an outdoor recreation assets inventory through an on-line survey of a range of outdoor recreation providers, participants and stakeholders;

c) solicit public opinion of outdoor recreation availability, use and possibilities through on-line surveys and 5-7 community-based meetings (actual logistics of community meetings to be determined based on restrictions for public gatherings due to COVID-19);

d) customized one-on-one interviews and focus groups with up to 20 individuals and small groups to delve deeper into diverse perspectives on outdoor recreation; and

e) summarize findings in a fully-developed and professionally-designed document that meets the requirements of the Land & Water Conservation Fund State Assistance Program for the Nevada SCORP to be delivered to the National Park Service by Thanksgiving 2021.

The **Phase 1 deliverables** include:

1) A **Nevada Outdoor Recreation Inventory** report based on the outdoor recreation asset inventory;

2) An **on-line public opinion survey** to be used to collect the opinions, current use, and aspirations for outdoor recreation across the state of Nevada (customized for different audiences);

3) Completion of **five to seven town hall meetings** across the state to collect additional perspectives and to build awareness of the surveys and future SCORP community/regional engagement plans;

4) Completion of up to **20 one-on-one interviews** with key stakeholders and influencer groups to gather additional and more specific information;

5) **Summary report** of all findings from the on-line surveys, town hall meetings and interviews; and

6) **Completed SCORP** that includes comprehensive content developed hand-in-hand with and approved by NDSP in a fully-designed document including graphics and infographics.

**Phase 1 Proposed Timeline: September 2020 – November 2021 (16 months)**

OPTIONAL PHASE 2: Community Engagement and Program Evaluation by December 31, 2022
Pending additional funding, an optional Phase 2 of this project would launch after the completion of the Nevada SCORP which delivers a vision and robust plan for Nevada’s Outdoor Recreation “network.” The SCORP will unveil a tremendous amount of information. Once it is complete, a key challenge for NDSP will be to answer the question, “Now what?”

We propose to work with NDSP to launch a community engagement campaign to ensure the citizens of Nevada are aware of and invited to fully participate in the diverse bounty of Nevada’s Outdoor Recreation opportunities as outlined in the SCORP. An on-line database and map of all NV Outdoor Recreational activities will be developed and link provided. We will also evaluate the development and outcomes of the SCORP through key stakeholder debriefs as well as further surveying outdoor recreation users through a Community Engagement process.

The Optional Phase 2 deliverables would include:

1) public forums (up to 10) held in each of the designated regions of Nevada to present the highlights of the SCORP and invite participation, feedback and engagement;

2) summary of feedback from the public on the SCORP during/following all Community Engagement events (above) via a quick questionnaire that will provide information on the change in level of awareness of outdoor recreation opportunities before and after SCORP; and

3) summary of feedback from all stakeholders (departments, agencies, city/county representatives, etc.) who were involved in any aspect of the SCORP development process, to collect their opinion of the process, the product, and their confidence level for the impact that the SCORP may have on Nevada Outdoor Recreation.

The Community Engagement process will result in greater awareness (and thus participation) by Nevadans across the state of the amazing inventory of Outdoor Recreation options available.

The Program Evaluation process will result in a full understanding of the level of engagement, satisfaction in and enthusiasm for the SCORP by the key stakeholders who were involved in the development of the SCORP. The evaluation will also gather and provide information from the general public on their reaction and hopes for the SCORP through regional Community Engagement events.

Budget

TBC estimates a total of 615 hours will be needed to accomplish the deliverables outlined above for Phase 1, for a total of $110,850. Pending additional funding, the optional Phase 2, would cost an additional $53,550. The total cost for both phases of the project would be $164,400.

We are unable to estimate travel, materials and meeting supplies that may be needed for both phases 1 and 2 of this project at this time due to COVID-19 implications for meeting formats. Many of our activities may take place on-line. Cost reimbursement for these items will need to be agreed upon as the options for in-person events becomes clearer and more certain in future months/years.

See the chart below for costs by category of the work as defined by the MSA and corresponding fiscal reporting requirements.

II. JUSTIFICATION

7. What conditions require that this work be done?
Approximately 440,000 lbs. of confidential information is destroyed each year by individual State agencies. Contract provides a cost effective way for agencies to destroy the information and meets the requirements for HIPAA confidential documents.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   The State Library and Archives has a means of destruction, but does not have the staff and therefore requires agencies to send their staff to use the equipment for shredding. In addition, the majority of the volume is in Southern Nevada and is not cost effective to transport documents to Northern Nevada, accompanied by an employee that must man the destruction.

9. Were quotes or proposals solicited? Yes
   Was the solicitation (RFP) done by the Purchasing Division? Yes
   a. List the names of vendors that were solicited to submit proposals (include at least three):

   b. Solicitation Waiver: Not Applicable
   c. Why was this contractor chosen in preference to other?
      Upon thorough review and evaluation of proposals from pre-selected weights and criteria, this vendor was the highest scored for a statewide solution by the evaluation committee.

   d. Last bid date: 05/11/2016  Anticipated re-bid date: 05/11/2020

10. Does the contract contain any IT components? No

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: $37,500.00
   Payment for services will be made at the rate of $250.00 per Hour
   Other basis for payment: Per Itemized Invoice

II. JUSTIFICATION

7. What conditions require that this work be done?

   Since ESSA's passage, the U.S. Department of Education has finalized assessment regulations, repealed and removed regulations related to accountability and supplement not supplant, and released various guidance documents on how the law should be implemented, including recent guidance on supplement not supplant and equitable services. Also, Uniform Grants Guidance (UGG) changes took place in 2015, and recently-proposed UGG changes will lead to additional updates to EDGAR. Adding to that confusion are the new CARES Act flexibilities allowed under Federal Titles programs.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   Legal education consultation for federal programs is a specialty that our state employees are not qualified in.

9. Were quotes or proposals solicited?
   No
   a. List the names of vendors that were solicited to submit proposals (include at least three):
b. Solicitation Waiver: Not Applicable

c. Why was this contractor chosen in preference to other?
Pursuant to NAC 333.114, the Department was authorized to proceed without a solicitation. Vendor was selected because cost was low and knowledge and history of working with the agency.

d. Last bid date: 07/10/2020 Anticipated re-bid date:

10. Does the contract contain any IT components? No

II. JUSTIFICATION

7. What conditions require that this work be done?

   While discussing the capacities, gaps, and concerns that districts are facing as they contemplate the reopening of schools per the Nevada Governor's Emergency Directive 022, and through the engagement of multiple conversations with all 17 school districts, including advocates, school staff, and parents and students, it has become apparent that districts, schools, and students do not all have the same resources and coping capacities. COVID-19 has underscored the need for our education system to do the difficult work of addressing opportunity gaps and racial biases, as schools work to develop reopening plans amidst COVID-19, economic hardships, and social unrest. The Nevada Department of Education (NDE), as well as District and Charter School leadership, need immediate support and training to address these issues in a caring, supportive, and effective manner.

   In light of this reality, the NDE propose to enter into an emergency contract with The National Equity Project to assist the NDE with the short term outcomes of 1) training the NDE staff to be able to support each other, educators, staff, and students with the complex issues of inequity, opportunity gaps, implicit bias, and systemic injustice and 2) instructing how to effectively embed Equity strategies into the State Improvement Plan so that the NDE can reduce the trauma to our most vulnerable students, families, and staff. This priority aligns with the Governor's focus on education and will help to reduce the social and emotional suffering of our most impacted students and staff.
8. Explain why State employees in your agency or other State agencies are not able to do this work:
The State does not have the resources or expertise to provide these services.

9. Were quotes or proposals solicited? No

II. JUSTIFICATION

7. What conditions require that this work be done?
According to NRS 385A.800, 385A.810, 385A.820, and 385A.830, the State School Superintendent has the authority to dictate the information systems used to collect and report State required data fields for the Student Accountability Information Network (SAIN). The Superintendent has selected the Infinite Campus product as the State standard. This decision was reaffirmed by the selection, through a competitive bid process performed by Washoe County, Clark County, and the State Public Charter Schools as the student information system that best meets their needs.

The Nevada Department of Health and Human services (DHHS) would like to receive counts of the number of students by school that are displaying COVID-19 related symptoms. Infinite Campus contains a module in the District Edition called the Daily Health Log that captures these symptoms. This information does not currently sync to the State Edition, so a solution is needed to move the data from the District Edition to the State Edition. There it can be aggregated and set to the DHHS.

8. Explain why State employees in your agency or other State agencies are not able to do this work:

Infinite Campus is a proprietary software product only available through the vendor. This contract will license a cloud based product that has no impact on the technology resources of the State.

9. Were quotes or proposals solicited? No

Provide a description of work/services to be performed or commodity/good to be purchased:

To provide the Nevada Department of Education access to the statewide version of the Infinite Campus Student Information System. The system is responsible for the collection and reporting of all public school and student information. The system is used as the primary method for data collection and reporting to the State and Federal Government as well as student enrollment and apportionment of the DSA funds.

What are the unique features/qualifications required for this service or good that are not available from any other vendor:

Per NRS 385A.810 Adoption of uniform program for school districts to collect, maintain and transfer data to system. The board of trustees of each school district shall:

1. Adopt and maintain the program prescribed by the Superintendent of Public Instruction pursuant to NRS 385A.820 for the collection, maintenance and transfer of data from the records of individual pupils to the automated system of information, including, without limitation, the development of plans for the educational technology which is necessary to adopt and maintain the program;

2. Provide to the Department electronic data concerning pupils as required by the Superintendent of Public Instruction pursuant to NRS 385A.820; and

3. Ensure that an electronic record is maintained in accordance with subsection 3 of NRS 385A.830.

NRS 385A.820 Duties of Superintendent of Public Instruction regarding uniform program for collection, maintenance and transfer of data to system. The Superintendent of Public Instruction shall:

1. Prescribe a uniform program throughout this State for the collection, maintenance and transfer of data that each school district must adopt, which must include standardized software;

2. Prescribe the data to be collected and reported to the Department by each school district and each sponsor of a charter school pursuant to NRS 385A.810 and by each university school for profoundly gifted pupils;

3. Prescribe the format for the data;

4. Prescribe the date by which each school district shall report the data to the Department;

5. Prescribe the date by which each charter school shall report the data to the sponsor of the charter school;

6. Prescribe the date by which each university school for profoundly gifted pupils shall report the data to the Department;

7. Prescribe standardized codes for all data elements used within the automated system and all exchanges of data within the automated system, including, without limitation, data concerning:

(a) Individual pupils;

(b) Individual teachers;

(c) Individual schools and school districts; and

(d) Programs and financial information;

8. Provide technical assistance to each school district to ensure that the data from each public school in the school district, including, without limitation, each charter school and university school for profoundly gifted pupils located within the school district, is compatible with the automated system of information and comparable to the data reported by other school districts; and

9. Provide for the analysis and reporting of the data in the automated system of information.

As per NRS 385A.820, the Superintendent selected the Infinite Campus product for the Nevada Student Data System (Effective July 1, 2014). This decision was reaffirmed by the selection through a competitive bid process (RFP) performed by Washoe County and Clark County as the student information system would that best meet their needs.

The Infinite Campus product is unique in its architecture differentiating itself fundamentally from other similar products. Each district maintains a version of Infinite Campus and the Department maintains a State Edition of the product which synchronizes selected data elements with the district editions in real time. The State Edition data is then used to populate the SAIN longitudinal data warehouse for use for all state and federal reporting requirements.
Explain why this service or good cannot be competitively bid and why this purchase is economically only available from a single source:

**Infinite Campus is a proprietary software product only available through the vendor. The product is a statewide system that requires the presence of the State Edition to collect and report data from each district edition in Nevada. The system currently consists of 53 district editions that are connected and synchronizing student data to the State.**

When the software was originally purchased it could not be competitively bid as the three largest school districts in the state had already chosen and implemented Infinite Campus (87% of the total student population). If the state went out to bid and selected another product, Washoe, Clark and the SPCSA would be forced to implement a new system even though they had just selected IC as the best product for their districts. With 87% of the student’s information already in Infinite Campus, solicitation for another product is unreasonable from a systems or a fiscal perspective.

The Department cannot competitively bid and select any other product and still maintain a statewide system of accountability. District editions of Infinite Campus will not synchronize with any other product. If the Department were to select another vendor, the statewide system would be missing the central repository for data and districts would go back to being independent systems with custom configurations based only on local district needs. The Department would have to contract with another vendor to write code that would extract necessary data from each district and load into the state system. This work would have to be repeated 53 times, once for each district student information system.

The Infinite Campus product in Nevada is currently based on a statewide pricing model. Each district pays a per-student licensing fee a per-student hosting fee; and a maintenance fee. The State pays a per-student licensing fee; a per-student hosting fee; and a maintenance fee. Per student licensing fees are dependent on maintaining a State Edition. The portion the State pays for licensing is deducted from the District licensing cost. Currently the State pays $2/student and the Districts receive a $2 discount. If the Department were to bid and select another product, all District’s pricing would increase. The following table shows the estimated price increases for each district if the State did not use Infinite Campus. The immediate licensing cost increase to our districts would total almost one million dollars.

If the Department were to select another vendor’s product, all districts would have to incur costs to build new systems for the collection and reporting of data to the Department. These cost increases...
would be in addition to the increases in licensing. Infinite Campus automates much of the State data collection and reporting requirements for Districts and we are continually enhancing the product to increase the level of interoperability this statewide systems offers.

Infinite Campus was selected by both Washoe and Clark County School Districts as the best solution on the market for managing students and their data. Infinite Campus is primarily a student information system. It is designed specifically for managing districts, schools and students and the data associated with them. Infinite Campus also has a State Edition which allows for the collection and consolidation of district data into a single data store that is then used for federal and state reporting. However, the product is mainly about students and the management of student data. For the State to competitively bid this system and potentially select a different product than was already determined the best product by our largest school districts would not benefit the State or our students in any way.

Were alternative services or commodities evaluated? Check One. Yes: No: X

a. If yes, what were they and why were they unacceptable? Please be specific with regard to features, characteristics, requirements, capabilities and compatibility.

b. If not, why were alternatives not evaluated?

Infinite Campus is a proprietary software product only available through the vendor. Per NRS 385A.810 Adoption of uniform program for school districts to collect, maintain and transfer data to system. The board of trustees of each school district shall:

1. Adopt and maintain the program prescribed by the Superintendent of Public Instruction pursuant to NRS 385A.820 for the collection, maintenance and transfer of data from the records of individual pupils to the automated system of information, including, without limitation, the development of plans for the educational technology which is necessary to adopt and maintain the program;

At the time of original purchase, it was determined that based on NRS 385A.810 the authority to prescribe what system will be used resides with the Superintendent of Public Instruction and that this authority superseded the Solicitation requirement. We were instructed by Purchasing to move forward with a contract based on the Superintendent’s authority.

As stated above, this vendor was selected by the State Superintendent of Public Instruction, and reaffirmed by Washoe County and Clark County through the RFP process as the information system that best meets their needs. The SPSCA also adopted Infinite Campus for all their Charter Schools. These three entities make up 87% of the total student population in Nevada. The Department would have no reason to go to bid for a product that is already so widely adopted. Any other choice for a statewide system would force 87% of our student population to migrate to a product not currently in use in their district, by their parents or the students.

Has the agency purchased this service or commodity in the past? Check One. Note: If your previous purchase(s) was made via solicitation waiver(s), a copy or copies of ALL previous waivers MUST accompany this request.

What are the potential consequences to the State if the waiver request is denied and the service or good is competitively bid?

**Infinite Campus** is a cloud-based, proprietary software product only available through the vendor.

- A competitive process resulting in the selection of another product would require the state to go through a full system conversion. The costs associated with implementing a new student information system would result in millions of dollars in implementation costs over and above the cost of the product itself. The initial implementation costs for the State Edition of Infinite Campus exceeded $1 million dollars.

- If the State was unable to maintain the State Edition of Infinite Campus, the state would no longer have a fully integrated statewide system. This would result in the need to develop custom data collection routines for each of the public school districts and charter schools. This would be a giant step backwards for Nevada and result in additional costs associated with maintaining multiple custom data collection methods.

- Without this product, the Department would not be able to meet State and Federal data collection and reporting requirements for any of our 480,000 students. Student data would no longer synchronize between district and state requiring additional development or new products would have to be purchased to collect and report student data.

- The Department would be unable to calculate Average Daily Enrollment and would be unable to make DSA payments to districts and charters.

- The Department would not be able to determine the number of students in special populations like Gifted and Talented, English Language Learners, Free and Reduced Lunch or Special Education and could not longer report on those populations.

- Districts would be forced to enter into new contracts with Infinite Campus that were not protected by a statewide contract and would be subject to individual price increases. If the state’s contract with Infinite Campus does not continue, the Superintendent’s decision to utilize Infinite Campus as Nevada’s student information system would be moot as the statewide system is dependent on the State Edition.

- The Department would need to hire additional resources to maintain the 53 district’s data collections and reporting.

What efforts were made or conducted to substantiate there is no competition for the service or good and to ensure the price for this purchase is fair and reasonable?

**In 2009 Washoe County initiated a RFP process to replace their district’s student information system. Through the competitive bid process, Washoe selected Infinite Campus. In 2014 Clark County**
initiated a RFP process to replace their student information system. Clark County, through the competitive bid process, selected Infinite Campus. The State Public Charter School Authority also decided to replace their student information system with Infinite Campus and used Washoe and Clark’s RFP results as justification for selecting the Infinite Campus product. Washoe, Clark and the SPCSA make up 87% of the total student population in Nevada. Due to the fact Infinite Campus was the system of choice for almost 90% of our total student population, the decision was made by the Superintendent to make Infinite Campus the statewide system.

The RFP process conducted by Washoe and Clark as well as the SPCSA decision to use Infinite Campus and the Superintendent’s statewide mandate has solidified the fact that Infinite Campus is the product of choice and the State contract has ensured the state as well as all our schools are getting the product at a fair and reasonable price.

Because of the statewide buying power, Nevada has been able to keep the cost of the product at the same level as when we initially purchased and has been successful in negotiating reduced pricing for new add-on products being offered by Infinite Campus.

Comparable contracts exist in Kentucky and Hawaii. Kentucky pays slightly more (.67/student) than Nevada but their cost includes an additional Transcript fulfillment application. Hawaii pays slightly less but Hawaii is a single school district so they only have a single district edition and one state edition. Based on these comparisons Nevada is getting comparable pricing from the vendor and the vendor’s pricing is comparable in the market.

MEMORANDUM

TO:        Susan Brown, Director
           Governor’s Finance Office

THROUGH:   Richard Whitley, MS, Director
           Department of Health and Human Services

FROM:      Dena Schmidt, Administrator
           Aging and Disability Services Division

SUBJECT:   Request for Approval for Retroactive Start Date for August 3, 2020, HVAC Contract with ControlWorks, Inc.

This memorandum requests the above referenced Aging and Disability Services Division (ADSD) contract with ControlWorks, Inc. be approved for a retroactive start date effective August 3, 2020. This contract requires this retroactive start date for the State’s obligation to continue to provide services and ensure the safety of our employees.

This contract is for the HVAC system in the Administration building at 1391 Jones in Las Vegas, which is completely down. The software and controlling mechanisms must be reprogrammed and replaced. Without properly working HVAC, the building is completely inaccessible. More than 30 FTE, including the main administrative functions of the agency in Las Vegas, work from this building.

ADSD has been collaborating with its State agencies and the vendor to finalize contract language to meet the needs and contractual obligations for all parties.

Thank you for your consideration.

cc:        Jessica Adams, ADSD, Deputy Administrator
           Mariana Acevedo, ADSD, Contract Manager
Hi Mariana,

Not having air conditioning in Las Vegas during the summer is justification for an emergency contract under NAC 333.114. Please proceed with the needed work. The vendor has a strong incentive to follow through with the Controller's Office because that is the only way they will get paid.

Kevin

Hello Kevin,

We tried contacting Ryan but it seems like is out today...

We have an issue with air conditioning that is pretty critical in one of our Las Vegas buildings. We have obtained three quotes as I could not find a GOS contract for this. The cheapest option does not have a Controller's number, they are currently working on this with the Controller's office but it can take up to 10 days. Unfortunately we do not have an additional 10 days a our staff is currently unable to work in this facility due to the heat. Could we move forward with the contract while they work on the T# or would that not be possible.

Thank you,

3. Termination Date: 06/30/2021
   Contract term: 286 days

4. Type of contract: Other (include description): MSA Work Plan
   Contract description: Elect. Health Record

5. Purpose of contract:
   This is a new work plan under master service agreement #3466 which provides cloud services. This work plan covers the adoption of an industry proven, widely used electronic health record Software as a Service technology which will enable the Desert Regional Center to be in compliance with the national digital records mandate as well as the Health Insurance Portability and Accountability Act and the Health Information Technology for Economic and Clinical Health Act.

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: $36,049.92
   Other basis for payment: As invoiced by the Contractor and approved by the State.

II. JUSTIFICATION

7. What conditions require that this work be done?
   Current technology in use at the facility does not encompass electronic health record (EHR) technology, nor does it fulfill the national digital health records mandate. Implementation of the EHR will fulfill the national mandate and provide enhanced statistical data to meet regulatory verification and approvals by the Center for Medicaid and Medicare Services (CMS) and Human Rights Committee oversight.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
The regulatory requirements, necessary complexity and high commercial demand for a suitable application of this type of software indicate the selection of a solution that is either commercial off-the-shelf (COTS) or Software-as-a-Service (SaaS.) The State of Nevada is not in possession of a proprietary solution, and the creation of a custom piece of software by applications development teams in our agency or any other State of Nevada agency is not feasible due to lack of resources, and not cost-effective due to the size and complexity of the solution needed.

Contract description: Driveway Entrance

5. Purpose of contract:

This is a new contract to install a new driveway entrance on the north side of the facility parking lot.

6. NEW CONTRACT

The maximum amount of the contract for the term of the contract is: $11,197.00

Payment for services will be made at the rate of $11,197.00 per Upon Completion of Project

II. JUSTIFICATION

7. What conditions require that this work be done?

Summit View Youth Center needs a reinforced driveway suitable for delivery trucks, abutting or tying into the existing State-owned asphalt parking lot and the existing City-owned asphalt street. This facility experiences flooding that blocks both entrances during heavy rains. The Fire Department has suggested adding an additional entrance on the north side of the parking lot to El Campo Grande Road to help maintain egress during inclement weather. This would require the removal of one or more concrete barriers, and it would include the addition of a driveway to the parking lot.

   Anticipated BOE meeting date 10/2020
   Retroactive? No
   If "Yes", please explain Not Applicable

3. Termination Date: 06/30/2021
   Contract term: 300 days

4. Type of contract: Contract
   Contract description: Exterior Doors

5. Purpose of contract:
   This is a new contract to provide the replacement of five exterior cottage doors at the Nevada Youth Training Center as part of Senate Bill 527 deferred maintenance projects.

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: $16,660.28
   Payment for services will be made at the rate of $16,660.28 per Contract Completion
   Other basis for payment: Flat rate includes $16,185.28 for doors and $475 for locks.

II. JUSTIFICATION

7. What conditions require that this work be done?
   The housing units are used on a daily basis by staff and by the youth committed to the facility and the doors could fail at any time. These doors are already in a failing state this condition makes securing the doors a significant challenge as the doors cannot be locked by the Mag Lock system and often the key entry will not lock or unlock properly. This significantly raises the run risk at the facility when they are not secured. If the doors should fail someone in the building, it could lead to entrapment for an unspecified period of time, possibly creating a violent situation for youth and staff as the tension rises. If this work is not performed, the facility will have to either continue with a potential life safety and security risks or shut the buildings down all together. As these buildings are in use every day closing a building down would result in a significant disruption to the program that could include the inability to accept new youth that need to be committed to the facility. This was an approved Deferred Maintenance Project for the 2020/2021 budget cycle and has been listed on the Facility Condition Analysis report as in need of attention in 2007 and 2013.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
This project requires knowledge and training that facility maintenance staff do not possess. This project is not a large enough project for the State Public Works Division to perform as a stand-alone item.

9. Were quotes or proposals solicited? Yes
Was the solicitation (RFP) done by the Purchasing Division? No

a. List the names of vendors that were solicited to submit proposals (include at least three):

- Schell Creek Construction
- KAP Mechanical
- Montrose Glass

b. Solicitation Waiver: Not Applicable

c. Why was this contractor chosen in preference to other? This vendor was the best priced and is locally owned and operated with knowledge of the project needs.

d. Last bid date: Anticipated re-bid date:

10. Does the contract contain any IT components? No

III. OTHER INFORMATION

11. Is there an Indirect Cost Rate or Percentage Paid to the Contractor? No

If "Yes", please provide the Indirect Cost Rate or Percentage Paid to the Contractor

Not Applicable

12. a. Is the contractor a current employee of the State of Nevada or will the contracted services be performed by a current employee of the State of Nevada? No

b. Was the contractor formerly employed by the State of Nevada within the last 24 months or will the contracted services be performed by someone formerly employed by the State of Nevada within the last 24 months? No

Not Applicable

3. Termination Date: 03/15/2021
Contract term: 182 days

4. Type of contract: Contract
Contract description: Equipment Install

5. Purpose of contract:
This is a new contract to provide installation of replacement components of the agency's existing video system in Carson City and Las Vegas.

6. NEW CONTRACT
The maximum amount of the contract for the term of the contract is: $13,400.00
Payment for services will be made at the rate of $13,400.00 per Contract
Other basis for payment: One payment after completion of installation work.

II. JUSTIFICATION
7. What conditions require that this work be done?
Replacement of video encoders, which are a component of the agency's video system equipment for the Carson City, NV and Las Vegas, NV office locations. The encoders will be discontinued in October 2020 and will no longer be supported by the company that produces them, and therefore will no longer be covered under warranty or maintenance. The encoders are a vital part of the agency's video system which is used in the main hearing rooms on a daily basis. A system failure would be extremely disruptive to operations.

   Not Applicable

3. Termination Date: 09/30/2022

4. Type of contract: Contract

5. Purpose of contract:
   This is a new contract to provide engineering services to remove irrigation diversion structures which will improve instream habitat, high-water fish refuge, and facilitate fish passage to Redband Trout and other endemic species.

6. NEW CONTRACT
   The maximum amount of the contract for the term of the contract is: $30,338.00

II. JUSTIFICATION

7. What conditions require that this work be done?
   Within the lower reaches of the river are three irrigation diversions that are permanent and seasonal barriers to fish movement, specifically Redband Trout. Several other endemic species such as Mountain Whitefish and Paiute Sculpin movements are also adversely affected by the diversions. The diversions are currently population sinks and negatively effecting Redband Trout as well as all other endemic species present.

8. Explain why State employees in your agency or other State agencies are not able to do this work:
   The Nevada Department of Wildlife does not have a geomorphologist on staff and lacks the expertise to complete the project.
