## GENERAL OVERVIEW

### **Executive Summary**

In April 2021, prior to the release of the Interim Final Rule (IFR) and related guidance, the Governor, Assembly Speaker, Senate Majority Leader and State Treasurer developed the “Every Nevadan Recovery Framework” strategic plan (<https://nvhealthresponse.nv.gov/wp-content/uploads/2021/04/Every-Nevadan-Recovery-Framework-final.pdf>) to serve as the foundation for prioritizing the expenditure of discretionary American Rescue Plan Act (ARPA) funds, including the Coronavirus State and Local Fiscal Recovery Funds (FRF).

The “Every Nevadan Recovery Framework” document provides a Mission Statement for the strategic planning process and identifies "prioritization bands" to organize input and ideas from the public and stakeholders (e.g., local government, businesses, non-profits). It highlights seven prioritized categories to allow subject-matter experts and stakeholders to engage and compare ideas more effectively. The Framework also highlights the need to fund urgent health or social-safety net items quickly to provide immediate relief. Using this Framework, the State of Nevada along with a community engagement vendor embarked on a 75-day "listening tour" (August through October 2021) to County Commissions, City Councils, citizen groups, non-profits, state agency leaders to incorporate feedback as to how the state should utilize the FRF.

Several items were deemed critical by the Nevada Legislature during the 81<sup>st</sup> Legislative Session and received immediate authorization for implementation using FRF, within days after the release of the IFR and related guidance in late May 2021 (the Legislative Session adjourned on June 1, 2021). The Chief of the Budget Division of the Governor's Finance Office (GFO) was directed to carry out specific disbursements from the FRF as soon as practicable after receiving the money for items such as: fiscal restorations; addressing ongoing recovery needs (rental and food assistance, unemployment expenses, and support for disadvantaged communities); and supporting the continued public health response to COVID-19. Senate Bill 461 (SB 461) of the 81<sup>st</sup> Session required the Chief of the Budget Division to follow a specific order of priority for disbursements after receipt of the FRF.

As directed in SB 461, before any other FRF disbursement could be made, the GFO was required to determine the reduction of the general revenue. Economists from the GFO and the Legislative Counsel Bureau finalized the calculation of the reduction of general fund revenue in early August 2021. Please note, pursuant to the revised lost revenue calculation instructions in the Final Rule allowing states to use the fiscal year vs. the calendar year for calculating lost revenue, the GFO and Legislature changed Nevada's calculation to use fiscal year method. An updated calculation was performed in October of 2022. The reduction of general fund revenue was set aside for allocations related to government services and the additional disbursements identified in SB 461 were made.

As of June 30, 2023, the state has obligated \$2,695,773,703. Below is a breakdown by expenditure categories for these allocations:

Expenditure Category	Total Allocation
1 – Public Health	\$ 283,408,205
2 – Negative Economic Impacts	\$1,053,121,029
3 – Public Health Negative Economic Impacts	\$ 2,041,208
5 – Infrastructure	\$ 303,280,768
6 – Revenue Replacement	\$1,042,993,876
7 – Administration	\$ 10,928,617

## Uses of Funds

Several programs and initiatives received immediate FRF appropriated (or authorized) by the Nevada Legislature during the 81<sup>st</sup> Legislative Session. The Chief of the Budget Division of the GFO was directed to carry out specific disbursements from the FRF as soon as practicable. Through competitive processes and systematic review of state agency requests, allocations have been made since the 81<sup>st</sup> Legislative Session. Below are the allocations made by the 81<sup>st</sup> Legislative Session and allocations approved after the session:

- a. **Public Health (EC 1)** - \$20.9 million was allocated by Senate Bill (SB) 461 for the COVID-19 public health emergency. These funds were allocated as follows:
  1. \$15.8 million for public health response including COVID-19 test kits for the public, testing centers, COVID-19 outreach and information call centers, and children's mental health crisis response teams.
  2. \$5.1 million for the Vax Nevada Days initiative to encourage Nevadans to receive the COVID-19 vaccine. Each week of Vax Nevada Days, vaccinated residents were eligible for a random drawing to win cash, post-secondary education saving plans, state parks annual permits, or fishing licenses. The final drawing was completed on August 26, 2021.

Several other allocations have been made to help address inequities in access to COVID-19 health services and addressing the mental health and behavioral health needs of the general public. This includes \$19 million for monoclonal antibody and other therapeutic treatments for COVID-19, \$20 million for crisis stabilization centers, and \$10 million for emergency crisis intervention services.

- b. **Negative Economic Impacts (EC 2)** – several bills from the 81<sup>st</sup> Session authorized FRF to provide funding for programs/initiatives that respond to the negative economic impacts of the COVID–19 pandemic as well as funding for services to disproportionately impacted communities. This includes the following allocations from Assembly Bill (AB) 484, AB 486, AB 495, Senate Bill (SB) 461, and authorizations from the State of Nevada budget closings:
  1. **AB 484** – authorized \$54 million to the Department of Employment, Training and Rehabilitation (DETR), Employment Security Division to upgrade its unemployment compensation information system, to ensure those hit hardest from the pandemic can access assistance more efficiently.
  2. **AB 486** – authorized \$5 million in FRF for direct payment of rental assistance to landlords on behalf of tenants who have defaulted in the payment of rent in this state.
  3. **AB 495** – authorized \$200 million to the Nevada Department of Education and \$15 million to the State Public Charter School Authority to be administered as grants to qualifying school districts, university schools, and charter schools in Nevada to augment programs implemented to address the impacts of learning loss experienced as a result of the pandemic. To qualify for a grant, school districts,

university schools and charter schools must describe how they have expended or plan to expend their allocation of other direct federal funding from the ESSER and GEER funds to demonstrate funding gaps in existing literacy and at-risk student programming (experienced because of the COVID-19 pandemic). For this initiative, GFO has also reviewed the planned uses to ensure grants meet the requirements as outlined in AB 495 and the Final Rule.

4. **SB 461** - In accordance with the Final Rule, the State of Nevada may make deposits into the state account of the Unemployment Trust Fund *“to pay back advances received under Title XII of the Social Security Act (42 U.S.C. 1321) for the payment of benefits between January 27, 2020, and May 17, 2021”*. \$335 million of SFRF was authorized in SB 461 to repay these advances for Nevada. Of the \$335 million authorized, \$332,407,747.26 was used to pay back advances in August 2021.
5. **SB 461** – authorized \$7.6 million to address increased levels of food insecurity resulting from the negative economic impact of the pandemic on low-income families.
6. **May 15, 2021, Budget Closing** – authorized \$69 million in Fiscal Year 2022 and \$51.3 million in Fiscal Year 2023 of FRF for state agencies and the Nevada System of Higher Education (NSHE) budgets to restore positions beginning July 1, 2021, to maintain government services. Funds were disbursed throughout the biennium to ensure identified positions were fully funded.
7. **SB 461** – authorized \$6 million to the Collaboration Center Foundation to augment services and programs implemented to address the negative or disparate impacts of the pandemic on persons with disabilities.
8. **SB 461** – authorized \$5 million to the State Treasurer to be administered as grants to persons with disabilities who are under 18 years of age through the Nevada ABLE Savings Program to assist those who have been negatively or disparately impacted by the pandemic with expenses related to education, housing, transportation, employment training and support, assistive technology, personal support services, health care costs, financial management and other qualified disability expenses.
9. **SB 461** – authorized \$4 million to the University of Nevada, Reno, to establish a statewide program modeled after the Dean’s Future Scholars Program to assist pupils who are: in grade 6 or higher, prospective first-generation college students and have been negatively or disparately impacted by the pandemic. Must be used to provide support and services related to mentorship; tutoring; and access to food, technology and activities/programs designed to address, support, or reduce learning loss caused or exacerbated by the pandemic.

Other allocations have been made since the 81<sup>st</sup> Legislative Session to address negative economic impacts and disproportionately impacted communities throughout the state to address job training, including an inadequate number of healthcare workers, food insecurity, educational disparities and social, emotional learning, housing, and childcare. This includes \$500 million for affordable housing projects, land purchase for future

affordable housing, homeowner assistance, and renovations to keep individuals in their homes; \$30 million for childcare infrastructure grants to expand childcare capacity, \$50 million for childcare subsidies to cover the copay for low- and moderate-income households; and \$6.4 million for food industry capacity building.

- c. **Water, sewer, and broadband infrastructure (EC 5)** – \$203.5 million in funds were authorized for broadband infrastructure; these funds are leveraged with Broadband Equity Access and Deployment program (BEAD) funds from the Infrastructure and Investment Jobs Act to improve connectivity across the state. This includes connecting schools, libraries, and state and other government facilities to meet the goal of universal access to high-speed broadband that is affordable, reliable, and scalable.
- d. **Revenue Replacement (EC 6)** - Sections 602(c)(1)(C) and 603(c)(1)(C) of the American Rescue Plan Act allows recipients to use funding for government services up to the amount of revenue loss calculated. The final rule implements these provisions by establishing a definition of “general revenue” for purposes of calculating a loss in revenue and by providing a methodology for calculating revenue lost due to the COVID–19 public health emergency. In October 2022, the Nevada used this formula to perform a recalculation, using the fiscal year method, from FY 2020 through FY 2022, and identified a total of \$1,325,530,000 in lost revenue that may be used for the provision of government services.

As of June 30, 2023, \$1,042,993,876 has been allocated to government services for projects including renovations and remodeling of state-owned buildings, purchase of vehicles and radios for fire crews and first responders, universal free school meals, technology modernizations and replacements, grants to tribal governments, assistance launching a new college of medicine, and investments in the nursing and other health professions to increase the supply of skilled health experts.

- e. **Administration (EC 7)** – The FRF allows for the use of funds for administering the FRF program including costs of consultants to support effective management and oversight, and consultation to support effective management and oversight. The state contracted with two vendors to help with the community engagement activity as well as help provide oversight and implementation of projects. Additionally, the state allocated funding for staffing in the Governor’s Office and GFO in order to review, approve, and monitor allocations to other state agencies and subrecipients through December 31, 2026.

The 82<sup>nd</sup> Legislative Session passed several bills aimed at addressing inequities and disproportionately impacted groups.

- a. SB 510 - authorizes \$5,275,000 pursuant to a collective bargaining agreement to increase the salaries of Nevada Correctional Officers within the State of Nevada.
- b. SB 450 – authorizes \$25M for the Windsor Park Environmental Justice Act, which establishes a program for the relocation of persons residing in the Windsor Park neighborhood of the City of North Las Vegas whose residences have been damaged by the sinking ground beneath their residences. This bill requires the State of Nevada Housing Division of the Department of Business and Industry to establish a program by which the owner of a single-family residence in Windsor Park who owns a residence on July 1, 2023, may exchange their residence for a new residence constructed in accordance with the provisions of the bill. This bill also requires restitution payments to

the owner of the residence and to the initial owner of the residence or to the descendants of the owner who inherited the residence from the initial occupant.

### **Promoting equitable outcomes**

The 81<sup>st</sup> Legislative Session passed several bills aimed at addressing inequities and disproportionately impacted groups. Additionally, the state has issued and awarded grants to non-profit organizations across the state to provide immediate services. Non-profits who provided services to disproportionately impacted groups and areas of the state were prioritized.

The state identified two basic needs that will help the hardest hit from COVID: housing and childcare. By providing funding for affordable housing, expanding childcare infrastructure to meet demand, and providing subsidies to prevent fiscal barriers for individuals/households being able to get childcare and go back to work, the state hopes to create lasting outcomes. These projects target low- and moderate-income level individuals and households to ensure those disproportionately impacted are receiving the services necessary to recover from the pandemic.

### **Community Engagement**

Using the “Every Nevadan Recovery Framework”, the State of Nevada in conjunction with a contracted community engagement vendor, conducted the Nevada Recovers Listening Tour, which provided for at least 75 events over 75 days and concluded with a final event held on October 15, 2021. The Nevada Recovers Listening Tour provided an opportunity for Nevadans in every community to provide input on how the state can utilize and invest the remaining FRF as well as the billions of dollars that will be received from other funding sources through the American Rescue Plan Act.

More information on how the state is investing FRF can be found at: <http://nevadarecovers.com>.

### **Labor Practices**

Any infrastructure initiatives funded with FRF are strongly encouraged to use strong labor standards allowing for the effective and efficient delivery of high-quality projects while also supporting the economic recovery of Nevada through strong employment opportunities for workers (e.g. creating project labor agreements, initiating community benefit agreements, paying prevailing wages, and hiring locally).

The state has allocated funding for several infrastructure projects; however, these projects are still in the planning phases and not yet to the point where workforce and labor practices can be identified.

### **Use of Evidence**

The Final Rule requires projects funded through specific expenditure sub-categories to identify the amount of funding allocated toward evidence-based interventions. In accordance with the Final Rule, the state has required any project funded through one of these sub-categories to identify the amount allocated for evidence-based interventions. To date the state has allocated approximately \$29,498,354 for projects that utilize evidence-based interventions through expenditure category 1 – Public Health, and 2 – Negative Economic Impacts. These projects relate to mental health, education, and increasing the healthcare workforce.

## **Performance Report**

As the state reviews and approves projects one of the factors reviewed is the performance indicators and how the success of the project will be measured. Most projects incorporate measures of the number of individuals/households served, treatments provided, housing units created, or enrolled and completed job trainings. These performance outcomes are required to be reported quarterly, for projects that have started implementation, and are shown in the quarterly reports posted on the state's website. The link to the state's website is identified below under Project Inventory. Some of the allocated projects are still in the planning phase, so although funds have been allocated, the projects have not been implemented, therefore, performance reporting is not yet available.

## **PROJECT INVENTORY**

As of June 30, 2023, the state has approved 294 projects. Table 1 on the following pages provides additional information on the projects funded as of June 30<sup>th</sup>. This information can also be found in the most recent quarterly report which is posted on the state's website: [https://budget.nv.gov/Services/Coronavirus\\_Federal\\_Aid\\_Funding\\_Forms/](https://budget.nv.gov/Services/Coronavirus_Federal_Aid_Funding_Forms/)

**Table 1: Project Inventory**

Project Identification	Project Name	Funding Amount	Project Expenditure Category	Project Description	Amount Allocated to Evidence Based Interventions (if applicable)	Objective
22AB49501	AB 495 - Learning Loss	\$200,000,000	6.1 - Provision of Government Services	This project provides funding for grants to school districts and university schools for profoundly gifted students aimed to augment programs implemented to address the impacts of learning loss experienced as a result of the COVID-19 pandemic.		The objective of this project is to address learning loss for gifted students.
22AB49502	AB 495 (59.5) - SPCSA	\$15,000,000	6.1 - Provision of Government Services	This project provides funding for the 2021 State Legislative Session Assembly Bill 495 for Nevada State Public Charter School Authority (SPCSA) to administer as grants to charter schools to augment programs that provide evidence-based educational services and practices to address the academic needs of pupils, such as tutoring, summer school, and afterschool programs.		The objective of this project is to augment programs to provide an academic and educational program, such as summer school tutoring, after school programs, extended learning, and enrichment programs.

22ABLE01	ABLE TOTS	\$11,995,734	2.3 - Household Assistance: Cash Transfers	This project provides funding for the disbursement of \$5,000 into 529A ABLÉ Accounts pursuant to NRS 427A.889 to assist persons with disabilities under the age of 18 who have been negatively or disparately impacted by the COVID-19 pandemic.	-	The objective of this project is to provide direct financial assistance to help individuals with disabilities under the age of 18. Number of individuals receiving disbursements is a performance measure.
22AFDHS01	Affordable Housing Initiative	\$500,000,000	2.15 - Long-term Housing Security Affordable Housing	This project provides funding for the new construction of affordable housing units and may also provide rehabilitation services to income-qualified homeowners to provide energy savings safety improvements or accessibility improvements.		The objective of this project is to address the specific need of the new development of affordable multi-family housing under the Home Means Nevada Initiative (HMNI) and to create more affordable rental homes for low-income Nevadan's. Low-income renters in the state were harmed by the public health emergency by fully or partially losing employment, having pandemic related medical issues, or other family issues, such as lack of child care, which often caused significant reductions in family income. The number of affordable housing units preserved or developed is the performance measure.
22AGRMI01	Agriculture State Meat Inspection Program	\$716,247	6.1 - Provision of Government Services	This project provides funding for the creation of a state meat inspection program necessary to support Nevada industry by allowing interstate sales of meat and poultry products processed in Nevada.		The objective of this project is to implement a state meat inspection program to increase meat production and sales in the state.

22AGRSN01	Agriculture -Senior Nutrition Program	\$400,050	6.1 - Provision of Government Services	This project provides funding for the rebranding of the Community Supplemental Food Program to the Senior Nutrition and Wellness Program to increase senior participation, better describe the services offered and include food package improvements with the addition of fresh produce and other desirable items.		The objective of this project is to rebrand the Community Supplemental Food Program and offer fresh produce and other desirable items not normally provided through the program.
22AGRST01	Agriculture Contract Grant Staff	\$211,794	6.1 - Provision of Government Services	This project provides funding for the Department of Agriculture to hire contract staff to oversee the additional grants and programs funded under the ARPA FRF grant.		The objective of this project is to provide additional staff to oversee the projects approved under the ARPA SLFRF grant.
22AGRST02	Agriculture Contract Fiscal Staff	\$164,277	6.1 - Provision of Government Services	This project provides funding for the Department of Agriculture to hire contract staffing to address the increased fiscal workload created by the additional projects funded under ARPA FRF grant.		The objective of this project is to provide additional staffing to address the increase in fiscal workload such as request for reimbursements and work programs.
22AOCR01	Administrative Office of the Courts Revenue Shortfall	\$893,800	6.1 - Provision of Government Services	This project provides funding for staffing and operating costs for the Administrative Office of the Courts due to a reduction in Assessment revenue caused by the COVID-19 pandemic.		The objective of this project is to continue to fund the Administrative Office of the Courts' operations and prevent layoffs.

22AOLV01	CRG - Assistance League of Las Vegas	\$118,170	2.37 - Economic Impact Assistance: Other	This project provides funding for the Operation School Bell Program which provides free clothing and school supplies to K-12 children within Clark County Title I Schools.		The objective of this project is to provide clothing and school supplies to children in need. The number of children served is the performance measure.
22BBNTY01	CRG – Baby’s Bounty Diaper Bank/Baby Bundles	\$201,802	2.37 - Economic Impact Assistance: Other	This project provides funding for child safety and wellness items for families living at or under 130% Federal Poverty Level in Clark County. .		The objective of this project is to provide low-income families with safety, wellness and diapering resources. The number of diaper packages and baby bundles disbursed is the performance measure.
22BHCGM01	DPBH – Contract/Grant Management System	\$477,606	6.1 - Provision of Government Services	This project provides funding for the implementation of a new electronic contract and grant management system to allow for efficient processing of new grants and contracts.		The objective of this project is to implement a new system to efficiently process grants and contracts.
22BHSTF01	DPBH Fiscal Staff	\$1,418,355	6.1 - Provision of Government Services	This project provides funding for staffing and operating costs to provide additional fiscal support to the Division of Public and Behavioral Health due to the increase in federal funding from the pandemic.		The objective of this project is to provide additional staffing support to oversee the fiscal responsibilities of federal funding.

22CCCWF01	Clark Co Child Welfare Higher Level of Care	\$1,971,000	2.13 - Healthy Childhood Environments: Services to Foster Youth or Families Involved in Child Welfare System	This project provides funding for six beds at an intermediate care facility to allow for immediate placement of children and youth with autism and developmental delays into an appropriate treatment level setting to avoid placement in the emergency shelter in Clark County.		The objective of this project is to provide immediate placement of children and youth with higher levels of need to ensure adequate services are received. The number of children/youths served is the performance measure.
22BRDBD01	BROADBAND INITIATIVE	\$203,280,768	5.19 - Broadband: "Last Mile" Projects	This project provides funding for Nevadans access to a high-speed internet connection at home or business that is affordable, reliable, and scalable to facilitate distance learning, workforce development, telehealth, telework, and access to reliable health information.		The objective of this project is to provide Nevadans access to a high-speed internet connection at home or business that is affordable, reliable, and scalable to facilitate distance learning, workforce development, telehealth, telework, and access to reliable health information. Performance measures include: Projected/actual construction start date; Projected/actual initiation of operations date; Confirm that the project is designed to, upon completion, reliably meet or exceed symmetrical 100 Mbps download and upload speeds; If the project is not designed to reliably meet or exceed symmetrical 100 Mbps download and upload speeds, explain why not; The number of people provided high speed internet.

22CCSCR01	CRG - Carson City Senior Center	\$25,728	2.1 - Household Assistance: Food Programs	This project provides funding for contract meal service for ready-to-eat meals to continue congregate and home-delivered meal services for clients eligible under the Older Americans Act while the kitchen floor is replaced.		The objective of this project is to continue congregate and home-delivered meals to clients eligible under the Older Americans Act while the kitchen is closed. The number of households served by the meal program is the performance measure.
22CFAG01	Community Food Access Grants	\$500,000	2.36 - Aid to Other Impacted Industries	This project provides funding for competitive grants to community organizations food banks, public entities, and tribal entities engaged in food assistance activities in order to purchase food, storage infrastructure, food distribution infrastructure and personnel costs in order to increase food access in under-served communities.		The objective of this project is to increase food infrastructure and access to food in under-served communities. Pounds of food purchased, equipment purchased, and individuals served are the performance measures.
22CHCMH01	CRG - Churchill Community Hospital Inc.	\$10,936	1.14 - Other Public Health Services	This project provides funding for immediate needs of financially and socially vulnerable patients at discharge, to improve access to healthcare through direct financial support for transportation through the Patients in Need project.		The objective of this project is to provide direct assistance for transportation costs to financially and socially vulnerable patients after discharge to ensure they can attend follow-up doctor appointments. The number of individuals who receive assistance is the performance measure.

22CHDFR01	CRG - Community Health Development Foundation	\$152,313	2.19 - Social Determinants of Health: Community Health Workers or Benefits Navigators	This project provides funding for case management, identification of community wellness needs, and care coordination in low resourced communities.		The objective of this project is to provide health screenings, refer clients to services available, and help navigate benefits available. The number of individuals screened and provided services is the performance measure.
22CLBCF01	SB 461 - Collaboration Center Foundation	\$6,000,000	2.21 - Medical Facilities for Disproportionately Impacted Communities	This project provides funding for staffing and facilities to expand the pathways program, case management, care coordination and wrap-around services to be used for life skills and job training, and a developmental preschool to help provide early intervention to individuals with disabilities.		The objective of this project is to expand the services provided to individuals with disabilities who were disproportionately impacted and help reduce the wait list for services. The number of individuals served after renovations compared to individuals served before renovations is the performance measure.
22COMSA01	CRG - Community Services Agency	\$199,458	2.37 - Economic Impact Assistance: Other	This project provides funding for work experience for 35 at-risk Title I Eligible youth to help them acquire skills to prepare them for the future.	\$199,458	The objective of this project is to help at-risk youth enter the workforce to gain skills to help them in the future and allow them to earn money through employment to help themselves and their families. The number of at-risk youths enrolled in work experience is the performance measure.

22CRGBG01	CRG - Boys and Girls Club	\$3,000,000	2.25 - Addressing Educational Disparities: Academic, Social, and Emotional Services	This project provides funding for the expansion of the KidsWell Program includes the Summer Brain, Positive Action, and Project Learn to provide academic and social-emotional support to youth ages 6-18.		The objective of this project is to reach an additional 10,000 at risk youth through the KidsWell program across seven Boys and Girls Clubs to mitigate learning loss. Listing the National Center for Education Statistics School or District ID; and the number of students reached are the performance measures.
22CRGFB01	CRG - Food Bank of Northern Nevada - Equitable Outreach Program	\$629,026	2.1 - Household Assistance: Food Programs	This project provides funding for the Equitable Outreach Program which focuses on increased awareness of and access to nutrition to improve health outcomes.		The objective of this project is to provide outreach, establish additional food pantries, and ensure continuous food deliveries. The number of household served during outreach events held, food pantries established, and food deliveries made is the performance measure.
22CSAA01	CSAA COVID Vaccination Call Center	\$3,884,280	1.7 - Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)	This project provides funding for vaccine scheduling support through inbound and outbound calls utilizing the CSAA call center.		The objective for this project is to provide a one-stop call center for all COVID-19 vaccination related information. The number of calls in and outbound is the performance measure.
23COPCN01	Controller's Office Staffing	\$340,708	6.1 - Provision of Government Services	This project provides funding for staffing and operating costs to assist with additional accounting and reporting workload created by the ARPA and FRF funds received by the state through December 31, 2026.		The objective of this project is to provide additional support to the Controller's Office to prevent backlogs and continue timely accounting and reporting.

22CVFCT01	CRG - Carson Valley Food Closet	\$41,600	2.1 - Household Assistance: Food Programs	This project provides funding for an increase number of access points within Douglas County to food-insecure people by providing mobile distributions within the county.		The objective of this project is to provide mobile delivery services in areas where individuals experiencing food insecurity may not have the ability to get to the food closet. The number of households served is the performance measure.
22CTRST01	Contract Staff & Supplies	\$1,859,241	6.1 - Provision of Government Services	This project provides funding for three full-time positions and one contractor to assist with the additional workload to the SCO.		The objective of this project is to hire and train staff throughout the program within all federal and state guidelines.
22CVTST01	COVID-19 Rapid Test Kits	\$5,000,000	1.2 - COVID-19 Testing	This project provides funding for the purchase of COVID-19 Test Kits to be distributed to testing sites and community partners.		The objective of this project is to provide testing kits to community test sites as well as community partners to be distributed to residents for free. The number of tests distributed is the performance measure.
22CVTST02	COVID-19 Test Kits/ Testing Call Center/ Testing Contract	\$17,559,408	1.2 - COVID-19 Testing	This project provides funding for the purchase of at-home rapid antigen testing kits to be distributed throughout Nevada by community partners. Develop testing and therapeutic service support through the CSAA call center.		The objective of this project is to provide at-home test kits free of charge to residents at various local establishments, provide a one-stop call center for all COVID-19 testing information, and continue a test-site. The number of tests distributed to community partners, the number of residents tested, and the number of calls in and out are the performance measures.

22DEMMV01	PPE Warehouse Move	\$470,000	6.1 - Provision of Government Services	This project provides funding for the consolidation of the Department of Emergency Management's Personal Protective Equipment (PPE) Warehouses into one warehouse in southern Nevada.		The objective of this project is to move all PPE in the northern warehouse to the southern Nevada warehouse.
22DEMCR01	PARTIALWAREHOUSE LEASE	\$122,091	6.1 - Provision of Government Services	This project provides funding for a revenue shortfall for the Department of Emergency Management's Personal Protective Equipment (PPE) Warehouse needed to partially pay the building rent through the end of the fiscal year.		The objective of this project is to pay for the remaining rent due for the PPE Warehouse to ensure personal protective equipment is available when needed for State agencies and community partners.
22DHRM01	Recruitment and Retention Evaluation	\$320,000	6.1 - Provision of Government Services	This project provides funding to the Department of Human Resource Management for the evaluation of policies and regulations related to recruitment and retention of the State of Nevada employees to reduce barriers for filling and retaining employees.		The objective of this project is to determine if policies and regulations are creating barriers in recruitment and retention of state employees.

22DIAST01	GFO - Division of Internal Audit Staff	\$413,077	7.1 - Administrative Expenses	This project provides funding for the staffing and operating costs for a position to help with the auditing and administration of American Rescue Plan Act State Fiscal Recovery Funds.		The objective of this project is to provide staff to audit and monitor the American Rescue Plan Act State Fiscal Recovery Funds based on assessed risk.
22DPSTN01	DPS Training Division	\$48,799	6.1 - Provision of Government Services	This project provides funding for the Department of Public Safety (DPS) to purchase computers and other related equipment for a dedicated training and testing center needed for recruitment of cadets.		The objective of this project is have a dedicated training/testing center for recruitment of cadets.
22DIAST02	POSITION AND ASSOCIATED COST-SFY23	\$380,363	7.1 - Administrative Expenses	This project provides funding for the an Executive Branch Auditor IV position and associated costs to help with the auditing and administration of American Rescue Plan Act State Fiscal Recovery Funds.		The objective of this project is to increase staffing to assist in auditing and monitoring the American Rescue Plan Act, State Fiscal Recovery Funds based on assessed risk.
22DSWHD01	Desert Willow Hardening	\$5,988,779	6.1 - Provision of Government Services	This project provides funding for the hardening of units at the Desert Willow Treatment center to keep both patients and staff safe.		The objective of this project is to harden units at the Desert Willow Treatment Center to prevent clients from hurting themselves or others.

22EFILE01	E- Filing Solution	\$13,275,000	6.1 - Provision of Government Services	This project provides funding to the Judicial Branch for the implementation of a cloud-based eFile solution to digitize case filings to improve efficiencies within the Court.		The objective of this project is to digitize Judicial Branch case files, address case backlogs, and improve efficiencies in case processing.
22ELYCP01	CRG - Ely Co-op Magic Carpet Preschool	\$44,280	2.14 - Healthy Childhood Environments: Early Learning	This project provides funding for the staffing and operating costs for the Ely Co-Op Preschool - Magic Carpet Preschool.		The objective of this project is to continue operations and provide additional childcare seats. The number of children served by childcare and early learning programs funded is the performance measure.
22EQRO01	Medicaid EQRO	\$606,569	6.1 - Provision of Government Services	This project provides funding to cover a revenue shortfall for payment of mandatory External Quality Review of Organizations for Managed Care Organization and Dental Benefit Waiver activities related to the MCO readiness review and the Independent Assessment required for the 1915(b) Dental Waiver.		The objective of this project is to fund the mandatory external reviews and assessments.

22FCSPT01	CRG - Family Council Support	\$153,764	1.12 - Mental Health Services	This project provides funding for increased services and reduced wait times for mental health, substance use and abuse, trauma, and family strengthening services for individuals who have feelings of loneliness, anxiety, depression, or drug use due to the COVID-19 pandemic	\$153,764	The objective of this project is to increase access to mental health substance use and abuse trauma and family strengthening services through the addition of certified staff. The number of clients served by the additional staff and reduction in wait times are the performance measures.
22FDINS01	ARPA - Food Insecurity	\$4,470,974	2.1 - Household Assistance: Food Programs	This project provides funding for competitive grants to food organizations to help Nevada's Food industry recover from the effects of COVID-19 and help address the need of those facing food insecurity.		The objective of this project is to increase infrastructure, capacity, and food available through food organizations that provide services to those in need. The number of households served, food purchased, and equipment purchased to increase capacity are the performance measures.
22FDINS02	Agriculture Food Insecurity Programs	\$5,008,051	2.1 - Household Assistance: Food Programs	This project provides funding for competitive grants to food organizations to help Nevada's Food industry recover from the effects of COVID-19 and help address the need of those facing food insecurity.		The objective of this project is to increase infrastructure, capacity, and food available through food organizations that provide services to those in need. The number of households served, food purchased, and equipment purchased to increase capacity are the performance measures.

22FRHSP01	Stein Forensic Hospital Remodel	\$4,972,547	6.1 - Provision of Government Services	This project provides funding for the remodel space in forensic hospital and equipment to allow for better communication, more space within units for social distancing, and bathrooms in seclusion rooms.		The objective of this project is to remodel space in the Stein Forensic Hospital to reduce the spread of disease and allow for better communication.
22FRRAD01	Forestry Radio Replacement	\$1,494,860	6.1 - Provision of Government Services	This project provides funding for the replacement of radios to meet Federal Communications Commission standards, narrowband emission requirements, and conformance with the digital P25 systems security standards.		The objective of this project is to replace radios that do not meet current standards and requirements.
22FYCLB01	CRG - Fallon Youth Club	\$106,386	2.25 - Addressing Educational Disparities: Academic, Social, and Emotional Services	This project provides funding for the purchase of vans to transport youth to educational enrichment activities, such as 21st Century learning programs and STEM Robotics classes at public schools and libraries.		The objective of this project is to expand the number of youth participating in educational enrichment activities. Listing National Center for Education Statistics School or District ID; and additional number of students transported are the performance measures.
22GCBCP01	GCB Computer hardware/software replacement	\$800,823	6.1 - Provision of Government Services	This project provides funding for the Gaming Control Board to replace laptops, desktops, network switches, servers and storage email software, SQL Server database software, and server operating system software.		The objective of this project is to replace out of date computers, servers, and software.

22GCBDT01	GCB Data Storage/Electronic Records	\$410,860	6.1 - Provision of Government Services	This project provides funding for the Gaming Control Board to replace Electronic Data Storage to increase storage space for the Boards Data file servers, documents, and other data.		The objective of this project is to replace and increase storage capacity.
22GCBHD01	GCB Microfilm Scanner/Video conferencing/Forensic Hardwar	\$208,110	6.1 - Provision of Government Services	This project provides funding for the Gaming Control Board to replace microfiche microfilm scanner, video conferencing system, and forensic hardware.		The objective of this project is to replace hardware and conferencing systems.
22GFOST01	Governors Finance Office Positions	\$6,155,856	7.1 - Administrative Expenses	This project provides funding for the staffing and operating costs of the Governor's Finance Office to administer the ARPA FRF grant including issuing subawards, allocation agreements to other state agencies, reporting to the Department of Treasury, and any other administrative duties needed.		The objective of this project is to provide adequate staffing for fiscal oversight of the ARPA FRF grant allocations and reporting through December 31, 2026.
22GOVIQ01	GO Boards and Commissions IQ Platform	\$115,742	6.1 - Provision of Government Services	This project provides funding for the implementation of an electronic platform to track and maintain information related to the Governor's appointments to Boards and Commissions throughout the state.		The objective of this project is to streamline the tracking of Governor appointments to Boards and Commissions.

22GOVST01	Governor's Office Positions	\$1,783,145	7.1 - Administrative Expenses	This project provides funding for staffing and operating costs for coordinating with stakeholders including contractors, state agencies, local governments, legislators, public health authorities to support the administration and implementation of the ARPA FRF.		The objective of this project is to provide adequate staffing through December 31, 2026 to collaboration with stakeholders and make decision when reviewing ARPA FRF funding requests.
22GWSN01	CRG - Goodwill of Southern Nevada	\$993,512	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for training sprints that incorporate healthcare sector strategies, employer/industry engagements, cohort training model, industry-recognized credentials, and integrated education training for certified nursing assistants and medical assistants.	\$993,512	The objective of this project is to quickly train and certify certified nursing assistants and medical assistants to increase health care staffing. The number of individuals enrolled and completing the training program achieving certification is the performance measure.
22HHRHD01	CRG - Helping Hands Rural Home Delivered Meals	\$626,890	2.1 - Household Assistance: Food Programs	This project provides funding for a home-delivered meal program using pre-packaged meals that will be ordered and shipped to clients living in rural southern Nevada counties who are unable to access food due to distance and accessibility during COVID-19.		The objective of this project is to provide home-delivered meals in rural Nevada to individuals who are unable to access food due to distance and accessibility. The number of households served is the performance measure.

22HMFNV01	Home Feeds Nevada	\$2,000,000	2.1 - Household Assistance: Food Programs	This project provides funding for the purchase of food from local Nevada companies and farms to be distributed through food banks, food closets, and other food distribution organizations to increase food capacity, reduce reliance on imports, and provide food to underserved or neglected communities.		The objective of this project is to increase food capacity and invest in local food providers. The number of households served by companies/farms food purchased from, pounds of food, and individuals served using purchased food are the performance measures.
22IIJA01	Governor's Office IIJA Staff	\$1,287,708	6.1 - Provision of Government Services	This project provides funding for staffing for the administration of the Infrastructure Investment and Jobs Act (IIJA) program.		The objective of this project is to provide adequate staffing to oversee projects under the IIJA.
22JDCMS01	Case Management System	\$11,995,637	6.1 - Provision of Government Services	This project provides funding for the implementation of a cloud-based case management system for Judicial Courts across the state.		The objective of this project is to implement a case management system to help with case backlogs and digitization of information.
22LASNV01	CRG - Legal Aid of Southern Nevada	\$2,600,323	2.37 - Economic Impact Assistance: Other	This project provides funding for legal services to ensure students with disabilities obtain appropriate educational services, including testing for undiagnosed conditions, accommodations, and advocacy at Individualized Education Plan IEP meetings and in due process hearings if necessary.		The objective of this project is to advocate for the educational needs for youth with disabilities in the foster care system, the juvenile delinquency system, or living in poverty. The number of clients who improve from failing in school to passing, graduating high school, or attending college are the performance measures.

22LCSFD01	Lakes Crossing Food Purchases	\$107,270	6.1 - Provision of Government Services	This project provides funding for the purchase of food for the Lakes Crossing Psychiatric hospital due to an increase in food costs.		The objective of this project is to cover the additional cost of food at the Lakes Crossing Psychiatric hospital.
22LCBFR01	FURNITURE REPLACEMENT	\$790,823	6.1 - Provision of Government Services	This project provides funding for the replacement of common area furniture in the public areas of the Legislative Council Bureau (LCB) facilities that are covered in cloth or other porous materials for enhanced cleaning protocols to help prevent the spread of COVID.		The objective of this project is the replacement or reupholstering of furniture in common/public areas, Senate/Assembly Chambers and committee rooms of the LCB facilities to help prevent the spread of COVID.
22LCBIT01	IT EQUIPMENT & SUPPLIES	\$1,348,486	6.1 - Provision of Government Services	This project provides funding for the expansion of the Legislative Council Bureau (LCB's) Information Technology infrastructure to provide for enhanced remote meeting and work-from-home capabilities.		The objective of this project is to purchase IT equipment and supplies to increase the capability for public meetings to be held remotely using data streaming platforms, software, and equipment. In addition to remote public meetings, the ability for legislators to hold in-person meeting at locations outside of the capital requires expansion to meet the needs of citizens residing in less-populated areas of the state. The increased utilization of the Nevada Legislature website now requires its modernization to ensure full accessibility by the public.

22LCBJN01	SANITATION EQUIP & SUPPLIES	\$140,594	6.1 - Provision of Government Services	This project provides funding for the purchase of additional cleaning equipment and supplies to address the enhanced cleaning protocols required to mitigate the spread of COVID-19.		The objective of this project is to purchase industrial sanitizing floor cleaning equipment and wide-area vacuum machines along with cleaning supplies and paper products for the Nevada Legislative buildings.
22LCBRM01	REMODEL RM2148 & RM2149	\$554,536	6.1 - Provision of Government Services	This project provides funding for the remodel of one committee hearing room and the Information Technology Services suite in the Legislative Building to provide efficient workspace and to provide adequate social distancing.		The objective of this project is for Asbestos Abatement and Remodel of the Information Technology Services (ITS) suite Rm 2148 and Committee Rm 2149. Purchase of modern and efficient workspace environments for the ITS suite Rm 2148 and replacement of fixtures with non-porous cleanable surfaces in the Committee Rm 2149.
22LLRAP01	Landlord Rental Assistance	\$5,000,000	2.2 - Household Assistance: Rent, mortgage, and Utility Aid	This project provides funding for direct payments of rental assistance to landlords on behalf of tenants who have defaulted in payment of rent in the State of Nevada.		The objective of this project is to aid landlords whose tenants are delinquent in rent and did not apply for rental assistance through another program in order to prevent eviction. The number of households served is the performance measure.
22LSTTR01	Community Engagement	\$779,073	7.1 - Administrative Expenses	This project provides funding for travel for state officials, and contractors with Purdue Marion, to implement a listening tour to gather ideas from the community on how to best use the American Rescue Plan Act State Fiscal Recovery Funds.		The objective of this project is to establish a portal for community members to submit ideas and utilize community engagement to help provide a framework for how the State should spend the State Fiscal Recovery Funds.

22LVMHC01	SNAMHS Master Plan	\$286,977	6.1 - Provision of Government Services	This project provides funding for a study of the Las Vegas Mental Health Complex to determine current utilization, potential occupancy, identify repairs and renovations needed to meet current code requirements, and ensure long-term viability.		The objective of this project is to receive a master utilization plan for the Las Vegas Menta Health Complex.
22LSTTR02	NEVADA RECOVERS LISTENING TOUR TRVL	\$15,402	7.1 - Administrative Expenses	This project provides funding for travel for State Officials and a contract with Purdue Marion to go all over the state on a listening tour to gather ideas from the community on the needs that should be addressed and how to best use the American Rescue Plan Act State Fiscal Recovery Funds.		The objective of this project is to establish a portal for community members to submit ideas and utilize community engagement to help provide a framework for how the State should spend the State Fiscal Recovery Funds.
22MBKCH01	Forestry Mobile Kitchens/Wash Bathrooms	\$905,072	6.1 - Provision of Government Services	This project provides funding for the replacement of mobile kitchens, washroom, and bathrooms which were unable to be replaced due to funding being cut during the pandemic.		The objective of this project is to replace outdated equipment for use during fires.

22MBCRS01	SB 461 - CHILDREN'S MENTAL HEALTH MOBILE CRISIS RESPONSE (Surge Capacity) - NNCAS	\$955,385	6.1 - Provision of Government Services	This project provides funding for the Mobile Crisis Response Team which supports youth and families of youth under the age of 18 showing signs of behavioral or mental health issues that pose a threat to the child's stability. This project increases staffing to address the critical need and administer services to prevent individuals from going to the emergency room due to lack of resources or knowledge of available resources.		The objective of this project is to provide mobile crisis response to youth and families of youth.
22MCOTC01	Monoclonal Antibody Therapeutic Clinics	\$19,613,528	1.6 - Medical Expenses (including Alternative Care Facilities)	This project provides funding for COVID therapeutics statewide free of charge for those at risk of severe disease. This includes telehealth, monoclonal antibody treatments, oral antivirals, and Evusheld for pre-exposure.		The objective of this project is to provide all individuals who qualify with access to therapeutic services. The number of treatments and telehealth visits is the performance measure.
22MEDEX01	Medicaid Eligibility System Modification	\$3,960,000	6.1 - Provision of Government Services	This project provides funding for the modification of the Medicaid eligibility system to allow automatic renewal of benefits based on verified information.		The objective of this project is to provide an automatic renewal of Medicaid eligibility to prevent individuals from losing benefits and having to re-apply or provide additional information to keep benefits.

22MLSVC01	Mail Services Pressure Sealer	\$12,839	6.1 - Provision of Government Services	This project provides funding for the replacement of an outdated pressure sealer used for processing mail.		The objective of this project is to replace an outdated pressure sealer.
22MXYUP01	CRG - Moxy UP	\$169,565	1.12 - Mental Health Services	This project provides funding for a prevention program that will intervene before there is an acute mental health crisis for youth.	\$169,565	The objective of this project is to provide mentoring, substance abuse prevention, and peer support to students who do not have access to other resources and have been disproportionately impacted by the COVID-19 pandemic. The number of youths served is the performance measure.
22NERC01	NERC Case Management System	\$652,000	6.1 - Provision of Government Services	This project provides funding for the upgrade of the case management intake system to improve access for complaint filing with employment discrimination complaints and settlements.		The objective of this project is to provide an easy to access platform for employment discrimination complaints and settlements.
22NNSTR01	Position Restoration - Non NSHE	\$27,130,417	6.1 - Provision of Government Services	This project provides funding for positions, other than at the Nevada System of Higher Education (NSHE), that were held vacant, forced to take furloughs, or eliminated due to budget reductions caused by the COVID-19 pandemic.		The objective of this project is to restore funding for non-NSHE state agencies' positions to increase the state workforce back to pre-pandemic levels.

22NNVLC01	CRG - Northern Nevada Literacy Council	\$329,454	2.27 - Addressing Impacts of Lost Instructional Time	This project provides funding for opportunities for low-income Nevadans to enter the workforce with enhanced literacy skills for career progression, by offering classes to achieve a high school equivalency and English Literacy classes throughout the community.		The objective of this project is to increase literacy rates for low-income constituents to re-enter the workforce with better career opportunities through education. Listing National Center for Education Statistics School or District ID; and the number of students enrolled in training programs are the performance measures.
22NNSTR40	SMART21 POSITIONS - Position Restoration	\$90,968	6.1 - Provision of Government Services	This project provides funding for the SMART 21 staff and related expenditures.		The objective of this project is to fund staff and related expenses to support the administration and implementation of SMART 21.
22NRSAP01	Nursing Assistance Program	\$20,739,792	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for the increase participation in the Nurse Apprenticeship Program to increase the healthcare workforce.	\$20,739,792	The objective of this project is to increase health care staffing in Critical Access Hospitals, Acute Care and Skilled Nursing facilities. The number of nursing students participating is the performance measure.
22NSSTR01	Position Restoration - NSHE	\$93,182,197	6.1 - Provision of Government Services	This project provides funding for the Nevada System of Higher Education (NSHE) positions that were held vacant or eliminated due to the need for budget reductions caused by the COVID-19 Pandemic.		The objective of this project is to restore funding for NSHE positions to increase the state workforce back to pre-pandemic levels.

22OSMBA01	Office of Small Business Advocacy	\$387,479	6.1 - Provision of Government Services	This project provides funding for staffing and operating costs for the Office of Small Business Advocacy which will fill a critical gap in the state's small business ecosystem and infrastructure.		The objective of this project is to provide an advocate in State government for small businesses in the state.
22OCHA01	OFFICE OF CONSUMER HEALTH ASSISTANCE - REVENUE SHORTFALL for billable activities	\$173,353	6.1 - Provision of Government Services	This project provides funding for a shortfall in revenue for the Office of Consumer Health Assistance.		The objective of this project is to enable the division to continue to pay costs incurred for delivering services to the community, which includes increasing healthcare advocacy for Nevadans.
22PPEWR01	PPE Warehouse and Staff	\$2,196,647	6.1 - Provision of Government Services	This project provides funding for the staff and lease costs for the northern and southern personal protective equipment PPE warehouses, in addition to travel and logistical costs associated with disbursing the PPE throughout the state.		The objective for this project is to pay the lease space for the northern and southern warehouse to store PPE equipment and distribute to schools, local government offices, and approved entities as determined by the Department of Health and Human Services.
22PEBTK01	COVID-19 TEST KITS	\$1,950,000	1.2 - COVID-19 Testing	This project provides funding for the cost of COVID-19 test kits for use by state employees when mandatory weekly testing was in place.		The objective of this project is the reimbursement of the cost of providing at-home Covid-19 tests to state employees during the weekly mandatory testing time frame. The number of state employees tested is the performance measure.

22PRPLE01	Purple Resolve	\$300,000	1.12 - Mental Health Services	This project provides funding for the Purple Resolve a program focused on improving the culture of the National Guard (NG) through leadership, resilience, mindfulness, and ethical decision making to define and promote health, culture and aids in the development of enhancing mental health.		The objective of this project is to improve mental wellbeing by providing tools, such as responding to stress and accepting change, for NG members who were on the front lines during the pandemic which caused additional stress as they served the community while keeping their families safe. The number of NG members who complete the Purple Resolve training is the performance measure.
22PPEWR02	PPE WAREHOUSE LEASE (SFY22 Jan22-Jun22 & SFY23 Jul22-Jun23)	\$1,577,360	6.1 - Provision of Government Services	This project provides funding for the staff and lease costs for the northern and southern personal protective equipment PPE warehouses, in addition to travel and logistical costs associated with disbursing the PPE throughout the state.		The objective for this project is to pay the lease space for the northern and southern warehouse to store PPE equipment and distribute to schools, local government offices, and approved entities as determined by the Department of Health and Human Services.
22PRVSM01	Provider Summit	\$16,073	6.1 - Provision of Government Services	This project provides funding to host the Provider Summit which focuses on educating providers in more than 38 gaps in Human Services across the State, targeting new and existing providers with the intent to expand services in the State.		The objective of this project is to provide education to providers and expand/initiate services in the state.

22PSTRV01	POST Commission Revenue Shortfall	\$291,760	6.1 - Provision of Government Services	This project provides funding to the Nevada Police Officer Standards and Training (POST) to cover a shortfall in Court Assessment revenue, resulting from the COVID 19 pandemic, to pay for the staffing and operating costs needed to comply with statutory requirements through the end of the fiscal year.		The objective of this project is to continue to provide training and operating costs through POST pursuant to statutory requirements.
22RDMP01	Roadmap Contract	\$1,401,701	7.1 - Administrative Expenses	This project provides funding for a contract with Innovative Emergency Management to collect reporting data, provide information to the public, and other administrative functions requested in relation to the ARPA FRF.		The objective of this project is to provide an additional resource to the Governor's Office and Governor's Finance Office for administering the ARPA FRF.
22SCTRV01	Supreme Court Revenue Shortfall	\$604,730	6.1 - Provision of Government Services	This project provides funding to the Supreme Court to cover a shortfall in Court Assessment revenue, resulting from the COVID 19 pandemic, to continue funding for staffing and operating costs through the end of the fiscal year.		The objective of this project is to continue funding for the Supreme Court's operations and to prevent staff layoffs.

22SFNST01	CRG - Safe Nest	\$100,000	1.12 - Mental Health Services	This project provides funding for mental health services for children and adult victims of domestic violence due to increased need during the COVID-19 pandemic.		The objective of this project is to increase mental health professionals to the waitlist of victims and children needing counseling. The number of individuals progressing to resiliency is the performance measure.
22SHDTR01	CRG - The Shade Tree	\$506,428	1.14 - Other Public Health Services	This project provides funding for staffing and operating support to continue providing shelter resources and crisis response for victims of domestic violence, human trafficking, and homeless individuals.		The objective of this project is to provide shelter, food, and services to victims of domestic violence, human trafficking, and homeless individuals. The number of individuals served is the performance measure.
22SONSM01	CRG - Special Olympics Strong Minds	\$1,000,000	2.26 - Addressing Educational Disparities: Mental Health Services	This project provides funding for the Expands the Strong Minds curriculum into Special Olympics Nevada Champion Schools in order to reach more students and help prevent self-harm.		The objective of this project is to provide an interactive learning activity focused on developing adaptive coping skills, such as developing active strategies for maintaining emotional wellness under stress and connecting with others. Listing the National Center for Education Statistics School or District ID; and the number of students reached are the performance measures.
22TAXSW01	Taxation Switches/AV System	\$201,637	6.1 - Provision of Government Services	This project provides funding for the replacement of existing end of life network switches and purchase of an Audio-Visual system.		The objective of this project is to replace outdated switches and purchase an audio-visual system to aid in social distancing and telecommunications.

22SPWNV01	FAMILY LITERACY & BUILDING HOME LIBRARIES	\$1,081,397	2.27 - Addressing Impacts of Lost Instructional Time	This project provides funding for the lost learning time during the pandemic and expands 25 high poverty level schools that have experienced a significant drop in literacy rates during the pandemic.		The objective of this project is to increase the Family Literacy and Building Home Libraries program into 25 new schools including Clark County (10), Washoe County (8), and Elko (7), reaching an estimated student population of 20,000 unduplicated over 3 years and provide an average of 5,500 books per school year for three years. Listing the National Center for Education Statistics School or District ID; and the number of students reached, and books provided are the performance measures.
22UIADV01	UI Trust Fund Advances	\$332,407,747	2.28 - Contributions to UI Trust Funds	This project provides funding for the repayment of advances received by the Unemployment Compensation Fund under Title XII of the Social Security Act 42 USC 1321 et seq.		The objective of this project is to pay back advances from the federal government to cover the additional costs of unemployment caused by the COVID-19 pandemic. The number of repayment of advances is the performance measure.
22UIMOD01	AB 484 UI Modernization	\$54,000,000	6.1 - Provision of Government Services	This project provides funding for staffing and contract costs for the modernization of the Unemployment Insurance System.		The objective of this project is to implement a new robust Unemployment Insurance System.

22VAXNV01	VAXNV Days	\$5,100,000	1.1 - COVID-19 Vaccination	This project provides funding to incentivize individuals 12 years of age and older to get the safe and effective COVID-19 vaccine by offering prizes through a drawing, including cash, college savings accounts, state park annual entrance permits, and fishing licenses.		The objective of this project is to get as many residents as possible vaccinated against COVID-19. The number of individuals vaccinated and the number of prizes awarded are the performance measures.
22UNRDN01	SB 461(2)(f) UNR Nevada First-Gen Network	\$4,000,000	2.25 - Addressing Educational Disparities: Academic, Social, and Emotional Services	This project provides funding to address reduced learning loss as well as promote critical support services that are centered around mentorship tutoring and access to food and technology for first generation college students.		The objective of this project is to provide funds in the form of micro-grants to existing programs throughout Nevada that provide critical support services related to learning loss, which include mentorship, tutoring, access to food, technology and activities. Listing the National Center for Education Statistics School or District ID; and the number of people assisted with direct services are the performance measures.
22VOCSP01	Victims of Crime Service Providers	\$5,750,000	6.1 - Provision of Government Services	This project provides funding for grants to victim's of crime direct service providers to bring funding and services up to pre-pandemic levels.		The objective of this project is to increase victim's of crime services to pre-pandemic levels.

22VOCVP01	Victims of Crime - Victims Payments	\$1,560,101	6.1 - Provision of Government Services	This project provides funding to the Victims of Crime Program to cover a shortfall in Court Assessment revenue, resulting from the COVID 19 pandemic, to pay for staffing, operating costs and payments to victims through the end of the fiscal year.		The objective of this project is to ensure the continuation of the Victims of Crime Program and payments to victims of crime through the fiscal year.
22WPFBK01	CRG - White Pine Ministerial Food Bank	\$42,400	2.1 - Household Assistance: Food Programs	This project provides funding for the expansion of the Food Bank to provide more food storage capacity and meals to those experiencing food insecurity.		The objective of this project is to expand the number of individuals served by the Food Bank and enable the storage of more food products. The number of households served and equipment purchased is the performance measures.
22VTRBB01	HOME SECURE BROADBAND SERVICES CONVERSION FY23	\$20,320	6.1 - Provision of Government Services	This project provides funding for the conversion of the Southern Nevada State Veterans Home's current internet services to broadband services.		The objective of this project is to increase opportunities to provide tele-health and tele-visitation for the residents of the Southern Nevada State Veteran's Home.
22VTRPC01	Healthcare Pocket Card	\$10,000	6.1 - Provision of Government Services	This project provides funding for the design of resource healthcare pocket cards for use by healthcare workers caring for veterans.		The objective of this project is to design a pocket card to be in the scrub pocket of a healthcare worker and used as a resource guide that provides information when working with a veteran patient.

23ADMIC01	Microwave Network Equipment	\$1,674,738	6.1 - Provision of Government Services	This project provides funding for the Microwave Network Replacement Equipment Program for critical broadband infrastructure that supports public safety, wireless, broadband communications and the Nevada Shared Radio System for First Responder communications statewide.		The objective of this project is to replace outdated microwave network equipment to improve infrastructure and prevent loss of critical public safety and first responder communications.
23ACDCF01	COMMUNITY RECOVERY NAVIGATOR & FOOD SECURITY PROGRAM	\$1,094,125	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for the food distribution program offering culturally relevant products for community members.		The objective is to provide food to families with culturally familiar food items. The number of households served is the performance measure.
23ACHDA01	UNR School of Public Health	\$3,000,000	1.14 - Other Public Health Services	This project provides funding for the remodel of the UNR School of Public Health.		The objective of this project is to provide funds for the renovation of the old State Public Health Lab for the use of UNR. The total percentage remodel completed is the performance measure.
23ACHDA02	UNLV School of Public Health	\$3,000,000	1.14 - Other Public Health Services	This project provides funding for the remodel of UNLV School of Public Health space.		The objective of this project is to remodel the facility to serve as the location for workgroup and steering committee meetings, community trainings, conferences, research collaboration, and community partner meetings. The total percentage remodel completed is the performance measure.

23ACHDA03	Nevada State Public Health Lab	\$75,000,000	1.14 - Other Public Health Services	This project provides funding for the design and construction of the State Public Health Laboratory.		The objective of this project is to construct two critical assets to Nevada's public health infrastructure and patient outcomes. The total percentage design and construction complete is the performance measure.
23ACHDA04	NHBC - Academic Health Center	\$40,000,000	1.14 - Other Public Health Services	This project provides funding for the construction of the Ambulatory Care Center and Clinical and Mental Health Centers.		The objective of this project is to begin improving health outcomes for all Nevadans. Provide proper healthcare and prevention to the tribal community populations. The total percentage design and construction complete is the performance measure.
23ACHDA05	NHBC - Southern Health Lab	\$30,000,000	1.14 - Other Public Health Services	This project provides funding for the construction of a Bioscience Laboratory.		The objective of this project is to provide the general public and low-income housing proper healthcare. Provide proper healthcare and prevention to the tribal community populations. The total percentage of construction complete is the performance measure.
23ACNVM01	ACCESS NEVADA MODERNIZATION	\$12,500,000	6.1 - Provision of Government Services	This project provides funding for the Access Nevada Modernization program which provides a cloud based solution and streamlined services eligibility for low income population.		The objective of this project is to provide 247/365 access to services and supports for more than 900,000 Medicaid recipients while removing duplication/redundancy in data entry and improve data sharing and technology across DHS.
23AGFRL01	Agriculture - Universal Free School Meals	\$75,900,028	6.1 - Provision of Government Services	This project provides funding for the provision of free school meals to Nevada K-12 students.		The objective of this project is to continue to provide free school meals to all K-12 students.

23BH98801	988 Crisis Response System	\$3,500,000	1.12 - Mental Health Services	This project provides funding for the creation of a crisis response system for Nevada which will deploy resources to Nevadans in crisis.	\$3,500,000	The objective of this project is to establish a crisis response system for Nevada through the 988 Crisis Call Center and Care Traffic Control Hub. The number of individuals served is the performance measure.
23ANGLV01	FEED VEGAS	\$66,489	2.1 - Household Assistance: Food Programs	This project provides funding for weekly program supports for families going through cancer life-threatening terminal illnesses who are unable to shop or cook for themselves.		The objective of this project is to deliver food to families who are going through terminal illnesses. The total number of households/individuals served is the performance measure.
23ANTLG01	Anti Ligature Furniture	\$475,000	6.1 - Provision of Government Services	This project provides funding for the replacement of furniture to further ensure the protection and promotion of each patients' rights as well providing high level of patient care in a safe setting without the presence of high risk environmental hazards.		The objective of this project is to be in compliance with national standards identified by The Joint Commission (TJC) and CMS, SNAMHS identifies safety risks inherent in our patient population. Per TJC, hospitals are required to identify features in the physical environment that could be used to attempt suicide and take necessary action to minimize the risk. During the data collection period, riders will be provided free rides.		The objective of this project is to revive the Campus Commuter Pilot Program in order to gather the necessary ridership data to set goals, plan routes, and determine future demand
23CMSMI01	Case Management System Modernization/Integration	\$7,500,000	6.1 - Provision of Government Services	This project provides funding for the modernization of the ADSD data systems to provide for electronic application, enrollment, and case management.		The objective of this project is to benefit several public assistance programs and ensure timely access to services by Nevada's most vulnerable populations.
23CNATI01	Critical Network and Telecom Infrastructure	\$205,562	6.1 - Provision of Government Services	This project provides funding for the replacement of critical network and telecom infrastructure equipment for the TMC FAST Building in Southern Nevada.		The objective of this project is to update the wide area network communications system of the Southern Command Dispatch to continue providing connectivity to the outside world for data including internet access, voice, and private communications
23CONSV01	Consulting Service - streamline business processes/systems	\$1,040,000	6.1 - Provision of Government Services	This project provides funding for consulting services to improve agency operations to include business process reengineering consulting to streamline business process to create efficiency in operations and workflows and centralize activities and improve quality of services.		The objective of this project is to increase efficiencies, as well as ensure compliance with federal regulations.

23CSHWP01	COMMUNITY SCHOOL HEALTH AND WELLNESS PILOT PROGRAM	\$535,600	6.1 - Provision of Government Services	This project provides funding for the implementation of a full-service community schools program on four elementary school campuses in the urban core of Las Vegas to address the health wellness and academic needs of children and families.		The objective of this project is to implement of a full-service community schools program on four elementary school campuses in the urban core of Las Vegas to address the health, wellness, and academic needs of children and families in an integrated, proactive way.
23CSSBC01	CRISIS STABILIZATION CENTER	\$20,000,000	1.12 - Mental Health Services	This project provides funding for the Crisis Stabilization Centers for infrastructure tenant improvement and operational costs to establish crisis stabilization centers for children youth and families.		The objective of this project is to execute contracts with hospitals to provide funding for infrastructure, tenant improvement, and operational costs to establish crisis stabilization centers for children, youth and families. The total of tenant improvements completed is the performance measure.
23CYRMC01	RURAL MOBILE CRISIS RESPONSE TEAM	\$572,381	1.12 - Mental Health Services	This project provides funding to expand, sustain and improve the current Rural Mobile Crisis Response Team.		The objective of this project is to expand and improve the Rural Mobile Crisis Response Team to provide mental health services to children, families, as well as child welfare and juvenile justice systems in Nevada due to exposure to behavioral stressors resulting from the pandemic.
23DAYTP01	DAY TREATMENT PROGRAM	\$593,014	6.1 - Provision of Government Services	This project provides funding for the EC Day Treatment program to serve children 3-6 years with determination of Severe Emotional Disturbance and their families caregivers.		The objective of this project is to establish an EC Day Treatment program to serve children (3-6 years) with determination of "Severe Emotional Disturbance" and their families/caregivers in an Infant & Early Childhood Mental Health services program.

23DHPIS01	Dental Health Program in Schools	\$2,736,000	6.1 - Provision of Government Services	This project provides funding for a centralized credentialing and re-credentialing process that will allow providers to complete one enrollment for Fee for Service and all Managed Care Organization.		The objective of this project is to support youth dental services in Nevada.
23DIGPR01	DIGNITARY PROTECTION	\$24,500	6.1 - Provision of Government Services	This project provides funding for a more efficient security coverage for the Governor and first family.		The objective of this project is to replenish in-state travel in order to continue providing protection to the Governor as he travels the state to meet with constituents and attend to state duties in the north and south.

23DIWTR01	DIGITIZATION OF WATER RECORDS - FY23	\$283,083	6.1 - Provision of Government Services	This project provides funding for the modernization of the Nevada Division of Water Resources (NDWR) files/records.		The objective of this project is the modernization and digitization of the NDWR's files to accomplish and establish essential backup to allow for recovery in the event of physical loss of records (water damage, fire, human error, etc.); improve NDWR's public interface by creating redundancy of important documents and historical water right records; increase public accessibility with electronically accessible records through NDWR's website eliminating the need to physically travel to Carson City to review records; optimize staff time and resources when responding to public records requests; reduce physical storage space of records allowing for better use of high demand office space; reduce costs associated with paper files, including file jackets; paper, printing and copying costs; reduce costs and staff resources and create efficiency through the reduction or elimination of daily copy requests.
-----------	--------------------------------------	-----------	--	---	--	---

23DOCCE01	Pioche Culinary Equipment	\$36,096	6.1 - Provision of Government Services	This project provides funding for the purchase of a new culinary mixer and tilt skillet braising pan at Pioche Conservation Camp.		The objective of this project is to replace the mixer in Pioche Conservation Camp's Culinary due to it being broken and beyond repair. Parts must be ordered from a company outside of the United States and are very costly and time consuming if they can be obtained. The tilt skillet/braising pan currently in place has been deemed beyond repair and the parts required to repair this item are no longer available. Requesting one (1) 40-quart mixer and one (1) electric tilt skillet/braising pan.
23DOCFM01	Florence McClure Culinary Equipment	\$37,832	6.1 - Provision of Government Services	This project provides funding for the replacement of culinary equipment.		The objective of this project is to replace the current Steam Kettle, ice machine, and reach-in refrigerator at the Florence McClure Women's Correctional Center
23DOCLE01	Carlin Laundry Equipment	\$69,455	6.1 - Provision of Government Services	This project provides funding for the replacement of the current laundry equipment at Carlin Conservation Camp.		The objective of this project is to maintain sanitary and cleanliness standards needed for the facility which include the purchase and installation of an industrial washer/extractor, and gas dryer. Having the necessary equipment to clean Nomex fire gear worn by inmates assigned to fires will allow crew redeployment within 12 hours.

23DOCLL01	Lovelock Laundry Equipment	\$69,455	6.1 - Provision of Government Services	This project provides funding for the replacement of the current laundry equipment at Lovelock Correctional Center.		The objective of this project is to replace failing washers and dryers at the facility, this purchase includes an industrial washer/extractor, gas dryer, freight charges, and installation costs.
23DOCMP01	DHHS Director's Office Computers	\$13,449	6.1 - Provision of Government Services	This project provides funding for nine laptops to enable staff to telecommute.		The objective of this project is the purchase of additional telework equipment for the Director's Office will ensure critical work and oversight to all DHHS divisions is provided during COVID outbreaks and ensures the safety of staff in accordance with CDC Guidance.
23DOCMP02	DHHS Director's Office Admin Svc and GMU	\$6,724	6.1 - Provision of Government Services	This project provides funding for nine laptops to enable staff to telecommute.		The objective of this project is the purchase of additional telework equipment for the Director's Office will ensure critical work and oversight to all DHHS divisions is provided during COVID outbreaks and ensures the safety of staff in accordance with CDC Guidance.
23DOCRA01	Radios	\$399,069	6.1 - Provision of Government Services	This project provides funding for the upgrade and replacement of current essential communication equipment.		The objective of this project is for the upgrade and replacement of essential communication equipment.
23DOCWC01	Wells Culinary Equipment	\$8,230	6.1 - Provision of Government Services	This project provides funding for the purchase a new steam table for Wells Conservation Camp.		The objective of this project is to replace the 28-year-old steam table at Pioche Conservation Camp (PCC) with a new steam table.

23DPSSC01	PAROLE & PROBATION SECURITY CAMERAS	\$239,112	6.1 - Provision of Government Services	This project provides funding for the purchase and replacement of security cameras.		The objective of this project is to replace the office security cameras for all Nevada Parole and Probation offices statewide.
23DRCFL01	Flooring at Desert Regional Center	\$87,690	6.1 - Provision of Government Services	This project provides funding for the replacement of flooring at the Desert Regional Center.		The objective of this project is to ensure floors are safe and compliant for clients, advocates and staff.
23EMGCS01	(DPBH) Emergency Funding for Crisis Intervention Services	\$10,000,000	1.12 - Mental Health Services	This project provides funding for crisis triage, residential treatment and inpatient care to provide medically necessary treatment to those with acute need.		The objective of this project is to provide crisis triage, residential treatment, and inpatient care to adults, children, and adolescents experiencing a behavioral health crisis. The number of patients treated is the performance measure.
23EDEOC01	DRC Contract for EOC Assessments	\$1,283,619	6.1 - Provision of Government Services	This project provides funding to reinstate mandated state and federal assessments, as well as End of Course exams, which were waived during the pandemic.		The objective of this project is to complete learning assessments to measure a students proficiency and achievement pursuant to the requirements stated in the Nevada Revised Statutes.

23EDSUR01	Educator Surveys	\$1,000,000	6.1 - Provision of Government Services	This project provides funding to contract with a third party to implement the stakeholder developed Exit Survey and to engage stakeholders in the development and implementation of an educator working conditions survey.		The objective of this project is to maintain and increase the number of qualified adults available to work in districts and schools, especially as educators and staff continue to work to accelerate student learning and provide social-emotional supports in response to the difficulties faced during and due to the pandemic. To make informed and data-driven policy decisions about how best to retain current teachers and attract new teachers, NDE is seeking funds to stand up and maintain an exit survey and teacher working conditions survey. Without information from such surveys, Nevada is destined to continue the cycle of educator churn and continue to operate in chronic educator shortages.
23EDYHS01	EDDY HOUSE	\$1,563,117	2.16 - Long-term Housing Security: Services for Unhoused Persons	This project provides funding for the expansion of select programs which will intervene and break the cycle of homelessness and poverty for youth in Nevada. Effective intervention and targeted services can prevent homeless youth from becoming chronically homeless adults.		The objective of this project is to provide a Femme, Trans, Women, & Non-Binary Transitional Living Home for approximately six to ten transitional aged youth for stays of up to two years to empower women and other vulnerable individuals to achieve independence through a supported residential program. The number of affordable housing units preserved or developed; and the number served are the performance measures.

23EIPRC01	EARLY INTERVENTION PERSONNEL CENTER	\$368,100	2.1 - Household Assistance: Food Programs	This project provides funding for the Nevada Early Intervention System (NEIS) to develop a feasible solution as well as additional option to traditional academia in order to retain employees and assist them in meeting their professional requirements.		The objective of the project is to facilitate a Developmental Specialist Core Series of professional development curriculum that will be comparably rigorous to current paths of 18 course credits to educator licensure, and meet federal requirements through IDEA Part C for highly qualified professionals to retain the NEIS professional staff needed for continued services to children. The number of staff who completed the professional development curriculum is the performance measure.
23ELCBF01	Electricity use/carbon footprint system	\$5,000,000	6.1 - Provision of Government Services	This project provides funding for the purchase of software with vendor support to collect, track, and analyze data on state owned building electricity usage and resulting emissions.		The objective of this project is to procure of software and vendor support that will allow the state to collect, track, and analyze data on state owned building electricity usage
23NLSBL01	NSLA Inmate Records Backlog	\$108,455	6.1 - Provision of Government Services	This project provides funding for the digitization of the most recent case files of former inmates of Nevada correctional facilities to improve access to these records/files.		The objective of this project is to convert hard copy files to electronic files.

23EMPLR01	EMERGENCY AND PLANNED RESPITE	\$2,890,371	1.14 - Other Public Health Services	This project provides funding for respite care service and support to Nevada families. Respite will allow overstretched and stressed caregivers to take a break from caring for youth with high intensity needs.		The objective of this project is to provide respite care service and support to Nevada families. Respite will allow overstretched and stressed caregivers to take a break from caring for youth with high intensity needs. The number of family's assisted with respite care is the performance measure.
23EQPJT01	HENDERSON FOOD PANTRY	\$129,370	2.1 - Household Assistance: Food Programs	This project provides funding to access fresh nutritional foods to persons with food insecurity.		The objective of this project is to increase the size and storage of the food pantry to serve the food insecurity needs of the community. The total households served is the performance measure.
22ETHTR01	Online training platform	\$37,800	6.1 - Provision of Government Services	This project provides funding for the establishment of an online training management system that will provide required statutory ethics training.		The objective of this project is to develop an online platform that hosts Ethics Law training and is capable of assignment of courses to the public, state, and local government officers, and employees. The platform will include attendance tracking, presentation of training materials compliant with ADA requirements, and mechanisms for testing learning understanding. The platform will have the ability to produce and present both pre-recorded and live sessions.

23EVCDV01	HOUSING - EVICTION DIVERSION	\$10,000,000	2.17 - Housing Support: Housing Vouchers and Relocation Assistance for Disproportionately Impacted Communities	This project provides funding for payments to help prevent eviction of income-qualified renters in the state.		The objective of this project is to continue the relocation assistance and other support from eviction in Clark County Nevada. Clark County currently processes eviction claims utilizing Federal Emergency Rental Assistance funding due to AB486. The expanded eviction diversion program would allow more flexibility than the federal eligibility requirements of ERA and allow those impacted by the pandemic to continue to be stably housed. The number of affordable housing units preserved or developed; and the total people assisted with eviction assistance are the performance measures.
23FBCLV01	Forensic Bed Capacity LV	\$55,378,801	6.1 - Provision of Government Services	This project provides funding for the 45 bed expansion of forensic bed capacity in Las Vegas. Forensic hospitals provide restoration to clients with criminal charges who are a danger to self or others and to whom there is a question of competency to stand trial.		The objective of this project is to provide for additional staffing in the south for the long-term commitments from the courts.
23FCWPL01	Frontline Caregivers Workforce Pipeline	\$5,000,000	6.1 - Provision of Government Services	This project provides funding for the critical workforce shortages and build a pipeline for frontline caregivers through the PHI National Org.		The objective of this project is to build a consensus based curriculum for personal care workforce, increase recruitment and retention to expand the workforce.

23FRTRK01	MAINTENANCE TRUCKS	\$359,795	6.1 - Provision of Government Services	This project provides funding to replace outdated maintenance service trucks that can no longer be repaired due to age.		The objective of this project is to replace two maintenance trucks that are no longer supported by the manufacturer, and certain parts needed for repairs are no longer available.
23FTFPS01	FAMILY TO PEER SUPPORT	\$1,963,572	1.12 - Mental Health Services	This project provides funding for Family to Family Peer Support to provide intentional support with specific focus on the parent primary caregiver of the child. Services are designed to improve the family's capacity to care for or resolve the child youths emotional or behavioral needs by providing a unique set of services that includes emotional informational instruction and advocacy support.		The objective of this project is to provide services that are designed to improve the family's capacity to care for or resolve the child/youth's emotional or behavioral needs, by providing a unique set of services that includes emotional, informational, instruction, and advocacy support. The number of people served with peer support is the performance measure.
23FURPM01	Furlough Payback for FY21	\$35,466,465	6.1 - Provision of Government Services	This project provides funding to restore lost compensation and retirement as a result of the furloughs that were implemented during the 31st Special Session		The of objective of this project is to repay furloughs to state employees that were implemented in Assembly Bill 3, section 131.5 of the 31st Special Legislative Session to address budget reductions resulting from the COVID pandemic

23GIDTR01	GENOMIC INFECTIOUS DISEASE TRACKING	\$1,500,000	6.1 - Provision of Government Services	This project provides funding for increased statewide training and capacity and leveraging existing infrastructure through expanded education and workforce development to train epidemiologists and investigators in the working knowledge of genomic biology.		The objective of this project is to increase trace transmission lines of outbreaks rapidly understand case-to case relationships and locate point of sources in a timely manner
23GNOPL01	HYDROPONICS STEM LABORATORIES	\$2,700,000	2.24 - Addressing Educational Disparities: Aid to High-Poverty Districts	This project provides funding for the implementation of high-quality science, technology, engineering and math (STEM) education programming at 250 Title I eligible Nevada schools.		The objective of this project is to implement Green Our Planet's Hydroponics STEM Laboratories at 250 Nevada elementary schools, scaling up STEM education and creating a sustainable future for the state. Listing the National Center for Education Statistics School or District ID; and number of schools who implemented the Hydroponics STEM program are the performance measures.
23GOAVE01	Audio Visual Systems (Guinn, Grant Sawyer, Old Assembly)	\$219,298	6.1 - Provision of Government Services	This project provides funding for the upgrade of audio-visual systems with Teams enabled equipment in the frequently-used meeting rooms in historic government buildings to facilitate connectivity for key public meetings.		The objective of this project is to improve support for the videoconference and Teams meetings to provide better connectivity between locations, better constituent access to government meetings, and leverage existing Microsoft Office 365 services to facilitate improved integration with in-person meetings.

23GOEDR01	REGIONAL DEVELOPMENT AUTHORITIES	\$1,000,000	6.1 - Provision of Government Services	This project provides funding for grants to support the activities of Nevada's eight RDA organizations.		The objective of this project is to provide activities that improve the economic well-being of a region or state, including job creation, job retention, business retention and expansion, technology transfer, the diversification of the economy, support of entrepreneurs and the education and training of the workforce.

The objective of this project is to contract with entities to develop training for advocates and law enforcement professionals related to the Red Flag Law Education program.
23RFPCN01	RFP Consultant for Intensive Behavioral Support Homes	\$14,520,000	6.1 - Provision of Government Services	This project provides funding for Developmental Services (DS) to hire a consultant to assist in the development of a competitive RFP for Intensive Behavioral Support Homes, a new service for Nevada.		The objective of this project is to develop housing and support for individuals that have intensive behavioral support needs.

23RHSCC01	Reproductive Health Services	\$9,333,437	6.1 - Provision of Government Services	This project provides funding to allow organizations to continue providing essential family planning; reproductive health services; breast and cervical cancer screenings; preventive health care; and sexually transmitted infection control, prevention, and treatment.		The objective of this project is to allow each organization to continue providing essential family planning; reproductive health services; breast and cervical cancer screenings; preventive health care; and sexually transmitted infection control, prevention, and treatment.
23RNTAS01	HOUSING-CHAP RENTAL ASSISTANCE	\$15,000,000	2.2 - Household Assistance: Rent, Mortgage, and Utility Aid	This project provides funding for direct payments of rental assistance for tenants who have defaulted in their rent payments due to the COVID19 pandemic.		The objective of this project is to assist renters in Clark County who are delinquent in their rent due to the COVID-19 pandemic. The current demand in Clark County remains high compared to other areas of Nevada. The number of renters assisted is the performance measure.
23RSBEX01	Residential Setting Beds Expansion	\$4,000,000	6.1 - Provision of Government Services	This project provides funding for an increase the number of residential setting beds available across the state and reduces the length of stay for vulnerable populations in hospital and skilled nursing settings which have higher risks of exposure to COVID-19.		This objective of this project is to increase capacity of residential settings for older adults and people with disabilities and reduce the cost of these services to the state.

23RSMN01	Roseman University - School of Medicine	\$10,000,000	6.1 - Provision of Government Services	This project provides funding for the Roseman University to launch its College of Medicine to help meet the healthcare needs of Nevada citizens.		The objective of this project is to create an Allopathic Medical College at Roseman University to address the need for physicians in the State of Nevada.
23RVLCA01	Revenue Loss - Court Assessments	\$33,118	6.1 - Provision of Government Services	This project provides funding to the Attorney General's Office to cover a shortfall in Court Assessment revenue, caused by the COVID 19 pandemic, to pay for the continued operations of the Victims Notification System About Offenders (VINE) system through the end of the fiscal year.		The objective of this project is to provide funding for continued operation of VINE system through the end of the fiscal year.
23RWECC01	REFUGE FOR WOMEN EMERGENCY CRISIS CARE	\$485,869	1.10 - COVID-19 Aid to Impacted Industries	This project provides funding to open an Emergency Crisis Center to provide a safe shelter, trauma informed care, and a full continuum of care to victims of sex-trafficking and those looking to leave the dark sex-industry.		The objective of this project is to provide non-conditional and temporary shelter to women who are victims of sex trafficking. The number of women served is the performance measure.

23SCTRV01	Court Assessment Revenue Loss FY23	\$1,643,404	6.1 - Provision of Government Services	This project provides funding to the Judicial Branch to cover a shortfall in Court Assessment revenue, caused by the COVID19 pandemic, to pay for the continued operations of the courts through the end of the fiscal year.		The objective of this project is to provide funds to the Judicial Branch to pay for the continued operations of the courts.
23SHCOH01	COMMUNITY OUTREACH FOR HOMELESS	\$21,851	2.37 - Economic Impact Assistance: Other	This project provides funding to support the homeless population through meals, basic hygiene needs and services to homeless and/or underserved school age kids in the community.	\$21,851	The objective of this project is to help reduce hunger in the local community and to direct and assist people to other state and local programs in the community. The number of homeless served is the performance measure.
23SILNT01	SILVERNET REPLACEMENT (NETWORK CORE REPLACEMENT & EOL HARDWARE)	\$11,267,322	6.1 - Provision of Government Services	This project provides funding for the replacement of the end of life network and security equipment for the entire SilverNet core network infrastructure for the State of Nevada.		The objective of this project is to ensure the provision of safe, secure, and efficient network connectivity allowing state agencies to continue to provide services to public and internal service agencies and continue their current level of support of all state needs.
23SISPT01	Governor portrait	\$30,000	6.1 - Provision of Government Services	This project provides funding for the Governors Portrait as designated in NRS 223.221.		The objective of this project is to provide funding for the Governor's Portrait as designated in NRS 223.221.

23SNPSI01	Public Service Interns	\$290,130	6.1 - Provision of Government Services	This project provides funding to use Public Service Interns in southern Nevada to provide a relatively low-cost method of incentivizing students to enter the State of Nevada system as a service provider by offering clinical training opportunities.		The objective of this project is to enable the agency to have an internal pool of clinician professionals-in-training to ensure medically necessary services can be provided to those with acute need.
23SOCMH01	MENTAL HEALTH RECOVERY PROJECT	\$624,930	1.12 - Mental Health Services	This project provides funding to access community based crisis and wraparound services including community mental wellness education and rehabilitation therapeutic counseling services.	\$624,930	The objective of this project is to provide crisis intervention screening and assessment for housing, food, utilities, health needs, and officer intense supportive case management services and access to care advocacy. The unduplicated count of clients served is the performance measure.
23SPCTR01	Court Assessment Revenue Loss FY23	\$2,114,777	6.1 - Provision of Government Services	This project provides funding to the Judicial Branch to cover a revenue shortfall in Court Assessments, caused by the COVID19 pandemic, to pay for the continued operations of the courts through the end of the fiscal year.		The objective of this project is to provide funds to the Judicial Branch to pay for the continued operations of the courts.

23SPFCC01	Specialized Foster Care - Clark County	\$1,275,028	6.1 - Provision of Government Services	The project provides funding for a revenue shortfall to pay for the retention of foster care providers through a temporary rate increase.		The objective for this project is to fund a projected shortfall due to increased provider costs from \$115 a day to \$135 a day for specialized foster care to retain specialized foster care through the end of the state fiscal year ensuring youth in care are placed in an appropriate setting.
23SPFWC01	Specialized Foster Care - Washoe County	\$344,182	6.1 - Provision of Government Services	The project provides funding for a revenue shortfall to pay for the retention of foster care providers through a temporary rate increase.		The objective for this project is to fund a projected shortfall due to increased provider costs from \$115 a day to \$135 a day for specialized foster care to retain specialized foster care through the end of the state fiscal year ensuring youth in care are placed in an appropriate setting.
23SPINC01	Speakers/Intercom for DRC	\$10,516	6.1 - Provision of Government Services	This project provides funding for the replacement of outdated speakers and intercom system for two buildings at the Desert Regional Center.		The objective of this project is to ensure staff can effectively communicate throughout the facilities to ensure client and staff safety and wellbeing during emergencies.
23SPRES01	STATE PARKS RESERVATION SYSTEM	\$799,179	6.1 - Provision of Government Services	This project provides funding for the design, build and implementation of the State Parks reservation system for camping, fee tracking and gift shop operations.		The objective of this project is to design, build, and implement a reservation system to take reservations, track revenue and monitor inventory.

23SRASC01	Security Risk Assessment Contract	\$160,000	6.1 - Provision of Government Services	This project provides funding for the Biennial internal Security Risk Assessment per 2 CFR 200.500 Audit Requirements.		The objective of this project is to conduct periodic onsite surveys and reviews of state and local agency Automatic Data Processing methods and practices.
23SRJRV01	Court Assessment Revenue Loss FY23	\$173,245	6.1 - Provision of Government Services	This project provides funding to the Judicial Branch to cover a revenue shortfall in Court Assessment, caused by the COVID19 pandemic, to pay for continued operations of the courts through the fiscal year.		The objective of this project is to provide funds to the Judicial Branch to pay for the continued operations of the courts.
23TRPA01	TRPA - Digital Conversion	\$250,000	6.1 - Provision of Government Services	This project provides funding for the digital migration of hard copy records, historical documents, and permitting records.		The objective of this project is to digitize paper records.
23SUPST01	CHILDRENS BEHAVIORAL HEALTH AUTHORITY (Support Staff SFY23)	\$2,041,208	3.4 - Public Sector Capacity: Effective Service Delivery	This project provides funding for additional staff to provide DCFS with sufficient capacity to train and provide technical assistance to the behavioral health workforce.		The objective of this project is to expand evidence based children's mental and behavioral health for government agencies and community providers; and to provide oversight and quality assurance over children's mental behavioral health services in Nevada.

23SUSTF01	Support Staff	\$1,554,741	6.1 - Provision of Government Services	This project provides funding for additional staffing needed to oversee the increased requirements, and pandemic related caseload growth of the Nevada Medicaid program.		The objective of this project is to provide additional administrative positions to monitor/oversee pandemic related increases to the Medicaid caseload.
23SVNEX01	Service Navigation Expansion	\$1,646,881	6.1 - Provision of Government Services	This project provides funding for the creation of an entry level pipeline for the health care workforce and address access to care for Nevada's most vulnerable population.		The objective of this project is to increase the skills and knowledge of Resource & Service Navigator professionals.
23SYUIM01	System Updated & Improvement	\$1,383,665	6.1 - Provision of Government Services	This project provides funding for a centralized credentialing and re-credentialing process that allows providers to complete one enrollment for Fee for Service and all Managed Care Organization plans.		The objective of this project is to increase the number of quality Medicaid providers for recipients by simplifying administrative processes and preventing inconsistencies between programs.
23TEAMS01	COMM SURVEY/MODERNIZATION	\$548,809	6.1 - Provision of Government Services	This project provides funding for a pilot program and survey for the Unified Communications project.		The objective of this project is to widen the ability of a state employee to leverage modern cloud-based telecommunications technology.
23TELEQ01	Telework Equipment	\$219,898	6.1 - Provision of Government Services	This project provides funding for IT equipment to support remote work to mitigate the risk of infectious disease transmission to the most vulnerable populations while maintaining quality service delivery.		The objective of this project is to increase efficiency and productivity for a hybrid work environment.

23TELTR01	Geriatric & Telehealth Workforce Training	\$843,813	6.1 - Provision of Government Services	This project provides funding to develop and deliver 4M-based virtual interprofessional education and telehealth training.		The objective of this project is to increase access to telehealth services, and reduce health care costs and disparities to the elderly and disabled.
23TMCSY01	Electronic Time Clock	\$0	6.1 - Provision of Government Services	This project provides funding for the purchase and installation of an electronic time clock system.		The objective of this project is to provide secure and accurate time keeping and promote adequate staffing ratios and coverage within the facility.
23TRIBE01	GRANT TO TRIBES	\$20,000,000	6.1 - Provision of Government Services	This project provides funding for the aid and services to Nevada Tribes.		The objective of this project is to provide aid and services within the limitations of the State Fiscal Recovery Funds.
23TUMMC01	MOBILE MEDICAL CARE & VACCINATIONS FOR UNSHELTERED HOMELESS	\$21,000	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for free medical care to the homeless community in the Las Vegas Valley through the mobile healthcare clinic.		The objective of this project is to educate the homeless about symptoms that require emergency intervention and COVID related precautions. The number of patients served is the performance measure.
23UNBSS01	Unified Billing Support Software	\$400,000	6.1 - Provision of Government Services	This project provides funding for a statewide modification of the Unified Billing Support Software system.		The objective of this project is to allow school districts to bill the Nevada Medicaid for mental health services provided to students.
23UNITY01	UNITY Replacement	\$18,370,000	6.1 - Provision of Government Services	This project provides funding for the replacement of the Unified Nevada Information Technology for Youth (UNITY) data system which is Nevada's federally required electronic child welfare case management tool.		The objective of this project is to replace the federally required UNITY system.

23UNLVF01	UNLV FOOD PANTRY INTERVENTION	\$205,650	2.1 - Household Assistance: Food Programs	This project provides funding to reduce food insecurity and enhance wellness among the ethnic and racial minority groups, particularly those in lower socioeconomic groups within and surrounding the University area.	\$205,650	The objective of this project is to reduce food insecurity. The number of households served is the performance measure.
23URBRT01	SUMMER FARM CAMP	\$92,154	2.11 - Healthy Childhood Environments: Child Care	This project provides funding for a summer food education program for children ages 5-15 who reside in low-income neighborhoods and/or attend schools where 60 of the student body is eligible for free and reduced cost meals.	\$92,154	The objective of this project is to educate and encourage children to eat healthy and provide an environment that will aid in the child's mental health. The number of children served by childcare, or early learning, is the performance measure.
23UTSRE01	PROJECT MYNT-UNIFIED TAX SYSTEM (UTS)	\$42,724,998	6.1 - Provision of Government Services	This project provides funding for the modernization of the Department of Taxation's core tax processing data system.		The objective of this project is to improve Department operations and efficiencies.
23VBFPN01	NNSVH Backflow Preventors Project	\$31,871	6.1 - Provision of Government Services	This project provides funding for the backflow preventors to be added to the ten janitorial closets to prevent the potential backflow of chemicals into the water system.		The objective of this project is to ensure the life/safety requirements are met for Veteran's facilities in Northern Nevada.
23VBFPS01	SNSVH Backflow Preventors Project	\$39,732	6.1 - Provision of Government Services	This project provides funding for the backflow preventors to be added to the ten janitorial closets to prevent the potential backflow of chemicals into the water system.		The objective of this project is to ensure the life/safety requirements are met for Veteran's facilities in Southern Nevada.

23WINIC01	Wraparound Authority/ intensive Care Coordination	\$14,662,395	1.12 - Mental Health Services	This project provides funding for the intensive care coordination for a subset of youth, and families, who would benefit from the highest level of intensive care coordination that is beyond the scope of services the Wraparound in Nevada (WIN) model is designed to provide.		The objective of this project is to expand wraparound services for youth that have been relinquished by their parents due to the intensity of their needs, those at extremely high risk of relinquishment, and those living in emergency shelters or temporary foster care and alternative living arrangements. The number of youth, and families, receiving care coordination is the performance measure.
23WTRIN01	WATER RESOURCE INITIATIVE	\$6,400,000	6.1 - Provision of Government Services	This project provides funding for the Water Resource Initiative to update water availability data throughout Nevada.		The objective of this project is to provide baseline information needed to make determinations of water availability across Nevada.
23XPRTS01	FLORENCE MCCLURE COSMETOLOGY SCHOOL	\$322,150	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for job training to incarcerated individuals to successfully complete their licensing and gain employment in cosmetology when reintegrating back into the community.		The objective of this project is to reopen the New Path Cosmetology Re-entry program within the Florence McClure Correctional Facility allowing students to become economically self-sufficient within a short amount of time after release. The number of participants applying for training is the performance measure.
23YLFJP01	LIFEGUARDS JOBS PIPELINE	\$168,735	2.10 - Assistance to Unemployed or Underemployed Workers (e.g., job training, subsidized employment, employment supports, or incentives)	This project provides funding for the immediate need for lifeguards throughout Nevada.		The objective of this project is to use the Lifeguarding Jobs Pipeline program to increase the number of credentialed/trained lifeguards at YMCA pools. The number of young adults recruited is the performance measure.

23YPRSC01	POWER SCHOLARSHIPS ACADEMY	\$498,360	2.25 - Addressing Educational Disparities: Academic, Social, and Emotional Services	This project provides funding for services to address lost learning time especially for students of color with failing grades as reported by Clark County School District.	\$498,360	The objective of this project is to address learning loss to help students to perform higher on standardized tests, improve school attendance and eagerness to learn, reduce screen time, receive fewer behavior referrals, and strengthen their social-emotional health. Listing the National Center for Education Statistics School or District ID of activities provided with be the performance measure.
23YTHHM01	YOUTH HOMELESSNESS STUDY	\$500,000	6.1 - Provision of Government Services	This project provides funding for a study designed to understand the prevalence, characteristics and intervention needs of youth experiencing homelessness.		The objective of this project is to conduct a statewide one-time study of youth homelessness which will explicitly include LGBTQ+ youth.
23MHINP01	Mental Health Integration into ACT/FACT Programs	\$1,956,011	6.1 - Provision of Government Services	This project provides funding for the continuation and expansion of the Assertive Community Treatment and Forensic Assertive Community Treatment programs for state and local governments including the Washoe County Sheriff Mobile Crisis Data Management program.		The objective of this project is to expand services provided to consumers with police response, mental health intervention, and wrap-around services as well as continuity of care to inmates.

23AGSNO01	Agri-Commodity Food Program	\$71,820	6.1 - Provision of Government Services	This project provides funding for contract staff to provide oversight, and administration of the department's federally funded Child Nutrition Programs in schools.		The objective of this project is to provide support and administration for the child nutrition program's non-competitive USD funds.
22AGLCG01	Subgrants to Local Courts	\$2,000,000	6.1 - Provision of Government Services	This project provides funding for grants to local courts for projects including, but not limited to, audiovisual upgrades and initiatives focused on clearing case backlogs.		The objective of this project is to provide funding to local courts to help with the costs of items such as audiovisual upgrades and initiatives to clear backlogs.
23EMGCS02	Emergency Funding for Child and Family Services Crisis	\$5,000,000	6.1 - Provision of Government Services	This project provides funding for crisis triage, residential treatment and inpatient care to provide medically necessary treatment to those with acute need.		The objective of this project is to provide crisis triage, residential treatment, and inpatient care to adults, children, and adolescents experiencing a behavioral health crisis.
