## NDOC - PRISON INDUSTRY

525-3719

### PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide offenders the skills necessary to successfully re-enter society and enhance the safe operation of correctional facilities. To fulfill its mission, Prison Industries operates as a self-supporting operation, providing meaningful work and job training for offenders in the production of goods and services at little or no direct cost to the taxpayer. Operations include furniture and metal fabrication shops at Northern Nevada Correctional Center (NNCC), a printing/bindery shop and mattress factory at NNCC, a garment sewing factory and drapery sewing shop at Lovelock Correctional Center, and an automobile refurbishing/repair and motorcycle repair shop at Southern Desert Correctional Center (SDCC). Prison Industries operates used playing card recycling operations at High Desert State Prison and SDCC. Additionally, clothes hangers are recycled at HDSP. These private businesses utilize offenders as part of the Prison Industries program. Approximately 600 offenders work in Prison Industries' programs. Statutory Authority: NRS 209.189

## NDOC - PRISON RANCH

525-3727

### PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide offenders the skills necessary to successfully re-enter society and enhance the safe operation of correctional facilities. To fulfill its mission, Prison Industries operates as a self-supporting operation, providing meaningful work and job training for prison offenders, in the production of goods and services, at little or no direct cost to the taxpayer. One of Prison Industries' operations is the Prison Ranch. The Prison Ranch is self-supporting; operating from revenue derived from processed milk sold to the Department of Corrections and other state agencies, as well as from the sale of cream and surplus raw milk to a cooperative. Additional income is generated from the sale of livestock, renting unused grazing land, and boarding of both estray horses (Department of Agriculture) and wild horses (Bureau of Land Management), until they have been adopted or sold to private individuals or moved to another holding facility. A private business operates a composting operation on the Ranch. The Prison Ranch currently provides work for 64 offenders. Statutory Authority: NRS 209.189

### BASE

**DMV - HEARINGS**  
**201-4732**

**PROGRAM DESCRIPTION**

The Department of Motor Vehicles, Hearings Office provides due process hearings to any person aggrieved by a decision of the department. Generally, these hearings concern the suspension, revocation, or cancellation of a privilege license issued by the department, such as a driver's license or a license to conduct business involving motor vehicles. The decisions of the administrative law judges assigned to the office may impact the lives and property of thousands of Nevadans. For this reason, the office strives to conduct all hearings in a timely, fair and impartial manner, and in accordance with the provisions in the Nevada Administrative Procedures Act, Chapter 233B. The office is supported primarily from Highway Fund revenues. Statutory Authority for these hearings is found in NRS 366, 445B, 481, 482, 483, 484, 485, 487, and 706.

**BASE**

This request continues funding for 11 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**DPS - HIGHWAY SAFETY GRANTS ACCOUNT**  
**201-4721**

**PROGRAM DESCRIPTION**

The Department of Public Safety (DPS), Highway Patrol Division receives federal grants administered through this budget account. The granting agency is the U.S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), whose focus is accident, fatality, and injury reduction of commercial motor vehicle (CMV) related crashes. These reductions are accomplished through consistent, uniform, and effective CMV safety programs. The federal grants include the Motor Carrier Safety Assistance Program (MCSAP) and the High Priority (HP) grant programs.

The MCSAP grant is a formula distribution made available to state and local entities that conduct traffic safety programs and activities. These federal funds are used for qualifying programs designed to support the enforcement of CMV regulations, CMV inspections, and CMV/non-CMV traffic enforcement. The management and oversight of the MSCAP grant is supported by 15 positions and requires a 15 percent soft match, which is provided by Highway Patrol trooper time spent on MCSAP eligible activities.

The High Priority is a discretionary grant program that provides support for a number of different initiatives including information technology deployment, safety data improvements, and CMV safety enforcement. State match is based on the type of activity proposed. For example, media activities are 100 percent federal funds eligible. Statutory Authority: NRS 480.300, 480.330, 480.340, and 480.360.

**BASE**

This request continues funding for 15 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**PROGRAM DESCRIPTION**

The Central Repository for Nevada Records of Criminal History is administered by the Department of Public Safety (DPS) Records Bureau and administers the Nevada Criminal Justice Information System (NCJIS), which serves as the state's clearinghouse for criminal history record information and crime statistics. The system provides information and activities that support a wide variety of public safety interests and functions as the information portal through which law enforcement agencies statewide accesses criminal history record information from the Federal Bureau of Investigation (FBI) and other national and state criminal history databases. The bureau is a member of the Western Identification Network (WIN), a regional consortium of eight western states that share fingerprint images and criminal history record information and participates in the FBI's Interstate Identification Index and in the National Crime Prevention and Privacy Compact for the release of criminal history record information for non-criminal justice purposes. The bureau is further designated as the Chief Law Enforcement Official for the purposes of administering the Brady Handgun Violence Prevention Act of 1993.

The repository includes the Uniform Crime Reporting program; the Point-of-Contact firearms program (Brady); the Nevada Domestic Violence Protection Order Registry; the Nevada Sex Offender Registry; the Civil Name Check Program and the Program Development and Compliance Unit. Statutory Authority: NRS 179A and 179D.

**DPS - TRAFFIC SAFETY**  
**101-4687**

**PROGRAM DESCRIPTION**

The Office of Traffic Safety was established to secure the full benefits available through the Federal Highway Safety Office programs. Funds are authorized by Congress at or near the beginning of each federal fiscal year. Funds are expended on a reimbursement basis to local and state agencies that were awarded grants based upon the merit of their proposals, to mitigate traffic safety problems in their jurisdictions. Proposals that are chosen for a grant award are plans that promote public information and awareness through the use of effective education campaigns, fund innovative traffic enforcement programs and other community-based countermeasures to improve traffic safety. Statutory Authority: NRS 223.200

**BASE**

This request continues to award and administer grants to state agencies, local agencies, and non-profit organizations in Nevada. Grant awards are based on the annual Highway Safety Plan approved by the National Highway Transportation Safety Administration. One-time expenditures have been eliminated and partial year costs have been annualized.

**ENHANCEMENT**

**E225 EFFICIENCY & INNOVATION**

This request is for adjustments in the special use categories in budget account 4687 - Department of Public Safety - Office of Traffic Safety (OTS) to align with the special use categories in budget account 4688 - Highway Safety Plan & Admin. It is challenging to have a different special use category in two different budget accounts for the same federal funding source (i.e. - 405B funding, budget account 4687, Category 38, budget account 4688, Category 25).

Federal funds are drawn into 4687 and a portion of this funding is then transferred out to 4688. This change will be helpful in the processing of work programs for grant award alignments and balance forward of grant awards.

**101-4736**

**PROGRAM DESCRIPTION**

The Department of Public Safety (DPS), Office of Criminal Justice Assistance (OCJA) obtains, administers, and sub-grants to state and local government agencies grant funds from the U.S. Department of Justice for programs that address illegal drug use, trafficking, violent crime and improvement of the functioning of the criminal justice system. The objective is to coordinate education, prevention, treatment and law enforcement to achieve a comprehensive solution to the problems of drug abuse and violent crime. Funding for this budget comes primarily from federal grants with a partial match from General Fund appropriations. Created by the Anti-Drug Abuse Act of 1986, Section 1308 states that the chief executive of each state shall designate a State Administrative Agency (SAA). In 1987, the OCJA was designated by the Governor as the SAA for Nevada. In November of 2000, the OCJA was designated by the Governor as the state coordinator for the 1033 Department of Defense Excess Property Program and the state point of contact for the 1122 General Services Administration Purchasing Program. Statutory Authority: NRS 480.800.

**BASE**

## CRC - COLORADO RIVER COMMISSION

296-4490

### PROGRAM DESCRIPTION

The Colorado River Commission is empowered to acquire, manage and protect all of Nevada's allocation of water and hydropower resources from the Colorado River (allocated to Nevada from the federal government) for the residents of Nevada. In addition, it is to provide electric power resources to certain customers from any available source for needs over and above the hydropower allocations. These resources are primarily centered in and benefit Southern Nevada. The Colorado River Commission Fund acts as the general fund for all commission activities. All personnel costs for commission staff and all of the basic activities and functions performed in fulfilling the commission's legislative mandate are recorded in this account. The commission is entirely funded by its customers and receives no state or federal funds in carrying out its activities. The Colorado River Basin states are in constant contact regarding the issues of the lower basin; the bulk of commission travel occurs in California and Arizona. In addition, the commission has extensive involvement with a number of agencies of the federal government, including the Department of Interior, Department of Energy, Bureau of Reclamation, Western Area Power Administration, U.S. Fish and Wildlife Service, Environmental Protection Agency, Bureau of Land Management, National Park Service and others. Statutory Authority: NRS 538.

### BASE

**PROGRAM DESCRIPTION**

The Research and Development Fund provides engineering studies, analyses, negotiations and other efforts in protecting the interests of the state in the development of any of the resources under the control of the Colorado River Commission. The fund is currently utilized as a pass-through account for the Lower Colorado River Multi-Species Conservation Program costs. The program is a 50-year program to address the biological needs of mammals, birds, fish amphibians, reptiles, invertebrates and plants to comply with the Endangered Species Act. Funding is provided to the commission by its water and power contractors in accordance with the multi-species funding contracts. The Federal Bureau of Reclamation is the implementing agency for the program and the commission staff participate on the steering committee that provide oversight and input to reclamation regarding the implementation of the program. The program assures continuation of the Colorado River operations, including Nevada's diversions of Colorado River water from Lake Mead and continued generation of power at the federal hydropower generating facilities while complying with the Endangered Species Act. Statutory Authority: NRS 538.191

**CRC - POWER DELIVERY PROJECT  
502-4501**

**PROGRAM DESCRIPTION**

The Power Delivery Project (PDP) budget accounts for all of the costs associated with the Colorado River Commission's high voltage transmission, transformer and distribution system designed and tied into the Southern Nevada Water Authority's (SNWA) water delivery system (PDP). The system provides a power transmission system from the Lake Mead substation at Hoover Dam to the SNWA water treatment facility. This fund accounts for power market related power purchases for any commission customer as requested and needed for load requirements. The funding for all activities related to this budget account are provided by the SNWA and other customers under funding contracts. The contracts related to the operation of the PDP require detailed line item budget projections at the beginning of each year which must be approved by the SNWA. **PROGRAM DESCRIPTION**

The Comstock Historic District Commission's mandate is to encourage preservation of the Comstock Historic District, one of the nation's largest and most significant historic landmarks. It is also one of the most visited historic sites in the state, second to Hoover Dam. The commission issues construction permits, educates the public and promotes special programs. The commission considers requests for Certificates of Appropriateness, which property owners are required by statute to obtain before initiating exterior changes to existing structures or constructing new ones. The commission gives guidance to federal agencies working within the district and provides public education focused on historic resources. Statutory Authority: NRS 384.

**BASE**

This request continues funding for 2.50 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**DCNR - ENVIRONMENTAL QUALITY IMPROVEMENT  
101-4160**

**PROGRAM DESCRIPTION**

This budget account is established as an environmental quality improvement account (EQIA) with funds collected through the Supplemental Environmental Projects (SEP) program as defined by the United States Environmental Protection Agency (US EPA) as, "environmentally beneficial projects which a defendant/respondent agrees to undertake in a settlement of an enforcement action, but which the defendant/respondent is not otherwise legally required to perform." The Nevada Division of Environmental Protection's approach to SEPs is modeled after US EPA's program.

Funds related to the SEP program and other enforcement actions that result in penalties with specific uses of the funds outlined in the enforcement action for use through the EQIA, will be held in this account and transferred to another Department of Conservation and Natural Resources budget account for expenditure upon identification of an appropriate related project.

**BASE**

This request continues funding for ongoing programs. One-time expenditures have been eliminated and partial year costs have been annualized.

**PROGRAM DESCRIPTION**

The Nevada Commission on Off-Highway Vehicles was established on July 1, 2011, to promote the responsible use of recreational off-highway vehicles (OHV) pursuant to NRS 490. The Commission has granting authority for OHV registration fee proceeds with grants awarded in accordance with approved regulations. Grants are provided for law enforcement, education/public awareness and OHV trail management and development. The Nevada Commission on Off-Highway Vehicles was placed within the Nevada Department of Conservation and Natural Resources (DCNR) in May 2016. This was done in part through an Interim Finance Committee action that created an initial Executive Budget for the OHV Commission within DCNR fiscal structure as agency 703. Assembly Bill 29 of the 2017 Legislature officially created the Off-Highway Vehicles Program within DCNR.

## DCNR - FORESTRY - CONSERVATION CAMPS

101-4198

### PROGRAM DESCRIPTION

The Conservation Camp Program coordinates, directs and supervises the work performed by inmates of the Department of Corrections who reside in Forestry Conservation Camps located throughout the State of Nevada. The Conservation Camp Program provides the work force for labor-intensive forestry and conservation work projects, wildfire management and other emergency activities. The Program consists of 74 Conservation Crew Supervisors, ten Camp Supervisors, three Camp Area Supervisors, one Training Officer, one Administrative Officer, three Mechanics, one Program Manager and anywhere from 600-800 Crew members. Conservation Camps use approximately 161 pieces of equipment and vehicles. Personnel and vehicles are located at nine facilities across the state in: Carson City, Winnemucca, Carlin, Wells, Ely, Pioche, Tonopah, Las Vegas and Jean. Each camp fields both fire and conservation project crews. Every Crew Supervisor is assigned 6-12 Crew members for project and emergency response. Crew members are inmates that are certified as fire fighters with the national industry standardized training. In addition to fielding project and fire crews, some camps support nursery operations and/or mobile kitchen units.

**DCNR - FORESTRY - WILDLAND FIRE PROTECTION PRGM**  
**101-4194**

**PROGRAM DESCRIPTION**

The division manages the Wildland Fire Protection Program (WFPP), a cooperative arrangement established in the 2014-2015 biennium to provide wildland fire management services to participating entities. Counties and/or individual cooperators voluntarily opt-in to the WFPP. Doing so allows local governments to focus limited resources on local needs, while the division focuses on wildland fire protection. The WFPP educates and prepares landowners for fire, mitigates existing wildfire risk and provides rapid response to fire events with a specially trained and equipped suppression force. The WFPP also participates in rehabilitation efforts to damaged lands after a fire. Statutory Authority: NRS 472.

**BASE**

This request continues funding for 15 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DCNR - FORESTRY - WILDLAND FIRE PROTECTION PRGM  
101-4194

## DCNR - FORESTRY - NURSERIES

257-4235

### PROGRAM DESCRIPTION

This enterprise account contains three distinct programs administered by the Nevada Division of Forestry (NDF). The Nursery, Seedbank and Forest Products Utilization programs are rooted in the agency's overall mission and are an integral part of both the natural resources and fire suppression programs operated by the agency.

The Nursery Program, under the oversight of the NDF Natural Resource Program, was established in 1957 to provide technical assistance and conservation plant materials (tree seedlings, shrubs, forbs, and seeds) to meet the conservation needs of Nevada's private landowners and public land management agencies. The nurseries also offer custom growing services for conservation plants native to, or adapted to, the Mojave Desert, Great Basin Desert and Sierra Nevada. They produce low-cost native or adapted plant species acclimated to Nevada's environmental conditions for conservation purposes, including windbreaks, green-strips, stream bank stabilization, wetland and riparian restoration, mine reclamation, reforestation, wildlife habitat enhancement and rehabilitation of wildfire damaged lands or other disturbed sites. The Nursery Program is comprised of two facilities, one in Washoe Valley and one in the Las Vegas Valley.

The Seedbank was established in 1995 to provide seed, equipment and other materials to rehabilitate wildland fire and fire suppression related damages. The Seedbank assists private landowners and public agencies with conservation treatments on their lands to reduce soil erosion, increase plant diversity, improve wildlife habitat and reduce the threat of wildland fire. The Seedbank facility is co-located with the nursery in Washoe Valley.

The Forest Products Utilization Program was established in 2012 to focus on adding value to cut wood that occurs from the agency's normal fuel reduction and forest health enhancement projects. Prior to the initiation of the program, much of the wood that was cut was piled and burned in place as the most expedient method of disposal. The acquisition of harvesting and processing equipment allows the agency to extract the wood from the forest, process it into a useful end product and transport it out of the forest. The value added products, typically wood chips, fuel wood and saw logs are sold from the nursery/seedbank facility in Washoe Valley.

All of these enterprise programs receive operating funds based on the sale of conservation plant materials and forest products. Statutory Authority: NRS 472, 527, & 528.

**PROGRAM DESCRIPTION**

The Division of State Lands holds title to over 304,000 acres of state-owned land and acquires land and land interests for state agencies to carry out their missions. State Lands ensures the state is compensated for any use, occupancy or disposal of state-owned lands and maintains state land records. The agency is home to the State Land Use Planning Agency (SLUPA), which provides land-use planning services, administers the Nevada State Clearinghouse (a central location for coordinating state comments on federal land activities), coordinates the Nevada Joint Military Affairs Committee and serves as staff to the State Land Use Planning Advisory Council. The agency houses the Nevada Tahoe Resource Team (NTRT) who coordinates various state conservation and environmental protection programs at Lake Tahoe. Finally, State Lands is a participating agency with the Sagebrush Ecosystem Program and has a representative on the Sagebrush Ecosystem Technical Team.

**BASE**

## DCNR - NEVADA NATURAL HERITAGE

### 101-4101

#### PROGRAM DESCRIPTION

The mission of the Nevada Division of Natural Heritage (NRS 232.1369) is to maintain comprehensive data management systems on the locations, biology and conservation status of all endangered, threatened, sensitive and at-risk plant and animal (including invertebrates) species. The Division manages data on rare and at-risk species, including data collection, data input and quality control. These data are provided to other state agencies, federal agencies, non-governmental organizations, consultants and the public to inform conservation planning and land-use planning decisions, facilitate federally mandated environmental review, minimize future resource conflicts, protect biodiversity and help prevent species from becoming threatened or endangered. The Division maintains botanical expertise per NAC 527.200 and serves as scientific advisor to the State Forester/Firewarden for topics related to rare plants. The Division also manages the Nevada Wetland Program with the goals of stakeholder and interagency collaboration, understanding the extent, quality and stressors of the state's wetland resources and protecting and restoring wetlands as a carbon sequestration mechanism to address climate change.

#### BASE

This request continues funding for eight positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**DCNR - DEP MINING REGULATION/RECLAMATION  
101-3188**

**PROGRAM DESCRIPTION**

It is the mission of the Mining Regulation and Reclamation agency to ensure that Nevada's surface and groundwaters are not degraded by mining operations and that the lands disturbed by mining operations are reclaimed to safe and stable conditions to ensure a productive post-mining land use. Facilities utilizing chemicals for processing ores are generally required to meet a zero discharge performance standard. The Bureau works collaboratively with the mining industry and the public to achieve its mission. This budget account is fully funded by permitting fees and is comprised of three technical units: Regulation, Closure and Reclamation. These units perform a variety of plan reviews, permitting, inspection, compliance monitoring, and enforcement activities to ensure the design, construction, operation, closure and reclamation of mining and exploration operations. Operators must file a financial assurance/guarantee with the division or federal land manager to ensure that reclamation of the mine site will be completed should an operator default on a project.

The regulation and closure branches regulate mining in Nevada under the authority of NRS 445A.300-NRS 445A.730 and NAC 445A.350-NAC 445A.447. The reclamation branch regulates mining in Nevada under the authority of NRS 519A.010 - NRS 519A.280 and NAC 519A.010 - NAC 519A.415.

**BASE**

This request continues funding for 23 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**DCNR - DEP SAFE DRINKING WATER PROGRAM**  
**101-3197**

**PROGRAM DESCRIPTION**

The Bureau of Safe Drinking Water implements the Public Water System Supervision Program (PWSSP) and the Laboratory Certification Program (LCP). The PWSSP is authorized under the federal Safe Drinking Water Act (SDWA) and maintains primacy for the State of Nevada. State implementation of the PWSSP ensures Nevada's public water systems comply with state and federal drinking water standards by enforcing the sampling, monitoring and National Primary Drinking Water standards, including requirements for water quality, surface water treatment and corrosion control. The program assesses water sources (including identification of potential contaminant sources); assists communities and water systems in developing and implementing source water protection strategies; conducts sanitary surveys; certifies the qualifications of public water system operators; and requires public notification when systems are out of compliance. The bureau also reviews engineering plans for public water systems and the subdivision of land. Additionally, PWSSP provides training, information transfer, and regulatory update presentations at meetings of water industry associations. This program is funded by federal grants and fees. The LCP produces data used in regulatory decision-making by division programs in Safe Drinking Water, Water Pollution Control, Mining Regulation and Reclamation, Waste Management, and Corrective Actions. Pursuant to NRS 445A.428, 445A.863, and NRS 459.501, laboratories that perform analyses to meet requirements of the Clean Water Act, SDWA, and the Resource, Conservation and Recovery Act must be certified by the State of Nevada. The LCP program ensures that analyses are conducted according to Environmental Protection Agency and state approved methods with accurate and reproducible results. This program is funded by fees. Statutory Authority: NRS 445A.800 through 445A.955, 445A.300 through 445A.730, and 459.400 through 459.600.

**BASE**

This request continues funding for 32 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.
