Office of the Governor

January 15, 2025

Honorable Members of the Senate and the Assembly,

I am pleased to transmit the 2025-2027 Executive Budget for the State of Nevada. This budget reflects our ongoing commitment to balancing the needs of our state with principles of fiscal responsibility. Following the last biennium's historic budget, Nevada's Rainy Day Fund remains robust at \$1.2 billion, while the Education Stabilization Account is similarly strong with nearly \$790 million.

This budget continues to prioritize competitive compensation for all state employees, sustaining the historic raises implemented in the previous biennium. These adjustments have brought state salaries more in line with similar public and private sector jobs, contributing to a significant reduction in the state's employee vacancy rate from 24 percent two years ago to 13 percent today. Additionally, the budget ensures that teacher raises enacted last session are made permanent, achieving these objectives without increasing the tax burden on hardworking Nevadans.

The 2025-2027 Executive Budget emphasizes key priorities, including housing, healthcare, education, public safety and economic development. It is designed to ensure that state government effectively serves the people of Nevada by expanding opportunities for attainable housing, improving healthcare access, providing sufficient funding for all public schools and enhancing the safety of residents and visitors alike.

Highlights of the Executive Budget:

- **Housing:** Investing \$250 million in the Nevada Division of Housing, leveraging these funds to create an impact of more than \$1 billion over the next four years. Programs will include developing attainable owner-occupied and rental housing projects, acquiring land for housing development, providing assistance to essential workers purchasing homes, and incentivizing local governments to increase housing supply.
- **Healthcare:** Restructuring the Department of Health and Human Services to establish the Nevada Health Authority; dedicating more than \$100 million to expanding the healthcare workforce in Nevada, including protected funding for Graduate Medical Education; investing \$50 million in the Nevada Healthcare Workforce and Access Fund; enhancing community paramedicine in rural hospitals; and continuing with the Summer Electronic Benefit Transfer (EBT) program.

- **Education:** Expanding funding for teacher raises to include public charter school educators; fully funding transportation services for public charter schools; allocating \$140 million to public pre-kindergarten programs; and investing \$13 million to phase-in the new funding formula for Nevada System of Higher Education (NSHE) while holding harmless the state's two R1 Carnegie Research Universities to support long-term success.
- **Economic Development:** Infusing \$29 million over the biennium into the Knowledge Fund to foster research and commercialization in areas targeted for economic growth; creating the Nevada Childcare Facility Tax Credit; and allocating \$150 million to the State Infrastructure Bank to support low- or no-interest loans for housing and economic development projects.
- **Community and Infrastructure Investments:** Reserving \$381 million for the Southern Nevada Forensic Facility; \$78 million for the North Las Vegas State Veterans Home; \$71 million for the purchase, modernization and improvements of state office buildings; \$6 million to continue planning the Capitol Mall Complex Project in Carson City; and \$58 million in improvements for the High Desert State Prison HVAC system.
- **Public Safety:** Allocating \$21 million to hold habitual criminal offenders accountable.
- **Customer Service Improvements:** Continuing enhancements at the Nevada Department of Motor Vehicles to better serve residents.

I look forward to working collaboratively with you during the upcoming legislative session to craft a budget that addresses the needs of Nevada's residents and visitors, securing a prosperous future for our state.

Sincerely,

Governor Joe Lombardo
State of Nevada

TAX ABATEMENTS PROGRAMS FISCAL YEARS 2023-2024

NEVADA GOVERNOR'S OFFICE OF ECONOMIC DEVELOPMENT

Summary of Programs:

Abatement of Taxes on Business:

The Nevada Governor's Office of Economic Development (GOED) was created during the 2011 Session of the Nevada Legislature through a collaboration of the Nevada Governor's Office and the Leadership of the Nevada State Senate and State Assembly. GOED promotes a robust, diversified, and prosperous economy in Nevada, attracting new business and facilitating community development, stimulating business expansion and retention, encouraging entrepreneurial enterprise. In an effort to incentivize business development in Nevada, GOED administers multiple tax abatement programs.

The programs outlined below reflect the requirements and the abatements offered to eligible businesses. GOED reviews the abatement applications, conducts public hearings to determine eligibility, and reviews annual compliance reports after abatements have been granted.

The Executive Director and the GOED Board have approved 42 tax abatement applications in the last two fiscal years. Companies approved represent a variety of companies in multiple sectors and reflect the goals of the office as set forth in the State Plan for Economic Development. Those companies testify before the GOED Board that the incentive programs are an important factor in the company's decision to locate or expand their business in the State.

Summary of Each Incentive:

Local Sales and Use Tax Abatement (NRS 374.357, NRS 360.750):

A partial abatement of Sales and Use Taxes is available to qualified companies that locate or expand their business in Nevada. The tax abatement is on the gross receipts from the sale, and the storage, use or other consumption, of eligible capital equipment. The Sales and Use Tax rates vary by county within Nevada. The abatement reduces the Sales and Use Tax rate to 2% for new companies and 4.6% for expanding companies. The approved business is eligible for tax abatements for a two-year period beginning the date the abatement becomes effective.

Modified Business Tax Abatement (NRS 363B.120, NRS 360.750):

A partial abatement of the Modified Business Tax is available to qualified companies that locate or expand their business in Nevada. The current tax imposed on each employer is at the rate of 1.17% on taxable wages over \$50,000 in a quarter. A business may qualify for a partial abatement of up to 50% of the amount of the business tax due during the first four years of operations.

For a new company, the abatement of the Modified Business Tax applies to the number of new employees stated in its application. For an expanding business, the abatement does not apply to existing employees of the business but does apply to the number of new employees directly related to the expansion.

Personal Property Tax Abatement (NRS 361.0687, NRS 360.750):

A partial abatement from Personal Property Tax is available to qualified companies that locate or expand their business in Nevada. This tax abatement can be up to 50% of the tax due for 10 years beginning from when the abatement becomes effective. The applicant must apply for abatement not more than one year before the business begins to develop for expansion or operation in Nevada.

A partial abatement of Personal Property Taxes applies only to the same list of machinery and equipment eligible for the Sales and Use Tax abatement allowed under NRS 374.357. Property tax rates vary by taxing district within Nevada.

Real Property Tax Abatement for Recycling (NRS 701A.210, NRS 360.750):

A partial abatement of Real Property (land and buildings) Tax is available for businesses and facilities using recycled material that have as a primary purpose the conservation of energy or the substitution of fossil sources for other sources of energy. To qualify, the business must be in the primary trade of recycling at least 50% of raw material or an intermediate product onsite; or converting the energy derived from recycled material (specifically, industrial, domestic, agricultural, or municipal waste) into electricity. Qualifying businesses can receive a partial abatement of up to 50% of the tax due on real property for not more than 10 years beginning from when the abatement becomes effective.

Aviation Tax Abatement (NRS 360.753):

Partial abatements from Personal Property and Sales & Use Taxes are available to companies that locate or expand their business in Nevada. The Personal Property Tax abatement can be up to 50% for 10 years on the taxes due on tangible personal property, and the Sales & Use Tax abatement can reduce the applicable tax rate to *2% for a similar 10-year period, a near 75% reduction in most jurisdictions.

**The Sales & Use Tax abatement excludes aircraft purchase.*

Eligible Goods: for Sales and Use Tax imposed on the purchase of tangible personal property used to operate, manufacture, service, maintain, test, repair, overhaul or assemble an aircraft or any component of an aircraft. For Personal Property Tax imposed on an aircraft and the personal property used to own, operate, manufacture service, maintain, test, repair, overhaul or assemble an aircraft or any component of an aircraft.

**A Sales and Use Tax reduction to 2% requires the Governor's Office of Economic Development Board to approve a reduction to 2% by a two-thirds vote.*

Data Center Tax Abatement (NRS 360.754):

A partial abatement from Personal Property Tax and Sales and Use Tax are available to data center companies that locate or expand their business in Nevada. The Personal Property Tax abatement can be up to 75% of the taxes due for 10- or 20-year abatement periods. Abatements for Sales and Use Tax are for taxes imposed on the purchase of eligible machinery or equipment. The abatement reduces the applicable tax rate to *2% for a period of 10 or 20 years, a near 75% reduction in most jurisdictions. Abatements apply to co-located businesses of the data center.

Note: for fiscal year 2015-2016 any partial abatement must not include an abatement of the local school support tax imposed by chapter 374 of NRS.

Eligible Goods: personal property located at the center. From the tax imposed on the gross receipts from the sale, and the storage, use or other consumption, of eligible machinery or equipment for use at a data center. Machinery or equipment necessary to and specifically related to the business of the data center or collocated business. The term does not include vehicles, buildings, or the structural component of buildings.

**A Sales and Use Tax reduction to 2% requires the Governor's Office of Economic Development Board to approve a reduction to 2% by a two-thirds vote.*

Tax Abatements for a Capital Investment of at least \$1 Billion (NRS 360.893):

A partial abatement from Personal Property Tax, Modified Business Tax, Real Property Tax, and a full abatement from Sales and Use Tax are available to companies that locate or expand their business in Nevada and have a minimum capital investment of \$1 billion dollars within 10 years. The Personal Property Tax, Modified Business Tax, and Real Property Tax abatement can be up to 75% of the taxes due for a 10-year abatement period. A reduction of Sales and Use Tax, down to 4.85%, for taxes imposed on the purchase of eligible personal property and construction materials for a 15-year period. As a condition of approving a partial abatement of taxes pursuant to NRS 360.880 to 360.896, inclusive, the Executive Director of the Of-

Office of Economic Development, if he or she determines it to be in the best interests of the State of Nevada, may require the lead participant to pay at such time or times as deemed appropriate, an amount of money equal to all or a portion of the abated taxes into a trust fund in the State Treasury to be held until all or a portion of the requirements for the partial abatement have been met. Interest and income earned on money in the trust fund must be credited to the trust fund. Any money remaining in the trust fund at the end of a fiscal year does not revert to the State General Fund, and the balance in the trust fund must be carried forward to the next fiscal year.

**The Transferable Tax Credit portion of this package sunsets on July 1, 2025.*

Tax Abatements for a Capital Investment of at least \$3.5 Billion (NRS 360.965):

A full abatement from Personal Property Tax, Modified Business Tax, Real Property Tax, and Sales & Use Tax are available to companies that locate or expand their business in Nevada and have a minimum capital investment of \$3.5 billion dollars within 10 years. The Personal Property Tax, Modified Business Tax, and Real Property Tax abatement can be up to 100% of the taxes due for a 10-year abatement period. A reduction of Sales and Use Tax, down to 4.85%, for taxes imposed on the purchase of eligible personal property and construction materials for a 20-year period.

**The Transferrable Tax Credit portion of this package has sunset. There are no transferrable tax credits available for the \$3.5 billion applicants after July 1, 2022.*

Catalyst Fund (NRS 231.1573) and Catalyst Transferable Tax Credits (NRS 231.1555):

Nevada's Catalyst Programs incentivize the expansion or relocation of businesses that will quickly result in the creation of high-quality, primary jobs in Nevada. These programs offer a tool to Regional Development Authorities to assist their efforts to close deals with viable companies that will enhance the state's economic sectors and offer stable jobs with good pay and benefits. Catalyst Transferable Tax Credits to companies are approved pursuant to NRS 231.1555 and can be applied to:

- a) Any tax imposed by chapter 363A or 363B of NRS;
- b) The gaming license fee imposed by the provisions of NRS 463.370;
- c) Any tax imposed by chapter 680B of NRS; or

- d) Any combination of the fees and taxes described in (a), (b) and (c)

**The Catalyst Fund is no longer active. GOED's Authority to award new Catalyst Funds was eliminated during the 2019 Legislative Session. GOED continues to fulfill obligations under previously approved agreements. GOED still has authority in the Catalyst Transferrable Tax Credit Program, however none have been granted, since 2018, and no applications are pending.*

Transferable Tax Credits for Film and Other Productions (NRS 360.758 - 360.7598):

A transferable tax credit is available to production companies producing a film, television series, commercial, music video or other qualified production in Nevada. A production may qualify for a transferable tax credit of up to 25% of the qualified direct production expenditures incurred in Nevada if at least 60% of the total qualified expenditures are incurred in Nevada. The applicant must spend at least \$500,000 in Nevada and apply for the transferable tax credit not more than 90 days before the commencement of principal photography.

Workforce Innovations for a New Nevada (WINN) (NRS 231.141 – 231.152):

The Workforce Innovations for a New Nevada (WINN) Account was established as a result of the approval of Assembly Bill 1 of the 29th Special Session of the Nevada Legislature. The legislation requires the Governor's Office of Economic Development (GOED) to develop and implement programs to provide customized workforce development services (defined in the bill as workforce recruitment, assessment and training) to companies that create and expand businesses in the state and relocate businesses to the state. The legislation was inspired by the need for customized workforce training in advanced manufacturing and related skills to serve the needs of emerging industries in the state. Statutory Authority: NRS 231.141 through NRS 231.152.

TAX ABATEMENTS PROGRAMS FISCAL YEARS 2023-2024

NEVADA GOVERNOR'S OFFICE OF ENERGY

Summary of Programs:

Renewable Energy Tax Abatements (RETA):

The Governor's Office of Energy administers Nevada's Renewable Energy Tax Abatements (RETA) program in an effort to incentivize the development of renewable energy in Nevada. Renewable energy development is a way to utilize Nevada's domestic energy resources, create jobs, and bring large investments into the State. The renewable energy projects in the program must make a capital investment of at least \$3 million or \$10 million, dependent on the location of the project, and employ a minimum of 50 Nevadans during project construction.

The RETA program awards partial sales and use tax and partial real and person property tax abatements to eligible renewable energy facilities. The partial abatement of real and personal property taxes is for a duration of the 20 fiscal years immediately following the date of approval of the application equal to 55% of the taxes on real and personal property payable by the facility each year. The partial abatement of local sales and use taxes is for a duration of 3 fiscal years immediately following the date of approval of the application at the rate of 2.6%. The partial abatement taxes must not apply during any period in which the facility is receiving another abatement or exemption from taxes.

The Governor's Office of Energy reviews the partial tax abatement applications, conducts public hearings to determine eligibility, and reviews annual compliance reports after tax abatements have been granted.

The Governor's Office of Energy has approved a total of 63 tax abatement applications since 2011, for large scale solar photovoltaic, solar thermal, biomass, geothermal, and wind projects throughout the State, including two in fiscal year 23 and three in fiscal year 24. To date, the total benefit to the State of Nevada including capital investment, payroll and taxes paid, is \$13 billion. The total amount abated in property taxes and sales and use taxes is \$1.9 billion. This represents approximately a 7 to 1 return on investment for the State of Nevada.

Green Building Tax Abatements:

The Governor's Office of Energy (GOE) administers the Green Building Tax Abatement (GBTAX) program based on criteria set forth in the Leadership in Energy and Environmental Design (LEED) or Green Globes rating systems from the U.S. Green Building Council (USGBC) or the Green Building Initiative (GBI). The LEED and Green Globes rating systems are based on a set of standards for the environmentally sustainable design, construction, and operation of buildings.

The program began in 2007 as an incentive for business owners to improve the energy efficiency of new and existing buildings. In 2013, the State established new standards for how the program is administered and partial abatements are awarded.

To qualify for the partial tax abatement, applicants must earn a minimum number of points for energy conservation, which is determined by the Energy Star score or equivalent score, to meet the Silver Level or higher through the LEED rating system or two globes or higher through the Green Globes rating system.

The partial tax abatements range from 25% to 35% for a period of 5 to 10 years (depending on the certification level) on the portion of the taxes (other than taxes for public education) imposed pursuant to Chapter 361 of the Nevada Revised Statutes. The percentage and term of the partial tax abatements can be found in Nevada Administrative Code 701A.280.

There are 257 buildings in Nevada that are currently receiving a partial tax abatement from the GBTAX program. The buildings range from existing, new construction, and core and shell. These structures include a wide range of building types: hotel casino resorts, retail shopping centers, health care facilities, manufacturing and distribution centers, and restaurants.

BUDGET OVERVIEW

EXECUTIVE BUDGET OVERVIEW

The executive budget is presented in two formats: activities and line-item. The activities format provides some distinct differences from the older line-item presentation and shows an alternative format based on the strategic priorities set by the Governor.

The activities portion of the budget is structured at the core function of the government level. Services provided by departments and divisions are aligned to objectives that tie into broader level goals which are tied directly to the eight-core functions of government. Work levels and achievements for each activity are assessed using performance measures. Where appropriate, information on the specific populations served by or generating the need for, the budgeted activity is provided.

The traditional line-item budget has a three-part format with revenue and expenditure detail for each component of Base, Maintenance and Enhancements. This portion of the budget is structured at the department and division level, and this format uses the traditional budget accounts instead of activities.

- Base expenditures are historical amounts, adjusted to reflect current costs of operations.
- Maintenance expenditures are incremental costs of conducting state business to keep pace with increasing demands such as caseload changes or inflation.
- Enhancements are new or expanded programs that seek to increase or improve service levels.

Comparable information for this portion of the budget is demonstrated by displaying actual expenditures for the most recently completed fiscal year (fiscal year 2023-2024), the work program, or approved budget for the current year (fiscal year 2024-2025) and the Governor's recommendations for fiscal years 2025-2026 and 2026-2027.

ECONOMIC OVERVIEW¹

The U.S. Economy at a Glance

- The U.S. economy continues its moderate growth trajectory, with real GDP increasing at an annual rate of 3.1% in the third quarter of 2024. Growth was driven by steady consumer spending, robust federal government expenditures, and a rebound in business investment, despite a large decrease in housing investment. Consumer spending, a key driver of GDP, showed strong contributions from both goods and services, particularly in healthcare and motor vehicles. Federal government expenditures, particularly on defense, and gains in business investment further supported economic expansion.
- Inflation remains a central concern for the national economy, as the Consumer Price Index (CPI) rose by 2.7% over the 12 months ending November 2024, slightly up from 2.6% in October. The core CPI, which excludes food and energy, increased by 3.3% over the same period, reflecting persistent pressures in shelter, healthcare, and vehicle prices. Despite elevated inflation, price increases have moderated compared to 2022, supported by declining energy costs and a slowdown in food price growth.
- In December 2024, the Federal Reserve adopted a more accommodative stance, lowering the interest rate paid on reserve balances to 4.4% and setting the federal funds rate target range to 4.25%-4.5. Fed officials anticipate reducing rates to 3.9% by calendar year 2025, implying two rate cuts in 2025, followed by two additional cuts in 2026, and one final cut in 2027. The timing of these rate reductions remains uncertain; however, the Federal Reserve is likely to delay cuts if inflation remains unexpectedly high due to potentially inflationary fiscal policies. These decisions underscore the Federal Reserve's efforts to address moderating inflationary pressures while supporting a steady pace of economic growth. These measures also help maintain the smooth functioning of short-term funding markets and ensure financial stability moving forward.
- The FY 2024 budget deficit totaled \$1.8 trillion, or 6.4% of GDP, reflecting a slight increase from FY 2023. While this deficit remains significant, it was \$76 billion lower than initial projections, aided by robust tax revenues and moderate spending adjustments.
- The U.S. labor market reflects a mixed picture of resilience and adjustment in late 2024. Real average hourly earnings for all employees increased by 1.3%, seasonally adjusted, year-over-year in November 2024. Despite no change in real earnings from October to November, real weekly earnings rose by 0.3%, which was mainly driven by an increase in the average workweek. The unemployment rate remained elevated at 4.2%, up from 3.7% a year earlier, with 7.1 million individuals unemployed. Labor force participation edged down slightly to 62.5%, consistent with its stable range throughout the year.
- Labor productivity in the non-farm business sector grew by 2.2% in the third quarter of 2024. However, unit labor costs saw a modest rise of 0.8% for the quarter, reflecting balanced pressure from wages and productivity growth. During the current business cycle, starting in the fourth quarter of 2019, labor productivity has grown at an annualized rate of 1.8%, which translates to a 2.5% rate of growth in output and a 0.7% rate of growth in hours worked. Compensation costs for civilian workers grew by 4.0% with average hourly earnings rising to \$35.61, while the average workweek increased moderately to 34.3 hours.
- The U.S. housing market in 2024 reflects a mix of resilience and ongoing challenges. Home prices continued to rise, with the Federal Housing Finance Agency (FHFA) reporting a 4.3% annual increase in the national House Price Index for the third quarter of 2024. Despite this growth, the pace of price appreciation has slowed, reflecting constrained demand due to elevated mortgage rates and affordability challenges. The median asking price for vacant homes stood at \$373,700 in Q3 2024.

with an average 30-year mortgage rate of nearly 7%, while the median rent for vacant units was \$1,523. These prices indicate a persistent pressure on affordability across both homeownership and rental markets.

- Residential construction activity exhibited mixed trends. Housing starts in November 2024 fell 14.6% year-over-year to a seasonally adjusted annual rate of 1.29 million units, reflecting hesitancy among builders due to high construction materials and borrowing costs. However, building permits rose slightly, suggesting cautious optimism about future activity. Completions, up 9.2% from November 2023, signal progress in addressing housing supply gaps, though inventory remains tight in many markets. Vacancy rates remained stable, with rental vacancy at 6.9% and homeowner vacancy at 1.0%, consistent with prior-year levels.
- Personal income grew by 0.3% in November, driven by \$71.1 billion in additional compensation across industries. The personal saving rate stood at 4.4%, indicating stable consumer financial behavior as inflationary pressures eased. At the same time consumer confidence continued to strengthen with the Conference Board’s Consumer Confidence Index rising to 111.7, reflecting growing optimism about the national economy. Strength in the labor market and a more favorable outlook for job availability have bolstered sentiment, with the Present Situation Index climbing to 140.9. This optimism, combined with steady income growth, suggests that consumers remain positioned to support economic growth despite lingering economic uncertainties.
- In summary, the U.S. economy in 2024 demonstrated resilience, with moderate GDP growth driven by consumer spending and steady investment, despite challenges from elevated inflation and high interest rates. The Federal Reserve’s gradual shift to a more accommodative stance reflects easing inflationary pressures and the need to sustain economic momentum. While the labor market faced elevated unemployment, gains in real earnings and productivity signaled underlying stability. The housing market continued to grapple with affordability and supply issues, but slowed price growth and increased completions showed progress. Strengthened consumer confidence, supported by income growth and labor market optimism, underscores a cautiously optimistic outlook for sustained economic progress in the years ahead.

Overview of the Nevada Economy

- Nevada's economy continues to exhibit strength and steady growth, supported by a robust recovery in its core industries and successful efforts to diversify its economic base. The Silver State remains a leader in economic performance, with solid contributions from gaming, hospitality, mining, and retail, alongside notable progress in live entertainment, manufacturing, and technology. These sectors collectively highlight Nevada's adaptability and capacity for sustained prosperity.
- General Fund revenue collections have reflected this positive economic trajectory. In FY 2023, actual unrestricted General Fund revenues totaled \$5.8 billion, with continued growth in FY 2024, reaching \$6 billion. Forecast projections indicate this upward trend will persist at a more moderate rate as global and national economic conditions begin to normalize. Revenues are expected to climb to \$6.1 billion in FY 2025, \$6.2 billion in FY 2026, and \$6.4 billion in FY 2027. These figures underscore Nevada's capacity to sustain financial stability while adapting to the economic challenges the future might bring.
- For October 2024, statewide gaming win totaled \$1.29 billion, reflecting a 2.19% decrease compared to October 2023. Fiscal year-to-date figures from July through October 2024 show a 2.48% decline in gaming win compared to the same period in 2023, with Clark County experiencing a 2.64% drop. The Las Vegas Strip, accounting for a substantial portion of the state's gaming revenue, saw a 6.23% decline year-to-date. Gaming percentage fees collected in November 2024, based on October's taxable revenues, totaled approximately \$79.6 million. This marks a 4.24% reduction, or a \$3.5 million decrease, compared to November of the previous year, when collections reached \$83.2 million.
- The decline in gaming win can be attributed to several factors, but it can be mainly attributed to a slowdown of visitation, lower holds on baccarat tables, and shifting consumer preferences. Current generations of visitors prefer to allocate more of their budgets to non-gaming experiences such as live entertainment, dining, and shopping. These trends reflect the broader challenge of maintaining growth in traditional gaming revenues as the industry adapts to evolving economic conditions and preferences.
- Growth in taxable sales for FY 2024 has slowed compared to prior years. Taxable sales for FY 2024 increased by only 4.0% from the previous fiscal year, compared to growth rates of 6.3% in FY 2023, 20.8% in FY 2022, and 10.3% in FY 2021. This deceleration is primarily due to households shifting their spending toward non-tangible services and experiences, which are not subject to sales tax, and reducing their expenditure on high-dollar tangible goods that are taxable. This change in consumer spending behavior, along with the high cost of borrowing, has affected the way households spend their disposable income. Additionally, firms have modified their spending patterns in response to high interest rates and the rising cost of equipment and materials needed to conduct their business operations.
- Nevada's labor market continues to show signs of deceleration as employment growth slows further. According to the latest data, employment growth in November 2024 has decreased to an annual rate of just 0.5% seasonally adjusted, down from 1.3% in October. The state experienced a decline of 3,100 jobs over the month, indicating a clear slowing trend in job creation.
- The slowdown is primarily attributed to higher wages exerting downward pressure on firms' hiring activities. While wage growth benefits workers—average hourly earnings increased by 5.4% over the year in October—the higher labor costs are

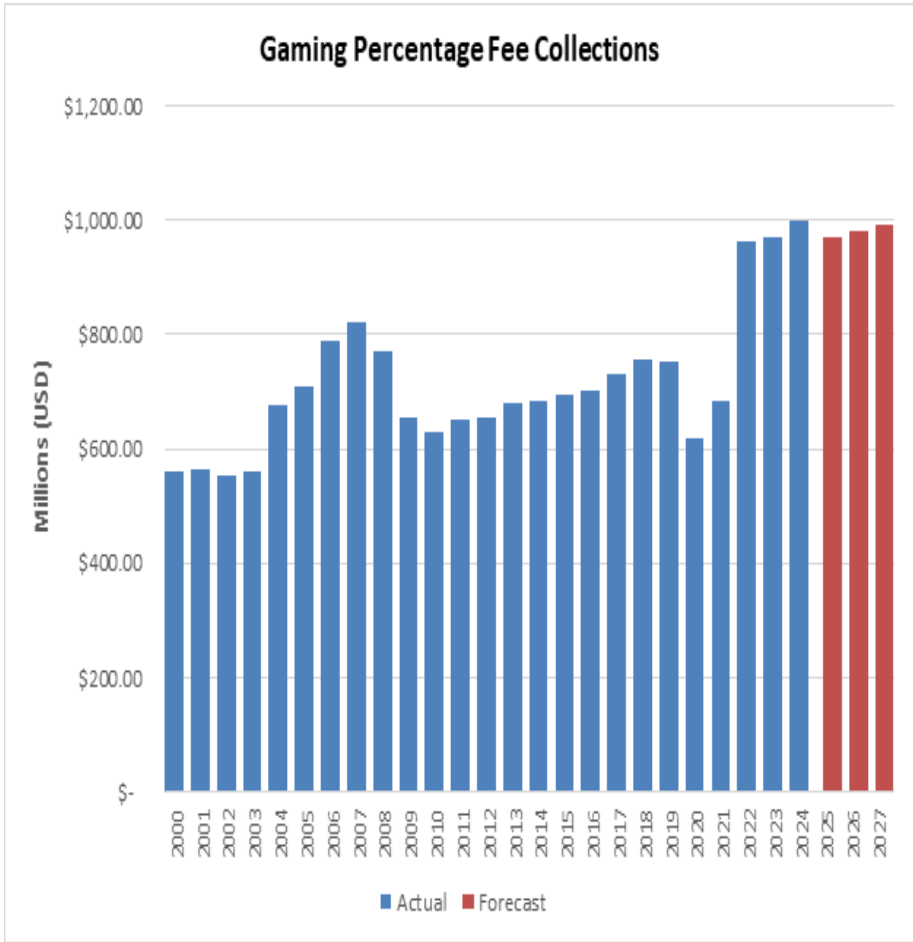

prompting employers to slow down hiring rather than increase layoffs. This dynamic is making the job market more competitive, with firms being more selective in their recruitment.

- The unemployment rate in Nevada remains elevated. As of November 2024, the seasonally adjusted unemployment rate stands at 5.7%, the highest in the nation. The labor force continues to grow modestly, with more individuals entering the job market. This increase in labor force participation temporarily raises the unemployment rate, as not all job seekers find employment immediately.
- Key sectors such as leisure and hospitality, critical to Nevada's economy, continue to face challenges. Despite some gains earlier in the year, the sector has not fully recovered to pre-pandemic employment levels, with the accommodation and food services subsector still lagging by approximately 8,900 jobs. Other industries like construction and manufacturing have shown modest growth but at a slower pace compared to previous years.
- Nevada's population continues to grow steadily, reflecting the state's ongoing economic vitality and appeal. According to the U.S. Census Bureau, Nevada's population reached approximately 3.2 million as of July 1, 2022, marking a 2.4% increase since the 2020 Census. The state demographer projects the population will rise to about 3.3 million by July 2025, and further grow to approximately 3.5 million by July 2028, with an average annual growth rate of around 1.4% over the next biennium.
- Nevada's housing market remains strained by high prices and limited affordability, with the median home price exceeding \$469,000 in 2024 and mortgage rates hovering around 7%. Homeownership remains out of reach for many families, reflected in a Housing Affordability Index below 100, which indicates that the median Nevada family earns less than the income required to afford a mortgage on a median-priced home. While single-

family home sales grew by 6.4% in early 2024, housing supply in urban areas like Las Vegas and Reno remains critically low. Affordable housing efforts have made progress, with 690 new units added in 2023 and over 6,000 in development, but nearly one-third of renters continue to face severe rent burdens, paying more than half their income on housing. Continued investment and strategic policy action will be essential to address Nevada's housing challenges and improve affordability for its residents.

- Nevada's economy continues to evolve as the Silver State faces new economic challenges and adapts to new market dynamics. While the labor market has slowed, with moderating job growth and elevated unemployment rates, key sectors such as leisure and hospitality and manufacturing show steady progress. General Fund revenues remain strong, supported by sustained growth in sales tax collections and strategic diversification efforts. Housing affordability challenges persist due to high mortgage rates and limited supply, but ongoing investments in affordable housing provide a pathway for relief. Meanwhile, Nevada's gaming industry, though facing a deceleration in revenue growth, remains a cornerstone of the state's economy.
- Moving forward, Nevada's population growth, economic diversification, and strategic investments position the state to navigate near-term challenges and capitalize on opportunities for sustainable development.

REVENUE SUMMARY

Sources of Funding

Nevada's General Fund is the primary operating fund of the state. The state also has access to federal funds, the State Highway Fund, and various other resources to support services. However, most specialized funds, such as the Highway Fund, may be spent only on specified activities. By contrast, there are few restrictions on how money in the General Fund is spent.

The Governor's Executive Budget must balance to revenue projections made by the Economic Forum, a group of private economic and financial experts appointed by the Legislature and the Governor. The Forum's General Fund revenue forecasts are binding on the Governor's Executive Budget and the Legislature's approved budget.

On December 2, 2024, the Economic Forum set the revenue projections that the Governor used to construct his recommended 2025-2027 biennial budget. The Economic Forum will reconvene on or before May 1, 2025, to prepare the forecast that must be used for the Legislature's approved budget.

Nevada's General Fund revenues, excluding any tax credits approved by the Legislature, are projected to reach \$6.276 billion in FY 2026 and \$6.457 billion in FY 2027. This brings the 2025-27 biennium total to \$12.733 billion, representing a 4.0% growth compared to the revised FY 2025 estimate and the actual collections for FY 2024 of \$12.238 billion during the 2023-25 biennium.

Gaming taxes are projected to account for 15.5% of total General Fund revenues in the 2025-27 Biennium, prior to applying tax credits, marking a decline from the current estimate of 16.7% for the 2023-25 Biennium. In contrast, sales tax collections (before tax credits)

are expected to contribute 31.0% of General Fund revenues during the 2025-27 Biennium, up from the current estimate of 30.5%. Similarly, Modified Business Tax collections (before tax credits) are forecast to make up 14.9% of General Fund revenues for the 2025-27 Biennium, rising from the 14.3% estimated for the current biennium.

In the 2025-2027 biennium, General Fund resources represent 26% of total state revenues. Federal funds will comprise 32% of revenues, the primary driver of federal fund increases remains related to changes and growth in the Medicaid program. The State Highway Fund represents 2% of revenues and the balance comes from other funding sources.

General Fund sources include taxes; licenses; fees and fines; return of unspent funds, including use of money and property; and transfers from other funds. During the 2025-2027 biennium, sales and use, gaming, modified business, and insurance taxes are projected to comprise about three quarters of total General Fund revenues.

SPENDING SUMMARY

Planned operating expenditures for the 2025-2027 biennium totals \$56.3 billion. This is an increase of approximately \$2.9 billion, or 5.1% over the current biennium.

When compared to the 2023-2025 Legislatively Approved budget, General Fund operating appropriations increased by \$1.8 billion or 14.1%, and other funds increased \$1.1 billion or 2.5%.

Nevada's economy has recovered significantly over the current biennium compared to the economic downturn attributed to the Covid-19 pandemic, through a significant infusion of American Rescue Plan Act (ARPA) funds, and the return to normal commerce, gaming, and tourism activity. Revenue surpluses experienced at the beginning of the 2023-2025 biennium were used to restore pandemic era funding cuts and provide increases to employee salaries to reduce vacancies. Revenue projections for the upcoming biennium will maintain the increased investments made in the current biennium and provide for some key additional investments aligned with the Governor's priorities.

Investments in the state workforce in the current biennium, included salary increases of 12 percent in Fiscal Year (FY) 2024 and 11 percent in FY 2025, temporary retention bonuses, restored continuity of service payments, and increased training opportunities. As a result, retention and recruitment have improved, lowering the vacancy rate in the state workforce from 24 percent to 13 percent. The Executive Budget provides continued funding for those salary increases and continuity of service payments to attract and retain a skilled and qualified workforce.

The Executive Budget restructures the Department of Health and Human Services to establish the Department of Human Services and the Nevada Health Authority. This will combine the state's healthcare purchasing power and regulatory oversight under the Nevada Health Authority while service provision and support programs will be administered by the Department of Human Services. The budget includes more than \$100 million dedicated to expanding Nevada's healthcare workforce in Nevada, including continued funding for Graduate Medical Education.

The Executive Budget continues to increase funding for education. The budget provides \$140 million to continue the increased investment in the Pre-K Education program. Additionally, the budget includes \$6 million for the Integration of Phonics and Stem Elements in Reading Curriculum and Parent-Selected Intervention Options for Literacy Education programs. The budget continues the \$250 million appropriated to Nevada schools for teacher and other educational personnel pay increases in the current biennium and expands that investment to include Public Charter School teachers. The Executive Budget also provides a new investment in Nevada's educators through a \$60 million appropriation over the upcoming biennium to establish an Excellence in Education Fund to provide performance-based bonuses for high-performing teachers and administrators.

The Executive Budget provides \$13 million to phase-in the new funding formula for Nevada System of Higher Education while holding harmless the state's two R1 Carnegie Research Universities to support long-term success.

The Executive Budget continues the Governor’s commitment to economic development by adding \$29 million over the biennium to the Knowledge Fund, establishing the Nevada Childcare Facility Tax credit, and includes \$150 million for the State Infrastructure Bank to support rural housing and statewide economic development.

Other notable aspects of this budget include:

- \$21 million into public safety programs to hold habitual criminal offenders accountable.
- \$12.3 million the implementation of the Extended Young Adults Supports Services.
- \$381 million for a new Southern Nevada Forensic facility.
- \$78 million for a new North Las Vegas State Veterans Home.
- \$71 million for the purchase of state office buildings and modernization of existing facilities.
- \$203 million in one-shot funding is also recommended for new and replacement equipment and other one-time purchases.

FUND BALANCES

General Fund

The Governor’s Executive Budget must have a General Fund reserve for each fiscal year of between 5% and 10% of proposed General Fund appropriations for the operation of state government. The General Fund balance at the end of Fiscal Year 2023-2024 was \$1.48 billion. The ending balances for Fiscal Years 2024-2025, 2025-2026, and 2026-2027 are projected to be \$1.58 billion, \$600 million, and \$321 million, respectively. The 5% minimum ending balance is calculated as a percent of that year’s operating expenses. The Governor’s Executive Budget exceeds this requirement for each of the budget years as detailed in the supporting schedules.

Rainy Day Fund

The State of Nevada’s “Rainy Day Fund” — formally known as the Account to Stabilize the Operation of State Government — is a financial reserve distinct from the General Fund reserve that exists to cover revenue shortfalls. Revenues are allocated to the Rainy Day Fund per NRS 353.288:

When the ending General Fund balance is greater than 7% of General Fund operating appropriations, 40% of the amount in excess of 7% of General Fund operating appropriations is allocated to the Rainy Day Fund.

Beginning July 1, 2017, one percent of the revenue projected for each fiscal year of the biennium by the Economic Forum at their May meeting in each odd-numbered year, as adjusted by any legislation enacted by the Legislature that affects state revenue for that fiscal year, shall be appropriated from the General Fund to the Rainy Day Fund at the beginning of each fiscal year.

Senate Bill 431 of the 2023 Legislative Session increased the maximum balance allowed in the Rainy Day Fund from 20% to 26% of the total of all General Fund appropriations made for the operation of the government, the funding of schools, and the regulation of gaming.

Pursuant to NRS 353.213, the Executive Budget shall include a transfer to the Rainy Day Fund of one percent of the revenue projected for each fiscal year of the biennium by the Economic Forum at their December meeting from the previous even-numbered year, adjusted for any changes or adjustments to state revenue recommended in the proposed budget.

The Executive Budget includes transfers to the Rainy Day Fund in the amount of \$258.9 million and \$49.2 million for Fiscal Years 2025-2026 and 2026-2027 respectively.

Based on the projected transfers, the Rainy Day Fund balance at the end of the 2026-2027 biennium will be \$1.66 billion.

EXPENDITURE LIMITATION

The limit on total proposed expenditures provided by NRS 353.213 was added to the budgeting process in 1979. It caps General Fund spending per Nevadan at the 1975-1977 biennium level adjusted for inflation and population growth. The budget submitted by the Governor cannot exceed the amount appropriated for the 1975-1977 biennial budget multiplied by the percent change in population from July 1974 and the percent change in the Consumer Price Index (CPI) from the same month. Construction expenditures are exempt from this limit, as are deposits to the Rainy Day Fund and payments to reduce the unfunded liability for retirees' health insurance.

Since 1974, the state's population has grown approximately 451 percent, and the CPI has increased about 537 percent. Starting with the base 1975-1977 biennium budget of slightly less than \$390 million, calculating the increase for population and CPI places the spending cap for the 2025-2027 biennium at \$13.651 billion which is \$0.918 billion more than the revenue projected by the Economic Forum for the 2025-2027 biennium at its December 2, 2024 meeting. The Executive Budget does not meet or exceed the spending cap.

The corresponding table shows the calculation of the expenditure limit and the chart shows the Legislatively Approved Operating Appropriations compared to the spending cap from the 1985-1987 biennium to current. In compliance with NRS 353.213, the Executive Budget appropriation amount in the chart includes all proposed expenditures for the 2025-2027 biennium except those for construction or for transfer to the Rainy Day Fund.

ATHLETIC COMMISSION

101-3952

PROGRAM DESCRIPTION

The Nevada State Athletic Commission (Commission) regulates all contests or exhibitions of unarmed combat, including the licensure and supervision of promoters, boxers, mixed martial artists, kick boxers, seconds, ring officials, managers and matchmakers. The Nevada Athletic Commission was established by an act of the Nevada Legislature in 1941. Since that time, the Commission has regulated professional unarmed combat (e.g., boxing, kick boxing and mixed martial arts) in Nevada. The conduct and regulation of unarmed combat in Nevada are governed by NRS 467 and NAC 467. The Commission administers the state laws and regulations governing unarmed combat for the protection of the public and to ensure the health and safety of the contestants.

GOVERNOR'S OFFICE-OFFICE OF FEDERAL ASSISTANCE

101-1341

PROGRAM DESCRIPTION

The Office of Federal Assistance provides a range of grant-related support to increase and maximize federal dollars received by the state. The office works to achieve this through the identification of performance metrics and targets relating to obtaining and maximizing federal assistance and improving the administration of grants; increasing coordination through partnerships; targeted dissemination of best practices; and identifying barriers and methods to streamline state processes related to federal awards (NRS 223.486).

The Office of Federal Assistance serves as the single point of contact for Nevada's federal grant applications subject to intergovernmental review (E.O. 12372, NRS 223.478), supports the Nevada Advisory Council on Federal Assistance in the development and oversight of the State Plan for Maximizing Federal Assistance (NRS 223.486), and works with Nevada's federal delegation on grant-related initiatives (NRS 223.478). Additionally, the office administers the Grant Matching Program, providing last-resort match dollars to eligible organizations pursuing federal award opportunities. The Grant Matching Program was made permanent within the office with the passage of Assembly Bill 445 by the 81st Legislature (223.490).

PROGRAM DESCRIPTION

The Data Communications and Network Engineering unit is one of three budget accounts within the Communications unit of OCIO. This unit is responsible for developing, operating, and maintaining the statewide data, voice over internet protocol, and video-communications infrastructure. A significant portion of its efforts focuses on the Wide Area Network, known as SilverNet, and ensuring connectivity, including internet access for the state and dedicated purpose circuits such as federal program connections. Staff tasks include installing and troubleshooting data circuits; installing, operating, and maintaining routers, firewalls, event logging, and data switches; and engineering, analyzing, and troubleshooting the complex WAN. The unit supports over 8,500 network connections, representing servers and network devices across more than 150 locations throughout the state. Customers include all Executive Branch Agencies, Constitutional Offices, the Judicial Branch, and, to a limited extent, the Legislative Branch. Statutory authority: NRS 242.

OCIO - NETWORK TRANSPORT SERVICES

721-1388

PROGRAM DESCRIPTION

Network Transport Services (NTS) is one of three budget accounts within the Communications unit. This unit, using a combination of microwave, fiber optics, and other wireless technologies, provides transport of communications circuits for federal, state, and local government entities, many of which are responsible for public safety. NTS also delivers large transport circuits for data communications and private branch exchange (PBX)/voice over internet protocol (VoIP) services to other communications units within OCIO, such as SilverNet and PBX/VoIP telecommunications, thereby indirectly supporting nearly every state agency. Staff tasks include designing and developing backbone microwave communication infrastructure; installing, operating, and maintaining microwave and fiber optic communication equipment 24/7; troubleshooting complex transport system problems; and maintaining and developing remote communication sites and facilities. Staff are directly responsible for microwave circuits and transport equipment at state sites that carry public safety traffic. NTS communication sites also host other agency communications equipment and antennas on its towers, providing commercial and emergency backup power for their equipment. Statutory Authority: NRS 242 and NRS 233F.

PROGRAM DESCRIPTION

The Office of Information Security (OIS) operates independently from network and information technology operations and is managed by the Chief Information Security Officer (CISO), who reports directly to the Chief Information Officer. OIS establishes and maintains the enterprise vision, strategy, and program to ensure the protection of information assets and technology. As part of its service delivery, OIS oversees a comprehensive state information security program that includes continuous monitoring, vulnerability scanning, security incident response coordination, physical security access services, and other operational security services for the Executive Branch. The OIS staff identifies, develops, implements, and maintains enterprise security processes to mitigate information technology risks. The CISO directs responses to incidents, establishes standards and controls, manages security technologies, and implements policies and procedures. Additionally, the CISO chairs the State Information Security Committee, serves as vice chair of the Nevada Cyber Security Task Force, and is a member of the Nevada Resilience Advisory Committee and the National Governors Association Cybersecurity Policy Advisors Network. Statutory Authority: NRS 242.

AG - EXTRADITION COORDINATOR

101-1002

PROGRAM DESCRIPTION

The Federal Uniform Criminal Extradition Act requires governors of each state to return any person charged in another state with treason, a felony, or any other crime, who has fled from justice, and is subsequently apprehended in a state in which the crime was not committed. The Interstate Agreement on detainers covers inmates who are imprisoned in another state penal institution and wanted by the demanding state to stand trial on criminal charges. The Extradition Coordinator, who also serves as Nevada's Agreement Administrator, is responsible for ensuring the ends of justice are promoted by effectuating the return and/or temporary transfer of fugitives who have taken asylum in this state to the requesting states; effectuating the return and/or temporary transfer to Nevada of fugitives who have taken asylum in other states within the statutorily prescribed methods, procedures and time limits; recovering the monetary costs to which the state is entitled by virtue of this undertaking; and providing high quality continuing legal education on all aspects of extradition and detainer laws. Statutory Authority: NRS 178 and 179.

AG - VICTIMS OF DOMESTIC VIOLENCE

101-1042

PROGRAM DESCRIPTION

The Victims of Domestic Violence budget encompasses programs relating to domestic violence, sexual assault, stalking, and the Office of Ombudsman for Domestic Violence. The Domestic Violence Ombudsman is responsible for standardizing and overseeing the treatment of domestic violence offenders, as well as, assisting in the statewide coordination of domestic violence services and training.

The purpose of the Office of Ombudsman is to prepare reports relating to victims of domestic violence, provide necessary assistance to victims, and provide education to the public related to domestic violence, including prevention assistance available to victims and treatment available for persons who commit domestic violence. The Ombudsman administers the account for district court assessments collected as a result of domestic violence convictions. The District Court assessment monies can be utilized to assist in training law enforcement, prosecutors, the judiciary, and the general public in the area of domestic violence. District Court assessments also support the Committee on Domestic Violence activities and have been used in previous years to support the Ombudsman position itself.

The purpose of the Committee on Domestic Violence is to adopt regulations to evaluate, certify, and monitor programs that treat persons who commit domestic violence; review and evaluate existing domestic violence training programs provided to peace officers; and make recommendations to the Commission on Peace Officers' Standard and Training. Statutory Authority: NRS 228.440 and 228.470.

SOS - HELP AMERICA VOTE ACT ELECTION REFORM

101-1051

PROGRAM DESCRIPTION

The Help America Vote Act of 2002 (HAVA) was enacted by Congress and signed into law by President Bush on October 29, 2002. HAVA was a response to the irregularities in voting systems and processes unveiled during the 2000 Presidential Election. This program provides for improving the administration of elections for federal office; replacing voting equipment that only records a voter's intent electronically with equipment that utilizes a voter-verified paper record; implementing a post-election audit system that provides a high-level of confidence in the accuracy of the final vote tally; upgrading election-related computer systems to address cyber vulnerabilities identified through Department of Homeland Security or similar scans or assessments of existing election systems; facilitating cybersecurity training; implementing established cybersecurity best practices for election systems; and funding other activities that will improve the security of elections for federal office. Statutory Authority: NRS 293.442

LEGISLATIVE - JUDICIAL

Legislative Branch

LEGISLATIVE BRANCH - The Legislature enacts the state's laws and also creates the machinery for carrying out those enactments. In establishing departments, boards, commissions, and bureaus, the Legislature defines the scope of their powers and the extent of their responsibilities. Through the enactment of laws, the Legislature also approves the budgets that grant or deny state agencies the authority to hire employees and expend public funds. The Legislative Branch maintains three budget accounts: the Legislative Counsel Bureau, the Interim Nevada Legislature and the State Printing Office.

Department Budget Highlights:

- 1. New Positions/Position Upgrades** - As submitted by the Director of the Legislative Counsel Bureau, the Governor's Executive Budget includes funding for both new positions and for upgrades to existing positions to ensure that compensation is commensurate with assigned duties and responsibilities and is competitive with compensation.
- 2. Operating Costs** - As submitted by the Director of the Legislative Counsel Bureau, the Governor's Executive Budget includes funding to provide for increased operating costs related to the utilities, supplies, materials and services required to maintain the operations of the Legislature.

LEG - LEGISLATIVE COUNSEL BUREAU - The Legislative Counsel Bureau is the non-partisan, central staff for the Legislature. The bureau consists of the Legislative Commission, an Interim Finance Committee, a director, and five divisions (Administrative, Audit, Fiscal Analysis, Legal and Research). The divisions are made up of professional staff who provide a variety of services to legislators and the public. The design of the bureau is intended to limit political pressure on its employees. The Interim Nevada Legislature consists of the Secretary of the Senate and the Chief Clerk of the Assembly and their permanent staffs. The Secretary of the Senate and the Chief Clerk of the Assembly are elected as officers by the members of the houses they serve.

Division Budget Highlights:

1. **New Positions/Position Upgrades** - As submitted by the Director of the Legislative Counsel Bureau, the Governor's Executive Budget includes funding for both new positions and for upgrades to existing positions to ensure that compensation is commensurate with assigned duties and responsibilities and is competitive with compensation.
2. **Operating Costs** - As submitted by the Director of the Legislative Counsel Bureau, the Governor's Executive Budget includes funding to provide for increased operating costs related to the utilities, supplies, materials and services required to maintain the operations of the Legislature.

SENIOR JUSTICE & SENIOR JUDGE PROGRAM

101-1496

PROGRAM DESCRIPTION

Article 6, Section 19, of the Nevada Constitution authorizes the Chief Justice to recall to active service any justice or judge who consents to such a recall and who has not been removed for cause or defeated for retention in office. Former judges are recalled to expedite judicial business, assist in districts with congested calendars, and act for those who are disqualified or unable to perform. This budget compensates the "senior justices and senior judges" that are recalled and assigned temporary duty. The assignment of former judges is a cost-effective method for state and county governments to avoid the costs of funding full-time judicial positions and from having to provide additional courtroom facilities and staff. This program is funded through a General Fund appropriation.

BASE

JUDICIAL DISCIPLINE

101-1497

PROGRAM DESCRIPTION

The Nevada Commission on Judicial Discipline (Commission) was created by constitutional amendment on November 2, 1976, and charged with the responsibility of investigating allegations of misconduct, violations of the code of judicial conduct, or disability of judges. The seven-member Commission receives and investigates complaints against full-time and part-time judges, judicial officers and aspirants to judicial office. For a time, the Commission's proceedings were governed by administrative and procedural rules of the Nevada Supreme Court. However, on February 21, 2003, the Nevada Supreme Court repealed Part VII of its rules, and the Commission has since adopted its own procedural rules to govern its proceedings. Constitutional Authority: Nevada Constitution, Art. 6, Section 21.

The Standing Committee on Judicial Ethics (Standing Committee) was created in 1998 by Supreme Court Rule to resolve ethical disputes arising in the course of campaigns for judicial office. It also provides judges and aspirants to judicial office advisory opinions regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. In 2011, the Nevada Supreme Court repealed a section of the rule and eliminated the need for the Standing Committee to resolve ethical disputes arising in the course of campaigns for judicial office. The Standing Committee continues to consider opinion requests regarding ethical matters that may arise in the ordinary course of judicial service or in the elective or appointment process. The Standing Committee also assists the Nevada Supreme Court by studying and recommending additions to, amendments to, or repeal of provisions of the Revised Nevada Code of Judicial Conduct or other laws governing the conduct of judges and judicial candidates. Statutory Authority: NRS 1.425 to 1.4695, inclusive. Rule Authority: Nevada Supreme Court's Inherent Power to Make Rules.

ADMINISTRATION - NSLA - ARCHIVES & PUBLIC RECORDS

101-1052

PROGRAM DESCRIPTION

The State Archives and Records program administers comprehensive, cost-effective programs for the creation, maintenance, retention, preservation, and secure disposition of state government executive branch records. The Archives and Records program also renders services and support to all other state entities, Tribal and local governments, and the Nevada System of Higher Education. The State Archives collects, preserves, manages, and provides open access to information that documents the history and functions of the Nevada state government, promotes transparency, protects civil rights, and encourages responsible stewardship of public records. This includes statutory authority to take custody of the Governor's records as they leave office and open them for public inspection (NRS 378.290). The Archives holds over 18,000 cubic feet of records and 13,000 photographs. The Records Management program advises and collaborates with agencies and local governments in drafting and reviewing retention schedules that ensure appropriate retention of records and compliance with NRS. This program also operates the State Records Center, providing high-capacity, low-cost, secure storage for over 53,000 cubic feet of inactive official state records. These records may be accessed on demand by state agencies as needed. In addition, Imaging and Preservation Services provides high-quality digital imaging and microfilm capture of essential government documents at significant savings to client agencies of state and local governments. The program ensures government documents are preserved in accordance with NRS 239.070, 378.255, and 378.280 and conserves state resources by increasing accessibility to information and reducing agencies' need for physical storage of paper records. The program provides services for digitization, printing, and storage of documents, photographs, maps, and plans. Statutory Authority: NRS 378.230 through 378.320.

PROGRAM DESCRIPTION

The Nevada Library Cooperative (Co-Op) is a regional network of libraries formed in 1981 under the authority of NRS 379.1475 for the purpose of facilitating regional cooperation and sharing of resources. Member libraries include public, academic, and special collections including the Sparks Heritage Research Museum, the Nevada Historical Society, Nevada State Museum (Las Vegas) and the Nevada State Library, Archives and Public Records. The Co-Op's mission is to develop and enhance library services and activities extending beyond the jurisdiction of any single participating library. The Co-Op's budget is funded primarily through membership fees and the governing board approves funding, develops, operates, and maintains services for the benefit of the public. The Co-Op's Integrated Library System manages a shared catalog of over 1.1 million items including books, digital content, searchable databases, photographs, manuscripts and more. The Co-Op's interlibrary loan program extends availability of its catalog to patrons in the most remote areas of Nevada. Member libraries are also able to individualize services through a "cafeteria plan" of options enhancing library operations and development made affordable through the increased buying power of the Co-Op. Statutory Authority: NRS 379.147 through 379.150 and 277.080 through 277.180.

ADMINISTRATION - SPWD - FACILITY COND & ANALYSIS

101-1560

PROGRAM DESCRIPTION

The State Public Works Division's Facility Condition Analysis Unit is responsible for inspecting and evaluating the short and long-term facilities maintenance needs for all state-owned buildings. The unit performs physical inspections of all state buildings to identify and quantify the potential short and long-term fiscal obligation and projected inventories of deferred maintenance. Staff attempts to inspect and evaluate every state building on a three-year cycle and works with state agencies to identify, evaluate, and document immediate facility condition issues and/or concerns. Staff generates Facilities Condition Analysis reports, estimates cost of repairs, makes recommendations as to the priority and urgency of the facilities' maintenance needs, and makes that information available to state agency directors, the division administrator, the Legislature, and the Budget Division. Statutory Authority: NRS 338, 341, 393 and 444.

BASE

This request continues three positions, seven board member positions, and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

NDE - PUPIL-CENTERED FUNDING PLAN ACCOUNT

203-2609

PROGRAM DESCRIPTION

The Pupil Centered Funding Plan was implemented during the 81st Legislative session. The Legislature declared that the proper objective of state financial aid to public education is to ensure each Nevada child a reasonably equal educational opportunity. Recognizing wide local variations in wealth and costs per pupil, this state should supplement local financial ability to whatever extent necessary in each school district to provide programs of instruction in both compulsory and elective subjects that offer full opportunity for every Nevada child to receive the benefit of the purposes for which public schools are maintained. Therefore, the quintessence of the state's financial obligation for such programs is now expressed in a formula that provides a certain basic and level of support to each pupil in this state, adjusted to account for variation in the local costs to provide a reasonably equal educational opportunity to pupils and for the costs of providing a reasonably equal educational opportunity to pupils with certain additional educational needs. NRS 387.1212; NRS 387.1214 to NRS 387.12468.

This request continues funding for ongoing programs.

NDE - EARLY CHILDHOOD LIT & READINESS

101-2621

PROGRAM DESCRIPTION

The Early Childhood Literacy and Readiness Account plays a crucial role in supporting early childhood education initiatives in Nevada by providing funding to two main programs: the Nevada Ready! State Pre-Kindergarten (NR!PK) program and the Early Childhood Innovative Literacy Program (ECILP) grants. The funding allows the Department to allocate resources strategically to enhance early childhood education and literacy, thereby aiming to improve educational outcomes and developmental opportunities for young children across the state.

The NR!PK program aims to enhance early childhood education by increasing access to pre-kindergarten for three-year-olds and expanding eligibility for four-year-olds and their families. By expanding access to pre-K education, the program seeks to improve school readiness and educational outcomes for children across Nevada.

ECILP grants are designed to fund innovative new programs or expand existing early literacy initiatives that cater to children under the age of six, their families, and early childhood professionals. These grants support various aspects of early literacy, such as literacy development strategies, parent and caregiver engagement in literacy activities, professional development for early childhood educators, and the integration of literacy into early childhood settings.

These initiatives not only aim to prepare children for kindergarten and beyond but also strive to build a strong foundation in literacy that supports lifelong learning and success.

NDE - ASSESSMENTS AND ACCOUNTABILITY

101-2697

PROGRAM DESCRIPTION

Assessments and Accountability funds several testing programs, each described below, mandated by the Legislature and administered by the Department of Education. The budget account is primarily funded by General Fund appropriations.

The 2001 Legislature provided funds to support a contract with a nationally recognized testing company for the development, printing, scoring, and reporting of the Criterion-Referenced Tests (CRTs) in grades 3-8 (NRS 390.105). Using the CRT program for purposes of school accountability is required for Federal Title I compliance and by NRS 385.

Pursuant to NRS 390.105 and US PL 114-95, examinations measuring proficiency and achievement in reading, writing, and mathematics are to be administered in grades 3-8. These same laws require administration of examinations measuring proficiency and achievement in science in grades 5, 8, and high school prior to grade 11. Pursuant to NRS 390.610, a College and Career Readiness assessment is required. This assessment also fulfills the requirement of US PL 114-95 to measure proficiency and achievement in reading, writing, and mathematics in high school.

Established in the 2015 Legislative session and updated in 2019, NRS 388.157 requires the assessment of all kindergarten through third grade students reading ability via a valid and reliable assessment selected by the State Board of Education. This assessment is to be developed, scored, and reported by a nationally recognized testing company according to NRS 390.105.

The Academic Standards Council provides funding to support operational costs in support of the Council to Establish Academic Standards for Public Schools. The Academic Standards Council has been designated through NRS 390.115 as the sole entity within the state responsible for the establishment, periodic review, and prioritization of content and performance standards in the subject areas of English, mathematics, science, social studies, the arts, computer and technology education, health, and physical education.

Funding for the Student Accountability Information in Nevada data system and the public facing Report Card required by NRS 385 are part of this budget account. This state reporting system captures students via unique identifications and tracks their progress through the education system, including their test results on the above-mentioned tests. Statutory authority: NRS Chapter 387, NRS Chapter 390; 2001 17th Special Session Senate Bill 2 and Senate Bill 13.

PROGRAM DESCRIPTION

The Educator Effectiveness budget account provides resources for the Department of Education, local school districts, and charter schools to attract, prepare, train, recruit, develop, and retain teachers, principals, and other school leaders to ensure that all students have access to effective, high-quality, and experienced educators. Federal dollars support allowable activities as defined by the Elementary and Secondary Education Act, and General Fund appropriations are used for review and evaluation of traditional and alternative routes to licensure preparation programs as well as development, implementation, and monitoring of the statewide performance evaluation system known as the Nevada Educator Performance Framework in accordance with state law. This budget also supports teacher recognition programs such as The Milken Educator Awards and Nevada Teacher of the Year. Additionally, this budget supports National Board Certification and military Purple Star School recognitions, and the Superintendent's Principal Advisory and Teacher Advisory Cabinets. The Teachers and Leaders Council and the Nevada State Teacher and Educational Support Personnel Recruitment and Retention Advisory Task force are also included in this budget account. Authority: NRS 391.038 and 391.039, NRS 391.450 - 391.485, 20 USC 2101 - 2103 et seq. NRS 391.490-391.496.

NDE - GEAR UP

PROGRAM DESCRIPTION

The Nevada State Gaining Early Awareness and Readiness for Undergraduate Program (GEAR UP) (NVGU) application is a collaborative effort among the Nevada Department of Education (NDE), Office of the Governor, Office of the State Treasurer, and diverse stakeholders, including parents/families, students, agency representatives, businesses and non-profit organizations. As lead agency and fiscal agent, the NDE will direct the project implementation with its partners, including the Nevada System of Higher Education (NSHE), Nevada School Districts and the National Council for Community and Education Partnerships.

NVGU programming empowers low-income and historically underrepresented students to do well academically in middle and high school, enroll in rigorous and relevant classes, graduate high school and enter college as a natural extension of their education. Activities for students include mentoring; tutoring; career exploration, Science, Technology, Engineering, and Math (STEM) activities and enrichment; educational field trips; financial literacy/financial aid workshops; and parent/family involvement. NVGU will develop a framework and strategies in GEAR UP middle and high schools for the implementation of Every Student Succeeds Act based on best practices and Nevada College Readiness Standards.

During the 2020-2026 grant period, NVGU will serve approximately 4,631 students per year and will operate statewide in eleven middle schools and nine high schools located in northern and southern Nevada school districts, as well as in academic outreach programs located at Nevada's two universities. The program will serve students beginning in the sixth grade through their first year in college at the seven NSHE Public Institutions of Higher Learning. The program schools are located in four of the 17 Nevada school districts.

NDE - CONTINUING EDUCATION

101-2680

PROGRAM DESCRIPTION

The Continuing Education account is funded through the federal Adult Education and Family Literacy Act. The purpose of the act is to provide adult basic education (ABE) and English as a Second Language (ESL) services in order to assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency; to assist adults in the completion of secondary school education; and to assist adults who are parents to obtain the educational skills necessary to become full partners in the education of their children. Funds are granted to eligible educational and community-based organizations on a competitive basis to carry out the purpose of the act. Students enrolled in the programs must be over 16 years of age and must be withdrawn from high school and not required to be in a school. A federally required 25% match is partially met by state funding for instruction; the local instructional programs contribute the balance of the match. Authority: P.L. 105-220. Workforce Investment Act, Title II, Adult Education and Family Literacy Act; NRS 387.1233.

PUBLIC CHARTER SCHOOL LOAN PROGRAM

101-2708

PROGRAM DESCRIPTION

The State Public Charter School Authority provides loans at or below market rate to charter schools for the costs incurred in preparing a charter school to commence its first year of operations and to improve the operations of existing charter schools. The lack of low-cost financing or other capital to support the operations of new and existing charter schools presents a significant hurdle to expanding and improving the quality of Nevada's charter schools. Statutory Authority: NRS 388A.432 - 388A.438.

BASE

This request continues funding for ongoing programs. One-time expenditures have been eliminated and partial year costs have been annualized.

NSHE - UNLV DENTAL SCHOOL

101-3002

PROGRAM DESCRIPTION

The University of Nevada, Las Vegas School of Dental Medicine (SDM) came into existence when key political, academic, and health leaders committed to addressing the state's shortage of dentists - particularly in rural areas - and the lack of oral health access for lower socioeconomic groups. The school was charged with preparing socially aware, clinically skilled dentists to address oral health needs in Nevada. The vision for the SDM is to provide world-class oral health education while providing for the dental needs of Nevada residents. The SDM has continually sought to provide excellence in patient-centered clinical care, patient education, and statewide community outreach programs.

NSHE - DESERT RESEARCH INSTITUTE

101-3010

PROGRAM DESCRIPTION

In 1959, the Nevada State Legislature created the Desert Research Institute (DRI) as a Division of the University of Nevada specifically devoted to conducting research. DRI became an autonomous Division of the University and Community College System of Nevada in 1969. From its beginnings, DRI has functioned as a nonprofit research campus uniquely blending academia with entrepreneurship. Approximately 500 research faculty and support staff generate more than \$35 million in research revenue each year with approximately 85% coming from the federal government or commercial entities. Research projects and programs are supported from the main campuses in Las Vegas and Reno, with an additional specialized laboratory in Boulder City, Nevada. DRI's environmental research programs are directed from three core divisions (Atmospheric Sciences, Earth and Ecosystem Sciences, and Hydrologic Sciences) as well as interdisciplinary science centers. Grounded in fundamental research, DRI provides both sponsors and clients with innovative solutions to pressing environmental problems, balancing the need to develop resources while sustaining the environment. Statutory authority: NRS 396.795 through NRS 396.7956.

PROGRAM DESCRIPTION

The Division of Food and Nutrition administers allotted USDA federal funds to Nevada for nutrition programs. Allotments for each program and/or program sponsor are based on a variety of factors including meal costs or budgets, number of individuals served and the income level/eligibility of those individuals/households. These programs also provide the funding needed to administer these programs, including processing reimbursements, monitoring services to ensure compliance and program integrity, meal pattern compliance, technical assistance, statewide education and professional development to the sponsors and operators. The powers and duties of the Division of Food and Nutrition are established under NRS chapters 385, 387, and 561.
