PEACE OFFICER STANDARDS & TRAINING COMMISSION
101-3774

PROGRAM DESCRIPTION

The Commission on Peace Officer Standards and Training (POST) establishes and regulates the minimum qualifications, training, and standards for all peace officers in the State of Nevada. POST oversees and tracks the employment, behavior, basic and professional certification, course certification, and training for Nevada's officers. Regularly scheduled public meetings are held around the state to discuss and revise laws and regulations, hear issues regarding the law enforcement community, and render judgment regarding officer behavior, which may result in denial, suspension, or revocation of POST certification. In addition, POST is responsible for establishing standardized performance objectives for all basic training academies. POST also develops and delivers exemplary training (both classroom and online), conducts its basic training academy, and provides professional courses for officers throughout the state. POST performs statewide audits of all 139 agencies and 35 academies, providing guidance and oversight while monitoring compliance with standards set forth in the NRS and NAC. NDOC - PRISON MEDICAL CARE

101-3706

PROGRAM DESCRIPTION

The mission of the Medical Division of the Nevada Department of Corrections (NDOC) is to provide quality, constitutionally mandated health care using an efficient system of managed care that is professional, humane, and appropriate. Inmate health care is comprised of medical, dental, and clinical mental health care. To fulfill its mission, the Medical Division operates infirmaries or clinics at all NDOC institutions. The major medical facility for the department is the Regional Medical Facility (RMF) integrated into the operation and perimeter of the Northern Nevada Correctional Center. The RMF provides inpatient medical care for serious medical conditions; surgical aftercare; inpatient mental health care; structured living unit for mental health patients after discharge from inpatient services; and long-term care for fragile, aging, and disabled inmates. Mental health extended care is also provided at High Desert State Prison. The camps and transitional housing centers obtain medical services from institutions specifically assigned to support them. In fiscal year 2003, the Medical Division resumed the provision of health care services for Ely State Prison and in fiscal year 2005, resumed the provision of health care services for Florence McClure Women's Correctional Facility from two different private health care contractors. In fiscal year 2004, inmate programming moved from the Medical Division and organized into a separate Programs Division, budget account 3711, which was funded by the Legislature. The Medical Division is not National Commission on Correctional Health Care (NCCCHC) accredited; however, NCCCHC standards are used as a guideline for policy and procedure development. Statutory Authority: NRS 209.

PROGRAM DESCRIPTION

The Nevada Department of Correction's (NDOC) Programs Division incorporates nationally recognized risk-needs assessments during the intake and classification process to provide evidence-based psycho-educational programming, substance abuse treatment, re-entry, and transitional services. In addition, the division provides religious services, vocational training, counseling and therapy for inpatient/outpatient mental health issues, educational liaison services with local school districts, and special needs programs (for youth, aging, etc.). The Programs Division has also formed a partnership with local community colleges to offer post-secondary education opportunities. Programs Division professional staff includes mental health counselors, psychologists, social workers, substance abuse counselors, caseworkers, program officers, chaplains, and support staff. In addition to the services provided by our staff, there are approved volunteers who provide religious, 12-step, and other voluntary programming appropriate for offender participation and growth. The division's offender programs are funded in part by grants obtained by the NDOC or by partnerships with community organizations that obtain the grants and bring services to Nevada's offenders that will assist in their preparation for successful reintegration into our communities. Statutory Authority: NRS 209.4887.

PROGRAM DESCRIPTION

The Northern Nevada Correctional Center (NNCC) opened in 1964 as a medium security facility with three housing units. From 1964 until 2008, six additional housing units were added. NNCC provides intake for the northern region and houses the Regional Medical Facility (RMF) for the Department of Corrections. The RMF provides inpatient medical and mental health services. PROGRAM DESCRIPTION

The Nevada State Prison (NSP) was established in 1862 when the Nevada Legislature purchased the Warm Springs Hotel and 20 acres of land for \$80,000. It is now one of the State's Historical Treasures managed by the Nevada State Prison Preservation Society. This facility will now be used to showcase Nevada's rich history through commercial and tourist related activities such as guided tours. Statutory Authority: NRS 209.

NDOC - WARM SPRINGS CORRECTIONAL CENTER

101-3716

PROGRAM DESCRIPTION

The Warm Springs Correctional Center (WSCC) was constructed in 1961. It has undergone several changes and additions and is now a men's medium security institution that has an emphasis on programming. The Carson City School District offers adult basic education, high school equivalences, high school diplomas, and vocational programs in culinary arts and computer science. In addition, Western Nevada College offers college level classes at the inmates' expense. WSCC offers programs for inmates such as the Phoenix program (drug and alcohol treatment), Re-Entry program (employment-skills), Veterans Integration Program (VIP), and Pups on Parole with the Carson City Humane Society. Through programs like Getting It Right and Moral Recognition Therapy, social skills such as moral development, emotional regulation, relapse prevention, and planning techniques are taught which have an emphasis on values such as discipline, respect, motivation, and leadership. Mental health, classification, recreation specialist and chaplain staff facilitate programs such as Commitment to Change; Anger Management II: Continuing to Cage Your Rage, Anxiety, Feelings, Criminal Thinking/Criminal Behavior; Victim Awareness (Empathy); Starting Over; and Life Skills Series. WSCC offers work opportunities within the facility including programs through Prison Industries which provide offenders with an opportunity to work and receive a minimum wage salary. The mission of WSCC is to provide safe and secure confinement, supervision and reintegration of offenders, and to provide opportunities for offenders to make positive change through work, education, and programming to become productive members of society upon release. Statutory Authority: NRS 209.

PROGRAM DESCRIPTION

The Florence McClure Women's Correctional Center (FMWCC) is located in Las Vegas. In 1996, this facility became operational to house incarcerated women. The Corrections Corporation of America (CCA) owned and operated the facility until purchased by the State of Nevada in October 2001. Effective October 1, 2004, the Nevada Department of Corrections took possession of the facility, eliminating the need to contract with the CCA. Formerly known as the Southern Nevada Women's Correctional Center, the facility was renamed in 2007 in honor of Florence McClure and her contributions to improving conditions for incarcerated women. FMWCC houses all custody levels of female inmates in Nevada. The facility's capacity increased in 2008 with the addition of a 240-bed dorm and in 2009 with a 300-bed addition to the main facility. FMWCC has several various religious programs available to all inmates. Clark County School District offers high school diplomas as well as high school equivalency certificates. FMWCC has a substance abuse therapeutic community that offers long-term substance abuse treatment. It also offers mental health treatment programs, a re-entry program that prepares inmates for the reintegration into society, and the Pups on Parole Program that trains inmates to be certified dog handlers. In addition, FMWCC offers the New Path Cosmetology program that is designed to master the art and sciences of the cosmetology industry resulting in a cosmetology license. Statutory Authority: NRS 209.

NDOC - CASA GRANDE TRANSITIONAL HOUSING
101-3760

PROGRAM DESCRIPTION

Casa Grande Transitional Housing (CGTH) opened in December 2005. The dormitory-style facility was built to house non-violent, low-risk male and female inmates within 18 months of their probable release. CGTH's mission is to allow these residents the opportunity to seek work, education, re-entry services, and secure permanent housing prior to reintegrating into society. Wages earned by the residents are collected to offset the cost of their incarceration, and pay any court ordered restitution and funds upon release. Since its inception, CGTH has expanded its programs and has partnered with the Department of Public Safety, Division of Parole and Probation to include programs for parolees and probation violators. In addition, CGTH houses the Program of Regimental Discipline (PRD) "Bootcamp". This is an 11-month program that allows the successful trainee to no longer have a felony noted on their criminal record. Statutory Authority: NRS 209.

NDOC - STEWART CONSERVATION CAMP

101-3722

PROGRAM DESCRIPTION

The Stewart Conservation Camp (SCC) is adjacent to the Northern Nevada Correctional Center and originally opened in 1978. In 1995, SCC was rebuilt and more than doubled the size of the original camp. SCC houses minimum security and community trustee inmates in five dormitory type units. Inmates at SCC can earn their general education diploma. The largest employer of the inmates at SCC is the Nevada Division of Forestry. The inmates are assigned to 12-man crews to work on conservation projects and fire suppression activities. Inmates also work for Prison Industries, which runs the ranch, the dairy, and the Wild Horse Training program. Under the supervision of Prison Industries, the ranch employs in their operations: a commercial dairy, alfalfa production, and care for horses in coordination with the Department of Agriculture and the Bureau of Land Management. The Wild Horse Training program involves inmates training horses for adoption by the public. Additionally, some of the inmates are classified as community trustees who provide support services for several state agencies in Carson City. Statutory Authority: NRS 209.

NDOC - THREE LAKES VALLEY CONSERVATION CAMP
101-3725

PROGRAM DESCRIPTION

The Three Lakes Valley Conservation Camp (TLVCC) is a minimum-security facility, adjacent to the Southern Desert Correctional Center (SDCC) at Indian Springs. This institution initially opened in 1982 as Indian Springs Conservation Camp with the opening of SDCC. At that time, the facility housed a male inmate population in an open bay facility. The institution opened with a 108 bed capacity but was expanded to 150 beds in 1990. In 1994, the camp layout was restructured for better security and the capacity was increased to 248 inmates. In 2008, the facility was renamed Three Lakes Valley Conservation Camp, and in 2010 TLVCC was expanded further to incorporate a new facility that increased its total capacity to 384 inmates. The inmates at TLVCC support the Nevada Division of Forestry program for conservation and fire suppression with 12-man crews. Statutory Authority: NRS 209

PROGRAM DESCRIPTION

The Jean Conservation Camp (JCC) houses female minimum-security inmates. Its parent institution is the Florence McClure Women's Correctional Center, which is 45 miles away. The camp opened in August 1988. New construction, completed in the spring of 1999, replaced existing housing units and increased capacity from 112 to 240 inmates. JCC became an all-female facility when the High Desert State Prison opened in September 2000. JCC has various religious programs available to all inmates, general education diploma and high school diploma courses, and a variety of correspondence college level classes. In addition, JCC offers a wide variety of self-help programs provided by a Mental Health Counselor. The inmates housed at this facility support the Nevada Division of Forestry program for conservation and fire suppression with 12-man crews. Statutory Authority: NRS 209.

NDOC - PRISON INDUSTRY

525-3719

PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide offenders the skills necessary to successfully re-enter society, and enhance the safe operation of correctional facilities. Operations include furniture and metal fabrication shops at Northern Nevada Correctional Center (NNCC), a printing/bindery shop and mattress factory at NNCC, a garment sewing factory and drapery sewing shop at Lovelock Correctional Center, and an automobile refurbishing/repair and motorcycle repair shop at Southern Desert Correctional Center (SDCC). Prison Industries operates used playing card recycling operations at High Desert State Prison and SDCC. Additionally, clothes hangers are recycled at HDSP. These private businesses utilize offenders as part of the Prison Industries program. Approximately 600 offenders work in Prison Industries' programs. Statutory Authority: NRS 209.189.

NDOC - PRISON RANCH

525-3727

PROGRAM DESCRIPTION

The mission of Prison Industries (Silver State Industries) is to reduce government operating costs, provide offenders the skills necessary to successfully re-enter society and enhance the safe operation of correctional facilities. To fulfill its mission, Prison Industries operates as a self-supporting operation, providing meaningful work and job training for prison offenders, in the production of goods and services at little or no direct cost to the taxpayer. One of Prison Industries' operations is the Prison Ranch. The Prison Ranch is self-supporting, operating from revenue derived from processed milk sold to the Department of Corrections and other state agencies, as well as from the sale of cream and surplus raw milk to a cooperative. Additional income is generated from the sale of livestock, renting unused grazing land, and boarding of both estray horses (Department of Agriculture) and wild horses (Bureau of Land Management), until they have been adopted, sold to private individuals, or moved to another holding facility. A private business operates a composting operation on the ranch. The Prison Ranch currently provides work for 64 offenders. Statutory Authority: NRS 209.189.

DMV - HEARINGS

201-4732

PROGRAM DESCRIPTION

The Department of Motor Vehicles, Hearings Office provides due process hearings to any person statutorily entitled to a hearing upon being aggrieved by a decision of the department. Many of these hearings concern the suspension, revocation, or cancellation of a privilege license issued by the department, such as a driver's license or a license to conduct business involving motor vehicles. The decisions of the administrative law judges assigned to the office may therefore impact the lives and property of thousands of Nevadans. For this reason, the office strives to conduct all hearings in a timely, fair and impartial manner, and in accordance with the provisions in the Nevada Administrative Procedures Act, Chapter 233B. The office is supported primarily from Highway Fund revenues. Statutory Authority in NRS 366, 445B, 481, 482, 483, 484B, 485, 487, and 706.

BASE

This request continues 11 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The purpose of the Emission Control Program is to ensure that vehicles comply with Nevada's laws and regulations regarding emission standards. The division cooperates with various planning agencies involved in air quality standards to evaluate Nevada's Air Quality Attainment. The division is also a core member of the Inspection and Maintenance Advisory Committee, which receives feedback from the motor vehicle industry. Statutory Authority: NRS 445B, 481.0473, 481.0475, 481.0481, 482.461, and 482.465.

DPS - EVIDENCE VAULT
201-4701

PROGRAM DESCRIPTION

The Department of Public Safety (DPS) has three dedicated evidence vaults statewide to support all of its divisions. As a law enforcement operation, sworn officers regularly seize property, money, and contraband from individuals for evidentiary, safekeeping, or destruction purposes. This program secures and manages the evidence seized by DPS sworn staff. This budget is cost allocated to the participating divisions.

BASE

This request continues seven positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DPS - HIGHWAY SAFETY GRANTS ACCOUNT

PROGRAM DESCRIPTION

The Department of Public Safety, Highway Patrol Division, receives federal grants administered through this budget account. The granting agency is the U.S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), whose focus is accident, fatality, and injury reduction of commercial motor vehicle (CMV) related crashes. These reductions are accomplished through consistent, uniform, and effective CMV safety programs. The federal grants include the Motor Carrier Safety Assistance Program (MCSAP) and the High Priority (HP) grant programs. The MCSAP grant is a formula distribution made available to state and local entities that conduct traffic safety programs and activities. These federal funds are used for qualifying programs designed to support the enforcement of CMV regulations, CMV inspections, and CMV/non-CMV traffic enforcement. The management and oversight of the MCSAP grant is supported by 15 positions and requires a 15% soft match, which is provided by Highway Patrol trooper time spent on MCSAP eligible activities. The High Priority is a discretionary grant program that provides support for a number of different initiatives including information technology deployment, safety data improvements, and CMV safety enforcement. State match is based on the type of activity proposed. For example, media activities are 100% federal funds eligible. Statutory Authority: NRS 480.300, 480.330, 480.340, and 480.360.

BASE

This request continues 18 positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

PROGRAM DESCRIPTION

The Central Repository for Nevada Records of Criminal History is administered by the Department of Public Safety Records Bureau and administers the Nevada Criminal Justice Information System (NCJIS), which serves as the state's clearinghouse for criminal history record information and crime statistics. The system provides information and activities that support a wide variety of public safety interests and functions as the information portal through which law enforcement agencies statewide accesses criminal history record information from the Federal Bureau of Investigation (FBI) and other national and state criminal history databases. The bureau is a member of the Western Identification Network, a regional consortium of eight western states that share fingerprint images and criminal history record information and participates in the FBI's Interstate Identification Index and in the National Crime Prevention and Privacy Compact for the release of criminal history record information for non-criminal justice purposes. The bureau is further designated as the Chief Law Enforcement Official for the purposes of administering the Brady Handgun Violence Prevention Act of 1993.

The repository includes the following programs: Uniform Crime Reporting; the Point-of-Contact firearms (Brady); the Repository For Information Concerning Orders For Protection; the Nevada Sex Offender Registry; Civil Name Check; and the NCJIS Compliance; Sexual Assault Forensic Evidence Track IT. Statutory Authority: NRS 179A and 179D.

DPS - STATE EMERGENCY RESPONSE COMMISSION

201-4729

PROGRAM DESCRIPTION

The mission of the State Emergency Response Commission (SERC) is to protect the citizens of the State of Nevada against the negative effects of hazardous materials. The SERC is the executive agency for Nevada's compliance with the federal Superfund Amendment Reauthorization Act, Title III, also known as the Emergency Planning and Community Right-to-Know Act. The information is provided to the public and first responders for both planning and reference purposes through a combined database coordinated with the State Fire Marshal's Office. Pursuant to NRS, fees are collected on the reports submitted. These funds support the Local Emergency Planning Committees and state agencies with equipment, training, and planning activities needed to prevent and respond to hazardous material incidents. Statutory Authority: 42 U.S.C. 11001; NRS 459.735 through NRS 459.744.

PROGRAM DESCRIPTION

The Office of Traffic Safety was established to secure the full benefits available through the Federal Highway Safety Office programs. Funds are authorized by Congress at or near the beginning of each federal fiscal year. Funds are expended on a reimbursement basis to local and state agencies that were awarded grants based upon the merit of their proposals, to mitigate traffic safety problems in their jurisdictions. Proposals that are chosen for a grant award are plans that promote public information and awareness through the use of effective education campaigns, fund innovative traffic enforcement programs, and other community-based countermeasures to improve traffic safety. Statutory Authority: NRS 223.200

BASE

This request continues funding for internal and subrecipient activities for the agency. One-time expenditures have been eliminated and partial year costs have been annualized.

**DPS - JUSTICE GRANT
101-4736**

PROGRAM DESCRIPTION

The Department of Public Safety Office of Criminal Justice Assistance (OCJA) obtains, administers, and sub-grants to state and local government agencies grant funds from the U.S. Department of Justice for programs that address illegal drug use, trafficking, violent crime, and improvement of the functioning of the criminal justice system. The objective is to coordinate education, prevention, treatment, and law enforcement to achieve a comprehensive solution to the problems of drug abuse and violent crime. Funding for this budget comes primarily from federal grants with a partial match from General Fund appropriations. Created by the Anti-Drug Abuse Act of 1986, Section 1308 states that the chief executive of each state shall designate a State Administrative Agency (SAA). In 1987, the OCJA was designated by the Governor as the SAA for Nevada. In November of 2000, the agency was designated by the Governor as the state coordinator for the 1033 Department of Defense Excess Property Program and the state point of contact for the 1122 General Services Administration Purchasing Program. Statutory Authority: NRS 480.800.

The OCJA was designated by the Governor as the State Administrative Agency for Nevada in 1987. In November 2000, the agency was designated by the Governor as the state point of contact for the 1033 Department of Defense Excess Property Program, and the State Coordinator for the 1122 General Services Administration Purchasing Program.

CRC - COLORADO RIVER COMMISSION

296-4490

PROGRAM DESCRIPTION

The Colorado River Commission is empowered to acquire, manage and protect all of Nevada's federal allocation of water and hydropower resources from the Colorado River for the residents of Nevada. In addition, it provides electric power resources to certain customers from any available source for needs over and above the state's hydropower allocations. These resources are primarily centered in and benefit, southern Nevada. The Colorado River Commission Fund acts as the General Fund appropriations for all commission activities. All personnel costs for commission staff and all of the basic activities and functions performed in fulfilling the commission's legislative mandate are recorded in this account. The commission is entirely funded by its customers and receives no state or federal funds in carrying out its activities. The Colorado River Basin states are in constant contact regarding the issues of the lower basin; the bulk of commission travel occurs in California and Arizona. In addition, the commission has extensive involvement with a number of agencies of the federal government, including the Department of Interior, Department of Energy, Bureau of Reclamation, Western Area Power Administration, U.S. Fish and Wildlife Service, Environmental Protection Agency, Bureau of Land Management, National Park Service and others. Statutory Authority: NRS 538.

PROGRAM DESCRIPTION

The Research and Development Fund provides engineering studies, analyses, negotiations and other efforts in protecting the interests of the state in the development of any of the resources under the control of the Colorado River Commission. The fund is currently utilized as a pass-through account for the Lower Colorado River Multi-Species Conservation Program costs. The program is a 50-year program to address the biological needs of mammals, birds, fish amphibians, reptiles, invertebrates, and plants to comply with the Endangered Species Act. Funding is provided to the commission by its water and power contractors in accordance with the multi-species funding contracts. The Federal Bureau of Reclamation is the implementing agency for the program and the commission staff participate on the steering committee that provide oversight and input to reclamation regarding the implementation of the program. The program assures continuation of the Colorado River operations, including Nevada's diversions of Colorado River water from Lake Mead and continued generation of power at the federal hydropower generating facilities while complying with the Endangered Species Act. Statutory Authority: NRS 538.191

CRC - POWER DELIVERY PROJECT
502-4501

PROGRAM DESCRIPTION

The Power Delivery Project (PDP) budget accounts for all of the costs associated with the Colorado River Commission's high voltage transmission, transformer and distribution system designed and tied into the Southern Nevada Water Authority's (SNWA) water delivery system. The system provides a power transmission system from the Lake Mead substation at Hoover Dam to the SNWA water treatment facility. This fund accounts for power market related power purchases for any commission customer as requested and needed for load requirements. The funding for all activities related to this budget account are provided by the SNWA and other customers under funding contracts. The contracts related to the operation of the PDP require detailed line-item budget projections at the beginning of each year which must be approved by the SNWA. In addition, this fund provides for activity related to the Silver State Energy Association (SSEA) of which the commission is a member. The SSEA provides market electric power resources to its members and, through the commission, to certain customers. The commission provides most of the required personnel resources to the SSEA under contract. SSEA activity is also subject to annual budget approval by the SSEA board. Statutory Authority: NRS 538.

PROGRAM DESCRIPTION

The 2013 Legislature approved Assembly Bill 461 on June 11, 2013, and established the account to restore the sagebrush ecosystem per NRS 232.161. The account is administered in a manner consistent with policies and priorities established by the Sagebrush Ecosystem Council created by NRS 232.162. The director may apply for and accept any gift, donation, bequest, grant, or other source of money and any money so received must be deposited in the account. The interest and income earned on the money in the account, after deducting any applicable charges, must be credited to the account. Money that remains in the account at the end of a fiscal year does not revert to General Fund appropriations and the balance in the account must be carried forward to the next fiscal year. The money in the account may only be used to establish and carry out programs to preserve, restore, and enhance sagebrush ecosystems pursuant to NRS 321.592 and 321.594.

BASE

This request continues funding to support the effort to restore the Sagebrush Ecosystem and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

DCNR - WATER CONSERV & INFRASTRUCTURE
101-4159

PROGRAM DESCRIPTION

This budget account is specific to costs associated with the Nevada Water Conservation and Infrastructure Initiative (NWCII). The centerpiece of the NWCII is a \$100 million grant proposal funded through the American Rescue Plan Act (ARPA). This program supports investments to reduce water demand by residential, commercial, and agricultural sectors, while supporting investments to repair and replace aging, leaking infrastructure and simultaneously investing in our workforce. The initiative will deploy \$100 million in ARPA dollars towards water infrastructure and conservation efforts using a formula-based selection process and administered through the Nevada Department of Conservation and Natural Resources.

BASE

This request continues two positions and associated operating costs. One-time expenditures have been eliminated and partial year costs have been annualized.

**DCNR - ENVIRONMENTAL QUALITY IMPROVEMENT
101-4160**

PROGRAM DESCRIPTION

This budget account is established as an environmental quality improvement account (EQIA) with funds collected through the Supplemental Environmental Projects (SEP) program as defined by the United States Environmental Protection Agency (US EPA) as, "environmentally beneficial projects which a defendant/respondent agrees to undertake in a settlement of an enforcement action, but which the defendant/respondent is not otherwise legally required to perform." The Division of Environmental Protection's approach to SEPs is modeled after US EPA's program. Funds related to the SEP program and other enforcement actions that result in penalties with specific uses of the funds outlined in the enforcement action for use through the EQIA will be held in this account and transferred to another Department of Conservation and Natural Resources budget account for expenditure upon identification of an appropriate related project.

PROGRAM DESCRIPTION

The Nevada Commission on Off-Highway Vehicles (OHV) was established on July 1, 2011, to promote the responsible use of recreational OHV, pursuant to NRS 490. The Commission has granting authority for OHV registration fee proceeds with grants awarded in accordance with approved regulations. Grants are provided for law enforcement, education/public awareness, and OHV trail management and development. OHV was placed within the Nevada Department of Conservation and Natural Resources (DCNR) in May 2016. This was done in part through an Interim Finance Committee action that created an initial Executive Budget for the OHV Commission within DCNR fiscal structure as agency 703.

PROGRAM DESCRIPTION

The State Department of Conservation and Natural Resources Forest Fire Suppression account funds protection of life, property, and natural resources from fire, flood, and other natural or human caused emergencies. The program is funded with a combination of General Fund appropriations, and reimbursements paid to the Nevada Division of Forestry for firefighting efforts made on behalf of others, and Federal Emergency Management Agency - Fire Management Assistance grants and sub-grants. The agency has access to the Interim Finance Committee Contingency Fund, the Reserve for Statutory Contingency Account and the Disaster Relief Account when the volume or severity of fire incidents result in insufficient funds to meet state obligations. Statutory Authority: NRS 472.

PROGRAM DESCRIPTION

The State Department of Conservation and Natural Resources Division of Forestry Conservation Camp Program coordinates, directs, and supervises the work performed by agency-staffed fire and fuels crews including Department of Corrections inmates based at Forestry Conservation Camps located throughout the State of Nevada. The Conservation Camp Program provides the work force for labor-intensive forestry and conservation work projects, wildfire management and other emergency activities. The Program consists of 200-300 inmate crew members, 12 resource-only crew supervisors, 26 fire and resource crew supervisors, and 56 staff firefighter crew members that use approximately 161 pieces of equipment and vehicles based at eight facilities statewide. Inmate supported operations exist in: Carson City (Stewart/Eastern Sierra), Carlin, Ely Industrial Shop, Pioche, Three Lakes (Las Vegas), and Jean. Each of these facilities field both fire and conservation project crews. Facilities in Carlin, Washoe Valley (Bowers), Ely, and Winnemucca (Humboldt) support fire and fuels crews consisting of staff firefighters who also perform conservation and wildfire mitigation when not responding to wildfires. Tonopah supports a conservation project team of agency staff, and all Forestry operations have ceased at the Wells and Ely Camp facilities. In addition to fielding conservation project and fire crews, some camps support nursery operations and/or mobile kitchen units on large fire incidents.

PROGRAM DESCRIPTION

The State Department of Conservation and Natural Resources, Division of Forestry Nursery Program, under the oversight of the Natural Resource Program, was established in 1957 to provide technical assistance and conservation plant materials such as tree seedlings, shrubs, forbs, and seeds to meet the conservation needs of Nevada's private landowners and public land management agencies. The Nursery Program is comprised of two facilities, one in Washoe Valley, and one in the Las Vegas Valley. The Seedbank was established in 1995 to provide seed, equipment, and other materials to rehabilitate wildland fire, and fire suppression related damages. The Seedbank facility is co-located with the nursery in Washoe Valley. The Forest Products Utilization Program was established in 2012 to focus on adding value to cut wood that occurs from the agency's normal fuel reduction and forest health enhancement projects. The value-added products, typically wood chips, fuel wood, and saw logs are sold from the nursery/seedbank facility in Washoe Valley. All these enterprise programs receive operating funds based on the sale of conservation plant materials and forest products. Statutory Authority: NRS 472, 527, and 528.

DCNR - NEVADA NATURAL HERITAGE

101-4101

PROGRAM DESCRIPTION

The Nevada Division of Natural Heritage provides expertise in the areas of zoology, botany, and community ecology, including the study of wetland ecosystems; and maintains data systems related to the location, biology, and conservation status of plant and animal species and ecosystems per NRS 232.1369. Data curation for rare and at-risk plant and animal (including invertebrates) species includes data collection, data input, and quality control. Data is provided on request to other state agencies, federal agencies, non-governmental organizations, consultants, and the public to inform conservation planning and land-use planning decisions, facilitate federally mandated environmental review, minimize future resource conflicts, protect biodiversity, and help prevent species from becoming threatened or endangered. The division maintains botanical expertise per NAC 527.200 and serves as a scientific advisor to the State Forester/Firewarden for topics related to native flora. The division also manages the Nevada Wetland Program with the goals of stakeholder and interagency collaboration, understanding the extent, quality and stressors of the state's wetland resources, and protecting and restoring wetland ecosystems.

**DCNR - DEP MINING REGULATION/RECLAMATION
101-3188**

PROGRAM DESCRIPTION

It is the mission of the Bureau of Mining Regulation and Reclamation (BMRR) to ensure Nevada's surface and groundwaters are not degraded by mining operations, and lands disturbed by mining operations are reclaimed to safe and stable conditions to ensure a productive post-mining land use. Facilities utilizing chemicals for processing ores are generally required to meet a zero-discharge performance standard. BMRR works collaboratively with the mining industry and the public to achieve its mission. This budget account is fully funded by permitting fees and is comprised of three technical units: Regulation, Closure and Reclamation. These units perform a variety of plan reviews, permitting, inspection, compliance monitoring, and enforcement activities to ensure the design, construction, operation, closure, and reclamation of mining and exploration operations. Operators must file a financial assurance/guarantee with the division or federal land manager to ensure that reclamation of the mine site will be completed should an operator default on a project.

The Regulation and Closure branches regulate mining in Nevada under the authority of NRS 445A.300-445A.730 and NAC 445A.350-447. The reclamation branch regulates mining in Nevada under the authority of NRS 519A.010-.280 and NAC 519A.010-415.

DCNR - DEP SAFE DRINKING WATER PROGRAM

101-3197

PROGRAM DESCRIPTION

The Bureau of Safe Drinking Water implements the Public Water System Supervision Program (PWSSP) and the Laboratory Certification Program (LCP). The PWSSP is authorized under the federal Safe Drinking Water Act (SDWA) and maintains primacy for the State of Nevada. State implementation of the PWSSP ensures Nevada's public water systems comply with state and federal drinking water standards by enforcing the sampling, monitoring, and National Primary Drinking Water standards, including requirements for water quality, surface water treatment, and corrosion control. The program assesses water sources (including identification of potential contaminant sources); assists communities and water systems in developing and implementing source water protection strategies; conducts sanitary surveys; certifies the qualifications of public water system operators; and requires public notification when systems are out of compliance. The bureau also reviews engineering plans for public water systems and the subdivision of land. Additionally, PWSSP provides training, information transfer, and regulatory update presentations at meetings of water industry associations. This program is funded by federal grants and fees. The LCP assesses laboratories and produces information used in regulatory decision-making by division programs in Safe Drinking Water, Water Pollution Control, Mining Regulation and Reclamation, Waste Management, and Corrective Actions. Pursuant to NRS 445A.428, 445A.863, and NRS 459.501, laboratories that perform analyses to meet requirements of the SDWA, Clean Water Act, and Resource, Conservation and Recovery Act, must be certified by the State of Nevada. Labs analyzing mining methods to meet Mining Regulations must be certified or state approved by the State of Nevada. The LCP program ensures that analyses are conducted according to Environmental Protection Agency and state approved methods with accurate and reproducible results. This program is funded by fees. Statutory Authority: NRS 445A.800-.955, 445A.300-.730, and 459.400-.600.

WILDLIFE - FISHERIES MANAGEMENT

101-4465

PROGRAM DESCRIPTION

The mission of the Fisheries Division is to manage, protect, and enhance all of Nevada's fisheries resources for the greater good of all Nevadans. This includes the conservation of native aquatic species; promotion of fishing in Nevada through a system of strategically located hatcheries; and by managing Nevada's waters to their highest end use for anglers. The Fisheries Division strives to provide anglers with information essential to the sport, prevent the introduction of additional aquatic invasive species to Nevada, and minimize detrimental impacts to established fisheries and aquatic habitats. The powers and duties of the department are established under NRS chapter 501.

The division is responsible for sensitive species management and surveying; Endangered Species Act consultation and recovery work; implementation of the Nevada Wildlife Action Plan; habitat restoration; and the Department of Wildlife's portion of the Lake Tahoe Environmental Improvement Program. The powers and duties of the department are established under NRS chapter 501.

PROGRAM DESCRIPTION

The Tahoe Regional Planning Agency (TRPA) was jointly created by Nevada, California, and the United States Congress. The TRPA leads the cooperative effort to preserve, restore, and enhance the unique natural and human environment of the Lake Tahoe region. TRPA's vision is to have a lake environment that is sustainable, healthy, and safe for the community and future generations. Under the Tahoe Regional Planning Compact, requests for state funds by the TRPA must be apportioned two-thirds from California and one-third from Nevada. As a planning agency, TRPA has the power to exercise effective environmental controls and perform other essential functions over the water, land, air, wildlife and development of the Lake Tahoe region. Starting in 1997, with the Nevada and California Governors' Memorandum of Understanding and the Presidential forum, TRPA has led the cooperative efforts of funding the Environmental Improvement Program. Statutory Authority: NRS 277.190 through 277.220.

PROGRAM DESCRIPTION

The Cannabis Compliance Board (CCB) administers Nevada's legal medical and adult-use cannabis programs, ensuring the protection of public health and safety through a strict and rigorous regulatory system. The CCB's responsibilities include licensing and regulation of Nevada cannabis establishments. The Department of Taxation was assigned responsibility of the adult-use cannabis program with the voter-passed Regulation and Taxation of Marijuana Act in November 2016, which legalized adult-use cannabis in Nevada. The Nevada Legislature transferred responsibility of the state's medical cannabis program from the Department of Health and Human Services to the Department of Taxation on July 1, 2017. The 2019 Nevada Legislature passed Assembly Bill 533, creating the Cannabis Compliance Board and transferred the authority to license and regulate persons and establishments relating to cannabis from the Department of Taxation to the Board. The CCB became effective July 1, 2020.

The CCB administers six cannabis license types and is responsible for establishing licensing qualifications; determining the need to license additional establishments in the state; reviewing applications for licensure; issuing initial and annual renewal of licenses; tracking licenses; reviewing and making determinations on transfers of ownership; and suspending, revoking and reinstating licenses. The CCB establishes standards and procedures for the cultivation, production, testing, distribution, consumption, and sale of cannabis in Nevada. As a critical part of its regulatory oversight, the CCB inspects cannabis establishments to ensure compliance with state laws and regulations around issues such as public health and safety, security, testing, inventory tracking, and labeling. Additionally, the CCB reviews all proposed cannabis menu items and packaging design for regulatory compliance.

There are two tax types specific to cannabis that the Department of Taxation is responsible for administering and collecting: wholesale cannabis tax and retail cannabis tax. Revenues from the wholesale cannabis tax, as well as revenues from fees, penalties, and assessments, will first pay the CCB's administrative and enforcement costs. Five million dollars per year is then distributed to counties, cities, and towns, and the remainder is distributed to the state Distributive School Account. At the end of each calendar quarter, the Department of Taxation calculates and publishes the fair market value at wholesale rates for multiple categories of cannabis product, upon which the wholesale cannabis tax is calculated. The Department of Taxation distributes revenues from the retail cannabis tax to the Account to Stabilize the Operation of State Government. Statutory Authority: NAC 372A.155
